Report of The Adjutant General

December 31, 1940.

His Excellency Herbert H. Lehman,
Governor of the State of New York,
Albany, N. Y.

Sir:—

Pursuant to Section 17 of the Military Law, as the Adjutant General, and, under the provisions of Section 42 of Chapter 78 of the Consolidated Laws of the State of New York, as Head of the Division of Military & Naval Affairs of the Executive Department, I submit herewith my annual report concerning the administration of that Division for the year 1940.

Federal inductions.—The past year has been the most eventful one for the Division of Military & Naval Affairs since the World War, 1917-1919, when the full complement of National Guard and Naval Militia troops of the State was called into United States service. Under date of August 27, 1940, the 76th Congress, in Public Resolution No. 96, conferred upon the President of the United States authority to order the National Guard into the active military service of the United States for a period of twelve consecutive months, unless sooner relieved. Initial action in this direction ordered the elements of the 44th Division, the 244th and 245th Coast Artillery of the New York National Guard inducted September 16, 1940, the details of which are covered in General Orders No. 35, this office, dated September 4, 1940. Subsequent inductions up to the date of this report covered the 102nd Observation Squadron and 27th Division (complete) on October 15, 1940, pursuant to General Orders No. 36, this office, dated September 26, 1940. General Orders No. 49, this office, dated December 30, 1940, call for the induction of the 101st Antitank Battalion and the 102nd Separate Battalion, Coast Artillery (AA), on January 6, 1941, and the 369th Coast Artillery (AA), the 101st Signal Battalion and the 102nd Antitank Battalion on January 13, 1941. The present War Department schedule—which is tentative—contemplates the induction of the 101st Cavalry (H-Mecz), the 186th Field Artillery (155-mm How) and the 134th Medical Regiment on January 27th, 1941; Company A, 191st Tank Battalion, the 71st Field Artillery Brigade Headquarters, the 187th Field Artillery and the 258th Field Artillery on February 3, 1941; the Headquarters, 102nd Coast Artillery Brigade Headquarters, the 207th, 209th and 212th Coast Artillery regiments on February 10, 1941, and the 101st Military Police Battalion on March 10, 1941. A good many of the foregoing organizational designations are new since last year and were acquired by conversions and redesignations of existing National Guard units and organization of certain new

ones to conform to the revised defense scheme of the War Department. The most outstanding of these changes was the abolition of the newly organized 21st Cavalry Division which only came into being November 29, 1939.

Changes in organization.—Changes in National Guard organizations were as follows:

Published in General Orders Number & date	Organizations affected	Nature of change
1940		
1—Jan. 1	245th Coast Artillery	Reconstituted to conform to revised War Department tables of organization.
3—Jan. 22	Headquarters and Headquarters Battery, 52nd Field Artillery Brigade	Station changed to 168th Street and 93rd Avenue, Jamaica, L. I., effective February 1, 1940.
	Company G, 102nd Medical Regiment	Station changed to 56 West 66th Street, New York City, N. Y., effective February 1, 1940.
7—Mar. 15	27th Division Aviation	Redesignated 102nd Observation Squadron.
8—Mar. 15	244th Coast Artillery	Reconstituted to conform to revised tables of organization.
9—Apr. 1	All infantry regiments	Reconstituted to conform to revised tables of organization effective May 1, 1940.
11—Apr. 10	245th Coast Artillery	Again reconstituted to conform to revised tables of organization providing an additional battalion of antiaircraft batteries.
15—May 13	108th Infantry	Changes in certain companies effective June 1, 1940.
	102nd Engineers	Reconstituted, effective May 15, 1940, to conform to revised tables of organization.
16—May 15	Headquarters and Headquarters Detachment, 3rd Battalion, 14th Infantry	Station changed to Hempstead, L. I.
19—June 1	258th Field Artillery	Reconstituted to conform to revised tables of organization.
23—June 24	21st Reconnaissance Squadron	Organized, effective July 1, 1940.
24—June 25	104th, 105th and 156th Field Artillery regiments	Reconstituted to conform to revised tables of organization.
	Headquarters Companies of In- fantry Brigades	Reconstituted to conform to revised tables of organization, effective July 1, 1940.
25—June 30	106th Field Artillery	Reconstituted to conform to revised tables of organization, effective July 1, 1940.
27—July 16	102nd Medical Regiment	Certain changes to conform to revised tables of organization.
29—July 25	Infantry Brigades	Redesignated.

Published in General Orders Number & date	Organizations affected *	Nature of change
1940		
31—Aug. 1	Service Company, 102nd Quartermaster Regiment.....	Organized.
	107th Infantry.....	Converted and redesignated 207th Coast Artillery (AA).
	369th Infantry.....	Converted and redesignated 369th Coast Artillery (AA).

	Brigade headquarters.....	Changes in stations.
37—Sept. 30	Headquarters Battery, 102nd Coast Artillery Brigade (AA)..	Disbanded.
	21st Cavalry Division.....	Conversion, redesignation and disbandment of elements of.
42—Oct. 28	209th Coast Artillery (AA)....	Establishment of headquarters.
45—Nov. 16	102nd Observation Squadron....	Change in station.
46—Dec. 1	258th Field Artillery (155-mm Gun).....	Reconstituted to conform to revised tables of organization.
48—Dec. 24	186th and 187th Field Artillery.	Reconstituted to conform to revised tables of organization.
	10th Infantry.....	Redesignated 106th Infantry.

The foregoing changes combined with those effected in 1939 complete the War Department programme for "stream-lining" of the National Guard.

Selective Service activities.—Coupled with the preparation of the military and naval forces of the State for induction into United States service, the State was also called upon by the United States government to perform its part in the development and operation of the Selective Training and Service Act as approved September 16, 1940. To assist in the undertaking, certain members of the State Staff and State Detachment have been inducted into the Army of the United States and are now performing appropriate duties in connection with such service.

Guarding of armories.—To further protect armories throughout the State orders were issued by your direction under date of June 3, 1940, requiring organizations to establish military guards

on a full time basis and directing that the armories hereafter are to be used exclusively for military purposes.

Organization of the New York Guard.—Under date of October 25, 1940, General Orders No. 40, this office, was issued by your direction organizing the New York Guard to take the place of the New York National Guard troops which are rapidly being inducted into United States service. The New York Guard is constituted of a Headquarters with five brigades of four infantry regiments each. A unit of not less than one company is provided for each armory in the State. The organization conforms to special tables of organization drawn to accommodate the particular needs of State defense and satisfactory progress is being made in recruiting. Major General William Ottmann, whom you appointed as Commanding General, New York Guard, rendered a report which is published herein in addition to reports of the Commanding General, New York National Guard, and the Commanding Officer, New York Naval Militia.

Duty in aid of civil authority.—During the year no labor or other situations developed to proportions warranting the calling out of any part of the New York National Guard or Naval Militia in aid of civil authority.

Military Staff of the Commander-in-Chief.—Most of the aids on your Excellency's military staff have been inducted into the Army of the United States. Under the provisions of Section 7, M.L., vacancies are thereby created which it is recommended be filled by officers of the New York Guard.

Changes in Personnel of Office.—During the year the following changes have taken place in the officer personnel of this office: On January 24, 1940, my predecessor, Major General Walter G. Robinson, The Adjutant General of the State of New York, passed on. Just two weeks prior to his death he had been promoted from Brigadier General by your Excellency. The vacancy thereby created was filled by your Excellency's appointment of Colonel Ames T. Brown, Assistant Adjutant General, Executive Officer on February 9, 1940. The post of Assistant Adjutant General, subsequently created, was filled by the appointment on March 11, 1940, of Lieutenant Colonel Frederick A. Thiessen, Executive Officer of the 105th Infantry, New York National Guard; an officer of nearly forty years service in the New York National Guard having originally enlisted in the 6th Separate Company on February 18, 1903, and risen traditionally through enlisted and commissioned ranks to second in command of the old 2nd Regiment, Infantry, now known as the 105th Infantry. Colonel Thiessen served with his regiment in active United States service on the Mexican Border during 1916 and again in 1917-1919, in the World War as Captain on the Regimental staff. At the time of appointment he held the responsible civilian post of Chief of Police of the Delaware and Hudson Railroad. Another major change was that of the retirement of Colonel William A. Taylor, Quartermaster Corps, State Staff, Assistant Adjutant General in charge of the State Arsenal. He was

promoted to Brigadier General of the Line and placed on the Retired List on July 31, 1940. That post was filled August 1, 1940, by the appointment of Lieutenant Colonel Henry E. Suavet, Ordnance Department, Headquarters, 27th Division, New York National Guard, also an officer of wide experience in the New York National Guard, which he originally entered as a Private in Company E, 23rd Regiment Infantry, May 27, 1912, and likewise was promoted through the ranks after active United States service on the Mexican Border and in the World War to become Lieutenant Colonel, Ordnance Officer, 27th Division. Other changes caused by the induction of the National Guard into United States service were: Lieutenant Colonel Christopher B. Degenaar, A.G.D., State Staff, Director, Bureau of Veterans & Soldiers Affairs, promoted to Colonel, 105th Infantry, New York National Guard and inducted October 15, 1940; Lt. Colonel William J. Mangine, Q.M.C., State Staff, Director, War Records Bureau, inducted September 17, 1940; Lt. Colonel Francis G. Roddy, A.G.D., State Staff, Director, Bureau of World War Records, inducted October 8, 1940; Lieutenant Colonel William H. Boughton, A.G.D., State Staff Personnel Bureau, was inducted October 5, 1940; Lt. Colonel Andrew H. Thompson, Q.M.C., State Staff, United States Property & Disbursing Officer, inducted October 7, 1940; Major Daniel A. Ruddy, F.D., State Staff, Finance Bureau, inducted October 8, 1940; Captain William M. Van Antwerp, Infantry, 53rd Brigade, Personnel Bureau, inducted October 15, 1940; Captain Burt W. Phillips, Q.M.C., State Staff, Assistant Quartermaster, State Arsenal, inducted November 4, 1940. The undersigned was also inducted into the Army of the United States October 7, 1940, as State Director of Selective Service. Under the provisions of a special dispensation for Adjutants General of the various States I am not thereby precluded from performing at the same time my normal functions as The Adjutant General of the State of New York.

Hines Attendance Trophy.—There was no contest for the Colonel Frank H. Hines Attendance Trophy (National Guard) won in 1939 by the 106th Field Artillery, due to the induction of the New York National Guard.

United States Military Academy.—This office annually conducts a competitive examination for candidates from the National Guard of this State for the privilege of taking the competitive entrance examination for cadetship at the United States Military Academy at West Point, New York. Candidates to be eligible must be between the ages of 19 and 22 years, enlisted men of a federally recognized unit of the National Guard who have served therein not less than one (1) year prior to date of entrance to the Academy. The examinations this year were conducted November 8th and 9th at Albany, Buffalo, and New York City, for entrance to the Academy, July 1, 1941. Eight (8) vacancies were allotted to the State of New York and as a result of these examinations Your Excellency nominated the eight (8) having the highest average of proficiency. Sixteen (16) candidates participated in these ex-

aminations. It is hoped that prior to the entrance examination to be conducted in March, 1941, for entrance to the Academy in July, 1941, that additional vacancies will be allotted to the State of New York as requested by Your Excellency in a letter to The Adjutant General of the Army. The policy of allotting cadetships to soldiers of the National Guard was authorized by Congress, May 4, 1916.

Strength.—The strength of the active military and naval forces of the State on this date is as follows:—

	Officers	Warrant Officers	Enlisted Men
National Guard.....	565	7	8,966
New York Guard.....	832	—	1,624
Naval Militia.....	102	—	2,397
Total, active forces.....	1,499	7	12,987

For convenience in reference this report is presented in sections dealing with the activities of the various bureaus of the division. A detailed report of strength of all components is included under the report of the activities of the Personnel Bureau. Following are the reports of the various bureaus of this division for the year ending December 31, 1940:

Finance Bureau

Following is a statement of financial operations for the fiscal year ending June 30, 1940, including State appropriations for the general expenses of the military and naval establishment, expenses for armory maintenance and Federal funds allocated and expended during the same period:

Bureau of Equipment and Supply

The reorganization, mobilization and induction of the New York National Guard naturally involved a considerable amount of work in addition to the routine of receiving and distributing supplies which is the normal function of the New York State Arsenal. Added to this was the loss by induction of many members of the Arsenal staff who were members of the New York National Guard, and the fact that the Guard was authorized to expand to Peace Strength on mobilization, which gave it a final strength of 35,294 officers and men. While some of the organizations will not be inducted until after the first of next year (1941) their needs have been anticipated insofar as available stocks permit, and equipment has been and is being shipped them daily. Through close cooperation with supply authorities of the War Department and Regular Army, it has been possible to have all members of the New York National Guard uniformed and basically equipped prior to their departure from their home station.

