### **REPORT OF THE ADJUTANT-GENERAL**

ALBANY, December 31, 1936

His Excellency HERBERT H. LEHMAN, Governor of New York, Albany, N. Y.

SIR:—Pursuant to section 17 of the Military Law, I submit herewith my annual report concerning the administration of the Division of Military and Naval Affairs of the Executive Department for the year 1936.

For convenience in reference the report is presented in sections dealing with the activities of the various bureaus of the division, as follows:

	Page Number
Executive	1
Finance	
Equipment and Supply	
Grounds and Structures	10
Personnel	30
War Records	35
Veterans and Soldiers Affairs	
Recruiting	<b>38</b>
Soldiers Bonus	
Files, Mail and Distribution	41

#### Executive

Strength.—The strength of the active military and naval forces of the State on this date is as follows:

		Warrant	Enlisted
	Officers	officers	men
National Guard	1,417	21	18,506
Naval Militia	148	• • •	1,745

A detailed report of strength of all components is included under the report of the activities of the Personnel Bureau.

Duty in Aid of Civil Authority.—Headquarters Company, 2nd Battalion, and Companies E and H, 10th Infantry, New York National Guard, were, by direction of Your Excellency, ordered to perform full time duty in aid of civil authority in the flood stricken areas of Binghamton March 18-20, inclusive, 1936.

National Guard Activity.—Other activities of the National Guard are covered in the annual report of the Commanding General, National Guard, attached hereto as Appendix A.

Naval Militia Activity.—The activities of the Naval Militia are covered in the annual report of the Commanding Officer, New York Naval Militia, attached hereto as Appendix B.

Small Arms Matches.—A complete report on the results of small arms matches conducted by or participated in by Personnel of the National Guard and Naval Militia, will be found in the report of the State Ordnance Officer attached hereto as Appendix C.

West Point Candidates .- This office annually conducts a competitive examination for candidates from the National Guard of this State for the privilege of taking the competitive entrance examination for cadetship at the United States Military Academy at West Point. Candidates to be eligible must be between the ages of 19 and 22 years, enlisted men of a federally recognized unit of the National Guard who have served therein not less than one (1) year prior to date of entrance to the academy. The examinations this year were conducted November 6 and 7 at Albany, Buffalo and New York City, for entrance to the academy July 1, 1937. Eight (8) vacancies were allotted to the State of New York and as a result of these examinations Your Excellency nominated the eighth (8) having the highest average of proficiency. Fifty-two (52) candidates participated in these examinations. It is hoped that prior to the entrance examination to be conducted in March, 1937, for entrance to the academy in July, 1937, that additional vacancies will be allotted to the State of New York as requested by Your Excellency in a letter to the Adjutant-General of the Army. The practice of allotting cadetships to soldiers of the National Guard was authorized by Congress May 4, 1916.

Changes in Personnel.—There were no changes in officer personnel on duty at this office during the past year.

Hines Attendance Trophy.—The Colonel Frank H. Hines Attendance Trophy (National Guard) was won by the 212th Coast Artillery (Anti-Aircraft), for attaining the highest percentage of attendance during the training year. The percentage was 97.27. For percentages attained by other organizations of the National Guard reference is made to General Orders No. 18, Headquarters, New York National Guard, dated December 4, 1936.

#### **Finance Bureau**

Following is a statement of financial operations for the fiscal year ending June 30, 1936, including State appropriations for the general expenses of the military and naval establishment, expenses for armory maintenance and Federal funds allocated and expended during the same period:

### BUREAU OF EQUIPMENT AND SUPPLY

1. The year 1936 was a period of increased activity at the New York State arsenal. Additional motor vehicles were received from the War Department and distributed, and there are now more than 600 motor vehicles of various description throughout the New York National Guard. The 156th Field Artillery was completely motorized during the year.

2. The issue of serge and elastique uniforms were completed throughout the State. The usual 10 per cent surplus, however, was not supplied by the manufacturer, but every effort is being made to obtain this much needed surplus. A limited number of the new cotton breeches (bombay cloth) were received, and are issued as replacements are needed. It is anticipated that a sufficient quantity of the breeches will become available to equip the entire National Guard within the next three years. Bombay coats will not be issued. A limited number of pairs of enlisted men's boots were received this year and were distributed in accordance with the schedule furnished by the Commanding General. We are advised by the office of the Quartermaster General that a new roll type collar overcoat is being studied, but that no definite decision has been reached.

3. W.P.A. funds were made available during 1936 and were expended as follows:

#### NEW CONSTRUCTION

#### EXPLANATION

Details with respect to requirements indicated above, are as follows:

Syracuse Artillery.—Present structure rented and is inadequate and unsuited for the training of a battery of field artillery and does not provide the necessary protection to Federal property against fire and theft. A modern armory should be built for this unit at a cost of \$325,000, plus cost to the county for land.

Utica Infantry.—Present structure built in 1894 (is 42 years old). Originally built to accommodate two infantry units. At present occupied by battalion headquarters and three infantry units. It is estimated that additions could be made to this armory which would provide adequate quarters at a cost of \$275,000, plus cost to the county for land.

Middletown.—Present structure built in 1890 (is 46 years old). Originally built for one infantry unit, now occupied by a battery of field artillery. An addition to this armory should be provided at a cost of \$150,000.

Mount Vernon.—Present structure built in 1898 (is 38 years old). Originally built for one infantry unit. At present occupied by a battery of field artillery. Is the smallest armory and entirely inadequate for present day requirements. A new armory should be provided at a cost of \$300,000.

Poughkeepsie.—Present structure built in 1891 (is 45 years old). Originally built for one infantry unit. At present occupied by two units of field artillery. A new armory should be provided at a cost of \$300,000.

*Rome.*—Present structure rented and inadequate, unsuited for proper training of a medical unit and does not provide the necessary protection to Federal property against fire and theft. A new armory should be provided to a cost of \$150,000.

Buffalo Naval Militia.—The 9th Battalion, Naval Militia, is at present occuping quarters in the armory of the 174th Infantry. This building is overcrowded and a new armory should be provided at a cost of approximately \$300,000.

Auburn.—Present structure built in 1873 (is 63 years old). Originally built for an infantry unit. At present occupied by three infantry units. A new armory should be provided at a cost of \$400,000, plus cost to the county for land.

Geneseo.—Troop I, 121st Cavalry is now occupying a converted farm house which is entirely inadequate for the training of the members. A modern fireproof administration building should be provided at a cost of \$100,000.

Dunkirk.—A separate division of the Naval Militia is occupying rented quarters which are not adequate for the proper training of the personnel. A modern armory should be provided at a cost of \$250,000, plus cost to the county for land.

 $O_{ssining.--A}$  separate division of the Naval Militia is occupying rented quarters which are not adequate for the proper training of the personnel. A modern armory should be provided at a cost of \$250,000, plus cost to the county for land.

Yonkers.—This armory was originally constructed to house one infantry unit. At present occupied by three units of Special Troops. An addition to the administration building should be provided at a cost of \$50,000.

Albany Cavalry.—An addition, at a cost of \$50,000, should, be made to this armory in order to provide quarters for Brigade Headquarters and also to provide storage space for motor vehicles.

*Rochester Infantry.*—An addition, at a cost of \$150,000, should be provided for this armory in order to properly house the units therein stationed.

Niagara Falls.—An addition to this armory is necessary in order to properly house the units therein stationed. It is estimated this addition could be built for \$150,000.

Appropriations made by the Legislature for 1936, for armories, etc.:

### MAINTENANCE AND REPAIRS

### 3rd Brigade District

Maintenance	\$562,937 89
	57,237 00
Repairs	01)201 00

### 4th Brigade District

Maintenance	\$541,234 00 72,370 00
Total	\$1,233,778 89

### NEW ARMORY

The new armory at Corning, New York, to house the 105th Hospital Company, 102nd Medical Regiment, was completed March 31 of this year and rented quarters which housed this unit have been abandoned on this day.

This armory was dedicated September 12, 1936, by the undersigned as Your Excellency's representative with appropriate and inspiring ceremonies. The participation of the citizens of Corning in these ceremonies was most gratifying and they feel that additional educational and social advantages have now been provided for this community.

### Armory Maintenance Funds

The statutory requirements of chapter 558, Laws of 1913, under which all counties of the State outside of the city of New York are divided into two brigade districts, and the cost of renting, repairing, equipping, furnishing, and maintaining armories outside the city of New York, is apportioned by the Adjutant General among such counties according to the aggregate amount of assessments for each county within the brigade districts as fixed by the State Board of Equalization and resulted in the payment by these counties into the State treasury for the maintenance of armories in each of the brigade districts, of the following sums for the above purposes for the fiscal year beginning July 1, 1937, and ending June 30, 1938.

#### ARMORIES—(continued)

Total armories 102.

Total number of armories leased for subdivisions of the National Guard and Naval Militia unable to secure accommodations in the foregoing is 5.

The active military establishment of the State is housed in the 87 buildings indicated above.

Storage facilities are provided at the United States Naval Reservation, Sackets Harbor, for material of the 13th Fleet Division, Naval Militia, and at Utica for units of the 10th Infantry. Stables were provided at Middletown, Mt. Vernon, and Poughkeepsie, for units of the 156th Field Artillery, until November 1, 1936.

#### ARSENALS, ETC.

Arsenals, camp grounds and rifle ranges, owned by the State, are as follows:

Brooklyn.—State Arsenal, erected 1926. Used by the Adjutant General of the State as an arsenal and storeroom. Approximate valuation \$1,000,000. Floor surface, 166,000 square feet.

*Peekskill.*—State Camp Ground and Rifle Range. For use of infantry and such other troops as may be designated. Approximate valuation of land and buildings \$235,000. Approximate area 1,886 acres. One hundred and eighty-seven targets.

*Rensselaer.*—Rensselaerwyck Rifle Range. For the use of troops stationed at Albany, Cohoes, Troy, and such other troops as may be designated. Approximate valuation \$25,000. Approximate area 46 acres. Thirty targets.

Buffalo.—Kenilworth Pistol Range. For the use of troops stationed at Buffalo. Approximate valuation \$25.000. In addition to the above, camp grounds are provided in the

In addition to the above, camp grounds are provided in the State for cavalry, artillery, and air service on Federal reservations at Great Bend, Oswego, and Fishers Island.

### RIFLE RANGES

Field Rifle Ranges for the use of troops of the National Guard and Naval Militia are leased by the Federal government as follows:

STATION OF TROOP	Annual rental	Location	Num- ber of tar- gets	Ranges (yds.)
Amsterdam. Auburn. Binghamton. Elmira. Geneva. Glens Falls. Gloversville. Hoosick Falls. Jamestown. Mohawk. Malone. Medina. Olean. Oneonta. Oswego. Saratoga. Schenectady. Syracuse. Utica. Geneva. Glens Falls. Town of Johnstown Hoosick Falls. Town of Frewsburg. Town of Herkimer. Malone. Medina. Olean. Oneonta. Oswego. Saratoga. Town of Colonie. Town of Manlius. Town of Frankfort. Walton.	334734443333445 	200 to 800 200 to 600 200 to 1,000 200 to 1,000

\* Lease for a target range at Oneonta has been submitted to the National Guard Bureau but has not yet been approved. Rental is \$175 per annum.

