## REPORT OF THE ADJUTANT GENERAL

---

December 31, 1941.

His Excellency HERBERT H. LEHMAN, *Governor of the State of New York, Albany, N. Y.*

SIR:—Pursuant to Section 17 of the Military Law and the provisions of Section 42 of Chapter 78 of the Consolidated Laws of the State of New York, report for the year ending December 31, 1941, is submitted.

The declarations of War against the Axis nations have resulted in greatly increased activity of the Division of Military and Naval Affairs, not only in the matter of supplying personnel for the armed forces, but in cooperating with civilian defense activities as well. The strength of the New York Guard was increased following orders of Your Excellency of December 5, 1941, to organize two additional regiments, the 12th and 22nd Regiments, New York Guard, at New York City, New York, as directed in General Orders No. 21, my office, of that date. As a measure for safeguarding of Federal and State property, Your Excellency caused the publication of General Orders No. 3, my office, dated January 18, 1941, providing for the detail to full time duty with base pay of grade and subsistence of four hundred and fifty (450) enlisted men of the New York Guard, including necessary non-commissioned officers, to guard armories, arsenals and camps of the New York Guard. Such guards were to relieve those earlier established by the New York National Guard pending receipt of orders to proceed to training camps. It was necessary to discontinue such guards effective March 24, 1941, due to exhaustion of funds and the disinclination of the Legislature to provide additional sums for that purpose.

*Federal inductions.*—The schedule for the induction into the Army of the United States of the balance of the New York National Guard organizations not inducted up to the date of my last report, December 31, 1940, was carried out as described therein so that there were no New York National Guard troops remaining under Your Excellency's command after March 9, 1941. Rosters of commissioned personnel of all inducted New York National Guard organizations are included in the appendices of my report for 1940. The balance of the personnel of the New York Naval Militia, except for five (5) officers, was also disposed of either by entrance into United States service or separation from the Naval Militia as provided in law and regulations.

*Personnel released from United States service.*—Prior to the declaration of War, the War Department had adopted a policy of releasing from active service, on their own application, enlisted men over twenty-eight (28) years of age, married, or whose absence from home caused family hardship. Certain officers were released on similar grounds and because of being "over-age" for grade held. To provide a Federally recognized organization of the New York National Guard to which such personnel could be assigned on release, the War Department returned the State Detachment, New York National Guard, to the State of New York, on October 1, 1941. The War Department also authorized the enlistment and reenlistment in the State Detachment, New York National Guard, of men with former active service of not less than eleven (11) months provided they were not over twenty-eight (28) years of age. Further particulars are contained in General Orders No. 18, my office, dated October 1, 1941. The strength of the State Detachment, New York National Guard, on this date is thirty-nine (39) officers, one (1) warrant officer and one thousand, seven hundred sixty-seven (1,767) enlisted men. Of the latter, two hundred seventy-six (276) are men enlisted in the State Detachment. Now that the nation is at war, the War Department has advised that most of the personnel of the State Detachment, New York National Guard, excepting men released because their absence caused family hardships, will be recalled to United States service; such recalls to be completed on or before February 1, 1942. The details incident to the recording and notifying of the personnel of the State Detachment, New York National Guard, of the requirements of the War Department, necessitated an administrative "set-up", so involved as to require a large part of the time of four (4) employees of the Personnel Bureau.

*Changes in organization.*—Changes in New York Guard organizations were as follows:

Published in General Orders Number and Date	Organizations affected	Nature of change
1941 5 — Feb. 10th	5th Regiment.....  51st Regiment.....  Headquarters Detachment, New York Guard.....	Companies F and L redesignated. Station of Company F changed to 1122 Franklin Ave., New York City, N. Y. Station of Company I changed to West New Brighton, S. I., N. Y.  Station changed to 1339 Madison Ave., New York City, N. Y.
8 — Feb. 17th	Headquarters and Headquarters Detachment, 2nd Bri- gade.....	Station changed to Park Ave. and 34th St., New York City, N. Y.

Published in General Orders Number and Date	Organizations affected	Nature of change
12 — Apr. 1st	State Staff and State Detachment, New York Guard.....	Organized with station at Albany, N. Y.
16 — Sept. 24th	56th Regiment.....	Station of Headquarters and Headquarters Detachment, 3rd Battalion, changed to White Plains, N. Y.
17 — Sept. 25th	1st Signal Company...	Organized with station at Yonkers, N. Y.
21 — Dec. 5th	9th Regiment.....	Stations of Headquarters and Headquarters Detachment, 2nd Battalion, and Company K, changed to 125 West 14th St., New York City, N. Y.
	12th Regiment.....	Organized with station at 120 West 62nd St., New York City, N. Y.
	22nd Regiment.....	Organized with station at 216 Fort Washington Ave., New York City, N. Y.
	9th Regiment.....	Companies E, F, G, and L, detached and assigned to 12th Regiment without change of station.
		New Companies E, F, G, and L, to be organized with stations at 125 West 14th St., New York City, N. Y.
	8th Regiment.....	3rd Battalion, detached and assigned to 22nd Regiment without change of station.
		New 3rd Battalion to be organized at 29 West Kingsbridge Rd., New York City, N. Y.

*Duty in aid of civil authority.*—During the year no situations developed warranting the ordering to active duty any units of the New York Guard.

*Changes in personnel of office.*—During the year the following changes have taken place in the officer personnel of this office: On September 17, 1941, First Lieutenant James J. Millett, Q.M.C., State Staff, N.Y.N.G., an employee at the State Arsenal, was inducted into the Army of the United States for duty with the 54th Quartermaster Regiment.

*Hines Attendance Trophy.*—There was no contest for the Colonel Frank H. Hines Attendance Trophy (National Guard) won in 1939 by the 106th Field Artillery, due to the induction of the New York National Guard.

*United States Military Academy.*—Due to induction of the New York National Guard no competitive examination for entrance to the United States Military Academy was conducted during the year 1941.

*Strength.*—The strength of the New York Guard on this date is fourteen thousand eight hundred seventy-one (14,871), including

all ranks. A detailed report of strength is included under the report of the activities of the Personnel Bureau.

*Bureau reports.*—For convenience in reference the remainder of this report is presented in sections dealing with the activities of the various bureaus of the division:

#### **Finance Bureau**

Following is a statement of financial operations for the fiscal year ending June 30, 1941, including State appropriations for the general expenses of the military and naval establishment, expenses for armory maintenance and Federal funds allocated and expended during the same period:

## Bureau of Equipment and Supply

The completion of the mobilization of the New York National Guard and the arming and equipping of the New York Guard constituted the major activities at the New York State Arsenal during 1941.

The equipping of the National Guard and New York Guard units is set forth in some detail in the reports of section activities which form part of this report; however, in connection with the New York Guard, some facts are worthy of mention in order to emphasize the importance of this activity. The authorized strength of the New York Guard is now approximately 68% of the National Guard which it replaces and the equipment of such a force from the ground up has represented a considerable amount of work. Specifications for all types of clothing have been furnished, goods received, inspected and issued, new accounts have been inaugurated and the status of this force with respect to property accountability is exactly the same as was that of the National Guard.

Certifying officers have been bonded and a statement of account as of October 15th, 1941, was rendered each regiment. This statement was checked against a physical inventory conducted by the responsible officers and the resulting differences have been adjusted by payments to the State or Federal Government for any shortages. These shortages have been surprisingly few and indicate that the responsible officers have conducted their affairs in a business-like manner.

The Commanding General, New York Guard, is kept constantly informed of the status of supply to the end that his tactical plans may be always consistent with the availability of material.

The reports of the several sections are interesting and indicative of the variety of activities relative to the maintenance of the New York Guard.

### *Property Section*

Due to the fact that there still remained in the State on January 1, 1941, fifteen (15) National Guard Organizations, which had to be equipped prior to induction, and as formation of the New York Guard was being effected, the following report is best subdivided into two sections; National Guard Activity and New York Guard Activity.

#### (A) NATIONAL GUARD ACTIVITY

##### (1) QUARTERMASTER

This activity extended from the period January 1st to March 10th, 1941. The following New York State units still uninducted had to be equipped:—

101st Anti-Tank Battalion  
102nd Separate Battalion  
369th Coast Artillery

101st Signal Battalion  
 102nd Anti-Tank Battalion  
 101st Cavalry  
 186th Field Artillery  
 134th Medical Regiment  
 Co. "A", 191st Tank Battalion  
 71st Field Artillery Brigade  
 258th Field Artillery  
 207th Coast Artillery  
 209th Coast Artillery  
 212th Coast Artillery  
 101st Military Police Battalion

All property available was shipped to these organizations, either by Government bill of lading or by Federal vehicle assigned to this Arsenal and, in some instances, arrangements were made with the Quartermaster, Medical and Signal Depots to ship direct to organizations. A general estimate of equipment, clothing and supplies furnished may be realized from the few figures below.

6,326 pr. Leggings, canvas  
 16,696 pr. Socks  
 4,139 pc. Stationery (f/Field Desk)  
 915 pr. Shoes  
 12,767 ea. Caps  
 4,518 ea. Undershirts, wool  
 4,518 ea. Underdrawers, wool  
 1,980 ea. Blankets  
 160 ea. Field Range Boilers  
 1,265 ea. Knives and Forks

Approximately 4,000 separate Quartermaster items were shipped from this Arsenal to organizations.

Forty-four (44) procurement requisitions to Headquarters, Second Corps Area were initiated. A few items included:—

3,013 ea. Collar Insignia  
 2,727 ea. Neckties  
 2,053 ea. Shirts  
 1,640 pr. Trousers, elastique  
 1,293 ea. Caps, field  
 2 ea. Bass, sousaphones

Receipt of these items at this Arsenal involved the unloading, checking, inspection and temporary storage and the subsequent selecting and re-shipping of all property received, also the necessary paper accounting.

Four hundred and seventy-six (476) organizational requisitions were received. These requisitions were checked with Army Tables of Basic Allowances to ascertain validity of quantities. All items appearing therein were dropped from Stock Record Accounts, shipping tickets prepared, stock on hand and that received by above

noted procurement requisitions had to be repacked in desired quantities and sizes and shipped.

