REPORT OF THE ADJUTANT GENERAL

ALBANY, *December 31, 1934*

His Excellency HERBERT H. LEHMAN, *Governor of New York, Albany, New York.*

SIR:—Pursuant to Executive Order, dated December 11, 1934, the undersigned took over the duties of The Adjutant General of New York on that date, succeeding Major General Franklin W. Ward, who was retired by process of law, having reached the age of sixty-four years, on December 4, 1934.

Herewith is submitted the report of The Adjutant General of the State, respecting the administration of the Division of Military and Naval Affairs of the Executive Department for the year 1934, pursuant to Section 17 of the Military Law.

NATIONAL GUARD

In the National Guard a high state of efficiency continues to be maintained. The active strength of the organization on this date is 1,385 officers, 21 warrant officers and 18,649 other ranks.

For changes in organization, field training dates, service school graduates, small arms matches, award of decorations and other pertinent data see Appendix D.

The annual report of the Commanding General, New York National Guard, is attached hereto as Appendix A.

NAVAL MILITIA

The Naval Militia during the past year has continued to maintain a high state of morale and general efficiency. The active strength of the organization on this date is 144 officers and 1,629 other ranks. The annual report of the Commanding Officer, New York Naval Militia, is attached hereto as Appendix B.

RESERVE COMPONENTS

An itemized report on the strength of all components will be found in Appendix D hereof.

FINANCIAL OPERATIONS

A statement of financial operations for the fiscal year ending June 30, 1934, including State appropriations for the general expenses of the military establishment, expenses for armory maintenance and federal funds allocated and expended during the same period is attached hereto as Appendix C.

STATE ARSENAL

The general activities of the State Arsenal are reported as follows:

The transportation of Federal property required the issue of 878 government bills of lading. Troops to and from camps of instruction, special service schools and other activities used 592 Federal transportation requests.

State funds for the several activities at this Arsenal were requested on 210 State requisitions. State purchase orders to the number of 225 were issued for supplies used in this building and 550 State vouchers were issued.

A total of 385 requisitions for motor transport supplies and equipment were filled at this Arsenal. Thirty-three (33) motor vehicles were overhauled for use at this Arsenal and camps of instruction and twenty-two (22) for use by other units. Forty-two (42) minor repair jobs were completed.

The issue of the new serge and elastique uniforms has progressed to the point where approximately 70% of the troops have been fully equipped. Issues of additional uniforms are being regularly received and it is believed that the entire command will be equipped by March 1, 1935.

The 105th Field Artillery is in the process of being motorized and orders have been placed by the National Guard Bureau for the purchase of new motor trucks and Station Wagons to completely equip that organization together with the balance of trucks needed for the complete equipment of the 104th Field Artillery.

New motor trucks have also been ordered to replace that obsolete motor equipment, ordered out of service by the War Department Appropriation Act for the fiscal year 1935.

2. An analysis of the operations of the Property Accounting Section of this Arsenal for the calendar year 1934 discloses the following:

Survey Reports—196

<i>Classification</i>	<i>Quantity</i>	<i>Money Value</i>
Quartermaster.....	105	\$892,035 76
Ordnance	70	33,422 96
Signal Corps	14	1,901 80
Medical Corps	2	229 90
Engineers	3	1,040 62
Air Corps	2	19,993 05
Totals	196	\$948,624 09

Inventory and Inspection Reports—671

<i>Classification</i>	<i>Quantity</i>	<i>Money Value</i>
Quartermaster	446	\$203,247 24
Ordnance	133	9,333 58

Air Corps	3	447 42
Totals	671	\$217,762 20

Posting Transactions

Debit Memorandums (Non-Exp. S. T., M. D.).....	2368
Shipping Tickets (Expendable)	1188
Credit Memorandums (M. C.).....	1985
Receiving Reports.....	2056
Credit Vouchers (Other than Exp. S. T.).....	1712

Recapitulation of Posting Transactions

Number of Shipping Tickets posted.....	2900
Number of Receiving Reports.....	2056
Number of M. C. & M. D. Tickets.....	4353
Total of all vouchers posted.....	9309

(a) A total of 2399 requisitions were received. All requisitions for Ordnance and Medical property are forwarded by this office either to the State Ordnance Officer or Division Surgeon for approval prior to issue.

(b) A total of 905 requisitions were made by this Arsenal on Federal Depots, of which 65 were for forage and bedding for animals and 60 for necessary blank forms.

3. All Federal funds appropriated for the use of the National Guard are disbursed by the U. S. Property and Disbursing Officer who reports to the Adjutant General. The U. S. Property and Disbursing Officer is also the contracting officer for all construction, repairs and supplies authorized by the Federal Government at camps of instruction. He also provides for transportation, subsistence and pay for all troops undergoing field training. The following is a statement of Federal funds expended and obligated for the support of the National Guard, State of New York, during the fiscal year 1934, ending June 30, 1934:

Forage:

Project 1—(Forage, bedding, horseshoes, veterinary services, etc.)	\$87,573 60
---	-------------

<i>Caretakers:</i>	
Project 2—(Employment of caretakers).....	\$173,465 41
<i>Expenses, Camps of Instruction:</i>	
Project 3—(June, July, Aug., Sept. F. T. Camps, 1934).....	927,805 85
Project 5—(Construction and Maintenance, Concurrent Camps).....	1,535 44
Project 7—(Maintenance and repair work at Training Camps).....	6,165 68
<i>Military Service Schools:</i>	
Project 8—(Expenses selected officers and enlisted men, Military Service Schools).....	9,411 70
<i>Pay of Property and Disbursing Officers:</i>

<i>General Expenses, Equipment and Instruction, N. G.:</i>	
Project 11—(Employment of rangekeepers).....	354 45
Project 12—(Target Range Leases).....	4,550 10
Project 14—(Target Range Maintenance and repair).....	1,500 00
Project 15—(Alteration renovation articles of uniform).....	9,900 50
Project 16—(Maintenance of organizational equipment).....	12,036 78
Project 17—(Gas and Oil, armory training).....	10,245 27
Project 18—(Office equipment and supplies).....	1,070 28
Project 19—(Interstate transportation).....	1,518 17
Project 21—(Miscellaneous expenses).....	1,451 90
Project 22—(Expenses of correspondence courses).....	2 78
<i>Travel of Officers and N. C. O. of Regular Army in Connection With National Guard:</i>	
Project 23—(Travel-visits of instruction).....	3,509 59
Project 24—(Travel-Camps of Instruction).....	3,945 08
Project 25—(Travel-Change of stations).....	272 90
Project 26—(Misc. travel in Corps Area and Depts.).....	783 68
Project 27—(Officers on duty in War Dept.).....	253 10
<i>Transportation of Supplies:</i>	
Project 28—(Transportation of Federal Property).....	3,569 06
<i>Sergeant Instructors:</i>	
Project 29—(Expenses, Sergeant Instructors).....	23,277 55
<i>Armory Drill Pay:</i>	
Project 41—(Armory Drill Pay).....	654,220 42
<i>Arms, Uniforms, Equipment for Field Service:</i>	
Project 51—(Articles of uniform).....	132,305 44
Project 52—(Q. M. Motor Equip., supplies and reps.).....	6,920 84
Project 53—(Musical instruments, supplies and reps.).....	1,452 12
Project 54—(Misc. Q. M. Equip., supplies and repairs).....	7,763 63
Project 55—(Ammunition for N. G.).....	71,514 20
Project 56—(Chemical warfare serv. equip., supplies and repairs).....	3,886 78
Project 57—(Ord. Equip., supplies and repairs).....	43,703 27
Project 58—(Procurement of airplanes).....	21,604 48
Project 59—(Air Corps. Equip. and supplies).....	38,003 52
Project 60—(Signal Corps Equip., supplies and repairs).....	36,519 48
Project 61—(Engineers Equip., supplies and reps.).....	3,784 06
Project 62—(Medical Equip., supplies and repairs).....	10,803 05
Total.....	\$2,319,815 16
Collections account of condemned property.....	10,272 83
Total.....	\$2,330,087 99

