## REPORT OF THE ADJUTANT-GENERAL

ALBANY, December 31, 1939

His Excellency HERBERT H. LEHMAN, *Governor of New York, Albany, N. Y.*

SIR:—Pursuant to section 17 of the Military Law, as The Adjutant-General, and, under the provisions of section 42 of chapter 78 of the Consolidated Laws of the State of New York, as Head of the Division of Military and Naval Affairs of the Executive Department, I submit herewith my annual report concerning the administration of that Division for the year 1939.

For convenience in reference the report is presented in sections dealing with the activities of the various bureaus of the Division.

### Executive

*Strength.*—The strength of the active military and naval forces of the State on this date is as follows:

	Officers	Warrant Officers	Enlisted Men
National Guard .....	1,379	21	21,357
Naval Militia .....	140	—	1,892

A detailed report of strength of all components is included under the report of the activities of the Personnel Bureau.

*Increased Strength of the National Guard.*—Under the provisions of the Executive Order of the President of the United States to increase the enlisted strength of the National Guard to 235,000 men, 4,632 enlisted men were added to the existing strength of the New York National Guard by the National Guard Bureau on September 21, 1939, and were allotted to the various organizations of the New York National Guard in strict accordance with specific instructions of that Bureau, as described in General Orders No. 12, this office, dated October 1, 1939. While it was the desire of the War Department to recruit the full number of additional men by October 31, 1939 (within one month), it was not possible to accomplish this despite an intensive recruiting campaign which was immediately instituted. To date about fifty (50)% of the addition has been realized. Each week continues to show small but certain increases. This has been due to a desire to maintain the same high standard of requirements for enlistment as has been in effect since its reorganization after the World War; restrictions against the enlistment of married men or others with dependents since such men would not be taken if the National Guard were called into United States service, and the heavy losses the National Guard has suffered as a consequence of enlistments in the United

States Army, Navy and Marine Corps which components have also been increased in strength and find the National Guard a fruitful field for recruits, not only because they have established physical eligibility for active service but have had training in the preliminaries as well. It is established that since October 1, 1939, 215 enlisted men of the New York National Guard have been discharged to enlist in the Regular Army, Navy or Marine Corps.

*Increased Training.*—The situation in Europe continues to be reflected in increased activity of our military and naval forces. Recently authority was received to perform National Guard armory drills twice each week, with pay, to include January 31, 1940, which is the first time such authority has been extended in peace time since the reorganization of the "Militia" on a specified drill programme in 1847. Instructions for the carrying out of these additional drills were incorporated in General Orders No. 13, this office, dated October 17, 1939, together with instructions for the performance of an additional seven days period of field training, likewise authorized by the National Guard Bureau, to be consummated on or before January 31, 1940. As the Commanding General, New York National Guard, has covered this additional training quite completely in his annual report, appended hereto, further comments are unnecessary, except to add that the majority of the State Staff officers of the National Guard performed such additional field training in the form of a Selective Service conference at Albany, N. Y., under the able leadership of Major Lewis B. Hershey, General Staff, who is the Secretary of the Joint Army and Navy Selective Service Committee, stationed at Washington, D. C., and who is probably the outstanding authority on the subject in the United States. Special authority for the State Staff to perform field training in this manner was granted by the War Department and has resulted in a widespread interest in the subject of Selective Service and Volunteer Recruiting which subjects would be given initial consideration in event of a national emergency calling for the raising of a large army for United States service. Under the present plans of the War Department the Adjutant General's Offices in the various states would be the headquarters for these two activities and places the responsibility for their successful operation on the various Adjutants General. It is hoped to enlarge upon the instruction for this activity during field training period next summer and in the meantime the key officers and enlisted men are required to carry on extension courses in Selective Service prescribed by the Joint Army and Navy Selective Service Committee.

*Normal Training.*—The normal armory and field training of the National Guard were carried out in accordance with prescribed schedules. The dates of field training thereof are contained in General Orders No. 5, this office, dated May 18, 1939. A complete report of such training, including Army Service Schools, will be found in the report of the Commanding General, New York

National Guard, appended hereto. A report by the Commanding Officer, New York Naval Militia, covering the training of that component of the State Forces is likewise appended hereto.

*Duty in Aid of Civil Authority.*—During the year no labor or other situations developed to proportions warranting the calling out of any part of the New York National Guard or Naval Militia in aid of civil authority.

*Increased Requirements of the War Department.*—During the past year the War Department has made increasing demands on the time of our clerical force and every effort has been made to co-operate to the fullest extent possible with the already overloaded duties my limited staff have to perform. One of these requirements was the fingerprinting of every officer of the New York National Guard and the furnishing of a personal history of every such officer. No funds were supplied by the Federal government for this work, although the necessary cards were supplied by the War Department. It was necessary for the various organizations of the National Guard throughout the State to accomplish the work in the best way possible on or before November 1, 1939, and because of the lack of necessary equipment and trained fingerprint men much of the work had to be duplicated. Another requirement still in effect is the weekly rendition by this office of a consolidated report on the results of the Recruiting Drive to obtain the additional enlisted men allotted to the State referred to above. In order to comply it was necessary to have printed at State expense an organization report form to be rendered weekly by every unit of the National Guard from which the data required by the National Guard Bureau is extracted for the consolidated report. The report calls for the compilation of a considerable amount of statistical data and it has been necessary to employ temporarily an additional clerk to prepare same. The National Guard Bureau requires that the report be rendered weekly until the quota allotted to the State has been recruited. To date about 50% of the quota has been realized.

*Changes in Organizations.*—Pursuant to General Orders No. 6, this office, dated May 19, 1939, the State Staff and Detachment were constituted a Company and redesignated Company of State Staff and Detachment, New York National Guard. This action was found advisable to improve the administration of the State Staff. General Orders No. 9, this office, dated August 24, 1939, carried out the requirements of the War Department to abolish, effective September 30, 1939, all Infantry Howitzer Companies in the State, the personnel thereof being transferred to the Headquarters Company of the respective regiment and other units thereof as provided in revised tables of organization. General Orders No. 14, this office, dated November 20, 1939, established the new Cavalry Division troops allotted to the State by the War Department recently. These consist of the Headquarters Troop, and the 21st Signal Troop, Special Troops, 21st Cavalry Division, New York National Guard, both of which are stationed at New Dorp, Staten Island, in

the same armory with the Headquarters Troop, 51st Cavalry Brigade. The new Major General, Commanding the 21st Cavalry Division, allotted to the State has not been appointed due to the requirement by the War Department that not less than 50% of the newly constituted troops for the Division must first be Federally recognized. As some of the new divisional troops are allotted to other states the State of New York has no control in the matter and must wait until the War Department grants its approval before any action toward the organization of the 21st Cavalry Division Headquarters can be taken. Pursuant to General Orders No. 15, this office, dated December 29, 1939, the station of the 32nd Division (Separate), New York Naval Militia, was changed, effective December 31, 1939, from Ossining to Yonkers, N. Y., the facilities at the latter station being vastly superior to those at Ossining. Under date of December 15, 1939, this office issued General Orders No. 17, effecting certain changes in the organization of the 212th Coast Artillery (Anti-Aircraft) stationed at New York City (Manhattan), to conform with the "streamlining" process invoked by the War Department. The Service Battery was abolished and the personnel thereof transferred to the Headquarters Battery to organize the "Supply Platoon and Maintenance Section" thereof. The Band, heretofore a part of the Service Battery, became a separate unit of the regiment, and some other minor changes were effected.

*Military Staff of the Commander-in-Chief.*—Since the publication of General Orders No. 1, this office, dated January 1, 1939, detailing certain officers of the New York National Guard and Naval Militia as Military Aides to your Excellency, no changes therein have taken place to date except for an increase in the rank of Major Arthur T. Smith, 108th Infantry, to Lieutenant Colonel, same command.

*Changes in Personnel of Office.*—During the year the following changes have taken place in the officer personnel of this office: January 6, 1939, Major Clarence Strevell, Retired List, Director, Bureau of Files, Mail and Distribution, died. His post was filled January 16, 1939, by transfer of Lt. Colonel Christopher B. Degeenaar, A. G. D., from duty with Personnel Bureau. On January 16, 1939, Major William H. Boughton, on duty in the Personnel Bureau, was appointed Assistant Director, that Bureau, vice Lt. Colonel Degeenaar, transferred. February 1, 1939, Captain William M. Van Antwerp, Infantry, N. Y. N. G., was appointed to a position in the Personnel Bureau, vice Major Boughton promoted. On March 30, 1939, Mr. William Saxton, Director of the War Records Bureau and an employee of the Bureau over 43 years service, passed on. His place was filled April 16, 1939, by the appointment of Lt. Colonel William J. Mangine, Q. M. C., by promotion from Recruiting Officer. In turn Major Daniel Ruddy, F. D., was appointed Recruiting Officer in addition to his duties as Assistant Director, Finance Bureau, and 1st Lt. James J. Cooke, A. G. D., was promoted vice Major Ruddy.

*United States Military Academy.*—This office annually conducts a competitive examination for candidates from the National Guard of this State for the privilege of taking the competitive entrance examination for cadetship at the United States Military Academy at West Point, N. Y. Candidates to be eligible must be between the ages of 19 and 22 years, enlisted men of a Federally recognized unit of the National Guard who have served therein not less than one (1) year prior to date of entrance to the Academy. The examinations this year were conducted November 10 and 11, at Albany, Buffalo and New York City, for entrance to the Academy, July 1, 1940. Eight (8) vacancies were allotted to the State of New York and as a result of these examinations your Excellency nominated the eight (8) having the highest average of proficiency. Fifty (50) candidates participated in these examinations. It is hoped that prior to the entrance examination to be conducted in March, 1940, for entrance to the Academy in July, 1940, that additional vacancies will be allotted to the State of New York as requested by your Excellency in a letter to The Adjutant General of the Army. The policy of allotting cadetships to soldiers of the National Guard was authorized by Congress May 4, 1916.

*Hines Attendance Trophy.*—The Colonel Frank H. Hines Attendance Trophy (National Guard) was won by the 106th Field Artillery, for attaining the highest percentage of attendance during the training year. The percentage was 97.74. For percentages attained by other organizations of the National Guard reference is made to General Orders No. 23, Headquarters, New York National Guard, dated December 5, 1939.

*Bureau Reports.*—Following are the reports of the various Bureaus of this Division for the year ending December 31, 1939:

### **Finance Bureau**

Following is a statement of financial operations for the fiscal year ending June 30, 1939, including State appropriations for the general expenses of the military and naval establishment, expenses for armory maintenance and Federal funds allocated and expended during the same period:

Balance, June 30, 1939.....		<u><u>\$665 87</u></u>

## Bureau of Equipment and Supply

## PROPERTY

The year 1939 was indeed a period of increased activity at the New York State Arsenal, due particularly to the 1st Army maneuvers held at Plattsburg, N. Y., the increase in the strength of our National Guard, and the additional seven (7) days field training recently authorized by the National Guard Bureau of the War Department. As in former years additional motor vehicles have been received, and distributed to various organizations of the State. There are now 852 motor vehicles ranging from 1/2-ton reconnaissance cars to 10-ton Artillery Tractors, plus 36 motor-cycles on hand among the units of this State, and further issues are expected. Approximately 11,000 pairs of trousers, elastique, were received this year and were distributed in accordance with

the schedule furnished by the Commanding General. The issue of coats, mackinaw, to all motorized units and the issue of the new overcoats, roll callar, to other units has been completed.

During the year 4,153 requisitions were received, covering the following periods:

January 1 to March 31 (Inspection period).....	1,015
April 1 to August 15 (Maneuver period).....	2,085
August 16 to December 31 (Additional Field Training period)....	1,053

It may be stated that in order to process this unusual demand for property, it was necessary to work overtime for a period of several months. Prior to the Additional Field Training period, due to the pressure of time, it was necessary to send several convoys of motor trucks to Federal Depots (Schenectady and Philadelphia) for clothing and equipment badly needed to equip units of the National Guard, including the recent authorized increase in our strength. The preparation of the required records to account for the large quantity of clothing and equipment received, broken down and then reshipped, was in itself a considerable task.

The increased activities of the troops of the State in 1939 also reflected in the rendition and processing of a larger number of Reports of Survey, Inventory and Inspection Reports and Certificate of Limited Amount of Losses than any year in the history of the Bureau. The following number were processed during the year:

Inventory and Inspection Reports.....	1,253
Reports of Survey.....	887
Forms No. 18.....	250
Certificates of Limited Amount of Losses.....	96

It is expected that the Board covering the Property Inventory of the State will conclude its work the early part of 1940.

## RECORD SECTION

### *The First Army Maneuvers*

The extra activity in this section with reference to the above, was, that we processed in the accounts twelve hundred (1200) additional vouchers which required posting in both the stock record and memorandum receipt accounts.

### *Extra Field Training*

With reference to the above, there were five hundred (500) additional vouchers to be processed through the stock records and memorandum accounts. In addition, there was received from the Quartermaster of the C. C. C. Division at Schenectady, a larger amount of property which required an additional account to be started, as this property was loaned on memorandum only, therefore requiring separate accounting in the form of memorandum receipts.

*Action of the Board of Survey*

At the beginning of this year, this office obtained from the W. P. A. Administrator, about 60 employees; 40 of which were used for the extra activity in this department, in addition to the augmentation of 10 regular employees added to this department. All of these people were utilized and still are, in order to adjust the stock record balances, which were not given to this section until August 1. The constant source of interruption by the members of the Board of Survey resulted in this section not being able to post the current vouchers until the above date. It was then necessary to require the entire regular force of 14 employees to work daily until 9 P.M., in order to bring about a balance so that the memorandum receipts could be forwarded to the responsible officers on September 15 for the annual inventory for 1939, which is required now by the regulations.

