## REPORT OF THE ADJUTANT GENERAL

ALBANY, *December 31, 1935*

His Excellency HERBERT H. LEHMAN, *Governor of New York, Albany, N. Y.*

SIR:—Pursuant to section 17 of the Military Law, I submit herewith my annual report concerning the administration of the Division of Military and Naval Affairs of the Executive Department for the year 1935.

For convenience the report is presented in sections dealing with the activities of the following bureaus of the Division:

	Page No.
Executive .....	1
Finance .....	8
Equipment and Supply.....	14
Grounds and Structures.....	15
Personnel .....	27
War Records .....	35
Veterans and Soldiers Affairs.....	37
Recruiting .....	38
Soldiers Bonus .....	39
Files, Mail and Distribution.....	40

### Executive

*Strength.*—The strength of the active military and naval forces of the State on this date is as follows:

	Officers	Warrant officers	Enlisted men
National Guard .....	1,391	20	18,582
Naval Militia .....	151	..	1,665

A detailed report of strength of active and reserve components is included in the section relating to the activities of the Personnel Bureau.

*Duty in Aid of Civil Authority.*—During the year several units of the National Guard were called by Your Excellency to full-time duty in aid of civil authority in flood stricken areas of the State. The following organizations participated:

ORGANIZATIONS	On duty—1935		Served at
	From	To	
Headquarters Battery & Combat Train, 1st Battalion and Batteries B and C, 104th Field Artillery.....	July 8	July 9	Binghamton
Headquarters Company, 2nd Battalion, and Companies E and H, 10th Infantry.....	July 8	July 10	Binghamton
Company K, 108th Infantry.....	July 8	July 15	Hornell
Company L, 108th Infantry.....	July 8	July 10	Elmira
1st and 2nd Provisional Companies (Composed of 6 officers and 104 enlisted men of the 108th Infantry and 4 enlisted men of the 104th Collecting Company, 102nd Medical Regiment..	July 9	July 12	Hornell

The 105th Hospital Company, 102nd Medical Regiment, assembled at their armory at Corning on July 8, but it developed during the day their services would not be required.

*National Guard Activity.*—Other activities of the National Guard are covered in the section dealing with the activities of the Personnel Bureau and in the annual report of the Commanding General, National Guard, attached hereto as Appendix A.

*Naval Militia Activity.*—The activities of the Naval Militia are covered in the section dealing with the activities of the Personnel Bureau and in the annual report of the Commanding Officer, New York Naval Militia, attached hereto as Appendix B.

*Small Arms Matches.*—For the first time since 1931 a National Rifle Match was held at Camp Perry, Ohio, during the period from September 1 to 19, 1935. A complete report on the results of this and other small arms matches conducted by—or participated in by personnel of—the National Guard and Naval Militia, will be found in the report of the State Ordnance Officer attached hereto as Appendix C.

*West Point Candidates.*—Under an Act of Congress this office annually conducts a competitive examination for candidates from the National Guard of this State for the privilege of taking the entrance examination for cadetship at the United States Military Academy at West Point. Candidates to be eligible must be between the ages of 19 and 22 years, enlisted men of a federally recognized unit of the National Guard who have served in the National Guard not less than one (1) year prior to date of entrance to the academy. Originally as a result of the 1934 examinations, eight (8) enlisted men of the New York National Guard were nominated by Your Excellency. Two (2) nominees subsequently received Congressional appointments and one (1) additional vacancy was allotted which gave the State of New York three (3) additional candidates

since the publication of my report for 1934. The examinations this year were conducted November 8 and 9 at Albany, Buffalo and New York City, for entrance to the academy July 1, 1936. Seven (7) vacancies were allotted to the State of New York and as a result of these examinations Your Excellency nominated the seven (7) having the highest average of proficiency. Sixty-three (63) candidates participated in these examinations. It is hoped that prior to the entrance examination to be conducted in March, 1936, for entrance to the Academy in July, 1936, that additional vacancies will be allotted to the State of New York as requested by Your Excellency in a letter to the Adjutant General of the Army. The practice of allotting cadetships to soldiers of the National Guard was authorized by Congress May 4, 1916, and the interest throughout the National Guard of the State of New York in this splendid educational opportunity has increased from year to year.

*Changes in Personnel.*—Following are some of the changes in officer personnel on duty at this office, effected during the past year:

Colonel Ames T. Brown, A.G.D., N.Y., N.G., was appointed Assistant Adjutant General, Executive Officer, on January 10, vice myself promoted to the Adjutant General by Your Excellency.

Lieutenant Colonel James F. Sheehan, Director of the Veterans Relief Bureau, was retired December 31.

Lieutenant Colonel C. Pemberton Lenart, A.G.D., N.Y., N.G., was promoted to Director of the Personnel Bureau, February 11, vice Lt. Colonel Arthur R. Lawrence, deceased.

Major Christopher B. Degenaar, Infantry, 105th Infantry, N.Y., N.G., was appointed Assistant Director, Personnel Bureau, February 11, vice Lieutenant Colonel Lenart promoted to Director thereof.

*History of the Military and Naval Forces.*—I am looking forward to the publication as part of my annual report to Your Excellency next year of a complete and official history of the organizations of the New York National Guard and Naval Militia to be illustrated with colored plates showing the various uniforms worn by the different units since their respective organization, some of which go back to a period before the Revolutionary War. This worthy undertaking, being compiled by the Historical Section of the Personnel Bureau, has been in progress since 1932, and is about complete. The colored plates, of which there are many, will make the cost of publication somewhat more than if omitted, but considering that the artist, Brigadier General DeWitt Clinton Falls, New York State Retired List, is contributing his services to prepare them without cost to the State, the expense is negligible. To print a supply sufficient for free distribution to the units of the New York National Guard and Naval Militia and to the more important libraries throughout the State and the United States and retain a small stock for sale at cost to the public I plan to add an item of ten thousand dollars (\$10,000) to the budget next year for the printing of my annual report. This will be the first

complete and official history of the military and naval forces of the State of New York this office has even published and will include much valuable data that, up to this time, is recorded only in one place and which, if lost, could never be obtained from any other source.

*Hines Attendance Trophy.*—The Colonel Frank H. Hines Attendance Trophy (National Guard) was won by the 106th Field Artillery for attaining the highest percentage of attendance during the training year. The percentage was 96.79. For percentages attained by other organizations of the National Guard reference is made to General Orders No. 17, Headquarters, New York National Guard, dated December 4, 1935.

### **Finance Bureau**

Following is a statement of financial operations for the fiscal year ending June 30, 1935, including State appropriations for the general expenses of the military and naval establishment, expenses for armory maintenance and Federal funds allocated and expended during the same period:

Balance, June 30, 1935.....			\$2,054 54

### Bureau of Equipment and Supply

1. The major activity for the past year was the work incident to the First Army maneuvers. The office of the U. S. Property and Disbursing Officer co-operated with Headquarters, First Army, in the compilation of the estimates for the maneuvers. Approximately \$65,000 worth of individual equipment was shipped to the troops which attended this exercise to insure that all troops in the field would be completely equipped. In addition to this, 86 truck loads of various types of quartermaster property were shipped to Pine Camp for distribution to the troops on arrival in the maneuver area. In connection with these exercises, \$267,401.55 in pay and allowances was paid to the troops in the field. Disbursements in connection with these exercises totaled \$710,032.04.

2. The National Guard Bureau directed that where possible, troops attending field training would be transported to camp by motor vehicles, in order to effect savings with which to purchase additional vehicles. Approximately 13,676 troops were transported to Pine Camp and Camp Smith by motor vehicle, and 5,211 troops traveled by rail. No troops were sent to Fort Ontario or Fort H. G. Wright in 1935. Transportation of troops by motor vehicles was organized and the initial movements conducted by the State Quartermaster. Control of this movement was subsequently taken over by Division Headquarters. The movement proved entirely satisfactory to officers and enlisted men, and resulted in a much smaller number of casualties than would normally have been anticipated.

3. The 105th Field Artillery was completely motorized during the past year, and orders are now in effect for the motorizing of the 156th Field Artillery. One hundred sixty-six new one and one-half ton truck and 40 new station wagons were issued during 1935 toward the completion of motorization in this State. Additional vehicles will be issued during the coming year as savings are effected by motor movements.

4. The issue of serge and elastique uniforms was completed, but, as yet, this State has not received additional uniforms for replacement of those lost or destroyed.

5. Funds in the amount of \$15,059 were obtained from the Federal P.W.A. for construction and alterations at Camp Smith, Peekskill, N. Y., and \$63,641 from the same source for construction and alterations at Pine Camp, to cover respectively the following projects:

#### *Camp Smith*

Reconstruction of buildings and other improvements, *i.e.*, repairs to buildings and addition to Rifle Range.

*Pine Camp*

- Repairs and replacement of tent floors.
- Repairs to buildings.
- Completion of Target Range.
- Building wash racks, enlisted men.
- Grading of aviation landing field and extension of runway.

All the work at Camp Smith was practically completed on December 31, 1935. A small sum is held in reserve for some necessary finishing work in the spring. The work at Pine Camp will continue throughout the winter, and will be completed in advance of the opening of camp for field training.

6. Caretaker appropriations were increased by the National Guard Bureau to provide a caretaker for the care and maintenance of Federal property in each armory in the State.

7. Federal funds were also made available and authority given for the organization and employment of a group of motor mechanics at the New York State arsenal.

8. The resources of the State arsenal were taxed to the utmost in handling the requirements of supply and administration incidental to the First Army maneuver held at Pine Camp. The personnel at the arsenal worked long and arduously in handling the increased load imposed by this unusual condition, and gave loyally of their time and efforts to meet the situation.

**Bureau of Grounds and Structures****NEW ARMORY CONSTRUCTION**

During the 1935 session of the Legislature appropriations were made and approved for additions to heating system, 106th Infantry Armory, Brooklyn, in the sum \$45,000 and for an addition to the Corning Armory in the sum of \$10,000.

**Required Armory Construction and Expansion:**

After a very comprehensive and complete study, new armories or reconstruction of old armories are required in the following priority:

Utica Infantry (reconstruction) .....	\$275,000 00
Syracuse Artillery (new) .....	300,000 00
Middletown (reconstruction) .....	150,000 00
Mt. Vernon (new) .....	300,000 00
Poughkeepsie (new) .....	300,000 00
Rome (new) .....	150,000 00
Buffalo Naval Militia .....	300,000 00
Auburn (new) .....	500,000 00
Geneseo, administration building.....	150,000 00
Dunkirk (new) .....	250,000 00
Ossining (new) .....	250,000 00
Yonkers (additions) .....	75,000 00
Albany Cavalry (additions) .....	50,000 00
Rochester Infantry (additions) .....	150,000 00
Niagara Falls (additions).....	150,000 00

## EXPLANATION

Details with respect to requirements indicated above, are as follows:

*Utica Infantry.*—Present structure built in 1894 (is 41 years old). Originally built to accommodate two infantry units. At present occupied by battalion headquarters and three infantry units. It is estimated that additions could be made to this armory which would provide adequate quarters at a cost of \$275,000, plus cost to county for additional land.

*Syracuse Artillery.*—Present structure rented and is inadequate and unsuited for the training of a battery of field artillery and does not provide the necessary protection to Federal property against fire and theft. A modern armory should be built for this unit at a cost of \$300,000, plus cost to the county for land.

*Middletown.*—Present structure built in 1890 (is 45 years old). Originally built for one infantry unit, now occupied by a battery of field artillery. Has no accommodations for animals. An addition to this armory should be provided at a cost of \$150,000.

*Mount Vernon.*—Present structure built in 1898 (is 37 years old). Originally built for one infantry unit. At present occupied by a battery of field artillery. Has no accommodations for animals. Is the smallest State armory and entirely inadequate for present day requirements. A new armory should be provided at a cost of \$300,000.

*Poughkeepsie.*—Present structure built in 1891 (is 44 years old). Originally built for one infantry unit. At present occupied by two units of field artillery. Has no accommodations for animals. A new armory should be provided at a cost of \$300,000.

