REPORT OF THE ADJUTANT GENERAL

December 31, 1942.

The Governor of the State of New York, Albany, N. Y.

SIR:—Pursuant to Section 17 of the Military Law and the provisions of Section 42 of Chapter 78 of the Consolidated Laws of the State of New York, report for the year ending December 31, 1942, is submitted.

The past year has been one of great activity due to the war against the Axis powers and the New York National Guard which was completely inducted into the active service of the United States between the dates September 16, 1940 and March 10, 1941 continues in service. The New York Guard, which took its place, continues to improve after intensive training including ten days of field training at Camp Smith, New York, for all units last summer. Eighteen new units were added to the New York Guard since my last report. These comprise an additional company of the 6th Regiment, designated "D" with station at Rome, New York, two additional companies of the 74th Regiment, one at Dunkirk, New York, designated Company H, the other with station at Niagara Falls, New York, and designated Company M. The defense of the Long Island shore line was increased through the organization of two separate battalions of infantry in Suffolk and Nassau Counties with units stationed as follows: Headquarters and Headquarters Detachment, 1st Separate Battalion, and Company D, at Bay Shore and Companies A, B, and C, 1st Separate Battalion, at Freeport, Farmingdale and Patchogue, respectively. The Headquarters and Headquarters Detachment, 2nd Separate Battalion, are stationed at Riverhead as is also Company A, that battalion, while Companies B, C and D are stationed at Quogue, Southampton and Southold, respectively. All of these units have been mustered-in with the exception of Company B, 2nd Separate Battalion and are performing weekly drills at improvised armories such as school auditoriums, vacant stores, barns, etc., without expense to the State of New York, except for the military allowance authorized by Section 216 of the Military Law. In accordance with popular demand and to give the negro equitable representation in the State military establishment, a new battalion of negro troops has been authorized with station at 801 Dean Street, Brooklyn, New York. This armory was formerly occupied by Company L, 5th Regiment, which was transferred to the armory at 171 Clermont Avenue, Brooklyn, thereby grouping all of the third battalion of that regiment at that address. The new negro battalion in Brooklyn has been designated the 3rd Separate Batta-

lion, New York Guard, and the Honorable Myles A. Paige was commissioned Major of Infantry and appointed Commanding Officer on December 2, 1942. No units have been mustered-in to date.

Consistent with the policy of the State to cooperate in every way possible with the War Department in the war effort, the New York State Arsenal at 64th Street and 2nd Avenue, Brooklyn, New York, has been transferred to the United States Army for use during the emergency and the State Arsenal moved to the armory at 355 Marcy Avenue, Brooklyn, New York. This effective December 15, 1942. The 3rd Battalion of the 13th Regiment formerly stationed at 355 Marcy Avenue was transferred to 357 Sumner Avenue, Brooklyn, New York, thereby placing all of the units of the 13th Regiment in one armory. This policy of cooperation also extends to many types of administrative matters the greatest volume of which is represented in requests for certificates of service from present and former members of the New York National Guard and Naval Militia now in active United States service. More than ten thousand such certificates have been supplied during the past year. The demand was emphasized after Congress amended pay provisions for the United States Army to provide longevity pay for enlisted men.

Personnel matters.—The requirement of the War Department that this office maintain records of National Guard personnel released from active United States service continues, although on December 31, 1942, most of such personnel who had not been reordered to active United States service were honorably discharged and ordered to register with their respective Selective Service Local Boards. Commissioned personnel released from active United States service and transferred to the State Detachment, New York National Guard, consists, on this date, of seven officers. Pending termination of the War they will remain in that status subject to recall to active United States service. These officers plus the three deferred officers of the Inactive New York National Guard filling "key" positions in my office are the only Federally recognized National Guard officers not in active United States service. The three referred to are Colonels Frederick A. Thiessen, A.G.D., and Henry E. Suavet, Q.M.C., Assistant Adjutants General, and Lt. Colonel C. Pemberton Lenart, A.G.D., Director of the Personnel Bureau.

Changes in personnel of office.—During the year the following changes have taken place in the officer personnel of this office: On July 9, 1942, Captain James J. Cooke, A.G.D., Inactive New York National Guard, was ordered to active United States service. Captain Cooke was an assistant to the Director of the Finance Bureau. On July 20, 1942, Major John A. Coffey, A.G.D., Inactive New York National Guard, was likewise ordered to active United States service. He was subsequently found physically disqualified, however, and reported back to resume his position as Director of the Bureau of Grounds and Structures on September 27, 1942. On August 20, 1942, Major Leo Heyman, Finance Department, Reserve List, accepted an appointment as Captain, Finance Department, Army of the United States. Colonel C. B. Degenaar, Infantry, resumed his duties as Director of the Bureau of Veterans & Soldiers Affairs upon being relieved from active United States service September 13, 1942, for physical disability.

United States Military Academy.—Due to the induction of the New York National Guard into United States service no competitive examination for entrance to the United States Military Academy was conducted during the year 1942.

Duty in aid of civil authority.—On July 19, 1942, it was necessary to order Company I, 74th Regiment, New York Guard, to full time duty in aid of civil authority at Olean, New York, during flood emergency. Two (2) officers and fifty-one (51) enlisted men responded. They were released from duty July 21, 1942.

Hines Attendance Trophy.—No contest due to the New York National Guard being in United States service.

Strength.—The strength of the New York Guard on this date is sixteen thousand three hundred forty-two (16,342), including all ranks. A detailed report of strength is included under the report of the activities of the Personnel Bureau.

Turnover of personnel.—The turnover of personnel of the New York Guard continues at a high rate largely due to entrance of both officers and enlisted men into the armed forces of the United States; through the "Guard" interfering with business or educational activities and the dropping of enlisted men for failure to attend drills. Of 16,057 enlisted men separated from the service for all purposes during 1942, 6,138 or 39% were to enter the armed forces of the United States; 4,613 or 29% gave business or educational excuses as the cause of their requests for separation and 2,853 or 17% were dropped because of failure to attend armory drills. The remaining 15% were discharged because of change of residence or other reasons not mentioned heretofore. Of the commissioned personnel 518 officers were separated from the New York Guard during 1942. As an officer, in resigning, is not obliged to state his reason for so doing, it cannot be officially stated how many of these resigned for the purpose of accepting appointments in the armed forces of the United States. However, information gathered from other reliable sources indicate a large percentage withdrew from the New York Guard for that purpose. To fill the vacancies created thereby and other existing vacancies in the New York Guard, 1,582 military commissions were issued in 1942 as against 649 in 1941.

Bureau reports.—For convenience in reference the remainder of this report is presented in sections dealing with the activities of the various bureaus of the division:

Bureau of Equipment and Supply

The New York State Arsenal building at 64th Street and 2nd Avenue, Brooklyn, was leased to the War Department effective December 15, 1942, for use by the New York Port of Embarkation, and new quarters were assigned by The Adjutant General in the armory of the 102nd Quartermaster Regiment at 355 Marcy Avenue, Brooklyn, N. Y.

This change of station entailed the removal of all State and Federal property in the value of several millions of dollars, which move was accomplished entirely by employees of the New York State Arsenal with the assistance of ten civilian employees assigned by the Commanding General, New York Port of Embarkation.

An idea of the magnitude of the undertaking may be gained by the fact that an average of over twenty truckloads of equipment a day were loaded at the old station and unloaded at the new, and that approximately five weeks were required for the operation.

During 1942, the basic weapon of the New York Guard was changed from the U. S. Rifle, cal. .30, M.1917, to the 12 gauge shotgun; the details of the present armament are set forth in the Ordnance Section of this report.

The New York Guard held a period of field training for the first time in 1942 in which this office participated by arranging the transportation, subsistence and other necessary details incident to such training, and by the assignment of the Camp Quartermaster and two assistants from the personnel of this office.