The following is a statistical resumé of excess and surplus Federal property shipped to various Federal Depots pursuant to instructions contained in letter, Headquarters, Second Corps Area, dated June 12, 1941:—

Twenty-two shipments were made to Federal Depots, receiving stations, and Arsenal throughout the United States. A few of these included Fort Custer, Mich., U.S.P.&D.O., Alabama, Jeffersonville Depot, Ind., Philadelphia QM Depot, Pa., Southern District Shop, S. I., Fort Monmouth, N. J., Camp Mabry, Texas.

Eight hundred and twenty-nine (829) separate miscellaneous items of Signal property in various quantities (radios, telephones, switchboards, etc.) were shipped to Signal Officer, New York General Depot.

Twenty-eight (28) separate miscellaneous items of Engineer property (compasses, protractors, tripods, sketching chests, etc.) were shipped to Engineer Supply Officer, New York General Depot.

Eight hundred and forty-two (842) separate miscellaneous items of various Medical property (examination chests, dental chests, drugs, and medical supplies, etc.) were shipped to various organizations of the New York National Guard, and Medical Section, New York General Depot.

Fourteen (14) separate miscellaneous items of cleaning and preserving materials (400 paint brushes, 524 gallons paint, 703 pounds rags, etc.) were shipped to Fort Tilden and Fort Wadsworth.

Two thousand six hundred and forty-four (2,644) separate miscellaneous repair parts, hand tools and equipment (motor transport) shipped to organizations of New York National Guard and Southern District Shop, Staten Island.

Twenty (20) Federal motor vehicles, some serviceable and others unserviceable, pending on Reports of Surveys, were shipped to Southern District Shop, Staten Island.

The amount of administrative work necessary to transact all incoming and outgoing shipments was multitudinous and required detailed postings to Warehouse Books, Bin Cards, and Record Accounts; preparation and distribution of Property Reports (Tally-In and Tally-Out); correspondence with Agencies concerned; telephonic communications with Army Base, Corps Area, and Organizations; preparation and submission of Procurement Requisitions to Federal Depots, and the constant review of pertinent Tables of Basic Allowances.

## (B) NEW YORK GUARD ACTIVITY

### (1) QUARTERMASTER

The formation of the New York Guard during the latter part of December 1940 necessitated the equipping of this force with an immediate initial issue of forty-five (45) items of clothing and

equipment and subsequent issues of additional and replacement articles. It devolves upon this office to furnish contractors with size requirements necessary to equip a force of 17,114 enlisted men, including replacements. Actual size requirements were of primary importance due to the fact that there was little allowance for stock surplus to properly fit the ever-changing personnel in the average regimental turnover.

Sizes were compiled for approximately 17,000 of each of the following articles: Leggings, Oversuits, Shirts, Raincoats, Shoes and Field Caps. In total, there were forty-five (45) items of clothing and equipment which each organization had to be furnished. (See Appendix No. 1).

Thirteen (13) procurement requisitions for Federal property available for purchase from the War Department for the New York Guard were initiated.

One thousand six hundred and thirty-five (1,635) organization requisitions were received, edited and processed, for property required by organizations of the New York Guard, for which the necessary postings were entered, shipping tickets prepared and appropriate accounts debited or credited.

All clothing and equipment received at this Arsenal aggregating over 214,289 pieces were checked, inspected and stored for subsequent issue. Upon receipt of requisitions, property was selected, repacked in desired quantities and shipped to organizations.

Pursuant to General Order No. 3, The Adjutant General's Office, dated January 18, 1941, authorizing the guarding of all Armories in the State, this Arsenal shipped to each Armory sufficient cots and bedding for guards on duty (See Appendix No. 1). All such property was subsequently returned pursuant to General Order No. 9, The Adjutant General's Office, March 20, 1941, which withdrew guards from Armories. This bedding was checked, inspected and crated for storage.

Small quantities of essential field equipment to be used for emergency and training purposes were purchased from the War Department (See Appendix No. 1).

Upon the request of the Commanding General, New York Guard, this Arsenal shipped to Camp Smith sufficient quantities of Cots, bedding and kitchen utensils to anticipate the needs of the Officers' Training School during the period August 17th to 23rd, 1941. Upon the termination of the school all property was left at Camp Smith for the use of regiments participating in week-end training activities at the Camp. During the weeks of August 20th and 27th this property was repacked and transported by truck (one Arsenal truck, 1½ ton and one truck borrowed from Camp Smith) to this Arsenal.

During the week of October 2nd this Arsenal supplied certain emergency field equipment (cups, covers, canteens) to organizations participating in maneuvers with the Regular Army.

On October 6th prior to the second issuance of contract awards for additional clothing to compensate for the authorized increase in

strength, there remained a small balance of clothing in the warehouse that had not been distributed under the old Tables of Organization. An equitable distribution amounting to six percent (6%) of all stock on hand was issued to all organizations to provide a small surplus for the stock of the Regimental Supply Officer.

## (2) MEDICAL

There were 34 items of medical property purchased by the State. Seven (7) of these items, all minimum first aid supplies, were immediately shipped to organizations. The balance was stored at this Arsenal available for immediate call. (See Appendix No. 2).

One (1) procurement requisition was initiated and forwarded to the War Department for medical property available for purchase by the New York Guard (See Appendix No. 2).

Administrative work for the New York Guard involved the same detail as that of the National Guard, with the exception, of course, that new records, Warehouse Books, files, etc., had to be inaugurated and maintained.

This Section was particularly handicapped in that transportation was not always immediately available for local shipments. The one (1) small State truck (1½ ton) only carried small loads, necessitating many "shuttle trips", and when on a specific detail covering a period of a few days (see paragraph re equipment for Officers' Training School, Peekskill) all local shipments ceased until the truck was again free.

This presents serious difficulties in a Military organization where the speed of supply is of supreme importance and time is of the essence.

## APPENDIX No. 1

### *Quartermaster Property Purchased by the State of New York Clearing Through New York State Arsenal.*

Tourniquets.....	20 each

### *Ordnance Section*

During the month of January 1941, 11,522 Rifles, cal. .30, M1917 (Enfield) with necessary accessories were issued by the War Department for the use of the New York Guard.

10,620 of the above weapons and accessories were reissued to the individual organizations during the first three months of the year, leaving a surplus of 902 in storage at this Arsenal. These have since been issued to organizations, or, in some instances, single units which have attained full strength as authorized by General Order No. 15, Adjutant General's Office, September 22, 1941.

2,000 additional rifles, cal. .30, M1917 (Enfield) to fully accommodate the aforementioned increase in strength were received November 25th. These are now being prepared for issue and it is expected that all organizations will be fully equipped by the end of February, 1942.

To date the following organizations, or units, have been fully equipped to their new strength, as provided for in General Order No. 15, Adjutant General's Office, September 22, 1941:

- 4th Regiment
- 7th Regiment
- 8th Regiment
- 17th Regiment
- 23rd Regiment
- 51st Regiment
- 2nd Regiment (Companies "CW", "E", "G", "K")
- 6th Regiment (Company "G")

One hundred sixteen (116) Chests, repair, arm, M1917 were also received for the maintenance of small arms. These were distributed so as to provide at least one to each Armory in the State. A total of 93 such chests were issued. A surplus of twenty-three (23) now remains in storage at this Arsenal.

The following quantities of Cleaning and Preserving Materials were also received and issued to the various organizations:

- 265 gr. Cloth, crocus or equal
- 5,650 lb. Compound, rust preventive
- 465 qt. Oil, linseed, raw
- 930 qt. Oil, lubricating, AC, MG
- 265 qt. Oil, neatsfoot
- 2,325 M Patches, cut (canton flannel)

1,060 lb. Soap, castile or equiv.  
 2,325 lb. Soda, ash  
 470 ea. Sponges  
 2,130 lb. Waste, cotton, white

All of the above equipment and supplies were issued by the Federal Government without reimbursement, except for transportation and packing and handling charges.

The following items of chemical warfare equipment and ordnance equipment and munitions were purchased by the State of New York from commercial sources:

1,500 ea. Helmet, steel, M1918  
 252 ea. Mask, gas, No. 4A (Training Purposes)  
 25 ea. Gas gun, cal. 1.5"  
 200 ea. Grenade, gas, practice WITH CN PELLET  
 50 ea. Grenade, gas gun, pract.  
 112 ea. Grenade, gun, C.N., long range  
 100 ea. Grenade, gun, C.N., short  
 100 ea. Grenade, hand, C.N., triple chaser, w/firing mechanism  
 100 ea. Grenade, hand, C.N., Spedeheat  
 360 ea. Shotgun, Ithaca Repeater M37, with 22" Barrel  
 12 ea. Submachine gun, Thompson, US Navy Model, 28 AC  
 18,000 rds. Ammunition, shotgun, 12 ga. No. 00 Buck  
 10,000 rds. Cartridges, ball, cal. .45

The gas masks, gas guns (with appropriate ammunition), shotguns and submachine guns (with ammunition) have been issued. The other items are being held in emergency reserve.

106,800 rounds Cartridges, ball, cal. .30, M2, were purchased from the Federal Government to be held in the Armories throughout the State as a reserve. It was issued to each organization at the rate of 10 rounds per rifle.

272,440 rounds Cartridges, gallery practice, M1919, were purchased from the War Department at a cost of \$1,385.40 (this figure included the cost of packing and handling). 106,200 rounds were issued to the individual organizations. This was also at the rate of 10 rounds per rifle. 166,240 rounds are in storage at this Arsenal awaiting disposition by The Adjutant General of the State.

1,000 rounds Cartridges, dummy, cal. .30, were issued for training purposes. This was issued by the War Department without reimbursement and is also in storage at this Arsenal awaiting disposition by The Adjutant General of the State.

During the past year, this office has been called upon by the various organizations of the New York Guard for assistance in the procurement of items of ordnance equipment and supplies from commercial sources and for information pertaining thereto such as, the purchase of calibre 22 rifles and ammunition, components for reloading machines, small bore targets, etc.

This office has successfully concluded arrangements whereby the inspection and repair of ordnance issued to the New York Guard

will be effected under the same system as obtained for the National Guard, i. e., by representatives of the Corps Area Ordnance Officer. The 8th Regiment has already been so inspected.

