Help Your Community in Time of Trouble**

LAST FALL the City of Newburgh suffered a very bad sewer gas explosion and over one hundred Guardsmen were on duty within one hour after the explosion. Captain Cassidy, Regimental Adjutant; Captain Brundage, Headquarters Battery, and Lieutenant Lamont, Combat Train, whose offices were located in the explosion area, were on the job at the time of the explosion and were responsible for getting out the guard.

Captain Brundage immediately made arrangements with the local telephone company to give him an open line to telephone to the guardsmen's places of employment. With the Guardsmen on duty, the police and firemen were able to take care of their regular duties and keep the crowds away from the danger zone. The Guardsmen were on duty from the time of the explosion until 6 P.M., when a guard of 21 men was posted for the night. This guard was in charge of Sergeant Babcock, of Battery E. Four Corporals of the Guard were Sergeants Pilus, Raab and Hughes of Battery E, and Sergeant Carroll of Headquarters Battery. All had had war experience and were fit for the occasion. There were broken windows in all stores in that sector, which contained three jewelry stores and the owners were satisfied that they were well protected thruout the night.

Within one half hour after the explosion, the following officers were present, which includes every officer of the Newburgh units:

BATTERY E—

Captain Monihan,
Lieutenant Coffey, who came from Beacon,
Lieutenant Armstrong.

COMBAT TRAIN—

Captain Paltridge,
Lieutenant Lockhead,
Lieutenant Jamison.

HEADQUARTERS BATTERY—

Lieutenant Smith.

MEDICAL CORPS—

Captain Bullard, who came from Central Valley.
Lieutenant Trigg, who came from Beacon.

Major Newsome, Headquarters Battalion, was at the U. S. Veterans' Hospital in Chelsea, five miles north of Beacon, and was on the job shortly after explosion. The Armorers, Sergeant Bloomer of Battery E; Sergeants Carroll and McVeigh of Headquarters Battery, and Sergeant Allen of the Medical Corps, were all on duty at the explosion ten minutes after it occurred.

Sergeant Hunter assisted Captain Babcock, Regular Army Instructor, in getting in touch with the Battery Commanders and giving valuable assistance to the Battery Commanders who were responsible for getting messages thru to the members of each organization.

THE NEW YORK NATIONAL GUARDSMAN:

Room 1006, Court Square Building, 2 Lafayette Street, New York City

"It will be strictly non-political; it will not attempt to exploit any theme or theory on partisan lines; it will religiously refrain from 'underwriting' the ambitions or activities of any individual, public or private, it will be severely independent, making its appeal to the interests of the readers rather than to the vanity of those in charge; it will encourage that training which no successful business man can ignore if he desires his employees to be better disciplined and trained to give 100 per cent of duty to all work entrusted to them—it will be a vehicle for the propagation of one policy and only one: Better Guardsmanship and Better Citizenship!"

LIEUT.-COL. FRED M. WATERBURY, *Editor*

LIEUT.-COL. HENRY E. SUAVET,

Business Manager, Headquarters New York National Guard

Room 1006, Court Square Building, 2 Lafayette Street, New York City

THE NEW YORK NATIONAL GUARDSMAN is the only publication authorized by the National Guard of the State of New York. It is published monthly and distributed to all active Guardsmen. Subscription by

mail, for Non-Guardsmen, \$1.50 a year; Canada. \$2: Foreign, \$2.50. Subscriptions are payable in advance. Single copies, price 15 cents. Advertising rates on application. Printed in New York City.

The Colonel Hines Attendance Trophy

THE Colonel Frank Harrington Hines Attendance Trophy, a new handsome work of art for the members of the New York National Guard to work for (annual competition), was the culmination of the movement of the former business associates of the late Colonel Hines, headed by Major Sidney P. DeLamos as chairman, to select a fitting military memorial of a real citizen soldier, who was greatly admired and beloved by his fellowmen in his department as the late Superintendent of Public Buildings in the Borough of Manhattan.

The committee wisely sought the services of one of Greater New York's best trophy designers, Lieut. Colonel Charles J. Dieges, of Dieges & Clust, nationally famous trophy and medal manufacturers, who supervised the work. Thus the Memorial Trophy, presented in honor and in memory of the late Colonel Frank H. Hines, by his associates in the Bureau of Public Buildings and Offices in New York, and donated by them to the State of New York National Guard, is 42 inches in height. The figure surmounting the same symbolizes a victorious warrior beautifully modeled, signifying Character, Honor and Service. The figure is cast in solid bronze from an original by the American sculptor Jack Lambert. The same is set on a decorative base of golden bronze which in turn rests upon marble and an ebonized base, the latter is surrounded with shields to inscribe the names annually of the winning organization. The four sides of the gold bronze base are inscribed in relief etching with the entire history of Colonel Hines' military life with a record of 37 years faithful service in the U. S. Army and the New York State National Guard.

A splendid tribute to a soldier representing the finest example devoted to the best ideals of American Citizenship.

A man among men, respected and beloved by all those whose good fortune it was to have known him.

The trophy has fittingly been turned over to the custody of his old command, the 105th Field Artillery in the Bronx, until the first winners claim it this year under the conditions of Training Circular No. 4, Headquarters, New York National Guard, which reads as follows:

1. A trophy to be known as the Colonel Frank Harrington Hines Attendance Trophy has been presented to the New York National Guard by the personnel of the Bureau of Public Buildings of the City of New York, as a permanent memorial to the late Colonel of the 105th Field Artillery and former Superintendent of Public Buildings and Offices, who died May 8th, 1929, after thirty-five years distinguished service in the National Guard of this State.

2. This trophy will be awarded annually to that organization of the New York National Guard attaining the highest percentage of attendance in each training year, extending from October 1st to September 30th.

Competition for this trophy is restricted to organizations composed of two or more units.

For the purpose of the award, the percentage of attendance for the training year will be determined by adding the percentages of attendance at armory drill, at field training, and at the annual armory inspection, and dividing this total by three (3).

3. Awards will be announced annually in General Orders, these Headquarters. The first award will be made as of October 1st, 1930 for the Training Year ending on that date.

4. Presentation of the trophy will be made at an appropriate ceremony.

5. As a mark of respect, the trophy is hereby placed in the custody of the 105th Field Artillery until the date of the first award.

By command of Major General Haskell:

WILLIAM R. WRIGHT,
Col., Cav., N. Y. N. G.
Chief of Staff.

OFFICIAL:

JOSEPH A. S. MUNDY,
Lieut. Col., AGD. N. Y. N. G.,
Adjutant General.

THE CORPS

The West Point song written by the late Bishop Shipman, while chaplain at the U. S. Military Academy and always sung at attention and uncovered:

The Corps! Bareheaded, salute it,
With eyes up, thanking our God
That we of the Corps are treading
Where they of the Corps have trod.
They are here in ghostly assemblage,
The men of the Corps long dead,
And our hearts are standing attention
While we wait for their passing tread.

We sons of today, we salute you,
You sons of an earlier day;
We follow, close order, behind you,
Where you have pointed the way.
The long gray line of us stretches
Through the years of a century told,
And the last man feels to his marrow
The grip of your far-off hold.

Grip hands with us now, though we see not:
Grip hands with us, strengthen our hearts,
As the long line stiffens and straightens
With the thrill that your presence imparts.
Grip hands, though it be from the shadows,
While we swear as you did of yore,
Or living, or dying, to honor
The Corps, and the Corps, and the Corps.

New Chief of Coast Artillery

THE recent appointment of Colonel John W. Gulick, Coast Artillery Corps, as Chief of Coast Artillery, with the rank of major general, at the termination of four years' service as Executive Officer in the office of the Chief, Militia Bureau, is a well-merited recognition of his efficiency and of the importance accorded the National Guard in the scheme of National Defense. The National Guard throughout the country may well consider this appointment a compliment to it and will be pleased to know that General Gulick is continued in a position where his interest in the Guard and knowledge of its problems will still benefit it.

During the past four years there has been marked improvement of the National Guard in every particular and the most amicable relations have been fostered and maintained between it and the War Department. To General Gulick, as executive officer for both Major Generals Hammond and Everson, the former and present chiefs of the Militia Bureau, belongs no small part of the credit for the present favorable situation.

General Gulick was born at Goldsboro, N. C., November 8, 1874, and enlisted in the National Guard of that state in 1894. During the Spanish War and Philippine Insurrection he served as first lieutenant, North Carolina Volunteer Infantry, and first lieutenant and captain, 47th Infantry, United States Volunteers, participating in operations on Samar and Southern Luzon. September 17, 1901, he accepted a commission in the Regular Army as first lieutenant, Artillery Corps, and served in Cuba in 1902-3. When the artillery corps was separated into field and coast artillery, General Gulick went with the latter branch, and advanced through the various grades until commissioned as Colonel August 19, 1925.

He was on duty at the Coast Artillery School, Fort Monroe, Va., as student and instructor 1904-11, as Director 1916-17 and as member of the Coast Artillery Board 1915-17. From 1912-15 he was on duty under Special Act of

Congress, with the Chilian Government as instructor and advisor, Coast Defenses, with the rank of major, Chilian Army.

During the World War General Gulick reached the temporary rank of colonel, National Army, serving on the

General Staff in Washington; as Chief of Staff, 40th Division; and as Assistant Chief of Operations and Chief of Staff, Army Artillery, First Army, A. E. F. He was awarded the Legion of Honor (officer) by the French Government and the Distinguished Service Medal by the United States for the marked skill with which he handled the many complex problems of the First Army Artillery "and thereby contributed, in no small degree, to the success of this unit in the St. Mihiel and Meuse-Argonne Offensives."

After the World War General Gulick served on the War Department General Staff until 1924, assisting the Senate Committee in preparation of the 1920 Revision of the National Defense Act and serving on committees which formulated plans for the organization of the Army of the United States.

Upon relief from the General Staff detail he attended the Army War College, graduating in 1925, after which

he was on duty at Fort Hancock, N. J., until March, 1926, when he was returned to Washington and given the assignment which has just terminated.

CONGRATULATIONS, CALIFORNIA!

The National Guard of California established a remarkable record for attendance at armory drill and field training during the calendar year 1929.

The Adjutant General of California, Brigadier General R. E. Mittelstaedt, has recently issued a State Order listing 878 officers, warrant officers and enlisted men to whom the 100 per cent Drill Attendance Badge for 1929 is awarded.

Mechanization and Cavalry

By MAJORS G. S. PATTON AND C. C. BENSON, *Cavalry, U. S. A.*

THE cavalry has been in a good many tight places during the last thousand years, but it has always managed to keep one jump ahead of its rivals. When the clothyard shafts of English bowmen mowed down the flower of French chivalry at Crecy in 1346, it appeared that horsemen had met their match. Had they been bound to the tactics previously in vogue, the cavalry might shortly have disappeared. Later the use of gunpowder threatened to drive cavalry from the field; but it adopted the despised firearms and soon regained its lost prestige. When the improvement of firearms again placed the cavalryman at a disadvantage, he discarded his heavy armor and learned once more to charge in mass at speed. The cavalry of Frederick the Great and Napoleon, despite improved firearms, scored many decisive victories. The development of accurate long-range rifles, and, more recently, machine guns, has again put cavalymen to the test of adaptability. The question is now raised, as it has been raised many times in the past, is cavalry still useful enough to justify its existence? For authoritative answers to this question, we look to the well-considered views of experienced military leaders. Here is what some of them have to say about cavalry:

General John J. Pershing.—“There is not in the world today an officer of distinction, recognized as an authority on military matters in a broad way, who does not declare with emphasis that cavalry is as important today as it has ever been.”