*Rome.*—Present structure rented and inadequate, unsuited for proper training of a medical unit and does not provide the necessary protection to Federal property against fire and theft. A new armory shall be provided at a cost of \$150,000.00.

*Buffalo Naval Militia.*—The 9th Battalion, Naval Militia, is at present occupying quarters in the armory of the 174th Infantry. This building is overcrowded and a new armory should be provided at a cost of approximately \$300,000.

*Auburn.*—Present structure built in 1873. Originally built for an infantry unit. At present occupied by three infantry units. A new armory should be provided at a cost of \$500,000, plus cost to county for land.

*Geneseo.*—Troop I, 121st Cavalry is now occupying a converted farm house which is entirely inadequate for the training of the members. A modern fireproof administration building should be provided at a cost of \$150,000.

*Dunkirk.*—A separate division of the Naval Militia is occupying rented quarters which are not adequate for the proper training of the personnel. A modern armory should be provided at a cost of \$250,000, plus the cost to the county for the land.

*Ossining.*—A separate division of the Naval Militia is occupying rented quarters which are not adequate for the proper training of the personnel. A modern armory should be provided at a cost of \$250,000, plus the cost to the county for the land.

*Yonkers.*—This armory was originally constructed to house one infantry unit. At present occupied by three units of Special Troops. An addition to the administration building should be provided at a cost of \$75,000.

*Albany Cavalry.*—An addition, at a cost of \$50,000, should be made to this armory in order to provide quarters for Brigade Headquarters and also to provide storage space for motor vehicles.

*Rochester Infantry.*—An addition, at a cost of \$150,000, should be provided for this armory in order to properly house the units therein stationed.

*Niagara Falls.*—An addition to this armory is necessary in order to properly house the units therein stationed. It is estimated this addition could be built for \$150,000.

#### ARMORY MAINTENANCE FUNDS

The statutory requirements of chapter 558, Laws of 1913, under which all counties of the State outside of the city of New York are divided into two brigade districts, and the cost of renting, repairing, equipping, furnishing, and maintaining armories outside the city of New York, is apportioned by the Adjutant General among such counties according to the aggregate amount of assessments for each county within the brigade districts as fixed by the State Board of Equalization and resulted in the payment by these counties into the State treasury for the maintenance of armories in each of the brigade districts, of the following sums

for the above purposes for the fiscal year beginning July 1, 1936, and ending June 30, 1937.

THIRD BRIGADE DISTRICT		Amount
County		
Albany	.....	\$37,991 84

Total armories 78.

Total number of armories leased for subdivisions of the National Guard and Naval Militia unable to secure accommodations in the foregoing is 8.

The active military establishment of the State is housed in the 86 armories indicated above.

Storage facilities are provided at the United States Naval Reservation, Sacketts Harbor, for material of the 13th Fleet Division, Naval Militia, and at Utica for units of the 10th Infantry. Stables are provided at Middletown, Mt. Vernon and Poughkeepsie for units of the 156th Field Artillery.

## ARSENALS, ETC.

Arsenals, camp grounds and rifle ranges, owned by the State, are as follows:

*Brooklyn*.—State Arsenal, erected 1926. Used by the Adjutant General of the State as an arsenal and storeroom. Approximate valuation, \$1,000,000. Floor surface, 166,000 square feet.

*Peekskill*.—State Camp Ground and Rifle Range. For use of infantry and such other troops as may be designated. Approximate valuation of land and buildings \$235,000. Approximate area 1,886 acres. One hundred and eighty-seven targets.

*Rensselaer*.—Rensselaerwyck Rifle Range. For the use of troops stationed at Albany, Troy, Cohoes and such other troops as may

be designated. Approximate valuation \$25,000. Approximate area 11 acres. Thirty targets.

*Buffalo.*—Kenilworth Pistol Range. For the use of troops stationed at Buffalo. Approximate valuation \$25,000.

In addition to the above, camp grounds are provided in the State for cavalry, artillery, and air service on Federal reservations at Great Bend, Oswego, and Fishers Island.

## RIFLE RANGES

Field Rifle Ranges for the use of troops of the National Guard and Naval Militia are leased by the Federal Government as follows:

STATION OF TROOP	Annual rental	Location	Number of targets	Ranges (yds.)
Amsterdam.....	\$200 00	Town of Mohawk.....	3	200 to 800
Auburn.....	150 00	Town of Throop.....	3	200 to 600

Landing Field.—A landing field for Air Corps of the National Guard is leased by the Federal government at Fulton, N. Y., at an annual rental of \$250.

Total leased rifle ranges, 25.

Total floor space of all buildings, exclusive of structures at camps and rifle ranges is 6,536,720 square feet.

The approximate valuation of military grounds and structures owned by the State and city of New York is \$38,538,893.

\* Not leased by Federal government.

Under the T.E.R.A., C.W.A., E.R.A., and the W.P.A., new wood floors were installed in the Troy and Cohoes armories, roofing repairs and painting at the Middletown armory, additions to the riding hall and administration building of the Rochester Cavalry armory, new plumbing and fixtures at the 174th Infantry armory at Buffalo, and rough grading at the 106th Field Artillery armory, Buffalo, New York

Projects for new armories at the following stations and in the following amounts were submitted to the W.P.A. and approved in Washington but disapproved by the State Administrator for the reason that there were no State funds available to be applied as the sponsor's contribution.

Utica Infantry.....	\$431,695 04
Syracuse Artillery.....	431,695 04
Middletown .....	431,695 04
Mount Vernon .....	444,995 04
Poughkeepsie .....	444,995 04
Rome .....	286,701 53
Auburn .....	569,604 04
Dunkirk .....	286,701 53
Ossining .....	286,701 53
Buffalo Naval Militia.....	288,101 53

Projects were submitted and approved both by Washington and the State Administrator for the following:

PROJECT	Character of work	Federal funds	Sponsor's contribution	Total cost
174th Infantry Armory, Niagara and Conn. Sts., Buffalo, Erie County.	Repairs to retaining wall, drive and sidewalks, and new entrance to basement.	\$10,381 00	\$6,706 25	\$17,087 25
Field Artillery Armory, Middletown, Orange Co.	Installing new floor in drill halls, lobby, meeting, supply and armors room, new door sills where connected with new floors, resetting radiators, rehang doors, etc.	1,904 00	2,457 50	4,361 50
Hq. Co., 10th Inf., Hudson, Columbia County.	Alterations to grounds and buildings.	1,880 00	1,816 48	3,696 48
Cavalry Armory, West Delevan St., Buffalo, Erie Co.	Construction of two story addition.	16,529 76	100 00	16,629 76
Hq. Co., 53rd Brig., New Scotland Ave., Albany, Albany County.	Construction, heating, sanitary and electric work for addition to armory.	17,349 98	1,400 00	18,749 98
		\$48,044 74	\$12,480 23	\$60,524 97

The following projects were submitted to the W.P.A. but to date no approval or disapproval has been received:

PROJECT	Character of work	Federal funds	Sponsor's contribution	Total cost
108th Infantry Armory, Rochester, Monroe Co.	Miscellaneous repairs consisting of new floor in drill hall, painting, masonry, etc.	\$44,306 59	\$761 00	\$45,067 59
Infantry Armory, Tonawanda, Erie County.	New concrete floor in basement and new wood flooring in drill hall.	3,113 00	2,093 00	5,206 00
Company B, 105th Infantry Armory, Cohoes, Albany County	Painting interior and exterior..	2,393 00	627 54	3,020 54

Upon the recommendation of the Commissioner of Architecture, requests for a Federal grant under the P.W.A. was submitted in the sum of \$315,000 for the Schenectady armory and in the sum of \$36,818 for additions to the heating system at the 106th Infantry armory, Brooklyn, N. Y.

It was felt by the undersigned that the above made ideal projects for the P.W.A. in view of the fact that the State had appropriated, together with the city and county of Schenectady, \$510,000 for the construction, etc., of an armory in the city of Schenectady, and a State appropriation of \$45,000 was available for the additions to the heating system at the 106th Infantry armory in Brooklyn.

The undersigned urgently recommended the approval of these two projects by the P.W.A. but without avail, and as a consequence of the disapproval the drawings for the Schenectady armory were amended and the building reduced in size, and a large amount of time lost in the starting of the project. The same holds true in connection with the work at the 106th Infantry armory.

This office under the T.E.R.A., C.W.A., E.R.A., and W.P.A., was enabled to have the service of two architects, two estimators, and three stenographers who assisted very materially in getting out the necessary drawings, specifications and details in connection with the construction and repair program of this office. The employees who came from the above source were conscientious and efficient.

### Personnel Bureau

It is the function of the Personnel Bureau to carry out those provisions of section 17 of the Military Law as require the Adjutant General to “\* \* \* superintend the preparation of all returns and reports required by the United States from the state. \* \* \* keep a register of all the officers of the land and naval forces of the state \* \* \* cause the military and naval law, the general regulations of the state and articles of war of the United States, to be printed, indexed and bound in proper compact form \* \* \*”

The bureau is also charged with the preparation, and in some cases the distribution of general and special orders, bulletins and circulars published by the Adjutant General of the State; the preservation, binding and filing of original copies of same as well as copies of the annual report of the Adjutant General and copies of muster rolls, monthly returns, orders and enlistment records forwarded to this office in compliance with existing regulations by organizations of the military and naval forces of the State; the annual publication—when funds are available—of a list and directory of the military and naval forces of the State of New York; the consolidation and publication of the Annual Report of the Adjutant General; the appointment and separation from the service of all commissioned and warrant officers of the militia and naval forces of the State, and the regulation of such appointments to prevent their exceeding prescribed allowances under existing tables of organization for the various arms and services; the examination of enlistment contracts of the enlisted personnel of the military and naval forces of the State with a view to their rejection if found disqualified under existing regulations; the recording and distribution of all military and naval decorations and other medals authorized for issue to the military and naval forces of the State; the preparation and maintenance of an historical record of the various organizations of the military and naval forces of the State and to provide and maintain an alphabetical list of personnel of the military and naval forces of the State and supply such information concerning same as may be demanded from time to time by Your Excellency and the public.

The Personnel Bureau is adequately equipped with the most modern types of files and filing methods and machines for producing the information and reports demanded of it with the least practicable delay. On account of the technical characteristics of most of the daily routine work performed, at least two employees are familiar with the workings of each desk. In the event of an emergency of national proportions similar to that experienced during the World War it would be necessary to almost immediately double the staff of the bureau to care for the resultant increased activity caused by the muster into United States service of the National Guard and Naval Militia and the subsequent organization of the New York Guard.

#### CHANGES IN ORGANIZATION OF THE NATIONAL GUARD

1. As directed in General Orders No. 4, this office, dated February 28, 1935:

Staff Section, Service Company, 108th Infantry, Auburn, disbanded and the Service Company (less Band Section), 108th Infantry, redesignated Service Company (less Band and Staff Sections), 108th Infantry.

Staff Section, Service Company, 108th Infantry, to be organized with station at Syracuse, New York.

2. As directed in General Orders No. 5, this office, dated March 11, 1935:

Band Section, Headquarters and Service Company, 102nd Medical Regiment, New York City, New York, disbanded, effective March 16, 1935.

Band Section, Headquarters and Service Company, 102nd Medical Regiment, to be organized with station at White Plains, New York, effective March 18, 1935, on which date the designation of the Headquarters and Service Company (less Band Section), 102nd Medical Regiment was changed to Headquarters and Service Company, 102nd Medical Regiment.

## Bureau of War Records

This bureau was established by law about forty-five years ago as the Bureau of Records of the War of the Rebellion, a part of the Adjutant General's Office. The name was subsequently changed to the Bureau of War Records. In this Bureau are contained the individual records of soldiers, sailors, marines, etc., in the various wars and expeditions in which this State participated, in approximate numbers as follows:

War of 1812.....	75,000
Civil War.....	475,000
Spanish-American War, Philippine Insurrection and Boxer Expedition.....	50,000
Mexican Border Service.....	18,000
World War.....	518,000

The records of the individual soldiers have been compiled in the following manner:

*War of 1812.*—The names on the payrolls have been copied on cards and are alphabetically arranged.