*An Inventory of Property Now Required*

Upon the completion of the work mentioned in section 3, it was then immediately required of the entire force of this section and also the assistance of the W. P. A. employees to prepare the memorandum receipts after September 15 to be forwarded to the U. S. A. Instructors for inventory. This work completed on November 1, an additional requirement is necessary which takes the time of four (4) regular employees to adjust all the findings on this inventory. After this will have been completed, the regulations require that a consolidated form of the findings of this inventory be compiled and forwarded to the National Guard Bureau, which will require the constant time and effort of at least 10 regular employees. However, this section feels that with all its extra effort, we have now in the State, a stock record that does produce the true status of the property now on hand in the State of New York.

## FINANCE SECTION

*First Army Maneuvers*

This section co-operated with Headquarters, 1st Army and Headquarters, 27th Division, in the compilation of estimates and various other details of administration in preparation for 1st Army Maneuvers at Plattsburg, N. Y., during the period August 13-27, 1939.

The major problem presented was that of payment of troops participating in the maneuvers. It was necessary to make arrangements with local banks at Plattsburg, N. Y., for the withdrawal of large amounts of cash funds for payment of those troops in the area, whose home stations are located outside Greater New York, and additional arrangements with New York City banks for the withdrawal of funds for payment of troops located in the New York City area.

Payments extended over three days, and were as follows:

At Plattsburg, N. Y. (Aug. 25-Aug. 26) .....	\$179,042 17
At New York City, N. Y. (Aug. 26-Aug. 27) .....	193,904 05
Total Payments .....	<u>\$372,946 22</u>

Six (6) Paymasters were required to complete these payments by August 27, 1939.

Other major procurements in connection with 1st Army Maneuvers were: Travel rations, \$29,475; motor fuel, \$5,572; rental of campsites, \$2,329.

During the period June to September, 1939, it was necessary to supply and pay troops training at Camp Smith, N. Y. Major expenditures in connection with this training were as follows:

Pay .....	\$192,636 61
Subsistence .....	50,834 30
Rentals .....	4,000 00
Motor fuel .....	3,890 18
Electric current .....	1,418 86
Sanitation services .....	<u>4,774 50</u>

### *Additional Field Training*

The sum of \$327,882 was allotted to this State for the carrying out of seven (7) days' additional field training between October 15, 1939, and January 31, 1940.

Estimates were required to be compiled and control of expenditures was required to be maintained by daily telegraphic reports of obligations made by the field. All organizations located outside the Greater New York area were paid by check, whereas, all organizations located in the New York City area were paid in cash.

This section was not organized to handle this additional load and the procurement of additional temporary employees was found necessary to aid in carrying out the directives of higher authority.

### *General Expenditures*

General expenditures for the calendar year 1939 were as follows:

Veterinary supplies and services .....	\$2,615 55
Caretakers .....	208,485 00
Clerical assistants .....	9,203 30
Expenses, camps of instruction .....	876,219 52
Medical and hospitalization .....	1,348 89
Maintenance and repair of camps .....	5,334 91
Expenses military service schools .....	100 00
Pay U. S. P. & D. O. ....	3,600 00
Range-keepers .....	460 00
Rental—target ranges .....	3,200 00
Construction—target ranges .....	4,817 59
Alterations and renovation of uniforms .....	7,269 95
Maintenance—organization equipment .....	13,904 14
Gasoline and oil—armory training (aviation) .....	5,291 52
Gasoline and oil—armory training (motor) .....	<u>4,220 30</u>

Intra-state transportation .....	732 27
Pay—Air Corps—personnel injured.....	100 00
Transportation—Federal property .....	89 52
Motor equipment—supplies and repairs.....	14,409 36
Musical instruments—repairs .....	396 65
Air Corps equipment—repairs .....	613 21
Replacements—lost or damaged equipment.....	127 73
Total .....	<u>\$1,162,539 41</u>

During the calendar year 1939, over 82,000 individual pay accounts for field training were computed by this section; collections for lost and damaged property and refunds for other items amounted to \$21,212.45.

### TRANSPORTATION SECTION

1. Below is submitted a report of activities in the *Transportation Section*, New York State Arsenal, for the calendar year 1939 as requested in your memorandum dated December 20, 1939.

2. Transportation of Federal Property required the issue of 1,248 Government Bills of Ladings. Troops to and from camps of instruction, special service schools and other activities used 400 Government Transportation Requests.

3. This section assisted our Division Headquarters, and 1st Army Headquarters prior to the maneuvers, in planning the train schedules, Freight Schedules for Military Impedimenta and Horses, points of entraining and detraining, etc., also for the troops training at Camp Smith, Peekskill, N. Y.

4. The train movement for troops during the seven (7) days additional field training, covering the period from November 4 to December 31, 1939, and from January 6 to January 14, 1940, was planned and carried out by this section.

5. A resumé of costs for the maneuvers, the additional field training, and the intra-State freight shipments is listed herein.

5-a. Cost to transport officers and men to and from the maneuvers .....	app.	\$76,975 00
b. Estimated freight charges to and from the maneuvers..	app.	51,672 00
c. Cost to transport the horses from the maneuvers.....	app.	3,527 00

Estimated costs to transport section.....	<u>\$132,174 00</u>
---	---------------------

6. Estimated costs to transport officers and men for additional 7 days field training.....	\$24,000 00
7. Estimated freight charges for intra-State shipments—1939 .....	<u>5,567 00</u>

8. The above figures, etc., does not include the normal field training at Camp Smith, Peekskill, N. Y., at which camp approximately 6,457 officers and men trained, for which train schedules, etc., had to be planned.

1. A total of 181 Federal vehicles have been overhauled for major repairs (3rd and 4th echelon work).

2. In addition to above the following have been completely overhauled for regiments in the metropolitan area.

144 generators  
72 starting motors  
84 distributors  
68 fuel pumps  
64 carburetors

3. Welding, brazing, straightening of fenders, chassis and bodies, is done by this section for all units in this area.

4. Carpenter work is also done here for units that have not the facilities to do same.

5. Machine shop work is also done here for all units coincidental in repair of vehicles; such as special units installed on vehicles by the Federal government, etc.

6. Upholstering, curtain and cover repair for vehicles is also done here for all organizations throughout the State.

7. The disassembling of six (6) surveyed vehicles and the cleaning and storing of usable parts was accomplished during this period.

8. The unloading of Federal vehicles from freight cars is performed by this section. During 1939, 31 motorcycles with side cars crated were unloaded, also, 89 trucks and 54 trailers  $\frac{3}{4}$ -ton Model KD-2 wheel. The trailers were crated and disassembled and had to be reassembled. Also note some of the trucks when shipped are partly disassembled and must be assembled and serviced before delivery to organization.

9. As required by regulation, this section is endeavoring to keep records of all Federal vehicles in the State of New York: as to their identity, serviceability, their location, and the cost of repair-maintenance of each vehicle.

Annual inventory has been accomplished satisfactorily with the co-operation of all regiments. All other vouchers, receipts, etc., pertaining to motor transport are accomplished and forwarded to their respective sections.

10. In addition to the above duties and performances, like all other repair shops, a great number of incidental repairs and adjustments are made, such as, repairing tubes, changing tires, greasing vehicles, washing and cleaning vehicles, replacing broken glass, tuning engines, etc.

And in our spare time we try to make the shop more comfortable, by bettering the lighting system, placing new electric outlets, make certain tools which are necessary to expedite repairs, paint and repair our quarters, and in general work whole-heartedly at our job.

#### CONSTRUCTION

1. Supplementing the annual construction report to the Chief, National Guard Bureau, under date of July 20, 1939, a copy of which is attached, the status of additional authorized items and proposed items are reported herein.

## 2. Authorized By Chief, National Guard Bureau—Camp Smith:

a. Chlorinator. Purchase and installation of one new manual-control chlorinator to supplement the present single unit installation, in the sewage disposal plant.	
Reservation of funds—f. y. 1940.....	\$1,060 00
b. Automatic defroster to be installed in the refrigerating unit of the central storage plant.	
Reservation of funds—f. y. 1940.....	\$90 00

## 3. National Guard Bureau Funds Requested—Pine Camp:

Funds requested—f. y. 1940.....	\$2,050 00
As indicated:	
a. Repair and painting of three artillery observation pylons..	986 31
b. Alteration to present 75mm gun shed for storage of 155 mm guns .....	557 80
c. Repair and reconstruction of garbage rack bases, mess halls, warehouses and general protective repair, maintenance and painting of buildings.....	505 89
Total .....	<u>\$2,050 00</u>

## 4. Construction and establishment of new brigade camp—Pine Camp.

In compliance with the direction of the Chief, National Guard Bureau, in a letter dated May 9, 1939, with reference to the "Construction Funds for Exclusive National Guard Camps" as authorized in the Appropriation Act for the fiscal year 1940, estimates in the amount of \$180,000 were submitted on June 26, 1939, as indicated:

a. Installation of pumping equipment and construction of pump house for new N. Y. N. G. deep well.....	\$6,000 00
b. Painting water tank and structure.....	900 00
c. New Infantry Brigade Camp	
(1) New buildings .....	143,000 00
(2) Clearing and grading area.....	1,512 00
(3) Concrete tent floors.....	28,588 00
Total .....	<u>\$180,000 00</u>

5. The consideration and action on the items indicated under paragraphs 3 and 4 have been temporarily deferred pending completion of action by the General Staff as to the status of Pine Camp as an exclusive camp or a concurrent camp based on the report of the board appointed pursuant to S. O. 115 Headquarters Second Corps Area, May 18, 1939, "for the purpose of defining the limits of exclusive National Guard camp at that station, and make recommendations on any other subject matters which might be referred to the Board."

## 6. Estimates being prepared—Camp Smith.

a. Estimates are now being prepared for submission to the Chief, National Guard Bureau, as indicated:	
(1) Replacement of all rotted electric poles, replacement of all overhead wiring, sub-feed lines, and drop lines in the East Camp—estimated cost.....	\$2,960 00

- (2) Manitou Range. Clearing excavation and improving the Manitou Range to provide adequate facilities for the proper conduct of musketry and field firing exercises for the new infantry weapons, including the M-1 rifle, 37mm. anti-tank gun, .50 caliber machine gun, and the 60mm. and 81mm. mortars—  
 estimated cost ..... \$5,000 00

7. Historical record. The establishment of a permanent historical record in accordance with the provisions of Army Regulations 30-1770, covering the buildings, tent floors, roads, observation towers and water, sewer, electrical and communications systems is now in process of completion. The record includes approximately 250 different units at Pine Camp, Camp Smith and the State rifle ranges. The work involves the ascertaining or verification of the total actual cost of each unit, the year of construction, the source of funds for construction, the preparation of detailed measured drawings from present records and field measurements, with a complete inventory of all permanent installations.

8. Plans and specifications. Plans and specifications are now being prepared for the construction of buildings in the proposed new brigade camp at Pine Camp. Buildings included in this group are the officers and enlisted men's mess halls and latrines, administration and infirmary buildings.

*Inclosure*

20 July 39

Subject: Annual Construction Report—1938-1939, N. Y. N. G.

To: The Chief, National Guard Bureau, War Department, Washington, D. C.

Thru Channels:

In accordance with paragraph 62-b and c, N. G. R. 74, there is forwarded herewith a report of the construction and repair work effected by the New York National Guard during the fiscal year 1938-1939.

(Signed) ANDREW H. THOMPSON,  
*Lieut. Colonel, Q. M. C., S. S., N. Y. N. G.,  
 U. S. Property and Disbursing Officer.*

1 Incl. Report (dup.)

685.1

1st Ind.

State of New York, A. G. O., N. Y. State Arsenal, Brooklyn, N. Y.  
 20 July 39. To: The Chief, National Guard Bureau, Washington, D. C.

Thru: The Commanding General, 2nd Corps Area, Governor's Island, N. Y.

Forwarded, inviting attention to annual report.

FOR THE ADJUTANT GENERAL:

(Signed) WM. A. TAYLOR,  
*Colonel, Q. M. C., S. S., N. Y. N. G.,  
 Assistant Adjutant General.*

*Pine Camp—Water Supply—Drilling Well*

Due to the inability to obtain the quantities of water necessary for the regular army construction project and the N. Y. N. G. camp on the Pine Plains Reservation during the 1938 Field Training Period, resulting from the insufficient supply caused by the clogging of the screen and defective condition of the regular army pumping equipment, and the inadequate output from the National Guard Auxiliary system consisting of a reservoir fed by springs and streams pumped through the distribution system or to the water tank by two (2) Fairbanks Morse 15 h.p. gasoline engines operating two (2) Gould 4 in. suction 4 in. discharge pumps, it was considered of prime importance that facilities for an adequate water supply be increased to meet current and contingent consumption requirements.

After consultation with a Second Corps Area engineer who was particularly familiar with existing conditions, it was deemed desirable and in our mutual interest to select a site for the drilling of a new 12 in. well in a line between the 103,000-gallon water tank and approximately 500 ft. from the regular army well.

Based upon data made available by the Second Corps Area on penetration records of test holes and the penetration record of the regular army well, all located in the vicinity of the site selected, it was deemed unnecessary to include in the preparation of invitations for bids the drilling of one or more test holes. The penetration record was, however, incorporated in the invitation for bids and is as indicated:

"8. *Information to bidders*:—The following penetration record of the present well drilled at the regular Army post is given for the information of the bidder. This well is approximately 400 feet from the site of the proposed well. The government does not guarantee similar conditions at the proposed site of well.

"Penetration record of well drilled at the Regular Army Post, Pine Camp, N. Y.

<i>From.</i>	<i>To</i>	<i>Thickness</i>	<i>Formation Encountered</i>
0'	90'	90'.....	Quick sand and fine sand
90'	92'	2'.....	Volcanic rock ledge
92'	107'	15'.....	Sand getting coarser and running into sand and gravel
107'	115'	8'.....	Fine sand, soft clay
115'	117'	2'.....	Dry clay and sand
110'	115'	5'.....	Rock, sand and gravel
115'	120'	5'.....	Sand, grit and gravel
120'	125'	5'.....	Coarse sand"

On June 7, 1939, the Chief, National Guard Bureau, approved the award under Contract Number W-48-ng-587, in the amount of \$3,142 to Stewart Brothers of Scotia, N. Y., for the drilling of a 12 in. well to a depth of 140 ft., the last 40 ft. to be screened by a brass screen, the contract being governed by a lump sum bid supplemented by increase and decrease unit prices for the depth of the well and the length of the screen.