Landing Field.—A landing field for Air Corps of the National Guard is leased by the Federal government at Fulton, N. Y., at an annual rental of \$250.

Total leased rifle ranges, 20.

Total floor space of all buildings, exclusive of structures at camps and rifle ranges is 6,576,030 square feet.

The approximate valuation of military grounds and structures owned by the State and city of New York is \$39,153,893.

During the past year this office received very hearty cooperation from the Works Progress Administration and received Federal funds in the sum of \$411,866.64 for which grants we contributed as sponsor of the projects the sum of \$43,804.96 which was paid from appropriations for repairs, etc. to armories in the Third and Fourth Brigade Districts which moneys were assessed and collected from the counties comprising these districts.

Projects totaling \$23,040.10 Federal funds and calling for similar contribution in the sum of \$11,293.50 on our part were submitted to the W.P.A. but up to the present time have not been approved.

Projects in the sum of \$134,801.71 Federal funds and a contribution on our part of \$6,664.17 were disapproved for the reason that the W.P.A. required a more substantial contribution on the part of the sponsor.

The projects mentioned above are shown in detail in the following tables and do not include Federal contribution to city of New York.

In addition to the above this office was enabled to have the service of one architect, two estimators and three stenographers who assisted in a very marked degree in getting out the necessary drawings, specifications and the quantity of details in connection with the construction and repair program of this office. The employees who came from the above source are conscientious and efficient.

Projects were submitted and approved both by Washington and the State Administrator for the following:

PROJECT	Character of work Federa funds		Sponsor's contribu- tion	Total

### **Personnel Bureau**

The functions of the Personnel Bureau are those outlined in the report of the activities of this bureau for 1936.

Turnover in National Guard Personnel.—During the year commencing July 1, 1935, and ending June 30, 1936, 9,534 persons enlisted or re-enlisted in the National Guard. Of this total 5,858 or sixty-two per cent (62%) were recruits enrolling for the first time in the National Guard. The remainder had prior service in the National Guard and most of them re-enlisted immediately upon expiration of their former enlistments. With an average active enlisted strength of 18,929 during that period this would indicate an annual acquisition of approximately thirty percentum (30%) new men (recruits) and a net annual turnover of fifty percentum (50%) enlisted personnel. Monthly performance by organization was as follows:

à

Enlisted Men with Dependents.—The enlistment or re-enlistment in the National Guard of married men or of persons having others dependent upon them for support is discouraged by the War Department and by National Guard Regulations. Such persons must first obtain the consent of Your Excellency before such enlistments or re-enlistments are permissible. The attitude of the War Department is not unjustified when it is recalled that when the National Guard entered United States service for the World War a large number of enlisted men were ordered discharged because of dependency, thereby reducing the numbers to such an extent as to work a hardship on organization commanders in the matter of recruiting. A recent canvass indicates that approximately twentythree (23) per cent of the enlisted personnel of the active National Guard have dependents, and measures have been adopted whereby this percentage will be gradually reduced to a minimum.

Assignment of Reservists.—Pursuant to General Orders No. 16, this office, dated December 2, 1935, effective January 1, 1936, all personnel of the Inactive National Guard (formerly known as the National Guard Reserve) were assigned in inactive statuses to war table vacancies in the same organizations with which they formerly served in an active status. Heretofore the policy had been to "Pool" such reservists at this office and at one time there were over 2,000 names of enlisted men on file who would have to be notified in event of an emergency calling the reserves to active service. As these men were scattered all over the State and could be identified only by their former organization associates, it was believed that a system fixing the responsibility for locating these men in eventualities on their former officers was the most practicable method. The plan has been in effect for one year and has proved most satisfactory.

Elimination of Annual Muster Rolls.—Pursuant to General Orders No. 10, this office, dated September 23, 1935, no State Muster Rolls were rendered by organization in 1936, the information heretofore contained in such rolls now being supplied through a copy of a Report of National Guard Duty Performed (generally referred to as the Form No. 100 Report) rendered monthly under regulations of the National Guard Bureau of the War Department.

Changes in Organization of the National Guard. 1. Pursuant to General Orders No. 1, dated January 8, 1936, the 156th Field Artillery was converted from horse to truck drawn, effective as of April 1, 1936.

5

2. Pursuant to General Orders No. 3, dated February 24, 1936, the station of the Headquarters, 51st Cavalry Brigade, was changed from 1579 Bedford Avenue, Brooklyn, New York, to 1339 Madison Avenue, New York City, New York.

3. Pursuant to General Orders No. 6, this office, dated April 1, 1936, the 27th Division Quartermaster Train was reconstituted a

quartermaster regiment and redesignated the 102nd Quartermaster Regiment, the 102nd Motorcycle Company, Special Troops, 27th Division, being redesignated Company F, 102nd Quartermaster Regiment. For redesignations of units of the 27th Division Quartermaster Train see above quoted order.

4. Pursuant to General Orders No. 7, dated April 2, 1936, the street address of the 104th Field Artillery (less 1st Battalion), was changed from 92-10 172nd Street, Jamaica, L. I., to the new armory at 168th Street and 93rd Avenue, Jamaica, L. I., effective April 5, 1936, and the street address of the 105th Hospital Company, 102nd Medical Regiment, was changed from 56 East Market Street, Corning, New York, to the new armory at North Pine Street, Corning, New York.

5. Pursuant to General Orders No. 12, this office, dated April 1, 1936, the address of the 369th Infantry, was changed from 30 West 143rd Street, New York City to 2365 Fifth Avenue, New York City (corner 142nd Street), its new administrative quarters in the same armory having been completed and ready for occupancy.

6. Pursuant to General Orders No. 19, dated November 23, 1936, the Headquarters Company, 1st Battalion, 10th Infantry, stationed at Utica, New York, was disbanded effective November 30, 1936, and a new company by that designation organized at Albany, New York, effective as of December 1, 1936.

7. Pursuant to General Orders No. 21, dated December 1, 1936, the 102nd Medical Regiment units were redesignated lettered companies instead of Collection, Ambulance and Hospital units. For further details see order quoted. The new designations become effective January 1, 1937.

8. Pursuant to General Orders No. 22, dated December 15, 1936, the station of the 104th Hospital Company, 102nd Medical Regiment was changed from 355 Marcy Avenue, Brooklyn, New York, to State Armory, 168th Street and 93rd Avenue, Jamaica, Long Island, and the station of Company F, 102nd Quartermaster Regiment, was changed from Yonkers, New York, to State Armory, 355 Marcy Avenue, Brooklyn, New York, thereby causing the whole of the 102nd Quartermaster Regiment to be stationed under one roof.

Changes in Organization of the Naval Militia.—As directed in General Orders No. 11, dated July 10, 1936, the station of the 1st Battalion, New York Naval Militia, was changed from Foot of West 98th Street, New York City, to Foot of West 136th Street, New York City, effective July 14, 1936.

Field Training, National Guard.—The dates and places of field training of the various units of the National Guard are as shown in General Orders No. 8, this office, dated April 30, 1936. C

Field Training, Naval Militia.—The field training of the Naval Militia units was carried out as directed in General Orders No. 4, this office, dated March 13, 1936.

Army Service Schools.—The following officers and enlisted men of the New York National Guard graduated from Service Schools attended under authority of the Secretary of War during 1936:

Command and General Staff School, Fort Leavenworth, Kas.— National Guard and Reserve Officers Course, March 16, 1936 to June 18, 1936: Major Christopher B. Degenaar, 105th Infantry.

Command and Staff School, 2nd Corps Area, Camp Dix, New Jersey.—National Guard Officers' Course, November 9, 1936 to November 21, 1936: Colonel Charles N. Morgan, 121st Cavalry; Colonel George F. Terry, 71st Infantry; Lieutenant Colonel Samuel D. Davies, 106th Infantry; Lieutenant Colonel James M. Roche, 369th Infantry; Major James B. Crowley, 165th Infantry; Major Henry R. Drowne, Jr., 51st Cavalry Brigade; Major Malcolm W. Force, 244th Coast Artillery; Major Henry G. Fowler, 244th Coast Artillery; Major Lindsay J. Griffith, 71st Infantry; Major John D. Humphries, 245th Coast Artillery; Major Joseph A. McDonough, 93rd Brigade; Major -Arthur T. Smith, 108th Infantry; Major Thomas C. Dedell, 10th Infantry; Major William H. Kelly, 165th Infantry; First Lieutenant James F. Fogarty, 71st Infantry.

Cavalry School, Fort Riley, Kas.-Non-commissioned Officers' Course, September 2, 1935 to February 28, 1936: First Sergeant Stephen Bardey, Machine Gun Troop, 121st Cavalry. Non-commissioned Officers' Course, September 2, 1936 to November 25, 1936: Sergeant Daniel B. Lamberti, Headquarters Troop, 51st Cavalry Brigade.

Chemical Warfare School, Edgewood Arsenal, Md.—Basic course, October 11, 1936 to November 21, 1936: First Lieutenant Christopher S. Phelan, Headquarters Battery & Combat Train, 2nd Battalion, 104th Field Artillery.

Coast Artillery School, Fort Monroe, Va.—National Guard and Reserve Officers Course (Anti-Aircraft Artillery), September 8, 1936 to November 28, 1936; Captain Walter C. Kolish, 212th Coast Artillery; First Lieutenant Adolph L. Ramon, 212th Coast Artillery. Enlisted Specialists (Electrical) Course, September 14, 1936 to December 18, 1936; Staff Sergeant John J. Nolan, 245th Coast Artillery.

Engineer School, Fort Belvoir, Va.—National Guard and Reserve Officers Course, March 6, 1936 to June 5, 1936; Second Lieutenant Herbert H. Still, 102nd Engineers.

Field Artillery School, Fort Sill, Okla.—Battery Officers' (Spring) Course, March 2, 1936 to May 30, 1936; First Lieutenants Joseph J. Murtha, 105th Field Artillery; Roger S. Ellis, 106th Field Artillery; Benjamin Weisberg, 258th Field Artillery and Second Lieutenant Sidney C. Ronald, Jr., 106th Field Artillery; (Fall) Course, September 14, 1936 to December 12, 1936; First Lieutenants Milton W. MacDonald, 104th Field Artillery and James W. Heydenreich, 258th Field Artillery. Communications Course, February 24, 1936 to June 27, 1936; First Sergeant Morris Dolitsky, 105th Field Artillery. Infantry School, Fort Benning, Ga.—Company Officers' Course, February 24, 1936 to May 23, 1936: Captains William M. Van Antwerp, Headquarters, 53rd Brigade; Edwin W. Ensign, 10th Infantry; Leslie M. Jensen, 105th Infantry; Douglas R. Crier, 369th Infantry; First Lieutenants Alfred E. DeCesaris, 14th Infantry; Frank M. Foley, 14th Infantry; Milton C. Baillie, 106th Infantry; Joseph J. Farley; 107th Infantry; William A. Reid, 107th Infantry; Athur J. Christiansen, 165th Infantry; John L. Fisk, 165th Infantry; Second Lieutenants Joseph R. Lewis, 71st Infantry; Gordon M. Roberts, 105th Infantry and Cato L. Baskerville, 369th Infantry. Communications Course, March 2, 1936 to June 6, 1936; Master Sergeant Warren E. Neu, Headquarters Company, 93rd Brigade; Sergeant Joseph C. Garuskis, Headquarters Company, 2nd Battalion, 10th Infantry; and Sergeant Lincoln A. McKee, Headquarters Company, 2nd Battalion, 105th Infantry.