*Civil War.*—The names have been copied on slips and bound in book form by organizations. On account of the constant handling of these rolls, they were gradually being destroyed and eventually would have been if this procedure had not been resorted to. There also have been compiled an alphabetical list of the names. The naval and marine records of this war are also bound in books and the names alphabetically arranged.

*Spanish-American War, Philippine Insurrection and Boxer Expedition.*—The names on the rolls of the New York Volunteers in the Spanish-American War have been arranged in a similar manner to the Civil War records. The records of the United States Volunteers, Regular Army, Navy and Marine Corps were obtained by purchase from Washington and are copied on cards alphabetically arranged.

*Mexican Border Service.*—The names on the rolls have been copied on slips and bound in books similar to the Civil and Spanish-American War Records.

*World War.*—The individual records were furnished this office by the United States government on cards alphabetically arranged. In 1920 the chief of this bureau was instructed to proceed to Washington and ascertain how to procure the individual records of the World War. He was informed by the Adjutant General of the army that these records would not be furnished the states. However, not daunted by this opposition, this office proceeded to get the other states interested, and by the unanimous demand of the United States senators and congressmen, an appropriation for this work was passed. These records have proven invaluable to the Bonus Bureau in paying the New York State bonus.

Part of the present force of this bureau is now engaged in copying on cards the names of the World War veterans and arranging them by counties. When this work is completed it will be a valuable compendium for historical purposes.

This bureau is also engaged in compiling the personnel of the National Guard organizations in the World War to be bound in book form similar to the Civil and Spanish-American War volumes. The records of the Mexican Border Service have been compiled in this form. There were large numbers of men in National Guard organizations in the World War who were credited to other states, although they either resided in this State or their business connections were here, but their record cards were sent to other states. We are continually securing these records from the adjutants general of the various states who are cordially co-operating with this office.

During the rush of work in copying these records in Washington errors naturally crept in. We have discovered thousands of these errors and omissions and are continually writing to Washington for the correct data. The Adjutant General's office in Washington has commended this office for its co-operation.

The bureau receives by mail, telephone and personal calls about 5,000 requests a year for personal records and other information not including calls from the Personnel Bureau and Bonus Bureau. These requests cover a large range of information. Records are desired by many patriotic organizations, especially of the War of 1812, Civil and Spanish-American War. Large numbers of requests are for family and genealogical purposes. There are other requests for records of deceased soldiers who died without means for burial, and there are many requests for records to obtain soldiers' headstones, and headstones for widows of soldiers. During the past year there have been numerous government projects in various states for graves registration, and this office is being continually called upon to furnish records of the New York State men buried in cemeteries of those states.

We are constantly being called upon to furnish certificates of service for veterans who have lost their discharges. These requests have been increasing within the past year, principally on account of veterans making application for relief work and who are compelled to show that they were honorably discharged.

This office has already published as parts of the records of the

Adjutant General, the rosters of soldiers in New York State organizations in the Civil and Spanish-American War. It would be in line with this policy to publish the records of the World War, but it is not thought advisable to do so at the present time on account of the large number of errors that are still being found.

There are no records in this bureau of the Revolutionary War, the War with Mexico and the Regular Army and U. S. Volunteers in the Civil War. The records of the Revolutionary War are in the office of the State Librarian. It is hoped that some day the State will appropriate money to obtain these missing records from the War Department at Washington.

The battle flags and cases containing relics are located in the east corridor of the second floor of the Capitol and are viewed by thousands of people yearly. They would be appreciated to a greater extent if more light could be procured for their exhibition, and I would recommend that lights be installed over the flag cases and relic cases.

The New York Monuments' Commission for the battlefields of Gettysburg, Chattanooga and Antietam was abolished in 1934 and the functions of the Commission were transferred to this bureau.

## Veterans and Soldiers Affairs

### PENSIONS AND CLAIMS

#### *Blind Veterans' Fund*

There are on this date 139 veterans of all wars who receive \$500 per annum, by reasons of blindness under Article 1-B of the Military Law. During the past year 24 new applications were approved, 3 applications were disapproved and 13 blind pensioners died.

#### *Pensions*

There are 67 persons pensioned by this State under section 220 of the Military Law which provides compensation for permanent disability incurred in line of duty in the National Guard or Naval Militia under lawful orders.

Since the last report two new pensioners have been added to this list and three pensioners died.

#### *Claims*

During the year six claims for pay and care on account of disability incurred by members of the National Guard or Naval Militia, in line of duty, under section 223 of the Military Law, were allowed.

### VETERANS' RELIEF BUREAU

Under chapter 589, Laws of 1922, a commission to be known as the New York Veterans' Relief Commission, consisting of the Adjutant General, to be chairman thereof, the Comptroller and the Attorney General, was created for the purpose of distributing relief to sick and disabled veterans of the World War. For the purpose of administering this act, \$1,000,000 was appropriated.

Under chapter 326, Laws of 1923, this commission was abolished and a separate bureau was created in the office of the Adjutant General to be known as the Bureau for the Relief of Sick and Disabled New York Veterans. Under this chapter an additional \$1,000,000 was approved. Of this total \$68,891.29 reverted to the State treasury through lack of reappropriation. Under chapter 605, Laws of 1928, chapter 41 of the laws of 1909, entitled "An act in relation to the militia, constituting chapter thirty-six of the consolidated laws," was amended by adding Article 1-A, thus establishing the administration of relief as part of the Military Law.

In order to carry out the provisions of the above law the Legislature under chapter 708, Laws of 1931, appropriated \$75,000. In 1932, \$100,000 was obtained through the Temporary Emergency Relief Administration from funds appropriated under chapter 567. In 1933, \$50,000 was appropriated under chapter 120, and in 1934, an appropriation of \$200,000 was received from the Temporary Emergency Relief Administration from funds appropriated under chapter 273. In addition the Legislature appropriated \$50,000 under chapter 20, making the gross total available \$2,406,108.71.

Since the institution of this bureau many thousand requests for relief from sick or disabled, needy, unemployed, honorably discharged veterans of the World War have been received. These applications were thoroughly investigated and a majority of them were rejected due to the fact that they did not come within the meaning of our law. However, to date, 11,360 cases were approved of which 9,826 are active or have been paid the maximum allowed under our law and 1,534 are in our rejected files for various reasons.

Actual payments for relief of sick and disabled veterans to date amount to \$1,914,145.68. Expenses of relief commissioners and administration to date are \$303,843.52. The expendable balance is \$188,119.51, of which \$100,000 is unrequisioned from the State Comptroller. The sum of \$38,463.81 is in the hands of the various relief commissioners and \$49,655.70 is in the bureau fund.

The bureau is represented by a resident commissioner in each assembly district throughout the State. The commissioner makes the necessary investigation to determine the eligibility of an applicant to be given relief. He prepares all papers, makes the relief payments, renders the periodical reports and returns, and discharges the multiplicity of duties that must necessarily result from the position.

These gentlemen serve without pay; they give their time and efforts to the work without recompense and altogether are rendering a service to the State of a high patriotic value.

### Recruiting Bureau

The Recruiting Bureau is charged with procuring enlistments to maintain the National Guard of the State of New York at the strength authorized by the War Department.

Recruiting during the year 1935 has been normal and it has not been necessary to formulate any special program to obtain recruits.

At the present time it is considered that all units are operating under approved recruiting plans which are tending to raise the standards of the type of enlistments, some units even going so far as to enlist only men with at least high school educations.

The Recruiting Bureau is available at all times for consultation regarding recruiting problems.

### **Soldiers' Bonus Bureau**

*December 31, 1935*

Under constitutional authority a bonus for New York veterans of the World War was provided pursuant to chapter 19, Laws of 1924. The sum of \$45,000,000 was realized from the sale of bonds authorized by law, this sum having been augmented by premiums amounting to \$659,565, the latter sum also being appropriated for bonus purposes under chapter 208, Laws of 1925.

A commission, consisting of the Adjutant General, the Comptroller, the Treasurer and the Attorney General, administered the disbursement until April 22, 1926, when its functions were absorbed by the Adjutant General.

Each eligible veteran, upon application, received the sum of \$10 for each month of service with the Colors, between April 6, 1917 and November 11, 1918, with \$150 as the maximum payment. Under chapter 209, Laws of 1925, an additional appropriation of \$2,500,000 was made. Chapter 26, Laws of 1925, added the next of kin to those who were killed or died in the service or prior to February 28, 1924, as eligible to receive the bonus. Under chapter 267, Laws of 1926, a further appropriation of \$300,000 was approved. Chapter 676, Laws of 1931, extended the time for filing claims to July 1, 1932, and made an appropriation of \$250,000. At an extraordinary session of the Legislature in 1931 to carry out the provisions of an act creating a temporary emergency relief administration, the sum of \$584,000 was appropriated by chapter 799 for the payment of bonuses, \$30,000 of which was made available for administration expenses. Under chapter 120, Laws of 1933, an additional appropriation of \$90,000 was made for bonus payments and \$25,000 for administrative expenses, bringing the total appropriated for bonus purposes to \$49,408,565, out of which there has been paid to December 31, 1935, in bonus and administration costs, the sum of \$49,324,021.29, leaving a balance of \$84,543.71.

Under the original law no claims could be received after May 1, 1927. The bureau reopened April 23, 1931, and closed for the receipt of applications July 1, 1932, during which period 10,135 new claims were received.

There has been received a total of 427,799 claims of which 413,571 have been paid, with an average payment per claim of \$117.23 at an overhead cost of \$1.85 per claim. There are still in the process of adjustment 5,007 claims. Of the total claims received, 25,257 applicants were not credited as having had an actual residence in the State at the time of their enlistment. Of

the total troops furnished by the State, 91,000 failed to make claim for this bonus.

### **Bureau of Files, Mail and Distribution**

During the year there were 266 issues of publications on training, army regulations, and other pamphlets received from the Federal government by this office and distributed by this bureau to the units of the National Guard of this State, in addition to the necessary Federal forms required by the National Guard. There were also caused to be printed and distributed all State forms used by the Guard in addition to the General Orders, Bulletins, and Training Circulars originating in this office and Division Headquarters.

### **Recommendations**

In conclusion may I dwell again briefly on our armory construction program which has received no consideration by Works Progress Administration or the Public Works Administration due to the fact that the State as sponsor had no contribution to make toward the development of this program.

From reports received from various parts of the country, the armory construction program of many of the States were initiated and progressed under P.W.A., and W.P.A., with substantial grants and considerable State appropriations.

It is urgently recommended that an amount of at least \$800,000 be made available to be applied toward our armory construction program in anticipation of grants by the P.W.A. and W.P.A. This sum to come either through legislative appropriations or allocated from the \$55,000,000 bond issue approved by the people in November, 1935.

Under this heading may I also remind Your Excellency of the additional item of \$10,000 I contemplate requesting in next year's budget for the publication of an illustrated history of the military and naval forces of the State of New York as a part of my annual report to Your Excellency which will be the first complete and official history of these forces ever published by this office, which request I trust will be met with favorable action.

### **Conclusion**

In submitting this report the Adjutant General wishes to express to Your Excellency his deep appreciation of your understanding and valuable leadership as Commander-in-Chief of the Military and Naval Forces of the State of New York and to assure you of the continued loyal support of the troops which you have the honor to command.

Respectfully submitted,

WALTER G. ROBINSON,

*Brigadier General,*

*The Adjutant General.*

## APPENDIX A

---

### Report of the Commanding General, New York National Guard

The following report on the affairs of the New York National Guard for the calendar year 1935 is made in accordance with paragraph 6, Regulations No. 80, State of New York.

1. *General.* The decision to hold the First Army maneuvers at Pine Camp in 1935 caused a decided change in our training program for the year. Many of our troops which normally train at Camp Smith were ordered to participate in these maneuvers. It was also decided to move the Coast Artillery and the 258th Field Artillery to Camp Smith for their 1935 field training, and to give them a year's course in infantry training and rifle practice, instead of their usual artillery field practice. Such decided innovations in training might well have caused some dissatisfaction and possible loss of morale, but I am glad to say that I feel it can be reported that no such let-down occurred. The artillery loyally obeyed orders, generally entered whole-heartedly into the new program, and feel that they gained a great deal of useful instruction which they could not have obtained under their usual program. The Pine Camp maneuvers were a change for the troops which usually trained at Camp Smith. I am confident that the year's work shows an increase rather than a decrease in morale, and afforded much valuable experience.