Contrary to anticipated geological conditions, the volcanic lime rock ledge was encountered at a depth of 96 ft. but solid bed rock was found as the drilling continued. Based on actual conditions there appeared to be no necessity for the furnishing and installation of the well screen contracted for. On June 23 a proposal was forwarded to the Chief, National Guard Bureau, which was approved by wire on June 27, authorizing the contractor to drill beyond the originally stipulated 140 ft. to a depth of 234 ft. through the solid limestone rock in lieu of the furnishing and setting of the well screen, the substitution representing the equivalent value under the contract, and the approval granted being subject to adequacy tests of the well.

On June 29, a 6 in. plunger pump test was conducted, with a well depth of 212 ft. or in 116 ft. of rock, pumping up to the rate of 125 g.p.m. for three (3) hours, and then flow reduced to 75 g.p.m. A similar test was conducted the next day with the same results. Although the contractor assumed it to be a reasonable supposition that it would require 70 to 100 feet of rock drilling beyond the 234 ft. depth to obtain a capacity of approximately 250 g.p.m., the tests as conducted under the supervision of the N. Y. N. G. camp quartermaster were not accepted by the contracting officer.

Following completion of the drilling to the authorized depth of 234 ft., the 6 in. pump test was again operated for a period of four (4) hours on July 12, the results indicating a draw down of 14 ft. and a capacity of approximately 150 g.p.m., as indicated in the following comparative tabulation:

*6" Plunger Pump Test—June 30, 1939*

Air line 138'—Pressure 29 lbs.

Time	G.P.M.	Static	Strokes
—	—	71	—
7:45- 8:15.....	36.5	78	11
8:15- 8:45.....	49	89.5	18
8:45- 9:15.....	101.	111.	30
9:15- 9:45.....	110.	125.8	36
9:45-10:15.....	75.	125.8	36
10:15-10:45.....	75	125.8	36

*July 12, 1939*

11:40-.....	—	78	
11:40-12:02.....	96	87	
12:02-12:28.....	110	87	
12:50-.....	—	78	changed to long stroke
- 1:03.....	165	92	
1:23- 1:28.....	143	92	
1:28- 1:48.....	143	92	
1:48- 2:35.....	130	92	
2:35- 3:30.....	143	92	

Although the contractor strongly recommended authorization be obtained to continue drilling for an additional 70 ft. to 100 ft. through the limestone rock at \$9.80 per foot, on the assumption and

supposition that the supply would be proportionately increased with the increased depth, an analysis of the tests on July 12 indicated that with a total draw down of 14 ft. in four (4) hours and an average supply of 150 g.p.m., and considering the factor of safety, the well with an adequate turbine pump could supply 250 g.p.m.

A draw down and capacity curve based on the July 12 data is submitted herewith.

Authorization under original contract for well 140 ft. deep with 40 ft. of well screen.....	\$3,142 00
Cost of drilling well in accordance with authorized change eliminating well screen and drilling to a depth of 234 ft. through 138 ft. of limestone.....	3,141 20
Net decrease .....	<u>\$0 80</u>

It is contemplated that 1940 fiscal year funds may be made available to complete the installation of a deep well turbine pump of 250-gallon capacity, with water line and connections to the distribution system, the necessary electrical installation and for the construction of a cement block pump house.

When the present installation has been completed, the water supply and distribution system will permit the supply of water for either or both the regular army and N. Y. N. G. camps from either one (1), two (2) or the three (3) sources of supply, namely:

- Regular Army Deep Well Turbine
- N. Y. N. G. Deep Well Turbine.
- N. Y. N. G. Reservoir Auxiliary System

It is estimated that an ultimate supply of over 600 g.p.m. could be distributed throughout the system by operating all units simultaneously

#### *Pine Camp—Maintenance and Repair*

Under Reservation No. 4, dated August 9, 1938, funds in the amount of \$1,675 were allocated for maintenance and repairs to plumbing system, tent floors and the landing field at Pine Camp.

Expenditures for repairs were made as indicated:

Plumbing and electrical materials.....	\$67 23
Labor for plumbing, electrical and tent floor repairs and replacements .....	<u>180 00</u>

#### *Aviation Field*

Under Contract No. W-48-NG-548 with the Mexican Petroleum Corporation 12,200 gallons of asphalt cut back (Fed. Spec. SS-A-671) was furnished, delivered and applied on August 22, 1938, to the runways of the landing field, this bituminous material supplementing the 10,047 gallons authorized under Project 7 funds for the fiscal year 1938 and as reported in the last annual report from this office. The work included the hauling and crushing of stone

for the surfacing and completion of the runways. The present field consists of a completed main runway 150 ft. wide x 2,400 ft. long, and a N. S. cross runway 90 ft. wide x 1,200 ft. long.

Expenditures for the landing field were as indicated:

12,200 gals. asphalt cut back @ .1073.....		\$1,295 97
Central N. Y. Power Corp. for electric energy to operate stone crusher (held in reserve).....		90 01
		<u>\$1,385 98</u>
Allocated under Reservation No. 4.....		\$1,675 00
Total expenditures for materials.....	\$1,453 21	
Total expenditures for labor.....	180 00	
Total .....		<u>\$1,633 21</u>
Unexpended balance .....		<u>\$41 79</u>

#### *Camp Smith—Refrigeration—Central Storage Plant*

On June 6, 1939, under Reservation No. 9 dated May 31, 1939, two 7F3-20WF complete self-contained Freon refrigeration compressor units were installed by the Suburban Air Conditioning Corporation under Contract W-48-ng-586 in the vestibules of the Central Storage Plant building at Camp Smith, with 700 sq. ft. of finned copper tubing evaporating coils in the meat storage compartment and 700 sq. ft. in the dairy compartment, the size of each compartment being 27 ft. 7 in. x 11 ft. 9 in. x 10 ft. 4 in. high. The installation replaced the seven (7) unserviceable and obsolete sulphur dioxide type Model "C" Frigidaire compressor units and old boiler type coils installed under Contract W-48-MB 22I dated June 4, 1929.

The contract was executed in exact accordance with the specifications. The general requirements included the clause that a constant temperature of between 34 and 37 degrees F. was to be maintained in both compartments. The N. Y. N. G. Quartermaster at Camp Smith deemed it necessary that a temperature of 32 degrees be maintained in the meat cooler. In lowering the temperature, difficulty was encountered by the frosting of the coils. It was noted that to defrost the unit once a week, approximately eight (8) hours was required, during which time the temperature rose to 50 degrees. The element of risk involved by manually defrosting the unit periodically during the day was objectionable. Funds in the amount of \$90 have been made available for the fiscal year 1940 for the installation of an automatic defroster.

The bid under the contract for removal of the existing units and installation of the new units was.....		\$1,298 00
Less salvage value allowance on the old units.....		150 00
Net cost of installation .....		<u>\$1,148 00</u>

*Camp Smith—Electrical Materials*

Under authority from the Chief, National Guard Bureau, dated June 3, 1939, \$170 was reserved for the purchase of electrical materials, to include wire, sockets, fuses, friction tape, fuse links and electric bulbs, for maintenance and replacement of the electrical installations of the West Camp.

The expenditures were as indicated:

Electrical materials .....	\$118 58
360-GE 40 watt lamps TPS 24,503.....	32 40
	<hr/>
Total .....	\$150 98
Unexpended balance .....	19 02
	<hr/> <hr/>

*Guilderland Target Range—Guilderland, New York*

Under War Warrant No. 6530, dated March 22, 1939, and Reservation No. 7, dated March 6, 1939, \$4,960 was allocated under project No. 13 for building materials for the construction of a 25-target rifle range to be constructed on the New York State owned 238-acre tract at Guilderland, Albany county, N. Y. It is contemplated that this range when complete will be used by the following N. Y. N. G. units stationed at Albany, Troy, Cohoes and Schenectady:

Headquarters, Tenth Infantry.  
 Service Co., Tenth Infantry.  
 Headquarters and Hdqrs. Co.  
 1st Bn., Tenth Infantry.  
 Company A, B, C, and D, 10th Infantry.  
 Medical Department Detachment, 10th Infantry.  
 Hq., 1st Sq., 121st Cavalry.  
 Troop B, 121st Cavalry.  
 Hq., 2nd Bn., 102nd Med. Regt.  
 Hq., 3rd Bn., 102nd Med. Regt.  
 Co. I, 102nd Med. Regt.  
 Headquarters and Hq. Co., 105th Infantry.  
 Service Company, 105th Infantry.  
 Headquarters, 1st Bn., 105th Infantry.  
 Company A, B, C and D, 105th Infantry.  
 Med. Dept., Detach., 105th Infantry.  
 Hq. and Hq. Co., 2nd Bn., 105th Infantry.

 Company M, 105th Infantry.  
 Headquarters and Hq. Co., 53rd Brigade.

Materials delivered or contracted for under the Federal allotment for the construction of the retaining wall and store room include:

Cement 720 bbls.....		\$1,699 20
Gravel 115 cu. yds. No. 1.....	\$189 75	
Gravel 295 cu. yds. No. 2.....	486 75	
Gravel 190 cu. yds. No. 3.....	335 16	
	<hr/>	1,011 66

Structural and miscellaneous steel and iron.....	\$561 18
Lumber and trim.....	933 55
Asbestos shingles (12 squares).....	144 00
Sand-concrete 300 cu. yds.....	468 00
Total net cost of materials.....	\$4,817 59
Balance for revocation.....	\$142 41

Materials not indicated as having been purchased from Federal funds have been or will be furnished by the State of New York including millwork and trim, nails, bolts, hardware, form wire, window guards, asphalt felt, roofing cement, paints, oils and all necessary tools and equipment.

Labor for the completion of the target range includes the construction of the retaining wall, butts, embankment and target house, clearing site, construction of roads, changing course of creek, construction of firing mounds, construction of wash walls and bank protection with all work incidental thereto.

It is reported that on inspection of the Guilderland site on July 14, all preliminary work had been completed. The range site and firing lanes have been cleared, roads have been constructed, the course of the creek has been changed, wash walls have been constructed, firing mounds have been roughed in and excavation has been completed for the retaining wall footings. Practically all materials contracted for and authorized under the Federal allotment have been delivered. It is anticipated that the construction of the retaining wall will be started within a month.

The Guilderland site lends itself ideally for a rifle and a machine gun range with a natural back stop of porous stone 130 feet high, as indicated by the topographical map of the area.

#### *Summary of Expenditures*

Project 7		
Pine Camp:	Reservation	Expended
Maintenance and repair of aviation field, plumbing, electrical and tent floors.....	\$1,675 00	\$1,633 21
Contract-drilling 12 in. well, 234 ft. deep.....	3,142 00	3,141 20
Camp Smith:		
Contract-installation of refrigerating units in central storage plant.....	1,148 00	1,148 00
Electrical materials .....	170 00	150 98
Total—Under Project 7.....	\$6,135 00	\$6,073 39
Project 13		
Guilderland Target Range:		
Purchase of range construction materials.....	4,960 00	4,817 59
Total—Under Projects 7 and 13.....	\$11,095 00	\$10,890 98
Unexpended balance .....		\$204 02

#### *Proposed Work*

In addition to installation of a deep well turbine pump of 250-gallon capacity, with service main, electrical installations and pump house referred to in this report, and the estimate for a new

infantry brigade camp at Pine Camp, submitted to the Chief, National Guard Bureau, on N. G. B. "Special form for submission of new construction program—exclusive," dated June 26, 1939, and based on the 1940 Appropriation Act, it is contemplated that the following necessary construction items will be submitted for approval:

- a. Repair and painting of three (3) artillery observation pylons at Pine Camp.
- b. Construction of two (2) pairs of doors in the end of the 75 mm gun shed at Pine Camp, to permit entry and storage of 12—155 mm G. P. F.'s now at Fort Ontario.
- c. General repairs to buildings.

In consideration of the fact that organizations will not perform their tours of field training at Pine Camp this year due to the maneuvers in the Plattsburg area, it was considered essential that advantage be taken of this opportunity to accomplish the completion of a new well, with funds normally used for maintenance and repair of buildings. An inspection of the buildings discloses that a considerable number require repair and painting.

#### *Dump Trucks*

The experiences of the past five (5) years during the various phases of construction work in the N. Y. N. G. camps and rifle ranges make it evident that the most important and essential item of equipment which is not available and urgently needed is the dump truck. The entire N. Y. N. G. has only two 1½-ton Indiana dump trucks, which are assigned to the 102d Engineer Regiment.

Many contacts and repeated efforts have been made to borrow or have temporarily assigned for camp construction work on military reservation, on which were located other Federal agencies with more dump trucks than were normally required, but all efforts were unsuccessful.

This item of equipment is considered of such primary importance, not only from the construction angle, but for general utility purposes to facilitate camp operations, it is suggested and urgently recommended that efforts be made to make available for the National Guard of this State four (4) 1½-ton dump trucks.

### **Bureau of Grounds and Structures**

#### NEW ARMORY CONSTRUCTION

After a very comprehensive and complete study, replacement of heating systems, new armories or reconstruction of old armories are required in the following priority:

Buffalo, 174th Infantry (new heating system).....	\$72,000 00
Brooklyn, 106th Infantry (addition to heating system).....	60,000 00
Syracuse Field Artillery (new).....	325,000 00
Utica Infantry (additions and reconstruction).....	275,000 00

Mount Vernon Field Artillery (new).....	\$300,000 00
Auburn (new) .....	400,000 00
Poughkeepsie Field Artillery (new).....	300,000 00
Geneseo (administration building).....	100,000 00
Dunkirk Naval Militia (new).....	250,000 00
Rome (new) .....	150,000 00
Buffalo Naval Militia (new).....	300,000 00
Yonkers (addition) .....	50,000 00
Albany Cavalry (addition).....	50,000 00
Rochester Infantry (addition).....	150,000 00
Niagara Falls (addition).....	150,000 00
Middletown (addition) .....	150,000 00
Hempstead (addition to drill hall).....	150,000 00

### *Explanation*

Details with respect to requirements indicated above, are as follows:

*Buffalo, 174th Infantry.*—Present system inadequate to properly heat the building. Estimated cost, \$72,000.

