The Democrats Urging a Resistance to the Draft!

The *Prattsville News*, the new organ of the Democracy in Greene County, is out in an article urging the people to petition Gov. Seymour "to adopt such measures as he may deem necessary to prevent the enforcement of the *Conscription Act passed by the late Congress.*"—That delectable sheet publishes, in connection with its disgraceful appeal, the form of a petition, which it suggests should be cut out, signed, and forwarded to "His Excellency."

At a time when our soil is being invaded by the enemy—when the Government is urging every means in its power to push the War to a successful close, and when the time of very many of our brave volunteers is expiring, and more men needed in the Army to save us from an ignominious and everlasting *National Defeat and Death!*—what but the spirit of an incarnate fiend could be willing to counsel the State authority to place itself in a position to thwart the purposes of the Government in raising the men necessary to save the Nation from that direful calamity?

Is it feared that a fair proportion of democrats will be *compelled* to go to the battle-field, having been sadly in the back-ground as volunteers?—Or are we to consider their petitioning the Governor to resist the draft as a frank and now openly avowed desire for the defeat of our Arms? It looks marvellously like *both!*

KINGSTON PRE

The Enrollment and the Catskill Recorder.

Among the systematic misrepresentations of the Draft and of everything relating to it, constantly resorted to by the Copperhead press, and which was so successful in exciting the mob spirit in New York recently, is the declaration of the last Catskill Recorder, that while the number of men enrolled in this Congressional District last year was 17,743, the number is only 16,051 this year—leaving the inference that 1,692 names have been wilfully left off the rolls in order to screen certain parties from the Draft.

Now what are the facts in the case? We have been at some pains to enquire into the charge, and find as follows: That the enrollment of last year embraced persons between the ages of 18 and 45 years, as will be remembered, while that of this year only takes those between the ages of 20 and 45 years; and that the number of the former in this District (as per the returns to the Adjutant-General of the State) was 17,091 instead of 17,743 as stated by our Copperhead cotem-

porary, and that the number of the latter, as on file in the office of the Provost-Marshal in this village, is 18,804. If it is objected to the latter that it embraces the volunteers now in the service from the several towns, we answer so did the former and also all persons who had been in the service from the beginning, from this District.

We have been at the trouble to correct the error of our cotemporary in this matter and to set the public mind at rest upon it, but with no hope or expectation that we shall thereby silence the misrepresentations of those presses that are bent on nullifying the efforts of the Government to suppress the Rebellion, and thereby to bring about a successful and speedy termination of the war.

The Draft in Greene County.

KINGSTON, Monday, September 7.

The draft for Kingston and Rondout, and seven sub-districts in the county of Greene, was completed this day. The best of order prevailed. Joshua Fiero, Captain and Provost-Marshal.