2. *Strength.* The average monthly aggregate strength of the New York National Guard for the past 12 months was 20,400 officers, warrant officers, and enlisted men, as compared to 20,084 for the preceding year. Our lowest month showed a strength of 20,002, as compared to 19,681 in 1934, and the highest 20,818, as against 20,571 for the previous year. The maximum strength authorized by the War Department remained at 21,006. A slight change in restrictions as to new enlistments was made this year, requiring only 60 days' armory service, prior to field training, instead of 90 days, as was required in 1933 and 1934.

3. *Attendance.* A decided improvement in attendance at armory drills is noted for this year, our percentage reaching 89.05, as compared to 86.68 for 1934. This I consider a most satisfactory performance, which clearly indicates a healthy condition of our forces. The policy adopted early in 1934, of forbidding the confinement of enlisted men in civil jails for absences from drill, has been continued, and I see no reason to alter this policy.

The percentage of attendance at field training the past year, 94.70, was an improvement over 1933 and 1934, when the figures attained were 93.45 and 93.52, respectively.

In the First Army maneuvers at Pine Camp, Great Bend, N. Y., during the month of August, we had 8,479 of our personnel in attendance, for a percentage of 94.63. Of this number, slightly more than 5,000 were moved from their home stations, principally in New York City and Buffalo, to and from Pine Camp by motor transport, the largest movement of this kind ever to have been attempted in this state.

At the annual inspection of the Guard by officers detailed from the War Department, 19,200 officers and men were present, or a percentage of 95.41.

The Colonel Frank H. Hines Attendance Trophy, which is awarded annually to that organization of our National Guard which has the highest percentage present at armory drills, field training, and the annual inspection, was won this year by the 106th Field Artillery (155 mm. How.), stationed at Buffalo, N. Y. This is the first time since this trophy was placed in competition (1931) that an up-State regiment has succeeded in winning it. The winner's percentage was 96.79. The 121st Cavalry, which finished third last year, was second with 96.52, and the 71st Infantry came third with 96.25, having finished in fourth place in 1934. Twenty-five of our twenty-six major organizations attained a percentage above 90, while the remaining regiment had 85.68.

4. *Organization.* No important changes in organization were made during the past year, but I recently recommended that the 156th Field Artillery, now a 75 mm. horse-drawn regiment, be motorized. The authority to make the conversion on or before April 1, 1936, has just been received. With this conversion completed, all of our Field Artillery will have been motorized.

Two changes in station were made during the past year. The staff section of the Service Company, 108th Infantry, stationed at Syracuse, N. Y., was disbanded, and the company, less band section, reorganized at Auburn, N. Y., with the band section remaining at Syracuse. The Headquarters and Service Company, 102nd Medical Regiment, was also reorganized, moving the band section to White Plains. This change places the entire company in that city. While it involves a change of station only, and not a change of personnel, I feel that I should mention the fact that I propose to request the transfer of the headquarters of the 51st Cavalry Brigade from Brooklyn to Manhattan at an early date. This headquarters has always been crowded in the Brooklyn armory, and larger and more satisfactory quarters are now being built for them in the Squadron "A" armory. The proposed change will be effected early in 1936, and, I believe, will be very advantageous.

The following retirements, due to reaching age 64, occurred during the past year: Brigadier General John J. Byrne, Commanding Coast Artillery Brigade, was, by your orders, retired for age in the grade of Major General on September 13, 1935; Brigadier General William R. Pooley, Commanding the 87th Brigade, also advanced to the grade of Major General, and retired on

October 5, 1935; Colonel Charles E. Walsh, 10th Infantry, retired as Brigadier General on May 17, 1935; Lieutenant Colonel Robert P. Orr, 245th Coast Artillery, retired as Colonel on May 29, 1935; Lieutenant Colonel Harry H. Farmer, 108th Infantry, retired June 20, 1935, and Major Max H. Elbe, 174th Infantry, retired as Lieutenant Colonel on September 17, 1935.

In July, 1935 I recommended to Your Excellency, on account of the withdrawal of Federal recognition from Brigadier General Ransom H. Gillett of the 53rd Brigade, and the fact that therefore, insofar as our relations with the Federal government were concerned, he was not qualified to administer his brigade or to command it in the event of mobilization, that he be relieved from command of that brigade. This was done, and Colonel Walter A. DeLamater of the 71st Infantry was appointed to fill the resulting vacancy. Other higher vacancies which occurred during the year were filled as follows: Colonel William Ottmann to be Brigadier General, Coast Artillery, vice Byrne retired; Lieutenant Colonel Bernard W. Kearney to be Colonel, 105th Infantry, vice Robinson promoted; Lieutenant Colonel Willard H. Donner to be Colonel, 10th Infantry, vice Walsh retired; Lieutenant Colonel George G. Terry to be Colonel, 71st Infantry, vice DeLamater promoted; Lieutenant Colonel Otto Thiede to be Colonel, 156th Field Artillery, vice Cassidy, resigned; Lieutenant Colonel Mills Miller to be Colonel 244th Coast Artillery, vice Thiery deceased; Lieutenant Colonel Edward E. Gauche to be Colonel, 212th Coast Artillery (A.A.), vice Ottmann promoted; Major Charles N. Morgan to be Colonel, 121st Cavalry, vice Townson and Armstrong, resigned, and Captain Theodore J. Krokus, 14th Infantry, to be Major, commanding 27th Division Quartermaster Trains, vice Platz, resigned. All of the organizations affected by these changes are operating well under their new commanders.

5. *Service in Aid of Civil Authorities.* Pursuant to instructions of the Adjutant General of the State, the following units were mobilized for the purpose of aiding civil authorities during the flood emergency periods in the south-central portion of the State: 1st Battalion Headquarters Battery and Combat Train and Batteries B and C, 104th Field Artillery of Binghamton; 2nd Battalion Headquarters Company and Companies E and H, 10th Infantry, of Binghamton; Company L, 108th Infantry, of Elmira; Company K, 108th Infantry, of Hornell; 105th Hospital Company of 102nd Medical Regiment, from Corning, and two provisional companies of three officers and 54 men each, organized from the companies of the 108th Infantry and 104th Collecting Company (102nd Medical Regiment) of Rochester. These troops were on duty for about three days, and reports indicate that they performed much valuable service.

In New York City the armories of the 71st Infantry, 369th Infantry, and 14th Infantry were, at the request of the mayor, used for daylight housing, recreation, and serving of meals for the

unemployed. This service ranged from three to six months. A number of emergency rolling kitchen stations were established by the 105th Field Artillery of Brooklyn at the mayor's request, and emergency coal distribution made throughout the city in National Guard trucks. Throughout the State the National Guard has continued to aid the civil authorities through affording the use of armories for the police, fire departments, post office departments, license bureaus, schools, patriotic organizations, and many others, as was covered at length in my annual report for 1930. Such services are not in the line of "disasters," and therefore are not recorded in the press, on which account this work of the Guard is little known to the public at large. I feel, however, that it has contributed very materially to the public welfare, and before closing this subject I desire especially to bring to your attention the increasing demands that are being made upon the Guard for such use of its armories, and the fact that we are rapidly approaching the point where such occupancy interferes with their proper use by our own troops and with the proper training of those troops. I feel that we can say truthfully that National Guard Headquarters and all of our officers in charge and control of armories have adopted a most sympathetic and liberal policy in this respect. They have assisted other branches of the city, State and Federal governments, patriotic and charitable societies, and all others who asked for assistance insofar as they could, without adversely affecting their primary training objectives. Frankly, however, the burden is increasing and becoming excessive. The public and public officials have come to look upon our armories not in the light of their primary purpose as quarters and drill halls for the National Guard, but as buildings, presumably vacant, which should be put to use for all kinds of purposes, whether related to their military status or not, and without regard to the after-effects upon the military service. The recruiting and training of the National Guard is a big job and an important job. For its proper performance it requires all of the facilities that have been provided. When we can help out other departments by loaning the use of our facilities temporarily, we have been and always will be glad to do so, but we feel that it must be realized that such use is a temporary expedient only, and that our armories are supplied by the State for the main purpose of housing and training the National Guard, and that this obligation cannot be endangered.

6. As indicated in paragraph 1, 1935 introduced many novelties in training. The First Army maneuvers were held at Pine Camp August 15 to 30. Fort Ontario and Fort H. C. Wright were not used by our troops, but Coast Artillery and 258th Field Artillery, which trained there in other years, were brought to Camp Smith and given intensive infantry and rifle instruction. Artillery field firing was practically eliminated for the year. Motor truck transportation replaced rail transportation to a very great extent, both for Camp Smith and Pine Camp. These innovations afforded a change of scene and of instruction for a large proportion of our

troops, much new experience was acquired, and many valuable lessons learned and I feel that, in spite of the necessary omission of certain training, the 1935 training season was a success.

a. *Motor Transportation.* Except for long distances, transportation by motor is undoubtedly the up-to-date method of moving troops. At the start of the 1935 field training season, except for certain artillery movements, we had had little experience in such movements. At the close of the season nearly three-quarters of our officers and men had received actual experience. All convoy movements had been carefully planned and regulated, and both National Guard Headquarters and subordinate organizations are now fitted to handle this method of troop movement. All movements of troops to and from Camp Smith, except during the period of the Pine Camp maneuvers, were made by truck instead of rail. In conjunction with Colonel William A. Taylor, the Assistant Adjutant General, stationed at the State Arsenal in Brooklyn, a pool of new one and one-half ton trucks and station wagons (recently assigned to us by the Federal government) was assembled and a convoy detachment organized under Lieutenant Colonel John J. Byron, 14th Infantry, with assistants as needed for each movement. The work was well done. Careful plans and orders were published for convoy management, loading, movement, and unloading, and worked perfectly. From 100 to 250 trucks were used, according to the number of troops to be moved. All convoys reached Camp Smith on time. Men of incoming regiments then detrucked, assembled, and moved to their camps, which had previously been vacated by the regiments which were to leave the camp. Regiments which were ordered to leave camp then loaded their men and equipment and left for home stations. As an indication of what was accomplished, every convoy except one left Camp Smith for the return to home station exactly on scheduled time. That one was ten minutes late, but made up the loss and reached its armory on schedule. Although these movements were made on Sundays (a very heavy day for traffic) through New York City and along one of the most traveled traffic arteries of the State, the discipline of the convoys and the police traffic control, as arranged in advance, were such that convoys themselves suffered no delay, and ordinary civilian traffic was interfered with to only a negligible extent. Not a man was injured in transit, and only one truck and one motorcycle were damaged in minor accidents. This is a remarkable and very creditable record. The movement to and from Pine Camp was still larger, covered more mileage, and was equally successful. Seventy-five station wagons, 266 ton-and-a-half trucks of our own, 108 trucks of the 1st Quartermaster Train of the Regular Army, and 145 taxicabs were involved. Three hundred and fifty-eight thousand ninety-seven (358,097) truck miles were covered, or 2,244,569 man miles. The greatest distance traveled in one day in connection with the maneuver concentration was 225 miles in 12 hours. (Earlier in the year the convoy of the 51st Cavalry Brigade headquarters troop made the trip from Pine Camp to

Staten Island, 340 miles, in 16 hours.) Troops traveled on scheduled time and lived up to schedules. The 106th Field Artillery traveled from Buffalo to Pine Camp in taxicabs, and reached their destination absolutely at the time set. Eight accidents were recorded, four of them of a very minor character. The maximum amount of truck damage was \$60. In these accidents 19 men were injured, but only one of these to an extent requiring hospitalization, and in that case a complete recovery was made in due course. At the start of the field training season, knowing how largely motor travel was included in the proposed program, I was very apprehensive of delays, accidents, and possible injuries. The results of our operations, as given above, speak for themselves. They show good staff work, good discipline, and good training. They would be a credit to professional soldiers. They are still more creditable for citizen-soldiers, and we are entitled to take great pride in them.

b. *First Army Maneuvers.* The First Army maneuvers which were held at Pine Camp the last two weeks of August were participated in by all of the troops of the 27th Division, except certain New York City regiments of infantry, which were replaced by up-State regiments. In addition, the 87th Brigade (less the 71st Infantry) and the 156th Field Artillery were present with the 44th Division, and the 101st Signal Battalion served with the First Corps. This rearrangement of infantry was made in order not to interrupt the target practice of our New York City regiments. The up-State regiments assigned to Pine Camp performed approximately their usual target practice on local ranges, which were available for that purpose.