*Brooklyn, 106th Infantry.*—Present system inadequate to properly heat the building. Estimated cost, \$60,000.

*Syracuse Field Artillery.*—Present structure rented and is inadequate and unsuited for the training of field artillery and does not provide the necessary protection to Federal and State property against fire and theft. A modern armory should be built for this unit at a cost of \$325,000, plus cost to the county for land.

*Utica Infantry.*—Present structure built in 1894 (is 45 years old). Originally built to accommodate two infantry units. At present occupied by battalion headquarters and three infantry units. It is estimated that additions could be made to this armory which would provide adequate quarters at a cost of \$275,000, plus cost to the county for land.

*Mount Vernon Field Artillery.*—Present structure built in 1898 (is 41 years old). Originally built for one infantry unit. At present occupied by a battery of field artillery. Is the smallest armory and entirely inadequate for present day requirements. A new armory should be provided at a cost of \$300,000.

*Auburn.*—Present structure built in 1873 (is 66 years old). Originally built for one infantry unit. At present occupied by three infantry units. A new armory should be provided at a cost of \$400,000, plus cost to the county for land.

*Poughkeepsie Field Artillery.*—Present structure built in 1891 (is 48 years old). Originally built for one infantry unit. At present occupied by two units of field artillery. A new armory should be provided at a cost of \$300,000.

*Geneseo.*—Troop I, 121st Cavalry, is now occupying a converted farm house which is entirely inadequate for the training of the personnel, and for the proper protection against fire and theft of the Federal and State property stored therein. A modern fireproof administration building should be provided at a cost of \$100,000.

*Dunkirk Naval Militia.*—A separate division of the Naval Militia is occupying rented quarters which are not adequate for the proper training of the personnel. A modern armory should be provided at a cost of \$250,000, plus cost to the county for land.

*Rome.*—Present structure rented and inadequate, unsuited for proper training of a medical unit and does not provide the necessary protection to Federal property against fire and theft. A new armory should be provided at a cost of \$150,000.

*Buffalo Naval Militia.*—The 9th Battalion, Naval Militia, is at present occupying quarters in the armory of the 174th Infantry. This building is overcrowded and a new armory should be provided at a cost of approximately \$300,000.

*Yonkers.*—This armory was originally constructed to house one infantry unit. At present occupied by three units of Special Troops. An addition to the administration building should be provided at a cost of \$50,000.

*Albany Cavalry.*—An addition, at a cost of \$50,000, should be made to this armory in order to provide quarters for Brigade Headquarters and also to provide storage space for motor vehicles.

*Rochester Infantry.*—An addition, at a cost of \$150,000, should be provided for this armory in order to properly house the units therein stationed.

*Niagara Falls.*—An addition to this armory is necessary in order to properly house the units therein stationed. It is estimated this addition could be built for \$150,000.

*Middletown.*—Present structure built in 1890 (is 49 years old). Originally built for one infantry unit, now occupied by a battery of field artillery. An addition to this armory should be provided at a cost of \$150,000.

*Hempstead.*—An addition to the drill hall of this armory to cost \$150,000 in order to provide adequate facilities for the proper training of the troops quartered therein.

Appropriations made by the Legislature for 1939, for armories, etc.:

New heating system, 10th Infantry Armory, Albany.....	\$66,000 00

Company H, 102nd Medical Rgt., Corning.....	11,901 20	Steuben
Company K, 108th Inf., Hornell.....	12,775 76	Steuben

And the amount to be retained by the State treasury to the credit and subject to the order of The Adjutant General, Fourth Brigade District, is the sum of \$48,150.

It will be noted that in addition to the moneys allocated to the armories in the Third and Fourth Brigade Districts and enlargements, repairing, renting, etc. in each of the two districts, there

remains in the State treasury a sum of \$120,168.46 which was collected and paid into the State treasury by the various counties of the Third and Fourth Brigade Districts for the maintenance and repair, etc. of armories and which the Legislature failed to appropriate for the purpose for which it is was raised.

It is strongly recommended that this money be released for the purpose for which it was collected and paid into the State treasury by the various counties.

### *City of New York*

Through the Armory Board of the City of New York the following sums were expended by the City of New York for military purposes for the fiscal year ending June 30, 1939:

Administration .....	\$36,719 38
Fuel supplies .....	57,399 13
General plant supplies .....	5,701 47
General plant equipment.....	11,564 98
General plant materials.....	6,780 75
Repairs and replacements.....	14,225 95
Telephone service .....	6,975 76
Contingencies .....	23,911 95
Maintenance (25 per cent of rentals).....	17,933 80
Wages, Armory employees.....	860,099 50
New construction .....	..... ..
Total .....	\$1,041,312 67

### GROUNDS AND STRUCTURES

Military structures in the State with data of erection, approximate valuation and floor space are as follows:

## Armories

LOCATION AND ORGANIZATION	Date of erection	Estimated valuation	Floor space (sq. ft.)
Albany, Hq., Serv. Co., Hq. and Hq. Co. 1st Bn., Cos. A, B, C, and D, 10th Inf.; Hq. 2nd and 3rd Bn. and Co. I, 102nd Med. Regt.	1891	\$462,500 00	121,100

\* U. S. S. Illinois.

† U. S. Reservation.

‡ U. S. Briarcliff.

Total armories 102.

Total number of armories leased for subdivisions of the National Guard and Naval Militia unable to secure accommodations in the foregoing is 5.

The active military establishment of the State is housed in the 87 buildings indicated above.

Storage facilities are provided at the United States Naval Reservation, Sackets Harbor, for material of the 13th Fleet Division, Naval Militia, and at Utica for units of the 10th Infantry.

*Arsenals, Etc.*

Arsenals, camp grounds and rifle ranges, owned by the State are as follows:

Brooklyn.—State Arsenal, erected 1926. Used by The Adjutant General of the State as an arsenal and storeroom. Approximate valuation, \$1,000,000. Floor surface, 166,000 square feet.

Peekskill.—State Camp Ground and Rifle Range. For use of infantry and such other troops as may be designated. Approximate valuation of land and buildings \$235,000. Approximate area 1,886 acres. One hundred and eighty-seven targets.

Guilderland Rifle Range.—Approximate valuation, \$25,000. Acreage, 238 acres.

This range is under construction as a State Project with W. P. A. assistance. Prior to outdoor firing in the spring of 1940, there will be available on the range 10 rifle targets, a machine gun range and a pistol range. The above work will be completed within the \$20,000 appropriated for the acquisition of the site and the construction of the range.

In 1938 when the Guilderland Rifle Range site was secured, it was the intention that this range provide a location for firing instruction for troops from Albany, replacing the Rensselaerwyck Rifle Range which had been used by these troops. Troops from Troy, Schenectady, and Cohoes were trained on the Karner Rifle Range. During 1939 a higher powered ammunition was issued and higher powered rifles developed. Also the War Department changed the requirements for firing qualifications. These three changes have made the Karner Range unusable from the safety angle and have necessitated its abandonment. The result is that the Guilderland Rifle Range must also be used by the troops from Troy, Schenectady and Cohoes, increasing the number of troops using the range from 450 to approximately 1,400.

In order to meet this increased use of the Guilderland Rifle Range, it is necessary that the range be extended from 10 to at least 25 rifle targets and that a suitable range house for storage of targets, ammunition, supplies, and so forth be built.

Without increase of targets, extension of firing points, and necessary storage facilities, it will be physically impossible to train the troops of Albany, Troy, Schenectady, and Cohoes as required by the War Department.

To provide this necessary expansion, it is urgently recommended that an additional appropriation of \$15,000 be made.

In addition to the above, camp grounds are provided in the State for cavalry, artillery, and air service on Federal reservations at Great Bend, Oswego, and Fishers Island.

### *Rifle Ranges*

Field Rifle Ranges for the use of troops of the National Guard and Naval Militia are leased by the Federal government as follows:

STATION OF TROOP	Annual rental	Location	Number of targets	Ranges (yds.)
Amsterdam . . . . .	\$200 00	Town of Mohawk . . . . .	3	200 to 800
Auburn . . . . .	150 00	Town of Throop . . . . .	3	200 to 600
Binghamton . . . . .	200 00	Binghamton . . . . .	4	200 to 1,000
Elmira . . . . .	125 00	Elmira . . . . .	7	200 to 1,000
Geneva . . . . .	200 00	Geneva . . . . .	3	200 to 800
Glens Falls . . . . .	75 00	Glens Falls . . . . .	4	200 to 1,000
Hoosick Falls . . . . .	140 00	Hoosick Falls . . . . .	4	200 to 1,000
Jamestown . . . . .	150 00	Town of Frewsburg . . . . .	3	200 to 1,000
Mohawk . . . . .	210 00	Town of Herkimer . . . . .	3	200 to 1,000
Malone . . . . .	100 00	Malone . . . . .	3	200 to 600
Medina . . . . .	150 00	Medina . . . . .	4	200 to 600
Olean . . . . .	250 00	Olean . . . . .	4	200 to 1,000
Oneonta . . . . .	175 00	Oneonta . . . . .	5	200 to 800
Oneida . . . . .	125 00	Oneida . . . . .	2	200
Saratoga . . . . .	175 00	Saratoga . . . . .	4	200 to 800
Syracuse . . . . .	250 00	Town of Manlius . . . . .	4	200 to 1,000
Utica . . . . .	200 00	Town of Frankfort . . . . .	5	200 to 1,000
Walton . . . . .	100 00	Walton . . . . .	3	200 to 1,000

Landing Field.—A landing field for Air Corps of the National Guard is leased by the Federal government at Fulton, N. Y., at an annual rental of \$250.

Firing Point for 212th C. A. leased from Ward B. See, Lakeview Road, Oswego, at an annual rental of \$100, for period July 1, 1938 to June 30, 1939, no renewal option.

Total leased rifle ranges, 18.

Total floor space of all buildings, exclusive of structures at camps and rifle ranges, is 6,605,780 square feet.

The approximate valuation of military grounds and structures owned by the State and City of New York is \$39,895,768.

During the past year this office received very hearty co-operation from the Works Progress Administration and received Federal funds in the sum of \$96,451, for which grants we contributed as sponsor of the projects the sum of \$24,949 which was paid from appropriations for repairs, etc., to armories in the Third and Fourth Districts, which moneys were assessed and collected from the counties comprising these districts.

The projects mentioned above are shown in detail in the following tables and do not include Federal contributions to City of New York.

Projects approved by the W. P. A. are as follows:

PROJECT	Character of work	Federal funds	Sponsor's contribution	Total cost
State Cavalry Armory, New Scotland Avenue, Albany. (Albany County.)	To complete plumbing, painting, carpentry, roofing and electrical work begun under O.P. 465-21-2-431, W.P. 51031.	\$2,852 00	\$4 00	\$2,856 00
State Armory, West First and Mohawk Streets, Oswego. (Oswego County.)	To complete exterior masonry, etc., begun under O.P. 465-21-2-366.	3,290 00	5 00	3,295 00
Naval Militia Boathouse, Summerville. (Rochester, Monroe County.)	New roof covering, alterations and painting.	14,834 00	5,780 00	20,614 00
Guilderland Rifle Range. (Albany County.)	The construction of a field rifle range.	75,475 00	19,160 00	94,635 00
The following project has been submitted but up to date has not been approved:				
Guilderland Rifle Range. (Albany County.)	The construction of range house.	15,603 00	9,602 00	25,205 00

From time to time during the year changes in construction of several armories were made in order to provide storage space for motor vehicles.

It is my intention, as funds are available, to provide adequate storage space in all armories for motor vehicles.

In the past the Federal Inspection reports have criticised many of our armories on account of the unsafe storage facilities for small arms. I have directed that wooden gun racks be removed from the armories as soon as possible and the issue arms racks be substituted and enclosed in heavy metal cases. It is hoped in a few years to have all the old-fashioned arms cases removed from our armories.

### Personnel Bureau

The functions of the Personnel Bureau are those outlined in the report of the activities of this bureau for 1935.

*Appointments and Separations.*—During the year 1939 military commissions and separations were effected as follows:

	National Guard	Naval Militia
Officers promoted .....	140	18
Officers appointed from the ranks .....	91	..
Officers appointed from other sources .....	39	11
Officers placed on the Reserve List .....	35	5
Officers placed on the Retired List .....	13	..
Officers transferred from one arm or service to another ...	4	..
Officers transferred from the active to Inactive National Guard .....	34	..
Officers who resigned and were honorably discharged....	168	19
Officers honorably discharged under section 81, M. L....	1	..
Officers discharged on account of physical disability.....	1	..
Officers who died during the year .....	10	..

### AWARDS OF DECORATIONS

*Medals for Valor.*—No Medals for Valor were awarded during the year 1939.

*Conspicuous Service Cross.*—Under the provisions of section 247, Military Law, twenty-six (26) Conspicuous Service Crosses were awarded to various applicants during the year 1939.

*Long and Faithful Service.*—During the year 1939, 405 Decorations for Long and Faithful Service were awarded to various applicants divided into the following classes:

Special Class (35 years of service) .....	7
First Class (25 years of service) .....	31
Second Class (20 years of service) .....	100
Third Class (15 years of service) .....	25
Fourth Class (10 years of service) .....	242

The present appropriation for the purchase of this decoration is inadequate and should be fixed at not less than \$9,000, due to increasing demands. On this date there are on hand applications representing the total value of \$2,000, many of which have been pending since before January 1, 1938.

**Bureau of War Records**

The activities of this Bureau are those described in the report of this Bureau for the year 1935.

The Bureau is still engaged in the additional undertaking of compiling World War records by counties. The work has been completed up to the letter W.

**Bureau of World War Records**

Under constitutional authority a bonus for New York Veterans of the World War was provided pursuant to chapter 19, Laws of 1924. The sum of \$45,000,000 was realized from the sale of bonds authorized by law, this sum having been augmented by premiums amounting to \$659,565, the latter sum also being appropriated for bonus purposes under chapter 208, Laws of 1925.