As a result of proceedings instituted by this office, the War Department allowed a claim in the amount of \$195,310.42 for value of State property taken into the Federal service by the New York National Guard in 1917. This claim was originally submitted in 1920, but due to loss of pertinent vouchers, etc., in the mails, had

not been pressed. In 1941, this office conducted an exhaustive search of all records which included visits to Washington and Albany to check available data, and as a result, sufficient evidence was accumulated to satisfy the War Department of the validity of the claim, so that a favorable decision was arrived at. The money so allowed is not a cash award, but is in the form of a credit established by the War Department against which certain items of Federal property issued to the New York National Guard which may be lost or destroyed through unavoidable causes and which would normally require a cash payment by the State may be charged.

The accounts of the U. S. Property & Disbursing Officer were audited and closed and this officer relieved.

The Assistant Adjutant General, State Quartermaster, was designated as Contracting and Authenticating Officer for the purpose of administering such appropriations as the National Guard Bureau may make available from time to time for maintenance of National Guard installations at camps, rifle ranges, etc.

On the recommendation of the State Quartermaster, the Commanding General, New York Guard, has issued instructions for a physical inventory of all property in the hands of organizations to be made by the several Brigade staffs.

The details of operations of the several sections which follow indicate the activities and the equipment required in the maintenance of the New York Guard.

Quartermaster

On January 1, 1942, there were 22 regiments, 5 Brigades, a Signal Company and a Headquarters Detachment, a total authorized strength of 17,140 within the State. All organizations had been initially equipped during the preceding year with basic items of clothing, i. e., leggings, oversuits, shirts, raincoats, shoes, and field caps.

During the year 1942 the addition of the 1st, 2nd and 3rd Separate Battalions, Co. "D", 6th Regiment, Cos. "H" and "M", 74th Regiment, and an increased authorized strength of the entire Guard, necessitated the purchase by the State of additional articles of clothing and equipment. Size compilations were completed and specifications furnished for all articles of clothing and equipment purchased by the State during the year. These are listed in Appendix I (A & B).

Upon recommendation of the Commanding General, New York Guard, there were purchased 87 Kitchen Utensil Sets, each set consisting of approximately 50 items. These sets were issued for field training purposes and are currently being stored at the Arsenal for emergency use (See Appendix I-C).

Fifteen (15) procurement requisitions were forwarded to the War Department for 19 items of clothing and 40 items of equipage to be furnished without reimbursement by the State. Federal

property received during the year, included in this category, is listed in Appendix II. The War Department also made available certain "CCC", obsolete, and lend-lease clothing; however, procurement requisitions were acted upon only if the property thereon came within the available status of "Lend-Lease, Obsolete-CCC".

All organizations are completely equipped with sufficient quantities of every article enumerated above, with the exception of trousers, wool, OD, and mackinaws, green. It has not been possible to make complete issues, due to size limitations. Requisition has been made upon the Army for additional trousers, wool, OD, in usable sizes, and for an exchange of mackinaws presently on hand which are too small for issue. The War Department having advised that all available stocks of trousers, W.O.D., are exhausted, the State has contracted for 10,000 pairs, delivery of which will commence in January 1943.

Size limitations have been a distinct handicap in the outfitting of the entire New York Guard. Size ranges of clothing purchased by the State were compiled by this office; however, because of limited purchases and the tremendous personnel turnover, a tariff size scale has been impossible to compute. At the beginning of the year the recruiting tendency was towards younger men who were not effected by the army draft. Later the recruiting tendency was to enlist the older individual who was uneffected by the draft, still later the draft age dropped to the 18-19 state. There was not sufficient clothing on hand to adequately fit the ever changing personnel. This condition was aggravated when property was received from the Federal government in sizes which were not suitable. Size requisitions had been submitted, but only available stock of the army was shipped which was in CCC, Lend-Lease, and Obsolete classifications. Since the CCC was composed largely of young men and boys, it is apparent that the sizes present a real problem.

Pursuant to provisions of General Order No. 6, Hdqrs. New York Guard, dated April 3, 1942, shipments of Armory Guard bedding were made to all armories within the State. Two thousand seven hundred and forty-three requisitions were received, edited and processed for property required by organizations of the New York Guard, for which necessary postings were entered, shipping tickets prepared and appropriate accounts debited or credited. A record was kept of all property issued to the various units of the New York Guard as to manner and date of shipment.

Request has been initiated to the War Department for additional issues of mess equipment, i.e., cans, meat; canteens, knives, forks, spoons, and other items of Quartermaster equipment, to the end that each individual in the New York Guard may be completely equipped. At present there is on hand 13,180 of each item of mess equipment received from the Federal government. The strength of the New York Guard is 18,000. Advice has been received from the War Department that these and other items of equipment issues to the State Guard are under consideration.

All clothing and equipment received at this Arsenal, aggregating over 647,850 pieces, were checked, inspected and stored for subsequent issue. Upon receipt of organization requisitions, property was selected by size and type, repacked in desired quantities and shipped to organizations.

Field Training

Pursuant to General Orders No. 12, A.G.O. dated May 26, 1942, authorizing field training period, preparation was immediately made for the procurement of the many essential camp items necessary. Requisitions for such items as were available from Federal sources were immediately prepared, and forwarded to Hdqrs. Second Service Command. Procurement of all other items not available from Federal sources was initiated. Estimates of subsistence requirements necessary for the entire period were furnished the State Division of Standards and Purchase.

The Camp Quartermaster and Assistant Camp Quartermaster were detailed to duty at Camp Smith from the personnel of this office. Based upon requirements of the Quartermaster, the Division of Standards and Purchase arranged for contracts with over 60 contractors for the purchase of subsistence stores. All contracts were constant, with the exception of fruits and vegetables which changed weekly.

Food for approximately 14,000 troops of the New York Guard was furnished during field training period at a cost of \$.7304 per trainee per day.

In addition to subsistence requirements, the Quartermaster contracted for and issued, as required, dozens of camp maintenance items, such as, gasoline, oil, fuel oil, coal, wood, ice, chlorine, disinfectants, etc.

The Camp Quartermaster also issued from the warehouse to all incoming regiments, such cleaning material as was required for the regimental 10-day tour. A few of these items included brooms, rags, matches, soap, etc. The Camp warehouse was also utilized to store clothing and equipment shipped by the New York State Arsenal, pending the arrival of up-State regiments, where shipments to widely spread units at their home station would have caused considerable delay, inconvenience, and additional expense.

Purchase and issue of subsistence supplies by the Camp Quartermaster was made exceedingly difficult, due to attendant war circumstances, i.e., gas rationing, rubber rationing. The majority of contractors were in New York City. These contractors would make only one delivery a week, and then only on a day that their particular trucks covered that route. This required the ordering of meats and its storage in the Quartermaster's refrigerator for a six day period.

The staples were contracted for by the Division of Standards and Purchase, and were ordered by the Quartermaster in bulk for the entire period. They were stored in the commissary and their issue was both expeditious and convenient.

The consensus of opinions from organization commanders, Medical Officers, and men, was to the effect that all subsistence supplies issued were of the best quality. All meats and other perishables were inspected by Inspectors from the Division of Standards and Purchase.

Emergency rations of salmon and pork and beans were always available in the event of late deliveries by contractors or spoilage.

The majority of Quartermaster property was issued by the Quartermaster to the first two regiments in camp. These regiments successively transferred such property to the incoming organizations, included among this property were 11 kitchen utensil sets, 700 mattresses, 800 blankets, 700 cots; bulbs, milk cans, G.I. cans, etc.

Requisition was made upon the Army for sufficient transportation which would be necessarily attendant to field training. Such transportation was necessary for baggage movements, troop movements, daily subsistence issues, demonstrations, etc.

The Quartermaster motor pool consisted of eight (8) army 1½-ton trucks and five (5) passenger vehicles, which were all serviced and maintained by the Quartermaster Detachment personnel.

At the conclusion of the field training period, subsistence supplies on hand were shipped to the New York State Arsenal for storage. These supplies are non-perishable and will be utilized initially upon emergency mobilization of any unit of the New York Guard pending formal contracts and contacts with various State agencies involved.