In 1939, the Chief, National Guard Bureau, directed the retention and storage of surplus, excess and obsolete property, with a view to its utilization on M day. His instructions were complied with, and as a result of this prudent policy it was possible not only to uniform our own troops, but to turn over to the New York General Depot some 16,500 overcoats, 10,000 melton and wool coats, and 8,000 breeches. This clothing was all serviceable, but had been rendered surplus or obsolescent by changes in type and material (it was largely of World War type). Considerable quantities of Engineer, Pioneer, Signal Equipment, and Motor Transport parts which had been rendered surplus by the conversion of our organizations, were similarly disposed of. This extra curricula activity obviously entailed considerable work since it had all to be catalogued, packed and shipped, and the usual documents accompanying a transfer of property had to be prepared.

It is believed that a detailed report of the activities of the several sections will prove interesting and indicative of the volume of business transacted.

Motor Transport Section

A total of 177 Federal vehicles have been overhauled for major repairs (3rd and 4th echelon work). In addition, the following have been completely overhauled for regiments in the metropolitan area:

- 136 generators
- 52 starting motors
- 123 distributors
- 146 fuel pumps
- 203 carburetors

This Section takes care of welding, brazing, straightening of fenders, chassis and bodies, for all units in this area, as well as all carpenter work (body repairs, etc.). Machine shop work coin-

cidental to repair of vehicles, such as special units installed on vehicles by the Federal government; upholstering, curtain and cover repair for vehicles of all organizations throughout the state, is also a function of the section.

The disassembling of two surveyed vehicles and the cleaning and storing of usable parts was accomplished during this period. The unloading of Federal vehicles from freight cars was performed by this section during 1940; 12 2½-ton Federal trucks, 12 tractors, 52 Dodges were unloaded. Men were sent to factories to pick up Federal vehicles for delivery to organizations of the New York National Guard.

As required by regulations, this section maintains records of all Federal vehicles in the State of New York, as to their identity, serviceability, their location, and the cost of repair maintenance of each vehicle.

In addition to the above duties, as in all other shops, a great number of incidental repairs and adjustments are made, such as repairing tubes, changing tires, greasing vehicles, washing and cleaning vehicles, replacing broken glass, tuning engines, etc.

Transportation Section

Transportation of Federal property required the issue of 1,825 Government Bills of Lading, (a 50% increase over 1939). Troops to and from camps of instruction, special service schools and other activities, used 355 Government Transportation Requests.

This section assisted Headquarters, New York National Guard and First Army Headquarters, prior to the maneuvers, in planning the train schedules, freight schedules for military impedimenta and horses, points of entraining and detraining, etc., also, for the troops training at Camp Smith, Peekskill, N. Y., and Fort Bragg, N. C.

A resume of costs for the maneuvers and the intra-state and inter-state freight shipments is listed below:

a. Cost to transport officers and men to and from the maneuvers	\$84,745 00
b. Estimated freight charges to and from the maneuvers	26,523 00
c. Cost to transport the horses from the maneuvers	2,692 00
d. Intra-state and inter-state shipments	13,500 00
Inter-state shipments (Ordnance Property only)	2,000 00

\$129,460 00

The above figures, etc., do not include the normal field training at Camp Smith, Peekskill, N. Y., at which camp approximately 5,249 officers and men trained, for which train schedules, etc., had to be planned.

Finance Section

All Federal funds appropriated for the use of the National Guard are disbursed by the U. S. Property & Disbursing Officer, who is also the contracting officer for the State of New York. The Finance Section makes procurement of all supplies and materials not furnished from stock or Federal depots, and makes all disbursements

of Federal funds in the settlement of such obligations, together with payment of all personal services of caretakers, accounting and custodial employees, including the pay and allowances of troops in performance of field training. A summary of receipts and disbursements follows:

RECEIPTS AND DISBURSEMENTS—1940

1940	Allotments	Disbursed Regular Account	Disbursed Field Training	Disbursed Construc- tion	Total Amount Disbursed
(Bal. forward as of January 1, 1940)	\$215,091 10

October	2,432 72
November	1,840 98
December	3,050 83
Total	\$41,550 14

Sixty-two (62) contracts were negotiated, 1126 Purchase Orders and 309 Delivery Orders were issued to procure supplies, materials and services during 1940.

Eight hundred ninety-four (894) cases of injury and disease incurred during field training were recorded during the calendar year of 1940. All such cases require the line of duty status to be passed upon by the Chief, National Guard Bureau, and if found "in line of duty", settlement of all medical and hospital expenses in connection therewith are made from Federal funds.

Funds for expenses, Camps of Instruction, are secured on esti-

mates compiled and submitted by the U. S. Property & Disbursing Officer to the Chief, National Guard Bureau. The Camp Committee of the National Guard Bureau requires the appearance of the U. S. Property & Disbursing Officer before that body to defend all items appearing therein.

Official accounting records were subjected to two separate inspections during 1940 by the Inspector General, 2nd Corps Area, and in both cases the audit disclosed the accounting and disbursing routine to be in strict accordance with all existing laws and regulations on the subject.

Construction Section

The following construction projects were planned and completed during the past year:

PINE CAMP

Electrical Materials.....	\$1,975 26
Water Distribution System.....	10,853 00
Installation of Electric Light Poles.....	620 00
Sanitary Sewers—Sewage Disposal System.....	63,083 00
Maintenance and Repair of Campsite.....	235 00
Clearing and Grading Brigade Camp.....	900 00
Combination Bath Houses and Latrines.....	63,918 00
Total.....	\$141,584 26

MANITOU RANGE

Maintenance and repair.....	\$1,328 32
Maintenance and repair.....	5,000 00
Total.....	\$6,328 32

CAMP SMITH

Maintenance and repair work—Target Range.....	\$2,960 00
Maintenance and repair work—Target Range.....	627 00
Maintenance and repair work—Target Range.....	4,090 69
	\$7,677 69

Property Section

Requisitions received, edited and processed—4,900. This involves checking validity as to stock on hand in organization, quantities allowed and available, preparation of shipping tickets, etc.

Inventory and Inspection Reports.....	1,230
Reports of Survey.....	780
Short Form Report of Survey.....	138

These involve designation of Surveying or Inspecting Officer, review of evidence, preparation of affidavits, approval or disapproval of findings, reference to National Guard Bureau and Procurement Division, Treasury Dept.

Forms WDMB No. 18—605. These cover losses of articles of clothing and equipment and payment therefor.

Records Section

This section maintains a complete Stock Record account of Federal and State Property, involving approximately 9,000 vouchers and 13,000 separate items.

In addition, records are maintained of property placed on Inventory and Inspection Reports and Reports of Survey which is ordered sold or exchanged.

Complete Stock Record Accounts of all property held on Memorandum Receipt by responsible organizations and camps are also maintained, involving approximately 50 accounts, 6,750 vouchers, and 13,000 separate items.

The preparation of periodical and special reports required by the War Department and National Guard Bureau are also functions of this section, which prepared accounts and assisted Federal Auditors in making a complete audit of the U. S. Property and Disbursing Officer's property accounts.

Prior to the induction of each organization of the New York National Guard into the Federal service, the Supply Officer was furnished with a consolidated statement of his account together with copies of all pending vouchers which might effect such account. In connection with these statements, it is interesting to note that no major difference has appeared in any account, and all are either completed or well on the way to completion; that is, the transfer of the account to Federal accountability, thus relieving the State of New York.

Warehouse Section

This section is charged with the receipt, warehousing, and shipment of all property. It maintains, by means of Stock Record Cards, a running inventory of all property in its possession. Over 6,000 shipments to camps and organizations were made during 1940, and several thousand incoming shipments were received. These require, in addition to the actual physical handling of the property, the preparation in each case of Tally-in or Tally-out sheets. An idea of the volume and variety of items handled may be gleaned from the following extracts of articles received in 1940. Actually, all these items have since been or are in process of being reshipped to organizations after having been repacked in the desired quantities, sizes, etc., etc.

Bags, barrack.....	6,460
Bags, water, canvas, w/cover and hangers.....	150
Belts, cartridge, cal. 30, dismtd. M. 1910.....	3,500
Belts, pistol, or revolver M. 1912.....	6,250
Belts, waist, web M. 1937.....	12,500
Blankets, wool, OD 3½ lb.....	17,843
Boots, leather, EM.....	242
Cans, meat, M. 1910.....	7,000
Cans, milk, 10 gal.....	1,586
Canteens, M. 1910.....	7,300
Caps, white, bakers and cooks.....	635
Caps, field, serge, EM.....	3,476
Caps, service, woolen.....	3,782

Caps, winter, EM.....	8,060
Coats, mackinaw, OD.....	3,174
Coats, serge, 18 oz.....	978
Coats, wool service, M. 1939.....	2,616
Cots, canvas, folding.....	6,246
Covers, mattress, cotton.....	8,348
Gloves, wool, OD.....	14,604
Hats, service, OD.....	7,044
Hats, working, denim.....	8,080
Haversacks, M. 1910.....	6,000
Jumpers, working denim.....	5,831
Leggins, canvas, dismt'd. M. 38.....	12,219
Neckties, black, EM M. 36.....	6,500
Overshoes, arctic.....	5,980

Trousers, wool, 20 oz.....	1,352
Trousers, working, denim.....	7,456
Drawers, woolen, winter.....	15,580
Undershirts, woolen, winter.....	6,170

Salvage Section

This section assembles and prepares for sale articles of Federal property which have been directed sold by competent authority. It prepares and circulates the invitations to bid and conducts the sale. Its activities resulted in the recovery of some \$22,000.00 during 1940, which funds are immediately turned over to the Treasurer of the United States to whom all checks for such property are made payable by the purchaser. The labor involved in handling these sales is a proper charge against the proceeds, and has been so paid.

Building Maintenance Section

A cashier's cage has been installed in Room 1, Finance Section, to be used in the safe disbursement of monies. It also provided space for storage and additional protection of the office safe.

The fire prevention system was deemed inadequate and steps were taken to acquire twenty (20) additional fire extinguishers, which have been fixed at various points in the building. To further augment this apparatus, sand pails were placed at strategic locations in the building. A fire alarm system has been planned and submitted to the Bureau of Architecture which when installed, will give added protection for the properties stored in the Arsenal. A fire drill organization is now in formation which will add to the further protection of the Arsenal, and the personnel connected therewith.

Directional signs have been placed throughout the building, making for convenience of persons visiting the Arsenal.

Under reallocation of office and working space, a new office is in process of construction by building employees on the 4th floor, for use of the Warehouse Section.

In order to improve working conditions for mechanics working in the garage, it was deemed advisable to build an inclosure for automobile truck washing. Heretofore, the water flowed freely all over the garage floor. This situation has been remedied by the building of an 8" wide by 20' high concrete block partition, thereby confining the washing within a specified area. Building employees were used to effect this construction.

Plans are being drawn for four (4) exterior Guard houses, to be located at various entrances around the Arsenal. These Guard houses will be constructed by labor from the personnel of the Arsenal.

Protective flood lighting system is about to be installed on the outside of the building, which it is believed, will give additional protection to the properties within the Arsenal. This lighting system is also to be installed by building employees.

For more accurate control of electric expenditure, it was deemed advisable to put individual pull switches on each light in the Arsenal. This has been accomplished, and the result will be a definite saving in the electric bill monthly.

With the formation of the New York Guard, a force of some 12,500 officers and men (about 50% of the authorized strength of the New York National Guard) the activities at the New York State Arsenal will continue since Federal property will be issued to these troops, and in addition, the State will also issue certain property. This will require that the usual system of supply and records be maintained.

The transportation in use at the Arsenal consists of Federal vehicles which will, with the induction of the New York National Guard, be withdrawn by the organizations to which they are assigned. Request has been submitted for the purchase by the State of sufficient trucks to permit of the normal functions of supply for the New York Guard.