Of the above funds the total amount of \$1,248,307.75 was allotted directly to the books of the U. S. Property and Disbursing Officer to be disbursed by him under two separate Treasury Symbol Numbers as follows:

Treasury Symbol No. 27-278.....	\$1,156,192 94
Treasury Symbol No. 95-491.....	92,114 81
Total	<u>\$1,248,307 75</u>

Disbursements as of June 30, 1934

Treasury Symbol 27-278.....	\$849,821 02
Treasury Symbol 95-491.....	88,264 26
Total	<u>\$938,085 28</u>
Disbursements by cash.....	\$464,698 90
Disbursements by check.....	473,386 38
Total	<u>\$938,085 28</u>

The cash payments shown above include payment of troops on field service at the several camps of instruction who are paid individually in cash by Agent Officers operating for the U. S. Property and Disbursing Officer, which Agents are appointed by the Adjutant General of the State.

Items of Field Training Expense 1934

Pay and Allowances (Officers and enlisted men).....	\$682,460 18
Subsistence (enlisted men).....	115,070 89
Fuel	26,581 00
Forage	10,735 11

Funds for expenses, camps of instruction, are secured on estimates compiled and submitted by the U. S. Property and Disbursing Officer to the National Guard Bureau, for all expenses incident to the training camps, payable from Federal funds. The Camp Committee of the National Guard Bureau requires the appearance of the U. S. Property and Disbursing Officer before that body to defend those items of expense which in the opinion of the committee could be cut down or deleted, from such estimates.

The following funds were obtained for the maintenance and repair of camp sites for the fiscal year 1934, ended June 30, 1934:

Pine Camp, N. Y.

Repair to Store House.....	\$400 00
Repair to Tent Floors.....	250 00
Grading warehouse area.....	50 00
Maintenance water supply system.....	100 00
Repair to Plumbing	300 00
Repair to Electrical installations.....	400 00

Repair to sewer system.....	\$80 00
Repair to screening.....	125 00
Repair to electric refrigeration.....	100 00
Repair to concrete roads.....	50 00
Maintenance of observation towers.....	100 00
Repairs to horse shelters.....	150 00
Repairs to incinerator.....	65 00
Oiling Aviation Runways.....	1,200 00
Total	3,370 00

Ft. Ontario, N. Y.

Repairs to Tent Floors.....	\$150 00
Repairs to sewer drain.....	129 70
Repairs to Mess Halls.....	176 07
New door and platform (Administration Bldg.).....	83 26
New Latrine, motor park.....	114 86
Replacement of doors, Motor Transportation Shed.....	392 60
Replacement of electrical material.....	76 50
Replacement of plumbing material and tools.....	172 69
Replacement of eight (8) ice boxes.....	1,500 00
Total	\$2,795 68

Funds were obtained from the Public Works Administration for the following construction which has been completed at the costs shown:

<i>Locality</i>	<i>Construction</i>	<i>Cost</i>
Camp Smith, N. Y.	1 Shed	\$3,071 00
Camp Smith, N. Y.	1 Telephone target range.....	3,200 00
Camp Smith, N. Y.	452 Tent floors, concrete and frames....	27,266 60
Camp Smith, N. Y.	3 Bathhouses and Latrines (E. M.).....	13,669 00
Camp Smith, N. Y.	1 Post Ordnance Magazine.....	3,436 00
Pine Camp, N. Y.	Renovation 24 Kitchens and Messhalls..	25,363 50
Pine Camp, N. Y.	Ordnance Warehouse and Machine Shop.	3,911 00
Pine Camp, N. Y.	Stable, veterinary	2,165 00
Pine Camp, N. Y.	2 Storehouses (Q. M.) Reg'tl.....	1,795 00
Pine Camp, N. Y.	Loading platform	726 00
Pine Camp, N. Y.	General repair and replacement of build- ings and utilities.....	5,019 70
Pine Camp, N. Y.	Bathhouse & Latrine Q. M. area.....	1,490 00
	Total Cost	\$91,112 80

Additional funds were procured from the Public Works Administration for projects as follows:

Pine Camp, N. Y.—Reconditioning Work.....	\$928 81
Camp Smith, N. Y.—241 Tent Floors, concrete with frames....	7,098 00

Twenty-eight (28) invitations for bids were issued during the calendar year 1934 resulting in the execution of 106 Formal Federal Contracts and 185 Federal Purchase Orders. Twenty-eight (28) Federal leases on target ranges throughout the state were renewed, inasmuch as existing law and regulations require

that leases be made for one year only, renewal options covering the balance of the term of the lease.

The continuation of curtailed appropriations requires the practicing of extreme economy in all issues, and all requisitions for equipment and supplies have been carefully scrutinized to prevent any undue waste of funds. The continued cooperation of the field has helped to materially reduce demands for clothing and material, the necessity for which is not immediate, thus making it possible to keep all troops equipped under adverse fiscal conditions.

NEW ARMORY CONSTRUCTION

During the 1934 session of the Legislature appropriations were made and approved in the sum of \$554,000.00 for new armories for units of the 105th Infantry stationed at Schenectady and the 105th Hospital Company at Corning and for the preparation and study of plans for additions or reconstruction of the infantry armory at Utica and the construction of a new field artillery armory at Syracuse.

REQUIRED ARMORY CONSTRUCTION AND EXPANSION

New armories or the reconstruction of old armories are required in the following priority:

Utica Infantry (reconstruction).....	\$200,000 00
Syracuse Artillery (new).....	300,000 00
Middletown (reconstruction).....	100,000 00
Mount Vernon (new).....	250,000 00
Poughkeepsie (new).....	250,000 00
Rome (new).....	100,000 00

EXPLANATION

Details with respect to requirements indicated above, are as follows:

Utica Infantry.—Present structure built in 1894 (is 40 years old). Originally built to accommodate two infantry units. At present occupied by battalion headquarters and three infantry units. It is estimated that additions could be made to this armory which would provide adequate quarters at a cost of \$200,000 plus cost to county for additional land.