Signal

The only items of Signal equipment purchased by the State during the year were 5,380 feet telephone wire and 14 field telephones. Phones and wire were used on the firing ranges at Camp Smith during the field training period, and then shipped to the 1st Signal Company.

Correspondence has been initiated with the War Department requesting information as to whether or not there was available for purchase by the State, or issue by the Federal government, certain basic signal equipment recommended by the Signal Officer, Hdqrs. New York Guard. To date this matter is still pending.

Medical

Upon recommendation of the Surgeon, Hdqrs. New York Guard, there were procured twenty-two (22) Regimental Surgeon's sets, each set consisting of 3 chests with 121 components. The components, upon receipt at the Arsenal from the contractors, were assembled into sets and shipped to each organization. Quantities of each component as received are listed in Appendix III-A. These sets were received by organizations in time for field training.

During the year purchases were made of all component articles of Belt, Medical, H.C. These belts had been purchased and issued empty during the latter part of 1941. There are eleven component parts of the Medical Belt. (See Appendix III-C). Upon receipt from the contractors they were immediately shipped to the 22 Medical Detachments of the New York Guard. Also purchased during the year were 400 Belts, web, H.C., for use as replacement stock.

Prior to field training there was also issued one (1) Prophylactic Station set to each organization. (See Appendix III-B).

Transportation—(Motor)

A "Tractor" (motor power) for the cargo trailer body on hand at the Arsenal was purchased and affords considerable relief to congestion and in effecting local shipments. However, despite this addition, it has been necessary to call on the Regular Army and for organizations to borrow trucks from commercial sources to enable us to move equipment. Examples of the bulk involved are the 2,500 mattresses received from Schenectady General Depot which required five freight cars; Overshoes, three (3) freight cars.

The present transportation available, one (1) 1½-ton truck is still inadequate for the demands. In the event of an emergency mobilization, it is believed that this office would be handicapped due to limited transportation. The two (2) vehicles (tractor and truck) would be used to make immediate shipments of emergency supplies and subsistence, leaving the Arsenal without any other means of transportation. Upon the conclusion of the field training period at Camp Smith, all borrowed vehicles were returned to the Army, with the exception of five which were temporarily retained due to constant motor shipments of property from Camp Smith and shipments to local areas. These borrowed vehicles are to be returned to the army shortly.

Ordnance—Chemical Warfare Section

In accordance with War Department instructions all rifles cal. .30, M.1917, (with the exception of 100 per regiment) which had been issued to the New York Guard, were shipped to Raritan Arsenal.

Shotguns and Thompson sub-machine guns have been issued in their place and the normal armament of a rifle (shotgun) company now consists of five sub-machine guns (three Federal issue and two State), and the balance of the personnel armed with shotguns.

This exchange of weapons entailed the assembly and shipment of some 11,000 rifles, bayonets and accessories and the receipt and reissue of a similar number of replacement weapons. The shipments and issues were scheduled by this office so that no organization was without weapons at any time during the progress of the exchange.

Following are the items of Ordnance material and equipment received during 1942.

PURCHASED BY THE STATE OF NEW YORK

Ammunition

35,520 rds. Cartridge, cal. .30, gallery practice, M.1919
 444,000 rds. Cartridge, ball, cal. .45
 40,000 rds. Shell, 12 gauge, No. 00 buckshot
 92,400 rds. Cartridge, blank, cal. .30

Record Section

The Record Section at the State Arsenal maintains a complete property accounting of all items purchased by, or issued to the State of New York and to the units of the New York Guard. A Stock Record Account for the State Quartermaster is debited with the property received at this Arsenal and credited, upon receipt of an accomplished voucher, with all items physically transferred from the State or otherwise accounted for. A Memorandum Receipt Account for each unit of the Guard is kept up to date by charging out the items which this unit receives and crediting items properly disposed of.

FEDERAL PROPERTY: All Federal property charged as shortages to the units of the inducted New York National Guard was accounted for by consolidating all pending reports of survey and debiting the money charged against the State of New York to existing credits on the books of the National Guard Bureau. Separate accounts were kept for the State and each New York Guard unit debiting the various items of Federal property issued to the State.

STATE PROPERTY: Property purchased by the State from commercial firms and from Federal depots was debited on the Stock Record Account of the State Quartermaster and issued on Memorandum Receipts to the organizations of the New York Guard.

GENERAL: Reports of Survey—This section received, edited and forwarded to Brigade Inspectors reports of survey covering Federal and State property lost, damaged, stolen or destroyed by the Guard. Upon action by the designated Inspector, organization accounts were adjusted in accordance with findings and recommendations.

Inventory and Inspection Reports—Items worn out through fair wear and tear were disposed of by inventory and inspection reports submitted to this office for indorsement to, and action by Brigade Inspectors. As a result of the report of such Inspectors, items were sold, salvaged or destroyed.

Form No. 18—Credit was issued to the Guard on vouchers covering the payment of Federal and State Property lost, damaged or destroyed and for which liability was acknowledged. Funds received were transmitted to the Treasurer of the United States or The Adjutant General, State of New York, as indicated.

Certificates of Losses—An allowance of fifteen cents per man per fiscal year on a certificate of losses was permitted for all items of State clothing issued to the Guard and unavoidably lost. This policy was established in accordance with the practice of the National Guard Bureau to permit an allowance to the members of the New York National Guard for the loss of clothing due to unavoidable causes, such as manoeuvres, etc.

Consolidated Memorandum Receipts—This year owing to the great turnover in the officer personnel of the Guard, particularly Regimental Supply Officers, it was deemed expedient to issue semi-annual Consolidated Memorandum Receipts to all units of the Guard. These vouchers covered all State and Federal property charged to each organization as of May 31, and November 30, 1942.

Circulars—On January 28, 1942, this office prepared and issued to all interested parties a copy of Arsenal Circular No. 1. This circular gives in detail an outline of the method and procedure in preparing the property vouchers as listed in subparagraphs 1, 2, 3, and 4, above.

Finance Section

Collections for lost State and Federal property were effected and forwarded to The Adjutant General, State of New York, and Finance Officer, USA.

Correspondence, research and personal interviews in connection with vouchers disallowed by the Comptroller General of the United States against accounts of former U. S. Property and Disbursing Officers.

The rendition of an account current with all required supporting schedules and vouchers at the close of business each month, for the first four months of 1942, and closing of U. S. Property & Disbursing Officer's account.

Obtaining bids, preparing contracts and vouchers in connection with alteration and repairs to Binghamton Infantry target range; laying of electric wires underground in West Camp Officer's area at Camp Smith; ten-ton incinerator at Camp Smith; repairs to target ranges and painting of buildings at Camp Smith, N. Y., and general construction at Camp Smith, N. Y. totaling \$64,195.63 of Federal funds.

One thousand six hundred eighty (1,680) State vouchers were audited and prepared for payment. Vouchers covering maintenance and repair of State Arsenal totaled approximately \$15,-100.00.

All vouchers pertaining to field training of New York Guard at Camp Smith, including subsistence, fuel, equipment, etc., were

audited. Vouchers totaling \$91,397.93 covering subsistence stores to Camp Smith were submitted by this office for payment.

Of this amount \$1,283.50, representing overdrawn and excess subsistence supplies furnished at Camp Smith and perishables sold to Brooklyn State Hospital and the Coast Guard, was turned back to The Adjutant General.

Travel ration and drayage vouchers were audited; also, vouchers covering State bills of lading for the transportation of equipment to State armories.

Prior to field training, many vouchers pertaining to equipment and supplies for the New York Guard, including clothing, medical and surgical supplies, also kitchen utensils, etc., were audited and forwarded to the Albany office for payment.

Transportation request vouchers for both field training, and also covering training of officers at Second Service Command Tactical School were audited.

A great deal of work was entailed in the auditing of vouchers before they were in proper condition for submission to Albany, as many had to be returned to contractors before they could be passed for payment.

Obtaining bids and arranging for repair of shoes and renovation of clothing and equipment of the New York Guard.

Advertising and sale of salvaged material.

Preparation of requisitions covering supplies to State Arsenal and Camp Smith, N. Y., for field training.