Bureau of Grounds and Structures

NEW ARMORY CONSTRUCTION

After a very comprehensive and complete study, replacement of heating systems, new armories or reconstruction of old armories are required in the following priority:

Rochester, 209th Coast Artillery (AA).....	\$450,000 00
Buffalo, 209th Coast Artillery (AA).....	2,000,000 00
Buffalo, 174th Infantry (new heating system).....	72,000 00
Brooklyn, 186th Field Artillery (addition to heating system).....	60,000 00

Mount Vernon Field Artillery (new).....	300,000 00
Auburn (new).....	400,000 00
Poughkeepsie Field Artillery (new).....	300,000 00
Geneseo (administration building).....	100,000 00
Dunkirk Naval Militia (new).....	250,000 00
Buffalo Naval Militia (new).....	300,000 00
Yonkers (addition).....	50,000 00
Albany Anti-Tank Battalion (addition).....	50,000 00
Rochester Infantry (addition).....	150,000 00
Niagara Falls (addition).....	150,000 00
Middletown (addition).....	150,000 00
Hempstead (addition to drill hall).....	150,000 00

Explanation

Details with respect to requirements indicated above, are as follows:

Rochester, 209th Coast Artillery (AA).—This detachment is now occupying an armory which was constructed for four units of cavalry. It is now occupied by ten units of Coast Artillery (AA) and is entirely inadequate for the proper training of the personnel and the proper storage of material. An addition should be provided at a cost of approximately \$450,000.00.

Buffalo, 209th Coast Artillery (AA).—This detachment is now occupying a structure in the City of Buffalo at an annual rental of \$6,000.00. It is a very old building and just to make it into a makeshift armory would cost approximately \$40,000.00 and then it is doubtful if it would accommodate all the material. There are seven units of this detachment stationed in Buffalo. A modern armory should be provided which would insure adequate training facilities for the personnel and proper storage for material.

Buffalo, 174th Infantry.—Present system inadequate to properly heat the building. Estimated cost, \$72,000.00.

Brooklyn, 186th Field Artillery.—Present system inadequate to properly heat the building. Estimated cost, \$60,000.00.

Mount Vernon Field Artillery.—Present structure built in 1898 (is 42 years old). Originally built for one infantry unit. At present occupied by a battery of field artillery. Is the smallest armory and entirely inadequate for present day requirements. A new armory should be provided at a cost of \$300,000.00

Auburn.—Present structure built in 1873 (is 67 years old). Originally built for one infantry unit. At present occupied by three infantry units. A new armory should be provided at a cost of \$400,000.00, plus cost to the county for land.

Poughkeepsie Field Artillery.—Present structure built in 1891 (is 49 years old). Originally built for one infantry unit. At present occupied by two units of field artillery. A new armory should be provided at a cost of \$300,000.00.

Geneseo.—Troop B, 101st Cavalry, is now occupying a converted farm house which is entirely inadequate for the training of the personnel, and for the proper protection against fire and theft of

the Federal and State property stored therein. A modern fireproof administration building should be provided at a cost of \$100,000.00.

Dunkirk Naval Militia.—A separate division of the Naval Militia is occupying rented quarters which are not adequate for the proper training of the personnel. A modern armory should be provided at a cost of \$250,000.00, plus cost to the county for land.

Buffalo Naval Militia.—The 9th Battalion, Naval Militia, is at present occupying quarters in the armory of the 174th Infantry. This building is overcrowded and a new armory should be provided at a cost of approximately \$300,000.00.

Yonkers.—This armory was originally constructed to house one infantry unit. At present occupied by three units of Special Troops. An addition to the Administration building should be provided at a cost of \$50,000.00

Albany Anti-Tank.—An addition, at a cost of \$50,000.00, should be made to this armory in order to provide quarters for Brigade Headquarters and also to provide storage space for motor vehicles.

Rochester Infantry.—An addition, at a cost of \$150,000.00, should be provided for this armory in order to properly house the units therein stationed.

Niagara Falls.—An addition to this armory is necessary in order to properly house the units therein stationed. It is estimated this addition could be built for \$150,000.00.

Middletown.—Present structure built in 1890 (is 50 years old). Originally built for one infantry unit, now occupied by a battery of field artillery. An addition to this armory should be provided at a cost of \$150,000.00.

Hempstead.—An addition to the drill hall of this armory to cost \$150,000.00 in order to provide adequate facilities for the proper training of the troops quartered therein.

Appropriations made by the Legislature for 1940, for armories, etc.:

Construction of new armory for Field Artillery Units, Syracuse.....	\$275,000 00
Additions to and reconstruction of Infantry Armory, Utica.....	250,000 00
	\$525,000 00

Total armories 102.

Total number of armories leased for subdivision of the National Guard and Naval Militia unable to secure accommodations in the foregoing is 4.

The active military establishment of the State is housed in the 87 buildings indicated above.

Storage facilities are provided at the United States Naval Reservation, Sackets Harbor, for material of the 13th Fleet Division, Naval Militia.

Arsenals, Etc.

Arsenals, camp grounds and rifle ranges, owned by the State are as follows:

Brooklyn.—State Arsenal, erected 1926. Used by The Adjutant General of the State as an arsenal and storeroom. Approximate valuation, \$1,000,000. Floor surface, 166,000 square feet.

Pekskill.—State Camp Ground and Rifle Range. For use of infantry and such other troops as may be designated. Approximate valuation of land and buildings \$235,000. Approximate area 1,886 acres. One hundred and eighty-seven targets.

Guilderland Rifle Range.—Approximate valuation, \$65,000. Acreage, 238 acres.

In addition to the above, camp grounds are provided in the State for cavalry, artillery, and air service on Federal reservations at Great Bend, Oswego, and Fishers Island.

Rifle Ranges

Field Rifle Ranges for the use of troops of the National Guard and Naval Militia are leased by the Federal government as follows:

STATION OF TROOP	Annual rental	Location	Number of targets	Ranges (yds.)
Amsterdam.....	\$200 00	Town of Mohawk.....	3	200 to 800
Auburn.....	150 00	Town of Throop.....	3	200 to 600

Walton.....	100 00	Walton.....	3	200 to 1,000

Landing.—A landing field for Air Corps of the National Guard is leased by the Federal government at Fulton, N. Y., at an annual rental of \$250.

Firing Point for 212th C. A. leased from Ward B. See, Lakeview Road, Oswego, at an annual rental of \$100, for period July 1, 1939 to June 30, 1940, no renewal option.

Total leased rifle ranges, 18.

Total floor space of all buildings, exclusive of structures at camps and rifle ranges, is 6,647,844 square feet.

The approximate valuation of military grounds and structures owned by the State and City of New York is \$39,895,768.

Veterans and Soldiers Affairs**PENSIONS AND CLAIMS***Blind Veterans' Fund*

There are on this date a total of two hundred and nine (209) veterans of all wars and widows of veterans who receive five hundred and no/100 (\$500.00) Dollars, per annum, under the provisions of Article 1-B of the Military Law. Twenty-six (26) new applications were filed since the last report. Nineteen (19) were approved and certified to the Comptroller, six (6) were disallowed, and one (1) is pending investigation. Five (5) recipients of this annuity died during the past year.

Pensions

Sixty-one (61) persons are at present receiving pensions under the provisions of Section 220, Military Law, which provides compensation for permanent disability incurred in line of duty in the National Guard or Naval Militia under lawful orders. Since the last report ten (10) claims for pensions were disallowed; three (3) applications for increase of pension were disallowed, and one (1) claim for pension is now under investigation.

Claims

Eleven (11) claims for pay and medical care on account of disability incurred in line of duty were granted during the past year to members of the Military and Naval forces of the State under the provisions of section 223, Military Law. Three (3) claims were disallowed, and two (2) are now under investigation. Six (6) claims for hospitalization and medical care for armory guards have been paid during the past year.

Retirements

Under section 19-A, Military Law, eight (8) applications for retirement at half pay were approved during the past year, all of which were for armory employees, and one (1) application for retirement was disallowed. There are now forty-eight (48) persons receiving retirement pay under the provisions of this law. Two (2) retired employees died during the calendar year 1940.

Under section 219-A, Military Law, there are six (6) retired officers of the New York National Guard, former employees of this Division, and one (1) widow of a deceased officer of the New York National Guard who are now receiving compensation under the provisions of this section of the law. One (1) application for retirement of an officer of the New York National Guard, an employee of this division, was granted during the past year, and one (1) application for the widow of a deceased officer of the New York National Guard, an employee of this division, was granted during the past year.

Motor Vehicle Accidents and Claims Resulting Therefrom

Sixty-eight (68) motor vehicle accidents incidental to the training of the National Guard were reported to this office during the past year. Of that number forty-five (45) were in connection with the conduct of the 1st Army Maneuvers and Field Training at State Camps, and twenty-three (23) were in connection with the Armory Training. Those incidental to the first Army Maneuvers, thirty-two (32) in number—thirteen (13) were completed and referred to The Rents and Claims Officer, First Army, for appropriate action, and nineteen (19) cases are still being processed and ultimately will be referred to The Rents and Claims Officer, First Army; those incidental to Field Training at State Camps, thirteen (13) in number, are being processed and will eventually be forwarded to the National Guard Bureau for settlement, and those incidental to Armory Training, twenty-three (23) in number—nine

(9) of that number are a State liability and have been referred to the Court of Claims, and upon fourteen (14) of those cases no formal claim has been made.

VETERANS' RELIEF

Under Chapter 589, Laws of 1922, a commission to be known as the New York Veterans' Relief Commission, consisting of The Adjutant General, to be chairman thereof, the Comptroller and The Attorney General, was created for the purpose of distributing relief to sick and disabled veterans of the World War. For the purpose of administering this act \$1,000,000.00 was appropriated. Under chapter 326, Laws of 1923, this commission was abolished and a separate bureau was created in the office of The Adjutant General to be known as the Bureau for the Relief of Sick and Disabled New York Veterans. Under this chapter an additional million dollars (\$1,000,000.00) was approved. Of this total \$68,891.29 reverted to the State treasury through lack of re-appropriation. Under chapter 605, Laws of 1928, Chapter 41 of the Laws of 1909 entitled "An act in relation to the militia, constituting chapter 36 of the Consolidated Laws" was amended by adding Article 1A, thus establishing the administration of relief as part of the Military Law.

In order to carry out the provisions of the above law the Legislature under chapter 708, Laws of 1931, appropriated \$75,000.00. In 1932, \$100,000.00 was obtained through the Temporary Emergency Relief Administration from funds appropriated under chapter 567. In 1933, \$50,000.00 was appropriated under chapter 120 and in 1934, an appropriation of \$200,000.00 was received from the Temporary Emergency Relief Administration from funds appropriated under chapter 273 and \$50,000.00 from General Funds under chapter 20. Under chapter 930, Laws of 1939 and amended by chapter 877, Laws of 1940, \$100,000.00 was appropriated making the gross total available of \$2,506,169.71.

Since the institution of the Bureau many thousand requests for relief from sick and disabled, needy, unemployed, honorably discharged veterans of the World War have been received. These applications were thoroughly investigated and a majority of them were rejected due to the fact that they did not come within the meaning of our law. However, to date 12,298 cases were approved of which 10,689 are active or have been paid the maximum allowed under our law and 1,609 are in our rejected files for various reasons.

Actual payments for relief of sick and disabled veterans to date amount to \$2,113,821.18. Expenses of relief commissioner and administration to date are \$333,011.14. The expendable balance is \$59,337.39 in chapter 930, Laws of 1939 and amended by chapter 877, Laws of 1940.

The Bureau is represented by a resident commissioner in each assembly district throughout the State. The commissioner makes the necessary investigation to determine the eligibility of an applicant to be given relief. He prepares all papers, makes the relief

payments, renders the periodical reports and returns and discharges the multiplicity of duties that must necessarily result from the position.

These gentlemen serve without pay; they give their time and efforts to the work without recompense and altogether are rendering a service to the State of a high patriotic value.

Recruiting Bureau

The activity of this bureau continued active during the summer and early fall of the year due to the induction of the National Guard. Only men of the highest type obtainable are being enlisted.

Bureau of Files, Mail and Distribution

During the year there were 1758 issues of publications on training, army regulations and other pamphlets received from the Federal Government by this Bureau and distributed to the units of the National Guard of this State, this in addition to the necessary Federal forms required by the National Guard. There were also caused to be printed and distributed, all State forms used by the National Guard in addition to the General Orders, Bulletins and Training Circulars originating in this office and in the office of the Commanding General, New York National Guard. Of this material, approximately 400 advance copies of said orders and bulletins which originated in this office were mimeographed. Also about 597 separate specification project bids were mimeographed during the year. Approximately 38,481 pieces of mail of all types were sent out by the office during the past year.

Bureau of War Records

The activities of this Bureau are those described in the report of this Bureau for the year 1935.

The Bureau is still engaged in compiling World War records by counties, in addition to its normal activities.