Medical Field Service School, Carlisle Barracks, Pa.—National Guard and Reserve Officers' Course, October 14, 1936 to December 1, 1936: First Lieutenant Joseph G. Welling, M. C., 107th Infantry. Non-commissioned Officers' Course, September 14, 1936 to November 14, 1936; Sergeant Frank Harte, Headquarters & Service Company, 102nd Medical Regiment. Ordnance Field Service School, Raritan Arsenal, Metuchen, N.

Ordnance Field Service School, Raritan Arsenal, Metuchen, N. J.—Maintenance Course, March 2, 1936 to May 29, 1936; Lieutenant Colonel Henry E. Suavet, O. D., Headquarters, 27th Division.

Quartermaster School, Philadelphia, Pa.—Tactical Course, January 15, 1936 to March 27, 1936; Captain George G. Berry, Q.M.C., Headquarters, 27th Division.

Quartermaster Corps Motor Transport School, Holabird Quartermaster Depot, Baltimore, Md.—National Guard and Reserve Officers Course, September 14, 1936 to November 7, 1936; Captain Bert L. Lindquist, 258th Field Artillery; Captain Owen F. Murphy, 102nd Quartermaster Regiment; First Lieutenant Michael B. Woytas, 102nd Quartermaster Regiment, and First Lieutenant Ralph W. Speiser, Jr., 156th Field Artillery.

Tank School, Fort Benning, Ga.—Care, Operation and Maintenance Course, for Caretakers, November 1, to 21, 1936; Staff Sergeant Frederick Frank, 27th Tank Company, Special Troops, 27th Division.

#### Awards of Decorations

Medal for Valor.-No awards of the Medal for Valor were made during the year 1936.

Conspicuous Service Cross.—Under the provisions of section 247, Military Law, thirty-nine (39) Conspicuous Service Crosses were awarded to various applicants during the year 1936.

Long and Faithful Service.—During the year 1936, 492 Decorations for Long and Faithful Service were awarded to various applicants divided into the following classes:

				service)
First Class	(25)	years	of	service) 11
Second Class	(20	years	of	service) 18
Third Class	(15)	years	$\mathbf{of}$	service)
Fourth Class	(10	years	$\mathbf{of}$	service)

A large number of applications for medals of the Fourth to Second Classes are on file pending approval of the work of a new manufacturer who won the award last July. This accounts for the great difference in the number of decorations awarded this year as against 1935.

#### **Bureau of War Records**

The activities of this bureau have materially increased during the past year. This has been due to the passage of the government bonus bill, grave registration projects and soldiers' relief. Hundreds of soldiers of the World War who have lost their discharge papers or mislaid them apply to this office for the dates of their service so as to be able to fill out their bonus application blanks. Thousands of records, principally of the War of 1812 and Civil War, have been furnished the heads of grave registration projects not only in New York State but in the states of Massachusetts, Connecticut, Pennsylvania, Wisconsin, Illinois and Iowa. Large numbers of communications have been received from chapters of the American Red Cross and other relief organizations for records of soldiers who have applied for relief.

The office force is still engaged in the work of compiling World War records by counties. This work has been completed up to the letter R. In connection with this work, large numbers of errors have been found on the record cards received from Washington and this office is constantly in communication with the Adjutant General's Office of the War Department for correct data, where errors have been found.

The battle flags and relics in the eastern corridor of the second floor of the capitol still prove interesting to the large number of visitors to the Capitol and are in a good state of preservation.

## Veterans and Soldiers Affairs

#### PENSIONS AND CLAIMS.

## Blind Veterans' Fund

There are on this date 148 veterans of all wars who receive \$500 per annum, by reason of blindness under Article 1-B of the Military Law. During the past year 14 new applications were approved and 4 blind pensioners died.

# ANNUAL REPORT OF THE ADJUTANT-GENERAL

Actual payments for relief of sick and disabled veterans to date amount to \$1,955,596.19. Expenses of relief commissioners and administration to date are \$310,969.74. The expendable balance is \$139,542.78 of which \$50,000 is unrequisitioned from the State Comptroller, \$29,660.44 is in the hands of the various relief commissioners and \$59,882.34 is in the bureau fund.

The bureau is represented by a resident commissioner in each assembly district throughout the State. The commissioner makes the necessary investigation to determine the eligibility of an applicant to be given relief. He prepares all papers, makes the relief payments, renders the periodical reports and returns and discharges the multiplicity of duties that must necessarily result from the position.

These gentlemen serve without pay; they give their time and efforts to the work without recompense and altogether are rendering a service to the State of a high patriotic value.

## **Recruiting Bureau**

Recruiting during the year has been normal and personnel joining in 1936 continues to represent the best type of citizens in the respective communities where organizations of the National Guard and Naval Militia are stationed.

# Soldiers' Bonus Bureau

Under constitutional authority a bonus for New York veterans of the World War was provided pursuant to chapter 19, Laws of 1924. The sum of \$45,000,000 was realized from the sale of bonds authorized by law, this sum having been augmented by premiums amounting to \$659,565, the latter sum also being appropriated for bonus purposes under chapter 208, Laws of 1925.

A commission, consisting of the Adjutant General, the Comptroller, the Treasurer and the Attorney-General, administered the disbursement until April 22, 1926, when its functions were absorbed by the Adjutant General.

Each eligible veteran, upon application, received the sum of \$10 for each month of service with the colors, between April 6, 1917 and November 11, 1918, with \$150 as the mavimum payment. Under chapter 209, Laws of 1925, an additional appropriation of \$2,500,000 was made. Chapter 26, Laws of 1925 added the next 1917 and November 11, 1918, with \$150 as the maximum payment. of kin to those who were killed or died in the service or prior to February 28, 1924, as eligible to receive the bonus. Under chapter 267, Laws of 1926, a further appropriation of \$300,000 was approved. Chapter 676, Laws of 1931, extended the time for filing claims to July 1, 1932, and made an appropriation of \$250,000. At an extraordinary session of the Legislature in 1931 to carry out the provisions of an act creating a temporary emergency relief administration, the sum of \$584,000 was appropriated by chapter 799 for

# ANNUAL REPORT OF THE ADJUTANT-GENERAL

## Pensions

There are 66 persons pensioned by this State under section 220 of the Military Law which provides compensation for permanent disatility inchrred in line of duty in the National Guard or Naval Military under lawful orders. Since the last report one new pensioner has been added to this list and two died.

## Claims

During the year ten claims for pay and care on account of disability incurred by members of the National Guard or Naval Militia in line of duty, under section 223 of the Military Law, were afforced.

## VETERANS' RELIEF BUREAU

Urder chapter 589, Laws of 1922, a commission to be known as the New York Veterans' Relief Commission, consisting of the Adjutant General, to be chairman thereof, the Comptroller and the Attorney-General, was created for the purpose of distributing celief to sick and disabled veterans of the World War. For the Surpose of administering this act \$1,000,000 was appropriated. Under chapter 326, Laws of 1923, this commission was abolished and a separate bureau was created in the office of the Adjutant General to be known as the Bureau for the Relief of Sick and Disabled New York Veterans. Under this chapter an additional million dollars (\$1,000,000) was approved. Of this total \$68,891.29 reverted to the State treasury through lack of reappropriation. Under chapter 605, Laws of 1928, chapter 41 of the Laws of 1909 entitled 'An act in relation to the militia, constituting chapter thirty-six of the consolidated laws," was amended by adding Article 1-A, thus establishing the administration of relief as part of the Military Law.

In order to carry out the provisions of the above Law, the Legislature under chapter 708, Laws of 1931, appropriated \$75,000. In 1932 \$100,000 was obtained through the Temporary Emergency Relief Administration from funds appropriated under chapter 567. In 1933, \$50,000 was appropriated under chapter 120 and in 1934 an appropriation of \$200,000 was received from the Temporary Emergency Relief Administration from funds appropriated under chapter 273. In addition the Legislature appropriated \$50,000 under chapter 20, making the gross total available \$2,406,108.71.

Since the institution of this bureau many thousand requests for relief from sick or disabled, needy, unemployed, honorably discharged veterans of the World War have been received. These applications were thoroughly investigated and a majority of them were rejected due to the fact that they did not come within the meaning of our law. However, to date 11,491 cases were approved of which 9,954 are active or have been paid the maximum allowed under our Law and 1,537 are in our rejected files for various reasons. the payment of bonuses, \$30,000 of which v, made available for administration expenses. Under chapter 1 or, Lavs of 1933, an additional appropriation of \$90,000 was made. for honus payments and \$25,000 for administrative expenses. If he unexpended balances of these appropriations were reapprediced each year by the Legislature and were made available in 44 to Exsentive Budget of 1936, Chapter 15, Laws of 1936. This approximate and these reappropriations and refunded the unexpended take these reappropriations and refunded the unexpended take these reapproavailable for the year beginning July 1, fl936. This action of the Legislature automatically closes the bureau on June 30, 1957,  $s_{\rm ra-}$ suspends the payment of bonuses on that date. During the ope36, tion of the bureau to the date of this report, December \$1, 19 ut there has been appropriated for bonus parposes \$49,418,565 or of which there has been paid in bonuses and administrative cost the sum of \$49,341,712.41 and in a refund to the General Fun-\$72,824.92. Leaving a balance of \$4,027.67.

\$72,824.92, leaving a balance of \$4,027.67.
Under the original law no claims could be received after May 1, 1927. The bureau reopened April 23, 19341, and closed for the receipt of applications July 1, 1932, during when h period 10,135 new claims were received.

The total claims received was 427,799 or 82 per cent of the 518,864 veterans credited to the State. Of the number received 9,226 or .0215 per cent were rejected as not entitled to the tor as There are still 4,954 or .0115 per cent of the daims received await ing action by the bureau due to the delay of the veteran in supplying required data. Of the total received, 113,619 or 96 per cent were paid at an average cost of \$1.85 per chaim. Of the total veterans entitled to make application, 91,065 or 18 per cent failed to make a claim although 10,161 of this number applied for blanks. Their request, however, had to be denied owing to the fact that they applied after the time limit, July 1, 1932. The average payment per claim was \$117.23 or 78 per cent of the maximum amount allowed, \$150. Of the total claims received 25,257 applicants were not credited by the authorities in Washington as having enlisted from the State of New York.