Repeated attempts by this office to obtain additional ammunition from the War Department for the use of the New York Guard have been unsuccessful—it is to be hoped that this condition will be remedied in the near future.

All items of ordnance equipment designated for use of the New York Guard have been received with the exception of pistols (or revolvers). According to present tables of organization, the total number of pistols (or revolvers) authorized is 2,001. This figure does not include the Signal Company, a new organization, the present tables of organization for which do not indicate the type of weapon with which it is intended this company shall be armed.

The only other organization which has not received any ordnance equipment is the Headquarters Detachment, New York Guard which is designated to be armed only with the pistol (or revolver).

#### *Record Section*

#### FEDERAL PROPERTY

A. (1) Maintained complete stock record account for which the U. S. Property and Disbursing Officer was accountable.

(2) Prepared and handled necessary papers transferring all Federal Property from the U. S. P. and D. O. account to the various National Guard Organizations inducted into Federal Service.

(3) Prepared U. S. P. and D. O. accounts to be audited by Federal Auditors. Assisted the audit which was completed June 30, 1941.

(4) Picked up on record Federal Property left in Armories by the National Guard and prepared papers disposing of the same by inventory and inspection report, surveys, and transferring to Federal Depots and Arsenals.

(5) Prepared and handled surveys and inventory and inspection reports to adjust lost, damaged and destroyed Federal Property.

#### STATE PROPERTY

B. (1) Maintained stock record accounts for all State Property for which the State Quartermaster is accountable.

(2) Maintained stock record accounts for each New York Guard organization for property issued to the respective organization on memorandum receipt.

(3) Prepared and forwarded to each New York Guard responsible officer a consolidated memorandum receipt as of October 15, 1941, representing all property for which the respective organization was responsible on that date.

(4) Assisted Federal Auditors in making an audit of all Federal Property issued to the New York Guard.

(5) Edited surveys covering lost, damaged, and destroyed, both Federal and State property.

In connection with the audit of Federal property accounts it is of more than passing interest to note that these accounts were closed

in balance, which, considering the very important quantities involved, is a noteworthy achievement.

### Finance Section

GENERAL: The activities of the Finance Section embrace those operations which involve the expenditure of Federal funds and the prescribed accounting for same. All Federal supplies and materials, not available from stock, or Federal depots, are purchased, and payment of all personal services of caretakers, accounting and custodial employees, settlement of old claims, collections for disallowed items, expenses for medical services and hospitalization, and payment for Federal construction at field training camps, are made by this section.

FUNDS: A summary of allotments and disbursements of Federal funds, follows:

#### RECEIPTS AND DISBURSEMENTS — 1941

October.....	249 82
November.....	13 78
December.....	100 00
Total.....	\$13,364 78

**HOSPITALIZATION—MEDICAL SERVICES:** Injuries and disease occurred during the 1940 field training season to the total number of 894 individual cases, all of which required separate administrative action during the calendar year 1941, on Reports of Medical Boards, to establish line of duty incidences, in order to determine those specific cases where settlement of expenses in connection with hospitalization, or charges for private medical services, were authorized from Federal funds.

**PROCUREMENTS:** Ten (10) Federal contracts were negotiated and seventy (70) purchase orders were issued during the calendar year 1941 to procure supplies, materials, services and construction.

**INSPECTION—MONEY ACCOUNTS:** Official Federal accounting records were subjected to two separate inspections during the calendar year 1941 as required by the Inspector General, 2nd Corps Area, and in both cases the audits disclosed the accounting and disbursing routine to be in strict accordance with all existing laws and regulations on the subject.

**STATE CLAIM AGAINST FEDERAL GOVERNMENT:** On August 16, 1941, the Finance Section of this office, after months of research and investigation prepared and submitted through The Adjutant General, to the Chief, National Guard Bureau, a voluminous claim by the State of New York against the United States, in the amount of \$213,266.19, for State military property taken into Federal Service by New York National Guard troops at the time of their induction for World War service in 1917.

**FEDERAL PAYMENTS DISALLOWED BY COMPTROLLER GENERAL OF U. S.:** Continued correspondence, research and personal interviews in connection with 2367 Federal vouchers representing payments made by previous U. S. Property and Disbursing Officers during the years 1927 to 1935, which, after field investigations by the General Accounting Office, have been disallowed by the Comptroller General of the United States. Such disallowances total \$610,460.39 against which \$36,612.03 has been collected in cash from payees and certifying officers, \$6,785.36 has been passed for credit by the submission of substantiating evidence and the sum of \$25,180.77 has been recovered through reclamation proceedings instituted by the Treasurer of the United States against various banks making payment upon forged indorsements. A net total of \$541,882.23 remains for collection or substantiation.

**FEDERAL CHECKS—TAX EXEMPTION CERTIFICATES:** During the calendar year 1941, over 1200 Federal checks were issued in payment of 506 Federal vouchers, and Federal tax exemption certificates were issued on all purchases of gasoline and oil for military purposes.

**OLD CLAIMS AGAINST UNITED STATES:** During the calendar year 1941 many old claims against the United States for services rendered or supplies furnished the National Guard, dating back from one

to three years were settled, requiring much research and preparation of data and exhibits for the satisfactory support of such old claims.

**FEDERAL LEASES—TARGET RANGES:** Renewal notices on Federal leases for the following target ranges were served and filed during the calendar year 1941:

**TARGET RANGE LEASES RENEWED AT**

Amsterdam, N. Y.	Mohawk, N. Y. (Prindle Area)
Auburn, N. Y.	Mohawk, N. Y. (Wolf Area)
Binghamton, N. Y.	Olean, N. Y.
Elmira, N. Y.	Oneida, N. Y.
Geneva, N. Y.	Saratoga, N. Y. (Smith Area)
Glens Falls, N. Y.	Saratoga, N. Y. (Schrade Area)
Hoosick Falls, N. Y.	Saratoga, N. Y. (Mulqueen Area)
Jamestown, N. Y.	Syracuse, N. Y.
Malone, N. Y.	Utica, N. Y.
Medina, N. Y.	Walton, N. Y.

A new Federal lease was negotiated and executed for the Federal target range at Oneida, N. Y.

*Transportation Section*

Transportation of Federal Property required the issue of one hundred and forty-one (141) Government bills of lading, at an estimated cost of \$1,306.34.

Freight shipments to the New York Guard required five hundred and eighty-four (584) State bills of lading, at a cost of \$3,742.60. A total of one hundred and forty-nine (149) Express shipments were made to the New York Guard at a cost of \$90.06.

In connection with Government bills of lading and transportation requests, the following reports were prepared monthly:

- a. Report of Transportation Requests and Bills of Lading
- b. Report of Shipments
- c. Report of Transportation Requests Used

A monthly report of all State shipments was forwarded to the Pennsylvania Railroad Company and the State was credited with prescribed drayage allowances. To date there has been an approximate rebate of \$90.00. This rebate has been made possible by the use of the truck assigned to this Arsenal for conveying shipments to and from railroad yards.

*Warehouse Section*

During the first six months of this year, this section was required to operate in a dual capacity for the proper receipt, inspection, and warehousing and shipment of both Federal and State property, and as such was required to maintain separate and distinct records for the property of each of these agencies. From January to June 30th of this year, the National Guard organizations which were inducted into the Federal Service during this period were equipped for field service with articles of Federal issue and upon

completion of the induction of all units of the National Guard the Federal Government required the return to Federal depots all remaining stock prior to June 30th. This requirement implied the selection, packing and handling of property incidental to shipment to the designated depots. Simultaneously the property procured by the State for the use of the New York Guard was being received, inspected, warehoused and issued. The accuracy and care exercised in cleaving to a clearly defined separation of these two activities is reflected in the fact that the accounts covering Federal property were cleared to zero balances as indicated elsewhere in this report, and that a minimum of over, short, and damaged reports were received from organizations of the New York Guard to whom State Property was shipped.

In order to illustrate the volume of traffic handled by this section during the year, the total of incoming and outgoing shipments of the various classes of property is listed.

#### INCOMING PROPERTY FOR THE NEW YORK NATIONAL GUARD

		2,527

TOTAL OUTGOING SHIPMENTS..... 3,064

After all shipments of Federal property had been cleared from the Warehouse on June 30th, this section resumed more normal operations and concentrated on the expeditious equipping of the New York Guard. An opportunity was afforded during the latter part of the year to re-warehouse all stock for better handling and

operation. The shipping activity of the Quartermaster section was moved to and concentrated in the center section of the building where bins and selection and packing units were established, and where broken lots of clothing and equipment were stored. The main floor space sections flanking the centered shipping section were utilized for the storage of property in bulk. A physical inventory of all stock was taken during the month of August, the results of which reflected further proof of the accuracy of the operations of this section, during the previous period of doubled activity.

In anticipation of the call of one or more organizations of the New York Guard for active duty at any time during the day or night, a plan for the prompt issuance and delivery of essential emergency items of equipment not regularly issued to all organizations was placed in effect. This plan as it affected this section, required the preparation for issue, including the repacking in special containers of such items as blankets and other bedding, mess equipment, canteens, haversacks, cups and covers, etc. This property has been specially marked and segregated from that intended for normal issue. The necessary papers to effect the transportation of this property by truck, rail, or such means as may be directed by higher authority have been prepared and are available in special containers for action by the first officer directed to handle the shipment.

#### *Construction Section*

The planning, supervision and inspection details for new construction and maintenance and repair work at National Guard Camps for which the National Guard Bureau allotted \$365,857.21 occupied the full time of this section during the year. Chief among the projects which were approved were the completion of the new Infantry Brigade Camp at Pine Camp and the construction of six (6) Motor Storage Buildings at Camp Smith, Peekskill. The incidental work and details of these two projects are as follows:

#### *Completion of New Infantry Brigade Camp*

Twenty-four (24) combination kitchens and mess halls were constructed at a total cost of \$181,535.25. The exterior design of these buildings conforms generally to the already existing installations in the new camp for which funds were previously allotted and which are of concrete block and concrete foundation construction.