Bureau of World War Records

Under constitutional authority a bonus for the New York State Veterans of the World War was provided pursuant to Chapter 19, Laws of 1924. The sum of \$45,000,000 was realized from the sale of bonds authorized by law, this sum having been augmented by premiums amounting to \$659,565, the latter sum also being appropriated for bonus purposes under Chapter 208, Laws of 1925.

A Commission, consisting of The Adjutant General, the Comptroller, the Treasurer and the Attorney General, administered the disbursement until April 22, 1926 when its functions were absorbed by The Adjutant General.

Each eligible veteran, upon application, received the sum of \$10.00 for each month of service with the colors, between April 6, 1917 and November 11, 1918, with \$150.00 as the maximum payment. Under Chapter 209, Laws of 1925, an additional appropriation of \$2,500,000 was made. Chapter 26, Laws of 1925, added the next of kin to those who were killed or died in the service or prior

to February 28, 1924, as eligible to receive the bonus. Under Chapter 267, Laws of 1926, a further appropriation of \$300,000 was approved. Chapter 676, Laws of 1931, extended the time for filing claims to July 1, 1932 and made an appropriation of \$250,000. At an extraordinary session of the Legislature in 1931 to carry out the provisions of an act creating a temporary emergency relief administration, the sum of \$584,000 was appropriated by Chapter 799 for the payment of bonuses, \$30,000 of which was made available for administration expenses. Under Chapter 120, Laws of 1933, an additional appropriation of \$90,000 was made for bonus payments and \$25,000 for administrative expenses. The unexpended balances of these appropriations were reappropriated each year by the Legislature and were made available in the Executive Budget of 1936, Chapter 15, Laws of 1936. This chapter amended by a substitute bill Chapter 360, Laws of 1936, eliminated these reappropriations and refunded the unexpended balances amounting to \$72,824.92 to the General Fund. By Chapter 875, Laws of 1936, \$10,000 of this refunded amount was reappropriated and made available for one year beginning July 1, 1936. This action of the Legislature automatically closed the Bureau on June 30, 1937, and suspended the payment of bonuses on that date. Chapter 40, Laws of 1937 reappropriated \$200 of the unexpended balance of the appropriation made by Chapter 875, Laws of 1936, for incurred liabilities and created the Bureau of World War Records in the Adjutant General's Office to take over the records of the Bonus Bureau. Chapter 700, Part 2, Laws of 1938 appropriated \$1,111.33 for the payment of suspended claims which had been approved during the previous year and Chapter 460, Part 2, Laws of 1939 appropriated \$1,045.67 to pay claims approved during the year of 1938, Chapter 877, Part 2 and Chapter 125, Part 2, Laws of 1940 appropriated a total sum of \$1,433.00 to pay claims approved during the year of 1939. During the operation of the Bureau there has been appropriated for bonus purposes \$49,422,155.00 out of which there has been paid in bonuses and administrative costs the sum of \$49,349,325.42 and in a refund to the General Fund, \$72,829.58.

Under the original law no claims could be received after May 1, 1927. The Bureau reopened April 23, 1931 and closed for the receipt of applications July 1, 1932, during which period 10,135 new claims were received.

The total claims received was 427,799 or 82% of the 518,864 veterans credited to the State. Of the number received 9,275 or .0215% were rejected as not entitled to the bonus. There are still 4,872 or .0115% of the claims received awaiting action by the Bureau due to the delay of the veteran in supplying required data. Of the total received 413,660 or 96% were paid at an average cost of \$1.85 per claim. Of the total veterans entitled to make application 91,065 or 18% failed to make a claim although 14,953 of this number applied for blanks. Their requests, however, had to be denied owing to the fact that they applied after the time limit, July 1, 1932. The average payment per claim was \$117.23 or 78% of the maximum amount allowed, \$150.00. Of the total claims re-

ceived, 25,257 applicants were not credited by the authorities in Washington as having enlisted from the State of New York.

Of the claims awaiting action there are being received from time to time letters from the applicants supplying sufficient data to warrant the payment of these applications. During the past year four of these applications in the amount of \$439.34 have been approved for payment. These claims have been segregated and a request has been made to the Legislature for an appropriation sufficient to pay them.

During the operation of the Bureau many activities developed other than the payment of the bonus. Being an office of record, constant inquiries are being received from governmental, civic and veteran agencies and private sources relative to pertinent information regarding the services of veterans and certified copies of papers submitted with bonus applications for use in furthering claims for compensation, tax exemption, civil service examinations, retirements, promotions and for other and varied purposes. From experience with the records of the Civil and Spanish wars, which are still active, undoubtedly the records of this Bureau will remain in demand for some time to come.

Personnel Bureau

The functions of the Personnel Bureau are those described in the report of the activities of this bureau for 1935.

Appointments and separations of officers.—During the year 1940 military commissions and separations were effected as follows:

	New York National Guard		New York Guard	Naval Militia
	Sept. 30	Oct. 1 to Dec. 31		
Officers promoted	186	296	17
Officers appointed from the ranks	116	149	1
Officers appointed from other sources	40	115	*832	12
Officers appointed on State Reserve List	53	61	5
Officers placed on the Retired List	9	9	4
Officers transferred from one arm or service to another	5	244
Officers transferred from the active to Inactive National Guard	30	6
Officers who resigned and were honorably discharged	127	186	43
Officers honorably discharged under Section 81, M. L.	9	2
Officers who died during year	10	2	1
Officers honorably discharged on Surgeon's Certificate of disability	23	18
Totals	608	1,088	*832	83

* Between Nov. 25 and Dec. 31. New York Guard organized October 25, 1940.

The above table indicated that 1,883 military commissions were issued during the year of which 1,453 were issued during the last three months: About 78%. There were 421 officers separated from service of which 218 were effected during the last three months. Ten of these were in the Naval Militia.

Medals for Valor.—No Medals for Valor were awarded during the year 1940.

Conspicuous Service Cross.—Under the provisions of Section 247, Military Law, fifteen (15) Conspicuous Service Crosses were awarded to various applicants during the year 1940.

Decorations for Long and Faithful Service.—During the year 1940, 656 Decorations for Long and Faithful Service of the various classes were awarded to applicants as follows:

Special Class (35 years service)	7
First Class (25 years service)	32
Second Class (20 years service)	85
Third Class (15 years service)	297
Fourth Class (10 years service)	235

The large number of Third Class awards is accounted for by the fact that a large number of applications were necessarily held over from the previous three years because of insufficient appropriation during such years. The present appropriation for the purchase of this decoration is inadequate and should be fixed at not less than \$9,000 due to increasing demands caused by members of the National Guard remaining in service for longer periods than heretofore.

STRENGTH OF THE ORGANIZED MILITIA OF NEW YORK

INDEX TO TABLES OF STRENGTH

National Guard (As of dates of induction of all organizations into United States service together with rosters of officers)	(A)
Naval Militia	(B)
Reserve List	(C)
Retired List	(D)

In submitting this report I would be negligent if I did not express to you the appreciation of the officers and enlisted men of our armed forces, of your splendid leadership as Commander-in-Chief in the support of National Defense.

Respectfully submitted,

AMES T. BROWN,
Brigadier General,
The Adjutant General.

APPENDIX A

Report of the Commanding General, New York National Guard

HEADQUARTERS 27TH DIVISION
OFFICE OF THE COMMANDING GENERAL
FORT McCLELLAN, ALABAMA

January 3, 1941.

His Excellency, The Governor of the State of New York,
Capitol Building,
Albany, New York.

Dear Governor:

In accordance with the requirements of Par. 6, Regulations No. 80, as amplified by the instructions of the Adjutant General of the State, I submit herewith the following report of the condition of the New York National Guard for that portion of the calendar year 1940 expiring October 15th, the date on which I was inducted into the federal service of the United States:

1. *General.* In my 1939 Annual Report, I made mention of the fact that that year had been the most active one in the history of the NYNG since the termination of the World War. This activity increased shortly after the first of the year, caused by the participation in the First Army Maneuvers and the legislation passed by Congress calling the National Guard of the United States into active service for twelve months. Again I am happy to report that all of the many demands, mostly on very short notice, were met with promptness and precision. Based on the character of performance, on extensive personal observation of our troops in the field and in their armories, on the reports of inspections made to me by the Regular Army instructors detailed to the State, and by my own staff officers, I am pleased to report that the Guard has been maintained at its highest state of efficiency and readiness to accomplish the training objective set forth by higher authority. Such deficiencies as were discovered were minor in character, and prompt action was initiated to correct them.

2. *Strength.* On October 1, 1939, the authorized strength of the NYNG was established by Executive Order of the President at 25,624 officers and men. While our forces did not at any time during the year reach this figure, we did, during the month of September, 1940, attain a strength of approximately 24,500.

3. *Attendance.* During the current year, the percentage of attendance at armory drills was excellent. Due to the fact that part of the records of weekly drills is at the New York headquarters of the National Guard, detailed figures are not available, but the general average exceeded 90%, which compares most favorably with that of any other state, as well as with our records of the past years.

You will no doubt recall that the War Department required twenty-one days' field training in 1940, as compared with the usual fifteen days for former years. When this change in policy was announced by the War Department, there was doubt in the minds of some of our officer personnel that our troops might have difficulty in making this additional sacrifice of time. Such, however, was not the case. All of our forces met the additional demand with the same cheerfulness which has characterized their other duties, and our attendance for field training was just a few points under 95%.

There can be no doubt of the high morale existing in the State military forces when such splendid attendance at all ordered duty can be achieved.

4. *Organization.* Many changes in the organization of the NYNG have been required by the War Department during the current year. At the start of the year, we had ten infantry regiments. The War Plans Division of the General Staff decided that four of these regiments were in excess of their plans for the development of the Army of the United States, and it was necessary to convert them into other arms. As a result, the 107th Infantry was converted into the 207th C.A. (AA); the 369th Infantry into the 369th C.A. (AA); the 106th Infantry into the 186th F.A. (155-mm Howitzer), and the 14th Infantry into the 187th F.A. (155-mm Howitzer). The 87th Infantry Brigade, as it existed prior to these conversions, became the 71st Field Artillery Brigade, to which were assigned the 186th F.A., the 187th F.A., and the 258th F.A. Those portions of the 106th and 14th Infantry which were surplus to the strength of the newly-constituted field artillery regiments were reorganized as follows: the three companies and the one battalion headquarters, 14th Infantry, stationed at Hempstead and Flushing, were organized into the 102nd Antitank Battalion, and the surplus units of the 106th Infantry became the 101st Military Police Battalion.

During the year we completed the organization of the authorized units for the 21st Cavalry Division. During August, the War Department directed the disbandment of the four cavalry divisions in the NGUS, and restricted cavalry in this State to one regiment. The type of the regiment also was changed, so that the 101st Cavalry now consists of a regimental headquarters, a headquarters troop, service troop, a band, a medical detachment, and two squadrons. The first squadron is a horse squadron, *portee*, and the three troops are located, one troop each, in Brooklyn, New York, and Geneseo. The second squadron is motorized, and consists of two

reconnaissance troops and one motorcycle troop. They are located in New York and Brooklyn. The 121st Cavalry, less the Genesee troop, was disposed as follows: the troops at Albany, Utica, and Syracuse were converted into the 101st Antitank Battalion; the two troops at Rochester, New York, were transferred into the new 209th Coast Artillery (AA). The troops at Buffalo, New York, furnished the nucleus for the 102nd Separate Battalion, C.A. (AA). The Headquarters, 21st Cavalry Division, and the Headquarters, 51st Cavalry Brigade, were absorbed into the new 102nd C.A. Brigade (AA) Headquarters and Headquarters Battery.

During the present session of Congress, legislation was passed authorizing the creation of four additional antiaircraft regiments. New York State was allotted one of these new regiments, and with your approval we decided to organize this regiment partially in Buffalo and Rochester. This organization was completely organized upon my departure from New York.

During the year authority was received from the War Department to organize an additional medical regiment. At the same time, a reduction in units of the present 102nd Medical Regiment was directed. Instead of each battalion having three companies, the number was cut to two each. Using these three surplus companies as a nucleus, we formed the 134th Medical Regiment at existing stations. The 102nd Medical Regiment, the parent organization, is composed of former units having station at White Plains, New York City and Rochester, while the new 134th Medical Regiment occupies the armories at Albany, Ticonderoga, Syracuse and Corning.

Another change, minor in character, involved the 27th Division Tank Company. Tank companies are no longer divisional troops, and have been organized into separate battalions, as a result of which the 27th Division Tank Company became Company "A," 191st Tank Battalion. The other companies in this Battalion come from the 26th, 28th and 29th Divisions.