During the operation of the bureau many activities developed, other than the payment of the bonus. Being an office of record constant inquiries are being received from governmental, civic and veteran agencies and private sources relative to pertinent information regarding the service of veterans and certified copies of papers submitted with bonus applications for use in furthasig claims for compensation, benefits and for other and varied *fposes*. From experiences with the records of Civil and Spannishwars, which are still active, undoubtedly the records of this burre *w*ill remain in demand for some time to come.

# ANNUAL REPORT OF THE ADJUTANT-GENERAL

# Bureau of Files, Mail and Distribution

During the year there were 326 issues of publications on training, army regulations, and other pamphlets received from the Federal government by this office and distributed by this bureau to the units of the National Guard of this State, in addition to the necessary F forms required by the National Guard. There were also cau to be printed and distributed all State forms used by the Nation... Guard in addition to the General Orders, Bulletins, and Training Circulars originating in this office and in the office of Division Headquarters.

# Recommendations

It is earnestly recommended that during the coming year adequate funds be made available for the resumption of our armory construction program.

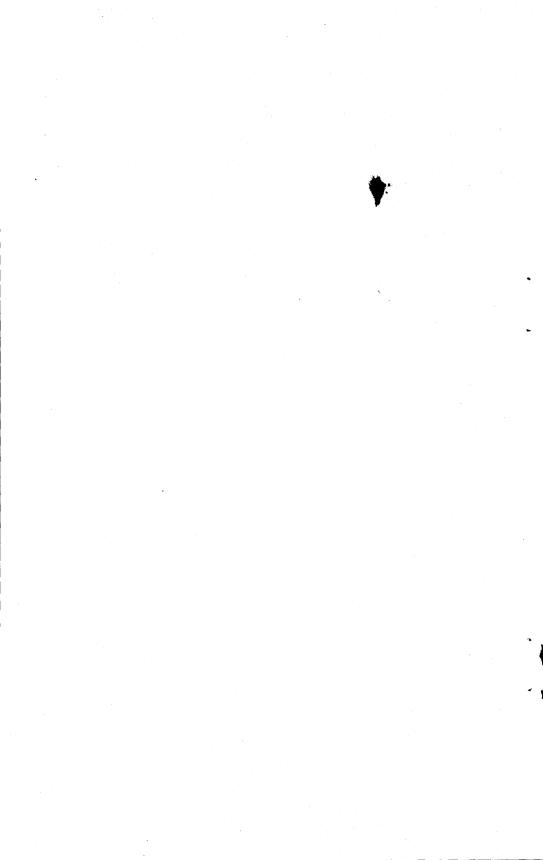

## Conclusion

In conclusion may I express in the name of the officers and enlisted men of the Military and Naval Forces of the State their sincere gratification over the outcome of the recent election whereby there was continued in office as our Commander-in-Chief one who has proven beyond any doubt his capacity for leadership of the largest body of civilian soldiers and sailors in the United States, thus insuring a continuation of the sympathetic interest that has heretofore been so apparent on the part of Your Excellency.

Respectfully submitted,

WALTER G. ROBINSON,

Brigadier General, The Adjutant General.

# APPENDIX A

# Report of the Commanding General, New York National Guard

The following report on the affairs of the New York National Guard for the calendar year 1936 is made in accordance with paragraph 6, Regulations No. 80, State of New York.

1. General. It can be said that the New York National Guard has been able to continue satisfactory progress during the year. A considerable portion of our force is still without permanent employment but despite this, training efficiency has advanced and morale is high. As reported to you last year, a number of our organizations were ordered to Pine Camp to participate in the First Army maneuvers, and the three Coast Artillery regiments plus one Field Artillery regiment were sent to Camp Smith for basic training instead of Fort Ontario and Fort H. G. Wright. It might have been expected that certain features of the training of these organizations might have suffered a let-down due to this change in character of training, but I am pleased to report that the result at the end of the 1936 field training was most satisfactory.

2. Strength. During the past 12 months, the average monthly strength of the New York National Guard was 20,340 officers, warrant officers and enlisted men, as compared to 20,084 in 1935. The lowest point reached during the year was 19,987 and the highest, 20,937. The maximum strength allowed by the War Department continued at the figures set in 1935, 21,006.

A slight change in the restriction on enlistments prior to field training was made this year. Heretofore, we permitted enlistments up to 90 days prior to field training, but changed this in 1936 sò as to require but 60 days' prior armory service. This change was beneficial to unit commanders and did not affect the state of training.

3. Attendance. The percentage of attendance of armory drills during the past 12 months was 89.23 as compared to 86.68 for 1935. This is a splendid improvement for which our organization commanders are to be commended.

I have continued the policy of forbidding the confinement of enlisted men for absence from drill.

Our attendance at field training at all camps during 1936 was 95.03, as compared with 93.52 the year previous. This is the second highest mark reached by the New York National Guard since the World War.

The Colonel Frank H. Hines Attendance Trophy awarded annually to the organization having the highest percentage of attendance at all armory drills, field training and the annual inspection, was won by the 212th Coast Artillery (A.A.), with a percentage of 97.27. The 106th Field Artillery, which won this trophy in 1935, was second with a percentage of 96.58. The 71st Infantry was again third, with a percentage of 96.25. Thirty-four out of a total of 35 organizations finished this competition with a percentage of 90 or better.

Organization. During the past year, the War Department 4. authorized a change in the organization of the 27th Division Quartermaster Train, which change resulted in the reconstitution of this organization as the 102nd Quartermaster Regiment. The new regiment was made up of the component units of the old Train, with the addition, by transfer, of the 102nd Motorcycle Company, Special Troops, 27th Division, which became Company F of the new regiment and was designated as the "car company." The station of this company was retained at Yonkers, N. Y., but I have recommended that it be transferred to Brooklyn, thereby placing the entire regiment in one armory. To make room for this company in the Marcy Avenue armory, Brooklyn, I have recommended that the station of the 104th Hospital Company, 102nd Medical Regiment, be changed to the armory of the 104th Field Artillery at Jamaica, New York City.

Authority was also received from the War Department for the conversion of the 156th Field Artillery from from horse-drawn to truck-drawn artillery. This change was effected April 1, 1936, without any change of stations of any of the units of the regiment.

The station of the Headquarters, 51st Cavalry Brigade, was changed from 1579 Bedford Avenue, Brooklyn, N. Y., to 1339 Madison Avenue, New York City, as of February 24, 1936.

The 104th Field Artillery moved into their new armory, 92-10 172nd Street, Jamaica, New York City, on April 5, 1936.

The new armory for the 105th Hospital Company, 102nd Medical Regiment at Corning, N. Y., was completed early this year and the change of station from rented quarters in that city to the new building was made effective April 2, 1936.

The Headquarters Company, 1st Battalion, 10th Infantry, was moved from Utica, N. Y., to Albany, N. Y., effective December 1, 1936.

Within the past month, we have received instructions from the War Department changing the designations of the various units of the 102nd Medical Regiment from Collecting Companies, Ambulance Companies and Hospital Companies to lettered units. This change will be effective as of January 1, 1937.

In conjunction with the United States Property and Disbursing Officer, we have practivally completed the work of condemnation of obsolete and antiquated truck equipment. The allotment of new motor equipment to the New York National Guard has been completed to the extent authorized by the War Department. During the past year, the following changes in organization commanders became effective. Brigadier General Walter A. DeLamater was transferred from the 53rd Brigade to the 87th Brigade effective January 1, 1936, replacing Major General William R. Pooley, who was retired in October, 1935. Colonel Bernard W. Kearney, 105th Infantry, was, in addition to his duties as regimental commander, designated to command the 53rd Brigade.

Colonel Otto Thiede, F. A., qualified in that grade and branch and was assigned to command the 156th Field Artillery, Vice-Colonel J. Townsend Cassedy, resigned.

Lieutenant Colonel Foster G. Hetzel, who had served as Quartermaster, 27th Division, for the past 11 years, was promoted to the grade of Colonel, Q. M. C., and assigned to the command of the new 102nd Quartermaster Regiment, April 1, 1936.

Having reached the age of 64 years, Brigadier General John J. Phelan, 93rd Brigade, was retired June 3, 1936, in the grade of Major General of the line. Colonel Charles G. Blakeslee, 104th Field Artillery, was promoted to Brigadier General of the line and assigned to command the 93rd Brigade, vice General Phelan, retired. Lieutenant Colonel Redmond F. Kernan, Jr., 104th Field Artillery, was promoted to the grade of Colonel and assigned to command the 104th Field Artillery, vice General Blakeslee, promoted.

Other retirements for age during the year were Lieutenant Colonel Carlos G. Webster, 258th Field Artillery, Major Clarence S. Martin, Ordnance Department, State Staff, who was retired in the grade of Lieutenant Colonel, and Major Daniel E. S. Coleman, M. C., 212th Coast Artillery.

On October 22, 1936, the State of New York suffered a distinct loss in the death of Colonel William R. Wright, Chief of Staff, 27th Division. Colonel Wright had served his State and Nation faithfully and well for more than 40 years. His entire service was marked by a loyalty and devotion to duty that has been unexcelled. In his passing, I have sustained a deep, personal loss.

During the past year, several distinguished retired officers passed away, among them, Brigadier General Washington I. Taylor, C. A. C., and Lieutenant Colonel John H. O'Connor, M. C., a former member of your staff. Also, Major William J. H. Ryan, Inf., United States Army, who had been on duty with the 10th Infantry, New York National Guard, for almost five years and in his passing, our service suffered a distinct shock.

Colonel Henry W. Fleet, Inf., United States Army, was relieved as Senior Instructor to the New York National Guard in August, due to the expiration of his detail. He has been succeeded by Colonel George A. Herbst, Inf., United States Army, who comes to us direct from the training section, Office of the Chief of Infantry, War Department. 5. No calls have been made on the National Guard for aid to civil authority due to civil disturbances. However, units of the 10th Infantry assisted materially in relief work made necessary by the floods in the vicinity of Binghamton in March. Also, during the month of November, various units of the 121st Cavalry and the 156th Field Artillery aided and assisted the State Troopers and the local police in the cities of Buffalo, Rochester, Syracuse, Newburgh and Kingston in policing the routes traveled by His Excellency, the President, on his visit at that time through New York.

All of our armories throughout the State, at some time or other during the past year, have been of material assistance to the various municipalities providing shelter for flood victims, quartering and feeding the destitute and unemployed, assisting in the collection and distribution of clothing, assisting the WPA in many of their activities, furnishing facilities for the training and instruction of recruits in the fire and police departments.

The demands made on the National Guard by various municipalities for the use of our armories has not been as heavy this year as last, but a few requests have had to be denied only because the proposed use would seriously interfere with the training of troops. You can be assured, however, that there has been no change in our policy to aid and assist all branches of the government to the fullest extent of our available facilities, not interfering with the proper use of the buildings by our troops, and not interfering with their training.