The interior finish of these twenty-four buildings differs generally from the original buildings in that the kitchen portion of each building is tiled from floor to ceiling with a white glazed ceramic tile. The introduction of this type of material into these buildings was in the interest of sanitation and cleanliness which is an absolute essential in the preparation of food stuffs. The mess hall portion of each building was faced with a glazed architectural terra cotta wainscot approximately 3' in height. The walls above this work

are plastered with a grey cement plaster. This combination has afforded a very pleasant finish to the interior of the buildings. In addition to the general construction, these buildings were equipped with standard cooks' tables, shelving, work tables and mess hall dining tables.

#### *Motor Storage Buildings, Camp Smith*

The construction of six (6) motor storage buildings 62' x 202' for the storage of organizational vehicles was projected during the year at a total cost of \$137,384.10. These buildings are of concrete block and concrete foundation construction. Roof construction consists of steel trusses and purlins and the roof covering is of asbestos-protected metal.

Due to delays in delivery of certain strategic materials, the contract which was to have been completed in October was extended indefinitely. However, this project is at present approximately 60% complete and present indications are that completion will be effected within another two months.

#### *Maintenance and Repair Work*

In addition to the major new construction items, there were other repair and minor installation projects. The titles of these projects generally indicate the nature of the work accomplished:

##### PINE CAMP, GREAT BEND, N. Y.

Addition to Central Storage Plant Building.....	\$880 00
Painting to various buildings.....	11,046 60
Various maintenance and repair work.....	16,000 00
Electrical materials and repairs.....	1,975 26
Repair projects in process of preparation.....	10,000 00
<b>Total.....</b>	<b>\$39,901 86</b>

##### CAMP SMITH, PEEKSKILL, N. Y.

Drainage system.....	\$800 00
Roof, combat range target house.....	300 00
Maintenance repair work (gravel).....	596 00
Repairs, 33 mess halls.....	1,320 00
Repairs, cold storage platform.....	300 00
Concrete bases, fuel tanks.....	400 00
Installation, ventilators, mess halls.....	320 00
Repair projects in process of preparation.....	3,000 00
<b>Total.....</b>	<b>\$7,036 00</b>

#### *Building Maintenance Section*

With the existing emergency in mind, protective measures for the New York State Arsenal have had precedence in the work of the building maintenance section.

Four guardhouses (one at each gate) have been built and are in use by the Guard. These structures are wired for light.

Eight floodlight stanchions have been erected, wired and lamps installed. These are protected by an iron screen covering.

An audio intercommunication has been installed between the guardhouses, the guard post at the main building entrance, the guard quarters and the office of the Officer of the Guard.

The fence surrounding the Arsenal grounds has been topped with three strands of barbed wire.

An alarm bell has been installed to enable the entrance guard to summon the reserves in an emergency.

A foot path of flagging was laid entirely around the building for the use of the guards in making station rings.

Fire extinguishers and fire pails have been installed to supplement existing fire control appliances.

In addition to the protective measures outlined above, this section also carried out a number of maintenance and improvement projects among which were:

Painting of all exterior iron and steel work, including fence surrounding the grounds.

Concrete platform erected to facilitate ash removal.

Interior walls in all offices and stairways washed.

Concrete and glass panel truck washing enclosure constructed in garage.

Terra cotta brick wall, cement faced, 50' long, 12' wide constructed on fourth (warehouse) floor to house office of Chief of Warehouse Section.

Property bins have been erected to safeguard property and facilitate handling.

Tel-kee system has been installed for safekeeping of all building keys.

A baling machine, which is on loan from the Federal Government, is used to bale all waste paper accumulated in the building and this paper is sold each month; the proceeds being forwarded to The Adjutant General for transmittal to the State Comptroller.

Practically all of the foregoing improvements have been effected by Arsenal employees.

#### *The Guard*

The Guard on duty at this Arsenal comprises twelve (12) enlisted men of the New York Guard who are supervised by an Officer-of-the-Day and an Officer-of-the-Guard. The officers are members of the permanent staff of this Arsenal. This Detachment is quartered and subsisted in the Arsenal.

It is the duty of the Guard to patrol the building and grounds every one and one-half hours. There are twenty watch clock stations which are inspected during these patrols (seventeen interior stations and three exterior stations). There are three tours of duty: 8:00 a.m. to 4:00 p.m.; 4:00 p.m. to 12:00 Midnight; 12:00 Midnight to 8:00 a.m. When a detail has finished a tour of duty, it remains on reserve in the Arsenal for another eight hours, so that there are at all times at least eight men on duty and from 12:00 Midnight to 8:00 a.m. all men are required to be present in the building.

The Guard also inspects all packages and vehicles entering or leaving the building and no person or vehicle is permitted to enter the building without proper authority or identification. A record of all traffic is maintained and included in the daily report to The Commanding Officer.

Drills are performed for a two hour period each week, during which, the following subjects are covered: Pistol Marksmanship, Emergency Station Drill, Military Courtesy, Fire Control, Riot Duty, etc.

A pistol range has been installed in the Arsenal and is used each week by each member of the guard under the supervision of an officer in regularly organized instruction.

## Bureau of Grounds and Structures

### NEW ARMORY CONSTRUCTION

In view of the vital need of National Defense for material, etc., no new construction is recommended for the year 1942.

However, recommendation is made for the following when conditions warrant:

Rochester, Culver Road armory, additions and reconstruction . . \$300,000 00

Appropriation made by the Legislature for 1941, for armories, etc.:

### MAINTENANCE AND REPAIRS

#### *3rd Brigade District*

Maintenance.....	\$571,380 56
Repairs.....	50,200 00

Buffalo (209th C.A.) (rented).....			46,321

Total armories, 101.

Total number of armories leased for subdivision of the National Guard and Naval Militia unable to secure accommodations in the foregoing is 5.

The active military establishment of the State is housed in the 86 buildings indicated above.

Storage facilities are provided at the United States Naval Reservation, Sackets Harbor, for material of the 13th Fleet Division, Naval Militia.

*Arsenals, Etc.*

Arsenals, camp grounds and rifle ranges, owned by the State, are as follows:

Brooklyn.—State Arsenal, erected 1926. Used by the Adjutant General of the State as an arsenal and storeroom. Approximate valuation \$1,000,000. Floor surface 166,000 square feet.

Peekskill.—State Camp Ground and Rifle Range. For use of infantry and such other troops as may be designated. Approximate valuation of land and buildings \$235,000. Approximate area 1,886 acres. One hundred and eighty-seven targets.

Guilderland Rifle Range.—Approximate valuation, \$25,000. Acreage, 238 acres. 20 targets.

*Rifle Ranges*

Field Rifle Ranges for the use of troops of the National Guard and Naval Militia are leased by the Federal government as follows:

STATION OF TROOPS	Annual rental	Location	Number of targets	Ranges (yds.)
Amsterdam.....	\$200 00	Town of Mohawk.....	3	200 to 800
Auburn.....	150 00	Town of Throop.....	3	200 to 600
Binghamton.....	200 00	Binghamton.....	4	200 to 1,000
Elmira.....	125 00	Elmira.....	7	200 to 1,000
Geneva.....	200 00	Geneva.....	3	200 to 800
Glens Falls.....	75 00	Glens Falls.....	4	200 to 1,000

Oneonta.....	175 00	Oneonta.....	5	200 to 800
Oneida.....	125 00	Oneida.....	2	200
Saratoga.....	175 00	Saratoga.....	4	200 to 800
Syracuse.....	250 00	Town of Manlius.....	4	200 to 1,000
Utica.....	200 00	Town of Frankfort.....	5	200 to 1,000
Walton.....	100 00	Walton.....	3	200 to 1,000

Total leased rifle ranges 18.

Total floor space of all buildings, exclusive of structures at camps and rifle ranges, is 6,617,086.00, square feet.

The approximate valuation of military grounds and structures owned by the State and City of New York is \$41,660,893.00.

Contracts for bar window guards and steel doors have been completed on 31 armories and are in course of completion on eight other armories.

Data is being obtained and drawings are in course of preparation for the remainder of the scheduled work.

Stand pipes and fire hose have been installed in nine armories which were without this protection.

It is recommended the program of security of armories be continued at a cost of approximately \$90,462.00.

It is further recommended the dirt floors in the armories heretofore occupied by cavalry units be replaced with macadam floors at an approximate cost of \$51,500.00.

In addition to their use by the military establishments of the State many of the armories have been used by the armed forces of the United States and many of the agencies connected with the State Civilian Defense.

## Veterans and Soldiers Affairs

### PENSIONS AND CLAIMS

#### *Blind Veterans' Fund*

There are on this date a total of two hundred and twenty-eight (228) veterans of all wars and widows of veterans who receive five hundred and no/100 (\$500.00) Dollars, per annum, under the provisions of Article 1-B of the Military Law. Twenty-nine (29) new applications were filed since the last report. Twenty-four (24) were approved and certified to the Comptroller, five (5) were disallowed, and two (2) are pending investigation. Five (5) recipients of this annuity died during the past year.

#### *Pensions*

Sixty-two (62) persons are at present receiving pensions under the provisions of Section 220, Military Law, which provides compensation for permanent disability incurred in line of duty in the National Guard or Naval Militia under lawful orders. Since the last report eight (8) claims for pensions were disallowed; one (1) application for increase of pension was disallowed and one (1) claim for pension is now under investigation. One (1) claim for artificial arm was granted to recipient of pension.

#### *Claims*

Four (4) claims for pay and medical care on account of disability incurred in line of duty were granted during the past year to members of the Military and Naval forces of the State under the provisions of Section 223, Military Law. One (1) claim was disallowed, and seventeen (17) are now under investigation. One (1) claim for hospitalization and medical care for armory guard has been paid during the past year.

#### *Retirements*

Under Section 19-A, Military Law, four (4) applications for retirement at half pay were approved during the past year, all of which were for armory employees, and three (3) applications for retirement were disallowed. There are now fifty-one (51) persons receiving retirement pay under the provisions of this law. One (1) retired employee died during the calendar year 1941.

Under Section 219-A, Military Law, there are six (6) retired officers of the New York National Guard, former employees of this Division, and one (1) widow of a deceased officer of the New York National Guard who are now receiving compensation under the provisions of this section of the law. One (1) application for retirement of an officer of the New York National Guard was disapproved.

