## REPORT OF THE ADJUTANT-GENERAL

ALBANY, December 31, 1938

His Excellency Herbert H. Lehman, Governor of New York, Albany, N. Y.

SIR:—Pursuant to section 17 of the Military Law, as The Adjutant General, and, under the provisions of section 42 of chapter 78 of the Consolidated Laws of the State of New York, as Head of the Division of Military and Naval Affairs of the Executive Department, I submit herewith my annual report concerning the administration of that Division for the year 1938.

For convenience in reference the report is presented in sections dealing with the activities of the various bureaus of the Division.

#### Executive

Strength.—The strength of the active military and naval forces of the State on this date is as follows:

		Warrant	Enlisted
	Officers	Officers	$\mathbf{Men}$
National Guard	1,397	21	19,004
Naval Militia	146		1,849

A detailed report of strength of all components is included under the report of the activities of the Personnel Bureau.

Preparation of New York Guard.—I, again, invite the attention of Your Excellency to the recommendations I made concerning this subject in my report last year in the hope that the Legislature may be persuaded to give this very important subject due consideration. The time is particularly appropriate for the procurement of rifles as the Federal government is about to equip the army with a new rifle resulting in the discontinuance of the Model 1903 rifle in use at this moment. It is believed an adequate supply of these rifles may be obtained by the State, upon proper representation to the War Department, either as a loan or an outand-out gift, and they would be most suitable for the type of duty the organizations of the New York Guard would be required to perform. The matter of ammunition supply is timely also for, if an emergency of national proportions should develop, procurement of ammunition under such conditions would be seriously delayed if not impossible.

Federal appropriations.—While New York State contributed substantially toward the general maintenance, operation, and improvement of the New York National Guard, during the fiscal year ending June 30, 1938, it is interesting to note the following

comparison of such appropriations as against those of the Federal government allotted to the State of New York for that purpose during the same period:

	Amounts contributed by			
Purposes	. State of New York	United States		
Maintenance and operation (other than armories)	\$762,003 07	\$3,884,071 33		
Outside of New York City	1,242,775 30 (WPA)	216,949 94		
In New York City Other Works Progress	1 000 000 00			
Administration projects	4,020 00	32,159 00		
Total	\$3,095,677 64	\$4,133,180 27		

Details concerning these appropriations will be found later in this report under the headings of Finance Bureau, and Bureaus of Equipment and Supply, and Grounds and Structures.

Duty in Aid of Civil Authority.—During the year, no labor or other disturbances developed to proportions warranting the use of any part of the military or naval forces of the State in aid of civil authority.

National Guard Activity.—The activities of the National Guard are covered in the annual report of the Commanding General, New York National Guard, attached hereto as Appendix A.

Naval Militia Activity.—The activities of the Naval Militia are covered in the annual report of the Commanding Officer, New York Naval Militia, attached hereto as Appendix B.

United States Military Academy Candidates.—This office annually conducts a competitive examination for candidates from the National Guard of this State for the privilege of taking the competitive entrance examination for cadetship at the United States Military Academy at West Point, New York. Candidates to be eligible must be between the ages of 19 and 22 years, enlisted men of a federally recognized unit of the National Guard who have served therein not less than one (1) year prior to date of entrance to the Academy. The examinations this year were conducted November 4 and 5, at Albany, Buffalo and New York City, for entrance to the Academy, July 1, 1939. Eight (8) vacancies were allotted to the State of New York and as a result of these examinations Your Excellency nominated the eight (8) having the highest average of proficiency. Fifty-nine (59) candidates participated in these examinations. It is hoped that prior to the entrance examination to be conducted in March, 1939, for entrance to the Academy in July, 1939, that additional vacancies will be allotted to the State of New York as requested by Your Excellency in a letter to The Adjutant General of the Army. The practice of allotting cadetships to soldiers of the National Guard was authorized by Congress May 4, 1916.

Changes in Personnel.—Major Francis G. Roddy, Infantry, was appointed Director of the Bureau of World War Records, in addition to his other duties, May 1, 1938, vice Major Louis H. Clark, who died April 12, 1938, which resulted in the elimination of one (1) employee in this office and necessitated the other employees assuming the additional burden of these ever-increasing administrative functions. On recommendation of the Commanding General, New York National Guard, the position of State Ordnance Officer, which has been filled since May 12, 1932, by Lieutenant Colonel Henry E. Suavet, Ordnance Officer, Headquarters, 27th Division, New York National Guard, in addition to his other duties, was abolished October 10, 1938, at the conclusion of the National Matches.

Hines Attendance Trophy.—The Colonel Frank H. Hines Attendance Trophy (National Guard) was again won by the 212th Coast Artillery, (Anti-Aircraft) for attaining the highest percentage of attendance during the training year. The percentage was 97.56. For percentages attained by other organizations of the National Guard reference is made to General Orders No. 16, Headquarters, New York National Guard, dated November 1, 1938.

Bureau Reports.—Following are the reports of the various Bureaus of this Division for the year ending December 31, 1938:

#### Finance Bureau

Following is a statement of financial operations for the fiscal year ending June 30, 1938, including State appropriations for the general expenses of the military and naval establishment, expenses for armory maintenance and Federal funds allocated and expended during the same period:

# Bureau of Equipment and Supply

#### PROPERTY

During the calendar year 1938, a Board of Inventory and Survey, consisting of three (3) Regular Army Officers, was appointed by Headquarters, Second Corps Area, at my request. The purpose of this Board is to determine by physical inventory and other means the exact status of all Federal property in the hands of the National Guard of this State. The Board has been furnished office space and clerical help at the State Arsenal to afford it easy access to the property records and files. The progress of the

Board has been constant through its own efforts and the co-operative assistance of personnel of this Bureau. However, the enormity of the task involved indicates that this activity will continue well into the coming year. This inventory, when complete, will make it possible to establish and maintain a perpetual inventory system especially designed for the purpose which will show at a glance the disposition, from day to day, of all Federal property issued to the various organizations of the New York National Guard.

Receipt of new Federal motor vehicles has continued through the past year in furtherance of the announced policy of the War Department to completely equip the National Guard with motor vehicles in accordance with equipment tables. During the year, 90 motor vehicles of all types, i.e., reconnaissance cars, cargo trucks, prime movers, ambulances, special purpose vehicles, scout cars, and motorcycles, have been received. This figure brings the total number of motor vehicles, in the hands of the National Guard of this State, to 721. Further issues of motor vehicles are expected.

The issue of the new style roll collar overcoats brings to an end the issue of war-time articles and types of clothing to the National Guard. Periodical shipments of new overcoats to replace the old style coats in the hands of troops have been received during the vear.

Regulations, recently published by the War Department, abolish the use of breeches, boots, spiral leggings, and white cotton socks by all troops except the cavalry and horse-drawn artillery. As a substitute for these articles of the uniform, trousers, shoes, and tan socks, also canvas leggings for field wear, are prescribed. Requisitions for equipping the entire National Guard, in conformity with these regulation changes, are being prepared. The basis of issue per enlisted man is to be: one (1) pair of elastique woolen trousers and two (2) pairs of new type cotton trousers, with the already prescribed number of shoes, socks and leggings. A portion of the National Guard will be equipped with these new articles during the next year and the entire personnel should be so equipped within two or three years time, depending entirely on issues made by the National Guard Bureau.

Due to the many recent changes in clothing and equipage, with many new articles added, a major operation of re-warehousing the stock in the State Arsenal was undertaken during the past year. All stock was rearranged on the various warehouse floors in accordance with the prescribed warehouse practices and in conformity with the Standard Stock Catalog. At the same time, an improved method of keeping Stock Records was introduced. This operation has greatly improved the manner of receipt and shipment of property, at the same time facilitating and guaranteeing the accuracy of records and inventories required by existing regulations.

## CONSTRUCTION-MAINTENANCE AND REPAIR OF CAMP SITES

The work, completed with National Guard Bureau funds disbursed by the United States Property and Disbursing Officer, for new construction, maintenance and repair of camp sites, is summarized as follows:

# Pine Camp

## NEW CONSTRUCTION

Forward Observation Post Dugouts	Cost
Construction of two (2) reinforced concrete dugout observa- tion posts, 8 ft. x 86 ft. each on the Field Artillery Ranges	
at Pine Camp	\$2,399 90
revetments, wood covers and fences	210 00
Maintenance and Repair	
Installation of a new 880 gallon hot water heater and a 500 gallon hot water storage tank. Carpentry, electrical and plumbing repairs and replacements, with incidental painting in mess halls, warehouses, latrines, horse shelters, incinerator, water supply, sewage disposal, and electrical systems	3,063 69
Camp Smith	
Replacement of 103 electric light poles and installation of	
service lines in the West Camp	1,099 60
miscellaneous electrical repairs and installations	282 69
Repairs and replacement of timber, markers walk, roof and markers at firing line of the pistol range	398 32
Fort Ontario	
Repairs to buildings, tent floors, plumbing and electrical systems	798 03
Total	\$8,252 23

# Works Progress Administration Building Projects

The principal item of unusual interest in connection with structural changes at the New York State Arsenal, for the year 1938, is the activity of the Works Progress Administration. Following is data in connection therewith: Project, for the general improvements to the Arsenal building and grounds, was started on August

29, 1938. The project as approved indicated a Federal contribution for labor of \$28,445, for material \$3,714, and a State sponsorship of \$4,020, for material and equipment.

The work completed to date includes:

(1) Construction of a concrete parking area for motor vehicles.

(2) Planting of hedge and shrubbery.

(3) Installation of six (6) drinking water coolers.

(4) Rebuilding a roof tank house.

(5) Construction of a locker room, Quartermaster Detachment.

The items of work in process of completion or contemplated, under this project, include:

(1) Construction of a medical property storage room.

- (2) Construction of an ordnance property storage and repair room.
- (3) Construction of a paint storage room.
- (4) Construction of a women's rest room.

(5) Construction of a truck paint shop.

- (6) Laying of 10,000 sq. ft. of asphalt floor tile.
- (7) Miscellaneous exterior and interior painting.(8) Revision of electrical circuits and installations.
- (9) Roof and exterior wall repairs.

## PROJECT FOR IMPROVEMENT OF AVIATION FIELD AT PINE CAMP

The rebuilding of the main runway of the aviation field on the reservation (150 ft. x 2,400 ft.), and the grading, surfacing, and extension of the existing cross runway (100 ft. x 1,200 ft.), was completed during the calendar year. Approximately 10,500 cubic yards of limestone rock for sub-base and 6,700 cubic yards of crushed stone were required in preparing the surface of the main runway. The runway surfaces were finished with the distribution of 67,247 gallons of bituminous asphalt. Total cost: \$84,088.