Field Marshal Sir Douglas Haig—“Cavalry is indispensable, not only to act as mobile infantry, but to reap the fruits of victory.—Infantry and Artillery can win battles; only Cavalry can make them worth winning.”

Marshal Foch—“On the Western Front, cavalry especially participated in the defensive battles, where they were engaged at the most difficult moment.—The large cavalry units, thanks to their own mobility, were able to intervene in time and bring the precious assistance of their fire to the weak points of the defense.”

Marshal Hindenburg—“Cavalry will continue to be important. There were many times when I wished I had more of it.”

General Ludendorf—“The cavalry was of the greatest importance and service to me in all campaigns of movement. In the March, 1918, offensive, I felt seriously handicapped by lack of cavalry.”

In offensive and defensive actions in stabilized situations, as well as in warfare of movement, modern cavalry has proven its value. One final comment, to bring the record closely up to date, is taken from an address by General Charles P. Summerall on August 12, 1927.—“There has been a great deal of misinformation broadcast relative to the cavalry. It is a fact that cavalry is of far more importance than it has ever been.”

Since these views were expressed, a new problem has arisen—what to do about fast cross-country fighting machines? This problem concerns not only the cavalry, but also the infantry, the artillery, engineers, signal troops, supply services, and air forces. The armored vehicles now being built are practically immune to air attacks; they

have high strategical and tactical mobility, and can drive far into the enemy's territory to attack installations, including airdromes, that have heretofore been regarded as secure. As the cavalry is particularly charged with providing security for other forces, it naturally devolves upon the cavalry to devise ways and means to neutralize these new weapons. To bury our heads, ostrich-like, and ignore them, would be foolish. Foreign nations are proceeding with dispatch to perfect fast tanks, armored cars, self-propelled gun mounts, and their auxiliaries. More and more of their tactical thought is being centered upon the use of these machines. We may have to face them in future wars, whether we are ready or not. All branches are vitally concerned with the problems that ground fighting machines are thrusting upon them; and so far as the cavalry is concerned, we propose to face the issue squarely right now.

Can fighting machines replace the cavalry? Much has been written about the power of machines, and all too little about their limitations. Granting that armored caterpillar vehicles can crash through belts of barbed wire and attack machine guns with impunity, let us examine some of the limitations, that apply but feebly to cavalry, which will restrict the use of machines. The principal items are supply, control, and terrain.

The question of supply is far more binding upon machines than upon cavalry. Unlike men and horses, machines must have full rations. Even with full rations, their mechanical condition and efficiency deteriorate rapidly in field service. A liberal quota of replacement parts must be supplied, in addition to gas, oil, and grease, to keep the machines running. Furthermore, these supplies must arrive regularly, at timely intervals, or the machines will quit in their tracks. Once immobilized, they are easily destroyed. During the German drives in the Spring of 1918, British tank crews had to abandon and demolish over two hundred heavy tanks that had run out of gas; but it is not recorded that any of the British cavalymen who helped stem the tide had to blow up their horses. With faster machines and more adequate measures for the supply of combat elements, it is true that many of the previous difficulties can be overcome. However, gasoline burns so readily that it requires a rare stretch of the imagination to picture a horde of machines living off the country, as cavalry has done many times in the past. Tank drivers are resourceful, but they have not yet learned how to dismount and lead.

Another important restriction on the use of machines is that imposed by the difficulties of control. Speed and power without control are useless. The British have been using radio phones in their tanks since 1926, and probably have the best control devices in the world. However, they have been unable to utilize in maneuvers more than half of the rated mobility of their machines. Accounts of their 1929 maneuvers indicate chaotic confusion in the engagement of comparatively small tank units, especially when infantry of the opposing sides became involved in the melee. Dust and smoke clouds rendered signal flags useless, and silenced the guns because it was impossible to

distinguish friend from foe. Until reliable and rapid communications can be established and maintained between fighting machines, it will be practically out of the question for them to cooperate effectively in a sustained action.

A third limitation is that imposed by natural and artificial features of the terrain. Obstacles that appear trifling to a well-mounted cavalryman often put a serious handicap upon machines. Armored cars of the wheeled type, operating in woods, mountains, or where there are numerous streams, are practically confined to the roads. A mine or mine crater in the road, a bridge destroyed, a barricade, or a fallen tree—and the machine is stopped, perhaps under fire in a position from which withdrawal is difficult. The best of these machines, the French Berliet six-wheeler, has some remarkable cross-country performances to its credit; but even this excellent machine becomes sluggish and difficult to control when forced to negotiate steep slopes or fields strewn with bowlders. In rough going, the wheeled machine has less mobility than the cavalryman, and its weapons are almost useless because the gunners cannot take good aim. In close country, where the machine has to stick to roads, its value as a fighting vehicle is materially reduced. The present cavalry weapons, if resolutely and resourcefully used, are sufficient to neutralize wheeled vehicles on the roads. In flat country, the wheeled vehicles can operate across country with great freedom. The British and French have made effective use of wheeled machines in northern Africa, Asia Minor, and India. However, important military operations are seldom conducted in desert country; consequently, opportunities for the employment of wheeled vehicles under advantageous conditions will be limited.

Modern fast tanks are much more formidable. They can travel across country over extremely difficult ground, and can avoid or crush many of the obstacles that would stop a wheeled machine. In woods or mountainous country, they too are confined to the roads, and are thus at a distinct disadvantage as compared to the cavalryman. They cannot operate effectively where precipitous slopes, bowlders, or streams obstruct their progress. Their rate of speed and accuracy of fire are considerably reduced by uneven ground, and they can readily be destroyed if they venture into areas that are unsuited to their proper use. The bogs of Flanders became the graveyard of many British tanks.

The combination wheel and track machine is the most adaptable to varying conditions of road and terrain. One machine of this type, using wheels, has attained the rate of seventy miles an hour on a concrete road. Across country, on tracks, it has done better than forty-two for a short distance; and has averaged over fourteen for hour after hour, through rain, mud, red clay, and deep sand on the test course. The writers have observed closely the performance of this machine ever since it was first submitted for test in October, 1928, and are convinced from personal experience that it is a powerful weapon. They also know from personal experience that neither this machine nor any other that has yet been invented, could operate in those parts of northern Chihuahua where our cavalry not so long ago rounded up several hundred of Villa's followers. Even the most versatile machine could not have gone where our cavalry had to go.

Regardless of the progress made in the development of fighting machines, cavalry will always be necessary. It will hold its own because no other agency can perform cavalry duties with equal reliability and dispatch. It can operate effectively in woods and mountains where machines cannot go; it can swim streams that would stop machines; and whether its supply trains come through or not, it can carry on day and night under any conditions of roads or weather. To expect mechanical vehicles—impotent without regular supplies, blind and deaf to control, and restricted by terrain—to take over these duties, is to expect the impossible. Each arm has its limitations and its proper sphere of usefulness.

Instead of rivalry, there should be union to insure strength. The infantry has its heavily armored tanks to lead the assault; the cavalry should have fast cross-country machines for extended rapid maneuver in operations against the enemy's front, flanks, and rear. The union of cavalry and mechanized units equipped for rapid maneuver would be natural, for they have much in common. Both are highly mobile; their tactics are similar; their actions develop and culminate rapidly; and their commanders, to be successful, must possess like traits. Each supplies in generous measure what the other lacks. We have dwelt upon the limitations of fighting machines in order to counteract the present tendency to over-rate their powers; but to deny that they are valuable weapons would be absurd. On suitable terrain, armored fighting machines are indeed formidable. The obvious thing for the cavalryman to do is to accept the fighting machine as a partner, and thus prepare to meet more fully the demands of future warfare.

How can fighting machines assist the cavalry? First, by helping to protect cavalry against the enemy's aircraft and armored vehicles. Protection against air attacks can be made remarkably effective by using machines armed with machine guns to cover the front, flanks, and rear of cavalry on the march. Machine gunners thus mounted could engage the enemy, without wasting any time in placing their weapons in the firing position, before the hostile aircraft could reach the cavalry main body. The 1929 Cavalry Field Manual (page 395) states:—"Machine guns, once they are in position and ready for action, constitute cavalry's most effective weapon against hostile aircraft.—When mounted upon motor vehicles—they afford ideal anti-aircraft protection for cavalry on the march." So far as anti-aircraft protection is concerned, unarmored machines would be satisfactory; but we must also consider the enemy's fast tanks and armored cars. In 1922 a study prepared at the Cavalry School raised various questions concerning cavalry methods of defense against these new weapons. During the eight years that have elapsed since those questions were raised, fighting machines have been greatly improved. Defense against modern machines, especially in open country during the daylight hours, will be extremely difficult unless our cavalry has a liberal quota of fast cross-country vehicles with which to neutralize those of the enemy.

If provided with machines for its own security, cavalry will be better able to gain information and provide security for other forces. On reconnaissance in open country, its armored vehicles can cover long distances at a high rate of speed; and under favorable conditions, the ma-

chines will be of great value in extending the reach of the cavalry. For counter-reconnaissance, cavalry patrols could establish the screen and the machines, held centrally in reserve, could use their high mobility on previously reconnoitered terrain to drive back aggressive hostile forces. On flank guard work, the business of getting patrols out soon enough and far enough would be much simplified wherever the terrain permitted the use of machines. With a cavalry rear guard, and in delaying actions, armored vehicles could protect our flanks and threaten those of the enemy; make offensive returns to check the enemy's progress; or remain concealed in selected positions to cover the withdrawal of mounted troops. When cavalry has to hold a defensive position, its fighting machines could initially cover the position and eventually serve as a mobile reserve for counterattacks. In short, wherever the terrain is suitable and particularly in open country, fighting machines will be to the cavalry what cavalry is to the infantry.

For offensive operations in open country, cavalry can use fighting machines to great advantage. The Cavalry Field Manual (page 373) states:—"Tanks are valuable offensive weapons in practically all forms of combat where intense or stubborn resistance is to be overcome. Their use for this purpose facilitates a more rapid advance of cavalry." In an attack against troops in a defensive position, and during the initial stages of exploiting a breakthrough, there will be excellent opportunities for the employment of these machines. To mount an attack of sufficient magnitude to make a breakthrough requires immense supplies, whose movement congests the roads; but cavalry and its fighting machines can move to their appointed places across country. Heretofore, resistance met in passing through the breach has been costly to cavalry both in time and in casualties. Fast cross-country fighting machines can materially reduce these delays and losses, and thus enable the cavalry to get through more quickly and in greater strength. In both direct and parallel pursuit, the machines can again render valuable service by helping to brush aside delaying detachments and by preceding the cavalry to distant defiles or bridges. So long as the terrain permits vehicles to operate effectively, their use in conjunction with pursuing cavalry will produce more decisive results than either arm could secure alone. The fighting machine will conserve the strength of mounted troops and will contribute materially to their combat power.

One company of light tanks (infantry), and one squadron of armored cars (cavalry), are now authorized for each cavalry division. Unfortunately, there are at present no fast tanks available, and we have only about half a dozen armored cars. If our cavalry is to study and apply the new methods that fast tanks and armored cars provide, it must have the necessary equipment.

The fighting machine is here to stay, and if our cavalry has not lost its traditional alertness and adaptability, we will frankly accept it at its true worth. If the 14th Century knight could adapt himself to gunpowder, we should have no fear of oil, grease, and motors. Confident of our own power, we should give to the fighting machine the serious thought that it deserves. Field Marshal Allenby, one of the ablest cavalymen of our times, said recently:—"I have never felt more confidence in our arm than I do today. It has retained the good, rejected the bad, and has not shrunk from the new."