6. Although the state of training throughout the New York National Guard has now reached a uniformly high level, probably the highest it has ever attained in peace time, there still remain certain deficiencies which can and will be remedied.

The directive issued by this Headquarters covering the training year 1935-36, specified that the primary objective would be "training in battlefield essentials." This combat objective was based primarily upon the lessons learned in the 1935 First Army maneuver and looks forward to the next similar Army maneuver in 1939.

Insofar as infantry training is concerned, the outstanding features of the training year were, in order, emphasis on tactical exercises both for the staffs and troops, and the further development of exercises in field firing and all infantry weapons. Armory training was considered and conducted solely as a preparation for field training.

In general, it can be said that the performance of all organizations in the field was satisfactory. Perhaps, the outstanding feature was the general improvement in combat principles for small units, not only by enlisted men, but also, by junior officers. I believe that this improvement is due both to the exercises for small units, which have been conducted for the past four years at Camp Smith, and to the compulsory enrollment in the Army Extension Courses where these principles are fully illustrated. It is believed that a continued emphasis on the training of the small units up to and including the battalion is essentially sound. The infantry battalion still remains the basic combat unit and if the battalion is properly commanded and trained, no difficulty should be experienced with the larger units. For this reason alone, I do not favor the annual training of large units or large scale field maneuvers. It is believed that such maneuvers should not be conducted more often than once in three or four years.

As to the deficiencies noted during the field training period, these may be itemized as follows: Lack of road discipline; failure to analyze and utilize the terrain; hesitation in making prompt decisions, particularly by higher commanders; inability to express the decisions made in brief and clear oral orders. Insofar as the enlisted men were concerned, there was considerable room for improvement in the mechanics of extended order and in the employment of scouts and patrols.

The consolidated figures for known distance firing which are published in another section of this report show that we have maintained the high standards of previous years. However, we should not lose sight of the fact that known distance firing is, after all, only a means to an end, insofar as combat efficiency is concerned, and that the ultimate objective of marksmanship training is essentially in the field firing under assumed battle conditions. This applies alike to all infantry weapons. Other forms of essential infantry training, such as extended order, scouting and patrolling, and combat principles, must not be neglected. These comments concerning infantry training apply, also, to the training of the eavalry.

Our cavalry organizations are still suffering from a shortage of animals and, unfortunately, no Federal funds were available this year to remedy this matter. On the other hands, the cavalry have fared better in other matters. They have recently received the new SCR 163A radio sets and scout cars will be issued prior to the next field training period. Likewise, the allowance of calibre 45 pistol ammunition has been restored and each regiment will shortly receive its quota of light machine guns on the basis of four per troop.

With regard to field artillery training, considerable progress was made this summer in the training and development of the battalion as the fire unit, with emphasis upon reconnaissance, communications and fire direction by the battalion commanders. Stress was also laid upon assumed liaison missions with front line infantry units. In this connection, and in order to develop the infantryartillery team, it is proposed to send annually, hereafter, to Pine Camp one infantry regiment to train with its "opposite number" in the field artillery. One of the outstanding features of the 1936 field training was the march of the 106th Field Artillery, with its complete material, from Buffalo to Pine Camp, a distance of 210 miles which was completed in excellent condition in eleven hours. This is one of the longest and fastest marches by a motorized 155 mm howitzer regiment on record.

The coast artillery, despite the fact that they did not fire target practice in 1935, maintained a high general standard in service practice, although the 212th Coast Artillery is still laboring under the handicap of inadequate anti-aircraft equipment. We are informed that this condition will be remedied as rapidly as Federal funds become available and that New York State has a high priority in this matter. The National Guard Bureau also informs us that one modern tank of M2A2 type, completely equipped with radio and armament will be issued to the 27th Tank Company by March, 1937.

The Division Aviation, in addition to its own field training, contributed greatly to field and coast artillery training in the several co-operative missions. All planes are now fully equipped for blind flying and night flying has now become more or less routine. All ships are now equipped with modern two-way radio sets and powerful new ground sets have likewise been supplied. With the restoration of ammunition allowances, courses in aerial gunnery will be resumed in 1937.

The engineer, signal, medical and quartermaster organizations, as well as the Division Special Troops, have all shown excellent progress during the past year and are now considered in a healthy condition.

The subject of the Army Extension Courses and attendance of National Guard personnel at the several service schools are covered in another section of this report. During the year, one Division Staff Officer, Lieutenant Colonel Hampton Anderson, Assistant Chief of Staff, G-3, completed a tour of duty on the War Department General Staff, and qualified for the General Staff Corps eligible list of the War Department.

Mention should also be made of the new Corps Area Command and General Staff School which was inaugurated at Camp Dix in 1936 and from which 15 National Guard officers were graduated with excellent records. It is proposed to offer this course in modified form during the spring of 1937 for qualified officers residing in Greater New York and thus spread this highly necessary instruction as widely as possible.

No survey of the field training period would be complete without some reference to the troop movements by motor truck to and from the camps. This year, the necessity of economy imposed upon us the problem of moving the bulk of the National Guard by motor truck. Obviously, these movements over the highly congested roads of New York State on week-ends throughout the summer presented serious difficulties of organization and control. In some instances, these movements were not as satifactory as they should have been in a military organization, but the experience gained has been of great value and the lessons learned will be applied in future movements of this character. There has now been issued to the National Guard of this State, 607 Federal vehicles of all types. During the armory training period, these vehicles are distributed to the motorized organizations for tactical training purposes. During the summer, they are pooled generally for troop movements to and from camps as well as for use at camps for training and administrative purposes. It has been recommended to the National Guard Bureau that this quota of vehicles is adequate for our purposes and that only special service vehicles are now required, such as scout cars, wire laying vehicles, ambulances and engineer dump trucks.

While the above comments on training may appear to be confined to the combat efficiency of the National Guard as Federal troops, their duties as purely State troops have not been overlooked. Instruction in riot duty and in duties in aid of civil authorities have been carried on simultaneously during the armory and field training periods. This training has now been made uniform throughout the State, based upon recent training documents issued by the War Department. In short, it is felt that the training of the National Guard in its dual capacity as State and Federal troops is best furthered by the satisfactory completion of the training directives as laid down by the War Department itself, and that a state of readiness for any required State service is best achieved thereby.

The 1936 Field Training season marked the return of all infantry regiments to Camp Smith for their record rifle practice and while the percentage of qualifications in this weapon was not as high as in 1935, it was more than equal to our 1934 record and is more than twice the requirement set by the National Guard Bureau. Two factors in my opinion, account for the lower number of qualifications—first; with the exception of four units, none of the 174th Infantry or the 102nd Engineers fired the rifle in 1935 with the result that we had twice the normal number of new men in these two organizations—second; the firing of the up-state regiments was conducted on home ranges in 1935 and this will usually result in more qualifications for several reasons as, the time element, ability to wait for proper weather conditions, familiarity with the ranges, etc.

Our percentage of qualifications with basic weapons were as follows:

Weapon	1932	1933	1934	1935	1936
Rifle, Cal. 30	. 32	. 50	. 59	.70	.31
Automatic Rifle	.27	. 52	.55	.64	.67
37 m/m—3" T. M	. 80	.87	.94	.90	.70

The caliber .22 machine gun was used in the record firing of infantry machine gun companies and cavalry machine gun troops for the first time this year, with most satisfactory results—the percentage of qualification being 98. This record course was fired in the armories during the 1935–36 armory training period and the time thus economized during the field training period was devoted to more advanced work and field firing. The Browning light machine gun, of which four are assigned to each rifle troop of cavalry, was fired for record for the first time this year with satisfactory results—the percentage of qualifications being 43.

The expenditure of a limited amount of pistol ammunition was authorized this year to be allotted as determined by the State authorities. No ammunition was shipped into the State for the purpose, the allowance being drawn from stock on hand. There having been no pistol practice for several years, and the amount allotted being insufficient to permit of record firing by all pistol armed men, it was decided to permit the cavalry to fire a modified instruction course and the dismounted record course. The men in the field artillery and in the machine gun and howitzer companies of infantry regiments were allotted a sufficient amount to familiarize themselves with the functioning of the piece.

In all cases of organizations completing their qualification courses at Camp Smith, the appropriate badges and bars were issued prior to departure for home station.

The organizations in the New York metropolitan area were afforded every possible opportunity for preliminary practice at Camp Smith prior to the opening of the field training period. The trucks assigned to the New York National Guard have been made available for the transportation of the troops and as many as one thousand men participated in a single week-end of preliminary firing.

The ammunition issued was in general satisfactoy—the one exception being a lot of tracer ammunition issued to the 212th Coast Artillery—this was replaced from stock on hand at Camp Smith and carefully culled at that station where splits, etc., were removed.

The allowances of all types of ammunition were sufficient to permit the accomplishment of the scheduled program.

We lost the use of some fifty thousand rounds of cal. .45 ball ammunition which was reclassified in Grade 3 (unserviceable) despite the fact that an effort was made to obtain replacement on the ground that the suspension of pistol practice over a period of years had prevented the normal replacement. This request was not favorably considered by the Chief of Ordnance.

The State Matches of 1936 were attended by a record number of competitors from the National Guard and Naval Militia. The number of firers resulted in excellent competition and will undoubtedly have a most favorable effect on the interest in rifle and pistol practice throughout our National Guard.

The State of New York was represented by four teams in the National Matches—one National Guard, one Naval Militia and two civilian. These conducted themselves in a manner which won commendation from the Executive Officer of the National Matches and placed well up in the competitions.

The results of both the State and National Matches are the subject of special reports.

The inspection of ordnance material was carried out by the Corps Area Ordnance Officer and resulted in the condemnation, as unserviceable, of 537 rifles, cal. 30, M1903; 56 rifles, cal. .22; 93 automatic rifles; 135 machine guns; 10 automatic pistols; 24 revolvers; two 37 m/m guns and 175 pairs of Type EE field glasses. While weapons in our organizations are well cared for, most of the arms have been in constant use over a period of years and those condemned are worn out.

At all of our field training camps, the programs and schedules followed are intensive. To relieve this tension and to make the service attractive, considerable care and thought has been given to recreation and entertainment. During those periods that Camp Smith is occupied by the 10th, 105th, 108th and 174th Regiments, all from up-state, popular priced excursion trips are organized to permit the officers and enlisted men to visit New York City and the nearby summer resorts. Week-end passes are granted during the mid-week of each tour, extending from noon time Saturday until midnight, Sunday. Sleeping facilities for Saturday nights are provided, without charge, in the various armories in Manhattan and Brooklyn. At Pine Camp, organization motor transportation is made available for officers and men to visit Clayton, Alexandria Bay and other Thousand Island summer resorts, and trips of a similar nature are provided for our forces at the other training These holidays are welcomed by officers and men alike, camps. as is evidenced by the great number availing themselves of the opportunity. Also at Camp Smith and Pine Camp, we provide the latest motion pictures, with sound, three evenings each week. No admission is charged and the attendance generally taxes our camp theatres to capacity. On those evenings not devoted to pictures, our theatres are used for amateur vaudeville, boxing and wrestling, and other forms of entertainment.