## **Bureau of Grounds and Structures**

#### NEW ARMORY CONSTRUCTION

After a very comprehensive and complete study, replacement of heating systems, new armories or reconstruction of old armories are required in the following priority:

required in the following priority:	
Albany Infantry (new heating system)	\$66,000 00
Buffalo 174th Infantry (new heating system)	72,000 00
Brooklyn, 106th Infantry (addition to heating system)	60,000 00
Syracuse Field Artillery (new)	325,000 00
Utica Infantry (additions and reconstruction)	275,000 00
Mount Vernon Field Artillery (new)	300,000 0 <b>0</b>
Auburn (new)	400,000 00
Poughkeepsie Field Artillery (new)	300,000 00
Geneseo (administration building)	100,000 00
Dunkirk Naval Militia (new)	$250,000\ 00$
Ossining Naval Militia (new)	250,000 <b>00</b>
Rome (new)	150,000 00

Buffalo Naval Militia (new)	\$300,000 00
Yonkers (addition)	50,000 00
Albany Cavalry (addition)	50,000 00
Rochester Infantry (addition)	150,000 00
Niagara Falls (addition)	150,000 00
Middletown (addition)	150,000 00
Hempstead (addition to drill hall)	150,000 00

## Explanation

Details with respect to requirements indicated above, are as follows:

Albany Infantry.—Present system inadequate to properly heat the building. A portion of the present system has been ordered discontinued by the Bureau of Boiler Inspection of the State Department of Labor. Estimated cost \$66,000.

Buffalo, 174th Infantry.—Present system inadequate to properly heat the building. Estimated cost \$72,000.

Brooklyn, 106th Infantry.—Present system inadequate to properly heat the building. Estimated cost \$60,000.

Syracuse Field Artillery.—Present structure rented and is inadequate and unsuited for the training of field artillery and does not provide the necessary protection to Federal and State property against fire and theft. A modern armory should be built for this unit at a cost of \$325,000, plus cost to the county for land.

Utica Infantry.—Present structure built in 1894 (is 44 years old). Originally built to accommodate two infantry units. At present occupied by battalion headquarters and three infantry units. It is estimated that additions could be made to this armory which would provide adequate quarters at a cost of \$275,000, plus cost to the county for land.

Mount Vernon Field Artillery.—Present structure built in 1898 (is 40 years old). Originally built for one infantry unit. At present occupied by a battery of field artillery. Is the smallest armory and entirely inadequate for present day requirements. A new armory should be provided at a cost of \$300,000.

Auburn.—Present structure built in 1873 (is 65 years old). Originally built for one infantry unit. At present occupied by three infantry units. A new armory should be provided at a cost of \$400,000, plus cost to the county for land.

Poughkeepsie Field Artillery.—Present structure built in 1891 (is 47 years old). Originally built for one infantry unit. At present occupied by two units of field artillery. A new armory should be provided at a cost of \$300,000.

Geneseo.—Troop I, 121st Cavalry, is now occupying a converted farm house which is entirely inadequate for the training of the personnel, and for the proper protection against fire and theft of the Federal and State property stored therein. A modern fireproof administration building should be provided at a cost of \$100,000.

Dunkirk Naval Militia.—A separate division of the Naval Militia is occupying rented quarters which are not adequate for the proper training of the personnel. A modern armory should be provided at a cost of \$250,000, plus cost to the county for land.

Ossining Naval Militia.—A separate division of the Naval Militia is occupying rented quarters which are not adequate for the proper training of the personnel. A modern armory should be provided at a cost of \$250,000, plus cost to the county for land.

Rome.—Present structure rented and inadequate, unsuited for proper training of a medical unit and does not provide the necessary protection to Federal property against fire and theft. A new armory should be provided at a cost of \$150,000.

Buffalo Naval Militia.—The 9th Battalion, Naval Militia, is at present occupying quarters in the armory of the 174th Infantry. This building is overcrowded and a new armory should be provided at a cost of approximately \$300,000.

Yonkers.—This armory was originally constructed to house one infantry unit. At present occupied by three units of Special Troops. An addition to the administration building should be provided at a cost of \$50,000.

Albany Cavalry.—An addition, at a cost of \$50,000, should be made to this armory in order to provide quarters for Brigade Headquarters and also to provide storage space for motor vehicles.

Rochester Infantry.—An addition, at a cost of \$150,000, should be provided for this armory in order to properly house the units therein stationed.

Niagara Falls.—An addition to this armory is necessary in order to properly house the units therein stationed. It is estimated this addition could be built for \$150,000.

Middletown.—Present structure built in 1890 (is 48 years old). Originally built for one infantry unit, now occupied by a battery of field artillery. An addition to this armory should be provided at a cost of \$150,000.

Hempstead.—An addition to the drill hall of this armory to cost \$150,000 in order to provide adequate facilities for the proper training of the troops quartered therein.

Appropriations made by the Legislature for 1938, for armories, etc.:

Total armories 102.

Total number of armories leased for subdivisions of the National Guard and Naval Militia unable to secure accommodations in the foregoing is 5.

The active military establishment of the State is housed in the 87

buildings indicated above.

Storage facilities are provided at the United States Naval Reservation, Sackets Harbor, for material of the 13th Fleet Division, Naval Militia, and at Utica for units of the 10th Infantry.

# ARSENALS, ETC.

Arsenals, camp grounds and rifle ranges, owned by the State are

Brooklyn.—State Arsenal, erected 1926. Used by The Adjutant General of the State as an arsenal and storeroom. Approximate valuation \$1,000,000. Floor surface, 166,000 square feet.

Peekskill.—State Camp Ground and Rifle Range. For use of infantry and such other troops as may be designated. Approximate valuation of land and buildings \$235,000. Approximate area 1,886 acres. One hundred and eighty-seven targets.

Buffalo.—Kenilworth Pistol Range. For the use of troops sta-

tioned at Buffalo. Approximate valuation \$25,000.

During the year the Rensselaerwyck Rifle Range was turned over to the city of Rensselaer pursuant to chapter 821 of the Laws of 1937. A site for a rifle range to take the place of Rensselaerwyck was acquired at Guilderland, New York. This site is approximately ten miles from the city of Albany. Work of clearing the site was started in September as a National Youth Administration project.

In addition to the above, camp grounds are provided in the State for cavalry, artillery, and air service on Federal reservations at

Great Bend, Oswego, and Fishers Island.

#### RIFLE RANGES

Field Rifle Ranges for the use of troops of the National Guard and Naval Militia are leased by the Federal government as follows:

STATION OF TROOP	Annual rental	Location	Number of tar- gets	Ranges (yds.)
Amsterdam Auburn Binghamton Elmira Geneva Glens Falls *Gloversville Hoosick Falls Jamestown Mohawk Malone Medina Olean Oneonta Oneida *Oswego Saratoga Schenectady Syracuse Utica Walton	\$200 00 150 00 200 00 125 00 200 00 75 00 200 00 150 00 210 00 150 00 250 00 125 00 600 00 175 00 250 00 250 00 250 00 200 00	Town of Mohawk Town of Throop Binghamton Elmira Geneva Glens Falls Town of Johnstown Hoosick Falls Town of Frewsburg Town of Herkimer Malone Medina Olean Oneonta Oneida Oswego Saratoga Town of Colonie Town of Manilius Town of Frankfort Walton	4 5 2 4 6 4 5	200 to 800 200 to 600 200 to 1,000 200 to 600 200 to 600 200 to 800 200 to 800 200 to 800 200 to 1,000

<sup>\*</sup> Discontinued by order of the National Guard Bureau, June 30, 1938.

Landing Field.—A landing field for Air Corps of the National Guard is leased by the Federal government at Fulton, N. Y., at an annual rental of \$250.

Firing Point for 212th C.A. leased from Ward B. See, Lakeview Road, Oswego, at an annual rental of \$100, for period July 1, 1938 to June 30, 1939, no renewal option.

Total leased rifle ranges, 19.

Total floor space of all buildings, exclusive of structures at camps and rifle ranges, is 6,576,030 square feet.

The approximate valuation of military grounds and structures owned by the State and City of New York is \$39,153,893.

During the past year this office received very hearty co-operation from the Works Progress Administration and received Federal funds in the sum of \$216,949.94 for which grants we contributed as sponsor of the projects the sum of \$42,151.32 which was paid from appropriations for repairs, etc., to armories in the Third and Fourth Districts which moneys were assessed and collected from the counties comprising these districts.

The projects mentioned above are shown in detail in the following tables and do not include Federal contributions to City of New York.

Projects approved by the W.P.A. are as follows:

PROJECT	Character of work	Federal funds	Sponsor's contribu- tion	Total cost
State Armory, West First and Mohawk Streets, Oswego, New York. (Oswego County.)	caulking exterior windows and doors, exterior and interior painting, varnish removal and		<b>#</b> 0.000.40	210 000 00

New York. (Rens- selaer County.)	laneous repairs.  Superceding and in addition to	53,054 72	15,892 50	68,947 22
New York. (Renssealer County.)	Project No. 69. Addition to armory and miscellaneous repairs.	64,638 12	19,205 50	83,843 62

From time to time during the year changes in construction of several armories were made in order to provide storage space for motor vehicles.

It is my intention, as funds are available, to provide adequate storage space in all armories for motor vehicles.

In the past the Federal Inspection reports have criticised many of our armories on account of the unsafe storage facilities for small arms. I have directed that wooden gun racks be removed from the armories as soon as possible and the issue arms racks be substituted and enclosed in heavy metal cases. It is hoped in a few years to have all the old fashioned arms cases removed from our armories.

Under the list of field rifle ranges mention is made of the Guilderland Rifle Range. The following is added in order to show the

progress.

The site consisting of 238 acres with a natural backstop of at least 140 feet in the rear of the targets, was procured and work was started in September as a National Youth Administration project.

During the period this project has been in operation approximately 10 acres of timber have been cleared and approximately 4

acres of the area cleared of stumps.

One thousand cubic yards of material have been excavated, 500 cubic yards of embankment formed and 300 cubic yards of rip-rap placed.

In addition substantial progress was made on clearing obstructions from the stream, repair of existing roads and the construction

of new roads.

The rifle range at Karner has been dismantled and salvaged

equipment brought to Guilderland for use there.

The work at the Guilderland range and the dismantlement of the range at Karner cost the State approximately \$800, which was expended for pay of drivers, gasolene, oil, etc., for trucks issued to this office by the United States Property and Disbursing Officer.

#### Personnel Bureau

The functions of the Personnel Bureau are those outlined in the report of the activities of this bureau for 1935.

Activity.—During the year 1938 the Personnel Bureau handled 44,188 pieces of matter constituted as follows: Officers Section 7,767; Enlisted Section, 19,068 copies of enlistment records and 3,500 letters requiring issuance of special orders; Medal Section, 2,549; Form No. 100 Reports, 5,472; organization orders, bulletin, circulars, etc., 4,161; requests for certificates of service, 478; and 1,193 matters other than above.

Changes in Military Staff of the Governor.—During the year the Military Staff of the Governor, as designated in General Orders No. 1, this office, dated January 1, 1937, was altered as follows: Colonel John G. Grimley, 369th Infantry, New York National Guard, was ordered discharged by your Excellency on February 23, 1938, and was relieved as Aide on that date.