SEVENTY-FIRST OFFICERS CELEBRATE COLONEL'S PEARL ANNIVERSARY

One evening thirty years ago—March 1st, 1900, to be exact—a clean cut chap in his 'teens came into the 71st Regiment Armory and was sworn in as a private by Captain David L. Hough of Company K. Those who know the young man's record in the military service since that time, are inclined to believe that he had visions of leadership when he took the oath of allegiance, for the Colonel's policy from that day in the military game has been to "hitch his chariot to a star" and to let neither obstacle nor opposition deflect him from his objective.

The Colonel's progress in his thirty years of service has been continuous—through all the grades to regimental commander—and conspicuous, both in the National Guard, World War Service, and the Officers' Reserve Corps. Be that as it may, his officers think he is the one hundred percent example of ability and hard work; so when they learned that the Colonel's "pearl" anniversary in the regiment was approaching, they decided to celebrate the event by a surprise party. And it was a great success, both as a surprise and as a party.

It was largely a regimental family party, practically all of the officers attending, with their sweethearts or wives, with a few military guests whose relations with the regiment had been more or less intimate. The first of these to appear was Captain D. L. Hough, the Colonel's recruiting officer and his first captain, who warmly congratulated his recruit for his success as a soldier and a man.

The Officers' Mess at the armory was well filled with stalwart soldiers and handsome ladies at the time for the opening ceremonies, each on the *qui vive*, for the program was a secret one, with rumors of both laudation and comedy; the sure thing, however, was a dance after the formalities and a supper.

Lieutenant-Colonel Ames T. Brown, selected by the officers to review Colonel De Lamater's record, told of his service and his leadership in the regiment and in the army. The story was one of effort and steady accomplishment from the beginning, with never a suggestion of blemish or hesitation to give all that the owner possessed for the service. Upon the completion of his remarks Colonel Brown on behalf of the officers presented to the Colonel a handsome full-dress saber.

Then came the surprise of the evening. Captain Mayer, in the costume of Father Time, first appeared and announced that a series of episodes would be presented bearing upon the military life of Colonel De Lamater. Then the regiment again showed the versatility for which it was famous in the war and each step in their Commanding Officer's military career was faithfully portrayed with a comedy aspect, as entertaining as it was faithful in its presentation.

High class musical artists rendered some most attractive numbers and then there was dancing until the wee sma' hours to the tune of the wailing saxes and the zum-zumming of the banjos. It was a great party. Letters were read from General George R. Dyer and General William G. Bates, warmly commending Colonel De Lamater for his brilliant work.

Aviation Show

THE second annual Aviation Show sponsored by the Aviators' Post, American Legion, opened in Grand Central Palace on February 8th and closed February 15th.

For the first time in the history of aviation the regular Army and the National Guard were invited to put on a display in an aviation show. The invitation was accepted and Lieutenant B. E. Gates "took the controls" and managed the combined display. He was assisted by Lieutenant Harbold of Mitchell Field. Lieutenant Harbold had four non-commissioned officers from the Fifth Aero Squadron helping him, and Lieutenant Gates, who is now stationed at Miller Field, Staten Island, as regular instructor, had several men from the 102nd Observation Squadron at Miller Field.

Uncle Sam's booth was the most striking at the show. The booth was decorated with a background of navy blue and gold yellow, two large wings were suspended with shields at the centers. One shield bore the inscription, 5th Aero Squadron—Mitchell Field, the other 102nd Observation Squadron—Miller Field.

The 5th Aero Squadron had on display a Curtiss Falcon, better known in the Army as an O-1E fully equipped with its two Browning air-cooled machine guns, one shooting forward through the propellor and the other on a mount to the rear of the rear cockpit. This gun is on a swivel mount and may be moved to almost any angle. The radio equipment was installed and inspection ports left open so that interior details could be seen. Parachute flares were in place. Parachutes of both the seat type (for the pilot) and back type (for the observer) were in the cockpits. A bomb rack was attached under the fuselage holding four bombs. The O-1E is an observation type of aeroplane used in photographing enemy positions and territories far behind the lines. They are also used to direct artillery fire by reporting via radio position of hits. This ship equipped with a Curtiss D-12 motor of approximately 600 horsepower, is capable of 150 to 175 miles per hour with a full load of equipment and crew of two.

The 102nd Observation Squadron displayed a Consolidated O-17 training type aeroplane equipped with the famous Wright Whirlwind motor. This ship carries two people and is capable of a speed ranging from 110 to 125 miles an hour.

Each of the 300,000 visitors, who viewed the show in the week, spent some time examining Uncle Sam's eagles and commenting on the efficiency of their claws.

Colonel Howard, commanding officer of Mitchell Field,

commended Lieutenants Gates and Harbold for the remarkable showing they made and said he was well satisfied with the results obtained.

Aside from aeroplanes, but having a direct effect on their operations in military service, was a display of an anti-aircraft gun capable of firing thirty time-fused shrapnel shells per minute, together with its trailers and trucks.

—Photo by 102nd Photographic Section, Miller Field.

Photo shows members of the 102nd Observation Squadron of Miller Field, Staten Island, taking a rest after looking over control wires, motor and other necessary parts that need continuous inspection, before a flight is made.

Speaking for the 102nd Observation Squadron (the New York National Guard unit located at Miller Field, Staten Island) I'll say the one of the biggest results of our part in the display is the nearly 200 applications for enlistment we have received since the show. Not bad for an outfit with a maintenance strength of 118, eh what?

To help advertise the show a flight of our ships flew from Miller Field to Albany and back. The pilots who made this hop were Major Vaughn (commanding officer 27th Division Aviation), Captain Brower, First Flight Leader; Lieutenant H. B. Gates, Regular Army instructor, and Lieutenants Appel and Nelson. They were escorted by such popular commercial flyers as Elinor Smith, Clarence Chamberlain and others.

On the return hop Miller Field's birdmen flew Senator Webb, Mayor Thatcher and other dignitaries of State and Government to New York to attend the Aviation Show.

SENIOR U. S. SENATOR

REVIEWS 106th INFANTRY

Commendation from Major General Charles P. Summerall, Chief of Staff of the United States Army, was brought to the officers and members of the 106th Infantry by United States Senator Royal S. Copeland, senior senator from New York State, at the review of the regiment.

The Senator, upon his arrival at the armory, was tendered a reception in the Officers' Council room where he was greeted by prominent representatives of the city and state. At the conclusion of the reception the reviewing party was escorted to the squadroom where a dinner was served.

Following the invocation by Major Frank I. Hanscom, regimental chaplain, brief speeches were delivered by Supreme Court Justice Edward A. Lazansky, of the Appellate Division, and Commissioner of Accounts James A. Higgins.

In pronouncing the benediction, Rabbi Alexander Lyons of the Eighth Avenue Temple, paid a beautiful tribute to the late Borough President Byrne.

A gathering of 7,000 persons greeted Senator Copeland as he was escorted onto the armory drill floor by Colonel William A. Taylor, commanding the 369th Infantry and a former commanding officer of the 106th. Another former 106th Infantry officer also served on the Senator's staff in the person of Colonel Lucius A. Salisbury, commanding the 102nd Medical Regiment, in which regiment Royal S. Copeland, Jr., is a sergeant in the Syracuse unit.

After taking the salute of the regiment commanded by Colonel Thomas Fairservis, the Senator proceeded to inspect the regiment. This was followed by the review in which the grey-clad men swept by the reviewing box, their lines straight as arrows and their splendid appearance being highly complimented by the Senator.

At the conclusion of the review the regiment was assembled in hollow square formation and the Senator delivered the commendation of the Chief of Staff. It follows:

"The National Guard in general and that of the State of New York in particular has participated most effectively in the development of our defense team. From the very inception of the current program its record has been one of steady progress.

"It has been animated by zeal, by industry and by loyalty. It has displayed a fine spirit of cooperation in the development program of training and in adjusting itself to the needs of America as a whole.

"It is a privilege to be able to salute the 106th Infantry, one of the most potent and efficient of these prime movers from which the current of National Defense flows in an even and compelling stream."

An exhibition evening parade by members of the Third Battalion, under the command of Major William H. McMullen, Jr., and a three-quarter mile medley race brought the review program to a close. With the dismissal of the colors, the regiment escorted the reviewing party from the floor. Receptions were held in the various company rooms while the officers entertained their guests at a collation in the squad room.

Among the guests present were:

Major Lewis R. Adams, Lieut. Colonel Hampton An-

derson, Major David B. Blanton, Commander George R. Brown, Colonel Walter J. Carlin, Captain Louis J. Camuti, Albert Carnright, Dr. John J. Collins, Royal S. Copeland, Jr., Charles L. Daly, Major Walter P. Davenport, Captain Edward F. Dunne, Captain Harry H. Field, Raymond H. Fiero, Brig. General John H. Foote, Robert M. Galle, Colonel William B. Graham, Captain W. E. G. Graham, Brig. General Sydney Grant, Colonel Wm. Patton Griffith, Lieut. Colonel John G. Grimley, Lieut. Colonel Casper V. Gunther, Herbert Henshaw, Captain Walter Hibbard, Hon. James A. Higgins, Colonel G. G. Hollander, Edward T. Kane, Captain Jerome F. Langer, Hon. Edward Lazansky, Arthur P. Lee, William Arthur Lee, Rev. Dr. Alexander Lyons, Chas. W. McCarthy, Colonel John I. McWilliams, Captain Edmund S. Massel, James L. Meeks, Captain G. W. Mickleborough, Kleng M. Nelson, A. Newman, Major C. Howard Newman, John W. Newton, Colonel Lucius S. Salisbury, Ole Salthe, Colonel William A. Taylor, Lieut. Colonel Charles G. Todd, Jack Tulman, Colonel Fred. M. Waterbury, Lieutenant Thomas F. Ward, Howard W. Wyatte.

SARATOGA UNIT LOSES

CAPTAIN STARBUCK

His many military friends will learn with regret of the separation from the service of Captain Edgar D. Starbuck, for the past four years in command of Company L, 105th Infantry, located in Saratoga Springs.

In the retirement of Captain Starbuck from active service, the 105th Infantry loses an efficient officer and a man who for many years has sacrificed his personal business as president of E. D. Starbuck and Co., department store owners, for the advancement of Company L, which during his administration has been one of the outstanding units in the regiment.

Captain Starbuck has had 14 years of military service, having first enlisted in Company L, July, 1916, for Mexican border service. He served with the organization on the border both as a private and corporal, returning in October, 1916.

When the company was ordered out again on March 25, 1917, Cpl. Starbuck went as far as Schenectady where he received orders to enter officers training school at Fort Niagara. Here he was commissioned a second lieutenant and sent to San Antonio, Tex., where he was promoted to first lieutenant, remaining there during the rest of the World War, in charge of the instruction of recruits.

When Company L was reorganized after the World War he accepted a commission as first lieutenant under John P. Butler as captain and he continued until the promotion of Captain Butler to a majority on March 17, 1926. He then took command of the company.

First Lieutenant Winfield S. Hill succeeds to the command.

NAVAL MILITIA HOLDS

RIFLE PRACTICE IN JUNE

The Manhattan units of the New York Naval Militia will hold their annual qualification record rifle practice this year at Camp Smith, Peekskill, the week of June 16 to 21. The practice will be in charge of Gunnery Officer, Lieut. Commander Byron R. Ralston, on the staff of Rear Admiral William B. Franklin, commanding.

ARMY DAY PARTICIPATION

Major General William N. Haskell announced that a provisional detachment of the New York National Guard would participate in the third annual observance of Army Day in this city on Saturday, April 5th. This detachment was composed of one battalion from the 165th Infantry, 369th Infantry and the 212th Coast Artillery respectively, together with one troop of Cavalry from old "Squadron A", 101st Cavalry, and a battery of 75 m/m guns from the 105th Field Artillery. The music will be furnished by the band of the 212th Coast Artillery.