Due to the conversion of the 106th and 107th Infantry Regiments, a reorganization of the 27th Division became necessary. The 10th Infantry (now redesignated as the new 106th Infantry) was substituted in the 53rd Brigade for the 106th, and the 165th Infantry replaced the 107th Infantry in the 54th Brigade. The 87th Infantry Brigade, as stated previously, became the 71st Field Artillery Brigade; the 54th Infantry Brigade, formerly at Buffalo, New York, was converted to the 87th Infantry Brigade for service with the 44th Division, and the 93rd Infantry Brigade replaced the 54th Infantry Brigade, under that designation, in the 27th Division.

There were many changes in high-ranking officer personnel in the NYNG during the year 1940. The greatest loss to the service was the sudden and untimely death of Major General Walter G. Robinson, the Adjutant General of the State, in New York City, on January 24th.

Bearing in mind the fact that the entire Guard was to be called into active service, and in order to insure that all field officers

would be physically prepared for such service, I arranged with the Commanding General, First Army, Lieutenant General Hugh A. Drum, for the examination of these officers, during the field training period, by a board of medical officers composed of surgeons from the Regular Army, National Guard, and the Reserve Corps. All field officers, and such officers of other grade as were in service under waivers for physical defects, were examined, and twenty-eight were disqualified. The wisdom of this action has been well substantiated by the small number of disqualifications made by the Regular Army examining boards upon the induction of those organizations of the NYNG now in federal service.

5. *Service in Aid of Civil Authorities.* During the year 1940, there was no occasion for the use of any military forces of the State in aid of civil authorities.

6. *Training.* There was no change in the War Department training objective in 1940, nor was there any let-up in our efforts to achieve a high training level. That the National Guard of this State has been a leader in training efficiency is borne out by reports of Army inspectors on those organizations now in federal service.

The First Army Maneuvers, held in the vicinity of Canton, New York, during August, 1940, called for the participation of the largest number of NYNG organizations over a long period of years. This resulted in only four organizations being sent to Camp Smith for training. Due to the limited terrain available for field exercises and maneuvers, we were able to arrange with the Commanding General, Second Corps Area, to send the two infantry regiments scheduled for Camp Smith to Camp Upton, New York, for ten of their twenty-one days' training. With more than 5,000 acres available for maneuver purposes, we were able to accomplish splendid results. These two regiments were the 10th and 14th Infantry. The 207th Coast Artillery and the 369th C.A. were trained at Camp Smith, each regiment devoting the first part of its tour to intensive small arms practice, and the balance of the period to fundamental and basic training in antiaircraft coast artillery. Due to the fact that the War Department was unable to furnish any of the antiaircraft weapons, arrangements were made with the 212th C.A. to furnish a small instruction group of officers and men, together with searchlights, sound locator, three-inch antiaircraft guns, and .50 calibre machine guns. Much progress was made, and these two recently converted infantry regiments were sent off to a good start in the new arm.

I had tried for a long time to prevail upon the War Department to send the 258th Field Artillery to a training camp where it could conduct its service practice at land targets and with normal ranges. As you will recall, this regiment is armed with the 155-mm. gun, with an extreme range of more than ten miles. Target areas for such a weapon are very few in the entire country. Authority was received late in the spring to have this regiment train at Fort Bragg, North Carolina. For the first time since the World War it

had an opportunity to conduct its service practice under normal conditions. Under the leadership of its new colonel, Lewis L. Leavell, it accomplished splendid results, as evidenced by the field inspection report received at the conclusion of its training.

The 245th C.A., which normally had been sent to Fort H. G. Wright, Fisher's Island, New York, was ordered to train at Fort Hancock, Sandy Hook, New Jersey. This change in training station was required by the War Department in view of the fact that Fort Hancock was the mobilization station for this regiment, and it was deemed necessary that it become acquainted with the armament at that place. Due to the fact that the coastal ocean traffic off Sandy Hook is much heavier than that which prevails in Long Island Sound, the regiment did not get the benefit of as much service practice as it would have received at Fisher's Island. However, it did become familiar with the fixed armament at the post to which they were called for duty after induction on September 16th.

7. Additional Training. During the current year a considerable increase in the allotment of officers and enlisted men to attend the various service schools was authorized by the NGB. Every arm and service had opportunity to send their personnel in larger numbers than heretofore. The list of this personnel is of record in the office of the Adjutant General of the State.

During the spring the War Department authorized the attendance of NG division commanders and certain members of their staffs at the maneuvers held at various training centers, with the new-type triangular Regular Army divisions. Our Division was authorized to join with the Fifth Regular Army Division in the Fourth Corps maneuvers held on the Fort Benning reservation and general vicinity, in April. I attended these maneuvers with nine of my staff. We were all much impressed with the mobility and heavy fire-power of this new-type division. While the triangular type of infantry division has been adopted in the Regular Army, no major change has been made in the square-type division for the National Guard.

Athletics and Recreation. Except at Camp Smith, there was but little time for organized athletics and recreation at any of the training centers. At Camp Smith, as in the past, every opportunity was taken of the splendid facilities present for baseball, track, swimming, tennis, soft ball, and handball. The usual program, which calls for the showing of the latest motion pictures three times weekly, without cost of admission, was in effect, and the Camp theatre was made available the other days of the week for boxing, wrestling, and amateur vaudeville.

Religious services were conducted at all camps each Sunday.

8. Permanent Plant. When the War Department authorized the formation of the 209th C.A. (AA), the problem for satisfactorily housing this unit naturally presented itself. General Brown, the Adjutant General, promptly made arrangements for the temporary

acquisition of quarters to house the units to be organized in Rochester and Buffalo. There was, however, some delay in securing the full use of these temporary quarters, but with the help of the Officers in Charge and Control of the cavalry and infantry armories in Buffalo and Rochester, and the field artillery armory in Buffalo, we were able to make progress in the organization without serious delay or much inconvenience. It should be borne in mind, however, that this regiment, when it returns from its extended active training at Camp Stewart, Georgia, will require adequate housing. Careful thought and consideration will also have to be given to adequate armory facilities for those of our organizations which have been converted into field artillery, coast artillery, and other arms. The armories now occupied by these converted units were not constructed for the type of organization which they now are.

Another problem that will present itself upon the return of troops from active service in the Army of the United States is that of storage space for motor vehicles and mechanized vehicles in the Greater City of New York. This is a matter that was given considerable attention shortly before the emergency, and is well-known to the Mayor of the City of New York.

In view of present conditions and the uncertainty as to what will develop in the future, I think that the provision of new armories and new garages for housing military equipment should be left in abeyance for the time being, both as it affects the City of New York and the State of New York, and that a careful study and a statement of requirements be prepared after the return of the National Guard to its normal functions in the State.

Camp Smith. Appropriations were made by the Legislature this year for the construction of a new shower bath and latrine for the officers of the Camp staff and the Regular Army officers assigned to duty as instructors. This building was completed prior to the opening of the Camp. Appropriations also were made for the completion of the motor truck park. I had planned to start this construction immediately after the conclusion of the field training period. However, the induction program established by the War Department, together with the twelve-months' duty required of our troops, eliminated the immediate necessity for this truck park, and accordingly the project was suspended for the time being. In my budget request for Camp Smith for 1941, I have reduced the amount sought to cover the maintenance of the plant, feeling that there will be no training at Camp Smith in 1941, other than a possible much reduced use of the various small-arms ranges by the New York Guard.

Pine Camp. The NG camp at Pine Camp was in use for but one week during 1940, and that only by the four field artillery regiments participating in the First Army Maneuvers. Service practice was conducted by these organizations prior to their participation in the maneuvers. Due to the mobilization of the new army, the War Department has cancelled the permission or license under which we were permitted to maintain an exclusive National Guard camp on that reservation. In this connection I might also mention

that the War Department cancelled the license which permitted the 102nd Observation Squadron to maintain its armory facilities at Miller Field, Staten Island.

New York Guard. Early last spring, Your Excellency directed me to prepare plans for the organization of the New York Guard, to replace the NYNG when and if the latter was ordered into federal service. This plan was completed prior to my departure from New York, and I understand that the NYG is now an actual part of the military forces of the State, and under the leadership of Major General William Ottmann, who resigned his command of the Coast Artillery Brigade, NYNG, is now progressing favorably.