Construction Section

Six motor storage buildings at Camp Smith, begun in 1941, were completed and accepted by the Federal Government and the State of New York. These buildings were constructed at Federal expense. Other Federal projects included repairs to mess halls, repairs to machine gun range, painting of Federal buildings, repairs to rifle ranges, all at Camp Smith. The details of procurement and contracts, where required, were handled through this office.

Transportation Section

Freight shipments to the New York Guard required 1,414 State bills of lading at an estimated cost of \$4,798.08. A total of 476 express shipments were made to the New York Guard at a cost of \$357.86.

Two hundred and twenty-five (225) Transportation Requests were issued in connection with the transportation of 13,967 officers and enlisted men of the New York Guard to Camp Smith, Peekskill, N. Y., for field training.

Five hundred fifty-eight (558) Transportation Requests were issued in connection with the transportation of officers of the New York Guard to Second Service Command Tactical School, Hacktstown, N. J.

Mail and File Section

Correspondence received and recorded during calendar year 1942—28,000 pieces. Handling of incoming and outgoing mail twice daily.

Filing of New York Guard correspondence; letters in general pertaining to New York State Arsenal accounts, publications, etc.

Total armories 105.

Total number of armories leased for subdivision of the National Guard and Naval Militia unable to secure accommodations in the foregoing is 6.

The active military establishment of the State is housed in the 87 buildings indicated above.

Storage facilities are provided at the United States Naval reservation, Sackets Harbor, for material of the 13th Fleet Division, Naval Militia.

Arsenals, Etc.

Arsenals, camp grounds and rifle ranges, owned by the State, are as follows:

Brooklyn.—State Arsenal, erected 1926. Used by The Adjutant General of the State as an arsenal and storeroom. Approximate valuation \$1,000,000. Floor surface 166,000 square feet.

Peekskill.—State Camp Ground and Rifle Range. For use of infantry and such other troops as may be designated. Approximate valuation of land and buildings, \$235,000. Approximate area 1,886 acres. One hundred and eighty-seven targets.

Guilderland Rifle Range.—Approximate valuation \$25,000. Acreage, 238 acres, targets 25.

Rifle Ranges

Field Rifle Ranges for the use of troops of the Guard and Naval Militia are leased by the Federal government and State as follows:

Total leased rifle ranges 17.

Total floor space of all buildings, exclusive of structures at camps and rifle ranges, is 6,668,681.00 square feet.

The approximate valuation of military grounds and structures owned by the State and City of New York is \$41,660,893.00.

It is recommended the program of security of armories be continued.

In addition to their use by the military establishments of the State many of the armories have been used by the armed forces of the United States and many of the agencies connected with the State Civilian Defense.

Chapter 932 of the Laws of 1942 turned over to the State maintenance, repair, etc. of the armories, located in the Third and Fourth Brigade Districts.

The sum of \$800,000.00 was appropriated for the armories in New York City for the fiscal year 1942-43 but this sum is inadequate and an additional appropriation of \$67,770.53 will be necessary for the purpose.

At the close of the year 1942, there was forwarded to the Director of the Budget the sum of \$378.37 received from the sale of scrap iron found in the armories throughout the State.

Veterans and Soldiers Affairs

PENSIONS AND CLAIMS

Blind Veterans' Fund

There are on this date a total of two hundred and thirty-one (231) veterans of all wars and widows of veterans who receive five hundred and no/100 (\$500.00) Dollars, per annum, under the provisions of Article 1-B of the Military Law. Thirty-eight (38) new applications were filed since the last report. Twenty (20) were approved and certified to the Comptroller, eight (8) were disallowed, and ten (10) are pending investigation. Payment of one recipient of this annuity discontinued; sight restored. Eight (8) recipients of this annuity died during the past year.

Pensions

Fifty-nine (59) persons are at present receiving pensions under the provisions of Section 220, Military Law, which provides compensation for permanent disability incurred in line of duty in the New York Guard or Naval Militia under lawful orders. Since the last report two (2) claims for pensions were disallowed; two (2) pensioners died during the past year.

Claims

Pursuant to Section 113, Military Law, units of the New York Guard attended field training during the year of 1942 in accordance with G.O. No. 12, this office, dated May 26, 1942 at Camp Smith, Peekskill, N. Y. During this training period one-hundred forty (140) claims for medical care on account of disability under Section 223, Military Law, were reported; of the above mentioned number, one-hundred and twenty-five (125) claims were granted; nine (9) are now pending. Six (6) cases were disallowed, not incurred in line of duty. Six (6) claims for pay and medical care due to disability incurred in line of duty were granted during the past year at home stations to members of the Military Forces of the State of New York, under the provisions of Section 223, Military Law. Five (5) claims were disallowed and sixteen (16) are now under investigation.

Retirements

Under Section 19-A, Military Law, eleven (11) applications for retirement at half pay were approved during the past year, all of which were armory employees, and one (1) application for retirement was disallowed. There are now sixty-two (62) persons receiving retirement pay under the provisions of this law. One (1) retired employee died during the calendar year 1942.

Under Section 219-A, Military Law, there are nine (9) retired officers of the New York National Guard, former employees of this

Division, and one (1) widow of a deceased officer of the New York National Guard who are now receiving compensation under the provisions of this section of the law.

VETERANS' RELIEF

Under Chapter 589, Laws of 1922, a commission to be known as the New York Veterans' Relief Commission, consisting of The Adjutant General, to be chairman thereof, The Comptroller and The Attorney General, was created for the purpose of distributing relief to sick and disabled veterans of the First World War. Under chapter 326, laws of 1923, this commission was abolished and a separate bureau was created in the office of The Adjutant General to be known as the Bureau for the Relief of Sick and Disabled New York Veterans. Under chapter 605, laws of 1928, chapter 41 of the laws of 1909 entitled "An act in relation to the militia constituting chapter 36 of the Consolidated Laws" was amended by adding Article 1a, thus establishing the administration of relief as part of the Military Law.

Since the institution of the Bureau many thousands of requests for relief have been received from sick and disabled, needy and unemployed, honorably discharged veterans of World War 1. These applications were thoroughly investigated and a majority of them were rejected due to the fact that they did not come within the meaning of our law. However, to date 12,440 cases have been approved of which 10,807 are active or have been paid the maximum allowed under our law and 1,633 are in our rejected file for various reasons.

The bureau is represented by a resident commissioner in each assembly district throughout the State. The commissioner receives applications, investigates applicants to determine eligibility for relief, prepares all papers, renders the periodical reports and returns, makes the relief payments upon approval of this office, and discharges the multiplicity of duties pertinent to his position. These gentlemen serve without pay; they gave their time and efforts to the work without compensation and are rendering a service to the State and the needy veteran of inestimable value. Theirs is truly a patriotic service.

Case papers submitted by the commissioner are checked and processed by the bureau, including vouchers for the payment of relief awards, for commissioner's necessary traveling expense, and for expenses incurred by the commissioners in the performance of their duties, such as for stenographic and medical services. Book accounts of all monies appropriated for veteran relief and administration are kept by the bureau. In addition information pertaining to veterans relief is furnished to individuals, including commissioners and various organizations which entails considerable correspondence.

Recruiting Bureau

Only men of the highest type obtainable are being enlisted for the New York Guard.

Bureau of Files, Mail and Distribution

During the year 1942 there were nine hundred and seventy-eight (978) issues of publications on Training, Army Regulations, Field Manual, Technical Regulations, War Department Circulars and other pamphlets issued by the National Guard Bureau for distribution to the State Staff and New York Guard in addition to the necessary State forms for the use of the newly organized New York Guard. Over three thousand (3000) requisitions for forms and pamphlets were filled and distributed to the Guard units. There were also printed and distributed, twenty-one (21) General Orders, ten (10) Bulletins, and thirty-two (32) Circulars promulgated by this office, and twenty (20) General Orders, seven (7) Training Circulars by the New York Guard headquarters. There were eight hundred and ten (810) jobs run on the mimeograph consisting of specifications for the Bureau of Grounds and Structures, advance General Orders, Bulletins and Circulars of this office. This Bureau is also charged with the ordering and supervision of all printing and the purchase of all office supplies used by this office.