Probably the greatest advantage that the National Guard got out of these maneuvers was in connection with supply and transportation, plus the experience of living under actual field conditions. The troops, with the exception of those occupying our permanent area, found nothing at all in their regimental areas when they arrived, and so they had to make their camp from the ground up, including pitching of their tents (there were very few tent floors available), digging their latrines, constructing latrine seats, digging pits for solid garbage as well as for liquid garbage, and providing covers for same; setting up some kind of improvised hot-water-heating apparatus, setting up tripods for Lyster bags containing drinking water, and many other improvisations, depending on the company and how much they felt they cared to expend out of their fund for conveniences.

I have already spoken of the work done in connection with motor transport. In addition, a great deal of advance work was done in standardizing the clothing and equipment, to ensure that all on hand was in proper condition, and in supplying all deficiencies. Blue-prints of our division camp area and of all regimental areas were prepared in advance and actually staked out on the ground, so that all troops moved in without confusion, established uniform camps, and lost no time in getting down to

work. We based our water supply upon the existing system, establishing distributing points for each regiment. One of the exceptionally valuable features of the army exercises was the fact that the troops were subsisted and supplied exactly as they would be subsisted and supplied in an active campaign. The army quartermaster depot was located in the railroad yard of the New York Central Railroad at Watertown, New York, and on the receipt of the daily telegram giving the ration strength of each division, a daily train was made up at the depot. The car was later dropped off this train at the particular railhead for the division concerned. The railhead for the 27th Division was at Great Bend, about a mile or so from the camp. At the railhead, as soon as the train arrived, which was ordinarily between two o'clock and four o'clock in the afternoon, the supplies for the division were unloaded into the trucks of the divisional train, and were transported to the Quartermaster area of the Division. There the supplies were broken down and segregated into issues covering a regiment or other separate unit. As soon as this was done, the field trains of each regiment, operating on a time schedule, reported to the Quartermaster area, and there received the supplies for their particular regiment, which were immediately transported to the regimental area, where they were in turn broken down and issued to each company kitchen.

There was a little nervousness at first on the part of supply officers, mess sergeants, and cooks, because by the time the daily ration arrived at the company kitchens it was well after supper, and there was nothing to eat remaining in sight in the kitchens at the time. This was unusual for troops who had been in the habit of drawing rations for five-day periods in previous camps, and had always had the comfortable feeling of seeing plenty of food on hand. At Pine Camp, this year, the breakfast, dinner, and supper of one day was not received until after the supper of the day before.

The ration was, in the main, good and sufficient. It was really a garrison ration issued in the field. There was some little criticism of the scantiness of the meat component of the ration, but I do not think that this was well founded.

Prior to the maneuvers a menu had been made up for every meal that was to be served for two weeks, and this was published to all the troops. In other words, everyone in the whole army area ate the same meal each day. Supply officers, mess sergeants, and supply sergeants all obtained considerable experience not only with the articles of the ration, but also with the drawing of other items of supply, such as straw, oil, wood, and signal and engineering equipment.

Another feature which was based upon the administrative experience of the World War was the method of arranging for baths for our troops. The bathhouses in the permanent National Guard camp were available, and a regular schedule was drawn up, giving hours for bathing for all of our organization; troops were

transported to and from the bathhouses in their own motor transport.

Our troops were well taken care of from the point of view of post exchanges, as we not only had the large permanent post exchange building, with all the usual features of a post exchange in it, but also there were three sub-exchanges established in the vicinity of the regimental areas, where beer, cigarettes, and other items for sale in regular post exchanges were available.

One of the prime objections to large maneuvers has always been the lack of interest on the part of subordinate officers, non-commissioned officers, and privates, due to the fact that they had little knowledge of what was trying to be accomplished. They could not understand why they were marched and counter-marched in a seemingly aimless manner, and with little knowledge as to how their particular movements fitted into the large picture. In this maneuver, due to the foresight of the Army commander, long marches for National Guard (and even for Regular) troops were avoided, without detracting in any way from the successful operation of the problems. I do not believe that any march in connection with the maneuvers was longer than ten miles for any National Guard troops, and I doubt very much if they were that long. As a matter of fact, I think that six or seven miles would be the average mileage per day. Furthermore, under orders from the army commander, the men in the ranks were kept advised by their officers as to what was transpiring, the situation, and how the particular unit to which the soldier belonged was co-operating with the larger units for the accomplishment of the particular tactical mission.

There were, in all, five days of tactical exercises. The first exercise was a meeting engagement—one northern division against a southern division—which gave the division commanders concerned an opportunity to have full command of their divisions, and prepared them for the larger exercises to follow. The second exercise was a two-day problem, in which the troops bivouacked over night, and it consisted of three divisions operating against two divisions, each side under its respective corps commander. After an intervening rest period, a similar two-day problem was carried out, in which the defending side in the first corps problem became the attacking force in the second one. The terrain for these exercises was generally good, although certain sectors were rather difficult to maneuver, and were comprised mostly of heavy sand and thick undergrowth. It is my opinion that New York troops, and those opposite them from the northern side, operated in the worst terrain in the entire area. This, however, was not an unmitigated evil, for the reason that it gave our troops an opportunity to realize how difficult it is to keep the elements of a division in communication with each other, and it tested out to the full our means of communication, such as radio, telephone, telegraph, and messenger.

A few things struck me as showing a considerable weakness on the part of our troops. The first and most flagrant was that advance guard commanders, as well as column commanders, and in fact everybody in the lower elements of command, failed to get the necessary information as to what was happening in their front back to the division commander, on which he might be able to base his future movements.

The second weakness was that when advance guard commanders contacted the enemy there was too much hesitation before throwing in the weight of their reserves and pushing the small detachments away from their front, so as to assure the advance of the main body. There was a great deal of delay, although the mission was plain, on the part of advance commands and even of column commanders, to push forward and support their leading elements. This wasted a great deal of time, and lost many favorable opportunities.

The third weakness that I found, although not by any means universal, was a lack of confidence in themselves on the part of company and battalion commanders, who had a great faculty for being in the wrong place, and for withdrawing without orders on uninvestigated reports as to what the enemy in their front or on their flank was doing. There was a serious lack of proper patrolling for information, and a woeful lack of patrolling for contact with the elements on the right and left.

I cannot say that these criticisms apply to all, for there was one advance guard, and there was one regiment, that seemed to handle themselves exceptionally well in every problem. They were bold but cautious, and they kept the high command informed constantly of their own and the enemy situation.

Notwithstanding all of the above, there was really a very keen interest on the part of officers and men, and there was plenty of spirit and enthusiasm. However, these qualities must be combined with a proper conception of the tactical situation and a knowledge of how to handle themselves and their command, for zeal and enthusiasm by themselves cannot win battles. Some men were so enthusiastic about the exercises that they stated they would like to go to maneuvers every year, but on sober thought I believe that even they would realize that being a little more than usual out from under discipline, as is necessary in war games, would not particularly add to their general efficiency. There can be too much of anything—even of maneuvers! We must have a balance in our training. It is of no use, on the one hand, to have troops who can shoot and handle their weapons perfectly, but cannot be maneuvered into the proper tactical position to use them; whereas, on the other hand, it would be quite useless for troops to be perfectly maneuvered, if they were unable to use their weapons efficiently upon arrival on the battle line.

To sum up, the First Army maneuvers were better planned and conducted than any previous maneuvers in which the New York National Guard has ever participated. We learned much from them, both in regard to administration and to the tactical handling

of troops. Maneuvers cannot replace our present carefully-considered and well-organized plan of annual training, but at four- or five-year intervals in the future they can supplement that plan to great advantage. We learned that, basically, our present system is correct and is producing results. We learned that certain parts of that plan needed special emphasis, and we will give that emphasis, but the soundness of our system of detailed instruction at Camp Smith, Pine Camp, and elsewhere was demonstrated beyond question.

*Other Training.* Prior to the First Army maneuvers the cavalry had performed their usual training at Pine Camp. All of the New York City infantry regiments, as well as the Coast Artillery and the 258th Field Artillery were sent to Camp Smith. The usual program was carried out by the infantry, elaborated as past progress justified. For instance, all regiments were required to leave their bivouac area at approximately midnight, occupy a "jump-off line" under cover of darkness, and attack an outlined enemy position at dawn. This difficult exercise was carried out with good discipline and grasp of necessary principles by all regiments, except where it was interfered with by adverse weather conditions in one or two instances.

The artillery was ordered to Camp Smith for the purpose of training them in the use of the rifle and in such infantry tactics as would increase their value as purely State forces. In addition, it was felt that their presence for two weeks each, under the direct control and observation of myself and my staff, would be advantageous to them and would enable us to become better acquainted with their capabilities and needs in a way that cannot be attained during their usual training at Fort Ontario and Fort H. G. Wright. These expectations were fully realized, and I have no hesitation in saying that I believe that the special training which was given them and the special observation under which they trained have already produced excellent results and will continue to show results in the future.

Small-arms target practice was continued throughout the training season, and excellent results were attained. Our percentages of qualifications with basic weapons were as follows:

Weapon	1931	1932	1933	1934	1935
Rifle, Cal. 30.....	.230	.324	.502	.594	.700
Automatic Rifle.....	.316	.267	.524	.546	.636
Machine Gun.....	.408	.455	.461	.621	.822
37 m/m & 3" T.M.....	.850	.800	.872	.937	.904

This constitutes a new high record in qualifications for the rifle, automatic rifle, and machine gun. The 102nd Engineers, 27th Division Q. M. Trains, and the 174th Infantry (less four rifle companies, did not fire for record in 1935, due to their participation in the First Army maneuver. The 1934 qualifications of these organizations, less the changes in personnel, were carried over, and are included in the above.

Pistol practice was again suspended this year, due to lack of ammunition.

The 212th Coast Artillery (A.A.), 244th Coast Artillery, and the 258th Field Artillery received instruction in the use of the rifle, and fired it, for the first time this year. The 245th Coast Artillery (H. D.), which is armed with the rifle, was able this year to devote more time to its rifle work by reason of the facilities available at Camp Smith, and also by reason of the fact that the men were freed from the usual artillery details. The personnel of these regiments displayed a keen interest in the rifle work, and fired a modified "D" instruction course with excellent results.

A number of officers and men in each regiment were also given instruction in nomenclature and handling of the Browning Machine Gun, M1917, and were permitted to fire a limited 1000-inch course. There is no question but that the type of training received by these regiments this year has greatly increased their value to the State.

The cavalry fired the light machine gun (Browning air-cooled) for the first time, in 1935. The training regulation affecting the use of this weapon being in tentative form, an instruction course at 1000 inches only was fired. The men are keenly interested, and will undoubtedly give a good account of themselves when the record course is definitely approved.

The rifle ammunition issued was satisfactory, with the exception of one lot, which was withdrawn from use, and, upon report, was replaced by the chief of ordnance. The allowance of rifle and machine gun ammunition was sufficient to permit the carrying out of our scheduled program.

Organizations are kept constantly informed of the classification of reserve ammunition in their possession, and replacements are made as required.

The inspection of small arms in the hands of the New York National Guard by the corps ordnance officer resulted in the condemnation, as unserviceable, of 277 rifles, cal. 30; 108 rifles, cal. 22, M1922, M1 (the bolt on this type of rifle was not of sturdy construction, and it is being replaced with the M2, which is more satisfactory); 36 automatic rifles; 15 machine guns; 9 automatic pistols; 34 revolvers; and two 37 m/m guns. These weapons had been in use over a period of years, and their condition was in general due to fair wear.