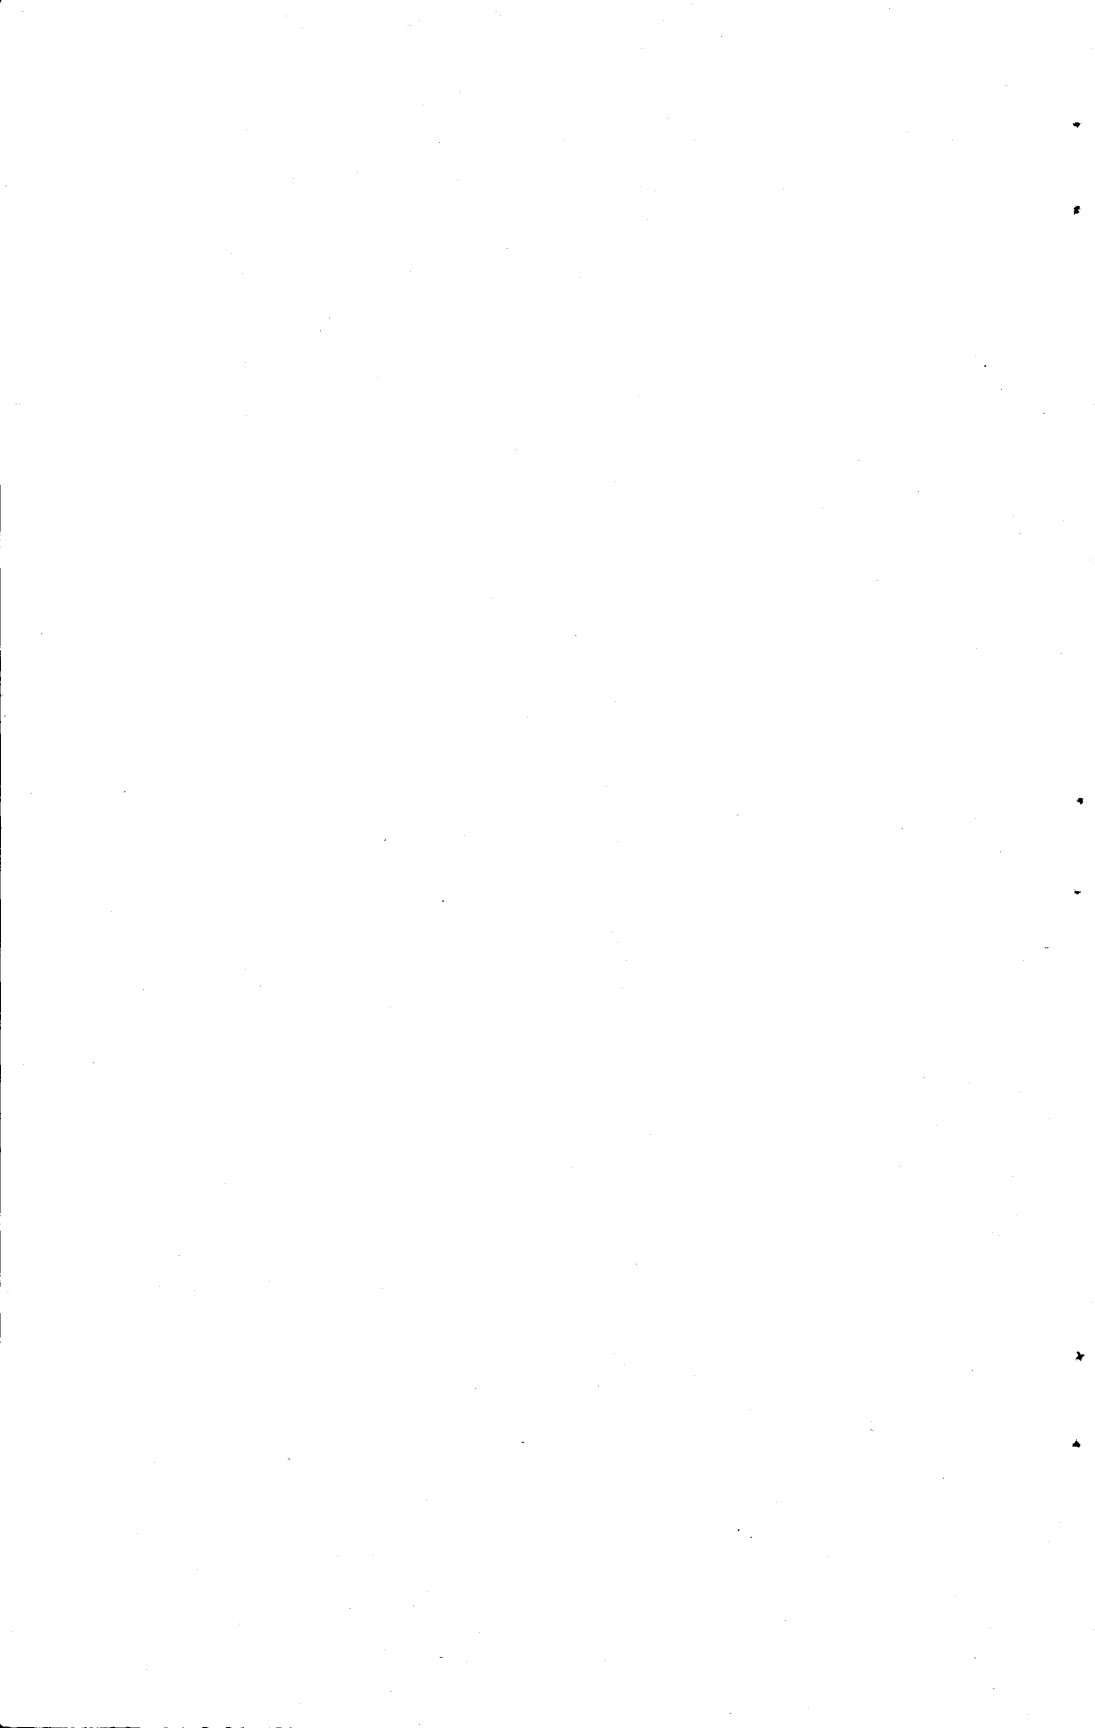

"New York National Guardsman." Early this summer I was apprised of the tentative program of the War Department for a year's training of the NYNG. This involved the sending of our troops to fifteen different training camps, located in various parts of the country. With our units widely scattered, and with intensive training requiring the full effort and attention of all of our officers and men, I deemed it for the best interests of the service to suspend publication of our monthly paper. It was with deep regret that I came to this decision, for this magazine, published continuously since 1924, served a most useful purpose. It is hoped to resume its publication with the return of the NYNG to its home State.

Recommendations. For the past several years I have discussed with you the matter of securing an adequate training center for the use of our troops during their field training period. Camp Smith is an ideal training center for small arms practice. The character of its terrain and its limited acreage does not lend itself to any other feature of military training. It is outmoded, and serious thought must be given either to its enlargement or amplification, or to its abandonment and the procuring of another more desirable site. I feel, however, that definite action in this regard should not be taken at this time. The entire Army of the United States is in a state of flux, and until the War Department has decided definitely on the type and character of organizations that must be maintained by the various states, I must refrain from making any recommendations.

Permit me at this time to express to you the sincere appreciation and deep gratitude of myself, personally, and of the NYNG as a whole, for the keen interest and sympathetic understanding and staunch support which you have always given to the NYNG. I also desire to express my thanks to the Legislature for its assistance. I appreciate the hearty cooperation and helpfulness of the Adjutant General of the State and the USP&DO. I am deeply grateful for the splendid corps of instructors detailed to us from the Regular Army. I trust that the record of our accomplishments warrants and merits a continuance of this most desired support.

Respectfully,

WILLIAM N. HASKELL,
Major General, U.S.A., Commanding.

APPENDIX B

The Report of the Commanding Officer, New York Naval Militia

1. The following annual report on the New York Naval Militia for the period December 1, 1939 to November 30, 1940 is submitted in accordance with Par. 6, R-80, Regulations for the Military Forces of the State of New York.

2. *Strength and Attendance.* The total strength of the Brigade has increased from 2052 officers and men on December 1, 1939 to 2396 officers and men as of November 30, 1940. This growth is mainly due to increases in authorized strength to which reference is made in paragraph 3 hereof on Organization. There was also some advantage gained in recruiting because the new Selective Service Law seems to have prompted some men to seek enlistment in the Naval Militia-Naval Reserve in preference to being selected under that law for service in the Army.

3. *Organization.* (a) Naval. The naval fleet Divisions have all been heretofore assigned for mobilization to function as reserve crews in combatant naval ships, mainly destroyers. After the summer training period this year the mobilization assignment of the 4th Battalion and the 33rd Division was changed by the Navy Department and they are to function as Local Defense units when they are called to Federal active duty. A further change was made increasing the authorized strength of organizations, in U.S.N.R. status, to the following:

	Authorized Strength	
	Mobil'n. quota	Associated V-1 class
Fleet Battalion Headquarters (according to size of Battalion):		
Officers.....	5 to 9
Enlisted men.....	7 to 15
Fleet Divisions:		
Officers.....	6
Enlisted men.....	100	50
Local Defense Battalion Headquarters:		
Officers.....	6 to 8
Enlisted men.....	7 to 16
Local Defense Divisions:		
Officers.....	13
Enlisted men.....	150	75

The increase in officer strength for fleet units has been only slight but for Local Defense units it is quite substantial. The mobilization

quota of enlisted men for Fleet divisions has heretofore been 76 men and of these the highest number ever authorized for drill pay purposes was 69. The additional enlisted men allowed, in V-1 class (non drill pay status), has heretofore been 50 per division, which number still obtains in the case of fleet units. Corresponding action on these changes was requested in NYNM status in letter to the Adjutant General, Oct. 8, 1940, File A3-1, and he revised the Military Regulations, SNY, accordingly on October 15, 1940.

(b) Marine. The Table of Organization for the 1st Marine Battalion, NYNM was increased, in USMCR status, by the addition of a Communication Platoon and a Drum and Bugle Corps to the Battalion Headquarters Company. Corresponding action was requested in NYNM status in letters to the Adjutant General June 24, and September 10, 1940, File A3-1, and he revised the Military Regulations, SNY, accordingly on October 15, 1940.

(c) It will be noted that if the units of the Naval Militia were recruited to these full authorized strengths, the Brigade would have a total of close to 4,000 sailors and marines.

(d) Several changes in officer assignments were made of which mention is made of: Lieut. Comdr. R. H. Wilcox appointed to Command, 1st Battalion, vice Captain Theodore Nelson, resigned. Lieut. Comdr. W. J. Coakley appointed to Command, 2nd Battalion, vice Rear Admiral J. T. Kane, NYNM, retired. Lieut. Comdr. E. L. Denton, appointed to Command, 3rd Battalion, vice Lieut. H. L. Baist, resigned.

4. *Training Duty.* All organizations performed the regular annual two weeks period of training duty as required by Section 111 Military Law, SNY, and the regulations of the Navy Department. Naval organizations performed this duty afloat in Navy destroyers under federal orders with itineraries including visits to U.S. ports on the Atlantic Seaboard, Guantanamo, Cuba, and Port au Prince, Haiti. In the gunnery exercises held during the training periods the 3rd Division, 1st Battalion made the highest score in target practice and was awarded the Josephthal Trophy for Gunnery Efficiency. The 1st Marine Battalion performed training duty, under federal orders, at the Marine Barracks, Naval Air Station, Lakehurst, N. J.

A total of 56 officers and 1584 enlisted men participated in this annual training duty under federal pay and allowances and 3 officers and 52 enlisted men performed similar duty in a non pay status. The lesser number of officers who performed training duty during the year were due to many having resigned, prior to the summer training period, because of volunteering for, and being ordered to, extended federal active duty.

5. *Week End Cruises.* These cruises are performed without pay or allowances in a voluntary status. During the period of this report there were 56 of these week end runs and one cruise of 13 days which was performed by members of the 32nd Division. A total of 6,177 miles were steamed and a collective total of 122

officers and 889 men participated. This practical training is valuable in promoting efficiency.

6. *Small Arms Practice.* Outdoor small arms target practice was held for all organizations on various ranges in the State as required by Section 111 of the Military Law, S.N.Y. The Figure of Merit Prizes for this exercise which were established by Section 112 of the Military Law, S.N.Y., were won by the following organizations:

1st Prize: Value \$100 31st Division, New Rochelle, N. Y.
 2nd Prize: Value 75 15th Division, Oswego, N. Y.
 3rd Prize: Value 50 32nd Division, Yonkers, N. Y.

There were 623 firers qualified as marksmen which is a new high for the Brigade. Several officers and men qualified as Expert Rifle-men and Sharpshooters during Match competition. One officer and four enlisted men were assigned to the U. S. Naval Reserve Third District Rifle Team and served three weeks at Camp Perry, Ohio, where they attended the Small Arms Firing School and participated in various National Matches. The Naval Militia Brigade Match held at Camp Smith, Peekskill, N. Y., was won for the fifth consecutive year by the 31st Division, New Rochelle, N. Y. The Interstate Small Arms Trophy Match sponsored by the U. S. Naval Reserve Officers Association, Third Naval District, was again won by the NYNM State Team. Proficiency in the use of Small Arms showed satisfactory improvement in all commands. Acknowledgment is made to the Commanding General, Second Corps Area, U. S. Army and Commanding General, New York National Guard, for authorizing the use of Federal ranges at Fort Niagara and Stony Point, N. Y. and State ranges at Camp Smith in Peekskill, and at Rochester, N. Y., and for the helpful cooperation extended by personnel under their respective commands.

7. *Naval Academy Appointments.* A total of 47 enlisted men of the Brigade participated in the competitive examination in U.S.N.R. status for appointment to the U.S. Naval Academy which was held during April 1940. Of these 16 succeeded in obtaining these appointments in 1940 either by Congressional appointment or from the U. S. Naval Reserve in accordance with Article H-1904, Bu. Nav. Manual, U. S. Navy, as follows:

Bernet, Harry R.	Sea. 2c	1st Battalion	
Courtessis, N.A.	A.S.	1st	"
Reyback, James M.	A.S.	1st	"
Strachan, J. R.	A.S.	1st	"
Wadsworth, F. A.	A.S.	10th Division	3rd Battalion
Baker, James G.	A.S.	16th	4th "
Palmer, P. W., Jr.	A.S.	16th	4th "
Wanner, Vance R.	Sea. 2c	16th	4th "
Cryan, John J.	Sea. 2c	17th	4th "
Cullen, M. A., Jr.	A.S.	14th	9th "
King, E. W.	A.S.	13th Division	
Lamphere, R. A.	A.S.	15th	"
Newman, D. E.	A.S.	15th	"
Russillo, A. G.	A.S.	31st	"
Wolff, G. R.	A.S.	31st	"
Bohan, N. C.	A.S.	32nd	"

8. *General Efficiency of the Brigade.* The efficiency of the New York Naval Militia has been maintained in the past year at a satisfactory standard. The 31st Division, New Rochelle, N. Y., had the highest standing in the State of New York and was awarded the Josephthal Trophy for Naval efficiency during the year 1940, valued at \$150. Company "C," Rochester, N. Y., was awarded the Josephthal Trophy for Marine efficiency during the year 1940, valued at \$75.

9. *Armories.* As a result of cooperative efforts of the members of the Armory Board of the City of New York, the Commanding Officer, 33rd Division, the President of the Borough of Richmond, and interested federal officials, the U.S. Works Progress Administration built a new armory in Tompkinsville, Staten Island for the 33rd Division. Occupancy of this building by the Division began on November 27, 1940, as reported by its Commanding Officer in letter to the Adjutant General, December 2, 1940, file N12-1/SI and as announced in General Orders 48, AGO, SNY, 1940. While this new armory is considered somewhat small for this organization, it certainly provides greatly improved accommodations over those previously available.

The 12th Division in Dunkirk and the 32nd Division in Yonkers are quartered in rented armories. While in both these instances the accommodations are better than those formerly occupied, it is strongly recommended that State owned armories for these two organizations be provided for under early priorities in the Adjutant General's building program. The armory at Watertown, which is occupied by the 13th Division jointly with a National Guard unit, is somewhat inadequate as to space and, being a very old structure, either needs replacement or rehabilitation, and this is accordingly recommended for the Adjutant General's consideration.