*Motor Vehicle Accidents and Claims Resulting Therefrom*

Eighteen (18) motor vehicle accidents were reported to this office during the past year. Of this number, thirteen (13) were in connection with training and induction of the New York National Guard. Eleven (11) cases were completed and referred to Second Corps Area, Governors Island, New York for appropriate action. Two (2) cases are now in the process of completion. Five (5) cases were claims against the State of New York, two of these were disallowed and three were referred to the Court of Claims for action.

## VETERANS' RELIEF

Under Chapter 589, Laws of 1922, a commission to be known as the New York Veterans' Relief Commission, consisting of The Adjutant General, to be chairman thereof, the Comptroller and The Attorney General, was created for the purpose of distributing relief to sick and disabled veterans of the World War. For the purpose of administering this act \$1,000,000.00 was appropriated. Under chapter 326, Laws of 1923, this commission was abolished and a separate bureau was created in the office of The Adjutant General to be known as the Bureau for the Relief of Sick and Disabled New York Veterans. Under this chapter an additional million dollars (\$1,000,000.00) was approved. Of this total \$68,891.29 reverted to the State treasury through lack of re-appropriation. Under chapter 605, Laws of 1928, Chapter 41 of the Laws of 1909 entitled "An act in relation to the militia, constituting chapter 36 of the Consolidated Laws" was amended by adding Article 1A, thus establishing the administration of relief as part of the Military Law.

In order to carry out the provisions of the above law, the Legislature under chapter 709, laws of 1931, appropriated \$75,000.00. In 1932 \$100,000.00 was obtained through the Temporary Emergency Relief Administration from funds appropriated under chapter 567. In 1933, \$50,000.00 was appropriated under chapter 120 and in 1934, an appropriation of \$200,000.00 was received from the Temporary Emergency Relief Administration from funds appropriated under chapter 273 and \$50,000.00 from General Funds under chapter 20. Under chapter 930, laws of 1939 and amended by chapter 877, laws of 1940 and chapter 100 part 5, laws of 1941 \$100,000.00 was appropriated making a gross total available of \$2,506,169.71.

Since the institution of the Bureau many thousand requests for relief from sick and disabled, needy, unemployed, honorably discharged veterans of the World War have been received. These applications were thoroughly investigated and a majority of these were rejected due to the fact that they did not come within the meaning of our law. However, to date 12,391 cases were approved of which 10,763 are active or have been paid the maximum allowed under our law and 1,628 are in our rejected files for various reasons.

Actual payments for relief of sick and disabled veterans to date amount to \$2,133,552.46. Expenses of relief commissioner and administration to date are \$336,556.80. The expendable balance is \$35,943.71 in chapter 930, laws of 1939 and amended by chapter 877 laws of 1940 and chapter 100, part 5, laws of 1941.

The bureau is represented by a resident commissioner in each assembly district throughout the State. The commissioner makes the necessary investigation to determine the eligibility of an applicant to be given relief. He prepares all papers, makes the relief payments, renders the periodical reports and returns and discharges the multiplicity of duties that must necessarily result from the position.

These gentlemen serve without pay; they give their time and efforts to the work without recompense and altogether are rendering a service to the State of a high patriotic value.

### **Recruiting Bureau**

This bureau continued to be very active during the winter and spring of the year due to the induction of the National Guard. Only men of the highest type obtainable are being enlisted for the New York Guard.

### **Bureau of Files, Mail and Distribution**

During the year there were four hundred four (404) issues of publications on training, Army Regulations and other pamphlets received from the Federal Government for distribution to the National Guard of the United States in addition to the necessary State forms for the newly organized New York Guard. One thousand seven hundred fifty-three (1,753) requisitions for forms were filled and distributed to the New York Guard. There were also twenty-two (22) General Orders, ten (10) Bulletins of this office and twenty-five (25) General Orders printed for the New York Guard headquarters. There were five hundred sixty (560) jobs run on the mimeograph consisting of specifications for the Grounds and Structures Bureau, also Special Orders and Circulars.

### **Bureau of War Records**

The activities of this Bureau are those described in the report of this Bureau for the year 1935.

The Bureau is still engaged in compiling World War records by counties, in addition to its normal activities.

### **Bureau of World War Records**

Under constitutional authority a bonus for the New York State Veterans of the World War was provided pursuant to Chapter 19, Laws of 1924. The sum of \$45,000,000 was realized from the sale of bonds authorized by law, this sum having been augmented by

premiums amounting to \$695,565, the latter sum also being appropriated for bonus purposes under Chapter 208, Laws of 1925.

A Commission, consisting of The Adjutant General, the Comptroller, the Treasurer and the Attorney General, administered the disbursement until April 22, 1926 when its functions were absorbed by The Adjutant General.

Each eligible veteran, upon application, received the sum of \$10.00 for each month of service with the colors, between April 6, 1917 and November 11, 1918, with \$150.00 as the maximum payment. Under Chapter 209, Laws of 1925, an additional appropriation of \$2,500,000 was made. Chapter 26, Laws of 1925, added the next of kin to those who were killed or died in the service or prior to February 28, 1924, as eligible to receive the bonus. Under Chapter 267, Laws of 1926, a further appropriation of \$300,000 was approved. Chapter 676, Laws of 1931, extended the time for filing claims to July 1, 1932 and made an appropriation of \$250,000. At an extraordinary session of the Legislature in 1931 to carry out the provisions of an act creating a temporary emergency relief administration, the sum of \$584,000 was appropriated by Chapter 799 for the payment of bonuses, \$30,000 of which was made available for administration expenses. Under Chapter 120, Laws of 1933, an additional appropriation of \$90,000 was made for bonus payments and \$25,000 for administrative expenses. The unexpended balances of these appropriations were reappropriated each year by the Legislature and were made available in the Executive Budget of 1936, Chapter 15, Laws of 1936. This chapter amended by a substitute bill, Chapter 360, Laws of 1936, eliminated these reappropriations and refunded the unexpended balances amounting to \$72,824.92 to the General Fund. By Chapter 875, Laws of 1936, \$10,000 of this refunded amount was reappropriated and made available for one year beginning July 1, 1936. This action of the Legislature automatically closed the Bureau on June 30, 1937, and suspended the payment of bonuses on that date. Chapter 40, Laws of 1937 reappropriated \$200 of the unexpended balance of the appropriation made by Chapter 875, Laws of 1936, for incurred liabilities and created the Bureau of World War Records in the Adjutant General's Office to take over the records of the Bonus Bureau. Chapter 700, Part 2, Laws of 1938 appropriated \$1,111.33 for the payment of suspended claims which had been approved during the previous year and Chapter 460, Part 2, Laws of 1939 appropriated \$1,045.67 to pay claims approved during the year of 1938, Chapter 877, Part 2, and Chapter 125, Part 2, Laws of 1940 appropriated a total sum of \$1,433.00 to pay claims approved during the year of 1939 and Chapter 100, Part 2, Laws of 1941 appropriated a total sum of \$739.34 to pay claims approved during the year of 1940. During the operation of the Bureau there has been appropriated for bonus purposes \$49,422,894.34 out of which there has been paid in bonuses and administrative costs the sum of \$49,350,064.76 and in a refund to the General Fund, \$72,829.58.

Under the original law no claims could be received after May 1, 1927. The Bureau reopened April 23, 1931 and closed for the receipt of applications July 1, 1932 during which period 10,135 new claims were received.

The total claims received were 427,799 or 82 per cent of the 518,864 veterans credited to the State. Of the number received, 9,274 or .0215% were rejected as not entitled to the bonus. There are still 4,869 or .0115% of the claims received awaiting action by the Bureau due to the delay of the veteran in supplying required data. Of the total received 413,664 or 96% were paid at the rate of \$1.85 per claim. Of the total veterans entitled to make application 91,065 or 18% failed to make a claim although 15,108 of this number applied for blanks. Their requests however, had to be denied owing to the fact that they applied after the time limit, July 1, 1932. The average payment per claim was \$117.23 or 78% of the maximum amount allowed, \$150.00. Of the total claims received 25,257 applicants were not credited by the authorities in Washington as having enlisted from the State of New York.

Of the claims awaiting action there are being received from time to time letters from the applicants supplying sufficient data to warrant the payment of these applications. During the past year four (4) of these applications in the amount of \$389.99 have been approved for payment. These claims have been segregated and a request has been made to the Legislature for an appropriation sufficient to pay them.

During the operation of the Bureau many activities developed other than the payment of the bonus. Being an office of record constant inquiries are being received from governmental, civic and veteran agencies and private sources relative to pertinent information regarding the services of veterans and certified copies of papers submitted with bonus applications for use in furthering claims for compensation, tax exemption, civil service examinations, retirements, promotions and for other and varied purposes. From experience with the records of the Civil and Spanish wars, which are still active, undoubtedly the records of this Bureau will remain in demand for some time to come.

### Personnel Bureau

The functions of the Personnel Bureau are those described in the report of the activities of this bureau for 1935.

*Appointments and separations of officers.*—During the year 1941 military commissions and separations were effected as follows:

	New York National Guard	New York Guard	Naval Militia
Officers promoted.....	1	238	6
Officers appointed from the ranks.....	..	171	..
Officers appointed from other sources.....	..	193	10
Officers appointed on Reserve List.....	..	15	15
Officers transferred to the Reserve List....	..	73	..
Officers placed on the Retired List.....	1	10	..
Officers transferred from the Active to In- active National Guard.....	11	..	..
Officers who resigned and were honorably discharged.....	22	131	14
Officers honorably discharged under Sec- tion 81, M.L.....	10	..	..
Officers who died during year.....	7	9	1
Officers honorably discharged on Surgeon's Certificate of Disability.....	67	..	2
Totals.....	119	840	48

The above table indicates that six hundred forty-nine (649) military commissions were issued during the year. There were two hundred sixty-three (263) officers separated from service. Seventeen (17) of these were in the Naval Militia.

*Medal for Valor.*—No Medals for Valor were awarded during the year 1941.

*Conspicuous Service Cross.*—Under the provisions of Section 247, Military Law, twenty-five (25) Conspicuous Service Crosses were awarded to various applicants during the year 1941.