Changes in Organization of the National Guard.—Pursuant to General Orders No. 5, this office, dated March 13, 1938, certain batteries of the 245th Coast Artillery were reassigned to armaments as indicated therein. Pursuant to General Orders No. 6, this office, dated April 30, 1938, the Headquarters and Service Company, 102nd Medical Regiment, at White Plains, was disbanded.

The Veterinary Company, stationed at New York City, was transferred to station at White Plains and redesignated the Head-quarters and Service Company. Pursuant to General Orders No. 13, this office, dated September 1, 1938, the Headquarters Battery and Combat Train, 1st Battalion, 104th Field Artillery, stationed at Binghamton, was disbanded and a new unit of that designation was organized at Syracuse. Pursuant to General Orders No. 15, this office, dated December 21, 1938, effective January 1, 1939, Company H, 105th Infantry, Gloversville, was redesignated Company M and Company M, Schenectady, redesignated Company H.

Field Training Orders.—The dates and places of the field training of the National Guard are shown in General Orders No. 7, this office, dated May 2, 1938. Those for the Naval Militia in General Orders No. 4, this office, dated March 12, 1938.

Army Service Schools.—Data on the personnel of the National Guard who attended Army Service Schools in 1938 is given in the report of the Commanding General, New York National Guard, included herein as Appendix "A."

#### **Awards of Decorations**

Medals for Valor.—No Medals for Valor were awarded during the year 1938.

Conspicuous Service Cross.—Under the provisions of Section 247, Military Law, thirty (30) Conspicuous Service Crosses were awarded to various applicants during the year 1938.

Long and Faithful Service.—During the year 1938, 491 Decorations for Long and Faithful Service were awarded to various applicants divided into the following classes:

Special Class	(35	years	$\mathbf{of}$	service)	 		8
First Class	(25)	years	$\mathbf{of}$	service)	 		22
Second Class	(20)	years	$\mathbf{of}$	service)	 	1	.05
Third Class	(15)	years	$\mathbf{of}$	service)	 		1
				service)		3	

The present appropriation for the purchase of this decoration is inadequate and should be fixed at not less than \$9,000 due to increasing demands. On this date there are on hand applications representing the total value of \$4,070 many of which have been pending since before January 1, 1938.

#### **Bureau of War Records**

The activities of this bureau are those described in the report of this bureau for the year 1935.

The bureau is still engaged in the additional undertaking of compiling World War records by counties. The work has been completed up to the letter T.

## **Bureau of World War Records**

Under constitutional authority a bonus for New York Veterans of the World War was provided pursuant to chapter 19, Laws of 1924. The sum of \$45,000,000 was realized from the sale of bonds authorized by law, this sum having been augmented by premiums amounting to \$659,565, the latter sum also being appropriated for bonus purposes under chapter 208, Laws of 1925.

A Commission, consisting of the Adjutant General, the Comptroller, the Treasurer and the Attorney-General, administered the disbursement until April 22, 1926 when its functions were absorbed by The Adjutant General.

Each eligible veteran, upon application, received the sum of \$10 for each month of service with the colors, between April 6, 1917 and November 11, 1918, with \$150 as the maximum payment. Under chapter 209, Laws of 1925, an additional appropriation of

\$2,500,000 was made. Chapter 26, Laws of 1925, added the next of kin to those who were killed or died in the service or prior to February 28, 1924, as eligible to receive the bonus. Under chapter 267, Laws of 1926, a further appropriation of \$300,000 was Chapter 676, Laws of 1931, extended the time for filing claims to July 1, 1932 and made an appropriation of \$250,000. At an extraordinary session of the Legislature in 1931 to carry out the provisions of an act creating a temporary emergency relief administration, the sum of \$584,000 was appropriated by chapter 799 for the payment of bonuses, \$30,000 of which was made available for administration expenses. Under chapter 120, Laws of 1933, an additional appropriation of \$90,000 was made for bonus payments and \$25,000 for administrative expenses. The unexpended balances of these appropriations were reappropriated each year by the Legislature and were made available in the Executive Budget of 1936, Chapter 15, Laws of 1936. This chapter amended by a substitute bill chapter 360. Laws of 1936, eliminated these reappropriations and refunded the unexpended balances amounting to \$72,824.92 to the General Fund. By chapter 875, Laws of 1936, \$10,000 of this refunded amount was reappropriated and made available for one year beginning July 1, 1936. This action of the Legislature automatically closed the Bureau on June 30, 1937, and suspended the payment of bonuses on that date. Chapter 40, Laws of 1937 reappropriated \$200 of the unexpended balance of the appropriation made by chapter 875, Laws of 1936, for incurred liabilities and created the Bureau of World War Records to take over the records of the Bonus Bureau. Chapter 700, Part 2, Laws of 1938 appropriated \$1,111.33 for the payment of suspended claims which had been approved during the previous year. During the operation of the Bureau there has been appropriated for bonus purposes \$49.419.676.33 out of which there has been paid in bonuses and administrative costs the sum of \$49,346,851.41 and in a refund to the General Fund \$72,824.92.

Under the original law no claims could be received after May 1, 1927. The Bureau reopened April 23, 1931 and closed for the receipt of applications July 1, 1932, during which period 10,135

new claims were received.

The total claims received was 427,799 or 82% of the 518,864 veterans credited to the State. Of the number received 9,246 or .0215% were rejected as not entitled to the bonus. There are still 4,915 or .0115% of the claims received awaiting action by the Bureau due to the delay of the veteran in supplying required data. Of the total received 413,638 or 96% were paid at an average cost of \$1.85 per claim. Of the total veterans entitled to make application 91,065 or 18% failed to make a claim although 14,065 of this number applied for blanks. Their requests however, had to be denied owing to the fact that they applied after the time limit, July 1, 1932. The average payment per claim was \$117.23 or 78% of the maximum amount allowed, \$150. Of the total claims received, 25,257 applicants were not credited by the authori-

ties in Washington as having enlisted from the state of New York.

Of the claims awaiting action there are being received from time to time letters from the applicants supplying sufficient data to warrant the payment of these applications. During the past year eleven of these applicants in the amount of \$1,045.67 have been approved for payment. These claims have been segregated and a request has been made to the Legislature for an appropriation sufficient to pay them.

During the operation of the Bureau many activities developed other than the payment of the bonus. Being an office of record constant inquiries are being received from governmental, civic and veteran agencies and private sources relative to pertinent information regarding the service of veterans and certified copies of papers submitted with bonus applications for use in furthering claims for compensation, tax exemption, civil service examinations and promotions and for other and varied purposes. From experience with the records of the Civil and Spanish wars, which are still active, undoubtedly the records of this Bureau will remain in demand for some time to come.

### Veterans and Soldiers Affairs

### PENSIONS AND CLAIMS

### Blind Veterans' Fund

There are on this date a total of one hundred seventy-eight (178) veterans of all wars and six (6) widows' of veterans' who receive five hundred and no/100 (\$500) dollars, per annum, under the provisions of Article 1-B of the Military Law. Thirtynine (39) new applications were filed since the last report, an increase of thirteen (13) over the previous year. Twenty-five (25) were approved and certified to the Comptroller; six (6) were disallowed, and eight (8) are still pending decision. Five (5) recipients of this annuity died during the past year.

### Pensions

Fifty-nine (59) persons are at present receiving pensions under the provisions of Section 220, Military Law, which provides compensation for permanent disability incurred in line of duty in the National Guard or Naval Militia under lawful orders. Since the last report one (1) claim for pension was approved; one (1) was disallowed, and three (3) are now under investigation. Four (4) pensioners' names were stricken from the rolls during the past year. Three (3) on account of death, and one (1) a child of a deceased soldier, on account of having reached the statutory age of sixteen (16) years. One (1) application for an increase of pension was approved.

#### Claims

Twenty-nine (29) claims for pay and medical care on account of disability incurred in line of duty were filed during the past year by members of the Military and Naval forces of the State under the provisions of Section 223, Military Law. Twelve (12) claims were allowed; nine (9) were disallowed, and eight (8) are being investigated.

### Retirements

Under Section 19-A, Military Law: Nine (9) applications for retirement at half pay were approved during the past year. Of the nine (9) applicants eight (8) were armory employees, and one (1) was an employee of this Division. There are now forty-one (41) persons receiving retirement pay. Four (4) retired

employees died during the calendar year, 1938.

Under Section 219-A, Military Law: There are three (3) retired officers of the New York National Guard, former employees of this Division, and two (2) widows' of deceased officers of the New York National Guard who are now receiving compensation under the provisions of this section of the law. One (1) officer was added to the list during the past year.

### Claims for Damages to Private Property

During the past year the Congress of the United States appropriated twenty-five thousand and no/100 (\$25,000) dollars, for the settlement of claims (each not to exceed \$500) for damages to or loss of private property incident to the operation of Federally owned motor vehicles in the hands of the National Guard, either during the stay thereof in Camps of Instruction or while thereto or therefrom enroute. As a consequence of this law, a letter of instructions, A. G. 135 (10-4-37) Misc. M. D., dated March 1, 1938, was received from the War Department, Adjutants General's Office, Washington, D. C., on June 27, 1938, charging me with the responsibility of adminstering the provisions of the law in respect to all claims that might arise in this State in which the National Guard might be involved. Pursuant to the foregoing instructions, General Orders No. 9, this office, was published on July 1, 1938, covering the procedure for the investigation of claims of this type. This responsibility entailed a considerable amount of detailed and exacting work above the usual routine of this office, and also above that of a number of officers throughout the State, who were detailed as Boards to investigate into the merits of all cases coming to my notice. To-date thirty-six (36) motor vehicle accidents in which the National Guard of this State were involved have been reported. Fifteen (15) of which have resulted in claims for damages to private automobiles or real property. These claims are now in various stages of processing and when completed will be forwarded to the War Department for appropriate action.

### VETERANS' RELIEF

Under chapter 589, Laws of 1922, a commission to be known as the New York Veterans' Relief Commission, consisting of the Adjutant General, to be chairman thereof, the Comptroller and the Attorney General was created for the purpose of distributing relief to sick and disabled veterans of the World War. For the purpose of administering this act \$1,000,000 was appropriated. Under chapter 326, Laws of 1923, this commission was abolished and a separate bureau was created in the office of the Adjutant General to be known as the Bureau for the Relief of Sick and Disabled New York Veterans. Under this chapter an additional million dollars (\$1,000,000) was approved. Of this total \$68,891.29 reverted to the State treasury through lack of re-appropriation. Under chapter 605, Laws of 1928, chapter 41 of the Laws of 1909 entitled "An act in relation to the militia, constituting chapter 36 of the Consolidated Laws" was amended by adding Article 1-A, thus establishing the administration of relief as part of the Military Law.