*c. Special Training and Schools.* Special training in communications, chemical warfare, machine gun and other auxiliary infantry weapons is being carried on both in armories and field.

During the year seventeen officers and two enlisted men successfully completed courses at Army Service Schools, as follows:

Infantry School—Company Officers .....	4
Engineer School—Company officers .....	1
Signal School—Officers .....	1
Quartermaster School—Subsistence Course .....	1
Field Artillery School—Battery Officers .....	2

Cavalry—Enlisted Course .....	1
Coast Artillery—Battery Officers .....	3
Quartermaster—Motor Transport .....	2
Medical—Enlisted Course .....	1
Chemical Warfare—Unit Gas Officers .....	1
Medical—Officers .....	2

Work in the Army Extension Courses has increased, and we now have totals of 1,263 commissioned officers and 1,694 enlisted men taking appropriate courses. Such interest and such an enrollment in these excellent courses cannot fail to raise the professional fitness of our personnel. Orders which were issued to the effect that no officer would be promoted without a satisfactory record in the extension courses has also produced excellent results. Schools for candidates for commission are conducted in all organizations, and a number of graduates of these schools have been granted commissions in the Inactive National Guard, and thus become available for filling war-strength vacancies in the event of mobilization. It is my hope and intention, if possible, to have such candidates available in our ranks for all such mobilization vacancies, and we are making excellent progress towards this goal.

As an indication of public interest in our field training, the military police at Camp Smith reported that approximately 60,000 visitors, 10,514 motor cars, and 129 buses entered the camp on visitors' Sundays during the past season.

7. *Inspections.* During 1935 State armory inspections were held separate from the Federal inspections, and this practice has continued to prove successful. The plan has also proved of great benefit to all organizations inspected, as the inspecting officers have sufficient time to cover administration thoroughly and exhaustively. Reports were submitted at the conclusion of each inspection to the Commanding General, New York National Guard, by the inspecting officer, and the organization concerned, as well as the brigade commander, were furnished copies of this report. All deficiencies were given special attention and necessary corrections made.

State inspections of training were conducted as usual during the field training encampments, this plan proving to be both economical and effective.

The customary inspection of accounts of the Quartermaster at Camp Smith and of the post exchange officer at that camp were made at frequent intervals throughout the field training period, and a physical check made of the presence of men whose names appeared on all payrolls. Also, the payroll of the construction department at Camp Smith was likewise verified from time to time. The post hospital, headquarters mess, and provisional ordnance detachment accounts were audited periodically.

Ten special investigations were made and reported on in 1935.

#### 8. *Permanent Plant*

a. *Armories.* The new administration building of the 369th Infantry, in the Harlem district of New York City, is now occupied,

and adequate furniture is being supplied. It must again be reported that the new armory for the 104th Field Artillery, in Jamaica, has not yet been completed. However, it is now so nearly finished that it seems certain that it can be turned over to this regiment during the early part of 1936. A great deal of work is now being done in New York City armories with W.P.A. money, and on the work's completion all of these buildings should be in first-class condition. I have no special points in connection with new construction of up-State armories to which I desire to call attention. This matter is in the very competent hands of the Adjutant General, and undoubtedly will be covered by him in his report. I shall only say that inspections by my staff show that constant work is being done to keep these buildings in adequate condition, so that full advantages may be obtained from them.

b. *Camp Smith.* No special funds, either Federal or State, were available this year for new construction at Camp Smith. State funds were sufficient to keep the plant in repair. Federal funds have been requested for the construction or replacement of several buildings, most important among them a new enlisted men's latrine and bathhouse for the East Camp, a new quartermaster building for the East Camp, a new motor shed (greatly needed on account of recent new motor trucks issued to us), a new latrine building and an officers' quarters for permanent staff and U. S. army instructors, a storm sewer for the West Camp, resurfacing of roads, etc. Before the camp was opened last year the construction of concrete tent floors for the entire camp was completed, and during the fall the grading of the motor park near the pumphouse was practically finished. As I have indicated in my request for next year's appropriations, we shall have to consider very seriously in the near future a complete refitting of all company kitchens, some thirty-five in number. All of the equipment in these buildings is old, receives hard service throughout each full field training period, and is showing inevitable and natural signs of wear and tear, so that it is rapidly approaching the point where patching has become false economy. Some W.P.A. funds were secured last fall, and work has already been done and is proceeding towards completion on adding two targets to the 1000-yard range, repairing and enlarging the present combat range (10 additional targets), minor repairs to other ranges where necessary, enlarging the quartermaster building in the West Camp, and painting twenty-three buildings. Several improvements, including the complete remodeling of the restaurant and clubroom, were made last year in the recreation hall with profits from the operation of the post exchange.

c. *Pine Camp.* Federal funds for Pine Camp were also at a minimum last year. W.P.A. work is now, however, in progress towards repairing the rifle range, enlarging the assembly hall, thirteen forage sheds, concrete tent floors, enlargement of one enlisted men's latrine, and addition of washracks to three latrines, and improvements to the aviation field.

d. *Fort Ontario*. W.P.A. funds have also been suggested for the improvement of the National Guard camp at Fort Ontario in connection with the plan referred to in my report of last year, but to date no definite plan has been approved.

9. *Administration*. Definite progress has been made in the New York National Guard in the administrative functions of its component parts. Annual inspections show constant improvement in organization personnel records. The U. S. Property and Disbursing Officer advises me that a similar improvement is manifest in property accountability, and that there exist at present only one or two situations which have not been adjusted to his satisfaction. A slight modification of our regimental property system has been worked out in consultation with the U. S. Property and Disbursing Officer, mainly as a result of our experience during preparation for the First Army maneuvers, and will soon go into effect. The handling and accounting of organization civil funds is improving, and with continued pressure on the part of staff inspectors should reach complete standardization in the near future. A new and improved system for the financial operation of the "New York National Guardsman" has been worked out in conjunction with the Adjutant General, and is expected to be much more satisfactory than the one which has been followed to date since the inauguration of that publication. Our post exchanges, both at Camp Smith and Pine Camp, showed improved management and profits, and both carry a surplus on hand to apply towards future operations.

In conclusion, may I be permitted to express to Your Excellency the appreciation of the New York National Guard for your continued interest in our welfare and progress, and to mention the co-operation that we have received from the State Legislature, the Adjutant General's office, the office of the U. S. Property and Disbursing Officer, and the instructors from the United States Army.

WILLIAM N. HASKELL,  
*Major General.*

## APPENDIX B

---

### Report of the Commanding Officer, New York Naval Militia

1. The affairs of the New York Naval Militia for twelve months ending December 31, 1935, are hereunder submitted, in compliance with paragraph 6, R-80, Regulations for the Military Forces of the State of New York.

2. *Strength.* During the past year some losses of men occurred due to continued recruiting of Civilian Conservation Corps encampments and others due to some betterment of general employment conditions. These losses, however, were more than offset by gains, as indicated by a strength of 1,837 as of December 1, 1935, whereas there were but 1,755 officers and men on the rolls December 1, 1934.

3. *Attendance.* The average attendance record at regular drills was 85.7 per cent, as compared with 83.1 for the 1934 period. This slight increase in attendance is similar to that which has obtained for several years. This continued gradual improvement of general attendance is gratifying and while a perfect attendance is admittedly out of the question, higher percentages are constantly sought by the unit commanders, and in most cases they will succeed in raising their averages. Forty-eight paid drills are provided for the current fiscal year for 56 men in each Fleet Division. There is definite probability that a larger group of men may be paid during the coming fiscal period, which in itself will result in a higher record of attendance.

4. *Training Duty.* During the summer of 1935, 1,355 enlisted men and officers performed active duty afloat in destroyers of the training squadron. These officers and men were paid for the duty performed for a period of 14 days. In addition, 34 officers and men performed similar duty as volunteers without remuneration therefor. It has been the policy of the Navy Department to cruise two Fleet Divisions in each destroyer, which necessitated a limitation of the number of officers and men to 5 and 55 respectively per Fleet Division. The Navy Department now considers authorizing training duty on the basis of one division per destroyer, which will result in a condition whereby a larger number of officers and men will receive the benefit derived from these training cruises. The Navy Department reports show without exception that all units conducted themselves in a thoroughly satisfactory manner during their training period. The reports indicate a continued increase of efficiency on the part of officers and men. During the training period it is customary for all ships to participate in Short Range Battle Practice, which is conducted under standard United States Navy rules and

fired at a range of 1,600 yards. Control of the ships in all departments is required of the officers and men of the Naval Militia. The 5th Fleet Division of the 2nd Battalion at Brooklyn, N. Y., was awarded a trophy for gunnery efficiency, this unit having made the highest figure of merit in the Short Range Practice for the year 1935. All Naval Militia unit commanders concerned have reported to this office complete satisfaction with the program of training as laid down by the Navy Department for the period of their training duty afloat. The Marine Battalion, as in past years, performed field training at the State Camp, Seagirt, N. J. Performance of this duty is directly supervised by officers detailed for that purpose by the Major General Commandant, U. S. Marine Corps. Reports to this office from the headquarters, U. S. Marine Corps, are commendatory with respect to the 1st Marine Battalion, New York.

5. *Small Arms Practice.* One thousand, two hundred and seventy-five men attended Small Arms Practice and participated in the Annual Figure of Merit Competition. The attendance at this duty also indicates an increase over that obtaining during the year 1934. The figure of merit was won by the 11th Division, 9th Battalion, Buffalo, N. Y.; 2nd prize, 15th Fleet Division, Oswego, N. Y.; 3rd prize, 31st Fleet Division, New Rochelle, N. Y. One officer qualified as expert; 15 officers and men qualified as sharpshooters; 366 officers and men qualified as marksmen, for the current period, showing continued improvement in marksmanship in the Naval Militia. The qualifications in all classifications are greater in number than those recorded during the preceding year. The Commanding General of the Second Corps Area, U. S. Army, authorized the use of rifle ranges at Fort Niagara and at Stony Point, N. Y. Army personnel immediately concerned with the administration of these reservations were exceedingly courteous and helpful in connection with all details attendant to the conduct of practices on these government reservations. The units in and around the metropolitan area made use of the facilities of the State Camp, Peekskill, N. Y. A new range privately maintained by the 174th Infantry Battalion of Rochester, N. Y., was used by the Naval Militia personnel in that city. The commanding officer, N.Y.N.M., is indebted to the officers of the army and the National Guard who co-operated with officers of the Naval Militia in connection with this activity. The Naval Militia participation in the New York State matches was most satisfactory. The Brigade Match was won by the 1st Battalion of New York City. The 2nd Battalion Match was also won by this organization. The Inter-State Small Arms Trophy Competition, which is sponsored by the U. S. Naval Reserve Officers Association, Third Naval District, was won by a team representing the state of Connecticut. The Naval Militia was very well represented in the Members Match, Company Team Match, Cruikshank Trophy Match, McAlpin Trophy Match, Wingate All Comers Match, Rogers All Comers Match, Adjutant General's Trophy Match, Roe All Comers Match, and the Governors Cup Match. This participation is indeed pleasing in that it indicates a constantly increasing interest of Naval Militia personnel in the promotion of efficiency at small arms.

6. *Week-end Cruising.* Collective reports for week-end cruises during the past year show a total of 7,868 miles covered by various types of vessels on 78 cruises manned by 1,366 officers and men. Week-end cruising is of voluntary character. The officers and men do not receive drill pay for the performance of this duty. The conduct of such cruises are independent in nature and unquestionably are of great benefit professionally to the officers participating and are most helpful in increasing the general efficiency of the enlisted personnel.

7. *Athletics.* There is considerable activity and interest shown in both indoor and outdoor athletic activities which are always encouraged by the unit commanders. All of the units in the metropolitan area were represented in a Whaleboat Race held in the North river during October. This competition is an annual one and is open to all units in the Third Naval District. This race, which was won by a New York Naval Militia boat last year, was won by the 27th Fleet Division of Perth Amboy, N. J.