*Decorations for Long and Faithful Service.*—During the year 1941, two hundred seventy-four (274) Decorations for Long and Faithful Service of the various classes were awarded to applicants as follows:

Special Class..... (35 years service).....	2
First Class..... (25 years service).....	7
Second Class..... (20 years service).....	32
Third Class..... (15 years service).....	144
Fourth Class..... (10 years service).....	89

The large number of Third Class awards is accounted for by the fact that a large number of applications were necessarily held over from the previous three years because of insufficient appropriation during such years. The present appropriation for the purchase of this decoration is inadequate and should be fixed at not less than nine thousand dollars (\$9,000) due to increasing demands caused by members of the National Guard remaining in service for longer periods than heretofore.

## APPENDIX A

### Report of the Commanding General, New York Guard

In accordance with the requirements of paragraph 6, Regulations No. 80, I have the honor to submit the following report on the affairs of the New York Guard for the calendar year 1941.

1. *General.* The New York Guard is completing its first year of service. Steady and definite progress has been made in welding the organization into disciplined and trained military units, ready to serve their State as the first line of defense in an emergency. There are deficiencies in training and in equipment of course. The training deficiencies are recognized and are receiving the close attention of the Commanding Officers for correction. The deficiencies in equipment are receiving the sympathetic action of higher authorities. The spirit, morale and enthusiasm of our officers and men are gratifying, and are an inspiration to the staff officers of these Headquarters who have seen them at work. The men of the New York Guard have manifest desire loyally to serve the State in this serious hour in our State's history. I am proud to command such men.

2. *Strength.* At the start of the year the authorized strength of the New York Guard was 13,689 officers and enlisted men. Circular No. 1, Adjutant General's Office, Albany, February 1, 1941, authorized an increase of 87 engineer officers with assignment as follows: 2 captains, Assistant Engineers, to the Headquarters New York Guard; 1 major to each Brigade Headquarters; 1 captain to each Regimental Headquarters; 1 first lieutenant to each Battalion Headquarters. These engineer officers are the technical advisers to their commanders in all matters pertaining to engineering problems that may arise.

By General Orders No. 15, Adjutant General's Office, Albany, September 22, 1941, the strength of the New York Guard was increased by the addition of 1 signal company with a strength of 3 officers and 58 enlisted men; in each Brigade Headquarters Detachment a signal communications section of 1 officer and 15 enlisted men; in each Regimental Headquarters and Service Company an increase of 9 enlisted men in the service platoon and the formation of a Signal Communications Section in the Headquarters platoon of 1 officer and 15 enlisted men; in each rifle company an increase of 14 enlisted men; in each Battalion Headquarters Detachment 1 enlisted man, an increase of 28 officers and 3,193 enlisted men.

During the year there was a loss of 5,056 enlisted men, the details of which are given in Appendix No. 1. Seventy per cent of this loss was "for the convenience of the State" from men who had lost

interest and who failed to attend drills. Undoubtedly these men enlisted from a patriotic spirit and later for various reasons seemed to have lost interest in the Guard. The average strength in officers and men since March, 1941, when the strength reports were initiated, was 12,228, as shown in Appendix No. 2. During the year there was a loss of 181 officers, the details of which appear in Appendix No. 3.

3. *Attendance.* The average attendance at armory drills for the year was 82.9% as shown in Appendix No. 2. Attendance reports were only initiated commencing March 1, 1940, as the organization of the units had not progressed sufficiently to warrant reports prior to that time. The attendance figures as shown in Appendix No. 2 are considered satisfactory in view of reports that the major reasons for absence from drills are late hours of employment.

4. *Organization.* The dates of muster-in of all the units of the New York Guard are shown in Appendix No. 4. It will be noted that the first muster-in occurred on December 10, 1940, and the muster of the last of the initial units authorized took place on May 6, 1941. The 1st Signal Company, the last unit authorized, was mustered in on November 12, 1941.

The 12th and 22nd Regiments were authorized for organization December 5, 1941. These are regimental numbers, each with an historical background. They will be housed in the armories located respectively at 120 West 62nd Street, and 216 Fort Washington Avenue, New York, N. Y.

5. *Training. Training Objective and Doctrines.* The training of the New York Guard presents a special problem, as it is a State military force which serves as a general reserve, to be used by the Governor to reenforce the normal civil law enforcement agencies in emergencies arising out of domestic disturbances.

Its logical training objective, therefore, is to organize, train and prepare to operate as regiments and separate battalions so as to become an efficient armed force, competent to combat and overcome the resistance of unorganized or semi-organized forces in domestic disorders, within the borders of the State, to guard public utilities and power plants, waterworks, vital highway bridges, railroad yards and bridges, etc., to control crowds and prevent panics, and to observe and suppress active subversive elements. The tactical doctrines and methods for the New York Guard are those pertaining to the use and conduct of troops in military situations arising out of domestic disturbances. The tactical teachings of the Regular Army in modern methods of combat between highly organized and trained forces do not apply to state troops. Only those Regular Army teachings and methods that can be adapted and used to advantage by state forces under domestic disturbance conditions should be adopted and taught.

The foregoing are the principles and doctrines which govern the training of the New York Guard.

*Field Training.* During the months of July, August, September and October a number of regiments from New York City, at their own expense, spent week-ends at Camp Smith for range practice with service ammunition and other training of the men. Several regiments conducted training over week-ends in a donated area on Long Island. Some up-state regiments had week-end training periods in areas in proximity to home stations. The 5th Brigade, located on Long Island and reenforced by Long Island units of other brigades, participated in a night maneuver at Fort Tilden, in collaboration with Regular Army units, on the night of October 10, 1941.

The observations and reports of these week-end field training periods indicate the necessity that the troops should have some experience in field exercises, not alone as a matter of instruction, but also as a psychological factor in the morale of the units. This field training can be given in one period of 7 or 8 days, or in 3 or 4 week-end periods of 2 or 3 days each, not exceeding a total of 8 days—this at the discretion of the regimental commanders.

*Schools.* A school for officers was conducted at Camp Smith from August 17 to 23, 1941. The State provided funds for additional personnel for the police and service of the camp and the purchase of certain equipment. The cost of transportation and subsistence was borne by the students. See Appendix No. 5 for other details. It was an intensive course of instruction on subjects of importance to the New York Guard. The School was satisfactory, as attested by the spontaneous expressions of the student officers.

Schools for the training of officers, non-commissioned officers and specialists were established throughout the command along the same lines as in the Army. A serious deficiency is the lack of competent military instructors among officers and non-commissioned officers. Under existing conditions these instructors must come from within the Guard. Schools are the means of locating and developing these instructors, and also are important factors in the efficiency of the units.

*Inspections.* Under instructions contained in letter from the War Department, dated October 13, 1941, subject: "Inspections of Training of State Guard Organizations," the Commanding General 2nd Corps Area, Governors Island, New York, instituted inspections of New York Guard units on December 1, 1941, and they will be carried through into January, 1942. General Phillipson, personally, will inspect 3 regiments. Reports of these inspections will follow presently.

Visits of inspection to up-state units at the stations of the Brigade and Regimental Headquarters were made by the Chief of Staff and by the Assistant Chief of Staff G-4 for the purpose of discussing training problems and matters pertaining to supply and equipment and property records. In the interests of economy these visits were necessarily restricted. One phase of inspections, those

planned to be made by the immediate battalion, regimental and brigade commanders, was omitted due to lack of funds. Visits were made by officers at their own expense. This is really a serious problem which will be largely corrected through Headquarters Allowances and Military Funds.

6. *Equipment.* The publicity items that appeared late in November stating that the Governor had issued a Certificate of Intent for \$615,000 for providing two-piece woolen uniforms, regulation length woolen overcoats and other equipment for the New York Guard, had a very stimulating effect on the spirit and morale of both officers and enlisted men. An undercurrent of dissatisfaction had been noted among the enlisted men in regard to the uniform. Their officers and they have felt that it was below the standard of the uniform that a soldier should have. All this has been materially changed by the reports that proper uniforms may soon be forthcoming.

*Individual Equipment.* A serious shortage is the lack of essential individual equipment, consisting of mess kit, haversack, pack carrier, helmet, gas mask, shelter tent and blankets, indispensable for active duty in the field. Fifteen hundred sets of this equipment have been procured by the State; two sets have been issued to each company for training and instruction, and the remaining 1100 sets are in reserve in the Brooklyn Arsenal for emergencies. We estimate that this reserve equipment will equip two regiments at their present authorized strength.

*Ammunition.* A serious deficiency is ammunition. There have been issued 10 rounds of service ammunition per rifle, with instructions that it would not be fired, but would be held in reserve in the armories. An additional 5 rounds per rifle are in reserve in the Brooklyn Arsenal. No service ammunition has been made available for firing practice. Such limited firing practice as has been held by units was with ammunition purchased privately. There was some gallery practice firing for which 10 rounds per rifle were issued. This is obviously inadequate. At recent inspections it developed that many men had never fired the rifle.

*Chemical Weapons.* Another grave deficiency is in chemical warfare weapons. The efficiency and harmless characteristics of tear gas have been clearly proven. Frenzied mobs have been broken up without casualties. Difficult arrests have been made without endangering citizens' lives through stray bullets. Tear gas is a humane and efficient weapon in handling, overcoming and dispersing unruly crowds and frenzied mobs. For training and instruction there have been issued 8 practice hand grenades, one gas gun and two practice gas gun grenades. In reserve in the Brooklyn Arsenal there are 190 gas gun grenades and 188 tear gas hand grenades, held there for emergencies. For training and instruction there have also been issued 10 gas masks per regiment, with 28 gas masks in reserve in the Arsenal. In situations, arising out of domestic disturbances,

which may confront the New York Guard, chemical warfare service weapons such as gas guns, gas gun grenades and particularly gas hand grenades, are of outstanding importance. There should be an increase in practice grenades for training and instruction to give the men the skill in their use. We urge that there should be in reserve in the Brooklyn Arsenal at least 1500 hand grenades, combination tear and nauseating gas, and 500 grenades, hand, triple chaser. The gas guns cal. 1½ inch with case should be increased from 25 to 66 on a basis of one per battalion, with 25 rounds of gas grenades per gun.