Bureau of War Records

The activities of this Bureau are those described in the report of this Bureau for the year 1935.

The Bureau is still engaged in compiling World War records by counties, in addition to its normal activities.

Bureau of World War Records

Under constitutional authority a bonus for the New York State Veterans of the World War was provided pursuant to Chapter 19, Laws of 1924. The sum of \$45,000,000 was realized from the sale of bonds authorized by law, this sum having been augmented by premiums amounting to \$659,565, the latter sum also being appropriated for bonus purposes under Chapter 208, Laws of 1925.

A Commission, consisting of The Adjutant General, the Comptroller, the Treasurer and the Attorney General, administered the disbursement until April 22, 1296 when its functions were absorbed by The Adjutant General.

Each eligible veteran, upon application, received the sum of \$10.00 for each month of service with the colors, between April 6, 1917 and November 11, 1918, with \$150.00 as the maximum payment. Under Chapter 209, Laws of 1925, an additional appropriation of \$2,500,000 was made. Chapter 26, Laws of 1925, added the next of kin to those who were killed or died in the

service or prior to February 28, 1924, as eligible to receive the bonus. Under Chapter 267, Laws of 1926, a further appropriation of \$300,000 was approved. Chapter 676, Laws of 1931, extended the time for filing claims to July 1, 1932 and made an appropriation of \$250,000. At an extraordinary session of the Legislature in 1931 to carry out the provisions of an act creating a temporary emergency relief administration, the sum of \$584,000 was appropriated by Chapter 799 for the payment of bonuses, \$30,000 of which was made available for administration expenses. Under Chapter 120, Laws of 1933, an additional appropriation of \$90,000 was made for bonus payments and \$25,000 for administrative expenses. The unexpended balances of these appropriations were reappropriated each year by the Legislature and were made available in the Executive Budget of 1936, Chapter 15, Laws of 1936. This chapter amended by a substitute bill, Chapter 360, Laws of 1936, eliminated these reappropriations and refunded the unexpended balances amounting to \$72,824.92 to the General Fund. By Chapter 875, Laws of 1936, \$10,000 of this refunded amount was reappropriated and made available for one year beginning July 1, 1936. This action of the Legislature automatically closed the Bureau on June 30, 1937 and suspended the payment of bonuses on that date. Chapter 40, Laws of 1937 reappropriated \$200 of the unexpended balance of the appropriation made by Chapter 875, Laws of 1936 for incurred liabilities and created the Bureau of World War Records in the Adjutant General's Office to take over the records of the Bonus Bureau. Since 1938 funds have been appropriated by the Legislature each succeeding year for the payment of suspended claims which had been approved. During the operation of the Bureau there has been appropriated for bonus purposes \$49,423,284.33 out of which there has been paid in bonuses and administrative costs the sum of \$49,350,454.75 and in a refund to the General Fund of \$72,829.58.

Under the original law no claim could be received after May 1, 1927. The Bureau reopened April 23, 1931 and closed for the receipt of applications July 1, 1932 during which period 10,135 new claims were received.

The total claims received was 427,799 or 82 per cent of the 518,864 veterans credited to the State. Of the number received, 9,273 or .0215% were rejected as not entitled to the bonus. There are still 4,868 or .0115% of the claims received awaiting action by the Bureau due to the delay of the veteran in supplying required data. Of the total received 413,666 or 96% were paid at the rate of \$1.85 per claim. Of the total veterans entitled to make application 91,065 or 18% failed to make a claim although 15,197 of this number applied for blanks. Their requests however, had to be denied owing to the fact that they applied after the time limit, July 1, 1932. The average payment per claim was \$117.23 or 78% of the maximum amount allowed, \$150.00. Of the total claims received 25,257 applicants were not credited by the authorities in Washington as having enlisted from the State of New York.

Of the claims awaiting action there are being received from time to time letters from the applicants supplying sufficient data to warrant the payment of these applications. During the past year two (2) of these applications in the amount of \$193.33 have been approved for payment. These claims have been segregated and a request has been made to the Legislature for an appropriation sufficient to pay them.

During the operation of the Bureau many activities developed other than the payment of the bonus. Being an office of record constant inquiries are being received from governmental, civic and veteran agencies and private sources relative to pertinent information regarding the services of veterans and certified copies of papers submitted with bonus applications for use in furthering claims for compensation, tax exemption, civil service examinations, retirements, promotions and for other and varied purposes. From experience with the records of the Civil and Spanish wars, which are still active, undoubtedly the records of this Bureau will remain in demand for some time to come.

Personnel Bureau

The functions of the Personnel Bureau are those described in the report of the activities of this bureau for 1935.

Appointments and separations of officers.—During the year 1942 military commissions and separations were effected as follows:

	New York Guard	New York National Guard	Naval Militia	Reserve List	Retired List	Totals
Officers promoted.....	617	1	618
Officers appointed from the ranks.....	651	651
Officers appointed from other sources.....	287	287
Officers appointed on Reserve List.....	26	26
Officers transferred, New York Guard to Reserve List.....	147	147
Officers placed on the Retired List.....	18	18
Officers transferred from the active to Inactive New York National Guard.....	9	9

Officers who died during 1942.....	7	4	2	4	10	27
Officers honorably discharged on Surgeon's Certificate of disability.....	26	26

The above table indicates that one thousand five hundred and eighty-two (1,582) military commissions were issued during the year. There were five hundred and nineteen (519) officers separated from service. Thirty-five (35) were in the New York National Guard.

Medal for Valor.—No medals for Valor were awarded during the year 1942.

Conspicuous Service Cross.—Under the provisions of Section 247, Military Law, twenty (20) Conspicuous Service Crosses were awarded to various applicants during the year 1942.

Decorations for Long and Faithful Service.—During the year 1942, one hundred and seventy-six (176) Decorations for Long & Faithful Service of the various classes were awarded to applicants as follows:

Special Class.....	(35 years service).....	1
First Class.....	(25 years service).....	27
Second Class.....	(20 years service).....	37
Third Class.....	(15 years service).....	38
Fourth Class.....	(10 years service).....	73

The present appropriation for the purchase of this decoration should be fixed at not less than nine thousand dollars (\$9,000) due to increasing demands caused by members of the State forces remaining in service for longer periods than heretofore.

APPENDIX A

Report of the Commanding General, New York Guard

In accordance with the requirements of paragraph 6, Regulations No. 80, I have the honor to submit the following report on the affairs of the New York Guard for the calendar year 1942.

1. *General.* The Guard has made good progress in training and in general efficiency. Deficiencies, of course, are present and are recognized; some are and some are not immediately within our control. Our quantity of service ammunition for outdoor range firing is limited. The terrain at Camp Smith and the facilities for field training are not altogether adequate, but we are extremely fortunate to have them as they are. What we lack in some respects we offset in interest and enthusiasm. The zeal and devotion of our soldiers are perhaps our best equipment. The morale of the Guard as a whole, in spite of occasional rumors to the contrary, is high. Three visits by our former Commander-in-Chief, Hon. Herbert H. Lehman, the visits of the Lieutenant Governor and of our legislative leaders, together with the continued interest of many prominent individuals from all walks of life, proved an inspiration to our five brigades and our twenty-two regiments. We believe that our entire division may safely be regarded as a dependable military combat force, ready and anxious to serve on call in any emergency.

2. *Strength.* The average strength of the New York Guard during the current year has been 16,140 officers and enlisted men, reaching a high mark of 16,737 in the month of May, and a low mark of 15,760 in the month of January. Because of the large number called into federal service, our turnover has been, and still is, extremely high. However, it is gratifying to know that we are contributing so many well-trained men to our armed forces. The recent lowering of the age limit from 18 to 17 years will help progressively in a partial solution of our turnover and recruiting problem, although other expedients will have to be devised and introduced. We are giving much thought to this phase of our problem. See Appendices Nos. 1-A, 1-B and 1-C for statistical data.