8. *Naval Academy Appointments.* During 1935, 12 members of the N. Y. Naval Militia were successful in winning admission to the U. S. Naval Academy. The successful candidates were:

Adams, Dudley H., AS, 1st Batt. NYNM  
Gregg, William J., AS, 1st Batt. NYNM  
Doudiet, Norman W., AS, 1st Batt. NYNM  
Pederson, Geo. W., AS, 1st Batt. NYNM  
Duryea, Robert I., AS, 2nd Batt. NYNM  
Dayton, Jay P., AS, 3rd Batt. NYNM  
Wadsworth, Robert F., AS, 3rd Batt. NYNM  
Brown, Philip F., S2c, 4th Batt. NYNM  
Nash, Malcolm P., S2c, 4th Batt. NYNM  
Higgins, Edward F., S2c, 31st Fl. Div., NYNM  
Mahoney, Joseph M., AS, 31st Div., NYNM  
Keegan, Thomas, AS, 33rd Div., NYNM

This entering group represents an increase of seven men over the last reported period. The entrance of so large a representation from the New York Naval Militia can only prove the fact that the organizations are recruiting a higher type of enlisted personnel. All of the successful candidates won admission through the Naval Reserve competitive examinations, although they were not all recipients of Naval Reserve appointments. The competitive rules are such that only the first 25 passing candidates in the United States are accepted from the Naval Reserve. A number of men mentioned above successfully passed the competitive examination but their standings were over No. 25, but as a result of having been successful in their efforts to enter the Academy, their local Congressman, and in one case a Senator, gave them the actual entrance appointment.

9. *General Efficiency of Brigade.* It has been stated hereinbefore that the reports received following the conclusion of the training period were commendatory in all cases. The Naval Reserve Inspee-

tion Board, who conduct the Annual Inspection for the information of the Navy Department, are at this time in process of making an inspection to cover the current fiscal period. The organizations which have been inspected to date are equalling or bettering their standings over the preceding year. The commanding officer is of the opinion that the training schedules as now in force are resultant in healthy improvement.

10. *Armories.* The work on the Fourth Battalion Armory at Whitestone, N. Y., has been taken over by the U. S. Works Progress Administration and this structure is slowly being worked toward completion. Continued improvements to the grounds of the State Armory at New Rochelle, N. Y., have been made by the Emergency Works Bureau and further provision for additional work has been made and authorized by the Works Progress Administration. The organization at Oswego, N. Y., obtained a grant of land on the lake front, which was very generously provided by the county officials, and it is believed this site would be a suitable one for the erection of a Naval Militia armory if funds become available from the W.P.A. The city of Yonkers, which has shown a great interest in the welfare of the N. Y. Naval Militia, is at this time very generously offering a site for the erection of a building at that place. New armories would also be desirable at Dunkirk and at Watertown, N. Y. Considerable progress has been made toward the procurement of W.P.A. funds for the erection of an armory at Buffalo, N. Y.

11. The policy of this office with respect to the close co-operation with the Navy Department continues to bring forth most satisfactory results.

F. R. LACKEY,

*Rear Admiral, NYNM.*

## APPENDIX C

---

### Report of the State Ordnance Officer

#### *Results of Various State Matches.*

1. The 1935 competitive firing for State and brigade prizes authorized by M. L. 112, S. N. Y. and G. O. 2, Hq. N. Y. N. G., April 4, 1935, was held at Camp Smith, Peekskill, N. Y., during the period June 9 to 15, inclusive. The State Matches were preceded by those of the New York State Rifle Association, which, as in past years, provided an opportunity for practice under match conditions. The program was rearranged so that all National Guard rifle matches were completed on Friday afternoon and was carried out on schedule.

2. The competition was keen throughout and the 107th Infantry team established a new high record for the State Match scoring 3,892 out of a possible 4,200 points—an average of 324 out of a possible 350 points for each of the twelve members of the team. This score was 36 points higher than the old record established by the 107th Infantry team in 1927.

3. Another outstanding accomplishment of the competition was the firing of a possible score (100) in the Governor's Match by Captain Richard A. Devereux, 107th Infantry. In the forty-two years of competition for this trophy, this score has been made only once before—in 1905 by Sgt. Z. V. Dixon, Co. K, 13th Artillery. In all other years it has been won by a score of 98—this year the second man, Lieutenant M. G. Wilson, 107th Infantry, scored a 99 and 1st Sergeant K. H. Kemp, 71st Infantry, and Private H. M. Lutz, 165th Infantry, a 98 each. This tie was shot off with Kemp scoring a 97 and Lutz a 95.

4. Two administrative innovations excited much favorable comment—the first being a blackboard on which team scores were registered at each stage, and the second the publication of bulletins at the conclusion of each match giving the results. Each competitor was issued a bulletin containing the results of the match or matches in which he participated.

5. The formal presentation of prizes took place immediately following the conclusion of the State Match and we were honored in having Rear Admiral Frank R. Lackey, Commanding the New York Naval Militia, distribute the trophies.

6. The New York Naval Militia competed in practically all of the matches and again furnished a detail of one officer and twenty-five men whose assistance assured the completion of the program on schedule.

7. Award of prizes for the year 1935, for excellence in Small Arms Practice authorized by section 112, Military Law, was announced as follows:

PRIZES	Value	Awarded to	Score	Figure of merit

49. Cpl. E. Lavino, 71st Inf. ....	90
50. Pvt. J. Walle, 102nd Eng. ....	90
90 others combined.	

NOTE.—During the 42 years that the Governor's Match has been established it has been won twice by a "possible" score. The first time was in 1905 when Sergeant Z. V. Dixon, Co. K, 13th Artillery, won with a score of 100. The second instance was on June 13, 1935, when Captain Richard A. Devereux, 107th Infantry, shot a perfect score.

#### THURSTON MEMORIAL MATCH

The course was twenty shots standing at 200 yards slow fire and ten shots rapid fire at 300 yards on the "A" target; time one minute, ten seconds.

The following are the first fifty competitors in order of merit:

	Score
1. Capt. W. A. Swan, 102nd Eng. ....	142
2. Lt. M. G. Wilson, 107th Inf. ....	137
3. Lt. H. A. Manin, 102nd Eng. ....	137

4. Lt. W. T. Maloney, 165th Inf. ....	136
5. Sgt. H. Klein, 102nd Eng. ....	136
6. Pvt. J. H. Fitzgerald, 107th Inf. ....	136
7. St. Sgt. P. Rizzo, 102nd Eng. ....	135
8. 1st Sgt. T. Fennell, 102nd Eng. ....	135

28. Lt. M. J. Davidowitch, 2nd Bn., N. Y. N. M. ....	131
29. Tech. Sgt. J. Cushing, 102nd Eng. ....	130
30. Pvt. W. Cody, 71st Inf. ....	130
31. Sgt. K. Kemp, 71st Inf. ....	130
32. Pvt. C. P. Rogers, 107th Inf. ....	130
33. Pvt. E. E. Keet, 107th Inf. ....	130
34. Pvt. Henry Beister, 102nd Eng. ....	129
35. Lt. J. B. Prout, 105th Inf. ....	129
36. Pvt. A. H. McQueen, 14th Inf. ....	129
37. Lt. L. Smith, 369th Inf. ....	129
38. Pvt. T. E. Brown, Jr., 107th Inf. ....	129
39. Sgt. J. H. Hanly, N. Y. N. M. ....	129
40. Sgt. J. K. Batstone, 107th Inf. ....	128
41. Sgt. J. A. Downing, 107th Inf. ....	128
42. Sgt. R. Castle, 165th Inf. ....	128
43. Capt. R. H. Leland, 165th Inf. ....	128
44. Sgt. W. F. Alcock, 107th Inf. ....	128
45. Sgt. E. Edmonds, 14th Inf. ....	128
46. Sgt. M. Buzzo, 105th Inf. ....	128
47. St. Sgt. R. Jackson, 102nd Eng. ....	128
48. Cpl. R. B. Exton, 107th Inf. ....	128
49. Sgt. S. A. Piotrowski, 105th Inf. ....	128
50. Lt. Baldwin, 2nd Bn., N. Y. N. M. ....	127

121 others completed.

#### STATE PISTOL MATCH

This is a match inaugurated in 1928, carrying twelve medals—gold, silver, and ten bronze.

The course is the same as the National Match, ten shots each at 50 yards slow fire (one minute per shot), 25 yards timed fire (20 seconds per string of five), and 25 yards rapid fire (10 seconds per string of five). Points made out of a possible three hundred are figured in these matches.

Following are the twelve medal winners in order of merit:

	Score
1. Pvt. E. J. Walsh, 101st Cav.....	253
2. 2nd Lt. E. B. Kirk, 101st Cav.....	251
3. Pvt. J. H. Fitzgerald, 107th Inf.....	249
4. Sgt. C. P. Perkins, 105th Inf.....	242
5. Capt. A. N. Gormsen, 102nd Eng.....	239
6. Pvt. R. Daliberti, 101st Cav.....	239
7. Sgt. D. Baker, 121st Cav.....	237
8. Sgt. R. Bessette, 105th Inf.....	236
9. 2nd Lt. J. R. Herron, 105th Inf.....	235
10. Cpl. D. C. Bradt, 105th Inf.....	232
11. Capt. R. A. Devereux, 107th Inf.....	232
12. 1st Sgt. K. Kemp, 71st Inf.....	229

Sixty-eight others competed.

#### THE SAYRE TROPHY MATCH

78th Division, Org. Res. . . . .				1103

The New York National Guard participated in several important pistol competitions other than the foregoing—notably:

## THE INTERSTATE-INTERCOLLEGIATE PISTOL TEAM MATCH

(The Schwarzkopf Trophy)

(Held at Wilburtha, N. J.)

This match is one of the most important in the country—54 teams competing—the following are the results in the cal. 45 class:

New York National Guard	25 yd.	25 yd.	15 yd.	Total
	S. F.	R. F.	R. F.	
Sgt. Paul D. Weston Co. D, 71st Inf. . . . .	99	94	98	291
Capt. Alfred N. Gormsen, Co. A, 102nd Eng. . . . .	94	91	100	285
Capt. Richard A. Devereux, Co. I, 107th Inf. . . . .	97	90	94	281
Pfc. Pedro H. Agramonte, Co. G, 107th Inf. . . . .	98	84	91	273
1st Lt. Ralph H. Bunting, Tr. A, 101st Cav. . . . .	91	85	91	267
Team total . . . . .	479	444	474	1397
New Jersey National Guard . . . . .				1387
77th Division, Organized Reserves, No. 1 . . . . .				1380
78th Division, Organized Reserves . . . . .				1369
77th Division, Organized Reserves, No. 2 . . . . .				1277

## THE TEANECK POLICE PISTOL MATCH

(Held at Teaneck, N. J.)

This match was the largest ever held anywhere—there being some 72 teams in competition. The following are the results in the calibre 45 class:

	25 yd.	25 yd.	25 yd.	Total
	S. F.	T. F.	R. F.	
New York National Guard				
Pfc. P. H. Agramonte, Co. G, 107th Inf. . . . .	89	80	81	250
Capt. R. A. Devereux, Co. I, 107th Inf. . . . .	92	80	76	248
Sgt. Paul B. Weston, Co. D, 71st Inf. . . . .	87	79	78	244
Lt. R. H. Bunting, Tr. A, 101st Cav. . . . .	84	86	71	241
Team total . . . . .	<u>352</u>	<u>325</u>	<u>306</u>	<u>983</u>
101st Cavalry, N. Y. N. G. . . . .				952
U. S. Coast Guard Instructors. . . . .				927
U. S. Customs . . . . .				916
Co. D, 71st Infantry, N. Y. N. G. . . . .				910
77th Division, Organized Reserves. . . . .				716

#### THE TROOP L, NEW YORK STATE POLICE PISTOL MATCH

This was a special match organized by Troop L, New York State Police, who furnished the prizes. The results were as follows:

Team	Score
Troop L, N. Y. S. Police. . . . .	1502
Co. D, 71st Infantry. . . . .	1356
Camp Smith . . . . .	1218
Officers, 71st Infantry. . . . .	1176
Enlisted Men, 212th Coast Artillery. . . . .	1073
Hq. Coast Arty. Brig. . . . .	1061
Officers, 212th Coast Artillery. . . . .	1050

11. A logical result of the reopening of the National Matches in 1935 will be an increased interest in rifle competition and this, together with General Order 6, Headquarters New York National Guard, June 20, 1935, requiring Infantry, Cavalry and Engineer regiments to enter the State Matches will be reflected in our 1936 matches which it is safe to predict will be the largest ever held as regards number of competitors. The pistol teams representing the New York National Guard have given an excellent account of themselves in all competitions entered in 1935. The rifle teams have had no outside matches other than the National Matches.