Syracuse Artillery.—Present structure rented. A battery of field artillery organized in 1911 has occupied the Arena building at a rental that has increased from \$3,500 to \$9,500. A modern armory should be built for this unit at a cost of \$300,000 plus cost to county for land.

Middletown.—Present structure built in 1890 (is 44 years old). Originally built for one infantry unit, now occupied by a battery of field artillery. Has no accommodations for animals. An addition to this armory should be provided at a cost of \$100,000.

Mount Vernon.—Present structure built in 1898 (is 36 years old). Originally built for one infantry unit. At present occupied by a battery of field artillery. Has no accommodations for animals. Is the smallest State armory and entirely inadequate for present day requirements. A new armory should be provided at a cost of \$250,000.

Poughkeepsie.—Present structure built in 1891 (is 43 years old). Originally built for one infantry unit. At present occupied by two units of field artillery. Has no accommodations for animals. A new armory should be provided at a cost of \$250,000.

Rome.—Present structure rented and inadequate for proper training of a medical unit. An armory should be provided at a cost of \$100,000, plus cost to county for land.

Appropriations made by the Legislature for 1933, for armories, etc.

CONSTRUCTION	
Schenectady (new armory)	\$450,000 00
Corning (new armory)	100,000 00
Utica, infantry (preparation of plans)	2,000 00
Syracuse, artillery (preparation of plans)	2,000 00

Total armories, 77.

Total number of armories leased for subdivisions of the National Guard and Naval Militia unable to secure accommodations in the foregoing is 9.

The active military establishment of the State is housed in the 86 armories indicated above.

Storage facilities are provided at the United States Naval Reservation, Sacketts Harbor, for material of the 13th Fleet Division, Naval Militia, and at Utica for units of the 10th Infantry. Stables are provided at Middletown, Mt. Vernon and Poughkeepsie for units of the 156th Field Artillery.

ARSENALS, ETC.

Arsenals, camp grounds and rifle ranges, owned by the State, are as follows:

Brooklyn.—State Arsenal—Erected 1926. Used by The Adjutant-General of the State as an arsenal and storeroom. Approximate valuation, \$1,000,000. Floor surface, 166,000 square feet.

Peekskill.—State Camp Ground and Rifle Range. For use of infantry and such other troops as may be designated. Approximate valuation of land and buildings, \$235,000. Approximate area, 1,886 acres. One hundred and eighty-seven targets,

Rensselaer.—Rensselaerwyck Rifle Range. For the use of troops stationed at Albany, Troy, Cohoes and such other troops as may be designated. Approximate valuation, \$25,000. Approximate area, 11 acres. Thirty targets.

Buffalo.—Kenilworth Pistol Range. For the use of troops stationed at Buffalo. Approximate valuation, \$25,000.

In addition to the above, camp grounds are provided in the State for cavalry, artillery and air service on Federal reservations at Great Bend, Oswego and Fishers Island.

RIFLE RANGES

Field Rifle Ranges for the use of troops of the National Guard and Naval Militia are leased by the Federal Government as follows:

Landing Field.—A landing field for Air Corps of the National Guard is leased by the Federal Government at Fulton, N. Y., at an annual rental of \$250.

Total leased rifle ranges, 25.

Total floor space of all buildings, exclusive of structures at camps and rifle ranges is 6,519,071 square feet.

The approximate valuation of military grounds and structures owned by the State and city of New York is \$38,388,983.

* Not leased by Federal Government.

PENSIONS AND CLAIMS

Blind Veterans' Fund

There are on this date 131 veterans of all wars who receive \$500 per annum, by reason of blindness. During the past year 16 new applications were approved and three pensioners died.

Pensions

There are 68 persons pensioned by the State under Section 220 of the Military Law which provides compensation for permanent disability incurred in line of duty in the National Guard or Naval Militia under lawful orders.

Since last report four new pensioners have been added to the list.

Claims

During the year 6 claims for pay and care of National Guard soldiers injured in line of duty were allowed.

SOLDIERS' BONUS BUREAU

December 31, 1934

Under constitutional authority a bonus for New York veterans of the World War was provided pursuant to chapter 19, Laws of 1924. The sum of \$45,000,000 was realized from the sale of bonds authorized by law, this sum having been augmented by premiums amounting to \$659,565, the latter sum also being appropriated for bonus purposes under chapter 208, Laws of 1925.

A Commission, consisting of The Adjutant-General, the Comptroller, the Treasurer and the Attorney-General, administered the disbursement until April 22, 1926, when its functions were absorbed by The Adjutant-General.

Each eligible veteran, upon application, received the sum of \$10 for each month of service with the colors, between April 6, 1917, and November 11, 1918, with \$150 as the maximum payment. Under chapter 209, Laws of 1925, an additional appropriation of \$2,500,000 was made. Chapter 26, Laws of 1925, added the next of kin to those who were killed or died in the service or prior to February 28, 1924, as eligible to receive the bonus. Under chapter 267, Laws of 1926, a further appropriation of \$300,000 was approved. Chapter 676, Laws of 1931, extended the time for filing claims to July 1, 1932, and made an appropriation of \$250,000. At an extraordinary session of the Legislature in 1931 to carry out the provisions of an act creating a temporary emergency relief administration, the sum of \$548,000 was appropriated by chapter 799 for the payment of bonuses, \$30,000 of which was made available for administration expenses. Under chapter 120, Laws of 1933, an additional appropriation of \$90,000 was made for bonus payments and \$25,000 for administrative expenses, bringing the total appropriated for bonus purposes to \$49,408,565, out of which

there has been paid to December 1, 1934, in bonus and administration costs, the sum of \$49,297,833.23, leaving a balance of \$110,731.77.

Under the original law no claims could be received after May 1, 1927. Since the reopening of the Bureau on April 23, 1931, many unsettled claims have been reopened, while 10,135 new claims have been recorded. The Bureau closed for the receipt of applications July 1, 1932.

There has been received a total of 427,799 claims of which 413,526 have been paid, with an average payment per claim of \$117.23 at an overhead cost of \$1.85 per claim. There are still in the process of adjustment 5,832 claims. Of the total claims received, 25,257 applicants were not credited as having had an actual residence in the State at the time of their enlistment. Of the total troops furnished by the State, 91,000 failed to make claim for this bonus.

VETERANS' RELIEF BUREAU

Under chapter 589, Laws of 1922, a Commission to be known as the New York Veterans' Relief Commission, consisting of The Adjutant-General who shall be Chairman thereof, the Comptroller and the Attorney General was created for the purpose of distributing relief to sick and disabled New York veterans. Under chapter 326, Laws of 1923, this Commission was abolished and a separate Bureau was created in the office of The Adjutant-General to be known as the Bureau for the Relief of Sick and Disabled New York Veterans. Under chapter 605, Laws of 1928, the Military Law was amended and article 1-A was added.