In order to carry out the provisions of the above law the Legislature under chapter 708, Laws of 1931, appropriated \$75,000. In 1932 \$100,000 was obtained through the Temporary Emergency Relief Administration from funds appropriated under chapter 567. In 1933 \$50,000 was appropriated under chapter 120 and in 1934 an appropriation of \$200,000 was received from the Temporary Emergency Relief Administration from funds appropriated under chapter 273. In addition the Legislature appropriated \$50,000 under chapter 20, making the gross total available \$2,406,108.71.

Since the institution of the bureau many thousand requests for relief from sick or disabled, needy, unemployed, honorably discharged veterans of the World War have been received. These applications were thoroughly investigated and a majority of them were rejected due to the fact that they did not come within the meaning of our law. However, to date 11,921 cases were approved of which 10,359 are active or have been paid the maximum allowed under our law and 1,562 are in our rejected files for various reasons.

Actual payments for relief of sick and disabled veterans to date amount to \$2,036,019.64. Expenses of relief commissioners and administration to date are \$323,819.34. The expendable balance is \$46,275.73, of which \$21,631.43 is in the hands of the various relief commissioners and \$24,644.30 is in the bureau fund.

The bureau is represented by a resident commissioner in each assembly district throughout the State. The commissioner makes the necessary investigation to determine the eligibility of an applicant to be given relief. He prepares all papers, makes the relief payments, renders the periodical reports and returns and discharges the multiplicity of duties that must necessarily result from the position.

These gentlemen serve without pay; they give their time and efforts to the work without recompense and altogether are rendering a service to the State of a high patriotic value.

### Recruiting Bureau

Recruiting during the year has been normal and personnel joining in 1938 continues to represent the best type of citizens in the respective communities where organizations of the National Guard and Naval Militia are stationed.

### Bureau of Files, Mail and Distribution

During the year there were 547 issues of publications on training, army regulations and other pamphlets received from the Federal government by this bureau and distributed to the units of the National Guard of this State, in addition to the necessary Federal forms required by the National Guard. There were also caused to be printed and distributed all State forms used by the National Guard in addition to the General Orders, Bulletins and Training Circulars originating in this office and in the office of the Commanding General, New York National Guard.

### Recommendations

It is earnestly recommended that during the coming year adequate funds be made available for the resumption of our armory construction program. This is especially important due to the structural changes necessary in many armories due to the conversion of horse-drawn organizations to truck-drawn and to the general motorization of the National Guard.

### Conclusion

In closing, I wish to express my deep appreciation of your valuable guidance as Commander-in-Chief of the Military and Naval Forces of the State of New York and to assure you that because of your leadership the Military and Naval Forces of the State were never in a higher state of efficiency.

Respectfully submitted,

WALTER G. ROBINSON,

Brigadier General,

The Adjutant General.

### APPENDIX A

# Report of the Commanding General, New York National Guard

In accordance with the requirements of paragraph 6, Military Regulations No. 80, State of New York, I herewith submit the following annual report on the affairs and condition of the New York National Guard for the calendar year 1938.

- The general condition of the New York National 1. General. Guard is, in my opinion, very satisfactory, having showed continued progress in training and general efficiency during the past year. This conclusion is reached from extensive personal observation of our various organizations at their home stations and in field training camps, plus the detailed and comprehensive reports of armory and field inspections received from the Regular Army inspectors and also from those officers of my staff detailed for that duty. Deficiencies of a minor character will always be developed at these inspections, but in practically all cases they have been of a nature that can be promptly and properly remedied. It may be interesting to note that the Regular Army inspection reports for both armory and field training periods, which cover some four hundred units of our State forces were all satisfactory. ratings are used in this inspection report, viz: "Satisfactory" and "Unsatisfactory." Under separate paragraphs of this report you will note detailed remarks and figures on strength, attendance, training, etc., all of which clearly evidence the high morale, splendid spirit and keen interest of the commissioned and enlisted personnel of the New York National Guard. Suffice it to say that our organization as a whole is a dependable force, ready for any emergency. The War Department is rapidly modernizing equipment and material to the limit of appropriations by Congress and production by manufacturers. The State should be proud of the high record and favor in which its National Guard is held by the Federal authorities.
- 2. Strength. The average monthly strength of the New York National Guard during the past twelve months was an aggregate of 20,351 officers, warrant officers and enlisted men, as compared to 20,233 in 1937. The highest point was reached during the month of May, with a strength of 20,816, and the lowest during the month of December, with 19,951. The maximum number of officers and men allotted by the War Department remains at 21,309. The restriction placed by this Headquarters on enlistments, requiring sixty days' armory drill service prior to the field training, remains in effect.

3. Attendance. In armory drill attendance this Headquarters feels that a mark of 85% should be reached to be rated "Satisfactory." Where organizations fall below this figure we promptly call the attention of the organization commander to that condi-

tion, tendering such aid and assistance as we can offer.

The average attendance of the entire Guard at armory drills for the year 1938 was 91.5%, a decided improvement over the preceding year, when an average of 89.7% was obtained. The Colonel Frank H. Hines Attendance Trophy, awarded annually to the organization of the New York National Guard attaining the highest percentage of attendance during the armory training year, the field training period and at the annual Federal inspection, was again won by the 212th Coast Artillery (Anti-Aircraft), with the remarkable percentage of 97.56%. This is the second year in succession that the 212th Coast Artillery has been successful in winning the award. The 106th Field Artillery finished second in this competition with 97.19%, and the 102nd Quartermaster Regiment third, with a mark of 96.83%. The percentage of attendance at field training in 1938 was the highest ever attained by the New York National Guard: 96.19% of all personnel attended field training at the various camps, surpassing the previous record of 95.25% reached in 1931, and 95.03% in 1936. This is clearly indicative of a high state of discipline and morale in all ranks. All but one organization in the State exceeded 90% in attendance.

4. Organization. The changes in organization during the year 1938 were few and minor in character. Headquarters and Service Company, 102nd Medical Regiment, stationed at White Plains, New York, was disbanded on April 30, 1938, but the Veterinary Company of that same regiment, which had been stationed in New York City, was redesignated the Headquarters and Service Company, and its station placed at White Plains. The change was occasioned by the abolishment of the Veterinary Company, due to all animal units of the Division having been motorized.

Retirements for age in the upper brackets of our commissioned

personnel include the following:

Colonel Bryer H. Pendry, for many years the Commanding Officer of the 245th Coast Artillery, was retired in the grade of Brigadier General on December 7, 1937, due to his having reached the statutory age for retirement. He was succeeded in command by Colonel Charles S. Gleim, a capable and experienced officer.

Colonel Mills Miller, commanding the 244th Coast Artillery, reached the age of 64 on July 11, 1938, and was retired in the grade of Brigadier General. The Lieutenant Colonel of that regiment, Charles H. Ellard, was promoted, and is now in command.

Lieutenant Colonel Edward J. Parish, Ordnance Officer, State

Staff, was retired in the grade of Colonel on June 15, 1938.

Lieutenant Colonel Hiram W. Taylor, Finance Officer, 27th Division, since its reorganization in 1921, was retired in the grade of Colonel on July 28, 1938.

Lieutenant Colonel Damase J. Cadotte, Judge Advocate General's Department, State Staff, was retired in the grade of Colonel on August 9, 1938.

All of these officers gave long and faithful service to the State.

The Adjutant General's Offices, dated General Orders No. 1. February 23, 1938, ordered the discharge of Colonel John G. Grimley, 369th Infantry, pursuant to the action of a board of officers provided in section 80 of the Military Law. Colonel Grimley was succeeded temporarily by Colonel Joseph A. S. Mundy, Chief of Staff, 27th Division, who, in addition to his other duties, commanded the 369th Infantry from February 23, 1938 to July 26, 1938, when Colonel Benjamin O. Davis, Cavalry, U. S. A., who had been assigned by the War Department as Instructor to the regiment, was commissioned Colonel in the New York National Guard and assigned to the command of this regiment. With Colonel Davis' accession to the command, all personnel of the 369th Infantry, both commissioned and enlisted, are of the colored race, and I might mention in passing that this regiment is maintaining a high standard of excellence under its new Commanding Officer.

It is with deepest regret that I make of record the death of Brigadier General William F. Schol, 52nd Field Artillery Brigade, at the United States Soldiers' Hospital, Batavia, New York, on August 11, 1938. General Schol was a typical product of the New York National Guard, having served in the ranks and reached his high office as a result of his demonstrated efficiency and his devotion to duty. He was succeeded in the command of the Brigade by the transfer of Brigadier General Charles G. Blakeslee from the 93rd Infantry Brigade. General Blakeslee, prior to assuming command of the 93rd Infantry Brigade, had long service with the 104th

Field Artillery.

The vacancy created by the transfer of General Blakeslee was filled by the promotion of Colonel Alexander E. Anderson, 165th Infantry, to the rank of Brigadier General. His splendid record, in peace and war, augurs well for the Brigade.

In turn, General Anderson was succeeded in the command of the 165th Infantry by Colonel John J. Mangan, promoted from Finance

Officer, 27th Division.

- 5. Service in Aid of Civil Authorities. There were no occasions for the use of the military forces of the State in aid of civil authorities during the past year. However, at many of our stations aid and assistance is still being furnished for the needy unemployed.
- 6. Training. In view of the mission of the New York National Guard, both as a State and a Federal force, the question of training continues to be one of paramount importance. It is gratifying to report, both from extensive personal observation and from the official inspections conducted by the Regular Army in the armories and in the field, that the present state of training throughout the

New York National Guard is at a uniformly high level. This is particularly satisfying, since, under the current War Department plans, in the event of mobilization, the New York National Guard is required to take the field immediately in conjunction with the Regular Army.

As in previous years, the emphasis in training has been placed on the smaller unit, not only because of the large annual turnover of personnel, but also because experience has shown, both in peace and in war, that any large military unit is no stronger than its component parts, and that the brigade or division which possesses first-rate battalions and companies will prove inevitably to be an efficient fighting machine. Furthermore, this system of small-unit training serves to promote that individual leadership and initiative which are the natural traits of the American soldier.

The general training objectives as announced by the War Department for the training year and repeated in our own train-

ing directives, are as follows:

a. To produce units prepared to take the field on short notice, at existing strength, in order to execute current Federal or State defense plans.

b. To maintain all units at the standards required for Federal recognition.

c. To be prepared to mobilize promptly at maintenance strength and equipment.

d. To be prepared to increase officer and enlisted personnel to meet mobilization requirements.

e. To be prepared to replace the New York National Guard, while in Federal service, with such armed forces as the State might require.

It will be noted that the above objectives conform not only with our mission as a component part of the Army of the United States,

but also with our status as a purely State force.

In the decentralization of training throughout the lower commands, emphasis was given in infantry training to musketry and technique of fire for basic weapons, conduct of tactical problems for small units on the terrain, on the sand table and on the map; the development of team-play in the operations of the combined arms, the employment of coordinated artillery and infantry fire, the defense against aircraft, chemicals and mechanized forces and the services of supply and evacuation in combat.