A commission, consisting of The Adjutant General, the Comptroller, the Treasurer and the Attorney-General, administered the disbursement until April 22, 1926, when its functions were absorbed by The Adjutant General.

Each eligible veteran, upon application, received the sum of \$10 for each month of service with the colors, between April 6, 1917 and November 11, 1918, with \$150 as the maximum payment.

Under chapter 209, Laws of 1925, an additional appropriation of \$2,500,000 was made. Chapter 26, Laws of 1925, added the next of kin to those who were killed or died in the service or prior to February 28, 1924, as eligible to receive the bonus. Under chapter 267, Laws of 1926, a further appropriation of \$300,000 was approved. Chapter 676, Laws of 1931, extended the time for filing claims to July 1, 1932, and made an appropriation of \$250,000. At an extraordinary session of the Legislature in 1931 to carry out the provisions of an act creating a temporary emergency relief administration, the sum of \$584,000 was appropriated by chapter 799 for the payment of bonuses, \$30,000 of which was made available for administration expenses. Under chapter 120, Laws of 1933, an additional appropriation of \$90,000 was made for bonus payments and \$25,000 for administrative expenses. The unexpended balances of these appropriations were reappropriated each year by the Legislature and were made available in the Executive Budget of 1936, chapter 15, Laws of 1936. This chapter amended by a substitute bill, chapter 360, Laws of 1936, eliminated these reappropriations and refunded the unexpended balances amounting to \$72,824.92 to the General Fund. By chapter 875, Laws of 1936, \$10,000 of this refunded amount was reappropriated and made available for one year beginning July 1, 1936. This action of the Legislature automatically closed the Bureau on June 30, 1937, and suspended the payment of bonuses on that date. Chapter 40, Laws of 1937, reappropriated \$200 of the unexpended balance of the appropriation made by chapter 875, Laws of 1936, for incurred liabilities and created the Bureau of World War Records in the Adjutant General's office to take over the records of the Bonus Bureau. Chapter 700, Part 2, Laws of 1938, appropriated \$1,111.33 for the payment of suspended claims which had been approved during the previous year and chapter 460, Part 2, Laws of 1939, appropriated \$1,045.67 to pay claims approved during the year of 1938. During the operation of the Bureau there has been appropriated for bonus purposes \$49,420,722 out of which there has been paid in bonuses and administrative costs the sum of \$49,347,892.42 and in a refund to the General Fund, \$72,829.58.

Under the original law no claims could be received after May 1, 1927. The Bureau reopened April 23, 1931, and closed for the receipt of applications July 1, 1932, during which period 10,135 new claims were received.

The total claims received was 427,799 or 82% of the 518,864 veterans credited to the State. Of the number received, 9,242 or .0215% were rejected as not entitled to the bonus. There are still 4,909 or .0115% of the claims received awaiting action by the Bureau due to the delay of the veteran in supplying required data. Of the total received 413,648 or 96% were paid at an average cost of \$1.85 per claim. Of the total veterans entitled to make application 91,065 or 18% failed to make a claim although 14,618 of this number applied for blanks. Their requests, however, had to be denied owing to the fact that they applied after the time limit, July 1,

1932. The average payment per claim was \$117.23 or 78% of the maximum amount allowed, \$150. Of the total claims received, 25,257 applicants were not credited by the authorities in Washington as having enlisted from the State of New York.

Of the claims awaiting action there are being received from time to time letters from the applicants supplying sufficient data to warrant the payment of these applications. During the past year 12 of these applications in the amount of \$1,433 have been approved for payment. These claims have been segregated and a request has been made to the Legislature for an appropriation sufficient to pay them.

During the operation of the Bureau many activities developed other than the payment of the bonus. Being an office of record constant inquiries are being received from governmental, civic and veteran agencies and private sources relative to pertinent information regarding the service of veterans and certified copies of papers submitted with bonus applications for use in furthering claims for compensation, tax exemption, civil service examinations, retirements, promotions and for other and varied purposes. From experience with the records of the Civil and Spanish Wars, which are still active, undoubtedly the records of this Bureau will remain in demand for some time to come.

### Veterans and Soldiers Affairs

#### PENSIONS AND CLAIMS

##### *Blind Veterans' Fund*

There are on this date a total of one hundred ninety-eight (198) veterans of all wars and eight (8) widows of veterans who receive five hundred and no/100 (\$500) dollars, per annum, under the provisions of Article 1-B of the Military Law. Thirty-four (34) new applications were filed since the last report, a decrease of five (5) over the previous year. Twenty-seven (27) were approved and certified to the Comptroller; six (6) were disallowed, and one (1) is now under investigation. Four (4) recipients of this annuity died during the past year, and one (1) person was removed from the rolls, having regained sight as the result of an operation.

##### *Pensions*

Sixty (60) persons are at present receiving pensions under the provisions of section 220, Military Law, which provides compensation for permanent disability incurred in line of duty in the National Guard or Naval Militia under lawful orders. Since the last report two (2) claims for pensions were approved; three (3) were disallowed, and one (1) is now under investigation. One (1) pensioner's name was stricken from the rolls during the past year on account of death. One (1) application for an increase in pension was disapproved.

*Claims*

Eighteen (18) claims for pay and medical care on account of disability incurred in line of duty were filed during the past year by members of the Military and Naval forces of the State under the provisions of section 223, Military Law. Five (5) claims were allowed; eight (8) were disallowed, and five (5) are being investigated.

*Retirements*

Under section 19-A, Military Law, nine (9) applications for retirement at half pay were approved during the past year, all of which were for armory employees. There are now forty-eight (48) persons receiving retirement pay under the provisions of this law. Two (2) retired employees died during the calendar year 1939.

Under section 219-A, Military Law, there are four (4) retired officers of the New York National Guard, former employees of this Division, and two (2) widows of deceased officers of the New York National Guard who are now receiving compensation under the provisions of this section of the law. One (1) officer was added to the list during the past year through legislative action.

*Motor Vehicle Accidents and Claims Resulting Therefrom*

Sixty-two (62) motor vehicle accidents incidental to the training of the National Guard were reported to this office during the past year. Of that number fifty-two (52) were in connection with the conduct of the 1st Army Maneuvers and Field Training at State camps, and ten (10) were in connection with the Armory Training. As a result of these accidents twenty-five (25) claims for property damage were filed, and after considerable administrative action were disposed of as follows: Those incidental to the 1st Army Maneuvers, thirteen (13) in number, were referred to Headquarters, First Army, for appropriate action; those incidental to Field Training at State camps, eight (8) in number, are now being processed by boards composed of National Guard officers and will eventually be forwarded to the National Guard Bureau for settlement, and those incidental to Armory Training, four (4) in number, are a State liability and were referred to the Court of Claims for appropriate action.

**VETERANS' RELIEF**

Under chapter 589, Laws of 1922, a commission to be known as the New York Veterans' Relief Commission, consisting of The Adjutant General, to be chairman thereof, the Comptroller and the Attorney-General, was created for the purpose of distributing relief to sick and disabled veterans of the World War. For the purpose of administering this act \$1,000,000 was appropriated. Under chapter 326, Laws of 1923, this commission was abolished

and a separate bureau was created in the office of The Adjutant General to be known as the Bureau for the Relief of Sick and Disabled New York Veterans. Under this chapter an additional million dollars (\$1,000,000) was approved. Of this total \$68,891.29 reverted to the State treasury through lack of re-appropriation. Under chapter 605, Laws of 1928, chapter 41 of the Laws of 1909, entitled "An act in relation to the militia, constituting chapter 36 of the Consolidated Laws," was amended by adding Article 1-A, thus establishing the administration of relief as part of the Military Law.

In order to carry out the provisions of the above law the Legislature under chapter 708, Laws of 1931, appropriated \$75,000. In 1932, \$100,000 was obtained through the Temporary Emergency Relief Administration from funds appropriated under chapter 567. In 1933, \$50,000 was appropriated under chapter 120 and in 1934, an appropriation of \$200,000 was received from the Temporary Emergency Relief Administration from funds appropriated under chapter 273 and \$50,000 from General Funds under chapter 20. Under chapter 930, Laws of 1939, \$50,000 was appropriated, making the gross total available of \$2,456,169.71.

Since the institution of the Bureau many thousand requests for relief from sick or disabled, needy, unemployed, honorably discharged veterans of the World War have been received. These applications were thoroughly investigated and a majority of them were rejected due to the fact that they did not come within the meaning of our law. However, to date 12,139 cases were approved of which 10,554 are active or have been paid the maximum allowed under our law and 1,585 are in our rejected files for various reasons.

Actual payments for relief of sick and disabled veterans to date amount to \$2,079,004.59. Expenses of relief commissioners and administration to date are \$328,308.35. The unexpended balance is \$48,856.77, of which \$630.76 is the balance in chapter 273, Laws of 1934 and \$48,226.01 in chapter 930, Laws of 1939.

The bureau is represented by a resident commissioner in each assembly district throughout the State. The commissioner makes the necessary investigation to determine the eligibility of an applicant to be given relief. He prepares all papers, makes the relief payments, renders the periodical reports and returns and discharges the multiplicity of duties that must necessarily result from the position.

These gentlemen serve without pay; they give their time and efforts to the work without recompense and altogether are rendering a service to the State of a high patriotic value.

### **Recruiting Bureau**

The activity of this Bureau increased considerably during the last three months of the year due to the requirements of the War Department that the strength of the New York National Guard be

increased by 4,632 enlisted men. About 50% of this increase has been realized to date as only those men who come up to the high standard of requirements for enlistment in the New York National Guard are being accepted.

### **Bureau of Files, Mail and Distribution**

During the year there were 745 issues of publications on training, army regulations and other pamphlets received from the Federal government by this Bureau and distributed to the units of the National Guard of this State, in addition to the necessary Federal forms required by the National Guard. There were also caused to be printed and distributed all State forms used by the National Guard in addition to the General Orders, Bulletins and Training Circulars originating in this office and in the office of the Commanding General, New York National Guard.

### **Conclusion**

In closing, I wish to express my deep appreciation of your valuable guidance as Commander-in-Chief of the Military and Naval Forces of the State of New York and to assure you the Military and Naval Forces of the State were never in a higher state of efficiency.

Respectfully submitted,

WALTER G. ROBINSON,  
*Brigadier General,*  
*The Adjutant General.*

## APPENDIX A

---

### **Report of the Commanding General, New York National Guard**

In accordance with the requirements of Paragraph 6, Regulations No. 80, I have the honor to submit the following report on the affairs of the New York National Guard for the calendar year 1939.

1. *General.* Due to world-wide conditions, the past year has been a most active one for our State military forces. There has not been a time since the conclusion of the World War that more effort has been demanded of the New York National Guard, but the promptitude and precision with which our organizations have met the additional requirements, most of them on very short notice, and the character of performance in all of its activities, substantiates my conclusion that the general condition of our forces is most satisfactory. This conclusion, based on extensive personal observation of our troops in the field and in their armories, is well borne out by the reports of the Regular Army inspectors on the annual armory and field training activities, as also the reports of regular and special inspections made by staff officers at this headquarters. Steady and definite progress has been made, and I am convinced that the year 1939 closes with the Guard at its highest state of efficiency and readiness for active service at any time since its reorganization in 1919. True it is that there are deficiencies, but save for the lack of sufficient modern equipment, these shortcomings are all of a minor nature, which are bound to exist with the large annual turnover in enlisted personnel. Later in this report I will remark in detail on the demands and accomplishments of the Guard during the year.

2. *Strength.* At the start of the year the maximum strength allotted by the War Department was 21,041 officers and enlisted men. Effective October 1 this was increased, by Executive Order of the President, to 25,624, the increase of 4,583 being all in enlisted strength, to the infantry, field artillery, coast artillery, engineers, cavalry, and signal troops. The average monthly strength during this entire period was 20,654, as compared to 20,351 in 1938. The highest point reached in the year was 21,910 in the month of October, and the lowest 20,416 during January. The usual restriction of 60 days' armory drill service prior to attendance at field training remained in effect for the summer training only, and was lifted for the additional fall and winter training now being concluded.

3. *Attendance.* The average attendance at armory drills for the year was 91.01% as compared with 91.5% in 1938, and is considered most satisfactory. The general average is well above the satisfactory minimum of 85%, established over a period of years, and compares most favorably with any other state in the Union.

The percentage of attendance at summer field training, which, as your Excellency will recall, included the 1st Army Maneuvers at Plattsburg, was 95.01%, an excellent figure, surpassed only in 1938, when 96.19% was reached. Every organization in the Guard, except the 107th Infantry, exceeded 90%. Sixteen of our organizations, excluding the small headquarters companies and detachments, had 95% or better. The additional seven days' field training hurriedly authorized by the War Department, and which started on November 4, is about 85% completed. Full figures, therefore, cannot be given at this time. However, the attendance to date indicates a percentage of about 85%, which is 25% greater than that which was anticipated by the War Department.

These attendance figures, both in the armory and in the field, are most expressive of the high morale existing in our forces.

The Colonel Frank H. Hines Attendance Trophy, which is awarded annually to the organization producing the highest percentage present at armory drills, field training, and the annual inspection, was won this year, for the second time, by the 106th Field Artillery (155 m.m. howitzer), stationed in Buffalo, N. Y., with an aggregate percentage of 97.74, a new high mark in this competition. The three next highest organizations were the 212th Coast Artillery (Anti-Aircraft), with a mark of 97.20%; the 102nd Quartermaster Regiment, 97.15%, and the 121st Cavalry, 96.68%. These remarkable attendances, spread over a full year, are a splendid tribute to the officers and men whose enthusiasm, *esprit de corps*, self-sacrifice, and devotion to duty has made these achievements possible.

4. *Organization.* The War Department prescribed a reorganization in our infantry regiments, effective September 30, which abolished all howitzer companies and transferred the enlisted personnel to existing regimental headquarters companies. This transfer provided for the organization of the new anti-tank platoon in such companies, and increased the number of men assigned to the communications platoon. Seven of our ten infantry regiments absorbed this change at home stations, but in two cases the old howitzer companies became "split" units (anti-tank platoons) at their former company armories, viz.: in the 10th Infantry at Catskill and in the 105th Infantry at Whitehall.