Brigadier General John J. Byrne, Coast Artillery Headquarters, N. Y. N. G., commanded the National Guard detachment. General Haskell served on the Staff of Major General Hanson E. Ely, Commanding the Second Corps Area, who reviewed the parade from the reviewing stand on Fifth Avenue at 65th Street. The parade started on Fifth Avenue at Thirty-fifth Street at one-thirty P. M. and several units of the Regular Army, the Organized Reserves, and many Veterans' Organizations also participated.

Co. L, 108th Infantry Best in Marksmanship

COMPANY L, 108th Infantry, Captain James Riffe, Elmira, is the outstanding rifle company of the New York National Guard for 1929 and as such receives the War Department's National Trophy for the year. This trophy, awarded pursuant to National Guard Regulations 45, Par. 63, calls for at least 30 per cent of qualifications, the Elmira company making 82 per cent. The figure of merit which brings out the winner is arrived at by multiplying experts by 100, sharpshooters by 85 and marksmen by 75 and dividing the sum thereof by the strength of the company on the record practice day, or by 60 if under strength. Company L's record was:

13 experts × 100	1,300
11 sharpshooters × 85	935
32 marksmen × 75	2,400

Total 4,635
divided by 68 (strength of company) gives a figure of merit of 68.18.

Many companies qualified the past year for this grade, making much more than the 30 per cent and the race for the trophy was consequently keen. Some of the "runners up" were:

Co. F, 108th Infantry	65.9
Co. I, 10th Infantry	62.9
Co. K, 108th Infantry	59.6
Co. F, 10th Infantry	58.4
Co. K, 107th Infantry	57.8
Co. E, 174th Infantry	53.9
Co. B, 108th Infantry	53.5
Co. L, 107th Infantry	52.5
Co. E, 107th Infantry	51.2

Considering the Source

Lieutenant (roaring with rage at steward): "Who told you to put those flowers on the table?"

Steward: "The commander, sir."

Lieutenant: "Pretty, aren't they?"

—*Pennsylvania Guardsman.*

REVIEW

By **COMMANDER-IN-CHIEF**

GOV. FRANKLIN D. ROOSEVELT will review all organizations of the New York National Guard and the New York Naval Militia stationed in the metropolitan area on Saturday, June 7th, at Van Cortlandt Park, New York City.

The above announcement was made by Major-General William N. Haskell, Commanding the New York National Guard, after a conference with the Governor and Rear Admiral W. B. Franklin of the Naval Militia.

As a former Assistant Secretary of the Navy, Governor Roosevelt has evinced the keenest interest in the maintenance and development of the National Guard and the Naval Militia. The forthcoming review will be the first of its character in fifteen years, the last similar occasion being a review of the National Guard by Governor Whitman at Van Cortlandt Park, shortly before the departure of the troops for the Mexican Border.

The review in June by the Governor, which will be conducted without expense to the State, will mark the close of the armory period of training and will precede the opening of the State camps for field training at Camp Smith, Pine Camp and Fort Ontario, all of which Governor Roosevelt visited and inspected last year.

Besides the two battalions of Naval Militia, including two Marine companies, the National Guard organizations participating in the review will number some 12,000 troops, representing all branches of the service. These will include six regiments of infantry, two regiments of field artillery, horse drawn, one regiment of engineers, one medical regiment and one tank company, as well as the signal, ordnance and quartermaster troops of a combat division. In addition, one full regiment of cavalry and several tractor-drawn heavy artillery units, both field and coast, with one anti-aircraft regiment, will take part in the review. During the ceremony the 27th Division Aviation and the Naval Militia Aviation will fly in formation high above the parade ground.

Prior to passing in review, the troops will be inspected in line by Governor Roosevelt. At the conclusion of the review there will be a formal evening parade by one of the regiments, followed by the sounding of retreat by the field music, then the evening gun and the playing of the "Star Spangled Banner" by the band while the flag is lowered from the flagstaff on the parade ground.

The extensive parade ground at Van Cortlandt Park, more than one-half mile in length, provides a natural setting for a ceremony of this character and it will be possible for hundreds of thousands to witness the entire review without the necessity of erecting grandstands.

104th FIELD ARTILLERY

BATTERY "D"—Captain McCann is conducting a class for first class gunners with a view to making more experts than ever before. The group is getting along fine, the only drawback being the amount of pencils used. It seems that an expert gunner is one who has used up lots and lots of pencils.

The battery presented Pvt. Moore with a medal in recognition of his past deeds. Here's hoping it doesn't go to his head; it's made of lead.

Major-General Hugh A. Drum Reviews the 69th

ON Thursday, March 13th, Major-General Hugh A. Drum, Inspector General United States Army, reviewed the One Hundred Sixty-fifth Infantry (69th New York) at its Armory, 26th Street and Lexington Avenue, New York City. Prior to the review Colonel William J. Costigan, Commanding the regiment, entertained General Drum at dinner at the Manhattan Club, accompanying General Drum were Major Madison Pierson, Lieutenant S. M. Prouty and Lieutenant Robert B. Hutchins, Aide. The dinner guests in addition to General Drum were Brigadier-General John J. Phelan, Colonel Frederick W. Baldwin, Mr. Gilbert A. Taylor, Major Madison Pierson, Lieutenant S. M. Prouty, Lieutenant Robert B. Hutchins, Lieut.-Colonel M. H. Meaney, Major W. Arthur Cunningham, Captain Arthur J. Stark, Captain Richard J. Allen, Captain Joseph F. Flannery and Captain John V. Grombach.

The musical program was under direction of Clifford E. Ridgely, Band Master of the regiment.

The review and evening parade was enjoyed by an audience that almost filled the armory to capacity and additional chairs had to be placed on the floor in front of the boxes to accommodate the guests.

The following awards were made:

The Lieut.-Colonel John Duncan Emmett Cup for best average percentage attendance for the year 1929, awarded to Service Co., Captain Clarence R. Walsh Commanding.

Stevenson Taylor Memorial Trophy (Silver Ship), for general efficiency for the year 1929, including Tour of Camp Duty, and Annual Armory Inspection in January, 1930, awarded to Company E. Captain Louis Doan Commanding.

Presentation of Decoration of the State of New York Long and Faithful Service Medal:

For 25 years, Captain Michael W. Byrne, Res. Sergt. Dominick Hart, Company D, Pvt. First Class James J. Harney, Company G.

For 10 years, Captain Raymond A. Crennan, Company A. First Lieutenant James T. Bollenbacher, Company G.

Presentation of Regimental Long and Faithful Service Medal. For 25 years: Pvt. 1st Cl. James J. Harney, Company G. For 15 years: Pvt. 1st Cl. John Brennan, Company D. For 10 years: 1st Lieut. James T. Bollenbacher, Company G; First Sgt. Adam Becker, Company E; Sgt. Richard A. Clarke, Medical Detach.; Sgt. George M. Faulhaber, Company M; Pvt. 1st Cl. Edward T. Brady, Company D.

The following is an extract from the address of welcome delivered by Colonel Costigan:

"For many years a certain officer in the regular army has given much of his time and invaluable assistance to this regiment, and, today, we are glad to be welcoming this friend, and at the same time wishing him the health, fortune and happiness he so richly deserves.

Major-General Hugh A. Drum, Inspector General of the United States Army, is the guest of the 165th Infantry (69th N. Y.) tonight.

Your military career is one of the most brilliant in the services. Born fifty years ago on the army post of Fort Brady, Michigan, you never for a moment deviated from the path of the perfect soldier. You were commissioned by special act of President McKinley, second lieutenant of Infantry, September 9, 1898, at the age of nineteen, shortly after your noble father was killed in action at the Battle of San Juan, Cuba.

From the very beginning of your military career it was evident that you were to be an outstanding member of the profession of arms. In the Phillipines in May 1902, you were officially commended for bravery at the Battle of Bayan. Later in the operations in the Llano district you were recommended for the brevet of Captain. On the Mexican border you were Chief of Staff first for General Funston then for General Pershing. Your War record includes service as Chief of Staff of the First Army, A. E. F. During this War you rose from the rank of Captain to that of Brigadier-General by your extraordinary abilities. After the War you were assigned on General Staff duty and then as Commanding General of the First Division at Fort Hamilton. Recently you were appointed Inspector General of the Army with the rank of Major-General. Since the armistice you have been Director Army Service School of the Line, Commandant, General Service School, Commanding General 2nd C. A. District, Assistant Chief of Staff, War Department, and Commanding General First Division.

Your wonderful personality, your quick grasp of situations and your accomplishment of all missions entrusted have made you known the whole world over as the U. S. Army's 'Trouble Shooter'.

On behalf of the officers and men of the regiment and the guests assembled, I bid you a hearty welcome."

A Reception was held in the Colonel's quarters after the Review and General Drum was the recipient of many congratulations and good wishes. Dancing until midnight completed the ceremony.

SPEAKING OF "BROTHER SETS"

Though the enlisted strength of Company G, 167th Infantry, Alabama National Guard, with headquarters at Albertville, totals 63 men, only 50 families are represented in this number, Adjutant General F. E. Butler has just discovered.

The reason for the marked discrepancy between the number of men and the number of families is on account of the fact that the enlisted personnel of this organization includes one set of four brothers, three sets of three brothers and five sets of two brothers.

APRIL, 1930

THIS is our sixth birthday! How do you like our Easter dress? We have been trying to dress up in all the color and shade combinations for the past five years so as to greet you each month in a new flash that would silently say "here we are again—a new copy!" We hope the New York National Guardsman is finding a welcome place in all your military lives and that the labor of love, the many hours of work, put upon it by officers in charge "in addition to their other duties and without expense to the state" is really appreciated. We know what our many readers outside the New York National Guard around these United States think about our magazine, for they tell us, but like the prophet "who is not without honor, except in his own country," we would like to hear from "some of our own"—and really after six years of constantly chasing the months around the calendar are we not entitled to just a line or two of reaction from our own guardsmen?

Shoot it in! We get mail several times a day!

WE don't want to brag but a week after our March number came out with its editorial on "That Army and Navy Game" calling for the restoration of the Thanksgiving football classic, the daily papers announced that athletics between West Point and Annapolis would be resumed, commencing this year.

THERE are thirty-one publications engaged in disseminating information concerning the National Guard, according to a list just compiled by the Militia Bureau. The last few years have seen a large growth in magazines and bulletins published by and for the National Guard, all of them boosting for the common cause.

TELL your friends to keep Saturday afternoon, June 7th, free as they don't want to miss the spectacular review of all the naval and military troops in Greater New York by Governor Roosevelt in Van Cortlandt Park. As most of the organizations have their distinctive full dress uniforms it will be a brilliant sight and one long to be remembered.

CAN anyone imagine a person desiring to become a citizen of a country, to receive all its blessings and benefits and then not wishing to fight for its flag and principles, if the necessity for such defense occurs? Can one imagine a country so desperately in need of inhabitants as to accept for naturalization such an individual? And yet, unconstitutional as it probably is, a congressman, a representative of the people in our great government at Washington, has actually introduced a bill which reads as follows:

A BILL

To amend the naturalization law.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the fourth subdivision of section 4 of the Act entitled "An Act to provide for a uniform rule for the naturalization of aliens throughout the United States, and establishing the Bureau of Naturalization," approved June 29, 1906, as amended (March 2, 1929, Public, Numbered 962, Seventieth Congress, section 6 (b)), is amended by adding at the end of the first paragraph thereof the following new sentence: "Except that no person mentally, morally, and otherwise qualified shall be debarred from citizenship by reason of his or her religious views or philosophical opinions with respect to the lawfulness of war as a means of settling international disputes."