*Special Weapons.* Another efficient weapon for use in law enforcement situations is the cal. .45 sub-machine gun of a type like the H. & R. Reising gun, which can be obtained at a reasonable cost. The regulation rifle with service ammunition has an excessively long range and deep penetration. The Reising sub-machine gun has an extreme range of about 600 yards, with an effective range of 250 to 300 yards, and possesses the characteristics of a light machine gun, and is a most effective weapon in confronting unruly crowds and mobs. There are on hand now 12 Thompson sub-machine guns cal. .45. This should be increased to 792, preferably the Reising cal. .45 sub-machine gun. Three Reising sub-machine guns can be obtained for the price of one Thompson gun. It is proposed to make active the machine gun companies "D", "H" and "M" in each regiment, and call them the Special Weapons Company, arming each company with 12 sub-machine guns, 6 riot guns 12 gauge, which are now on hand, 1 gas gun, with a grenadier squad to operate the chemical weapons. The sub-machine guns, the gas gun, the shotguns and the hand grenades will constitute very effective weapons for this unit, and have a strong psychological effect on the opponent.

*Gas Masks.* In the use of chemical weapons by State forces, and for protection against these weapons in the hands of the enemy, a gas mask for every soldier is essential and should be provided.

7. *Permanent Plant.* *New York Guard Headquarters.* Headquarters New York Guard have occupied, for the entire period of this report, the offices formerly occupied by New York National Guard Headquarters in the State Office Building, 80 Centre Street, New York, N. Y.

The sum of \$35,000 was granted by the Legislature for the operation of these Headquarters for the fiscal year 1941-42. This represented a reduction of \$15,000 from the \$50,000 allotted by certificate of intent for our operation during the fiscal year 1940-41. The smaller sum of \$35,000 would not of itself have been enough for Personal Service and Maintenance-and-Operation in the current fiscal year, but there fortunately remained an unexpended balance of \$10,402.42 from the sum allotted to us for 1940-41, and this became available to our use on July 1st of the present year. It is only by rigid adherence to the economy which has been practiced since

the New York Guard came into being that we shall be able to see the fiscal year 1941-42 through on the total of approximately \$45,000, and a budgetary request for \$50 000 has been made for the fiscal year commencing July 1, 1942.

*Camp Smith.* Brigadier General George A. Herbst, Chief of Staff, New York Guard, was appointed Officer in Charge and Control of Camp Smith, by paragraph 1, Special Orders No. 93, Headquarters New York Guard, dated August 26, 1941, effective July 1, 1941, vice Major General Mundy, New York National Guard, Retired.

An understanding was reached with The Adjutant General, Albany, whereby Brigadier General George A. Herbst was relieved, from responsibility of the property and equipment at Camp Smith, by Colonel H. W. Taylor, New York National Guard retired list, Superintendent of Camp Smith, who took over this property.

8. *Administration.* In June of this year, in collaboration with The Assistant Adjutant General, a system for the control and administration of property records for the New York Guard was devised, regulations were set up and instructions were issued to all units of the organization for standard procedure in respect to property accounting, record and administration. The system of regulations closely parallels that used by the Regular Army except where State regulations or lack of Regular Army forms required deviation. The system is bringing excellent results.

Detailed inspections of all personnel administrative records of units in the 1st, 2nd and 5th Brigades were made by staff officers from these Headquarters. Their recommendations for a re-standardization of personnel records will be made the subject of a later report.

On October 2, 1941 and November 25, 1941 conferences were held in New York City attended by the Chief of Staff, and the five Brigade Commanders, called and presided over by the Commanding General. At the first conference The Adjutant General was present. The purpose of these conferences was to discuss the urgent needs and requirements of the New York Guard, and to establish important policies. They produced good results.

The Judge Advocate of the New York Guard and his Assistant have been engaged since May, 1941, in writing a legal manual, tentatively entitled "Law of State Military Forces," setting forth the powers and limitations, the rights and liabilities of officers and men, when on active duty. The sum of \$1,000 was allotted by The Adjutant General to cover certain costs involved. The Judge Advocate is being ably assisted in this work by several professors of Fordham University. It is proposed to mimeograph the draft of this manual and to send copies to the Attorneys General and Adjutant Generals of all of the States, and to a number of selected professors in schools, colleges and universities, and eminent men of the legal profession, for their comments, criticisms and recommendations. This manual will be comprehensive in its scope, will be

of great value to all state military forces, and will no doubt reflect great credit upon the New York Guard.

9. *Recommendations.* The following recommendations are submitted for urgent consideration:

(1) That complete individual equipment be provided for each officer and enlisted man consisting of mess kit, haversack, pack carrier, helmet, gas mask, shelter tent and blankets.

(2) That full kitchen equipment be provided.

(3) That Headquarters Allowances and Military Funds be provided under the provisions of Sections 216 and 218, Military Laws.

(4) That funds for the cost of field training, not to exceed 8 days, in areas in proximity to the station of the units, be provided, the cost to include transportation and subsistence.

(5) That ammunition for indoor range practice, for firing with service ammunition on outdoor ranges, and an adequate reserve for emergencies be provided.

(6) That the activation of Companies "D", "H" and "M" in each regiment be authorized and weapons be procured on a basis per company of 12 cal. 45 H. & R. Reising sub-machine guns, 1 gas gun 1½ inch cal. (6 riot guns per battalion are already available in each regiment).

(7) That the following chemical warfare ammunition be provided:

1500 hand grenades, combination tear and nauseating.

500 grenades, hand, triple chaser.

1650 grenades, gas gun.

Personally, I desire to express to you my sincere appreciation, and the gratitude of the New York Guard as a whole, for your sympathetic understanding and staunch support. The whole-hearted and unflinching cooperation and helpfulness of The Adjutant General, his able assistants in Albany and at the State Arsenal in Brooklyn in the many problems that have confronted these Headquarters are gratefully acknowledged. I hope that what we have tried to accomplish may warrant and merit your approbation.

WILLIAM OTTMANN,  
Major General, N.Y.G.,  
Commanding.

## APPENDIX B

---

### **The Report of the Commanding Officer, New York Naval Militia**

1. The following annual report on the New York Naval Militia for the period December 1, 1940 to November 30, 1941 is submitted in accordance with Par. 6, R-80, Regulations for the Military Forces of the State of New York.

2. *Strength and Attendance.* The total strength of the Brigade has decreased from 2396 officers and men on December 1, 1940 to 1926 officers and men as of November 30, 1941. This loss is due chiefly to discharges issued to men who were found physically unqualified for active duty with the Navy either prior to their being ordered to federal active duty or subsequent to their mobilization. These men were discharged from the U. S. Naval Reserve and corresponding action was taken in Naval Militia status under Par. 18, R-25, Military Regulations, S.N.Y.

3. *Organization.* The organization of the Brigade remained as reported under Paragraph 3 of the 1940 Annual Report, until all units were mobilized.

4. *Training Duty.* Inasmuch as all units were in active service prior to July 1, 1941, no regular annual two weeks period of training duty was performed.

5. *Week End Cruises.* Prior to the period of this report practically all small craft available for this purpose were placed in active service by the Navy.

6. *Small Arms Practice.* Although a schedule for holding the Annual Small Arms Record Practice was set up for the remaining units, these units were either being mobilized on the dates set or preparing for imminent orders to duty and therefore this activity was cancelled.

7. *Mobilization.* The officers and men of the New York Naval Militia who have been mobilized in their U.S.N.R. status have been assigned to duty, afloat and ashore, in ships and stations of the United States Navy in various parts of the world. Typical examples of the variety of stations in which the members of the New York Naval Militia are now performing duty are contained in reports submitted for the 2nd Battalion and the 13th Division, copies of which are submitted herewith as enclosures (A) and (B).

8. *Armories.* Following mobilization all Naval Militia Armories are being maintained under the supervision of Reserve List Officers appointed in charge and control by the Adjutant General. The Armories of the 1st Battalion, 2nd Battalion, and 33rd Division are being operated by the Navy Department and the Naval Militia Officers in Charge and Control are cooperating fully with the Navy Commanding Officers.

9. *Naval Academy Appointments.* Thirty-three enlisted men of the New York Naval Militia were candidates in the competitive examinations for appointment to the U. S. Naval Academy. The names of the successful candidates follow:

Armstrong, Ellis M., Jr.....	Sea. 2c
LeBarron, F. V.....	A.S.
Canals, William Richard.....	Sea. 2c
Greenwood, Earle S.....	A.S.
Jacobs, Robert S.....	Sea. 2c
Wasyluk, Jerry.....	Sea. 2c
Wellinghorst, Frank E.....	A.S.
Wesson, Robert W.....	A.S.
Textor, E. J.....	F. 3c
Hayward, John Lovering.....	Sea. 2c
Frothingham, Edward, Jr.....	A.S.
Metzger, Robert Platt.....	A.S.
Simes, Robert Frederick.....	A.S.
Votey, Edwin Scott.....	A.S.
Poppe, Fred Cristoph.....	A.S.
Matusiewicz, John H.....	Sea. 2c
Newman, Dale E.....	A.S.

10. Grateful acknowledgment is made for the interest and support which was extended to the Naval Militia by His Excellency, the Governor, and also for the cooperation of the Adjutant General, the members of the Legislature, the Director of the Budget, and other officers of the State with whom the Naval Militia has been privileged to have relations during the year.

F. R. LACKEY.

December 5, 1941.

From: Commanding Officer,  
To: Commanding Officer, N.Y.N.M.  
Subject: Annual Report.

1. The officers and men of this Battalion are now on active duty on various ships and stations of the U. S. Navy.

2. The officers have been assigned to duty as executive, watch and engineer officers on cruisers, destroyers, aeroplane carrier, transport, mine-sweepers, patrol boats, etc., as well as Port Officer, Officers in Charge of Repairs at home stations, and at bases in the West Indies, and British West Indies.

3. The first group mobilized in the Battalion, was on October 25, 1940, when sixty men of the 5th Division reported for duty, and were transferred to the U.S.S. SANTEE, a naval oil tanker. During the year ending October 25, 1941, it was estimated that the vessel had steamed over 50,000 miles, from Maine to Hawaii. The balance of this Division mobilized on April 21, 1941, and was transferred to the Receiving Ship at Norfolk.

4. The 6th and 7th Divisions mobilized on November 21, 1940, and were transferred to the U.S.S. BIDDLE and BLAKELEY, forming the larger part of the crews of these vessels. These vessels

have been assigned to duty in the Canal Zone, and the Gulf of Mexico.