Following the plan adopted in 1937 for joint Infantry-Artillery training, the 106th Infantry trained at Pine Camp with its supporting Artillery regiment, the 104th Field Artillery. In this training the 27th Division Aviation and the 102nd Quartermaster Regiment also participated. With the additional camping facilities, made possible by Federal funds for semi-permanent showerbaths and latrines, a highly successful tour of field training was completed by these organizations operating as combined tactical teams under approximated combat conditions. It is proposed to

continue this system of joint Infantry-Artillery training in the future, so that over a cycle of three years, the normal term of individual enlistment, all Infantry regiments assigned to Divisions will have one year of combined training with the Field Artillery.

The consolidated figures for marksmanship with Infantry weapons are contained in another section of this report, together with certain comments and recommendations on marksmanship training. It is gratifying to note that the uniformly high standards of previous years in record firing have been continued for all basic Infantry weapons. In addition, basic training was conducted at Camp Smith for selected personnel in anti-aircraft marksmanship. It is proposed to develop this further in 1939. Likewise in 1939, the allowances of 45 calibre ammunition will permit all Field Artillery regiments and Infantry Headquarters Companies to fire the automatic pistol or revolver.

In connection with Infantry marksmanship training, we are informed that we shall receive within the present fiscal year a limited number of the new semi-automatic rifle, and additional appropriations will be made each year until all Infantry organiza-

tions are completely armed with this outstanding weapon.

Field Artillery training throughout the year has been conducted with special reference to the Field Inspection Reports and the Analyses of Target Practice for the previous year, especial emphasis being given to mobility and communications and battalion fire direction exercises. The construction of three concrete forward observation posts at Pine Camp has contributed greatly to Artillery training in present approved methods in gunnery and fire control. The light, medium and heavy field Artillery regiments fired a total of 644 problems of various types, of which 447 were fired with a sub-calibre ammunition and 197 with service ammunition.

The three Coast Artillery regiments trained again in 1938 at Fort Ontario and Fort H. G. Wright. At Fort Ontario an additional firing point was utilized, which permitted the simultaneous conduct of target practice for both the gun and machine gun personnel, with resultant saving in time available for other basic training. Two batteries of the 245th Coast Artillery, recently converted to anti-aircraft for local defense, conducted a satisfactory instruction practice at Fort H. G. Wright. This target practice was in addition to the usual practice with fixed harbor defense armament by the remaining batteries. With reference to the 212th Coast Artillery, which has been handicapped in its training by insufficient and obsolete equipment, we are now assured by the War Department that complete new anti-aircraft equipment, consisting of guns, machine guns, directors, searchlights, and sound locators will be furnished within the next year.

While the problem of adequate anti-aircraft defense for the vital industrial and commercial areas of the State is primarily one for the War Department, it is believed that additional anti-aircraft units should be assigned to the New York National Guard in order to provide a more balanced force in the event of hostilities, and

recommendations along these lines are now being prepared.

The 27th Tank Company trained in 1938 at Fort George G. Meade, Maryland, where the complete equipment of the 66th Infantry (Tanks) was made available by the Regular Army, with highly satisfactory results. The Tank Company is now equipped with two modern tanks of the M2A2 type for armory training. It is understood that two additional tanks will be furnished by the War Department in the near future.

The supply of new equipment to the 102nd Engineers (Combat) has resulted, and will result, in the increased efficiency of this organization. This equipment, much of which could not be promptly procured in the event of an emergency, consists of a water supply set, an electric light set, a map reproduction set and

a limited number of assault boats for training purposes.

The 101st Signal Battalion has also been supplied during the past year with new construction equipment which adds greatly to the efficiency and readiness of this unit for field service.

An initial issue of new-type telephones has also been made to

all signal communication units.

The training of the Cavalry, both in basic weapons and in tactical exercises, has continued to emphasize the reconnaissance and security missions of Divisional horse cavalry when operating with, or opposed by, mechanized forces. During the present year the allotment of animals maintained at Federal expense within the State has been increased to five hundred. This total includes fifty-three Federally-owned animals which have been received from the Quartermaster Remount Service as replacements for unserviceable animals. We are assured by the National Guard Bureau that during the fiscal year 1940 the Cavalry will be fully equipped with its authorized number of animals of serviceable age and condition. The matter of the organization of the 21st Cavalry Division, to include the 51st Cavalry Brigade, is discussed in another portion of this report.

Medical Department training, both in the armory and in the field, has stressed the importance of the installation and operation of battalion aid stations, and all organizations have been supplied with one complete medical field outfit for this purpose. The matter of physical examinations of officers and enlisted men is naturally one of primary importance. This has again been brought to the attention of all medical officers concerned, with a view to insuring that physical examinations are conducted strictly in accordance with Regulations, and that required physical standards for active field service will be maintained in all organizations.

The 27th Division Aviation, in addition to conducting its own observation and aerial gunnery missions, assisted in the training of the Infantry, Cavalry and Artillery by furnishing airplanes and personnel for air-ground communication, target-towing, and observation. This unit, with twelve pilots and nine observers, again exceeded in 1938 the required minimum of 100 hours per pilot of flight training, to include extended cross-country navigation flights and blind flying missions. We are informed that new

0-47 type observation airplanes will be provided in 1939, and also one additional training airplane for instrument flying instruction. The equipment of all tactical airplanes with long-range radio sets

has been completed.

As to the progress in motorization, there has now been issued to this State, by the War Department, 731 motor vehicles of all types, to include cargo vehicles and personnel carriers, prime movers, dump trucks, ambulances, wire-laying vehicles, motorcycles, telephone maintenance trucks, cavalry command cars, scout cars, searchlight trucks, and signal communication trucks. It is anticipated that the Service Companies of Infantry regiments will shortly be motorized, and that vehicles for this purpose will also be issued. These vehicles were used both for tactical training of units in the field and for camp service, and also for the transportation of organizations to and from the several field training camps. This latter operation was conducted under the supervision of this Headquarters and the 102nd Quartermaster Regiment. of 3,333,670 man-motor-miles were compiled in these movements without any fatal accidents. It has again been recommended to the National Guard Bureau, however, that movements of personnel to and from field training camps by motor transportation be restricted to motorized organizations, and that all other units move by rail. It is believed that this plan is not only safer and more economical, but the retention of vehicles under the control of organizations to which assigned will insure a longer life for such motor equipment. This plan will also reduce the number of motor convoys operating between New York City and Camp Smith on mid-summer week-ends, with the attendant traffic congestion.

Chemical warfare training is discussed in another portion of this report, but the ration of eight (8) gas masks per one hundred (100) men is still entirely inadequate for proper chemical warfare training. Current War Department estimates provide for a large

increase in the issue of this essential item of equipment.

The 102nd Ordnance Company trained again at Raritan Arsenal, New Jersey, utilizing the extensive shop facilities and ordnance equipment at that post for technical training in ordnance mainte-

nance and repair.

The 27th Division Staff, together with the Special Troops, 27th Division, and the Divisional Brigade Headquarters units, participated in an extensive Command Post Exercise at Camp Smith, illustrating the tactical employment of the Division in the attack of a river line. This Command Post Exercise was highly instructive, and afforded excellent training for both officers and enlisted men of the several staff sections, especially in view of the proposed First Army Maneuvers in 1939, in which the 27th Division will participate as an organic unit.

The question of schools and Army Extension Courses is discussed below. In connection with the Army Extension Courses, every effort is being made to secure properly qualified enlisted men in each organization who would be available, in the event of

mobilization, to fill the War Strength requirements for commissioned personnel. The Army Extension Courses furnish one of the best means of securing such filler replacements. At present there are some 250 enlisted men holding commissions as Second Lieutenants in the National Guard of the United States, and these, together with the officers on the Inactive National Guard List, would probably be sufficient to complete our peace-strength officer requirements. For war-strength, however, some 800 additional officers would be required. Under the present plans these would be furnished by officer candidates from the enlisted men of the organizations themselves, and here again the Army Extension Courses, combined with active duty training in the armory and in the field, furnish a possible solution to this problem of completing the required war-strength officer personnel.

The Corps Area Command and General Staff School, inaugurated at Camp Dix in 1936, completed its final session in 1938 with twelve (12) officers in attendance. This course, in a modified form, was repeated in New York City during the winter, thus spreading this instruction in staff duties and functions to a larger group

of officers living in the metropolitan area.

The New York National Guard Short-Wave Radio Net maintained its activities throughout the year 1938 with the following stations actually in operation:

WXDA         Company B, 101st Signal Battalion         Brooklyn, N. Y.           WXDB         27th Signal Company         Yonkers, N. Y.           WXDC         Hq. Troop, 121st Cavalry         Rochester, N. Y.           WXDD         Hq., 369th Infantry         New York, N. Y           WXDE         Hq., 1st Bn., 10th Infantry         Albany, N. Y.           WXDF         Hq., 245th Coast Artillery         Brooklyn, N. Y.           WXDG         Hq., 87th Infantry Brigade         New York, N. Y.           WXDH         Hq., 3rd Bn., 174th Infantry         Niagara Falls, N           WXDI         Hq., 71st Infantry         New York, N. Y.           WXDJ         Hq., 2nd Bn., 156th Field Artillery         Newburgh, N. Y.           WXDK         Hq., 106th Field Artillery         Buffalo, N. Y.	. Y.
---	------

It is again recommended that some form of State aid be extended to this activity for the procurement of additional equipment and installations, in view of its value as a means of State-wide communication in the event of public disaster or other emergency.

In my report for last year I discussed the question of lack of adequate facilities at Camp Smith for Infantry training, and recommended that steps be taken by the State to acquire a suitable Infantry training area adjacent to Camp Smith, to be used in conjunction with the facilities there for training in modern combat essentials. In 1938 an adequate appropriation was secured from the War Department, which permitted the leasing of about 1,000 acres of suitable terrain in the vicinity of Lake Mahopac, and distant some fifteen (15) miles from Camp Smith. The organizations training at Camp Smith were moved to and from this area by motor for the purpose of bivouacking, messing and supply in the field, and the conduct of tactical exercises. This new training area proved to be of the highest value in increasing the combat

efficiency of our Infantry organizations, as well as promoting their interest and morale. This fact confirms my previous recommendations as to the necessity of securing a permanent training area of this character to supplement the existing facilities at Camp Smith. It is believed that serious consideration should be given to this

problem at an early date.