Another recent change in organization is in the cavalry. The War Department has authorized the formation of the 21st Cavalry Division, to include the cavalry of Massachusetts, Connecticut, New Jersey, and New York. Only a certain number of units have been authorized for activation. To New York authority was given to organize the Headquarters Troop and Signal Troop of the Division.

After careful consideration of all the factors entering into the problem, such as armory facilities, officer and recruiting problems, etc., it was decided to effect the organization of these two new units at West New Brighton, Staten Island, New York City, and to station them in the same armory with the Headquarters Troop, 51st Cavalry Brigade. These troops have been organized and accepted for Federal recognition, the Division Headquarters Troop on December 4, and the Signal Troop on December 13, last. Later, and probably during the coming year, the Headquarters of the 21st Cavalry Division will be activated, in which event the Division Commander and certain of his staff officers will be allotted to New York. In the meantime, Brigadier General N. H. Egleston, presently commanding the 51st Cavalry Brigade, will have the new Divisional troops attached to his command.

During the past two years there has been much discussion and, recently, quite some extensive experimentation by the Regular Army with a new type of infantry division, now known as the "triangular" division. This is a smaller division in strength, but relatively heavier in fire power, and vastly more mobile than the recognized rectangular division. The War Department has recently assembled these new-type divisions at various training centers, mostly in the south, and in the next six months will put them to every known test outside of actual combat to determine their effectiveness. From informal advices which I have received from authoritative sources, I do not anticipate any major changes in the present National Guard division. Changes in the nominal designation of certain companies of the infantry complement will undoubtedly be made to conform to new arms and armament in process of manufacture, but no organic change is expected.

During the past year the following officers of the New York National Guard were retired by reason of having reached the statutory age of 64 years:

Chaplain (Major) Roelif H. Brooks, 107th Infantry, June 26, 1939.

Colonel Charles H. Ellard, 244th Coast Artillery, August 14, 1939.

First Lieutenant Arthur Paladin, 10th Infantry, August 21, 1939.

Lieutenant-Colonel Frederick S. Johnson, 108th Infantry, retired as Colonel, Infantry, November 16, 1939, having served more than 25 years.

The following-named officers, having served more than 25 years, were, at their own request, placed on the Retired List, in the grade of Brigadier General of the Line:

Frederic E. Humphreys, 102nd Engineers (Combat), as of July 7, 1939; and

Paul Loeser, 258th Field Artillery (155 m.m. gun), as of November 18, 1939.

In the passing of these two officers from active service, I feel that mention should be made of their value to the New York National Guard. Outstanding in their ability, as indicated by the condition of their regiments, I regret that reasons of health and business required them to request retirement. General Humphreys, by the way, enjoys the high distinction of being the first officer of the Army of the United States to fly a military plane; in fact, he is the first military pilot in the world. This fact was recognized and made of record this year at the Wright anniversary exercises held last summer.

Changes in command were:

Lieutenant Colonel James Gardiner Conroy, Judge Advocate, 27th Division, was promoted September 27, 1939, to Colonel, Infantry, and assigned to command the 71st Infantry *vice* Colonel George F. Terry, who resigned September 23, 1939.

Lieutenant Colonel Malcolm W. Force, 244th Coast Artillery (155 m.m. gun), was promoted Colonel, Coast Artillery, September 18, 1939, and assigned to command that organization *vice* Colonel Charles H. Ellard, retired for age August 14, 1939.

Lieutenant Colonel Gilbert E. Ackerman, 101st Cavalry, promoted to Colonel, Cavalry, December 12, 1939, and assigned to command that organization *vice* Colonel James Redmond Howlett, who died October 9, 1939.

Changes in the State Staff and Headquarters 27th Division were:

Lieutenant Colonel Vincent A. O'Neill, Finance Officer, 27th Division, resigned May 8, 1939.

Captain George G. Berry, 102nd Quartermaster Regiment, was promoted to Major, Adjutant General's Department, June 1, 1939, and assigned to the Adjutant General's Section, Headquarters 27th Division.

Major Edgar T. Beamish, Judge Advocate General's Department, State Staff, was promoted to Lieutenant Colonel in the same service, and assigned as Judge Advocate, 27th Division, on November 29, 1939, *vice* Conroy, promoted.

First Lieutenant Richard W. Waters, Aide, was transferred to the Adjutant General's Section, 27th Division, on June 1, 1939.

Second Lieutenant John J. Mullens, Infantry, O.R.C., was commissioned in the same grade and arm, National Guard, and assigned as Aide to the Division Commander November 29, 1939.

Captain Charles L. Drake, 10th Infantry, was commissioned in the same grade in the Judge Advocate General's Department, and assigned to the State Staff January 21, 1939.

Captain Harrison W. Gebhardt, Judge Advocate General's Department, State Staff, was promoted to Major in the same branch, and in same assignment, November 29, 1939.

David Marcus, a former graduate of the United States Military Academy, and with service in the Regular Army, was commissioned Captain, Judge Advocate General's Department, and assigned to the State Staff November 30, 1939.

*Dismissed:* Captain Daniel H. Bailey, 369th Infantry, having tendered his resignation while under charges, and the same having been accepted, was discharged without honor and for the good of the service June 18, 1939.

*Deaths:* It is with deep sorrow that I make of record the passing of Colonel James Redmond Howlett, late of the 101st Cavalry, who died in New York City October 9, 1939. Colonel Howlett's 39 years of service in the Field Artillery and Cavalry of the New York National Guard was all of a distinctive character. He was a most capable officer and a splendid citizen. In his passing we have suffered a real loss.

*Other than Service Changes:* Major General William H. Hay, U. S. A. (Ret.), who had served the State as Superintendent at Camp Smith, Peekskill, N. Y., since 1926, voluntarily submitted his resignation effective October 31, last. General Hay's service of more than 13 years at Camp Smith was marked by a keen devotion to his task, well executed. We were fortunate indeed in being able to secure in his place Colonel Hiram W. Taylor, New York National Guard (Ret.), who brings to his office a keen and intimate knowledge of our service and its camp training needs.

Colonel George A. Herbst, Infantry, U. S. A., who had been on detail from the War Department as Senior Instructor to our Guard since early in 1937, retired from active service for age on May 31, 1939. During his short but active tour of duty with us, Colonel Herbst earned the admiration and respect of us all. His successor, Colonel John W. Foos, Infantry, is on his second tour or detail with us. We are fortunate indeed in having him.

I would also take this opportunity to make of record the unanimous election of Brigadier General Walter A. DeLamater, Commanding the 87th Infantry Brigade, to the high office of President, National Guard Association of the United States, at their annual national convention held in Baltimore, Md., late in October last.

5. *Service in Aid of Civil Authorities.* There were no occasions during the past year for the use of military forces in the aid of civil authorities. However, the visit of the King and Queen of England found several of our organizations used in connection with Regular troops, State and local police forces, to guard the rights of way over which their royal train entered and later left the State of New York. The 174th Infantry and 106th Field Artillery, both of Buffalo, furnished the guards for the entering route, June 7, from Suspension Bridge to the Pennsylvania line, while the 71st and 105th Infantry; the 104th, 105th, 156th Field Artillery; 121st Cavalry, 102nd Quartermaster, and the 102nd Medical Regiments assisted in the protection of the homeward bound route from Poughkeepsie to Whitehall, where contact was made with the 26th Infantry of the Regular Army, which continued the protection to the Canadian border.

Another distinctive service performed by our forces was the participation by specially selected groups from every organization in the State, in the inaugural exercises at the opening of the New York World's Fair, in April.

6. *Training.* The training of the New York National Guard, in its dual mission as a State and as a Federal force, will always be the main objective of all our effort. The state of training is being maintained on a uniformly high level. I am pleased indeed to make of record that in all of the reports made by the officers of the Regular Army and by my own inspectors, all of the nearly four hundred units of our Guard were rated satisfactory.

The War Department training objectives were in the main the same as outlined in detail in my 1938 report to your Excellency. There is no change in the State training objectives.

Emphasis in training the small units continues, and, logically, must continue, with the large annual turnover in our enlisted personnel. The squad always has been and always will be the keystone on which well-trained battalions, the tactical unit, are built. Troop leadership, in all echelons, is developed in the armories, on the sand tables, and in the schoolrooms, and is put to its practical test in the field during the summer training periods.

The holding of the 1st Army Maneuvers at Plattsburg in August of this year afforded an opportunity to train certain regiments at Camp Smith which ordinarily would take their field training at other centers. The organizations affected were the 244th and 245th Coast Artillery Regiments and the 258th Field Artillery. These organizations were given a well-prepared course in small arms firing (rifle, automatic rifle, machine gun and pistol). Sub-calibre practice (37 m.m.) furnished ample opportunity for training in the technique and conduct of fire. In addition, each regiment was required to spend one or more days and nights in the Amawalk training area, leased for the full 1939 training period by the Federal government.

Four infantry regiments—the 10th, 106th, 108th and 369th—also trained at Camp Smith. As in the past, the entire first week was devoted to instruction and record firing for small arms at known distances. Three musketry exercises, using live ammunition, were also included. Four days and three nights of the second week were spent by each organization in the Amawalk area. Bivouacs were established, and a more comprehensive and inclusive series of field exercises, to include the breaking of camp at night, marching under cover of darkness to an assembly area, organizing for an attack, and concluding with the jump-off at dawn, were required of each regiment. The movement of trucks was made, within the area, without lights.

The performance of all these exercises was made in a very satisfactory manner, indicative of the fact that our training policies and programs are sound and practicable.

During their second week of training, the 258th Field Artillery, which is armed with 155 m.m. guns (weight, 10 tons each), drawn

by 7½-ton prime movers, moved to the Amawalk area by battalion. Each battalion was required to go into position, emplacing its guns ready for fire, under the cover of darkness. It is a difficult and tedious task to accomplish this job in daylight, with armament of this size and weight. The added difficulties of this operation during darkness are obvious. The task was completed by each battalion without accident, and in a praiseworthy manner.

One other change in training centers was made. The Army Directive for the Maneuvers required the participation therein by the 101st Cavalry. As your Excellency is aware, the number of horses allotted to a cavalry regiment by the War Department is insufficient to mount all of that organization at one time. Hence, we are required to pool all the animals of our Cavalry Brigade. In order that there would be no delay in making the transfer of horses from one regiment to the other, and also to save transportation charges, permission was secured from the Commanding General, 2nd Corps Area, to train the 121st Cavalry near Schuyler Falls, in the 1st Army Maneuver area, during the two weeks immediately preceding the Army exercises. None of the permanent camp installations (tent floors, mess halls, lavatories, shower baths, horse sheds, watering troughs, etc.) to which this regiment, heretofore training at Pine Camp, was accustomed, were present. However, they established a splendid camp, and enjoyed and profited greatly by the experience and training accruing therefrom. This camp was taken over by the 101st Cavalry for the Maneuvers.

*1st Army Maneuvers.* The following New York National Guard troops participated in the 1st Army Maneuvers held near Plattsburg, N. Y.:

Headquarters and Headquarters Detachment, 27th Division.

Special Troops, 27th Division.

Headquarters and Headquarters Company, 53rd Infantry Brigade.

105th Infantry.

107th Infantry.

Headquarters and Headquarters Company, 93rd Infantry Brigade.

14th Infantry.

165th Infantry.

Headquarters and Headquarters Battery, 52nd Field Artillery Brigade.

104th Field Artillery (75-m.m. truck drawn).

105th Field Artillery (75-m.m. truck drawn).

106th Field Artillery (155-m.m. Howitzer, truck drawn).

102nd Engineers (Combat).

102nd Quartermaster Regiment.

102nd Medical Regiment.

With the 44th Division (New Jersey):

Headquarters and Headquarters Company, 87th Infantry Brigade.

71st Infantry.

174th Infantry.

156th Field Artillery (75-m.m. truck drawn).

With the II Corps (Tactical):

Headquarters Troop, 51st Cavalry Brigade.

101st Signal Battalion.

With the 1st Army (Tactical):

212th Coast Artillery (Anti-Aircraft).

Your Excellency will note a provisional setup in the Infantry complement of the 27th Division. Neither the 14th nor the 165th Infantry had had any field training with the combined arms since the World War. This training is essential for the proper development of the combat team (Infantry and Artillery). Both the 106th and 108th Infantry have either trained with artillery or have participated in previous Army exercises. It was therefore decided to give the 93rd Brigade the desired opportunity this year.

The 27th Division was commanded, during the exercises by Brigadier General N. Hillyer Egleston, 51st Cavalry Brigade, due to the Army Commander having assigned me to command the II Corps (Tactical).

You are, I am sure, aware that the number of troops engaged in these exercises was the largest concentration of troops in this country since the war. The number of New York National Guard troops participating was also the largest number we have turned out in one locality—at one time. The State's allotment of equipment, material and motor transportation furnished by the War Department, was taxed to its limit. Planning the numerous and diversified details for this participation started in January. Many obstacles were encountered from time to time but each of our organizations left their home stations on schedule time for their Maneuver Area concentration center. Motorized organizations were moved over the roads, others by train. Movements into the area, and at the conclusion of the exercises, to home stations, were accomplished with precision and dispatch.

I do not intend to go into a detailed technical description of the Maneuvers. But generally the program showed three exercises (Divisional) the first week. These comprised two involving regiment against regiment, featuring offensive and defensive combat and one exercise of brigade against brigade. The second week started off with the I Corps (New England) engaging the II Corps (New York and New Jersey). This lasted 1½ days and involved night operations. The concluding Maneuver saw the 1st Army (I and II Corps) engaging the Provisional Corps (Regular Army) constituted mainly of the 1st Division and the 7th

Cavalry Brigade (Mechanized). Your Excellency's presence at the Maneuvers furnished, I am sure, an excellent picture of what was hoped for and what was actually accomplished.