Under chapter 589, Laws of 1922, \$1,000,000 was appropriated. Under chapter 326, Laws of 1923, an additional million dollars was approved. Of this total \$68,891.29 reverted to the State Treasury through lack of reappropriation. Under chapter 708, Laws of 1931, \$75,000 was appropriated. In 1932 \$100,000 was obtained through the Temporary Emergency Relief Administration from funds appropriated under chapter 567. In 1933 \$50,000 was appropriated under chapter 120 and in 1934 an appropriation of \$200,000 was received from the Temporary Emergency Relief Administration from funds appropriated under chapter 273 and \$50,000 under chapter 20, making the gross total available \$2,406,108.71.

To date the total number of applications for relief approved is 11,080 of which 4,611 have received the sum of \$250, the maximum permitted under the present law.

Actual payments for relief of sick and disabled veterans to date amount to \$1,850,459.75. Expenses of relief commissioners and administration to date are \$294,668.68. The expendable balance is \$260,980.26 of which \$200,000 is unrequisioned from the State Comptroller. The sum of \$34,503.61 is in the hands of the various Relief Commissioners and \$26,476.67 is in the Bureau fund.

Previous statutory provision gave The Adjutant-General authority to grant an extension of payments in specially needy cases to the extent of an additional payment of \$250. This authorization was stricken from the law in the 1931 enactment.

The Bureau is represented by a resident commissioner in each assembly district throughout the State. The commissioner makes the necessary investigation to determine the eligibility of an applicant to be given relief. He prepares all papers, makes the relief payments, renders the periodical reports and returns, and discharges the multiplicity of duties that must necessarily result from the position.

These gentlemen serve without pay; they give their time and efforts to the work without recompense and altogether are rendering a service to the State of a high patriotic value.

Examinations of Enlisted Men for Admission to the United States Military Academy

The Annual Competitive Examination for enlisted men of the National Guard for cadetship at the United States Military Academy was held, under the direction of this office, at New York City, Albany and Buffalo on November 9 and 10, 1934.

Forty-nine candidates competed. The eight having the highest average of proficiency have been selected by Your Excellency, to take the entrance examination on March 5, 1935, and if successful will enter the Academy on July 1, 1935.

The practice of allotting these cadetships to soldiers of the National Guard was authorized by Congress May 4, 1916, and since that time the manifest interest throughout the National Guard in this splendid educational opportunity has constantly increased.

Eligibility for appointment requires the candidates to be between the ages of 19 and 22 years, enlisted men of a Federally recognized unit of the National Guard who have served as soldiers therein not less than one year prior to date of entrance into the Academy.

REMARKS

In conclusion the undersigned wishes to say he firmly believes he speaks the sentiments of every officer and man of the military establishment of the State, in expressing warm appreciation and thanks for the sympathy, generosity, and military fellowship, Your Excellency has displayed upon every occasion where the interests and activities of the service have been involved.

Respectfully submitted,

WALTER G. ROBINSON,

Brigadier-General,

The Adjutant-General

APPENDIX A

Report of the Commanding General, New York National Guard

The following report on the affairs of the New York National Guard for the calendar year 1934 is made in accordance with paragraph 6, Military Regulations No. 80, State of New York.

1. *General.* As a general comment upon the events of 1934, it can be said that the New York National Guard has been able to continue satisfactory progress in spite of the economic conditions which have existed throughout the country. When we consider the number of men who are still out of work within our ranks or in the class from which our ranks are recruited, the reduction in military pay suffered by all members of our force in addition to whatever may have happened to their outside resources, the fact that conditions made it necessary for many of our men to seek employment with C. C. C. or other sources of emergency employment, or to move to other localities, and the natural and inevitable economy that of necessity characterized all of our operations, I consider that we have every reason to feel a great deal of satisfaction in the results of the year. To summarize these results, I believe that I can say that we have maintained our strength, organization, and morale unimpaired, have improved our training and administration, and have carried out all of the work of the year in an entirely satisfactory manner. I consider that this results from very exceptional spirit of devotion to the service on the part of all officers and men, and from an equal willingness to make the personal sacrifices that are necessary to attain this result.

2. *Strength.* The New York National Guard during the past twelve months maintained an average monthly aggregate strength of 20,084 officers, warrant officers, and enlisted men, with the lowest month showing 19,681 and the highest 20,571. The maximum strength allowed by the War Department was reduced during the year from 21,475 to 21,006. The same restriction on enlistments, requiring ninety days' service prior to field training, was effective this year.

3. *Attendance.* The percentage of attendance at armory drills during the past year was 86.68, which, while lower than the preceding year, 89.06, is, in my opinion, an entirely satisfactory record. In connection with this lower attendance record, it must be borne in mind that I issued orders early in 1934 forbidding the confinement of enlisted men for absence without leave. In an organization of our size and character, we are bound to have a few who will respond only to the discipline of punishment, but these are

being rapidly weeded out. Our attendance at field training this year was slightly better than 1933, the percentages being 93.52 for 1934, as against 93.45 for 1933. This splendid attendance speaks for itself. The Colonel Frank H. Hines Attendance Trophy, awarded to the organization having the highest percentage of attendance at armory drills, field training, and the annual muster was won by the 212th Coast Artillery with a percentage of 96.07. The 156th Field Artillery was second with 94.59 and the 121st Cavalry third with 94.55. Eighteen of the twenty-six organizations eligible in this competition finished with a percentage above 90. The lowest percentage of any of our organizations was 85.30.

4. *Organization.* No important changes in organization were made during the year, but, effective January 1, 1935 the motorization of the 105th Field Artillery will go into effect. This will leave the 156th Field Artillery the one horse-drawn regiment in the State, and it is probable that in the near future we shall be called upon to motorize this regiment, and also possibly to change the 106th Field Artillery from tractor-drawn to truck-drawn formation. These changes are in line with modern military practice, and the similar change made in the 104th Field Artillery has worked well. During recent years there has been much discussion of the abolishing or mechanization of cavalry. The New York State National Guard cavalry is exceptionally fine in personnel and training, and would be a great asset to the State in case of need. I am happy to be able to say, therefore, that in my opinion recent tests indicate that future cavalry developments will not be in the direction of abolishing horse cavalry in favor of mechanized cavalry, but rather in the retention of the horse cavalry as a basic organization, with the inclusion in its organization of certain mechanized units. During the year slight increases were made in strength for the 27th Division Headquarters Detachment and the 27th Signal Company, which will produce increased efficiency of operation during field training. The United States Property and Disbursing Officer, in consultation with my office, is now working on the condemnation of the obsolete (and in many cases dangerous) truck equipment which has been used by our State forces since the War, and its gradual replacement with modern and effective equipment.

Changes in command of three regiments occurred during the year. On May 24th Colonel William J. Costigan, of the 165th Infantry, was retired for age, and by your orders advanced to the grade of Brigadier-General. To fill his place Colonel Alexander E. Anderson was appointed. On October 24th Colonel Kenneth C. Townson, of the 121st Cavalry, resigned, and was transferred to the State Reserve List. As the second in command of that Regiment, Lieutenant-Colonel Donald M. Armstrong, will retire before the end of the current year, Major Charles N. Morgan has been nominated to command the regiment. I am confident that Major Morgan's experience and ability will make him a highly efficient commander for this regiment. On November 23rd we suffered the sad loss, by

death, of Colonel Lewis M. Thiery, of the 244th Coast Artillery. Colonel Thiery enlisted in the New York National Guard in 1895, and has served continuously and efficiently since that time. His successor has not yet been appointed.