The religious side of soldier life is not neglected. On each Sunday during the entire field training period, services are conducted by our chaplains. Catholic, Protestant and Jew alike, are afforded the opportunity, and all encouraged to worship according to the dictates of their consciences. In this connection, I do want to express my appreciation to the Jewish Welfare Board of New York City for their splendid assistance at Camp Smith.

Increased public interest in our training, so far as Camp Smith is concerned, is clearly indicated by the number of visitors to that camp during the past season. Approximately 75,000 people and over 11,000 motor vehicles attended the camp, mostly in the middle or visiting Sundays of each tour. The largest single day was the mid-Sunday of the 369th Infantry tour, September 13, 1936, when Your Excellency reviewed and inspected that regiment. Three thousand two hundred and fifty-seven motor cars, 120 buses and 10 motorcycles taxed our usual parking facilities to the limit. At least 25,000 visitors were in attendance, the largest known assemblage to gather at Camp Smith on any one day. Despite the large number of visitors and motors, we were highly successful in keeping traffic flowing freely, with no serious accidents occuring. As a matter of fact, the few minor matters reported were of a most inconsequential nature.

Special Training and Schools. During the year, 46 officers and eight enlisted men successfully completed various courses at the Army Service Schools, as follows:

#### **O**fficers

Command and General Staff School	
Command and General Staff School, Special	
Infantry School, Company Officers Course	16
Field Artillery School, Battery Officers Course	4
Coast Artillery School, Battery Officers Course	2
Chemical Warfare School, Unit Officers Course	1
Engineers School, Company Officers	1
Motor Transport School, Q. M. C.	4
Ordnance School, Field Officers Special Course	1
Medical Field Service School	1
Total	46

#### Enlisted Men

Infantry School, Communications Course	3
Field Artillery School, Communications Course	1
Coast Artillery School, Enlisted Specialists	1
Air Corps School, Radio Repairers' Course	1
Medical Field Service School for non-commissioned officers	2
Total	. 8

The special course, Command and General Staff School, is a new venture. This course, running for two weeks in each year for three years, has been designed to afford an opportunity for intensified instruction in the combined arms to those officers who cannot give the usual three months to the Fort Leavenworth School.

Our enrollment in the Army Extension Courses has increased to the point that approximately 3,400 officers and men are now taking appropriate courses for their arm or branch. As a result of these courses open to enlisted men, an increasing number of commissions in the National Guard of the United States have been issued by the Adjutant General of the Army. These men thus become available to fill war strength vacancies in the event of mobilization. Good progress is being made to fill all war strength vacancies.

In November, 1935, 60 enlisted men of the New York National Guard entered the State competitive examination for appointment to the United States Military Academy, seven were selected to take the nation-wide examination in March, 1936, and five were successful. Of these, two men failed to pass the rigorous physical examination and the balance were appointed, entering the academy on July 1 of this year.

52

In November of this year, 52 enlisted men of the New York National Guard entered the competitive examination for the entrance test to be taken in March, 1937. The first eight men in this competition have been designated for the final test and if successful will enter the United States Military Academy on July 1, 1937.

There were no major activities in the New York 7. Athletics. National Guard during the past year. However, at all of the training camps during the field training period, many of our organizations put on their own track and field meets that were successful and interesting. At Camp Smith, during the entire summer, the three baseball diamonds, the swimming pool, hand ball and tennis courts were used extensively and organization commanders have been urged not to neglect this feature of their training life. The facilities for athletic sports and other recreational activities are very limited at our other field training camps, but efforts are continually being made to overcome this deficiency. Due to the fact that Pine Camp, Fort Ontario and Fort H. G. Wright are Federal reservations, it is not possible under existing laws and regulations to expend State monies for improvements of this nature. Therefore, we must look to the Federal government for assistance. Plans have been drawn to provide Pine Camp with a modern swimming pool, baseball diamonds and other recreational facilities. The estimated cost has been set at \$28,441.20 and it is hoped that this project may be authorized by the WPA from funds tentatively allocated to the War Department.

8. Inspections. In 1936, we continued to conduct the State armory inspections apart from that required by the War Department. The plan continues to be beneficial to our organizations as the State Inspecting Officers have more time to cover questions of administration, supplies and finance more thoroughly and exhaustively.

Tactical inspections of training were conducted as usual during the field training encampments and this plan proved both economical and effective. The customary inspection of accounts of Quartermasters and Post Exchange Officers at various camps were made at frequent intervals. A periodic check was maintained on the payrolls of the Construction Department at Camp Smith, Post Hospital, Headquarters Mess, and the Provisional Ordnance Detachment.

Eight special investigations were made and reported on in 1936.

## 9. Permanent Plant.

a. Amories The 104th Field Artillery armory at Jamaica was completed early this year and is now occupied. Likewise, the 105th Hospital Company, 102nd Medical Regiment are in possession of their new building at Corning, N. Y. As to the need of new armories, this matter has been discussed informally

## APPENDIX "A"; ADJUTANT-GENERAL'S REPORT

with the Adjutant General. I am in hearty accord with his views on this subject and am pleased to agree with such recommendations as he will make in his annual report to you. New armories in New York City are badly needed for the 212th Coast Artillery, the 244th Coast Artillery and in Brooklyn for the 105th Field Artillery. None of the present buildings, all old in age, were constructed to house organizations of the character now stationed in them. However, conditions in the city do not warrant an insistent demand on the Armory Board to construct new buildings suitable for these regiments. When conditions are more propitious, I feel certain that proper remedies will be furnished.

Camp Smith. State funds were sufficient this year to keep b. the present plant in ordinary repair. However, there is need for major repairs and toward this end, Federal aid, through the Works Progress Administration has been solicited. In conjunction with the Adjutant-General and the United States Property and Disbursing Officer, we have been successful in securing approval of two prospects, one involving \$40,013.50 for repairs to the rifle range and \$10.056 for repairs and enlargement of the storm water sewer. It was expected to start this work not later than December 1, 1936, but objection to the projects was filed with the State District Supervisor, by the county supervisor of the town of Cortlandt, and these needed repairs are being held The objection was the result of my having to discharge some up. fourteen temporary men because of a lack of available funds for their pay. I hope that this situation will be cleared shortly and that the work shall have been completed prior to the opening of the camp for field training in 1937. Plans and specifications for additional work, under War Department sponsorship, have been filled or will be filled shortly, to total approximately \$150,000 and I am hopeful that the major portion of these projects will be approved.

c. Pine Camp. Considerable progress has been made through the aid of the Works Progress Administration during the past year. Approval of projects involving the aviation field and repairs to the present sewer system, comprising an expenditure of about \$90,000, are expected daily. In addition, requests for improvements, including a new regimental camp area, and amounting all told to some \$300,000, are in process.

d. Fort Ontario. Works Progress Administration funds, in the amount of \$50,000 to construct concrete tent floors, frame tents, improve and relocate the infirmary, and other major repairs have been solicited.

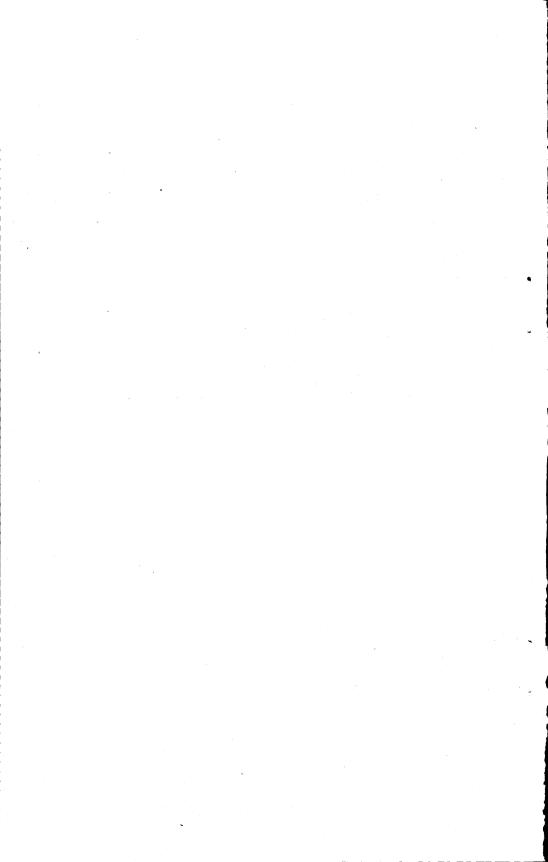

10. Administration. Reports of inspections made by officers of my staff clearly indicate that considerable progress is being made in the administration of all units and organizations of the New York National Guard. Such deficiencies as are noted are minor in

54

character and are gradually lessening in number. There is also a decided improvement in the care of property and in the maintenance of the necessary property records. Improvement is noticeable in the handling and accounting of organization civil funds and the methods recommended by our inspectors have been generally adopted, thus bringing about the standardization which is desired. The new method adopted last year to provide funds for the support of the New York National guardsman has proven satisfactory and successful. Our Post Exchanges at Camp Smith and Pine Camp were conducted with satisfaction to our troops and with profit to the camps. In each phase, a substantial balance is being carried over to insure a successful operation next year.

11. Recommendations and Conclusion. I would be remiss were I not to mention my sincere appreciation, as also the gratefulness of the New York National Guard, to Your Excellency for your continued interest in our progress and welfare. Our thanks also goes to the Legislature for their support and encouragement. And we are grateful to the Adjutant General of the State, the United States Property and Disbursing Officer and the Corps of Instructors from the Regular Army for their splendid co-operation. My only recommendation is that our efforts and our progress merit a continuation of these helpful and desired friendly interests.

> WILLIAM N. HASKELL, Major General, N. Y. N. G.

# APPENDIX B

# Report of the Commanding Officer, New York Naval Militia

1. The affairs of the New York Naval Militia for 12 months ending December 31, 1936, are hereunder submitted, in compliance with paragraph 6, R-80, Regulations for the Military Forces of the State of New York.

2. Strength. The total strength of the organization as of December 1 is reported at 1,897 officers and men as compared with 1,837 officers and men on December 1, 1935, which figures will reflect a small gain during the period of the report. A change in Naval Reserve policy whereby additional men are now authorized to receive drill pay, will unquestionably reflect a further gain during the next 12 months.

3. Attendance. The average attendance record at regular drills has been 82.8 per cent, as compared with 85.7 per cent for the last report period. It will be noted that there has been a very minor decrease in attendance, which can be entirely attributed to generally improved business conditions affording more employment which, in some instances, required absence by reason of night work, but treated in the sum total, is comparative with the normal average attendance which has obtained for several years. With many readjustments now out of the way the outlook is for a higher rate of attendance than heretofore.