From the time of arrival of our troops in the area to their departure for home station, I made many visits of inspection and observation of all participating organizations, paying particular attention and devoting most of my time to our New York organizations. What impressed me most, from these observations, was the rapid and marked improvement in the conduct and execution of the multitudinous duties required. I believe, in all modesty, that my 42 years of service, all spent in the active military service of my country or my State, makes me competent to judge the value of our State forces. I feel I would be false to my position and unjust to the forces which I am proud to command were I not to emphatically disagree with the newspaper criticisms, inferred and implied, which appeared in the daily press at the conclusion of these exercises. I fully agree with the writers in their accounts of the woeful lack of modern equipment but I must insist, so far as the troops of the New York National Guard are concerned, and taking into account the fact that these officers and men arrived in the field direct from their offices and work shops, that the zeal, the enthusiasm and the manner of performance given to the many and onerous tasks asked of them, merits the highest commendation. The crossing of the Saranac River in the Corps exercise, involving a forced march at night through thick woods and swamps, by the 93rd Infantry Brigade, commanded by Brigadier General Alexander E. Anderson, was splendidly and vigorously executed in a manner you would only expect from seasoned and hardened troops.

The 1st Army Maneuvers have proved that there is a shocking lack in modern arms and equipment, both in the Regular Army and in the National Guard. The Maneuvers have also convinced me, if I had needed any convincing, that the State should be proud of its military forces. The officers and men of the New York National Guard are better trained and nearer ready for combat service than seems possible within the time and money available, notwithstanding recent inferences by half-baked critics and arm chair strategists.

During the past year additional motor equipment for motorized organizations have been received. Recently the 212th Coast Artillery received their full allotment of 12 anti-aircraft guns, and notice of early shipment of 15 60-inch searchlight mobile units complete. Informal advices from the War Department indicate that each organization in the State will, within the next year, and possibly by September 30, 1940, receive its complete allotment of its combat equipment and 50% of its cargo vehicles.

Five hundred and eighty-six Garand rifles were issued to the 107th Infantry by the National Guard Bureau within the past month. In order that each of the other nine infantry regiments may familiarize themselves with this new weapon without any delay, I have directed that 10 of these rifles be sent to each of these organizations.

Vital industrial and commercial centers of the State are still visibly concerned over the matter of adequate anti-aircraft defense. The additional allotment of anti-aircraft defense units is still a matter for determination by the War Department. In my 1938 report I made mention of disturbed world conditions and the then current emphasis on national defense. Today conditions in other parts of the world impell me to repeat what I said at that time.

"In view of the present disturbed world conditions and the current emphasis on national defense, the question of the problems attendant upon possible mobilization of the New York National Guard is one of importance. The National Guard of the United States having been inducted into the Federal service, and losing thereby its State status, the responsibility of the several states under the statutes to execute the law, suppress disorder and protect life and property, either by expansion of their police forces, or creation of other State forces, obviously would be greatly extended. In this eventuality, it is not improbable that certain utilities and installations within the State, both private and public, might assume a Federal character because of their importance to the National defense, as, for example, the State-wide transportation, power and communications systems. The protection of such utilities or installations, while primarily a State responsibility, might be undertaken by the Federal government with Federal forces, if the protection afforded by the State is deemed inadequate. Any decision in this matter would, of course, rest between the State authorities and the War Department. While the organization of State forces in time of war is a matter which pertains entirely to the individual states, it may be noted that there is no provision of existing law which permits the issue of Federal arms and equipment to such state forces. It is possible, however, that in an emergency Congress might enact legislation similar to that of 1917, which authorized the loan of arms and equipment to state forces. Members of state forces within the ages prescribed by any Selective Service Law are liable, as individuals, to induction into the armed forces of the United States. It is a problem of the State, therefore, in organizing its own forces, to insure that they would not be depleted and disorganized by the possible requirements of Selective Service. In addition to such duties as protection of public utilities, it should also be considered that these state forces might possibly be used for other duties, such as the instruction of the populace in defense against hostile aircraft, including anti-aircraft warning nets, or duties in the decontamination of gassed areas. Such plans for internal security within the State in the event of the war would, it is believed, require no radical change in the existing plan for the organization of the New York Guard, as now provided for in the State

Military Law and Regulations, especially since a nucleus for such forces exists in the large number of ex-National Guardsmen, both officers and men, residing in the State and not immediately required for Federal service."

7. *Schools.* Below you will find the names of officers and enlisted men of the New York National Guard who have completed the prescribed courses at the various Service Schools maintained by the War Department:

- INFANTRY SCHOOL, Fort Benning, Ga., February 27 to May 26, 1939  
 Captain Alonzo S. Ward, 369th Infantry.  
 Captain Edward J. Marshall, 369th Infantry.  
 Captain Walter E. Vannier, 105th Infantry.  
 Captain Frederic H. Sheldon, 10th Infantry.  
 Captain Harry P. Jones, 53rd Infantry Brigade.  
 Captain Charles H. Dufraim, 105th Infantry.  
 First Lieutenant Walter S. Drysdale, 174th Infantry.  
 First Lieutenant Ralph H. Fillingham, 108th Infantry.  
 First Lieutenant Curtis W. Markland, 108th Infantry.  
 First Lieutenant John D. Hogan, 10th Infantry.  
 First Lieutenant John F. Schaub, 106th Infantry.  
 Second Lieutenant John P. Perlett, 54th Infantry Brigade.  
 Second Lieutenant Robert F. Armour, 108th Infantry.
- CAVALRY SCHOOL, Fort Riley, Kan., March 8 to June 10, 1939.  
 First Lieutenant Henry M. McAleenan, Hq., 1st Sq., 101st Cavalry
- Q. M. SCHOOL (Motor Transport Course), Baltimore, Md., September 19, 1939 to November 9, 1939.  
 Captain Clifton H. Forbush, Serv. Btry., 156th Field Artillery.
- CHEMICAL WARFARE SCHOOL, Edgewood Arsenal, October 16, 1939 to December 1, 1939.  
 Captain Guy J. Morelle, Co. "L," 10th Infantry.  
 First Lieutenant Michael J. Reilly, Btry. "B," 212th Coast Artillery.  
 First Lieutenant Benjamin Weisberg, Hq., 258th Field Artillery.
- FIELD ARTILLERY SCHOOL, National Guard and Reserve Officers' Course (Spring), February 11, 1939 to May 13, 1939.  
 First Lieutenant William E. Whalen, Btry. "E," 258th Field Artillery.
- FIELD ARTILLERY SCHOOL, National Guard and Reserve Officers' Course (Fall), September 16, 1939, to December 16, 1939.  
 First Lieutenant Walter C. Haight, Hq., 156th Field Artillery.
- SIGNAL CORPS SCHOOL (Officers' Course), March 16, 1939 to June 16, 1939.  
 First Lieutenant Robert F. Ellis, Co. "B," 101st Signal Battalion.
- AIR CORPS, TECHNICAL SCHOOL (Photo Course), April 1, 1939 to June 24, 1939.  
 First Lieutenant Carl W. Rech, 102nd Photo Section, 27th Division Aviation.
- COAST ARTILLERY SCHOOL (Seacoast) Fort Monroe, Va., September 15, 1939 to December 7, 1939.  
 Captain Harold J. Wrigley, Btry. "M," 245th Coast Artillery.  
 Second Lieutenant Francis J. Mentzinger, Btry. "B," 244th Coast Artillery.
- ANTI-AIRCRAFT SCHOOL, Fort Monroe, Va., September 15 to December 7, 1939.  
 First Lieutenant James J. Griffin, Hq., 1st Bn., 245th Coast Artillery.  
 First Lieutenant George W. Knox, Btry. "C," 212th Coast Artillery.
- FIELD ARTILLERY SCHOOL (Communications Course), Fort Sill, February 11, 1939 to June 19, 1939.  
 Corporal Norman N. Gross, Hq., 1st Bn., 105th Field Artillery.
- CAVALRY SCHOOL (Non-commissioned Officers' Course), Fort Riley, Kan., September 15, 1939 to December 14, 1939.  
 Corporal Robert F. Ball, Troop "F," 101st Cavalry.

INFANTRY SCHOOL (Communications Course), Fort Benning, Ga., February 27, 1939 to May 25, 1939.

Mr. Sgt. Walter B. Lotz, Hq. Co., 53rd Infantry Brigade.

Mr. Sgt. Paul L. Tepe, Hq. Co., 108th Infantry.

ENGINEER SCHOOL, Fort Belvoir, Va., September 15 to December 16, 1939.

Sergeant Herbert M. Denault, Co. "D," 102nd Engineers.

MEDICAL FIELD SERVICE SCHOOL, Carlisle Barracks, Pa., September 15, 1939 to November 10, 1939.

Sergeant Salvatore DeMeo, Med. Dept. Det., 14th Infantry.

COAST ARTILLERY SCHOOL, Fort Monroe, Va., September 15, 1939 to December 22, 1939.

Staff Sgt. William T. Quentin, Hq. Btry., 245th Coast Artillery.

\*AIR CORPS TECHNICAL SCHOOL (Basic Course), Scott Field, Ill., October 2, 1939 to October 27, 1939.

Mr. Sgt. Robert R. Matthews, 102nd Observation Squadron.

Staff Sgt. William F. Asche, 102nd Observation Squadron.

\*RADIO REPAIRS AND OPERATORS' COURSE, Chanute Field, November 6, 1939 to April 5, 1940.

Mr. Sgt. Robert R. Matthews, 102nd Observation Squadron.

\*AIRCRAFT ARMORERS' COURSE, Lowry Field, Col., November 6, 1939 to February 9, 1940.

Staff Sgt. William F. Asche, 102nd Observation Squadron.

*Second Corps Area Command and General Staff School.* The second course of instruction for specially-selected officers in command and Staff duties was inaugurated at Camp Dix, N. J., under the supervision of the Commanding General, Second Corps Area, on November 26, 1939, and the first sub-course completed on December 9, 1939. This school will be held annually for three years, completing one sub-course each year. The duration of these sub-courses is 15 days. This school affords an opportunity to our officers whose professions and employment in civil life make it difficult to spare the three months necessary to complete the Command and General Staff Course at Fort Leavenworth, Kan. The student body, restricted in 1936-37 and '38 to 20 National Guard officers from organizations within the 2nd Corps Area, has been extended to include 20 Reserve officers from the same area. The New York National Guard officers attending were:

Colonel John J. Mangan, 165th Infantry.

Lieutenant Colonel Chauncey M. Hooper, 369th Infantry.

Lieutenant Colonel Alfred Huddelson, Jr., 156th Field Artillery.

Lieutenant Colonel Martin H. Meaney, 165th Infantry.

Lieutenant Colonel Alfred D. Reutershan, Hq., 27th Division.

Major Howard P. Paddock, 10th Infantry.

Major Reginald H. Wood, 121st Cavalry.

Captain Wilfrid S. Bastine, 105th Field Artillery.

Captain Joseph D. Carton, 106th Infantry.

Captain Sheldon M. Gilman, 174th Infantry.

Captain John C. Mazzei, 244th Coast Artillery.

Captain James N. Purcell, 101st Signal Battalion.

Captain Clarence W. Wahle, 212th Coast Artillery.

Captain John J. Williams, 71st Infantry.

First Lieutenant Robert I. Powell, 51st Cavalry Brigade.

The Major General William N. Haskell Scholarships, established in 1935 at the Brooklyn Academy, and open to competition among members of the New York National Guard desiring to enter the

\*These courses are combined.

United States Military Academy, were won by Private John J. Kelly, Jr., Btry. "C," 156th Field Artillery, 95%, and Private John R. Schaltz, Btry. "B," 212th Coast Artillery, 92%. These two soldiers were also successful in the subsequent National Guard Competitive Examination held last month, and were selected, with six others, by your Excellency to enter the final competition for appointment in March, 1940.

*Additional Training.* The War Department has authorized two armory drills each week during the period October 17, 1939-January 31, 1940. All of our organizations have heartily complied with the wishes of the War Department for this extra training. However, it is felt that this extra armory drill each week will result in a slight falling off in attendance. Many of our enlisted men, particularly in the large cities, are completing their education by night courses at various schools, academies, and colleges. They had previously adjusted their scheduled school attendance to permit of their presence one night each week at drill. The added night of duty disturbs that schedule, and they have been advised, if incapable of effecting an adjustment, they will be excused from the extra drill. This is only just and equitable; the extra requirement will cease on January 31, 1940.

On the same date, October 17th, the Adjutant General issued his General Orders No. 13, prescribing seven days' additional field training. This field training could be taken in one or more days, provided seven days was not exceeded, and provided further that the additional training was concluded by January 31, 1940.

Plans for this extra training were rushed. I felt that we should take full advantage of possible favorable weather conditions prior to December 15. As a result, our first units started this training November 4, and today we have completed this training for all our organizations, except the 14th Infantry, which specially requested the dates December 26-31, inclusive, and the 27th Division Headquarters—87th and 93rd Infantry Brigade Headquarters and Headquarters companies; the 52nd Field Artillery Brigade Headquarters and Headquarters Battery, and the 51st Cavalry Brigade Headquarters Troop. The training prescribed for these Headquarters groups involves the conduct of a command post exercise, with the major portion of the work to be accomplished under fairly suitable cover at Camp Smith, and will start December 16, 1939.

In the conduct of this extra field training, I purposely left the decision to regimental commanders as to whether they would take it in a succession of weekends or in a continuing period of seven days. The 14th, 108th, 165th, 174th, and 369th Infantry Regiments elected the continuous period, and all others have preferred the various dates. My reasons for permitting this selection by organization commanders was impelled by my judgment that they were in a much better position to decide which form would be more beneficial, taking all conditions, particularly the one of civil employment of their personnel, into account.

Various training centers were used, the more important being Camp Smith, Camp Upton, Squadron "C" Farm, Huntington, N. Y., Fort Tilden, Fort Hancock, Camp Dix, Squadron "A" Farm at New City, Saratoga Battlefield at Bemis Heights, the State Fair Grounds at Syracuse, N. Y., and the County Park at Buffalo. A number of our units trained within short distance of their home stations.

Many were the difficulties which had to be overcome. Most of the training centers available to us would have been ideal in the summer and early fall, but climatic conditions at this time of the year demanded that heated quarters for sleeping, messing, and bathing be provided. Winter underwear, gloves, etc., had to be secured. Army red tape on the issue of the latter had to be cut. But by hard, long, and diligent effort our plans crystallized and, as I stated before, training actually started with the 174th Infantry on November 4 in Buffalo.