10. *Mobilization.* Under the Naval Reserve Act of 1938, Section 4, the members of the Naval Militia, in their federalized status as naval and marine reserves, "obligate themselves to serve in the Navy in time of war or when in the opinion of the President a national emergency exists." Pursuant to the President's proclamation of a national emergency on September 8, 1939 and Executive Orders issued thereafter, some members of the Naval Militia, among other reservists, were ordered to federal active duty during the year. This mobilization was initiated by assigning enlisted reservists, who volunteered therefor, to federal active duty for any requested period from two weeks to one year, in accordance with announcement in Bu. Nav. N.R. Circular 19-40, May 29, 1940. A subsequent announcement in Bu. Nav. N.R. Circular 30-40 of September 6, 1940, broadened the scope of this authority by making officers, who volunteered therefor, eligible for extended federal active duty, and this was also mentioned in a circular letter of the Commandant, Third Naval District, October 15, 1940 (NM file P16-3/8). Then Bu. Nav. N.R. Circular 37-40 of November 25, 1940 further enlarged the scope of the mobilization by making several classes of

the Naval Reserve (including all classes in the N.Y.N.M.) subject to mandatory federal active duty orders, with or without their own consent, when their services were needed. Among further provisions by the Navy for mobilization, mention is made of the authority granted in Bu. Nav. N.R. Circular 38-40 of November 28, 1940 for an increase in uniforms allowed enlisted men to a "full bag" complete with bag, hammock, and bedding.

The status of mobilization of the Naval Militia in federal status as of this date was:

Naval Units.....	44 Officers	554 Enlisted Men
Marines.....	8 Officers	300 Enlisted Men

11. *Training Ships.* In line with the Navy's policy of concentrating ships on the seaboard during the present national emergency, the following ships, assigned to our organizations in U.S.N.R. status, were officered and manned by our organizations and proceeded in the late fall to Atlantic coast ports, pursuant to Navy Department Orders:

Y.P. 52 assigned to 12th Division, USNR at Dunkirk; proceeded via New York State Barge Canal.

Y.P. 63 assigned to 9th Battalion, USNR at Buffalo; proceeded via St. Lawrence River.

Y.P. 64 assigned to 3rd Battalion, USNR at Rochester; proceeded via St. Lawrence River.

S.C. 431 assigned to 13th Division, USNR at Watertown; proceeded via New York State Barge Canal.

Y.P. 10 assigned to 1st Battalion, USNR at New York City; proceeded via Hudson River.

Other ships, namely Y.P. 8 assigned to the 4th Battalion, USNR at Whitestone; Y.P. 9 assigned to 33rd Division, USNR at Staten Island; and Y.P. 12 assigned to 31st Division, USNR at New Rochelle, have not yet been detached from these organizations but it is understood that they will shortly be manned and directed to join the Local Defense Force of the Third Naval District.

These vessels have served the valuable purpose of week-end training afloat and it is hoped that they, or substitute ships, will again be available for this purpose after the present emergency is concluded.

12. *Security.* To insure the security and protection of armories, boat houses and government property the force of armory employees was supplemented early in June 1940, by details of enlisted men assigned specifically to guard duty under State pay. Details of one petty officer and two non-rated men in the smaller armories, up to one petty officer and four non-rated men in the larger ones, comprising a total force of not in excess of 50 enlisted men, including petty officers, were placed on this duty as directed by G.O. No. 21, AGO, and G.O. No. 6, Hq. N.Y.N.M., 1940. This special guard duty at armories is still in effect and is believed to be an important provision to safeguard our armories and government property during the present national emergency.

13. "*Home Guard*" Duty. The complete mobilization of the Naval Militia for federal active duty in the present national emergency would result in all its organizations being entirely withdrawn from the armories. It is understood that in such cases The Adjutant General will assign an officer from the State Reserve List to function in each armory as Officer in Charge and Control and that armory employees would be continued in service to safeguard and maintain property. No State naval force has been authorized to function during the absence of the N. Y. Naval Militia on federal duty in war or a national emergency. It would seem desirable that, for war time "home guard" purposes within the State, a force of men with naval experience be organized to supplement the land forces of the New York Guard and it is recommended that this be considered.

14. Grateful acknowledgment is made for the interest and support which was extended to the Naval Militia by His Excellency, the Governor and also for the cooperation of the Adjutant General, the members of the Legislature, the Director of the Budget, and other officers of the State with whom the Naval Militia has been privileged to have relations during the year.

F. R. LACKEY.

APPENDIX C

Report of the Commanding General, New York Guard

In accordance with the requirements of Paragraph 6, Regulations No. 80, I have the honor to submit the following report on the affairs of the New York Guard for that part of the calendar year during which the Guard has been in existence.

Pursuant to your instructions, General Haskell organized an office force in July, for the purpose of drawing plans and making the preparations for the activation of the New York Guard, if and when the National Guard was sent to the Federal service. The salaried force consisted originally of three retired officers of the Regular Army and one retired officer of the National Guard. The latter was relieved on August 5th. One of the former now also serves as Chief of Staff. The clerical force consisted of four female stenographer-clerks, and one male chauffeur-clerk.

In October two male stenographer-clerks were transferred from the Headquarters of the New York National Guard to the payroll of these Headquarters. They are and will be engaged principally on work for the New York National Guard, until the departure of all of those units for the Federal service.

The funds under which these Headquarters are operating are known as "National Guard Headquarters Loan for Maintenance and Operation, Including Personal Service," fiscal year 1940-1941. The amount set up for this fund was \$50,000.

The cost of the operation of these Headquarters for all purposes during the current fiscal year will be kept below this amount.

The first problem confronting the organization of the New York Guard was the restriction in Section 61 of the National Defense Act. That was removed by an amendment to that section, passed in the third session of the 76th Congress and approved October 21, 1940. It should be recorded at this point that the passage of that legislation was in a large measure due to the personal efforts of Your Excellency.

The office force referred to above prepared the Plan of Mobilization and Tables of Organization for all units of the Command, including a Station List. The Tables and Station List were published by The Adjutant General in a pamphlet from his office, dated October 15, 1940, entitled "Information Circular for Personnel of the New York Guard of the State of New York" (Exhibit A herewith).

The paper formation of the regiments was initiated by the enrollment of officers and enlisted men. The former were selected by the regimental commanders and the latter by the company and detachment commanders. The ages of officers are 21 to 63, both inclusive, and of enlisted men 18 to 55, both inclusive. The physi-

cal standards are those prescribed in War Department Mobilization Regulations 1-9, August 31, 1940, but now below Class 1-B—"Physically unfit for general military service, but fit for special and limited military service."

The authorized strength of the Guard is as follows: One Guard Headquarters, 5 Brigade Headquarters and 20 regiments, which constitute a total force consisting of 1116 commissioned officers and 12,573 enlisted men armed with 10,620 rifles, and when available 1596 pistols or revolvers. No other weapons are contemplated at this time.

Wherever New York State historic regimental numbers were not in use by regiments of the National Guard, they were restored and assigned to regiments of the New York Guard.

In July and August the regimental commanders were designated by General Haskell, who continued in charge of the office and of the organization until his departure for the Federal service, October 23, 1940.

Pursuant to General Orders No. 40, The Adjutant General's Office, Albany, New York, October 25, 1940 (Exhibit B herewith), the New York Guard was organized, and the undersigned took his oath of office on October 25, 1940. General Orders No. 40 also appointed the general officers consisting of the Chief of Staff and the five Brigade Commanders. The twenty regimental commanders were appointed in Special Orders No. 254, The Adjutant General's Office, October 25, 1940. Subsequently, Colonel Raymond E. Williams of the 13th Regiment, declined his appointment and Lieutenant Colonel John D. Humphries, New York National Guard, was designated as commanding officer of that regiment by Paragraph 6, Special Orders No. 271, The Adjutant General's Office, November 17, 1940. Should Colonel Humphries be discharged from the New York National Guard, he will be nominated to be a Colonel of Infantry in the New York Guard, for assignment to the 13th Regiment.

All other officers of the New York Guard have been appointed and placed on duty by The Adjutant General pursuant to the law and Military Regulations of the State.

The New York Guard was distributed with at least one unit in every one of the 74 National Guard armories in the State. That assignment is shown in General Orders No. 40, above referred to.

The regiments of the 1st, 2nd and 5th Brigades are distributed in the Metropolitan area of Greater New York; the 3rd Brigade, with Headquarters in Albany, is in the Eastern part of the State, and the 4th Brigade, with Headquarters in Buffalo, is in the Western part of the State.

Each regiment consists of 15 units, including a Regimental Headquarters, a Band, a Headquarters and Service Company, a Medical Detachment, Battalion Headquarters Detachment for each of three Battalions and nine Rifle Companies. The bands have just recently been authorized by Circular No. 9, The Adjutant General's Office, December 7, 1940, but none have been organized to date.

December 9, 1940 was the initial date of the muster-in of units of the New York Guard. On that evening, units of the 21st Regiment, in Rochester, New York, and of the 9th Regiment, in New York City, were mustered in. By December 30, 1940, 113 units, out of 306 units in the whole command, had been mustered in; estimated aggregate 4,750 all ranks, with approximately 5,000 additional enrolled and awaiting muster.

It is anticipated that all units will have been mustered within two weeks after the last unit of the New York National Guard has departed for Federal service, as in some cases the use of the armory by National Guard units preparing for Federal service precludes the muster-in of New York Guard units until the armory is cleared.

It should be noticed that although the officers in the regiments are commissioned in the Infantry, the regiments have been designated "regiments." This was done deliberately that the armament of the regiments could be changed without changing the official designation, as circumstances might require in the future. Initially it is planned to equip the regiments as rifle companies, and Companies D, H and M, which ordinarily are machine gun companies, have been left inactive.

The War Department is supplying Lee-Enfield rifles, bayonets, and bayonet scabbards, and no other arms, no other equipment and no uniforms.

The State is purchasing web cartridge belts for each man armed with the rifle and web pistol belts for each man who will be armed with a pistol. The State is purchasing uniforms for enlisted men consisting of cotton O.D. shirt with a black necktie, a woolen overseas cap with the letters "N.Y." $\frac{3}{4}$ of an inch in height embroidered on the left side of the front in infantry blue, a one-piece uniform of cotton drill material with a shoulder sleeve patch of infantry blue $2\frac{3}{8}$ inches in diameter with the letters "N.Y." embroidered in black $\frac{3}{4}$ inches in height, chevrons, collar insignia, and dismounted canvas leggings. For armory service the soldier furnishes his own shoes. (Photograph herewith Exhibit G.)

The State is purchasing 1500 sets of individual infantry equipment for enlisted men other than the rifle and pistol belts mentioned above. Two sets of this equipment will be issued to each company for instruction purposes. The remainder will be stored in the State Arsenal for issue should any unit be called to active service.

It is recommended that when financial conditions permit, sufficient winter clothing for 1500 enlisted men be purchased and stored in the State Arsenal for use in the event of field service. To this should be added sufficient field equipment for two regiments.

The uniform for officers is the same as that of the New York National Guard except that the cap ornament and all buttons have the State Coat of Arms and on the lapel of the collar are the letters "N.Y." The shoulder sleeve insignia of the overcoat and service coat is the same as that prescribed for enlisted men.

The training contemplated for this command, which originally

was two drill nights per week, is now being reduced to one per week and is being concentrated on the objective of fitting all the units for the primary function of the Guard, which is the reinforcement of the civil authorities and law enforcement agencies when ordered by the Governor.

The Headquarters Staff is organized and ready to start making an estimate of the situation preparatory to making plans for future eventualities just as soon as decisions are made in the matters of responsibility of the New York Guard. In the meantime, brigade and regimental staffs are preparing plans for the use of the Guard under various conditions which may be visualized as possibilities in view of present world conditions.