I feel that special mention should be made of the retirement of Major Franklin W. Ward, the Adjutant General of the State, which occurred on December 4th. General Ward, by training and experience, was especially fitted for his position, and no one of his illustrious predecessors brought to the performance of its difficult duties more ability, understanding, or common sense. Throughout his term the relations between the Adjutant-General and the Commanding General were harmonious and cordial, and that so much has been accomplished is due in no small measure to this fact.

Other retirements for age were those of Colonel Howard Thayer Kingsbury, State Judge Advocate; Lieutenant-Colonel William G. LeCompte, of the 107th Infantry, and Major Felix J. McSherry, of the 165th Infantry. While no deaths other than that of Colonel Thiery occurred among the higher active officers of the Guard, several distinguished retired officers passed away during the year: Major-General George R. Dyer, Brigadier-General Sydney Grant, Brigadier-General Herman Metz, Brigadier-General Charles H. Hitchcock, and Colonel Howard K. Brown.

5. *Series in Aid of Civil Authorities.* When we consider the domestic disturbances that have been rife in many other states, and the number of times that the National Guards of those states have been mobilized to support the civil arm of the government, it is gratifying to report that no call has had to be made on the New York National Guard for this purpose. By extending the use of armories wherever possible, we have aided relief and unemployment work and registration, a notable example being the daily use of the 165th Infantry drill shed, in New York City, as a rest room and recreation center for the unemployed for several months. Emergency unemployment projects have also been continued at Camp Smith throughout the year.

6. *Training.* During the training year 1934, it is gratifying to report that satisfactory progress has been made in carrying out the primary training objectives of the New York National Guard, as prescribed by the Federal and State authorities. This applies to all branches, arms, and services of the military forces of the State, both during the armory and field training periods.

In this connection it is pertinent to note that the National Guard, as a Federal force and as a component of the Army of the United States, is receiving an ever-increasing attention from the War Department. The modernization of the National Guard with Federal funds in arms, uniforms, and equipment is now keeping pace with similar developments in the Regular Army, and the system of training is the same in both components. This emphasis by the Federal authorities upon the readiness of the National Guard for

active field service increases, of course, its effectiveness as a purely State force when employed in minor emergencies within the State.

The training year is divided into the armory and field periods. Armory training has been primarily considered and planned as a preparation for field training, at which time, under practical field conditions, the efficiency of the several organizations can best be determined.

For the training year 1934, the following objectives were prescribed for all organizations:

- a. Attendance of 90 per cent of strength present in camp.
- b. Condition, completeness, and care of uniforms, arms, equipment, and material.
- c. Camp administration and routine to include:
 - (1) Preparation and rendition of records and reports.
 - (2) Sanitation and personal hygiene.
 - (3) Camp supply and mess management.
 - (4) Interior guard duty, discipline, and military courtesy.
 - (5) Ceremonies.
- d. Qualification in basic weapons of 50 per cent of personnel authorized to fire.
- e. Performance of field firing exercises.
- f. Proficiency of headquarters, service, and medical units in specialist duties.
- g. Performance and solution of combat and tactical exercises.
- h. Efficiency of command and staff.

At all the training camps detailed field inspections, both by Federal and State officers, were conducted. The reports of these inspections indicate uniformly that the field training objectives were reached in a satisfactory degree by all organizations, and that no major training deficiency exists. This is not to state that further progress cannot and will not be made. It does indicate, however, that the present system of training is basically sound, and that the standards of proficiency can be raised successively from year to year.

With regard to qualifications in basic weapons, the following comparative table shows a steady increase in the past four years in the percentages secured by all branches:

<i>Weapon</i>	<i>1931</i>	<i>1932</i>	<i>1933</i>	<i>1934</i>
Rifle, Caliber .30.....	.230	.324	.502	.594
Automatic Rifle.....	.316	.267	.524	.546
Machine Gun.....	.408	.455	.461	.621
37 mm. Gun and 3-inch Trench Mortar..	.850	.800	.872	.937

The records of qualifications in arms dating from 1925 indicate that the above qualifications in the rifle, automatic rifle, and machine gun for 1934 are the highest ever attained by the New York National Guard. The 27th Military Police Company was the only unit issued cal. .45 ammunition this year, and qualified twenty

men out of forty-one firing—a very satisfactory result after two years without any practice.

Considering the ten infantry regiments alone in the State, their qualifications with the rifle equalled .619 per cent. This also is the highest percentage of rifle qualifications ever attained by the New York National Guard, and is more than double the requirement of 30 per cent fixed by the National Guard Bureau of the War Department.

The two cavalry regiments in the State also secured very satisfactory results in qualifications with the machine rifle and machine gun. In this connection it is noted that the cavalry has recently been equipped with the Browning light machine gun, caliber .30 (air cooled) in lieu of the machine rifle, which has now been declared obsolete.

Continued emphasis was also given during field training 1934 to musketry and combat practice firing in conformity with present-day trends in infantry training. These exercises, requiring the delivery of collective fire by fire units to include the section and the platoon, have now been placed on a competitive basis similar to qualifications in known-distance firing. They have produced uniformly satisfactory results in combat efficiency, and will be developed further in future years.

Field exercises were conducted for all organizations at all camps, with emphasis on making and breaking camp, messing in the field, care and maintenance of equipment, camp sanitation, security and concealment on the march and in bivouac, and conduct of the march. Every effort was made to simulate combat conditions during these exercises, which required that each unit be separated for at least one day and one night from its permanent camp facilities.

The reports and analyses of service practice by the field and coast artillery during the field training period 1934 all indicate a satisfactory proficiency in the primary weapons with which these units are armed.

Due to the limitations on service ammunition, a large amount of field firing was conducted with 37 mm. ammunition by such units. While this sub-caliber practice is useful in the training of officers in the conduct of fire, it is hoped that the regular allowances of service ammunition will shortly be restored by the War Department.

The ammunition issued for rifle practice in 1934 was the new M1 (boattail), and contributed much to our firing by its greater accuracy. The M1906 (old type) was used in the field firing problems, where lack of accuracy is offset to some extent by the greater number of targets available, and where fire discipline, as well as actual hits, enters into the rating.

The inspections of Ordnance material by the Corps Ordnance Officer resulted in the condemnation as unserviceable of 365 rifles, 3 automatic rifles, and 19 machine guns. Most of these weapons were not new when issued, and their constant use for fifteen years was responsible for their condition. This annual inspection by the Ordnance Department is most valuable in keeping our equipment in serviceable condition.

The new underground communication system at Camp Smith, connecting all ranges with each other and with the Range House, was installed this year, and added greatly to the range efficiency, as well as releasing for specialist training the members of the Medical Department detachments whom it was hitherto necessary to station on each range. These have been replaced by an ambulance and two men stationed at the Range House, and tests have demonstrated that they can reach the farthest point of call within three minutes.