#### NATIONAL MATCHES

*September 1-19, 1935*

12. This year, 1935, marked the revival of the National Matches at Camp Perry, Ohio, which had been discontinued since 1931 due to lack of appropriations.

13. The appropriation for the 1935 National Matches was considerably lower than that for 1931 with the result that service had to be curtailed and the National Guard team members did not receive pay as had teams in previous years. The necessarily curtailed service made practice out of the question—all available personnel being required for the conduct of the matches—and this in turn worked a hardship on the firers who were deprived of normal facilities.

14. In spite of these serious disadvantages, the teams representing the New York National Guard displayed a fine spirit of sportsmanship. They submitted themselves without hesitation to a necessarily strict discipline and exhibited a spirit of team work which was a credit to each member personally and to our National Guard.

15. The rifle team was selected in the main from the Governor's honor men—those men whose shooting during State Match week marked them as outstanding in the close competition furnished by over two hundred contestants.

16. The following was the team:

*Team Captain*

Lt. Col. Henry E. Suavet, Headquarters, 27th Division

*Team Coach*

Private Thomas E. Brown, Jr., 107th Infantry

*Principles and Alternates*

- Private James H. Fitzgerald, 107th Infantry
- Sergeant Burr A. Evans, 102nd Engineers
- Corporal Charles Mason, 107th Infantry
- First Sergeant Francis McCullough, 165th Infantry
- Corporal Clarence H. Sample, 107th Infantry
- Sergeant Harry R. Klein, 102nd Engineers
- Staff Sergeant Peter Rizzo, 102nd Engineers
- 2nd Lieutenant William J. Maloney, 165th Infantry
- Private Herman M. Lutz, 165th Infantry
- 2nd Lieutenant Harry A. Manin, 102nd Engineers
- Sergeant Charles A. Barnett, 107th Infantry
- First Sergeant Kenneth H. Kemp, 71st Infantry
- 2nd Lieutenant William M. Ingles, 165th Infantry
- 2nd Lieutenant Earl J. Tilyou, Ordnance Dept., S. S.

*Ordnance Mechanic*

Staff Sergeant Joseph J. Ryan, Ordnance Detachment, S. S.

17. The team members all attended the Small Arms Firing School and received Certificates of Proficiency.

18. The matches entered and the results follow in the order fired:

THE COAST GUARD TROPHY MATCH

1,510 Entries

Winning Score—99

4 (N. G.) Sergeant Burr A. Evans, 102nd Eng. . . . . . 97

*Alternates*

Sgt. Harold R. Klein, 102nd Eng.  
 1st Sgt. Francis McCullough, 165th Inf.  
 2nd Lieut. Wm. M. Ingles, 165th Inf.  
 2nd Lieut. Earl J. Tilyou, Ord. Dept., S. S.

*Team Captain*

Lt. Col. Henry E. Suavet, Hq., 27th Div., N. Y. N. G.

*Team Coach*

Pvt. Thomas E. Brown, Jr., 107th Inf.

19. The team had little opportunity for practice on Saturdays at Camp Smith, prior to departure for Camp Perry, but unfortunately the First Army Maneuver made it impossible for the 102nd Engineers members of the team to participate in this to any extent. The team, therefore, had no practice as a team until its arrival at Camp Perry and very little there for reasons outlined in paragraph 2. In my opinion a slight rearrangement of the National Match program to the extent of placing some of the team matches earlier in the schedule would be of great benefit to all the National Guard and Civilian teams whose opportunity for practice as teams at home station is of necessity very limited.

20. The Adjutant General authorized the attendance of Sgt. Paul B. Weston, 71st Inf., Pvt. Pedro H. Agramonte, 107th Inf., Pvt. Edward J Walsh, 101st Cav., at the National Matches as the nucleus of a pistol team to represent the New York National Guard—the other members to be chosen from the rifle team.

21. The following are the results of the pistol matches:

## RE-ENTRY MATCHES

	Aggregate—1189			

With respect to the Pistol Team, we were again seriously handicapped by the lack of practice targets with the result that in order to provide a minimum of team practice I was forced to enter the men in some .38 cal. Police Matches, where I knew they stood no chance of winning but which was absolutely necessary for firing practice under competitive conditions. The number of cal. 45 matches provided for under the present program does not, in my opinion, warrant our sending a pistol team out for the entire period of the matches, i. e. twenty days—should the program next year be the same as the 1935 program, I believe we should send the men out for about two weeks maximum and then not send a full team but only sufficient to supplement the rifle team members as was done this year.

22. Conclusion: I believe that the teams representing the New York National Guard made a most creditable showing in the competitions. With the exception of the Herrick Trophy Match, which was a free rifle match and was entered for the long range practice it furnished—the free rifle condition making our chances of placing remote—we placed in every single match in which we competed.

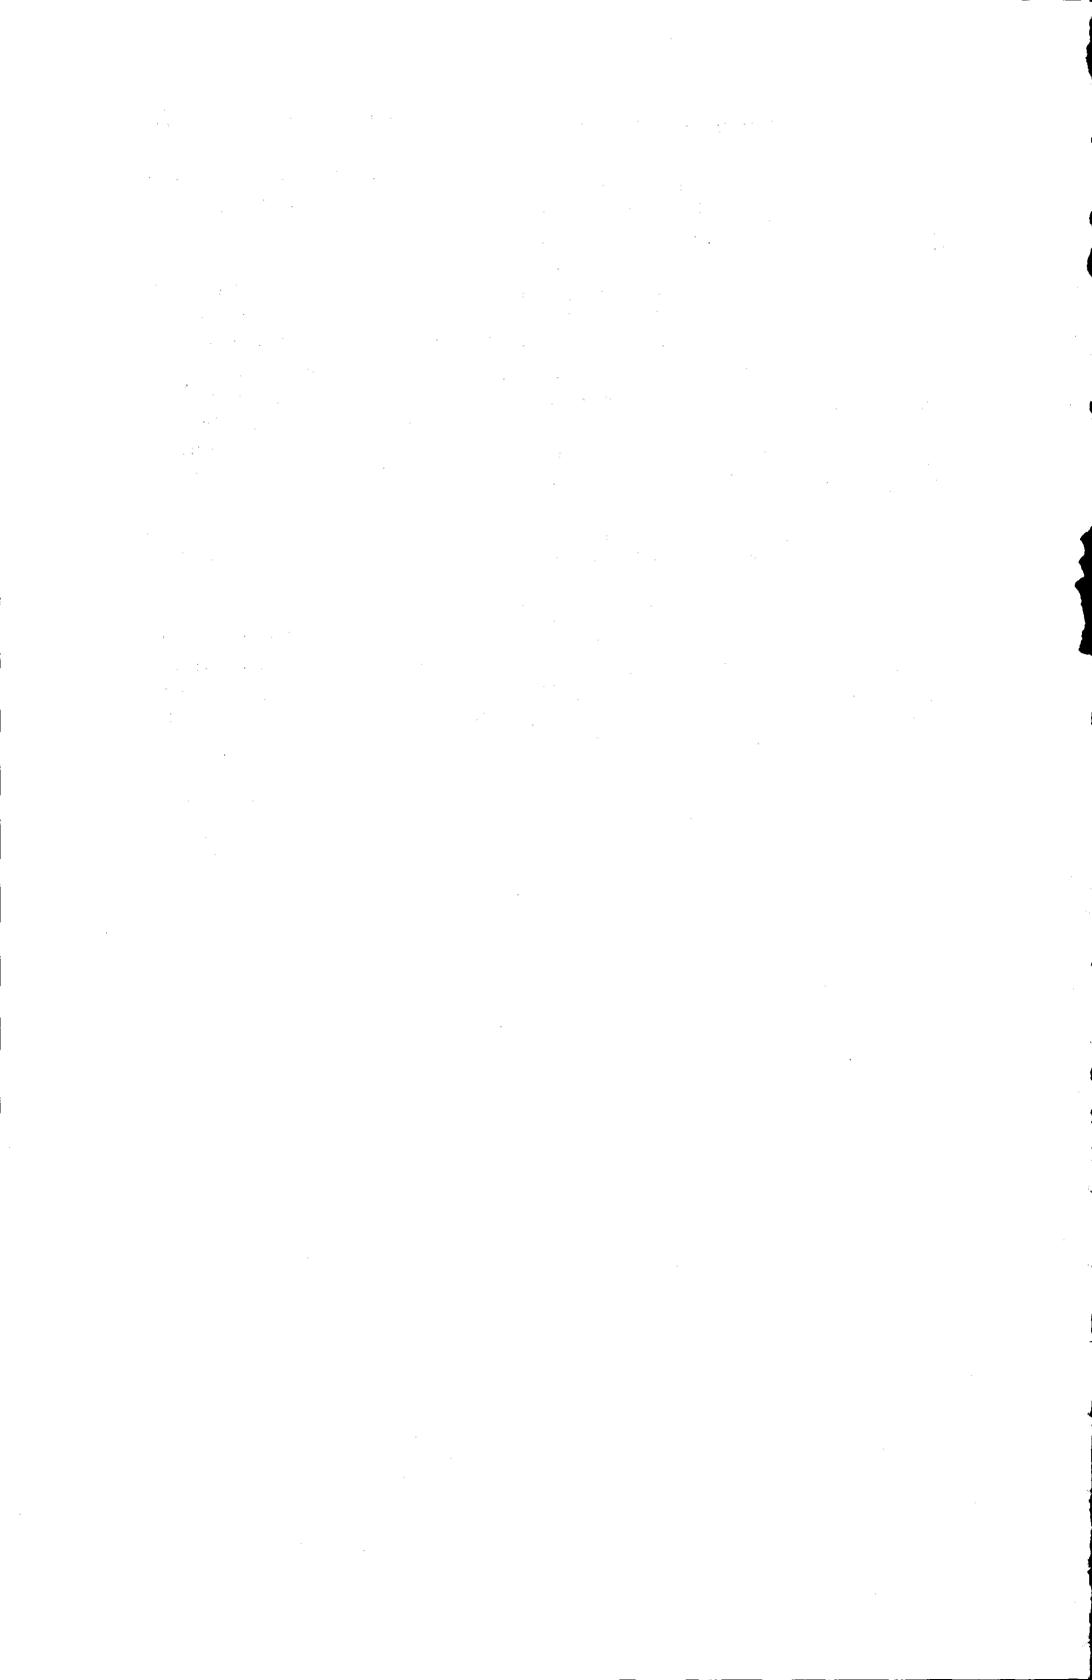

The men, despite the fact that only two of them had ever competed in National Matches before, were steady and confident. In

the short range firing, we stood with the best—it was the long range firing which defeated us and with this knowledge, we shall devote a greater proportion of whatever practice we have in 1936 to this phase.

In the matter of equipment, I purchased two small individual telescopes this year and intend to add to the team equipment as the opportunity presents itself, until we have a uniform set of equipment for all the team members. This will, of course, be limited to articles suitable for re-issue to successive team members such as telescopes, micrometers, kit boxes, score books, etc. I believe that standardization in this matter is valuable. I shall also request the assignment of an issue station wagon to the 1936 team—practically all the National Guard and the Service teams were so equipped and a conveyance of some kind is absolutely necessary for the transport of men and equipment where time is such an important factor.

I wish to express, on behalf of the team, our appreciation of the constant interest and assistance given us by both the Commanding General and the Adjutant General. In closing, I wish to commend our team coach, Pvt. Thomas E. Brown, Jr., Co. K, 107th Inf., whose work in the organization of the team and throughout the matches made him a most valuable asset.

HENRY E. SUAVET,  
*Lt. Col., O. D., N. Y. N. G.,*  
*State Ordnance Officer.*