All this talk about outlawing war, reducing navies, discharging armies, "too proud to fight," etc., we are afraid is going so far as to incite in the minds of many that Heaven is here and that we are willing to lay down our self-respect and all other ideals, providing we may live without war. No one wants war but no one wants a country full of citizens who are not willing, if arbitration fails and treaties break, to stand up like red-blooded men and fight for their principles and their flag.

General Haskell's Editorial

THE GOVERNOR'S REVIEW

THE review which will be tendered to Governor Roosevelt on Saturday, June 7th, at Van Cortlandt Park by all units of the New York National Guard in the metropolitan area, is in reality a revival of a ceremony which for many years occurred annually in New York.

This ceremony was formerly known officially as Governor's Day in the National Guard calendar. One of the earliest of these parades was held in October, 1857, when Governor King reviewed the State Militia on Fifth Avenue. In those days it was the custom for the Governor to ride past the line of troops in his carriage drawn by four horses, with postilions and outriders. The line of march was usually from 59th Street south to the Worth Monument at 26th Street, where the reviewing stand was placed. One of these Governor's Reviews was held in the 80's in Prospect Park, Brooklyn. All of the organizations then had their distinctive uniforms, which in many of their details have now been revived in the present dress uniforms of several regiments. The last ceremony of this character was that held in Van Cortlandt Park in 1915 in honor of Governor Whitman.

There is, then, a fine tradition behind the review to the present Commander-in-Chief of the State Military and Naval Forces to be given in June. This fact, I am sure, will spur us on to make the forthcoming ceremony not only worthy of the past, but also indicative of the progress which the National Guard has made throughout these many years.

There is, in addition, one other aspect of the review which may be mentioned, and that is the opportunity it presents to demonstrate the prompt availability of the National Guard as a powerful and disciplined force in aid of the civil authorities in cases of domestic disturbances. This function of the National Guard of the State must not be lost sight of. In fact, it is, in time of peace, our prime duty and responsibility in return for the funds which the State, the Counties, and the Municipalities ex-

pend for the maintenance and development of the National Guard.

The present review, it should be noted, is being given at the request and direction of Governor Roosevelt. His own deep personal interest in the National Guard is known to us all. He has, however, frequently expressed the feeling that the work of the Guard is not sufficiently known and appreciated by the citizens of the State and it is his hope that the appearance

of these representative organizations in one large review will do much to acquaint the public with the present highly creditable condition and efficiency of the National Guard. It is, furthermore, believed that the review offers a splendid opportunity to popularize the several organizations and thus secure desirable recruits.

Many problems naturally arise in an undertaking such as this review; problems of uniform, equipment, formation, transportation, etc. These details are now being worked out and commanding officers will be advised shortly of the particulars. Inasmuch as some 12,000 troops will participate in the review, all converging upon Van Cortlandt Park from various parts of the City at practically the same time, it will

be realized that the problem of transportation and control of traffic will be highly important.

With such advance notice, it is hoped that every effort will be made to insure a full attendance in all organizations, that uniforms and equipment will be in first-class condition and that, by precision and promptness in all respects, the troops will reflect both credit to the State and honor to the Governor.

Wm. N. Haskell

Major General.

Eastern Mounted Basketball League

WE are pleased to report that the League has finally entered upon the opening schedule for the year 1930. While this schedule will have no bearing officially, the object is to determine the relative strength of teams so that the games which will be held at the Garden next fall will be suitably matched. At a meeting held at the 105th F. A. Armory, Brooklyn, March 11, several important measures were held in abeyance until the meeting of April 8, at which meeting a vote was taken by all members of the respective teams to decide as to the advisability of issuing a membership certificate to each player. The object of this was to create a charter membership, so that in years to come, when the present League has grown to proportions where we anticipate several divisions competing annually for the trophy, these members may receive the benefits to which such members are entitled. Our President, Lieutenant Frank Reed, is enthusiastically behind the idea of forming a composite team of the League so that we may challenge outside States. At the present time there is under way plans for a League among the Massachusetts National Guard. We also understand that out in Chicago a League already exists, and with the Regular Army down in Fort Meyer taking an active part, in a very short time Mounted Basketball will have reached the stage of popularity Polo now enjoys.

For information pertaining to the Eastern Mounted Basketball League kindly communicate with Lieutenant Frank Reed, President, 105th F. A., Brooklyn, or Sgt. John L. Foulis, Secretary, 104th F. A., Jamaica, L. I.

105th FIELD ARTILLERY BATTERY "B" NOTES

Now that our First Annual Minstrel Show is a matter of history we can proceed with the more serious side of our much militaristic life.

The many long tedious hours put in by members of the cast in rehearsals, under the able tutelage of "Bill" Halloran, were amply offset by the splendid manner in which a large audience received the offering at the Brooklyn Academy of Music on February 21st.

There is no necessity of our enlarging on the details of the show, as all those interested are fully aware of the manner in which it met with everyone's approval. We sincerely hope that those responsible for the success of the show will endeavor to set forth the same productive efforts next year and put it over bigger and better than ever.

The morning of Washington's Birthday, February 22nd, found "B" Battery again hitting the trail, that is, part of "B" Battery. We rolled out of the Armory with our champion horse-show hitch to take Newark, N. J., by motor truck. The Essex Troop, in staging a Gymkana, by way of diversion, suggested our entering a six-horse hitch in competition with "C" Battery, 112th Field Artillery, N. J. N. G.

Upon viewing the 112th entry we fell down behind our limber and proceeded to almost choke with hysterics, being joined in this spasm by our champ of wheel-horses, "Paddy" Dugan, who happened to be standing there at the time.

"Paddy", having performed in horse-shows too numer-

ous to recall, explained to us his absolute confidence of coming home with nothing less than the Blue Ribbon, Silver Cup and Silver-plated Spurs, denoting 1st prize, but alas, poor "Paddy" prophesied wrongly, much to our consternation, inasmuch as our esteemed competitors walked, cantered and galloped off with the honors, leaving us with nothing but a red ribbon and plenty of blue atmosphere. We accepted this mark of distinction, but none too graciously, we assure you.

"Paddy" consoled us with the idea of catching 'em in the National show at the Garden and show 'em what an Artillery outfit looks like. Believe us, we will never be accused of desiring to buy lots in Jersey, New or Old.

We wish to publicly commend Cpls. Strassel and Morrissey on having been appointed to the rank of Sergeant, also Pvts. Furey, Frank Hesselbach and Wilbur Smith, each of these receiving two stripes. Pvts. Bellemare, Fitzpatrick, Hanley, Hickey, Kenney, Lucia, Luhrs and McAllister receiving appointments to the rank of Private 1st Class. Pvt. Bellemare upon receiving a copy of the order promoting him to the sixth grade was called upon to make a speech a part of which is as follows:

"I am greatly pleased to see that my hard work and study has not been overlooked by my Battery Commander and I take this opportunity for those Privates who have not as yet made the grade, to instruct them to work hard, learn to ride like I do, just as though you are part of the horse, and you will surely get your stripe."

The "Medics" like Rip Van Winkle, have finally come out of their hop and started to go places and do things.

The 244th Coast Artillery, N. Y. N. G.

has awarded us a contract for outfitting its 700 members with distinctive blue dress uniforms. This is another tribute to the well known excellence of our uniforms and reasonable, fair prices.

We invite inquiries on distinctive dress and service uniforms for officers and enlisted men. Extended time payments can be arranged to suit your convenience.

We have organized a mounted basketball team, which so far has proved no easy "push over". In their last three games they have been victorious, overwhelming such good teams as Hdqrs. Sec. Batt. 105th F. A., Hdqrs. 104th F. A. and Hdqrs. 1st Batt. 105th F. A., and they are hungry for more victories.

Pvt. Damsky tried to "make" the team, but finally gave up after ruining a couple of good horses. He is now devoting his time to riding a car instead of horses. He claims it is 100 per cent safer.

We were invited by Batt. A., 105th F. A., to participate in a mounted basketball game and dance which they held at their armory in Brooklyn. We were the losers but feel we could not have been beaten by a better team.

We had a wonderful evening, and hope that we are again invited to any of their future social functions.

245th COAST ARTILLERY

"Pleasure Seekers" plays to capacity house at Brooklyn Academy—Director Peckham scores triumph with well-drilled cast—Ladies Auxiliary lends fullest co-operation—Appropriate headlines for playing to a full house, the cast of "The Pleasure Seekers," composed of enlisted men of the 245th Coast Artillery (Old 13th) and members of the "13th" Ladies Auxiliary, gave a splendid performance Saturday evening, February 15th.

Mr. H. Duncan Peckham, Broadway dance director and producer, was amply rewarded for his patience and efforts. His pupils plainly showed that they had been thoroughly trained and rehearsed.

The Ladies Auxiliary of the "Old 13th" came across in fine style, supplying every female member of the cast. Friends and relatives of the cast and members of the 245th, as well as officers of almost every unit of the New York National Guard, made up the assemblage.

The new Regimental Marching Song was presented in public for the first time and was enthusiastically received. The words:

Everybody loves a buddy in the Infantry;
Some like the Cavalry boys.
Many are the hearts in love with
Sailors of the sea.
But give me all the joys of the Coast Artillery.

CHORUS

Boom, boom, boom, boom,
That's the gun, puts them all on the run.
Boom, boom, boom, boom,
That's the song makes them all step along.
Oh, we're always steady,
We're always ready
To fight for the Land of Liberty.
Boom, boom, make room,
For the Coast Artillery.

Inspecting Officer Major Kahle expressed great satisfaction at the showing the entire outfit made at the annual inspection and but 25 absentees gave the regiment a 96.90% of attendance.

BATTERY E—The feature of the distribution of the new uniforms was the perfect fittings. With few exceptions, no man had to have his uniform altered, which is saying a lot for the builds our boys possess. Of course the Army tailor may have had something to do with it, but he isn't a member of this battery.

According to reports, prevalent around the Armory, Battery E made the best showing during Inspection. Questions were answered with snap, also correctly. Everyone was dressed up beautifully. The Infantry drill was, well, all right—superb! And the Artillery drill, the primary purpose of the Inspection, turned out great! Though we had had only five weeks of preparation, which really means less than five hours, the co-ordination was of a calibre rarely found in National Guard circles. . . . Class will tell!

If it weren't for the fact that the Armory has to close down we'd still be in session. Our last meeting was so full of discussion, that the Armorers were forced to remind us of the time, with the result that a continuation will take place next week. The problem before the house is the refurnishing of the Battery Room.

A committee, consisting of Sgt. Bob Simmons, Sgt. Sidney Adler, and Pvt. Arthur Weiner, has been appointed to look into the advisability of holding an old-fashioned shirt-waist dance, the proceeds of which would go into our Dress Uniform Fund. We're saving up for them, you see.

'EL RAIZERS OF "L"—Whoops, my deah! Battery L is up to their old tricks again. Meaning, of course, 100% attendance at the annual inspection and muster. And besides that, you should have observed the manner in which we breezed through the artillery, the infantry, the questions and everything else that goes with a good stiff inspection.

Previously, they used to send mind-readers along our way, under the disguise of inspecting officers, and they would always ask you the one and only question you didn't know. Not this year however! The boys went through those questions like a dozen of C.C.'s. What's that you ask? What are C.C.'s? Oh! evidently you haven't been to camp. Well, they're a marvelous cure for itching scalp, tooth-aches, corns, in-grown toe-nails and goldbricking. Purchaseable at your nearest drugstore or you can obtain a free sample by writing to the station which you are now listening to.

Now that inspection is over, all our troubles are ended.