The State has authorized a Machine Gun Efficiency Trophy, which was presented for the first time this year. It is for annual competition, and I believe will do much to promote interest in this weapon. It is awarded on a figure-of-merit basis, generally along the lines of the rifle trophies, and was won for 1934 by Company "H," 108th Infantry, stationed at Rochester.

The 104th Field Artillery, which was converted in 1933 to a truck-drawn regiment, conducted a successful troop movement by motor transport from home stations to Pine Camp and return. The 106th Field Artillery and 258th Field Artillery also conducted similar movements, for their personnel only, from Buffalo to Pine Camp and from New York to Port Ontario, respectively. Considering the obsolete motor equipment of these regiments, these movements are considered very satisfactory achievements.

For the target practice of the 212th Coast Artillery (anti-aircraft), a gun battery of the 62nd Coast Artillery, U. S. Army, was assigned to Fort Ontario with complete personnel and equipment. This enabled the gun battalion of the 212th Coast Artillery to fire with modern fire-control equipment, and resulted in a highly satisfactory record of target practice.

The 27th Division Aviation carried out a successful schedule of cooperative missions with the other branches of the New York National Guard during the field training period. This included observation for the field and coast artillery, communication and liason missions for the infantry and cavalry, and target-towing for the anti-aircraft artillery. During the past year the fifteen pilots of this unit completed 1,852 aircraft hours of flying.

Satisfactory progress has likewise been made during the training year in the specialist duties of the engineer, signal, medical, and quartermaster units, as well as the Special Troops, 27th Division. The 27th Tank Company was ordered again to Camp Smith in 1934, and, in addition to its own specialist training, participated in the field exercises with the infantry regiments present in camp.

Staff training for Headquarters 27th Division was conducted at Camp Smith, with emphasis upon staff duties and functions and troop leading. The Headquarters and Headquarters Companies of the 87th and 93rd Brigades likewise participated in these exercises. The Commanding General and four members of the 27th Division staff, together with Brigadier-General N. H. Egleston, of the 51st Cavalry Brigade, and his executive officer, also participated in the Command Post Exercise conducted by the U. S. Army at Camp Dix, New Jersey, in September.

Basic training in defense against chemical warfare was carried out in all units both in the armory and in the field, with the limited equipment available for this purpose. At Camp Smith, throughout the field training period, the use of non-toxic chemical agents in civil disturbances was demonstrated by a selected group from each regiment.

The New York National Guard short-wave radio net has developed during the past three years to a point where it is now available for practical purposes as an exclusive National Guard means of signal communication throughout the State. Eighteen separate stations have now been established in various armories, and are in operation in this net.

Through the cooperation of Headquarters Second Corps Area, the New York National Guard short-wave net now operates on a special wave-length, assigned by the Regular Army.

Every effort is being made to develop leadership among the junior officers in all organizations. This is particularly important in view of the gradual separation from the service, for one reason or another, of officers having World War experience. With this in mind, the responsibilities for basic training have largely been delegated to company, troop, and battery officers. Wherever possible, graduates of the several Army Service Schools have been used for this purpose.

During the year 1933-34, eleven officers and two enlisted men successfully completed courses at the Army Service Schools, as follows:

Command and General Staff School.....	1
Infantry School, Company Officers' Course.....	4
Field Artillery School, Battery Officers' Course.....	2
Coast Artillery School, Battery Officers' Course.....	1
Chemical Warfare School Unit Gas Officers' Course.....	1
Engineers' School, Natl. Guard and Reserve Officers' Course.	1
Signal School, National Guard and Reserve Officers' Course...	1
Infantry School, Communications Course, Enlisted Men.....	2

The year 1934 also marked the first year of compulsory enrollment in the Army Extension Course for all officers below the grade of Lieutenant-Colonel and all candidates for commission. The value of these extension courses in standardizing the professional qualifications of officers and non-commissioned officers, and in facilitating the promotion of officers of ability, cannot be over-estimated.

In connection with the military education of our National Guardsmen, I desire to mention the success that has attended the opening of cadetships at West Point to members of the National Guard. Much interest has been displayed in these openings, and the competitive examinations held therefor have produced excellent results. Our successful candidates have invariably made good records at the Academy. In the graduating class of 1934 an excep-

tional record was made by the graduating cadets who came from the National Guard, in that the highest standing in the class was attained by Cadet Lieutenant Charles F. Tank, formerly a member of the 108th Infantry, of Syracuse, and that the First Captain in the Corps, the highest military rank in the graduating class, was Cadet First Captain John deP. Townsend Hills, formerly of the 10th Infantry.

7. *Athletics.* The major athletic activity in the National Guard during the year was the annual indoor track and field championships of the Military Athletic League. As I reported to you last year, the 106th Infantry and 107th Infantry needed but to win one more championship to retire the Major General William N. Haskell trophy from competition. The meet was held on Saturday, April 7, 1934, at the 102nd Engineer armory, New York City. Almost four hundred Guardsmen and Naval Militiamen competed before at least five thousand spectators to witness the competition, which was finally won by the 107th Infantry, who thereby became the perpetual owners of the trophy. The 102nd Engineers finished second, with the 245th Coast Artillery, of Brooklyn, third.

During our field training periods at Camp Smith, Pine Camp, Fort Ontario, and Fort H. G. Wright, full use was made of all our athletic installations. At Camp Smith several of our infantry regiments conducted tournaments in baseball, track, and swimming. For the coming summer consideration is being given to the conduct of mass athletic games at Camp Smith for those organizations training at that place.

Soldier boxing in armories was discontinued early in the year, due primarily to the fact that all our organizations have raised their standards for enlistment, with the result that those young men who would enlist to engage in boxing do not seem to possess the educational requirements necessary. While the discontinuance of soldier boxing has curtailed revenue to those organizations which formerly conducted bouts, and has denied any income to the Athletic Fund, it has indirectly been responsible for a better class of personnel in our ranks. I have, at this time, no plans for its revival.

8. *Inspections.* During 1934 State armory inspections were held separate from the Federal inspections, and this practice has continued to prove successful. This plan has proved of great benefit to the organizations inspected, in that the inspecting officers had sufficient time to cover administration thoroughly and exhaustively.

The State inspections of training were conducted during the field training encampments, and this plan has proved to be both economical and effective.

Inspection of accounts of the quartermaster at Camp Smith was made at regular intervals throughout the field training period, and a physical check made of the presence of men whose names appeared on all payrolls. Payrolls of the construction department at Camp Smith were likewise verified from time to time. Post hospital,

headquarters mess, and provisional ordnance detachment accounts at Camp Smith were audited periodically.

Twenty-two special investigations were made and reported on during the year.

9. *Permanent Plant.*

(a) *Armories.* The new armory for units of the 10th Infantry and 104th Field Artillery, at Binghamton, New York, was officially opened in October. The new administration building for the 369th Infantry, in Manhattan, is completed, and will be occupied as soon as the necessary furniture is delivered. While work has been progressing very slowly on the new armory of the 104th Field Artillery, in Jamaica, it is now hoped that it may be ready for occupancy next May. In addition to the above, definite plans are in process for new construction at Schenectady, Corning, Syracuse, and Utica, which will relieve crowded and unsatisfactory conditions at those points.