Training Duty. During the year 1936, 1,590 officers and 4. men performed active duty afloat in battleships and destroyers of the Training Squadron. The Marine companies performed their training duty at the State camp in New Jersey. There is some indication at this time that the Marine Battalion may seek authorization to perform field training at Camp Smith in 1937. The seagoing units who were trained in battleships and destroyers visited ports in Canada and the West Indies in the performance of their duty. The training received was more concentrated than heretofore because the Navy Department permitted the embarkation of one fleet division consisting of five officers and 66 men per This resulted in greater responsibility in performance destrover. of general duty by both officers and men. Reports made upon these units by the several ship commanders indicate without exception that the New York Naval Militia conducted itself in a most efficient and satisfactory manner. During the training period the customary Short Range Battle Practice, conducted under standard U. S. Navy rules, was held. Control of the ships in all departments was taken over by officers and men of the New York Naval Militia for this practice. The 32nd Fleet Division at Ossining, N. Y., was awarded the trophy for gunnery efficiency. This unit made the highest figure of merit in the Third Naval District for the practice during the year 1936, and stood second in the United States. All of the divisions in the New York Naval Militia, with the exception of one, were rated well above average. The commanding officers of all Naval Militia units have reported to this office their complete satisfaction with the training, as provided by the Navy Department during the past summer. The number of men receiving training this year, as compared with previous reports, reflects an increase of approximately 20 per cent.

Small Arms Practice. One thousand four hundred and 5. fifty-three men attended Small Arms Practice and participated in the Annual Figure of Merit Competition held at Camp Smith. Peekskill, N. Y., during the month of June. The attendance at this duty reflects an increase of approximately 20 per cent over that of 1935. The figure of merit for the calendar year was won by the 11th Fleet Division, 9th Battalion, Buffalo, N. Y.; 2nd prize, 15th Fleet Division, Oswego, N. Y.; 3rd prize, 31st Fleet Division, New Rochelle, N. Y. A total of 387 officers and men qualified as marksmen, which is a slight increase over the number qualified during the previous year. One expert and four sharpshooters are credited to the Small Arms year. Practice for the units in Western New York was conducted at U. S. Army Rifle Ranges at Ft. Niagara and Stony Point. Authority for the use of these ranges was arranged by the Commanding General, Second Corps Area, U. S. Army. Army personnel immediately concerned with the administration of these reservations were exceedingly courteous and helpful in connection with all details attendant to the conduct of practices. The Naval Militia units participated in the State Matches to a much larger extent than ever before. The Naval Militia Brigade Match was won by the 31st Fleet Division at New Rochelle, N. Y. The Interstate Small Arms Trophy Competition sponsored by the U. S. Naval Reserve Officers Association, Third Naval District, was won by a team representing the state of Connecticut. Naval militiamen competed in the Members Match, Company Team Match, Cruikshank Trophy Match, McAlpin Trophy Match, Wingate All Comers Match, Rogers All Comers Match, Adjutant General's Trophy Match, Roe All Comers Match, and the Governor's Cup Match. The Naval Militia also sent a team to the National Matches at Camp Perry, which team made a definitely good showing in the matches, for which they were eligible. Such participation in match competition clearly indicates a constantly increasing interest of Naval Militia personnel in the promotion of general efficiency at small arms.

6. Week-End Cruises. Collective reports for week-end cruises during the past year show a total of 7,621 miles steaming by various types of vessels on week-end cruises. A collective total of 1,325 officers and men benefited from this form of training. Week-end cruising is entirely voluntary. The officers and men do not receive drill pay for the performance of such duty. The operation of

58

## REPORT OF THE COMMANDING GENERAL

vessels is entirely in the hands of Naval Militia personnel and is considered of great professional value in that independence of operation and entire responsibility rests completely with the individuals concerned.

7. Athletics. All commands encourage competition in both indoor and outdoor activities. All units in the metropolitan area were represented in the Annual Whaleboat Race held in the North river during October. This race was won by the Sixth Division, 2nd Battalion.

8. Naval Academy Appointments. During the year 1936 six members of the New York Naval Militia were successful in winning admissions to the United States Naval Academy. The successful candidates were:

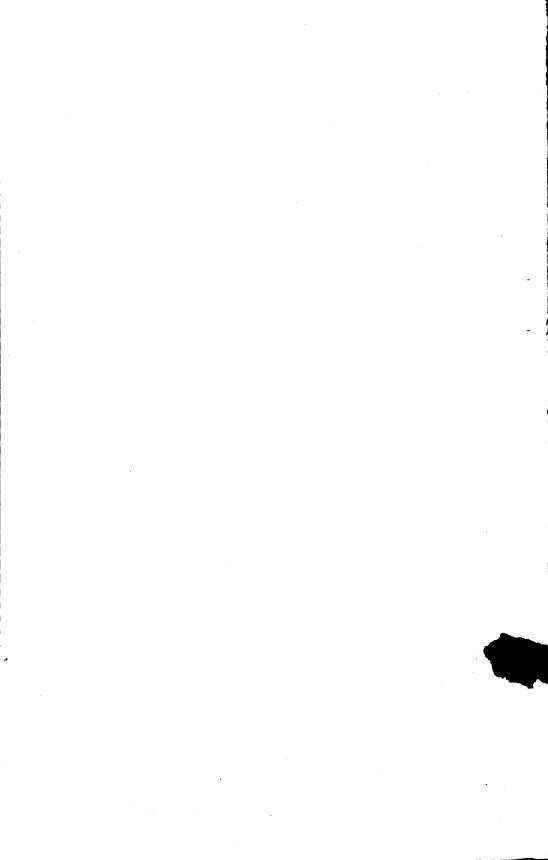

Murray, Raymond J., AS, 4th Batt., NYNM Heckler, Theodore, S2c, 1st Batt., NYNM Coffey, Arthur F., S2c, 1st Batt., NYNM Clair, Jr., John D., AS, 1st Batt., NYNM Clark, Douglas A., AS, 31st Fleet, NYNM Merrill, Russell O., S2c, 31st Fleet Div., NYNM

9. General Efficiency of the Members. The commanding officer is of the opinion that the training duty schedules as now arranged and the activities conducted at weekly drills within the armories, as prescribed by the Navy Department, is continuing to result in a more efficient Naval Militia as time progresses.

10. Armories. The armory of the 4th Battalion at Whitestone, N. Y., which is being constructed by the Works Progress Administration, is not yet completed. Progress is being made slowly and it is hoped the entire project may be finished within the next year. Improvements to the property of the 15th Fleet Division at Oswego, N. Y., have been made during the past year and similar improvements are being made to the property of the 13th Fleet Division at Sacket's Harbor, N. Y. New armory facilities would be desirable at Dunkirk and at Watertown. An allotment of WPA funds for the erection of an armory at Buffalo, N. Y., is understood to be available at such time as the State may find it convenient and possible to appropriate the sponsor's contribution.

F. R. LACKEY,

Rear Admiral, NYNM.

# APPENDIX C

# Report of the State Ordnance Officer

Results of Various State Matches.

The attendance at the 1936 State Matches exceeded that of any year of which we have records. The order issued in 1935 by the Commanding General requiring entrance and participation in the State Matches by all Infantry, Cavalry and Engineer regiments and the desire expressed by the commanding officer of the Naval Militia that all Naval Militia organizations participate had their effect with the result that entries in the individual matches very often exceeded 200 and in the team matches we had as many as 40 teams in a match. These figures compare favorably with the National Matches in this way-we had 10 to 15 per cent of the number of entries of a similar National Match and when it is considered that our entries are exclusively National Guard and Naval Militia of New York as against civilians and all components of the Army, Navy and Marine Corps eligible to enter the National Matches, it speaks exceedingly well for the renewed interest in shooting in the armed forces of the State.

Two additional targets at 1,000 yards were opened for use in the matches and were of the greatest value in permitting us to carry out the program on schedule—without these targets it is exceedingly doubtful if we could have accommodated the enormously increased entry list.

This year we replaced the old type of scorer's desk with a specially designed tripod or easel which made a very effective firing line and greatly facilitated the necessary changes of position.

The service of the ranges was carried out by a detail of 80 enlisted men of the National Guard and 25 enlisted men of the Naval Militia—our experience this year indicates that this number should be increased so as to make more targets available and speed up the service.

The program was arranged so as to effect a minimum of changes in the pits and so save time—with respect to the pistol matches, which formerly had been held on the last Saturday of the matches, these were advanced to the first Saturday and preceded instead of followed the rifle matches. This change was made primarily to permit of participation by the Cavalry as we found the holding of the matches on the later Saturday very often made it impossible for them to compete due to the fact that they had to depart for field training on the same day.

The competitions themselves were very close—last year the Governor's Match was won with a possible score (100) for the second time in the 42 years it had been in competition—this year three men were tied with possible scores in the first run; Captain

Devereux (last year's winner), Sergeant Evans and Sergeant Aubry. In the run-off, Sergeant Evans again made a perfect score and Captain Devereux and Sergeant Aubry again tied with a 98 each—the second run-off resulting in 95 for Captain Devereux and 91 for Sergeant Aubry. The prizes were well distributed and the 102nd Engineer team broke the existing record for the Brigade Match by two points.

At the conclusion of the State Match the trophies were presented to the winners by Colonel Henry W. Fleet, the Senior Instructor with the New York National Guard.

The Governor's Honor Men, who are the 30 members of the New York National Guard and Naval Militia attaining the highest aggregate score in all the individual matches of the State of New York and the New York State Rifle Association, are the following:

#### Name

Aggregate

	Italle	
1.	Sergeant Burr A. Evans, 102nd Eng. (C)	516
2.	First Lieutenant Richard A. Nott, 107th Inf	511

3.	107 th	Infantry, No. 2	1031

# THE NATIONAL MATCHES

The State of New York was represented by four teams this year in the National Matches—one National Guard, one Naval Militia and two civilian.

The National Guard Team was selected in the main from the Governor's Honor Men, who, with a few of their nearest competitors, formed the preliminary squad. Practice was held each week-end following the close of the State Matches and as a result of these tryouts, the final selection was made. The team consisted of the following:

## Team Captain

Lieutenant Colonel Henry E. Suavet, Hq., New York National Guard

# Team Coach

Private 1st Class Thomas E. Brown, Jr., 107th Infantry

## Principals and Alternates

Captain Alonzo S. Ward, 369th Infantry 1st Lieutenant Luther A. Smith, 369th Infantry 2nd Lieutenant Harry A. Manin, 102nd Engineers (C) 2nd Lieutenant James R. Herron, 105th Infantry Technical Sergeant Joseph Cushing, 102nd Engineers (C) Staff Sergeant Peter Rizzo, 102nd Engineers (C) Staff Sergeant Peter Knob, 102nd Engineers (C) Sergeant Burr A. Evans, 102nd Engineers (C) Sergeant Charles Mason, 107th Infantry Sergeant Chetser P. Perkins, 105th Infantry Corporal David C. Bradt, 105th Infantry Corporal John P. Nicolai, 106th Infantry

Through the co-operation of Colonel Bernard W. Kearney, commanding the 105th Infantry, and Major William H. Innes, 105th Infantry, the Officer in Charge, the 105th Infantry range at Karners, N. Y., was made available to the team for a final week of practice before departure for the National Matches. This practice was invaluable to the team and I believe that much of the gain we made this year can be attributed to it.