Whoa! Where do you get off with that stuff? Look what's staring us in the face! CAMP! The one word that always gives the rooks the heebee jeebees and always gives the old-timers a big kick. What do you say, boys? Let's get together and dig up a few memories. Hm-m-m! Last year we were at Sandy Hook with barracks to protect our dear selves from the brutal weather. Awful kind of our

governing lords, but we want tents if it's all the same to them. Why, when we swept a room down at the Hook, we actually had to pick up the dirt. Not so at Fishers Island. Under the tent floor it went.

Oh! by the way, boys! Remember our war-cry. "Five miles of sandy beach, bring your bathing suits, plenty of swimming," followed by a long whistle and a trail of razzberries dragging along behind.

Well, it's back to dear old Fishers Island this year. Gee! And how we're hoping that we have another one of those gales, as we did a few years ago. Remember it? Huh? Eight men and a lot of rope couldn't convince your tent that it belonged somewheres in the region of the ground. Remember laughing at your next door neighbor, and what happened to that laugh when your tent decided it knew how to do the buck and wing. So, here's hoping for a few good gales this year.

As previously predicted, the bowling team is going great guns. And why shouldn't they? With our reliable skipper, Captain Pabst, right behind them with a cruel lash and a double-barreled shotgun, it's best for their health that they knock down the pins which are usually found standing at the other end of the alley. The slap 'em down boys who are supplying the good work are Lieut. Wrigley, Sgt. Yates, Pvts. Godfrey, Leyes, Kelly and Ferry. Wotta bunch! Keep it up boys! You're only in second place now with one to go.

105th INFANTRY

At the recent inspections, concluded last month, the regiment had a regimental attendance of 97.30%. Only thirty men were absent in the entire twenty units.

Word comes from Company L's basketball team that it has just finished an active and successful season on the courts, playing some twenty games and winning nine. Manager Jack Cooke has booked some first-class teams including Bennington, Vt., Bolton Athletic Club, Troy, Corinth Indians, Sons of Italy, Mechanicville, K. of P's, Delaware Juniors, Saratoga. This was Co. L's first season and they expect to roll up a better one next fall. The company is now forming a baseball team and hope to cross bats with many other military teams when the diamonds shake the dampness of Spring.

Three veteran sergeants in the 105th Infantry who served under the American flag both on the Mexican Border and in the World War are Rollin J. Hurd, Thomas Jackson and William H. Thiessen. Long service has steeped each man in military tactics and the art of warfare. Besides their affiliations with the various National Guard companies each of the sergeants is an employe at the State Armory, either as an assistant armorer or engineer. Sgt. Hurd holds his twenty-five year medal for service in the guard while Sgt. Jackson is entitled to his this year, and Sgt. Thiessen has "rung up" twenty-one years. Sgt. Jackson recently was awarded a medal by the State of Vermont for relief work during the flood of 1927. He has already received the medal, which will be presented officially later in the year. As wagonmaster of the 105th Infantry he led the wagon train carrying food and other articles into the stricken area. Sgt. "Bill" Thiessen has done much to make the name of Thiessen a prominent and respected one throughout the National Guard in this

section of the country. His brother is Major Frederick A. Thiessen, head of the Delaware and Hudson police. Until about a month ago Bill was a "railroad bull," but he relinquished this post when named to succeed Sgt. Edward Way, deceased assistant engineer at the State Armory.

Other sergeants whose length of service is notable are 1st Sgt. Nelson A. Moss of Company K, 1st Sgt. Clarence W. Watson and Supply Sgt. George A. Putnam both of Company L. These "old soldiers" must have been born in the Guard. They all saw service in all the wars of modern times, but don't lay claims to having fought in the Revolutionary War.

108th INFANTRY

On Monday night, February 24th, the officers and men of this unit were entertained at a Fish and Chip dinner, made possible by our Civil Association.

The company reading room also has been enhanced by the addition of a bright and shining radio, to "while" away the minutes before and after drill. This radio also was purchased by the men through the above mentioned Civil Association.

Frederich W. Stein enlisted on February 17, 1930.

Charles B. Kamb was promoted from Corporal to Sergeant on February 11th.

Richard Ashby, Private 1st Cl., has been a student at St. Johns Military Academy, Delafield, Wis., for the past five months. We understand that he has just completed the R. O. T. C. course and is now eligible to commission as Second Lieutenant in the Reserve.

Second Lieutenant Frank C. Smith has just been assigned as Attendance Officer of this company, in addition to his other duties. For the year 1929 the attendance of this company was 82% and the "Skipper" has set 90% as the attendance for 1930. The "Skipper" also adds "Attendance is the basis of instruction. The instruction at drill (no matter how good) is wasted, if a man is not present to receive it. Another angle is the fact that the recent National Guard appropriation shows that it costs the government approximately \$7.00 per man, per drill, and when a man is not present for drill it means that the government is spending \$7.00 and getting no return."

It's spring training now for ball players, and like them, we too are going into spring training for Camp, with the addition of several new recruits to keep our batting average at 100%.

Our issue Melton uniforms have arrived, and will be given out as soon as the Divisional Insignia has been sewed on them.

14th INFANTRY

Our regiment has started its recruiting campaign with a display and demonstration of various military equipment at the "R. K. O. Prospect Theatre" in Brooklyn. In the campaign, the Headquarters company is contributing by having two of our best radio operators, namely Tech. Sgt. C. Hallett and Sgt. A. Ray, operate 77-B's between the theatre and the Armory. After we do the Prospect we have quite a circuit of theatres to demonstrate in. Should any of the readers decide to attend one of these performances they'll also be treated with a concert of the entire 14th Infantry Band and a machine gun demonstration with actual fire on the stage.

The communications specialists schools conducted by a staff of officers of this regiment and superintended by our Lieutenant Amunds the R. C. O., are in full swing and it is surprising how quickly some of the men adapt themselves to military means and ways. The results are particularly noticed in the schools of radio where men never knew what code was until a month or so ago and now can send 15 W. P. M. and receive 7. Then again in the wire schools it is a sight for sore eyes to see how butchers and office boys splice and run wire in an expert manner. They also have learned to operate field telephones very efficiently. All in all to be in Headquarters it is better than juggling rifles or sliding on machine gun tripods.

Headquarters company now numbers 65 men in the ranks with the following newly appointed non commissioned officers:

Pvts. Cleary, Conway, Romand, to Corporals. Cpls. Ray and Stevens, to Sergeants. Sgt. Hallett to Tech. Sgt.

In the death of Right Rev. Herbert Shipman, Suffragan Bishop of the Episcopal Diocese of New York, the city, state and nation loses a man beloved by all, who had devoted his life to the upbuilding of his fellow men and to kindly public service both ecclesiastical and military. Bishop Shipman died suddenly March 23 of heart failure. His funeral was held Tuesday, March 25, in the Cathedral of St. John the Divine and attended by virtually the entire Protestant Episcopal clergy of the diocese and delegations from military and Masonic organizations. The services were conducted by Bishop Manning and the remains were taken to West Point and buried with full military honors, Bishop Shipman having formerly been Chaplain at West Point for ten years.

He was Major and Chaplain of the 107th Infantry, New York National Guard, and during the World War was the overseas Chaplain of the 104th Field Artillery, 27th Division, N. Y. N. G.

Honorary pallbearers were the Rev. Roland Cotton Smith, the Rev. Dr. Henry Darlington, the Rev. Dr. Robert Norwood, the Rev. J. Howard Melish, the Very Rev. H. E. W. Fosbroke, the Rev. Dr. Burton S. Easton, the Rev. Dr. Howard Chandler Robbins, the Rev. Dr. E. Clowes Chorley, the Rev. Dr. Alexander Cummins, the Rev. John A. Wade, the Rev. Cranston Brenton, the Rev. Dr. W. Russell Bowie, and the following laymen: Messrs. Harrison, F. Van B. Nichols, Frank Edgerton Webb, Ben Ali Haggin, Gordon Knox Bell, William Bayliss, Stuart Scott, Marshall R. Kernochan and Channing Pollock.

27th DIVISION ASSOCIATION

LONDON TRIP LIST GROWING

Nearly 200 veterans of the 27th Division, A. E. F., have made reservations for the trip to London and back to the battlefields next May and more are being received daily. The veterans will leave New York City on May 13th on the steamship "Republic" of the United States Lines. According to the present plans about 200 "Gold Star" mothers of veterans of the 27th Division who paid the supreme price will accompany the veterans. In addition to this, a bill is pending in the Legislature to appropriate funds to send 200 members of the present New York National Guard as an escort to the "Gold Star" mothers. There is every reason to believe that this bill will be favorably considered. Full information concerning the trip may be had upon application to Major C. Pemberton Lenart, 100 State Street, Albany, N. Y.

Keep Smiling

With the Aid of Scissors, Paste Pot and Brain Storms

No Heart Interest

An ad. in the "Personal" column reads: "Will any kind person assist aged gentlewoman? Blameless life; full particulars." "Now, who on earth wants full particulars of a blameless life?"

Mother: Where do bad little girls go?

Betty: Most everywhere.

"Quick, Bob, a wild cat's just run into the house with your wife."

"Wall, he'll jes' have to get out the best way he can."

Officer: What is the first thing a soldier should do in cleaning his rifle?

Private: Look at the number, sir.

Officer: Why?

Private: To make sure he isn't cleaning some one else's.

A straight flush is as rare on the face of a modern girl as it is in a poker game.—*Spruce Splinters.*

Employer: What kept you from work yesterday, acute indigestion?

Typist: No. A cute engineer, this time.

Youthful Optimism

"Could you tell me the date, Lieutenant?"

"Never mind the date; it's the exam. that counts."

"Well, I wanted to have one thing right on my paper."

—*5th Corps Area News.*

The Fall Crop

I sent my boy to college,
With a pat upon his back,
I spent ten thousand dollars,
And got a quarterback.

—*College Humor.*

They're picking up his pieces,
With a dust pan and a rake,
Because he grabbed a silken knee
When he should have grabbed the brake.

Hay! Hay!

A chaplain who lived near the post said during his discourse: "In each blade of grass there is a sermon."

Late the following afternoon an enlisted man discovered the chaplain pushing a lawn mower about his garden and said:

"Well, parson, I am glad to observe you are engaged in cutting your sermons short."

—*Army and Navy Journal.*

She: "Did you know that the water has rotted away the post in front of our house?"

He: "Mercy goodness, and the teetotalers put that stuff in their stomachs?"

—*Carolina Buccaneer.*

Private Carr: "I heard that Corporal Crastley got shell shocked while in the reserves."

Sergeant Balenshire: "Yes, he opened a soft boiled egg at mess and it had twin chickens in it."

—*Iowa Guardsman.*

Wife: "You seem disappointed with your parcel."

Husband: "Yes. I answered an advertisement for a device to keep down gas bills, and the firm sent me a paper-weight."

Blessings of Inventions

George (from next door): "Mrs. Jones, may I use your telephone?"

Mrs. Jones: "Certainly, George. Is yours out of order?"

George: "Well, not exactly, but Sis is using it to hold up the window, ma's cutting biscuits with the mouth-piece and baby's teething on the cord."

—*Border Cities Star.*

First Scotchman: I'm getting married tomorrow around noon.

Second Scotchman: Just after lunch, eh?—*Red Cat.*

"The Thrill That Comes Once in a Lifetime!"

Bridegroom (in poetic frenzy, as they stroll along the shore): Roll on, thou deep and dark blue ocean, roll!

Bride: Oh, Gerald, how wonderful you are. It's doing it.

Always in Training

Motoring is surely a great thing. I used to be fat and sluggish before the motoring craze, but now I'm spry and energetic.

"I didn't know you motored."

"I don't. I dodge."—*Montreal Star.*

Even Change Has Changed

Father—When I worked in that store at your age I owned it inside of five months.