In view of the present disturbed world conditions and the current emphasis on national defense, the question of the problems attendant upon possible mobilization of the New York National Guard is one of importance. The National Guard of the United States having been inducted into the Federal service, and losing thereby its State status, the responsibility of the several states under the statutes to execute the law, suppress disorder and protect life and property, either by expansion of their police forces, or creation of other State forces, obviously would be greatly In this eventuality, it is not improbable that certain utilities and installations within the State, both private and public, might assume a Federal character because of their importance to the National defense, as, for example, the State-wide transportation, power, and communication systems. The protection of such utilities or installations, while primarily a State responsibility, might be undertaken by the Federal government with Federal forces, if the protection afforded by the State is deemed inadequate. Any decision in this matter would, of course, rest between the State authorities and the War Department. While the organization of State forces in time of war is a matter which pertains entirely to the individual states, it may be noted that there is no provision of existing law which permits the issue of Federal arms and equipment to such state forces. It is possible, however, that in an emergency Congress might enact legislation similar to that of 1917, which authorized the loan of arms and equipment to state forces. Members of state forces within the ages prescribed by any Selective Service Law are liable, as individuals, to induction into the armed forces of the United States. It is a problem of the State, therefore, in organizing its own forces, to insure that they would not be depleted and disorganized by the possible requirements of Selective Service. In addition to such duties as protection of public utilities, it should also be considered that these state forces might possibly be used for other duties, such as the instruction of the populace in defense against hostile aircraft. including anti-aircraft warning nets, or duties in the decontamination of gassed areas. Such plans for internal security within the State in the event of war would, it is believed, require no radical change in the existing plan for the organization of the New York Guard, as now provided for in the State Military Law and Regulations, especially since a nucleus for such forces exists in the large number of ex-National Guardsmen, both officers and men, residing in the State and not immediately required for Federal service.

The results obtained in small arms practice in the 1938 field training period were satisfactory. In compliance with instruc-

tions from the National Guard Bureau, all men in rifle companies of the Engineers and Infantry, and in rifle troops of Cavalry, fired the rifle. The automatic rifle was fired by men not previously qualified with that weapon.

### Qualifications

Rifle: Infantry and Engineers—3,940 out of 5,600 or 70%. Cavalry—672 out of 906 or 74%.

Automatic Rifle: Infantry and Engineers—1,285 out of 1,671 or 77%.

Machine Gun, Cal. .22.—Infantry and Cavalry—.2,012 out of 2,022 or 99-plus %.

37m/m Gun and 3" T.M.—Infantry—468 out of 533 or 88%.

Light Machine Gun.—Cavalry—127 out of 150 or 85%

Tank Weapons—B. M. G., Cal. .30.—27th Tank Company—59 out of 61 or 97%.

Revolver, Course "D".—27th M. P. & Signal Co.—38 out of 133 or 29%.

Pistol, Mounted Course.—Cavalry—226 out of 279 or 81%.

In all cases where organizations completed their qualification courses at Camp Smith, the appropriate badges and bars were issued prior to departure for home station. Results of the several State Matches is published in General Orders No. 9, this office, dated July 1, 1938.

### Ammunition and Ammunition Allowances

The ammunition furnished was satisfactory, and the quantity sufficient for our schedule of training. This year, for the first time in a considerable period, calibre .45 ammunition was issued by the War Department, and we were able to fire the mounted pistol course during the 1938 field training period. A sufficient quantity of this type of ammunition was received (and is still on hand), which will permit of pistol practice by the Machine Gun and Howitzer Companies of Infantry organizations, the Field Artillery and Cavalry organizations. This will be accomplished prior to June 1, 1939.

This year, for the first time, we included anti-aircraft training,

using calibre .22 rifles for the purpose.

The Provisional Ordnance Detachment, under supervision and control of this Headquarters, performed the necessary range details for known-distance firing, and its members acted as supervisors, statistical clerks, and telephone operators. The Detachment further assisted in the training by furnishing men for the various phases, such as map reading, compass course; machine gun firing; howitzer instruction, and the field firing problem. During the field exercises of the several organizations, the Detachment represented the enemy, and acted as orderlies to the umpires.

Inspection of Ordnance material was carried out by the Corps Area Ordnance Officer, and resulted in the replacement of 255 rifles, Cal. .30, M1903; 3 rifles, Cal. .22, M2 and M1922M1; 6 rifles, Cal. .30, Browning, M1918; 9 guns, machine, Cal. .30, Browning, M1917; 6 guns, machine, Cal. .22, Browning; 3 guns, 37 m/m, M1916; 3 rangefinders, 80 c/m base; 8 pistols, Automatic, Cal. .45, M1911; 10 revolvers, Cal. .45; 16 glasses, field, type ee; 1 mortar, trench, 3", M1.

The system of making repairs at the time of inspection, instituted last year by the Corps Area Ordnance Officer, in the metropolitan area, has been extended to include the entire State, with most satisfactory results and the elimination of considerable paper work.

To assist in the small arms training, full advantage of the splendid target facilities at Camp Smith were offered to all organizations in the metropolitan district in the early spring of 1938. Advance notice of target assignments and of facilities available were given to all organizations, and full advantage of these opportunities was taken. Each Saturday and Sunday, from the first of April to the first of June, weather permitting, saw the ranges used to almost maximum capacity. The record of accomplishment in the State rifle and pistol matches, the National rifle and pistol matches, and other competitions engaged in, have been made of record in General Orders issued by this Headquarters during the year.

In chemical warfare activities we followed the same plan as in the previous year. The Chemical Warfare Officer, 27th Division, supervised the armory instruction through the gas officers of their respective organizations. The instruction at field training camps was handled personally by the Chemical Warfare Officer, 27th Division, in the same manner as in 1937. During the field exercises of the various regiments at Camp Smith, and during the joint exercise of the 106th Infantry, 104th Field Artillery, 102nd Quartermaster Regiment, and 27th Division Aviation at Pine Camp, chemicals were used to their fullest extent. Although an effort was made to secure sufficient masks from the War Department to equip one battalion of each Infantry regiment in order that they could participate in action wearing these masks, a lack of supply defeated this purpose.

7. Athletics and Recreation. As in the past, organization commanders prepared their athletic programs at all camps. At Camp Smith the facilities for baseball, track, tennis, swimming, soft ball, and hand ball were maintained in excellent condition, and used by all organizations training at that place. At Pine Camp the facilities for athletic diversions are not as extensive as at Peekskill, but baseball, soft ball, and track competitions predominated. At both Pine Camp and Camp Smith we continued to show moving pictures three times a week without cost to our personnel. Most organizations training at both camps utilized the facilities of the theatres on the off nights for boxing, wrestling, and amateur vaudeville entertainment. Many of these were of a high order, and large and enthusiastic audiences were the rule. Up-state regi-

ments training at Camp Smith were encouraged to grant weekend passes over the Middle Sunday to their personnel, thus affording them an excellent opportunity to visit the Greater City and its surrounding beaches. Likewise, organizations training at Pine Camp took full advantage of the middle week-end, utilizing their organization motor transportation to carry their personnel to Alexandria Bay, Clayton, and the other summer resorts in the Thousand Islands.

8. Religious Activities. Under the direction of the Division chaplains, and with the splendid aid and assistance of the chaplains assigned to each organization, divine worship to meet the requirements of the three major faiths was conducted each Sunday at Camp Smith and Pine Camp. Again I must record my appreciation to the Jewish Welfare Board of New York City for their assignment of a chaplain of their faith to Camp Smith each week.

Camp Smith, Peekskill, N. Y., handled more visitors in 1938 than in any other season in my recollection. Our records of attendance show that close to 15,000 motor vehicles, and approximately 100,000 visitors, attended the Camp during the field training period. As usual, as was expected, the middle Sunday of the field training period of the 369th Infantry, September 11th, saw the largest single day's attendance. Your Excellency will well remember the enormous, happy and orderly attendance, estimated at 35,000, at the time of your review of this regiment, and your presentation to Colonel Davis of his commission in the New York National Guard. Our facilities were taxed as never before, but despite the tremendous crowd no serious accidents were reported; but traffic into and out of the Camp suffered several delays, and prompts serious consideration of my request for a new entrance road into Camp Smith.

9. Schools. Special Training Schools:

Below I have recorded the names of the officers and enlisted men who completed the various courses at the Service School maintained by the War Department:

(1) INFANTRY SCHOOL, National Guard and Reserve Officers' Course, Fort Benning, Ga., February 2, 1938 to May 28, 1938.
Lieutenant Colonel Gerard W. Kelley, Hq., 27th Division.
Major Wilmer F. Lucas, Hq., 2nd Battalion, 369th Infantry.
Captain Miles O. Bidwell, Headquarters, 107th Infantry.
Captain Jesse W. Pollins, Company "M," 369th Infantry.
First Lieutenant Paul N. Barnes, Company "M," 10th Infantry.
First Lieutenant Floyd A. Davison, Company "E," 174th Infantry.
First Lieutenant Clarence L. Dorst, Company "F," 174th Infantry.
First Lieutenant Raymond E. McManus, Howitzer Co., 105th Infantry.
First Lieutenant Joseph L. Taestano, Company "C," 106th Infantry.
First Lieutenant Purroy E. Thomsen, Company "K," 14th Infantry.
First Lieutenant Hans S. Bendixen, Hq., 93rd Infantry Brigade.
Second Lieutenant Chester C. Dawson, Hq. Co., 3rd Bn., 174th Infantry.
First Lieutenant Richard S. Estes, Company "D," 106th Infantry.
Second Lieutenant Herbert H. Hawkins, Hq. Co., 3rd Bn., 71st Infantry.
Second Lieutenant Caleb C. Weeks, Hq. Co., 1st Bn., 165th Infantry.
Second Lieutenant Lewis C. Williams, Jr., Co. "G," 107th Infantry.

- (2) CAVALRY SCHOOL, National Guard and Reserve Officers' Course, Fort Riley, Kansas, February 28, 1938 to May 28, 1938.
  First Lieutenant Elmer B. Horsfall, Troop "B," 121st Cavalry.
- (3) COMMAND AND GENERAL STAFF SCHOOL, Fort Leavenworth, Kansas, March 14, 1938 to June 13, 1938.
  First Lieutenant James J. Fogarty, Company "K," 71st Infantry.
- (4) QUARTERMASTER SCHOOL, Motor Transport Course, Baltimore, Md., September 20, 1938 to November 10, 1938.
   Second Lieutenant Joseph V. Miseli, Service Btry., 156th F.A.
- (5) COAST ARTILLERY SCHOOL, National Guard, Anti-Aircraft Artillery, Fort Monroe, Va., September 15, 1938 to December 7, 1938.
  Second Lieutenant Bertram H. Mandell, Btry. "G," 212th C.A.
- (6) FIELD ARTILLERY SCHOOL, National Guard and Reserve Officers' Course, Fort Sill, Okla., September 17, 1938 to December 17, 1938. Captain Ernest A. Steuding, Btry. "A," 156th Field Artillery. Second Lieutenant Winfield R. Reindel, Btry. "A," 156th Field Artillery.
- (7) ORDNANCE SCHOOL, Field Service Course, Raritan Arsenal, N. J., September 19, 1938 to December 17, 1938.
   Captain John H. Travers, Jr., Ordnance Department, State Staff.
- (8) CHEMICAL WARFARE SCHOOL, Basic Course, Edgewood Arsenal, Maryland, October 23, 1938 to December 3, 1938.
  Captain George H. Hopkins, Howitzer Company, 105th Infantry.
  Captain John F. McDonough, Headquarters, 165th Infantry.
- (9) SECOND CORPS AREA COMMAND AND STAFF SCHOOL, Camp Dix, N. J., November 11, 1938 to November 23, 1938.
  Colonel Charles N. Morgan, 121st Cavalry.
  Lieutenant Colonel Jerome B. Crowley, F. D., Hq., 44th Division.
  Lieutenant Colonel Samuel D. Davies, 106th Infantry.
  Lieutenant Colonel Malcolm W. Force, 244th Coast Artillery.
  Lieutenant Colonel John D. Humphries, 245th Coast Artillery.
  Major Henry R. Drowne, Jr., 51st Cavalry Brigade.
  Major Henry G. Fowler, 244th Coast Artillery.
  Major Lindsay J. Griffith, 71st Infantry.
  Major Joseph A. McDonough, 93rd Brigade.
  Major Arthur T. Smith, 108th Infantry.
  Major Thomas C. Dedell, 10th Infantry.
  Major William H. Kelly, 165th Infantry.