5. Twenty men of the 8th Division were mobilized on April 22, 1941, and transferred to the U.S.S. BAINBRIDGE and OVERTON. The balance of the Division was mobilized on May 11, 1941, and transferred to the Receiving Ship at Norfolk. The division, together with the men assigned to the BAINBRIDGE and OVERTON were later transferred to the U.S.S. ORIZABA. This vessel has made a trip to Iceland, and is now at sea, destination unknown.

6. Company "B", Marine Battalion, mobilized on November 9, 1940, and were transferred to Quantico. The Company is now scattered throughout Marine posts in this country and its bases.

8. The Second Battalion Armory has been taken over by the United States as a Receiving Station; and has also been designated as the Armed Guard Center of the Atlantic Coast. It is housing and subsisting crews of the British ships undergoing repairs and conditioning in the United States. It has also housed and subsisted the crews of many U. S. Naval vessels, including the PELIAS, CHATEAU THIERRY, SOLACE, MULBERRY, AMERICAN LEGION, and other vessels. The administration, equipping, training, recreation and distribution of armed guard units on merchant vessels will be done from this center. The Commanding Officer of the Battalion is Commanding Officer of the Receiving Station.

9. During World War No. 1, the Second Battalion Armory was taken over by the United States Navy, and designated the FEDERAL RENDEZVOUS. During the period of 1917-19, approximately 15,000 officers and men passed through that station. Many other stations in the Third Naval District which were in use during the World War were dismantled; but the Second Battalion Armory is still functioning, and with very little alterations was in immediate readiness to accommodate approximately 3,000 officers and men.

WM. J. COAKLEY.

December 3rd, 1941.

From: Officer in Charge and Control, Naval Militia Armory,  
Watertown and Sackets Harbor, N. Y.

To: Commanding Officer, New York Naval Militia.  
Subject: Annual Report.

Reference: (A) Letter of C.O./N.Y.N.M., A9-1, dated November  
18th, 1941.

<b>Total.....</b>	<b>2</b>	<b>71</b>

2. This division has been mobilized under various dates as shown above and so far as can be found out the division was not kept together although the greater majority are on board the U.S.S. CHENANGO, a Navy Tanker. In addition, other men were ordered to Destroyers, Patrol Boats, Submarines and various service schools while quite a few are taking part in the Atlantic Patrol. Some of the officers attached to this division or associated with the division were ordered to active duty previous to the division mobilization. As a matter of interest we are listing a list of those officers who have entered service who were either members of the Naval Militia at the time of mobilization or who had served as enlisted men with the division and were associated with this division for training

purposes, but were unable to join the Naval Militia due to lack of officer vacancies.

Lieutenant Richard G. Aaron, Acting Engineer Officer, reported for active duty as Inspector of Submarines at Electric Boat Co.

Lieutenant (jg) Winfield F. DeLong, Duty on Board Destroyers.

Ensign Fred W. Gates, assumed commanding officer duties upon mobilization of Division and at present on board the U.S.S. CHENANGO.

Lieutenant (jg) Kenneth J. Gustin, Supply Officer for the P.B.Y. Boats at Iceland.

Ensign Allen J. Harris, a former member of the Naval Militia and associated with Division for Training, has command of one of the Motor Torpedo Boats.

Ensign Danforth Huntington, a former member of the Division, and associated for training duty on board the U.S.S. CHENANGO.

Ensign Charles W. Sloat, member of Naval Militia, assumed Command of the U.S.S.C. No. 431 and transferred vessel to Norfolk, Va., and reported for active duty on board the U.S.S. HANABLE upon completion of duty. At present on board some minesweeper.

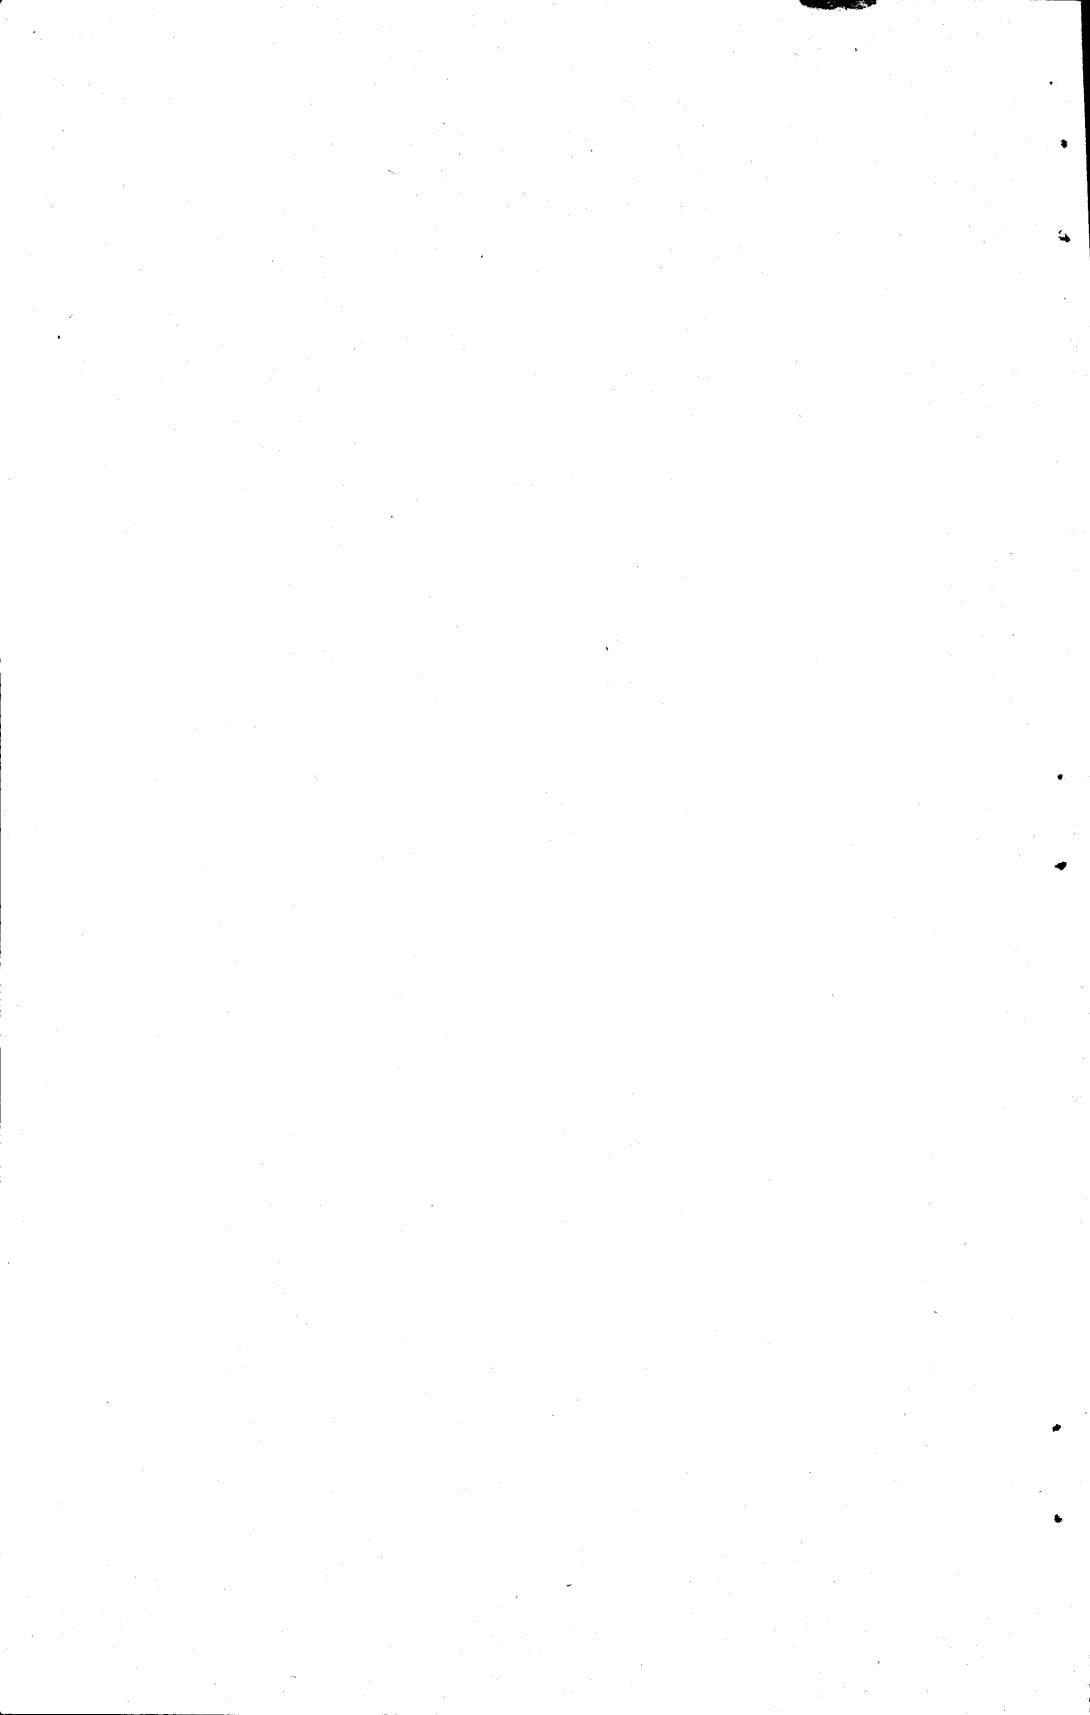

The U.S.S.C. No. 431, a Submarine Chaser assigned to this division as training vessel for over eighteen years has been called into active duty and as a matter of interest this vessel is now being overhauled and completely equipped to assume her place in the Atlantic Patrol.

The 13th Division has been the means of stimulating considerable interest in the Navy in this section of New York State and as a result a large part of the community is now serving in many capacities with the U. S. Navy.

Through the efforts of officers of this division, a considerable number of specialists officers have been secured for the Navy as well as seven officers who became officers through class V-7 activities.

Considering the results of the Naval Militia Training it is felt that some means should be found to keep alive a Naval Militia Organization.

LIEUT. H. M. RICE,  
*Officer in Charge  
and Control.*