3. *Attendance.* The average attendance percentage for armory drills for the current year to date is 85.8%. See Appendix No. 1-C. The attendance percentage for our field training alone was 87.0%. See Appendix No. 3. This showing, all things considered, seems reasonably satisfactory. We are not permitted to punish men for absence without leave. This is a handicap to discipline. Many are engaged in war production work, and for that reason

on occasions are prevented from attending drills. Further, a number of our Guardsmen are confronted with transportation difficulty because of gasoline rationing.

4. *Organization.* Additional units of the New York Guard were authorized during the year, as follows:

Company D, 6th Regiment, by General Orders No. 5, The Adjutant General's office, Albany, February 21, 1942.

Companies H & M, 74th Regiment, by General Orders No. 17, The Adjutant General's Office, Albany, August 11, 1942.

1st and 2nd Separate Battalions, by General Orders No. 13, The Adjutant General's Office, May 27, 1942.

The stations of all the above units and the muster-in dates are indicated in Appendix No. 2.

The 3rd Separate Battalion (negro), stationed in the armory at 801 Dean Street, Brooklyn, N. Y., was authorized by General Orders No. 18, The Adjutant General's Office, Albany, October 22, 1942. At this time the only action taken has been the appointment of Major Myles Anderson Paige as Battalion Commander. Company L, 5th Regiment, was transferred from 801 Dean Street, Brooklyn, N. Y., to the armory at 171 Clermont Avenue, Brooklyn, N. Y.

The 3rd Battalion, 13th Regiment, has been moved from the armory at 355 Marcy Avenue, Brooklyn, N. Y., to the armory at 357 Sumner Avenue, Brooklyn, N. Y. Therefore, the entire 13th Regiment is now located in its own armory. This move was made necessary by the transfer of the New York State Arsenal personnel and equipment to the Marcy Avenue armory, the State Arsenal building having been requisitioned by the War Department.

Important changes in our commissioned personnel are as follows:

Colonel George A. Shedden was transferred to the State Reserve List on January 8, 1942. Colonel Arthur A. Farrell succeeded him.

Colonel George G. Hollander, 14th Regiment, was placed on the Retired List for Officers on January 8, 1942. He was succeeded by Colonel Raymond B. Beach.

Colonel George D. Toomey, 65th Regiment, was honorably discharged on May 20, 1942. He was succeeded by Colonel John F. Malone, Jr.

Colonel Milton S. Bowman, 7th Regiment, because of joining the federal forces, was honorably discharged on September 18, 1942. He was succeeded by Colonel George K. Brazill.

It is with deep regret that I report the death of Colonel Elmer P. Sawyer, 15th Regiment, on August 13, 1942. He was an efficient and respected officer, and his death was a distinct loss to the New York Guard. He was succeeded by his Executive Officer, Colonel William W. Chisum.

Colonel John W. Foos, U.S.A. (Retired), joined our Headquarters on May 1, 1942. He has been in charge of, and has directed and coordinated, all training activities and programs.

The success of our 1942 field training was due in a large measure to his untiring energy and superior ability as an instructor. We are glad for his sake, but decidedly not for ours, that he has been ordered to active duty with the Army of the United States, in which he served so successfully for many years. The loss of his services will be felt and deplored by every officer and enlisted man in the Guard.

5. *Training.* During the current year we believe that progress was made in carrying out our training objectives as prescribed by State and suggested by federal authorities. While we are primarily a state military force, we have earned the earnest attention and interest of the Army of the United States and particularly of the units located on Governors Island, N. Y. The War Department plans for interior security measures include the New York Guard as an important component, and count on us as a supporting force for active service and help in an emergency.

6. *Field Training.* Each regiment and each brigade headquarters was given a field training period of ten days at Camp Smith, Peekskill, N. Y. This training began on June 14th and ended on October 1st. Camp Smith has many excellent facilities for training, but the terrain is limited to field exercises of units no larger than companies. More motor transport would have to be provided to move troops to remote parts of the reservation in order to save valuable time, which would otherwise be consumed in marching.

The intensive course of instruction was designed to train our men in those elements which could not be taught in the armory; to permit all officers and enlisted men to fire service ammunition; to teach combat principles and troop-leading in small units from the squad to the company, with particular emphasis on domestic disturbances and to stress the training of junior officers and non-commissioned officers in leadership.

The administration and housekeeping arrangements were satisfactory.

Instruction in firing weapons on the range was handicapped by the limited amount of ammunition available. The shortage of ammunition was, of course, due to factors beyond our control. Within the available ammunition allowances, the results were good.

Instruction in chemical warfare, both technical and tactical was given to a group of officers and enlisted men in each regiment.

Two-sided squad, platoon and company problems were given. All exercises were umpired by officers or noncommissioned officers of the respective units. The umpires were carefully instructed, and were given rehearsal in all phases of each problem on the day before they were to be executed. This instruction proved to be adequate and effective, and gave to both umpires and participants training in the principles involved.

Instruction also included ceremonies, night marching, establishment of all stations, use of grenades, and scouting and patrolling.

Both before and after their training period at Camp Smith, many units conducted field exercises on week-ends, at or near their home stations. These exercises were prepared by the units themselves, with generally satisfactory results. Problems from the company to the regiment were included. All the expense was borne by the units and the individuals composing them. All of them contributed their time with enthusiasm, which indicated high morale.

7. *Medical Care and Sanitation.* The sick record of the field training period reflects exceptionally favorable and fortunate conditions. There were no deaths from illness or accidents. There was no need to establish a Post Hospital. Cases requiring hospitalization were sent to the Peekskill Hospital. The few patients so treated were returned to their regiments in camp or to their home stations as quickly as possible. All minor cases of illness or injuries were cared for in the regimental infirmaries. This arrangement proved to be both economical and practical. Many of our officers and enlisted men of the regimental medical detachments had never been in the field before, and showed a fine spirit in the discharge of their duties. Our Headquarters Surgeon and his assistants rendered important service, and also assisted and instructed the regimental surgeons in their functions and duties. See Appendix No. 4 for statistical data.

8. *Schools.* For our training, many schools are organized and conducted. Troop schools for training officers, noncommissioned officers and enlisted men are present in each unit. They all follow as nearly as practicable the instruction procedure prescribed for the United States Army. We have officers' candidate schools, which are producing excellent results and provide much needed replacements.

The establishment of schools for mess sergeants and cooks in all regiments, based on a standard training directive issued from New York Guard Headquarters, proved of inestimable value, and made it possible for all units in field training to provide the men with wholesome, appetizing food, which did much for the maintenance of morale. With very few exceptions, civilian cooks were not required, and enlisted men constituted the personnel for company messes.

Major General Thomas A. Terry, Commanding General of the Second Service Command, established at Hackettstown, New Jersey, on October 4, 1942, the Second Service Command Tactical School. This school was organized to give specialized training in the tactics and operations in which troops and state guard troops might be expected jointly to engage. The course of instruction for each group is one calendar week. For the first courses the New York Guard was granted a quota of 33 officer students. For the course beginning November 15, 1942, and subsequent courses, our allotment was increased to 42 officers. While the course is necessarily short, the results have been most gratifying according

REPORT OF THE COMMANDING GENERAL

to the reports of our officers who have attended. See Appendix No. 5.

9. *Inspections.* During the field training period, defense district commanders, under orders from Headquarters Second Corps Area, inspected, at Camp Smith, the regiments with stations in their districts. Reports of these inspections were uniformly satisfactory.

Inspections at irregular intervals were made by battalion, regimental and brigade commanders. Many of these visits of inspection were in the up-state units, and therefore had to be made by private automobile, and thus were necessarily limited.

Instructions from the War Department provide for the inspection of the organizations in their armories by officers of the United States Army, to begin after January 11, 1943.