(b). *Camp Smith.* State funds enabled us to do the necessary maintenance and repairs at this post, and while regular Federal appropriations were very small, we were fortunate enough to secure through the National Guard Bureau sufficient Public Works Administration funds to construct three concrete block battalion latrines in the West Camp, a large pontoon shed to house all of our engineer bridge-train, an ordnance warehouse, and a complete underground range telephone system for all target ranges, the last-mentioned an especially valuable improvement which has long been needed. Money from the same source was also made available last spring and fall for the construction of concrete tent-floors throughout the Camp, and before the opening of the 1935 field training season it is confidently expected that every tent in the Camp will be provided with a concrete floor and framed. Not only will this improve the appearance and sanitation of the Camp, but it will eliminate the serious cost of maintaining the old wooden floors, which required constant attention to replace worn-out and broken parts. Temporary Emergency Relief projects mentioned in my last report were continued in the line of grading, road building, and reforestation, and the conduct of this work at the Camp has been highly complimented by the State authorities in charge of such projects, both from the point of view of the benefits to the workers given employment, and the practical results of the work itself. To sum up, in spite of hard times, we have been able to keep this valuable plant in a state of complete repair, so that it can be used to full advantage, and to secure several very valuable and needed improvements.

(c). *Pine Camp.* Federal funds only were used at Pine Camp. Twenty-four mess halls were completely renovated and improved, and new construction consisted of an ordnance warehouse, veterinary hospital, two regimental storehouses, two loading platforms, and a new latrine building in the quartermaster area.

(d) *Fort Ontario.* Federal funds in amounts necessary to maintain the National Guard installations at this camp were received, and necessary repairs made. A rather elaborate plan has been proposed by the authorities at Fort Ontario for changing around the National Guard camp at this post. While this plan, when completed, will be entirely satisfactory to the National Guard, I have adopted the position that the National Guard camp, as it stands a present, is entirely satisfactory to us; that it was constructed entirely with money appropriated for National Guard uses, and that if any radical change is to be made in the future, the funds should come from some source other than National Guard funds. No decision on this question has as yet been reached.

10. *Administration.* Throughout the year I have been working with the Assistant Adjutant-General and the United States Property and Disbursing Officer in straightening out questions of property and financial responsibility, and I believe that good progress has been made. A determined effort is being made to inculcate in the minds of all officers of the New York National Guard who have financial or property responsibility that strictest adherence to the law and regulation is vitally essential in the preparation of vouchers and other papers.

Whether officers concerned profit personally or not by inaccurate accounting, it is perfectly evident that unless the strictest adherence to law and regulation is observed, the best interests of the Federal and State governments, as well as the morale of the National Guard itself, cannot be maintained.

11. *Recommendations.* As in previous years, my only recommendation for the future is that the National Guard of the State of New York receive the same financial support and encouragement that it has received from the Commander-in-Chief and the Legislature in the past. With this aid from the State, and continued support from the Federal government, it is believed that the efficiency of the New York National Guard can be maintained, and that it will be ready to perform any legitimate service that it may be called upon to accomplish.

WILLIAM N. HASKELL,
Major-General

APPENDIX B

Report of the Commanding Officer, New York Naval Militia

1. In accordance with provisions of paragraph 6, R-80, Regulations Military Forces of the State of New York, the following report of the affairs of the New York Naval Militia for the twelve months ending November 30, 1934, is submitted:

2. *Strength.* The strength of the New York Naval Militia as of December 1, 1934, was 1,755 as compared with 1,684 on December 1, 1933. It will be noted that the strength of the organization reflects improvement during a period when casualties beyond normal are resultant from unemployment conditions and economic stress. The visit of the United States Fleet in local waters during June has benefited the Naval Militia in that the public have since shown a greater interest in the welfare of the State's naval forces.

3. *Attendance.* The 1934 average attendance at drills was 83.1 per cent which shows a very slight gain over the figure of 82 per cent, which obtained during the 1933 period. Paid drills to the number of 48 per annum are presently provided for in the Naval Appropriation Bill and and it is believed general attendance will reflect further improvement as economic conditions tend toward more and regular employment.

4. *Small Arms Firing.* The attendance at Small Arms Practice held during 1934 was 1,131 as compared with 1,156 during 1933. 357 men qualified as marksmen for the current period, which shows an appreciable gain over the number qualifying in 1933, when 256 qualifications were made. Weather conditions for the practice were fair, firing was conducted at the State Camp, Peekskill, N. Y., Fort Ontario, N. Y., Stony Point, N. Y., and the Cavalry Range near Rochester. The State is indebted to the Commanding Officer of the Corps Area for his cooperation in permitting the use of ranges of United States Army Reservations and for the courteous assistance given in connection with the details thereto. The Brigade Match was again won by the 1st Battalion, which organization also won this match in 1933. The 2nd Battalion Trophy Match was won by the 1st Battalion for the third consecutive year. The Naval Militia was well represented in the Cruickshank, Rogers and Wingate competitions. Marksmanship in the Naval Militia continues to show improvement.

5. *Training Duty.* It was the policy of the Navy Department to limit the number of officers and men per Fleet Division to 5 and 55 respectively for the performance of active duty afloat in destroyers of the training squadron. Collectively the command sent 1,281 officers and men for annual training. The duty performed was from all reports most satisfactory in all respects and

the Divisions conducted themselves commendably while afloat. The 12th Fleet Division commander by Comdr. H. B. Lyon at Dunkirk, N. Y., made the highest figure of merit in Short Range Battle Practice. They will be awarded a trophy for gunnery efficiency for the year 1934. This practice is conducted under standard Navy rules and is fired at 1,600 yards. During the firing the destroyers are completely managed in every particular by the Naval Militia officers and men. The training program was well laid out and of great benefit to our personnel. The Marine Battalion performed its field training at the State Camp, Seagirt, N. J. It is hoped that in the near future they may perform their annual duty tour at Camp Smith.

6. *Week-end Cruises.* Collectively our men and officers engaged in 92 week-end cruises on various types of vessels which were cruised 8,587 miles and manned by a total of 752 men. It is believed that the performance of this duty in some cases was in a sense a relief measure to many individuals participating because many of them suffer the hardships of unemployment and during the performance of such voluntary training duty they were subsisted on board. There is increased interest and activity in small boats of the pulling and sailing type. A crew from the 7th Fleet Division, 2nd Battalion, N. Y. N. M., won a whaleboat race held in lower New York Bay in competition with all of the Naval Militia units in the Third Naval District, which includes organizations under direction of the State of New Jersey and Connecticut. This type of activity is bound to produce a good seagoing personnel.