### Enlisted Men

The following-named enlisted men have satisfactorily completed courses of instruction at Service Schools:

- (1) COMMUNICATIONS COURSE, Infantry School, Fort Benning, Ga., February 21, 1938 to May 27, 1938.
  - Master Sergeant Robert N. Pritchard, Hq. Co., 53rd Inf. Brigade. Master Sergeant Richard F. Amann, Hq. Co., 108th Infantry.
  - (2) AIR CORPS TECHNICAL SCHOOL, Radio Repairers' and Operators' Course, Chanute Field, Ill., September 27, 1938 to March 18, 1938. Technical Sergeant Jack Christensen, 102nd Observation Squadron.
  - (3) FIELD ARTILLERY SCHOOL, Communications Course, Fort Sill, Okla., February 5, 1938 to June 11, 1938.
    Staff Sergeant James J. Donnelly, Hq. Btry., and Combat Train, 1st Bn., 258th Field Artillery.
  - (4) Non-commissioned Officers' Course, Cavalry School, Fort Riley, Kansas, September 15, 1938 to December 14, 1938.
    Sergeant Louis Dups, Headquarters Troop, 101st Cavalry.

In addition to the above, the New York National Guard Command and General Staff School conducted its second course during the months of January, February, and March of this year. This is an intensive and abbreviated course of instruction, patterned on the conferences, lectures and map problems given at the Corps Area Command and Staff School. It has been most productive of good results, and the third and final course will start on January 10, 1939.

The record of accomplishment in the Army Extension Courses conducted on the correspondence school principle, shows splendid results. One thousand, nine hundred and sixteen officers and enlisted men of our service were enrolled during 1938; they completed 5,573 sub-courses, equivalent to 77,276 hours of instruction.

10. Inspections. I have not found it necessary to make a change in the plan of conducting our annual State inspections. As has been the custom the past few years, the State Armory Inspection is made separate and apart from that by the officers of the Regular Army detailed by the War Department for that purpose. The tactical inspections of the organizations during field training were conducted by officers on duty at this Headquarters. Careful checks and audits of accounts of Camp Quartermasters and Post Exchange Officers were made by the Division Inspector. The usual audits of payrolls of the Construction Department, Camp Smith, Post Hospital, Military Police and the Provisional Ordnance Detachment were maintained.

### 11. Permanent Plant.

a. Armories. I anticipate that the Adjutant General will cover in detail, in his annual report, the condition of armories outside of New York City. The needs and necessities for new armories and in major improvements to present construction up-State have been informally discussed with the Adjutant General at frequent intervals, and I am heartily in accord with his plans for improvements. Since the Adjutant General is not a member of the Armory Board of the city of New York and has no representative at that Board, I feel it incumbent to comment on the situation in the Greater City. During the past year considerable work has been done by the Armory Board on our City armories, but practically all of the improvements, replacements and alterations have been made possible by grants through the Works Progress Administration. character of the work, as we know, includes the installation of new roofs, the replacement of old and corroded plumbing lines with new brass pipes, new sanitary toilet facilities, and new steam lines; the replacement of heating systems; new electric wiring; the replacement of old and defective material; the construction of new rooms, and the laying of new floors, etc. Outstanding among these W.P.A. projects is the practical completion of the armory for the 27th Division Aviation at Miller Field, Staten Island. This major project involved the clearing and grading of the landing field, the

installation of a night lighting system for the field, new construction in the form of an administration and shop buildings, the remodelling of existing hangars, and the laying of a new drill floor for the organization. These improvements give the 27th Division Aviation a complete plant for their training and instruction. Most of the organizations in New York City are housed in armories that are fairly adequate for training, storage of supplies, and recreation. However, there are two outstanding needs. The buildings housing the 212th Coast Artillery (Anti-Aircraft) and the 244th Coast Artillery (155 mm GPF guns) are absolutely inadequate for organizations of their character. Both of the buildings are more than forty years old, and were constructed at the time these regiments were the old-style infantry type. At present they are completely motorized artillery, but capable of housing only about twenty percent of their normal motor equipment. Strong recommendations have been made to the Armory Board of the city of New York for either new buildings or for extensions to the present armories to permit of the storage, under their own roofs, of the material necessary for their maintenance. This situation is a serious one, in view of the fact that the War Department has advised that new and modern equipment will be forthcoming in about one year's time.

b. Camp Smith. No Federal appropriations were available for new construction at Camp Smith this year, and a very limited amount was made available for repairs and maintenance. State appropriations were responsible for the erection of a new latrine and shower-bath for the enlisted men in the East Camp, the construction of a new storm sewer in the West Camp, and the completion of the reconstruction of the old 200-yard rifle range. addition, we were able to complete the change of wood-burning kitchen ranges to the more modern and economic oil-burning type. and, as well, sufficient monies were available to keep our splendid training plant in good repair. In my request for funds for next year I have indicated the necessity for an adequate motor park, with its attendant service and repair facilities, at the Camp entrance near the pump house; the hard surfacing of present dirt or gravel roads within the Camp area proper, and the construction of a new entrance road into Camp. These are the more important projects. In 1938 we were able to paint the Camp recreation hall, inside and out, and make the repairs necessary to operate its facilities. Up to July first of this year the maintenance of this building and its operations were financed through its own earnings, but with the passage of the Pitcher-Moffat Law all receipts must now be deposited into the General Fund, and monies for its maintenance and upkeep must be appropriated by the Legislature. Similar legislation affected the cutting of wood necessary for incineration of garbage and waste and for cooking in the bivouacs. The same condition affects the cutting, harvesting and storing of ice for use in the Camp. Heretofore the receipts from the operation

of the concessions in the recreation hall, and the sale of wood and ice, not only was sufficient for the operation, but also served to make many repairs and additions for which funds were not appropriated.

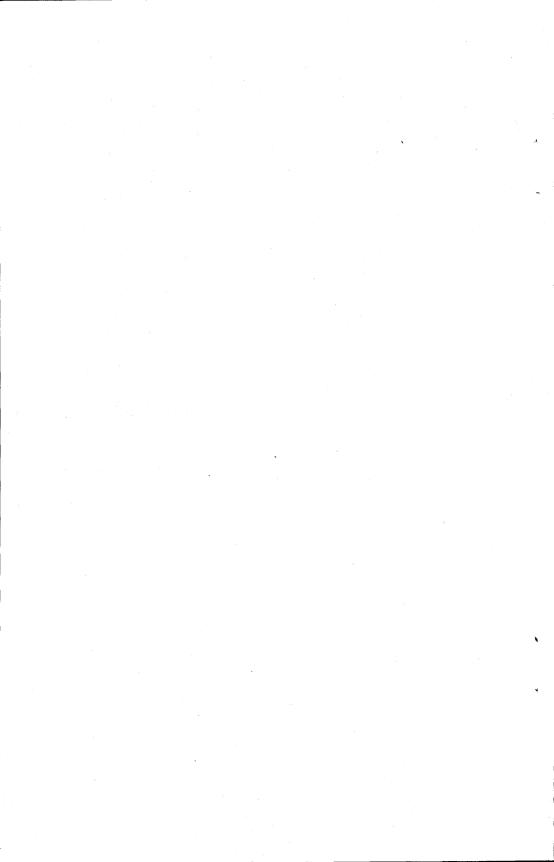

- c. Pine Camp. Up to 1937 Federal funds were available in sufficient amount to meet the cost of electric current for lighting at Pine Camp during the entire year. However, it was necessary, in 1937, to ask for an appropriation of \$600.00 for lighting during the period September 15-June 15, when the National Guard area of that Camp is not being used for training purposes. A similar request for a like amount has been made this year. The Works Progress Administration project involving the reconstruction of the landing field was completed and operated during last year. No Federal funds are expected in the near future for new construction in this Camp, in accordance with the policy announced last year by the Chief, National Guard Bureau. We depend on the Federal government for funds for all maintenance at Pine Camp.
- d. Fort Ontario. In line with the policy of the National Guard Bureau, no funds were available for new construction, and here again only a limited amount was available for maintenance. The gun shed constructed some fourteen years ago for the housing of guns, tractors, and other equipment, in use by the 244th Coast Artillery and the 258th Field Artillery, is in extremely bad condition. The removal and final disposition of much obsolete property at Pine Camp will shortly make available considerable storage space within the New York National Guard Camp area at that place, and with the consent of the Adjutant General of the State the guns now stored at Fort Ontario will shortly be moved to Pine Camp, to be drawn from there annually by the organizations using them in the vicinity of Fort Ontario, a distance of about sixty-five miles. This will preclude the necessity for the construction of a new storage building at Fort Ontario.
- 12. Administration. A continued and noticeable improvement in administration of all organizations of the New York National Guard clearly indicates that a high standard of efficiency has been reached. Improvement is also most evident in the care of property and in the maintenance of property records. I presume the Adjutant General will make mention in detail of the property inventory and audit now being conducted by a board of officers named at the request of the State of New York by the Commanding General, Second Corps Area. The result of this inventory and audit will clearly establish the property status of the New York National I believe that the accounting and handling of funds organizational, civil, and military—has improved. I am pleased to report the splendid progress of our monthly publication, the "New York National Guardsman." In the opinion of disinterested persons capable of expressing judgment, this publication leads all others of a similar character. Its development financially during the past year has been such that I feel that we can safely reduce

the price of subscriptions shortly. In this connection I might mention that I do not believe there is any organ of its kind producing monthly the same interest at the price charged: fifty cents per year, per man, to our personnel.

13. Recommendations. In my budget request, filed with the Director of the Budget in October, I have set forth the necessity for certain plant improvements at Camp Smith. The big need to make this a complete training centre is a suitable site, large enough to permit of field exercises involving regiments and brigades. As I mentioned previously in this report, we were fortunate, in 1938, in having allotted to us by the National Guard Bureau a sum sufficient to lease a fairly suitable plot in the vicinity of Lake Mahopac, but I do not believe that it is safe to depend on the continuance of such annual rentals of sites. A proper area should be purchased at the earliest possible date.