10. *Arms and Equipment.* During the year all rifles, excepting one hundred per regiment, were withdrawn by the War Department. To replace each rifle thus withdrawn, a shotgun was issued. These are all of 12-gauge caliber and consist of pumpguns, single barrel, double barrel, and over and under shotguns. A demonstration during the field training period demonstrated the power of the shotgun loaded with 00 buck shells. Our soldiers are convinced that this is a powerful and effective weapon and would be serviceable against fifth-column or other subversive assemblies. For such purposes the range would be effective to a distance of up to 350 to 400 yards. The experience with these shotguns completely counteracted and relieved the anxiety and doubt caused at first by the withdrawal of a large percentage of our rifles.

An issue of Thompson sub-machine guns was made by the War Department, on a basis of one (1) per twenty (20) men or major fraction thereof for rifle-shotgun companies, and not to exceed six (6) per active company. Under our present organization this provides three (3) Thompson sub-machine guns per rifle-shotgun company. With the two (2) Reising sub-machine guns furnished by New York State, each company now has five (5) sub-machine guns.

Items of individual equipment, such as haversacks, pack carriers, canteen covers, shelter halves and helmets, are available only in small quantities. The issue to the soldier, immediately after enlistment, of complete equipment, including uniforms, would be a big factor in promoting morale. We are encouraged to believe that our equipment situation will progressively improve from now on.

11. *Ammunition.* A deficiency in ammunition still exists. This would be serious if the troops were to be ordered to active duty in an emergency. Some range practice with service ammunition was held during field training, but there was not enough to give adequate instruction. The War Department has now made available the following allowances of ammunition:

APPENDIX "A"; ADJUTANT GENERAL'S REPORT

ANNUAL ALLOWANCE FOR TRAINING ISSUED IN MONTHLY INSTALLMENTS

Cartridge, ball, calibre .22.....	100 rounds per individual
Cartridge, ball, calibre .30.....	15 rounds per individual
Cartridge, ball, calibre .45.....	10 rounds per individual
Shotgun shell, 7½ shot.....	3 per individual
Shotgun shell, 00 buckshot.....	2 per individual

CHEMICAL WARFARE MATERIAL

Capsules, CN	10 per 100 guardsmen
Grenades, hand, tear, CN.....	10 per 100 guardsmen
Pot, smoke, HC.....	3 per 100 guardsmen
Pot, tear, CN.....	6 per 100 guardsmen
Set, gas identification.....	¼ per 100 guardsmen

For emergency use: Cartridge, ball, calibre .45—200 rounds for each sub-machine gun issued by the War Department. This makes no allowance for the sub-machine guns issued to the troops and purchased by the State. Shotgun shell, 00 buckshot, 20 rounds per man armed with shotgun. The above allowances are important, but they do not meet our needs for proper training or for an emergency.

12. *Permanent Plant—New York Guard Headquarters.* For the period covered by this report, Headquarters New York Guard has occupied offices in the State Office Building, 80 Centre Street, New York, N. Y., formerly occupied by the New York National Guard, except that in the last week of February we surrendered to the Committee on Discrimination in Employment, State War Council, two of our offices, Rooms 745 and 747—this at the request of higher authority in Albany.

Since December 8, 1941, New York Guard Headquarters has been on a 24-hour-a-day basis, seven days a week. Effective January 22, 1942, The Adjutant General authorized us to engage the services of three members of the New York Guard, of grade not higher than corporal, at pay of grade, plus subsistence of \$2.25 per day. These men are on duty from 5 P.M. to 9 A.M. the following morning, and week-ends and holidays. Their principal duties are to receive and route telephone calls and other communications which might come in as the result of an emergency. They also do such minor clerical work as is laid out for them.

Camp Smith. Because of the fact that Camp Smith is not an ideal training area, a reconnaissance of the Manitou section was made to learn the possibilities for battalion field exercises in 1943. Enough trails were located, which, with some clearing of underbrush and small trees, will provide a training area for the battalion. To accomplish this purpose, an authorization of \$4,800 was made, with an additional \$2,500 for repairs to the Military Road. This will be a big help to our 1943 field training exercises.

Armories. Under the provisions of amendments to Sections 177 to 198 of the Military Law, passed at the last session of the Legislature, the administration of the armories in Greater New York City was taken over by The Adjutant General, beginning July 1, 1942.

13. *Administration.* A physical inventory of State and federal property in the possession of all organizations began on December 1, 1942, and will be completed by February 15, 1943. This is being done by members of the brigade staffs under the direction and supervision of the brigade commanders.

During the current year, conferences were held by the Commanding General with the brigade commanders, as follows:

January 7, 1942, at Albany, N. Y., with the Governor.

April 11, June 5, October 23, December 5 and December 12, 1942, in the City of New York.

In last year's report it was stated that the Judge Advocate of the New York Guard and his assistant were engaged in writing a legal manual entitled "Law of State Military Forces." The final draft was completed and a copy sent to the Governor and to The Adjutant General, Albany, on November 28, 1942.

14. *Recommendations.* The following recommendations are submitted:

a. That uniforms be provided for the troops (each enlisted man) on the following basis (this includes only the uniform needs for routine service and training; it does not include additional requirements for active duty in the field):

(1) Woolen uniform, consisting of one coat, one pair trousers, two shirts, one field cap.

This uniform to be for field service and for outdoor formations in cold weather.

(2) Cotton uniform, consisting of two pairs bombay or khaki trousers, two bombay or khaki shirts, one khaki fatigue hat.

This uniform to be for amory drills and for outdoor training in warm weather.

(3) Two pairs of shoes.

b. That complete individual equipment be provided for each officer and enlisted man, consisting of mess kit, haversack, pack carrier, web cartridge belt, helmet, gas mask (training), shelter tent and blankets. (This recommendation was included in our 1941 report.)

c. That the restrictions for the use of armories be modified, with full responsibility resting with the Officer in Charge and Control. (Detailed recommendation to follow.)

d. That the activation of Companies D, H and M, in each regiment, be authorized and the present strength of all companies be increased by 60 per cent. There will be no need to increase the number of officers, except for the activated companies, as, at the present time, all companies have four officers. Our armories, with good management, can accommodate this increase of personnel. Such increase would raise the enlisted strength of the New York Guard to about 33,000 men—a most desirable war time measure.

c. Recommendations for ammunition will be the subject of a special communication.

f. Recommendation on the subject of requirements for organization equipment, such as field ranges, cots, etc., essential for an extension of training problems, and absolutely necessary for active field service, has been made and is in the hands of The Adjutant General.

15. *Conclusion*: My report would be incomplete were I not to express the sincere appreciation and deep gratitude of my staff and myself, in fact the New York Guard as a whole, to you, our present Commander-in-Chief, to former Governor Lehman and to The Adjutant General and his assistants for an unfailing attitude of understanding and a wholehearted spirit of cooperation. Further, we have all been encouraged by expressions, oral and written, of the Legislative leaders who visited us at Camp Smith last summer. We firmly believe that what we have done is only the beginning, and that we will make rapid progress from now on, heartened by the growing understanding and support of our civilian population, and inspired by a leadership which has done so much to promote our interests.

WILLIAM OTTMANN,
*Major General, N.Y.G.,
Commanding.*

APPENDIX B

The Report of the Commanding Officer, New York Naval Militia

1. In accordance with reference the following information is submitted in connection with the Annual Report for the New York Naval Militia for the period December 1, 1941 to November 30, 1942.

2. Inasmuch as all units of the New York Naval Militia were mobilized during the early part of 1941 none of the usual activities were carried out such as Week End Cruises, Small Arms Practice, etc.

3. Members of the Naval Militia have been in action with the Navy and Marine Corps in all parts of the World. A number of casualties have been suffered reports of which were submitted whenever the information was received by this headquarters. Particular attention is invited to the fact that the public press has carried articles to the effect that members of the Marine Corps Reserve (N.Y. Naval Militiamen, MCB, mobilized in their federal status being among this group) participated in actions in the Southern Pacific in a manner which is a credit to the men and the State. This office has been advised on many occasions of the appointment of enlisted men to commissions, warrants, and non-commissioned ratings due to their successful training as Naval Militiamen.