Senior—Yes, father, but nowadays they have cash registers.

—*Wisconsin National Guard.*

A young Swede appeared at the county judge's office and asked for a license.

"What kind of a license?" asked the judge. "A hunting license?"

"No," was the answer. "Aye tank aye bane hunting long enough. Aye want marriage license."

"I hear the sea captain is in hard luck. He married a girl and she ran away from him."

"Yes, he took her for a mate, but she was a skipper."

—*Iowa Guardsman.*

Horses! Horses!

May—"I caught Jack in a lie last night."

June—"How was that?"

May—"He said he telephoned me from the booth down at the livery stable."

June—"Well?"

May—"It was only a stall."

—*N. Y. C. Lines Magazine.*

14th INFANTRY

The Co. I Rifle Club of Flushing, N. Y., defeated the 212th C. A. Rifle Team at the former's range in Flushing on March 7, by 34 points.

The course fired was at 50 yards, 5 shots each prone, kneeling and standing at slow fire, and 5 shots each prone and sitting, rapid fire. The time being 35 seconds for the rapid fire.

Each club was represented by a 6-man team; the 5 highest scores counting.

The Scores:

Co. I Rifle Club—Lieut. Bell, 124; Cpl. Backora, 121; Cpl. Kessler, 115; Sgt. Kennedy, 114; Cpl. Hogan, 114; Pvt. Pittaro, 114.

212th C. A.—Cpl. Poetsch, 118; Lieut. Reilly, 110; Sgt. Balaka, 109; Pvt. Greagor, 109; Sgt. Renna, 108; Pvt. Giacopino, 104.

On March 10, a ten-man team representing the Co. I Rifle Club traveled to Brooklyn and defeated a team representing Battery F, Champions of the 245th C. A., in the deciding match of a series of three matches by 14 points.

The course fired was at 100 yards, 5 shots each prone, sitting and standing.

Lieutenant Bell of Co. I shot high score with a 74 out of a possible 75.

The Scores:

Co. I Rifle Club—Lieut. Bell, 74; Sgt. Edmonds, 70; Capt. Rogers, 69; Cpl. Backora, 69; Pvt. Colvin, 69; Cpl. Hartung, 68; Sgt. Kennedy, 66; Sgt. Dabour, 65; Cpl. Hogan, 64; Cpl. Kessler, 62. Total, 676.

Battery F, 245th C. A.—Pvt. J. Gribben, 71; Lieut. Guhl, 70; Pvt. G. Adams, 69; Pvt. A. Gribben, 67; Sgt. Levine, 66; Sgt. O'Donnell, 66; Pvt. Coster, 66; Sgt. B. Adams, 64; Pvt. Gentz, 64; Lieut. Paeper, 59. Total, 662.

Distinctive Uniforms

for 244th C. A.

The 244th Coast Artillery is going to be "all dressed up" for Decoration Day, too! Colonel Lewis M. Thiery, commanding, has just awarded a contract for outfitting his 700 enlisted men with distinctive uniforms with Bernhard, Schrag & Co., Inc., of 85 Fifth Avenue, New York City. Although ten firms submitted samples and quoted figures, this firm's samples and prices were by far the most satisfactory and the regiment is going to make a "snappy" appearance the next time they go "out on parade" in

their dark blues with scarlet trimmings.

In reference to the above uniform outfitters, who have the 244th contract in hand, a representative of the Guardsman was a visitor to their plant recently and found they had splendid facilities for the tailoring of good military uniforms, which, coupled with their long experience in this class of clothing, makes them one of the big leaders in the field for distinctive uniform contracts. They also furnish all regulation uniforms for officers and men, having a factory production of 800 to 1000 per week, putting them in line for the handling of the largest contracts.

10th INFANTRY

THE TRUMPETER

Hum-um-um-m! Please stand by for Station announcements um-um—This is Station CO-L-10, at Utica, N. Y., the Voice of "EL" the Tenth.

Good evening, Motorboys! Here we are back again for our usual monthly broadcast. Pardon me, we didn't mean to belittle us Infantrymen by the remark Motorboys. You wonder how we get that way? Well, we have been called doughboys since soldiers trodded the muddy highways, byways, dells, valleys, et cetera, in answer to the country's call.

Now they tell us that in this modern metallic age the Infantry will advance in the field of battle by motor-trucks and they insist we will be called Bussboys.

With all respect for the literary and imaginative talent of the author of this possible epithet, we admit divergence of opinion in the use of the word "bussboys", therefore our concoction of the word "Motorboys".

We got them at last. Yes, sir, the new Roll Collar O. D. Melton Uniforms. The old adage "Clothes make the man", holds good for "Uniforms make the soldier". It is evident that Uncle Sam knows the needs of its Service boys and is endeavoring to make the Regular Army and National Guard service more and more attractive every day. With the addition of a Pershing style cap to match this snappy uniform, service in the Guard should prove more attractive. No doubt these will also be issued. And of course the Blue dress uniform would be more than welcomed. While we were the last company to receive the new uniform at our station, we were able to be the first Guard unit in

a Real Program

Utica to appear in the new uniform. The occasion will not be soon forgotten for we had the honor of being addressed by Mr. Clayton K. Slack, only living private holding the Congressional Medal of Honor. Mr. Slack spoke briefly, saying that every member of today's 27th Division should feel a sense of pride in being a member of a Division which so distinguished itself in the breaking of the Hindenburg Line. Mr. Slack was a member of Company D, 124th Machine Gun Battalion, 33rd Division, Illinois National Guard, before and during the war.

At this writing we are very glad that Pvt. 1st Cl. John R. Gaffney has recovered from his recent operation at a local hospital. While his illness prevented 100% attendance at the Annual Inspection, we know he was 100% with us in thought.

Sense and No Sense

Nick Comito was patiently waiting for the Blue Dress uniform when the announcement was made that the new uniforms arrived. Too bad Nick, they won't let us run this army.

"Ray" Hayes hasn't favored us with any literary text as yet.

We wonder what happened to "Bill" Lewis' serenaders? They started off with a bang, but later we learned that Bill sold his drums. Were the drums the whole orchestra?

Get busy, we'll be wanting some music at Camp. If you don't, we know the Captain will arrange to have a radio. Yes, we know the Skipper will have a radio for us at Camp.

Rakowski wanted to know what would happen if his "Shotgun" (meaning his rifle) back-fired. Well, Joe, Sammy Morelle thinks they would blow taps.

Williams: (after striking his elbow against the wall) Ouch, I just hurt my crazy bone.

'Luke' Cardillo: (5 minutes later) Does your head still hurt?

We are glad Annual Inspection is over with. Why shouldn't we be, wasn't Williams present on that night?

We wonder who the sheik is that carries the Guidon for the company.

Ta-Ta—ta-ta—Ta, tra, ta-ta. Dog-gone, there goes Pay Call. We hate like the deuce to cut this program short, so we will bid you all Au Revoir until next month. At the stroke of gingle it will be eggsackly 9:45 P.M. Utica time. Station CO-L-10 is now signing off until, Aw! who cares?

Field Artillery Brigade Has Synthetic War

All units of the 27th Division Field Artillery were mobilized at the armory of the First Battalion, 105th Field Artillery, last night to participate in command post exercises. Brigadier General William F. Schohl, brigade commander, ordered the artillery into action.

The large ring of the Clermont Avenue armory bustled with activity as couriers hurried about bearing dispatches transmitted by telegraph or radio. The headquarters batteries took their large wire carts into the armory ring and laid wires connecting the three regiments with brigade headquarters.

During the operations the Red Army, mythical, was joined by secessionists, "north of Gettysburg." The Blue Army, comprising the 27th Division men, took up supporting positions south of the "ridge." There General Schohl stationed Colonel Douglass Walker, commanding the 106th Field Artillery, of Buffalo, and his staff, while farther on at the left of the line he stationed the 104th Field Artillery, of Jamaica and Binghamton, under Lieutenant-Colonel John J. Mangan. On the right of the line the 105th Field Artillery, of Brooklyn and the Bronx, supported the 107th Infantry. Lieutenant-Colonel Clarence H. Higginson commanded the artillery regiment.

When recall was sounded the tactical reports of each regiment were turned over to the official referees and umpires, composed of Regular Army instructors. A critique was held after "hostilities" had ceased and the officers were commended upon their efficiency in field work. The observers were Colonel William R. Wright, chief of staff, 27th Division; Lieutenant-Colonel Hampton Anderson, assistant, and Major Wilbur Bryan, National Guard officer for the Second Corps Area.

The umpires were Majors Leonard Sparks, Lucian Taliafero and Philip Thurber, and Captains Lester J. Whit-

lock, Victor Olson and Leslie Babcock.

A collation was served in the officers' messroom at the armory, concluding the first command post exercises since the maneuvers at Camp Dix last summer.

244th COAST ARTILLERY

The Manhattan Chapter, Reserve Officers Association of the United States, have presented a handsome trophy to be competed for by the three Coast Artillery regiments in pistol shooting. These regiments are the

212th C. A. (A.A.), the 244th C. A. (H.T.), and the 245th C. A. (H.D.). This trophy was made possible thru the efforts of Major F. E. Davidson, President, and Captain G. Hilton, Secretary, of the Manhattan Chapter, R. O. A., and General J. J. Byrne, Coast Artillery Brigade Commander. The efforts and actions of the Manhattan Chapter, R. O. A., in stimulating pistol shooting in the Guard are highly commendable and appreciated by us.

The match was run under the direct supervision of General Byrne and Brigade headquarters. The General, with Colonel Lewis M. Thiery, com-

manding officer of the 244th C. A., attended the match personally and remained at the firing point throughout the shoot. Orders were issued for the match to be held at the armory of the 244th C. A. (old 9th) on March 10. The teams were composed of ten men from each regiment. The course fired was the regulation dismounted course with the exception of the bobbers.

The officers of General Byrne's staff acted as match officials. Major Philip K. Rhineland was executive, Captain Robert V. Lee, range officer, and Lieutenant A. H. Osborne, scorer.

The match was won by the team of the 212th C. A. with a total score of 2290 points. It was, however, closely followed by the 244th which lost only by eleven points, with a score of 2279. The constant application and the methods of team practice employed by the 12th was responsible for their victory, while the erratic and inconsistent shooting of some of its team was responsible for the 9th's second place. The 13th was a poor third with 1462, which may be explained by the fact that the men of this regiment are armed with the rifle, and consequently there is not as much stress laid on pistol shooting as in the other two outfits.

The presentation of this trophy has certainly stimulated pistol shooting and small arms competition in these three regiments, as the men are flocking to the range to either learn to shoot, or to try for places on the teams. We look for even a closer match next year as the 9th will be out to avenge their defeat of this year, while the 12th will want to keep the trophy. It is hoped that the 13th by proper preliminary practise will be in there to give the other two teams something to worry about.

The high scores were as follows:

Highest Grand Total—Sgt. Perfetti, 244th C. A., 275.

Second Grand Total—Major Perry, 244th C. A., 272.

Third Grand Total—Captain Rigen, 212th C. A., 258.

Slow Fire 25 yards—Captain Rigen, 212th C. A., 96.

Rapid Fire 15 yards—Sgt. Perfetti, 244th C. A., 94.

Rapid Fire 25 yards—Sgt. Perfetti, 244th C. A., 86.

Rapid Fire 25 yards—Sgt. McMasters, 212th C. A., 86.

New Combination Coathanger

A new coathanger that will hold all a soldier's wearing apparel has just been placed on the market and should prove very handy to the soldier.