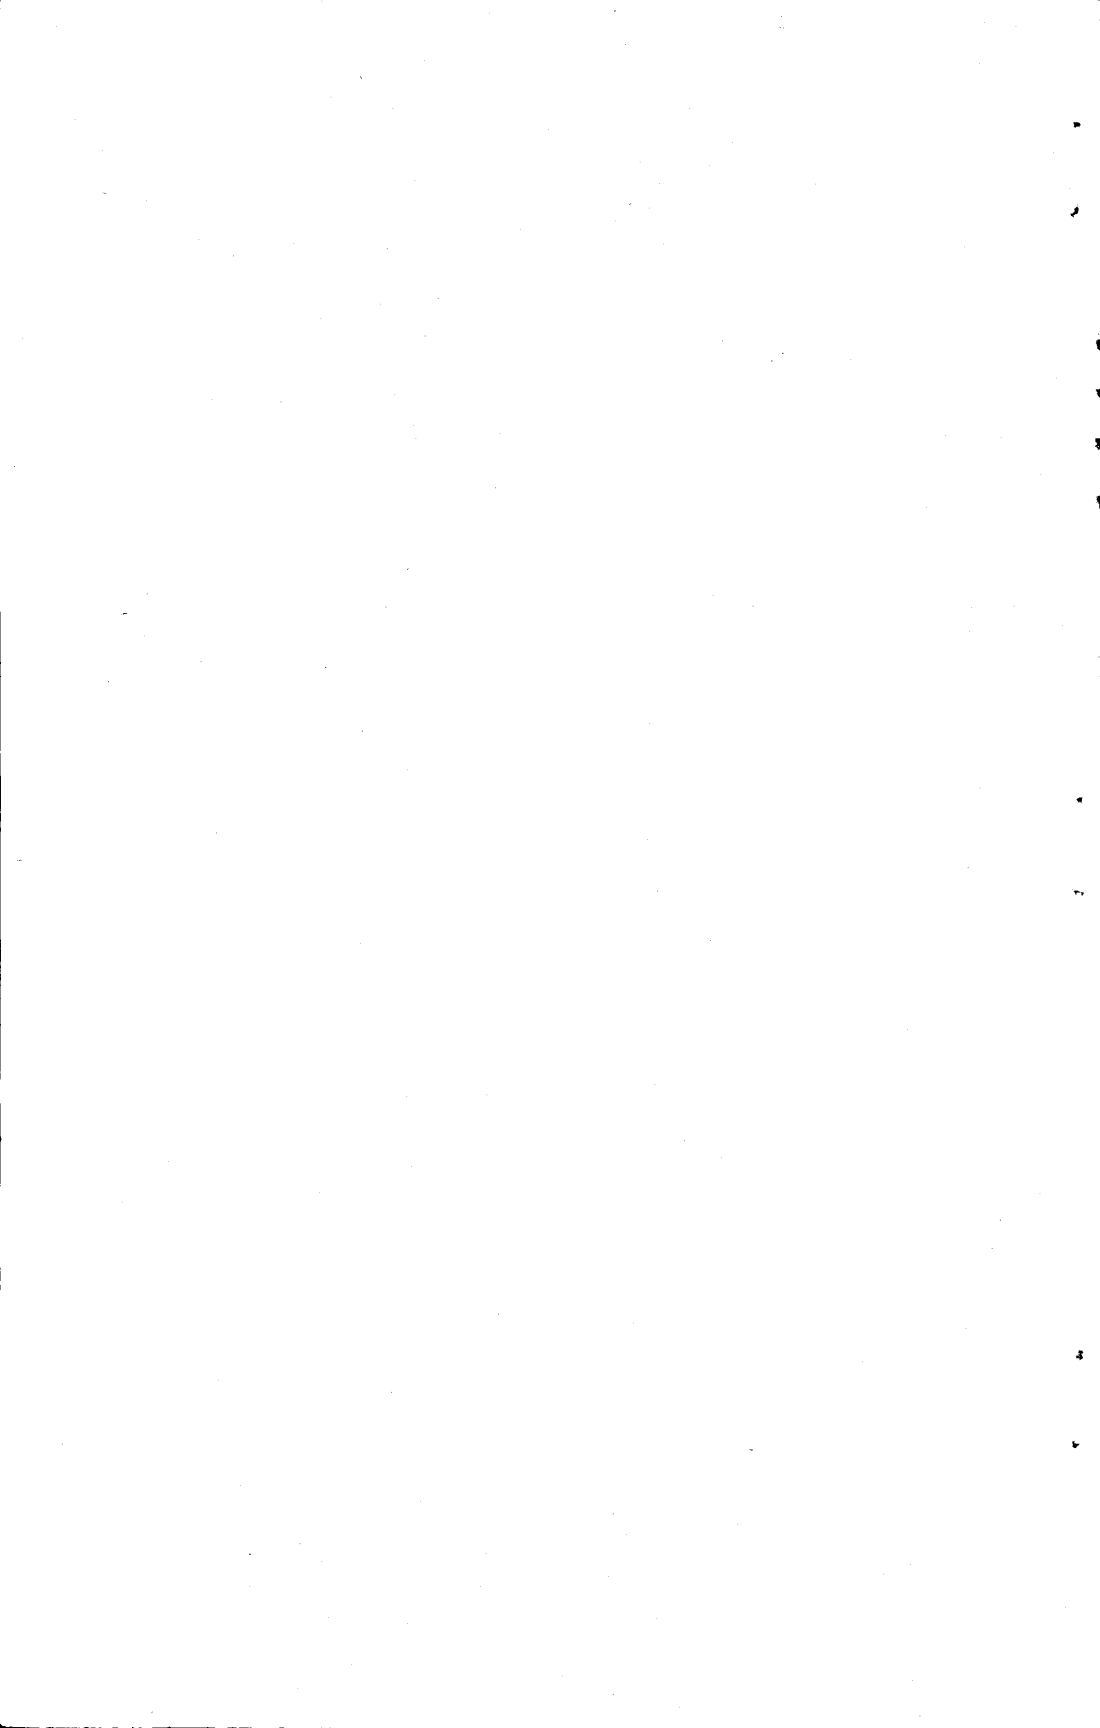

No summer camp or field training is contemplated for this command. The expense would be heavy and the separation of the officers and men from their civil occupations would not be justified by the results attained. The training objective of the Guard under present conditions can be maintained by work in the armory, except rifle firing with service ammunition. This will be partially compensated for by firing in the armory basement ranges with reduced charge ammunition.

The patriotic enthusiasm and response to the formation of the New York Guard without remuneration and at considerable personal sacrifice is a marked credit to the citizenry of this State.

Respectfully submitted,

WILLIAM OTTMANN,
Major General Commanding.

Complete Military and Naval History of Officers of the Militia of the State of New York Who Were Discharged, Dropped or Who Died During the Year 1940 and So Remained on December 31, 1940; and All Inducted Officers of the National Guard Separated from Service up to June 30, 1941.

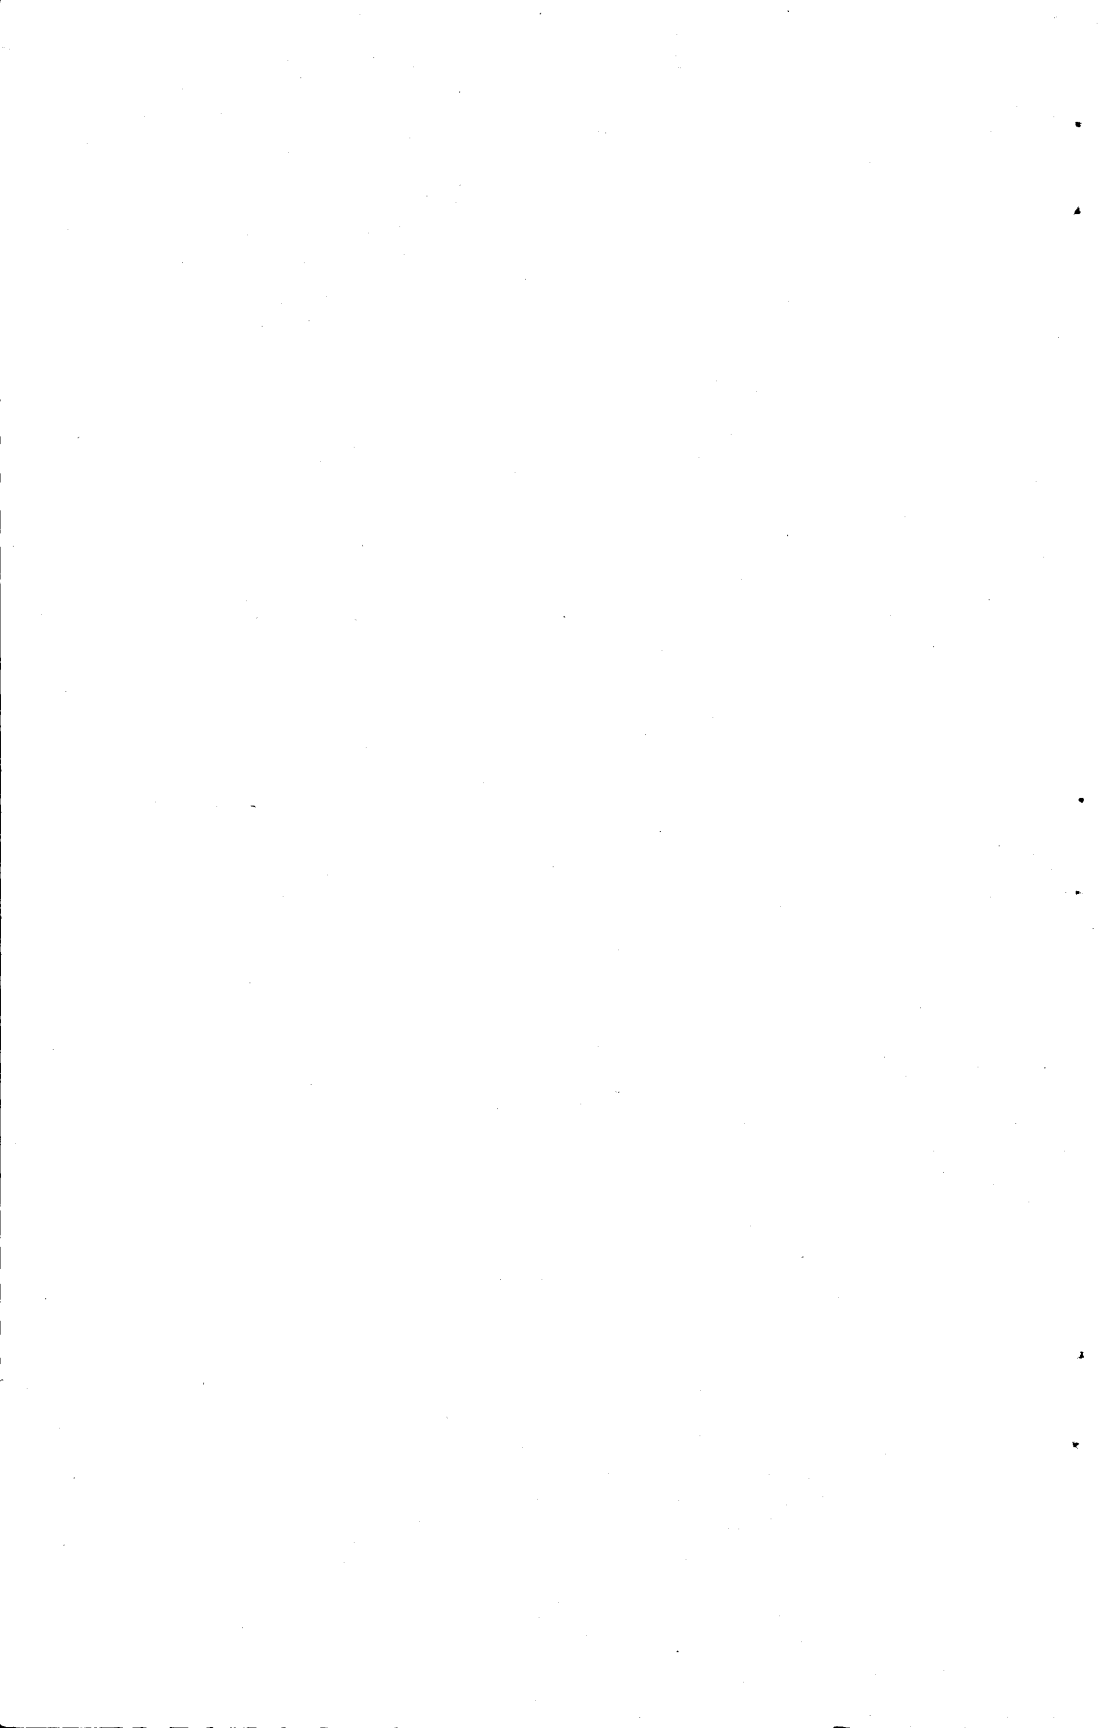

ABBREVIATIONS

NOTE.—Unless otherwise specified, where an organization is shown in this register as 10th Infantry, 106th Field Artillery, etc., it will indicate a REGIMENT of Infantry or Field Artillery, etc. Letters or numbers in parentheses, viz.: (A) or (23) indicate unit of organization to which officer is assigned. The term "organization" will mean the regiment, brigade, division or higher command, also separate battalions, squadrons, companies or naval divisions. The term "unit" will mean the battalion, company, troop, battery, detachment or naval division of a regiment, brigade, division or higher command or of a separate battalion or squadron.