4. During the past year Admiral F. R. Lackey, NYNM, was placed in command of the U. S. Navy Receiving Station, Long Beach, N. Y., and has been temporarily relieved of Command of the N. Y. Naval Militia. Captain L. W. Hesselman has been assigned to duty in his federal status at the Headquarters of the 8th Naval District.

5. This office has also to report the death of Lieut. Commander F. K. Gundlach, Asst. Chief of Staff, and also the passing of two former commanding officers of the Naval Militia Brigade, Rear Admiral W. B. Franklin and Rear Admiral R. P. Forshew.

6. All Naval Militia Armories are being maintained under supervision of Reserve List Officers appointed in Charge and Control by the Adjutant General. The 1st Battalion Armory, U.S.S. PRAIRIE STATE, is being used by the Navy Department as a training school for Naval Reserve Midshipmen. The 2nd Battalion Armory is in use by the Navy as an Armed Guard Center with quarters for approximately 3500 men. The 33rd Division Armory has been put into use as a Section Base Headquarters of the Navy Mine Base. The Armory of the 12th Division, Naval Militia is now in use by a company of the 74th Regiment, New York Guard.

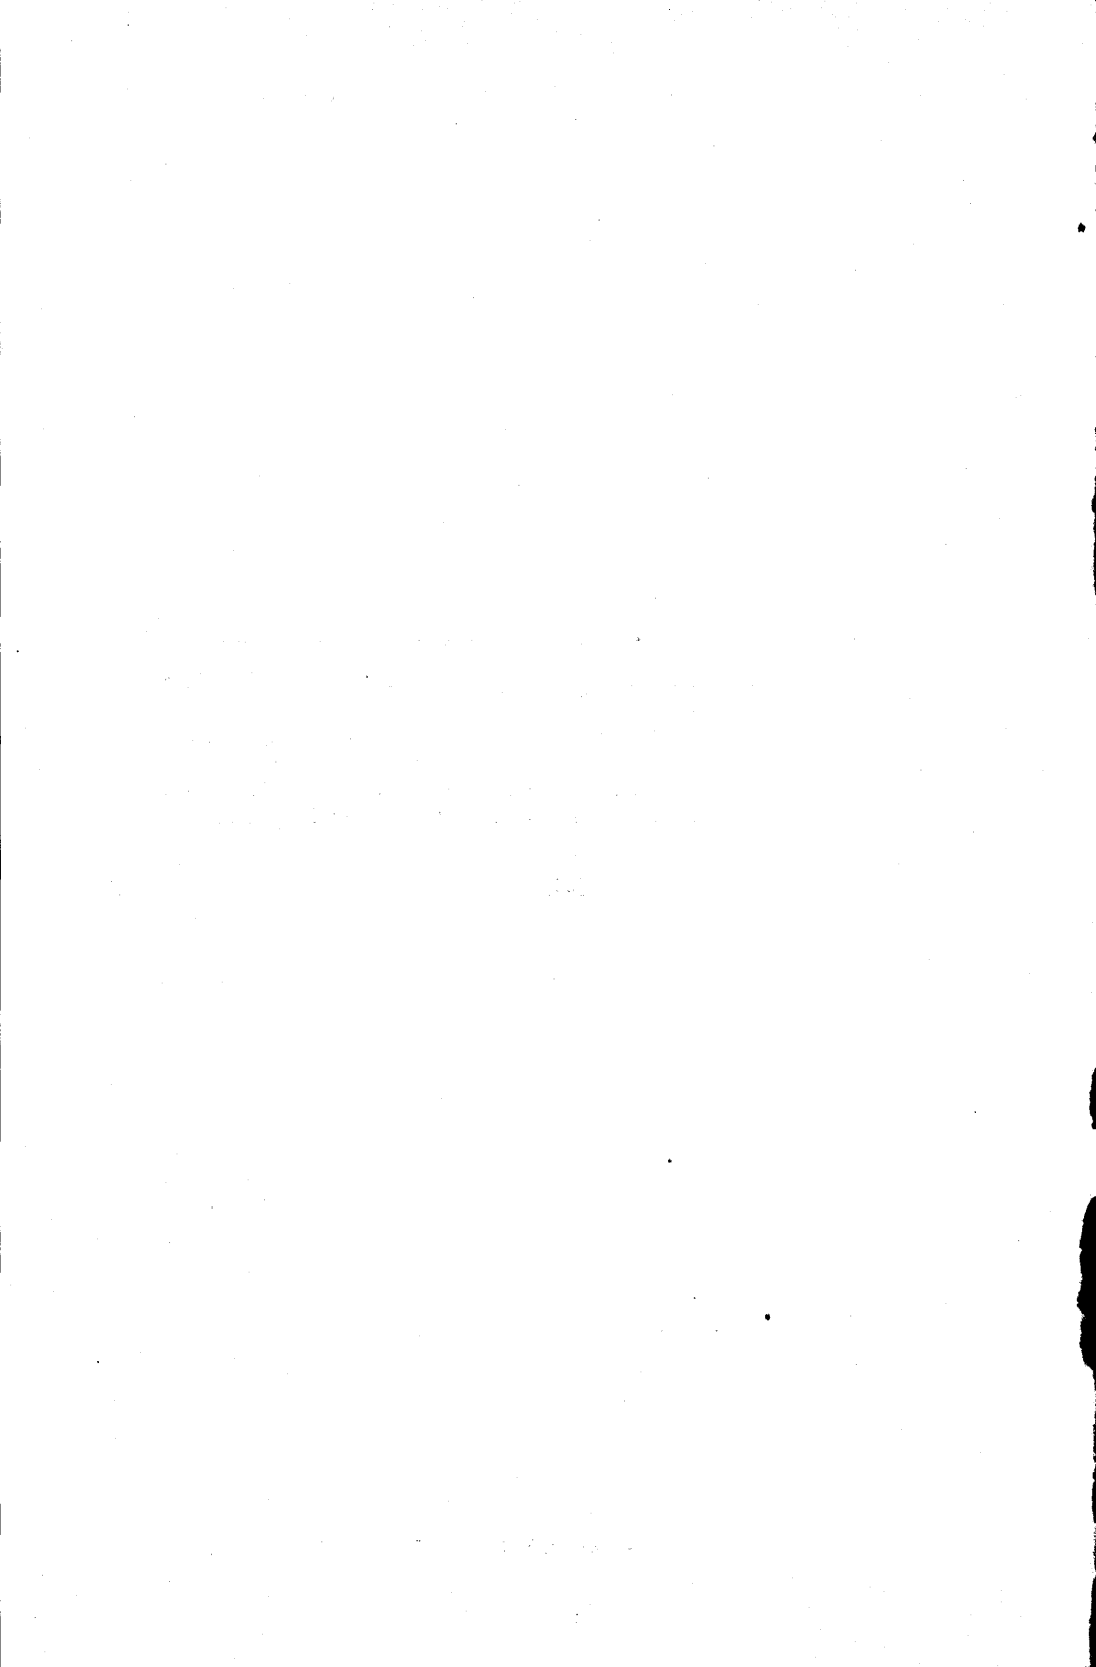

The Buffalo Boat House is being used by a detachment of the U. S. Coast Guard. The 4th Battalion Armory is being used on a few nights a week by the U. S. Coast Guard Auxiliary and the other armories in the state are in use at various times by Defense Organizations, such as the American Red Cross, Auxiliary Police and Firemen's Organizations, Air Raid Wardens, and others, subject to restrictions of the Military Law and General Orders of the Adjutant General's Office.

7. This office has received frequent requests for information pertaining to Naval Officer Procurement, Navy, Coast Guard, and Marine Corps enlistments, and various questions pertaining to the naval service in general which can be handled only by persons with previous naval experience. This headquarters keeps a file of pertinent information for the purpose of replying to these requests.

8. Grateful acknowledgment is made for the interest and support which was extended to the Naval Militia by His Excellency the Governor and also for the cooperation of The Adjutant General, the members of the Legislature, the Director of the Budget, and other officers of the State with whom the Naval Militia has been privileged to have relations during the year.

W. P. SHEA,
By direction