This article has been tried out by several outfits and has been found very satisfactory in solving the problem of a small locker. It will hold the overcoat, blouse, breeches, shirt, tie, leggins, cap and campaign hat, allowing ample room for anything else that should be in the locker.

Several of our officers have purchased these coathangers for use in the field where they should prove very beneficial and we advise your looking into the matter before your field training dates.

It might be worth while to look further into this matter as it may solve your locker problem too. You can do this by getting in touch with A. Sackin, 456 West 39th St., New York City, the manufacturer.

Rifle Range at 106th Armory Selected For Intercollegiates

Washington, D. C.—The rifle range at the 106th Regimental Armory, Brooklyn, N. Y., has been selected by the National Rifle Association as one of the four ranges over which the third annual intercollegiate shoulder-to-shoulder matches will be fired on April 5th. The other ranges selected are: Naval Academy, Annapolis, Md.; Drexel Institute, Philadelphia, Pa.; and the State University of Iowa, Iowa City, Ia. Members of college rifle teams in all parts of the country are practicing for this event. Teams in each section will travel to one of the four appointed ranges to shoot it out. All scores, however, will count in the national standing—the highest team in all four competitions to receive the N. R. A. National Intercollegiate Championship Trophy and the Certificate of Victory. Members of the winning team will receive silver medals while bronze medals will be awarded members of the second and third highest teams. The high team at each sectional match will also receive bronze medals. Teams will consist of five shooting members, captain and coach.

This year marks the third contest for the Intercollegiate Cup. George Washington University, Washington, D. C., were the first winners, with a score of 1,332. Last year, Iowa State University took the honors with the very good score of 1,365 out of a possible 1,500. All college rifle teams are eligible to participate and it is expected that approximately 40 teams will attend this year's meet. The matches will be fired under N. R. A. rules, a representative of the Association being present at each of the four ranges. Conditions of the match will be as follows: Ten record shots in each of three positions—prone, kneeling, and standing.

The Association plans to hold a regional match on the Western Coast in next year's intercollegiates so that Western college teams may attend. There is some splendid material out there, the University of Washington team being one of the best in the country.

New Yorkers Win Many Awards in Rifle and Pistol Matches

WASHINGTON, D. C.—Results of 30 nation-wide rifle and pistol and pistol matches, fired on indoor ranges, have just been announced by the National Rifle Association at its headquarters here.

Of the ten events fired, all but two were won by a New Yorker, Sgt. Joseph Smith, Fort Ontario, won the Free Pistol Match, the N. R. A. Individual Pistol Championship, the Rapid Fire Pistol Match, the .22 Slow Fire Pistol Match, all at 20 yards, and the Individual .22 Pistol Military Championship, fired at 50 feet. Lieut. Lloyd D. LeMan, White Plains, took the .22 Slow Fire Pistol Match and the Rapid Fire Pistol Match, both at 50 feet. The N. R. A. Individual Pistol Championship 50 feet range, went to Harry S. Menkel, New York City, who placed second in the Free Pistol Match at 50 feet, in the N. R. A. Individual Pistol Match at 20 yards. Isaac W. Turner, of White Plains, was second in the Individual Police Pistol Championship.

Certain rifle events were held to determine state champions. Lieut. Morton Solomon, White Plains, won the New York State award in the Individual Gallery Championship with Metallic Sights fired at 50 feet. E. W. Mange, of Stuyvesant, won it in the Individual Gallery Championship with Any Sights fired at 50 feet, and A. A. Taylor, of Brooklyn, won his in the Any Sight event fired at 75 feet. Lieut. Solomon placed second in the Individual Military Championship, incidentally firing the high score in this match from the 2nd Corps Area. He was third in the Gallery Grand Aggregate at 50 feet and also in the Individual Free Rifle Championship at 50 feet. Sgt. Joseph Smith who took so many of the pistol events was third in the Individual Standing Match fired with the rifle at 75 feet. He also won the Gallery Grand Aggregate fired at 75 feet. Walter Kelsey, of Tarrytown, hung up third score in the American Legion Individual Gallery Championship. Jim Butterworth, of Highland Park, was second in the Gallery Grand Aggregate at 75 feet.

The Post Office Department reports a saving of \$9,389.80 in handling the last Christmas mails through the loan of motor vehicles by the New York National Guard in the larger cities throughout the State, according to a statement issued by Major General William N. Haskell.

During the Christmas holidays, all available motor vehicles, men and armories were offered to the various local Post Offices to facilitate the movement of the heavy seasonal mail. This assistance was given without interfering in any way with the regular training of the troops.

In New York City alone, 65 large capacity motor-vehicles with chauffeurs were furnished, while in the larger up-state cities, 18 trucks were supplied. In addition, several of the armories were used as branch Post Offices for handling the bulkier parcel-post mail.

In all cases where National Guard personnel and equipment were employed, no instances of delay or loss of mail were reported and the emergency "postmen" of the New York National Guard have been highly complimented by the Federal authorities for their valuable services outside the normal "line of duty."

Indeed An Expert!

It has been noted that Sgt. Frank P. Smiley, Troop A, 121st Cavalry, Utica, qualified in 1929 as an expert with all weapons with which he is armed, viz: Rifle, pistol dismounted, pistol mounted, and sword.

Change in 1930
National-Match Rifle

A slight change has been effected in the 1930 National-Match rifles. The headless cocking piece has been replaced by the standard-type cocking piece, with the knurled head. The reversed safety lock has been retained, as have all the other features of the 1929 National-Match rifle, including the type C pistol-grip stock. Sales of the National-Match rifle, with headless cocking piece, will be approved until the present supply becomes exhausted.

team from the 244th, and a company team from the 7th. For the last two years his cup has been in the possession of Battery C of the 244th, who not only won the regimental competition, but wrested the trophy from the 7th, where it was held by Company D.

Each battery will have a team of five men. The regimental course will be short and simple, due to the limited time and the amount of men to shoot. In the competition with the 107th, however, the regular dismounted course will be shot. This match will probably take place some time in early May, at the 244th's armory.

Battery E's Athletes

Abel Kiviat, Lawson Robertson and Harry Hillman, former members of Battery E, 245th Coast Artillery and all causes for the popularity of the expression, "the good old days," had better begin to fear for their prestige. Battery E is now in possession of a new generation of great athletes whose accomplishments bid fair to overshadow those of their predecessors.

Over the week-end of March 22nd, five members of this battery played prominent parts in the athletics of the nation. Russel Jeckel, representing the New York Athletic Club, ran the best race of his career to place sixth in the National A. A. U. Marathon held on Staten Island, Sunday, March 23rd. In this same race Frank McArthur, running his first full-distance marathon, was the third member of the winning Millrose team. He finished twenty-first. Frank shows promise of becoming the country's outstanding long distance runner. Capable of a 4.30 mile, he also reels off snappy quarters. Combining the speed from the latter distance with the stamina he is building up competing in ten-mile races, McArthur is a sure bet for the marathon Olympic team in 1936. Far from being an uncertainty, is the fact that he may lope off with this ace of distance events.

Another member of the McArthur family and Battery E, Alfred, placed seventh in a trial five-mile road race Sunday, held by the Brooklyn Harriers Athletic Association. The day before, Mickey Eisenfeld, captain of the Boys High track team, one of the younger athletes, ran third in the Mile Run at the George W. Wingate Games, after leading the greater portion of the way.

244th Coast Artillery

The 244th Coast Artillery will hold an inter-battery pistol match at its armory Tuesday, April 15. The object of the match is to see which battery team will defend the John J. Byrne Trophy from the 107th Infantry. This cup was presented by General John J. Byrne when he was in command of the 9th, to be shot for by a battery

Siam Prince Reviews the 71st Infantry

WITH a royal salute of twenty-one guns, fired in the rifle range of the armory, but which sounded like big cannon in the distance, His Serene Highness, Major General Prince Amoradat Kridakara, Envoy Extraordinary and Minister Plenipotentiary of the Kingdom of Siam to the United States, entered the armory of the Seventy-first Infantry for a review on Friday evening, March 7th.

The Prince had come up from Washington especially for the review, having heard much about the splendid ceremonies staged by the New York regiment.

The men of the regiment were in fine mettle and the movements, executed on a drill floor far too small to make even a regimental drill easy with a regiment of 1159 men, were impressive in their precision and presented a picture of unusual brilliancy. The regiment, in their blue coats,

white trousers and white cross-belts and the officers with white aigrets and white plumes in their shakos, every company showing strength in numbers and steadiness in ranks, gave an exhibition of the finest character. Colonel De Lamater has certainly acquired a personnel that makes for high efficiency, both in the armory and in the field.

As usual, the galleries were packed with enthusiastic followers of the Seventy-first, as was every available foot of drill room floor. With the beautiful decorations in the drill room and the immaculate appearance of the men, it is doubtful if a more brilliant review was ever held in New York.

Before the review Colonel De Lamater entertained at dinner the Prince, his Legation Secretary, the Siamese

Consul at New York and other distinguished guests. The famous "blue room" of the Hotel McAlpin was the scene of the feasting, and assembled around the table in the form of an "S", and decorated with flowers in the colors of the Siamese flag, were many guests prominent in military and business life. One of the notable hits of the dinner was the dessert, brought into the room with lights low, upon white translucent ice elephants, illuminated with miniature lights within.

The exhibition cadence drill, done by Companies E, F and G of the Second Battalion as a war strength infantry company, commanded by Major Thornton, was of a high order of military excellence and the silent manual, done during the Evening Parade, brought forth, as usual, much applause.

Among the guests were Prince Kridakara; Honorable Luany Chara, Secretary of the Siamese Legation, Washington; Honorable Charles W. Atwater, Siamese Consul at New York and Mrs. Atwater; Major General William N. Haskell, Commanding National Guard, New York, and Mrs. Haskell; Brigadier General O. B. Rosenbaum, U. S. A., and Mrs. Rosenbaum; Colonel William B. Graham, 18th Infantry, U. S. A., and Mrs. Graham; Colonel W. A. Heckard and Mrs. Heckard; Colonel William R. Wright, Chief of Staff, 27th Division; Colonel James A. Logan and Mrs. Logan; Colonel W. K. Naylor and Mrs. Naylor; Colonel A. S. Williams, 16th Infantry, U. S. A., and Mrs. Williams; Colonel L. A. Salisbury and Mrs. Salisbury; Lieutenant Colonel Robert C. Richardson, Jr., Commandant of Cadets, U. S. Military Academy; Lieutenant Colonel Stanley Bulkley; Lieutenant Colonel Hampton Anderson; Lieutenant Colonel Robert Guggenheim and Mrs. Guggenheim; Major W. P. Davenport, M. C., U. S. A.; Major Thomas C. McDonald; Major J. A. Mansfield and Mrs. Mansfield; Major Philip Rhineland; Captain John H. Baxter, U. S. A., and Miss Hodge; Captain C. H. St. Germain, U. S. A., and Mrs. St. Germain; Captain H. A. McGuire, U. S. A., and Mrs. McGuire; Honorable Peter Schmuck, New York Supreme Court, and Mrs. Schmuck; Mr. Louis B. Wiley, Editor, New York Times, and Miss Wiley; Honorable Alfred J. Kennedy, New York State Senator; and others prominent in civil and social life in New York.

CLASSIC STATE MATCHES

SECOND WEEK IN JUNE

The State Ordnance Office is arranging to hold the State Matches at Camp Smith, Peekskill, this year from June 8 to 14. At this time the matches of the New York State Rifle Association will be held as in 1929. There will be some sixteen pistol and rifle events in all at nearly all ranges and a record-breaking attendance is already assured. Boattail ammunition will be provided for the longer distances and from records made preliminary pistol and rifle teams will be selected for the National Matches at Camp Perry, Ohio, to represent the State of New York.