The Commanding General assigned a station wagon to the team which was of the greatest value to us at Camp Perry—a camp of magnificent distances—and the express charges which we saved on the transportation of team equipment more than covered the cost of the fuel consumed.

The team equipment was added to by the purchase of three individual spotting scopes and stands and of a trunk for the transportation and safeguarding of team equipment.

The health of the members of all four teams was good throughout the period of the matches and their conduct was such as to bring a letter of commendation from Colonel Jay L. Benedict, the Executive Officer.

With the restoration of the normal appropriations, the facilities at the matches were excellent and were all greatly impressed with the efficiency and unfailing courtesy of all connected with the administration from the Executive Officer down.

The results of the matches, as concerns the National Guard Team, follow:

# THE NATIONAL RIFLE TEAM MATCH

# 119 Teams Entered

Course: 200 yds., S.F., 10 shots standing. 200 yds., R.F., 10 shots sitting or kneeling from standing, 1 minute. 300 yds., R.F., 10 shots prone from standing, 1 minute 10 seconds. 600 yds., S.F., 10 shots prone. 1,000 yds., S.F., 20 shots prone.

The following members of the New York National Guard Team qualified for "legs" on their Distinguished Marksman Badges:

Corporal David C. Bradt, 105th Inf., 1st leg on Rifle Badge.

Second Lieutenant Harry A. Manin, 102nd Eng. (C), 2nd leg on Rifle Badge.

Staff Sergeant Peter Rizzo, 102nd Eng. (C), 1st leg on Rifle Badge.

Private John B. Morrissey, 107th Inf., 1st leg on Pistol Badge. Second Lieutenant James R. Herron, 105th Inf., 2nd and 3rd legs on Pistol Badge—this officer's record has been sent to the Adjutant General of the Army for the award.

The New York Naval Militia team was selected on the same basis as the National Guard Team and both practiced together wherever possible. The Naval Militia Team as finally selected consisted of the following:

# Team Captain

Captain Leo W. Hesselman, Hq., New York Naval Militia

## Team Coach

Lieutenant Commander Robert S. Saunders, 1st Battalion

# Principals and Alternates

C.R.M. Ray T. Wachob, 14th Div., 9th Battalion G.M. 1c John A. Owellen, 9th Div., 3rd Battalion W.T. 1c Russell E. Mills, 11th Div., 9th Battalion B.M. 2c Angelo A. Antinarelli, 10th Div., 3rd Battalion M.M. 2c John J. Philips, 8th Div., 2nd Battalion R.M. 3c Alfred E. Robertson, 11th Div., 9th Battalion S.M. 3c Kenneth O. O'Corr, 10th Div., 3rd Battalion Sea. 1c Donald R. McAnn, 10th Div., 3rd Battalion Sea. 1c Frank J. Preston, Jr., 32nd Fleet Div. Sea. 2c William J. Pfau, 16th Div., 4th Battalion A.S. Glenn A. Searle, 9th Div., 3rd Battalion A.S. Thompson McKinstry, 15th Fleet Div.

This is the first time in its history that the Naval Militia has competed in the National Matches and the results were most encouraging.

In addition to the regular Naval Militia Team, the 1st Marine Corps Battalion, N.Y.N.M.-U.S.M.C.R., furnished the following members of the Marine Corps Reserve Team:

> 2nd Lieutenant Michael J. Davidowitch Sergeant John H. Hanly Private Max Rosenblatt

In order to insure that all possible candidates might have a chance to try out for the civilian teams, these were held under the supervision of the New York State Rifle Association and over three hundred civilian shooting clubs in the State were advised of the dates and places of the tryouts. These were held in Rochester, N. Y., under the direction of Major Arthur T. Smith of the 108th Infantry; Albany, N. Y., under the direction of Major Howard P. Paddock of the 10th Infantry, and at Camp Smith under the direction of Brigadier General Fred M. Waterbury (ret.). The results of the tryouts at these several stations were compiled and the 40 high men were called to Camp Smith for a final tryout. The first 12 constituted the first team and the second 12 the second team.

Major Edward J. Dougherty (R.L.) and Mr. Eugene B. Mechling were selected as captains of the first and second teams respectively and both these gentlemen carried out their duties in a most thorough and efficient manner and to the satisfaction of all concerned.

# APPENDIX "C;" ADJUTANT-GENERAL'S REPORT

The teams as finally selected were as follows:

NEW YORK STATE CIVILIAN TEAM NO. 1

Team Captain

Major Edward J. Dougherty, New York City

# Members

Charles Frost, New York City George Croft, Olean Joseph F. Nial, Troy Harold D Powell, Manhasset Walter H. Shanessey, Brooklyn Thomas M. Lewis, St. Albans Albert J. E. Shay, Brooklyn Floyd Schrader, Kenmore Charles W. Newell, Elmira John Davidson, New York City William S. Brophy, Yonkers John L. Polk, Troy

# NEW YORK STATE CIVILIAN TEAM NO. 2

Team Captain

Eugene B. Mechling, Scarsdale

#### Members

John R. Wark, Buffalo Charles R. Gajeway, Troy Charles J. Polk, Troy Desmond F. Rielly, Albany Lloyd L. Root, Elmira Benjamin Mechlenberg, Mt. Vernon James Biavaschi, New York City Louis B. Cooperman, Elmira Douglas Cousins, Pocantico Hills D. James Dugan, Brooklyn Rodney J. Reston, Amsterdam William J. Matt, Schenectady

Both teams acquitted themselves in a very satisfactory manner in the matches.

An innovation this year was the presentation of a bronze medal in each of the Individual Matches to the high competitor from each State regardless of whether he was a team member or an individual competitor. The State teams captured all of these—the winners being as follows:

Coast Guard Trophy Match	Captain A. S. Ward, NYNG Team.	
Navy Trophy Match	W. S. Brophy, 1st Civ. Team.	
Crowell Trophy Match	A. Blensinger, Civ. (Ind.)	
Marine Corps Cup Match		
Wimbledon Cup Match	W. H. Shanessey, 1st Civ. Team.	
Scott Trophy Match	Sgt. C. P. Perkins, NYNG Team.	
The President's Match	C. Frost, 1st Civ. Team.	
National Individual Rifle Match	Corporal D. C. Bradt, NYNG Team.	

All members of all teams who had not graduated in previous years attended the Small Arms Firing School and were awarded Certificates of Proficiency.

#### Pistol Matches (Interstate)

The teams of the New York National Guard were victorious in all pistol matches in which they competed with the cal. 45 pistol. The only defeat was in the Troop L, State Police Match, where the Troopers used cal. 38 revolvers against our cal. 45 pistols. The results of the several matches follow:

## NATIONAL PISTOL TEAM MATCH

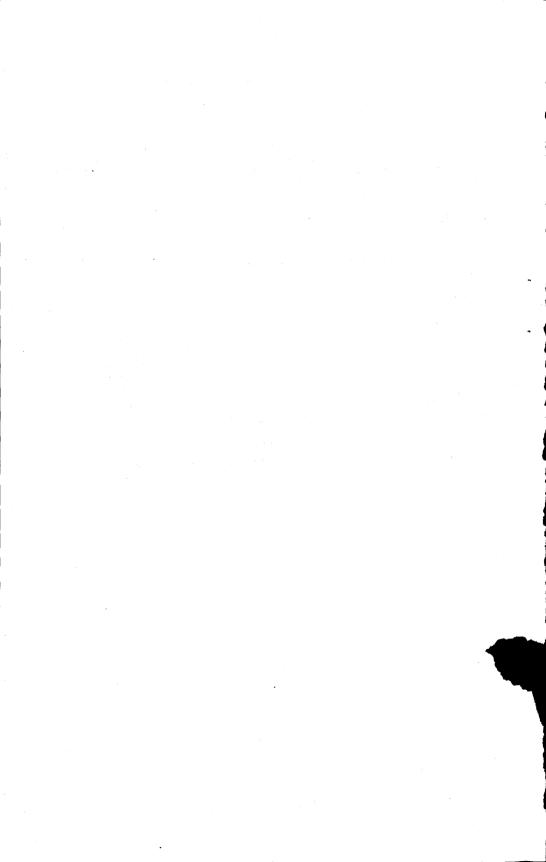

#### (48 Entries)

Winner-Los Angeles Police	
27th (3rd National Guard) New York National G	ard 1,123

The progress of small arms practice in the State is most encouraging and I feel that this is largely due to the interest of the Adjutant General, the Commanding General and the Commanding Officer of the Naval Militia. These officers, by their presence at the matches and visits to the teams, and by giving every possible assistance to the end that proper facilities be available have done all that we can hope for to foster interest in shooting and I know that I speak not only for myself and my team but for all the competitors in our matches and the members of our other teams when I express to them our sincere appreciation.

HENRY E. SUAVET,

Lt. Col., O. D., NYNG, State Ordnance Officer.

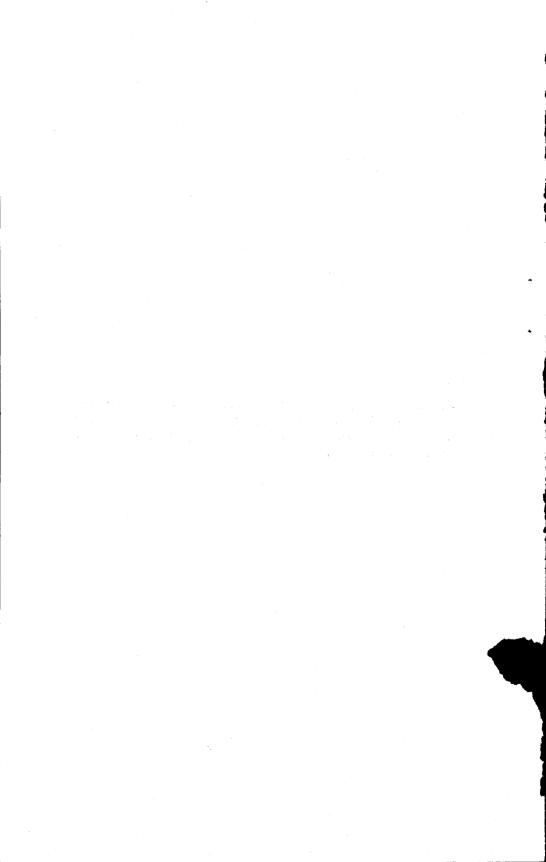

Complete Military and Naval History of Officers of the Militia of the State of New York Who Were Discharged, Dropped or Who Died During the Year 1936 and So Stood on December 31, 1936