Training inspection of practically all organizations have been made by myself and members of my staff. Much good has come from this extra work, and once again I am most happy to report that the officers and enlisted men of our Guard met this sudden and added duty with energy and enthusiasm.

In providing funds for this extra duty, the War Department estimated we would have an attendance of 60%. While complete figures are not available at this time, several of our regiments bettered 90%, and I believe our average attendance for the entire State will approximate 85%.

In view of the additional work impinged on our forces, I have suspended, for the time being, the usual requirements of 20 hours' correspondence course work. And in order that armory training facilities will not be disturbed, I have issued orders limiting rentals of armories to one night per week, unless it can be clearly shown that such rental will not interfere with proper training.

It was also necessary to suspend administrative inspections by members of my staff during November and December.

*Chemical Warfare.* No change was made in the general plan of training in chemical warfare. The Division Gas Officer supervised, and organization gas officers conducted, the training in this activity both in the armory and in the field. An insufficient supply of masks still prevents actual training of troops while wearing the mask.

*Athletics and Recreation.* Prior to field training this year, a conference of all chaplains was held in New York City. This conference was well attended, and resulted in a comprehensive program of athletic, recreational, and religious activities. At Camp Smith full advantage was taken of the facilities for baseball, track, swimming, tennis, soft ball and handball. Moving pictures were shown, free of admission charges, three nights each week, and the theatre was made available for boxing, wrestling, and amateur vaudeville the balance of the week.

There was not much time, due to the time-consuming schedule prescribed by the 1st Army Commander, for recreation in the Plattsburg area, but organization transportation assisted materially in aiding our troops to enjoy some swimming at the Valcour Beach in Lake Champlain.

Religious services were conducted each Sunday. Once more are we indebted to the Jewish Welfare Board of New York City for their assignment each week of a chaplain for services at Camp Smith.

Due to the limited number of troops training at Camp Smith, this year's attendance of visitors did not approach that of 1938. However, the middle Sunday of the training period of the 369th Infantry again produced the largest single day's attendance. Despite the rain during the forenoon, and practically up to the hour of your arrival, more than 25,000 enthusiastic and eager friends of the regiment were present to greet you. Our facilities were taxed practically to the limit, but no serious accidents or disorders were noticed or reported. Traffic into camp suffered the same delays as in previous years, and this condition is again mentioned in the hope that my request for a new entrance road into camp will receive favorable consideration.

8. *Permanent Plant.* With the recent increase in strength allotted to the New York National Guard, and the expected receipt, within the next 10 months, of a comparatively large amount of new armament and motor vehicles, prompt and serious consideration must be given to the proper housing of both personnel and material. I anticipate that The Adjutant General will cover this matter in detail in his report to you. So far as the City of New York is concerned, I have personally conferred with Mayor LaGuardia and his personal representatives in the Armory Board. The Mayor is fully alive to the situation, and has promised assistance. A survey of all armories within the city is being made at this time by the Board and a member of my staff. Plans and specifications for immediate temporary relief in one organization have been drawn, and bids have been invited. Every effort to ameliorate existing conditions and to provide at least temporarily for the immediate future is being made. However, the fact remains that a number of our armories in New York City are outmoded and inadequate for their present requirements. They will have to be replaced. I would prefer not to go into detail on this subject at this time, but would rather take this matter up with you in the very near future, after the results of the present survey are known.

*Camp Smith.* State appropriations for Camp Smith were very limited this year. However, funds sufficient to lay concrete floors and to provide new tent frames for my staff officers were provided. The pressing needs at Camp Smith are a new lavatory and bath for the staff and Regular Army officers who remain at Camp Smith the entire training period, the new road into camp, the resurfacing of roads, the replacement of the range telephone sys-

tem. Considerable clearing of fire brakes will have to be done in the hills this fall, if we are to guard against forest fires. I believe my budget requests for these various items were modest and fair, and I trust they will be allowed.

*Pine Camp.* No troops trained at Pine Camp in 1939. However, it is planned to operate this training center for its normal period in 1940. The last Congress made a considerable appropriation for camp construction throughout the United States, and we are hoping that funds will be allotted to provide a camp for one infantry brigade—in addition to its present facilities. State funds sufficient to meet the costs of lighting during the period September 15–June 15 will again be necessary this year.

*Fort Ontario.* This training center was not used by our troops in 1939. The maintenance of this camp, being a Federal reservation, is a responsibility of the Federal government.

*Administration.* Reports which are now reaching me indicate that the inventories of Federal property, started in September and now being concluded, show a healthier condition in this respect than has ever been reached in my memory. Improvement in the handling and accounting of all funds, whether Federal, State, organizational, or civil, is most apparent. The preparation and maintenance of records of all kinds is nearer standardization. In this field of administration our forces have kept pace with the progress made in other departments.

9. *Recommendations.* I have discussed the matter of appropriations needed for the operations of National Guard headquarters at the budget hearing and elsewhere in this report. However, as I stated in 1938, the big need is the enlargement or amplification of our training center at Camp Smith by the acquisition of a suitable site, sufficient in size to permit of the conduct of field exercises to include regiments and brigades. Prior to the start of field training this year, the National Guard Bureau reluctantly provided funds sufficient to lease the Amawalk Nursery for the purpose. Full use was made of this tract, and very creditable results were obtained. The Bureau cannot be depended upon to furnish these funds annually. I strongly recommend the purchase of a desirable site for our purpose within a reasonable distance of Camp Smith.

In closing, I do want to express to you the deep gratitude and sincere appreciation of myself and of the New York National Guard as a whole for your kindly interest, staunch support, and sympathetic understanding of our service. I also want to thank the Legislature for its aid and assistance. I am grateful to The Adjutant General and the United States Property and Disbursing Officer for their hearty co-operation and helpfulness. I am greatly indebted to that splendid corps of instructors detailed to us by the War Department. I sincerely trust that the result of our efforts and the improvement we hope and strive for will insure and merit a continuance of this most desired support.

WILLIAM N. HASKELL,  
Major General.

## APPENDIX B

---

### **The Report of the Commanding Officer, New York Naval Militia**

1. The affairs of the New York Naval Militia during the calendar year 1939 are reported upon in accordance with Par. 6, R-80, Regulations for the Military Forces of the State of New York.

2. *Strength.* During the calendar year 1939 the strength of the New York Naval Militia has been satisfactory in all respects. On December 1, 1938 there were 1,994 officers and men in our organizations throughout the State. As of December 1, 1939, 2,052 officers and men are on the rolls. This reflects some increase at the end of the period. The highest enrollment during the period of this report occurred during the month of May, at which time there were 2,062 officers and men enrolled. Since the declaration of war abroad there have been many applicants for enlistment and the various unit commanders are exercising considerable care in the selection of the best material from among these applicants.

3. *Attendance.* The average attendance at armory drills during the year 1939 was most satisfactory. Attendance at drills is a factor of considerable importance in determining the efficiency of the New York Naval Militia in its Federal status, and in consequence, all organizations are putting forth their best efforts to increase the average attendance at weekly drills.

4. *Organization.* No changes of consequence in the administration of the commands have occurred during the year 1939, with the exception of the appointment of Lieutenant Wm. A. Sessions to command of the 9th Battalion in Buffalo, as successor to Lieutenant E. J. Lebherz, who removed from that city to Washington, D. C. The Navy Department has elected to put in force certain transfers from the Active List to the Honorary Retired List of officers who have reached the limit in age-in-grade. It is not believed at this time that this policy will have any serious effect on the various organizations of the New York Naval Militia. A few of our junior officers have volunteered for active duty during the period of a limited emergency and have been ordered to vessels of the United States Fleet. They have been placed on leave of absence from their stations and divisions and it is needless to point out that this extended tour of duty will result in a training which will be highly beneficial to their commands upon their return.

5. *Training Duty.* During the summer period all organizations of the New York Naval Militia performed duty in battleships and destroyers of the Training Squadron under Federal orders. These units visited various ports on the Atlantic Seaboard during the

training cruise. Gunnery exercises were conducted and excellent results were obtained. The gun crew of the 11th Division, 9th Battalion, achieved the highest score in gunnery and was, therefore, awarded the trophy for gunnery efficiency, as provided from the Josephthal Endowment Fund for such purposes. A number of officers and men performed training duty without pay during the calendar year of 1939. Federal appropriations were insufficient to provide pay and allowances for our entire strength and it is indeed gratifying to have officers and men who are willing and able to obtain training in a non-pay status. Eighty officers and 1,587 men participated in training duty with Federal pay and allowances. The Naval Militia Marine Battalion performed its field training at the Marine Base at Quantico, Va. The attendance of this organization for training was highly satisfactory.

6. *Small Arms Practice.* This exercise was conducted on the Rifle Ranges at Camp Smith, Peekskill, N. Y., Fort Niagara, N. Y., Stony Point, N. Y., and at the Penfield Range, Rochester, N. Y. Figure of Merit prizes for efficiency in Small Arms were awarded as follows:

1st Prize: 15th Division, Oswego N. Y.

2nd Prize: 31st Division, New Rochelle, N. Y.

3rd Prize: 11th Division, 9th Battalion, Buffalo, N. Y.

A new high record for qualified marksmen was established this year. Five hundred and seventy-four officers and men qualified for and have been awarded Marksman decorations. During Match competition a number of officers and men qualified as Expert Riflemen and Sharpshooters. Two officers and two enlisted men were assigned to the U. S. Naval Reserve, Third Naval District Rifle Team and served three weeks at Camp Perry, Ohio, where they attended the Small Arms Firing School and participated in various National Matches. For a number of years the N. Y. Naval Militia has sent its own team to the National Matches but for the first time the War Department was unable to authorize the participation of a rifle team in Naval Militia status because appropriations for such teams were not available. The Naval Militia Brigade Match held at Camp Smith, Peekskill, N. Y., was won for the fourth consecutive year by the 31st Division, New Rochelle, N. Y. The Interstate Small Arms Trophy Match sponsored by the U. S. Naval Reserve Officers' Association, Third Naval District, was again won by the New York State Team. Proficiency in the use of Small Arms showed satisfactory improvement in all commands. Through the courtesy of the Commanding General, 2nd Corps Area, U. S. Army, arrangements for the conduct of our Small Arms exercises at Fort Niagara and Stony Point were satisfactorily provided. The United States Army personnel on duty at these posts were most courteous and co-operative in connection with all details pertaining to arrangements.

7. *Week-End Cruises.* During the summer months week-end cruises were held in various types of vessels and participation in this activity was most satisfactory. These cruises are performed in a voluntary status without pay or allowances and it is believed both men and officers are benefited by this activity.

8. *Athletics.* Inter-divisional and inter-organization competitions continue to be of interest and are participated in by all organizations. The annual Whaleboat Race for the R. A. C. Smith Trophy, sponsored by the U. S. Naval Reserve Officers' Association, Third Naval District Chapter, was rowed in the Hudson River on 24 June and won by the 27th Division, 8th Battalion, N. J. N. M.; second place was won by the 31st Division, N. Y. N. M. This race is open to competitors from Naval Militia and Naval Reserve units in New York, New Jersey and Connecticut.

9. *Naval Academy Appointments.* A competitive examination was held during the month of April, 1939, and 50 appointments to the U. S. Naval Academy were won nationally by the Naval Reserve-Naval Militia. The New York Naval Militia was successful in winning 12 of the appointments, some of which were made under the provisions of the Naval Reserve Act and others by Congressional appointments. The following enlisted men of the New York Naval Militia were the successful candidates during the year 1939:

Alfred James Bridges, S.2c., 2nd Division, 1st Battalion.  
Robert Edward McLeod, S.2c., 2nd Division, 1st Battalion.  
Franklin P. MacLellan, A.S., 4th Division, 1st Battalion.  
William A. Racette, A.S., 7th Division, 2nd Battalion.  
Charles A. Taylor, Jr., A.S., 7th Division, 2nd Battalion.  
Leonard George Graning, S.2c., 9th Division, 3rd Battalion.  
Eric Ischinger, Jr., A.S., 10th Division, 3rd Battalion.  
James E. Maher, Jr., A.S., 16th Division, 4th Battalion.  
Adam Louis Wozniak, A.S., 12th Division.  
James Winson Taylor, A.S., 13th Division.  
Robert Hayward Twisdale, A.S., 13th Division.  
Leonard Theodore Kreidler, A.S., 33d Division.

10. *General Efficiency of the Brigade.* The report of the Federal Inspection Board reflects definite improvement in the standing of the New York Naval Militia in national competitive standing. The 6th Division of the 2nd Battalion, Brooklyn, was rated eighth highest standing in the United States and as a result thereof stood highest in the State of New York. This unit was awarded the Josephthal Trophy for Naval efficiency the year 1939, valued at \$150. Based on the calculations of an impartial Board of Officers, Company "C," 1st Marine Battalion, Rochester, N. Y., was awarded the Josephthal Trophy for Marine efficiency during the year 1939, valued at \$75.

11. *Armories.* As a result of the transfer of the 32nd Division from Ossining, N. Y., to Yonkers, N. Y., considerable improvement in the quartering of this command will obtain and it is believed will, in due course, increase the general efficiency of this unit. New Naval Militia armories are still most desirable at Buffalo, N. Y., Dunkirk, N. Y., Watertown, N. Y. and at Tompkinsville, Staten Island, N. Y. The City of New York has made some temporary arrangements for the housing of the command at Staten Island which suffered the loss of its floating armory last year. The necessary steps have been taken for the procurement of an appropriation for the erection of a building by the City of New York and it is hoped that in due course, suitable quarters will be erected.

12. I am highly appreciative of the sympathetic interest shown by his Excellency, The Governor, in the wellbeing of the Naval Militia. I wish to express appreciation for the co-operation this office has received from The Adjutant General, the legislative bodies, the Director of the Budget, and other officers of the State with whom we have had occasion to come in contact during the period of this report.

F. R. LACKEY,  
*Rear Admiral, N.Y.N.M.*