In closing, please let me express the sincere appreciation and deep gratitude of myself, and of the New York National Guard as a whole, to you for your keen interest, deep sympathy, and splendid support of our service. Also, we are grateful to the Legislature for their aid and assistance, and I must make of record the hearty co-operation and helpfulness of the Adjutant General of the State, the U. S. Property and Disbursing Officer, and the splendid group of instructors on detail from the Regular Army. I hope that our constant efforts and our future progress wil insure a continuance of this support.

WILLIAM N. HASKELL, Major General.

### APPENDIX B

# Report of the Commanding Officer, New York Naval Militia

- 1. In accordance with the provisions of Par. 6, R-80, Regulations for the Military Forces of the State of New York, the following report of the affairs of the New York Naval Militia for twelve months ending November 30, 1938, is submitted:
- 2. Strength. During the past 12 months the strength of the New York Naval Militia has been satisfactorily maintained. As of the first of December, 1937, there were 2,084 officers and men on the rolls. As of the first of December, 1938, there are 1,994 officers and men in our several units, which totals reflect a slight decrease. The highest point reached during the period of the report was during the month of August, at which time there were 2,045 officers and men enrolled. Some slight gains in employment may account in part for the very small loss and it is believed that recruiting during the 1939 period will produce a higher strength than has previously been attained.
- 3. Attendance. The attendance average at armory drills during the year is indeed commendable. The record reflects an average of 86.6, as compared with 85.2 during 1937. All organizations are endeavoring to obtain an even more favorable average of attendance at drills because this factor is of great importance in determining the efficiency of the New York Naval Militia in its Federal status.
- 4. Organization. The administration of our units has not changed during the period of report with the exception of the retirement of Captain Frank J. Bailey, upon reaching the statutory age of 64 years. His command was succeeded by Lieutenant Edwin J. Lebherz and it is believed that the continued high standing of efficiency of the Buffalo unit will be maintained. Captain Bailey's service was indeed most devoted and he was entirely deserving of the promotion on the Retired List to his present rank.
- 5. Training Duty. As has become the practice of the Navy Department, training duty affoat was performed by all organizations in both the battleships and destroyers of the Training Squadron under Federal orders. One thousand six hundred and seventy-three officers and men performed training duty which, according to all reports, was highly successful and beneficial to all concerned. These sea-going units visited ports on the Atlantic Seaboard and the West Indies during the training cruise. A new form of gunnery exercise was introduced in the schedule for the

first time outside of the United States Fleet on the Pacific Coast. This practice, as compared with the standard short range battle exercise, was much more advanced and decidedly more valuable in the preparation of our officers and men for their wartime mission. The results obtained by the units of the New York Naval Militia in this exercise were most satisfactory. A gun crew of the 1st Division, 1st Battalion, having made the highest score in this gunnery exercise was awarded the trophy for gunnery efficiency, as provided from the Josepthal Endowment Fund for such purposes. In addition to those officers and men who performed training training duty with pay, there were 49 officers and men from our various units, who received training duty afloat as volunteers and without remuneration therefore. Federal appropriations are still insufficient to provide pay and allowances for our full strength and it is commendable that these officers and men were willing and able to obtain this valuable training in non-pay status. The Marine Battalion performed its field training at the State Camp at Peeks-The Major General Commanding the New York National Guard made the facilities of the Camp available to the Marine Corps Battalion of the New York Naval Militia, and this organization was afforded a most advantageous training period during which it enjoyed the highest co-operation from officers of the National Guard and of the regular Army on duty at Camp Smith.

6. Small Arms Practice. One thousand six hundred and sixtyeight officers and men attended Small Arms Practice for the year 1938, as compared with 1,601 during the preceding period. Small Arms Firing was conducted at Camp Smith, Peekskill, N. Y., Fort Niagara, N. Y., Stony Point, N. Y., and at the Penfield Range, Rochester, N. Y. Figure of Merit Prizes for efficiency in Small Arms were awarded as follows: 1st prize, 11th Division, 9th Battalion, Buffalo, N. Y.; 2nd prize, 31st Division, New Rochelle, N. Y.; 3rd prize, 15th Division, Oswego, N. Y. Four hundred and ninety-nine officers and men were qualified for and awarded Marksman Decorations, 11 Experts and 24 Sharpshooters were also developed during the Small Arms year. Naval Militia teams participated in practically all of the State Matches held at Peekskill. N. Y., during early June. The Naval Militia Brigade Match was again won by the 31st Division, New Rochelle, N. Y. The Interstate Small Arms Trophy Match, sponsored by the U.S. Naval Reserve Officers' Association, Third Naval District, was won by the New York State Team. The New York Naval Militia was represented at the National Matches at Camp Perry, Ohio, where they turned in a commendable performance. There is a continued increase in Small Arms efficiency throughout all units. The Commanding General, Second Corps Area, U. S. Army, provided arrangements for the conduct of our exercises at Fort Niagara and at Stony Point, N. Y. Regular Army personnel were most helpful and courteous in connection with all details pertaining to arrangements.

- 7. Week-End Cruises. This form of training is most beneficial to both officers and men and the 1938 year was a highly gratifying one in this respect. Collectively there were 105 such cruises in various types of vessels which covered 13,054 miles of steaming and were manned by a collective total of 1,456 officers and men.
- 8. Athletics. Inter-divisional and inter-organization competitions of various character were engaged in by all organizations. The Whaleboat Race for the R.A.C. Smith Trophy, which competition is sponsored by the U. S. Naval Reserve Officers Association, Third Naval District Chapter, was again won by the 6th Division of the 2d Battalion, N. Y. N. M. This competition is open to units from New York, New Jersey and Connecticut.
- 9. Naval Academy Appointments. Fifty appointments are now authorized for enlisted men of the Naval Reserve-Naval Militia annually. A competitive examination is conducted and the highest fifty rated individuals are granted such appointments. This competition is on a country-wide basis. The following enlisted men of the New York Naval Militia were successful in winning admission to United States Naval Academy during the year 1938:

Albert G. Hillberg, S.2c., 1st Division, 1st Battalion. Richard J. Lord, Jr., S.2c., 1st Division, 1st Battalion. Leonard M. Clujat, S.2c., 2nd Division, 1st Battalion. George Hoppock, F.2c., 4th Division, 1st Battalion. George M. Mahler, A.S., 6th Division, 2nd Battalion. Alfred J. Donohue, S.2c., 8th Division, 2nd Battalion. Philip P. Wienick, A.S., 8th Division, 2nd Battalion. James D. Small, S.2c., 9th Division, 3rd Battalion. Dominic Tamburrano, S.2c., 11th Division, 9th Battalion. Robert M. Kunhardt, S.2c., 31st Division. Wallace S. Davis, S.2c., 31st Division. Wynkoop Kiersted, III., A.S., 31st Division.

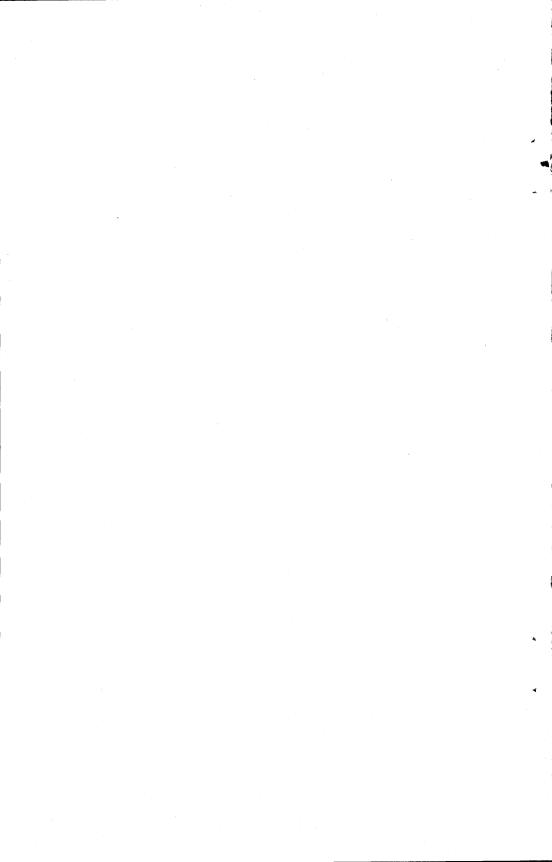

It is indeed gratifying to have twelve young men begin their Naval careers through the New York Naval Militia. Three of the cases mentioned above were given their appointments by Congressmen, although they qualified for their appointments in the Naval Reserve-Naval Militia competitive examination.

10. General Efficiency of the Brigade. Based on the report of the Federal Inspection Board and the reports received in connection with training duty performed afloat, I am pleased to affirm that the New York Naval Militia has made definite and satisfactory progress during the year. The general condition of the Command is most satisfactory. The 31st Division at New Rochelle, N. Y., having been rated third highest in standing in the entire United States and as a result thereof standing the highest in the State of New York, was awarded the Josepthal Trophy for Naval efficiency during the year 1938, valued at \$150. The Marine Companies are not inspected by the Naval Reserve Inspection Board but as a

result of the calculation of an impartial Board of Officers, Company "C", 1st Marine Battalion at Rochester, N. Y., was awarded the Josepthal Trophy for Marine efficiency during the year 1938 valued at \$75.

- 11. Armories. New armory facilities are still desirable at Buffalo, N. Y., Dunkirk, N. Y., Watertown, N. Y., Ossining, N. Y., and at Tompkinsville, Staten Island. During a severe storm the command at Staten Island suffered the misfortune of losing its floating armory, the U.S.T.S. Briarcliff, loaned to the State of New York by the Navy Department. This vessel was sunk at her moorings and steps will have to be taken without delay by the city of New York to provide this organization with suitable quarters.
- 12. Federal Legislation. On July 1, 1938 the Naval Reserve Law of 1925 was superseded by a new act which classifies the Naval Militia organizations as "Organized Reserve" in Federal status.
- 13. I wish to express my appreciation for the sympathetic interest in our organization as shown by His Excellency the Governor, the co-operation that this office has received from the Adjutant General, the aid of the legislative bodies, the Director of the Budget, and other officers of the State with whom we have had occasion to come in contact during the period of this report.

F. R. LACKEY, Rear Admiral, N.Y.N.M. Complete Military and Naval History of Officers of the Militia of the State of New York Who Were Discharged, Dropped or Who Died During the Year 1938 and So Stood on December 31, 1938

### **ABBREVIATIONS**

Note.— Unless otherwise specified, where an organization is shown in this register as 10th Infantry, 106th Field Artillery, etc., it will indicate a REGIMENT of Infantry or Field Artillery, etc. Letters or numbers in parentheses, viz.: (A) or (28) indicate unit of organization to which officer is assigned. The term "organization" will mean the regiment, brigade, division or higher command, also separate battalions, squadrons, companies or naval divisions. The term "unit" will mean the battalion, company, troop, battery, detachment or naval division of a regiment, brigade, division or higher command or of a separate battalion or squadron.