7. *Naval Academy Appointments.* During the year 1934 five members of the New York Naval Militia won admission to the United States Naval Academy. These successful candidates were:

2nd Battalion, Brown, F. W., S2c.
4th Battalion, Finn, W. S., S2c.
9th Battalion, Adair, J., AS.
13th Fl. Divn., Ramage, D. B., S2c.
31st Fl. Divn., Harris, D. L., S2c.

This represents an increase of two men over the last period reported.

8. *General Efficiency of the Brigade.* All organizations reflected a higher standing in general efficiency as determined by the Naval Reserve Inspection Board, who conduct annual inspections for the information of the Navy Department. This board is now in process of making its inspections for the current fiscal year and from the reports completed and furnished to these Headquarters to date, it is gratifying to note that there is still more marked improvement in the general condition of the units over that reported for the previous year.

9. *Armories.* The 4th Battalion at Whitestone, N. Y., has an excellent building approximately 80 per cent completed, which has

been constructed from funds provided by the City of New York for relief purposes. Similar relief funds have been used toward the completion of smooth grading, the grounds of the armory of the 31st Fleet Division at New Rochelle, N. Y.; an excellent sea wall and stone pier were constructed at this site in addition to smooth grading. New armories are desired at Dunkirk, Ossining and Watertown, N. Y. A better and more suitable boathouse is desirable at Oswego, N. Y.

10. Continued cordial relationship exists with the Navy Department and as a result of close cooperation with officials of that Department, it is believed that Naval Militia as a whole is benefited thereby.

F. R. LACKEY,

Rear Admiral, N. Y. N. M.

APPENDIX C

FINANCIAL STATEMENT, JULY 1, 1933-JUNE 30, 1934

	Appropriation available July 1, 1933	Balance and other appropriations available July 1, 1933-June 30, 1934	Total appropriations available July 1, 1933	Expenditures July 1, 1933-June 30, 1934	Balance lapsed	Total expenditures and lapses	Balance June 30, 1934

SERVICE SCHOOLS

The following officers and enlisted men of the New York National Guard graduated from Service Schools attended under authority of the Secretary of War during 1934:

Chemical Warfare School, Edgewood Arsenal, Maryland.

Special Unit Gas Officers' Course, October 14, 1934 to November 16, 1934: Captain Walter Edelman, 106th Field Artillery.

Coast Artillery School, Fort Monroe, Virginia.

Battery Officers' Course (Seacoast Section) September 17, 1934 to November 9, 1934: First Lieutenant Joseph G. Becker, 244th Coast Artillery.

Command and General Staff School, Fort Leavenworth, Kansas.

—National Guard and Reserve Officers' Course, March 12, 1934 to June 11, 1934: Major Charles J. Donnocker, 174th Infantry.

Field Artillery School, Fort Sill, Oklahoma.—Battery Officers' Course (Fall) September 17, 1934 to December 15, 1934; First Lieutenant Bert L. Lindquist, 258th Field Artillery, and Second Lieutenant Henry T. Swan, Jr., 156th Field Artillery.

Infantry School, Fort Benning, Georgia.—Company Officers' Course, February 26, 1934 to May 26, 1934: Captain Harold C. Gibb, 107th Infantry, First Lieutenant James J. Fogarty, 71st Infantry, First Lieutenant Peter J. Rogers, 105th Infantry and First Lieutenant Frank C. Smith, 108th Infantry.

School of Aviation Medicine, Randolph Field, Texas.—Basic Course March 1, 1934 to April 15, 1934: Captain Cornelius J. Kraissl, M. C. 27th Division Aviation.

NATIONAL MATCHES

No National Matches were held at Camp Perry, Ohio, in 1934. In lieu thereof, however, certain matches were held at Camp Smith, Peekskill, N. Y., with the permission of the National Rifle Association. For detailed report of these matches see General Orders No. 8, Headquarters New York National Guard, September 10, 1934.

CORPS AREA MATCHES

(a) The team which represented the New York National Guard in the Second Corps Area National Guard Pistol Team Match for

the Rhinelander Trophy held at Camp Moore, Sea Girt, New Jersey, on August 11, 1934, was composed of the following officers:

Captain:

Lieutenant Colonel Henry E. Suavet, Headquarters 27th Division.

Principals:

Major Alfred Huddelson, Jr., 156th Field Artillery.
 Captain Alfred N. Gormsen, 102nd Engineers.
 First Lieutenant Ralph H. Bunting, 101st Cavalry.
 First Lieutenant John R. Cavanaugh, 104th Field Artillery.
 First Lieutenant Richard A. Devereux, 107th Infantry.
 First Lieutenant Frederick W. Ellis, 174th Infantry.
 First Lieutenant George C. Knight, 174th Infantry.
 First Lieutenant Dwight M. McCallum, 104th Field Artillery.
 First Lieutenant Caryl C. Whitmarsh, 10th Infantry.
 Second Lieutenant Howard J. Billings, 108th Infantry.

Upon completion of the 15 yard rapid fire stage of this match the range was closed by the officer in charge due to the weather conditions which rendered continued firing dangerous to the people in the vicinity of the range. The match was conceded to the New York National Guard team.

(b) The Luquer Pistol Team Match, Second Corps Area, with teams of five officers from the Regular Army, National Guard and Organized Reserves, was held at Camp Smith, Peekskill, New York, and was won by the Organized Reserve Team with a percentage of 97.63. The 1st Division Regular Army Team was second with a percentage of 93.46. The National Guard Team with a percentage of 92.48 was captained by Lieutenant Colonel Henry E. Suavet, Headquarters 27th Division, New York National Guard and included Captain John V. Schoonmaker, Captain Russell A. Snook, and First Lieutenant Francis A. Gribbon of the New Jersey National Guard and First Lieutenant John R. Cavanaugh, 104th Field Artillery and First Lieutenant Richard A. Devereux, 107th Infantry, New York National Guard.

(c) The Inter-Divisional Pistol Team Match for the Gilmore Trophy was held at the indoor range of the New Jersey State Police at Wilburtha, New Jersey and was won by the 1st Division, Regular Army Team, with a percentage of 96.79. The 27th Division Team, New York National Guard, which finished fourth with a percentage of 95.83, was composed of the following officers and enlisted man:

Captain:

First Lieutenant Frederick W. Ellis, 174th Infantry.

Principals:

Captain Alfred N. Gormsen, 102nd Engineers.
 First Lieutenant John R. Cavanaugh, 104th Field Artillery.

First Lieutenant Richard A. Devereux, 107th Infantry.
 Second Lieutenant Howard J. Billings, 108th Infantry.
 Private 1st Class Pedro H. Agramonte, 107th Infantry.

(d) The East Coast Pistol Team Match (The Old Oaken Bucket), was also held at the indoor range of the New Jersey State Police at Wilburtha, New Jersey, and was won by the 1st Division, Regular Army team with a score of 1,305. The 27th Division Team, New York National Guard, which finished sixth with a score of 1,257, was composed of the following officers and enlisted men:

Captain:

First Lieutenant Frederick W. Ellis, 14th Infantry.

Principals:

First Lieutenant John R. Cavanaugh, 104th Field Artillery.
 First Lieutenant Richard A. Devereux, 107th Infantry.
