ARMY NATIONAL GUARD

INTRODUCTION

This annual report to Governor Nelson A. Rockefeller for calendar year 1971 is required by Section 11 of the State Military Law. It covers activities, events, achievements and statistical data concerning the State Military Forces during 1971.

DIVISION OF MILITARY AND NAVAL AFFAIRS STAFF

Staff sections in the Division of Military and Naval Affairs office serve in a dual capacity commensurate with the dual role of the Chief of Staff to the Governor and Commanding General, New York Army National Guard. Staff officers are responsible for coordinating activities of all components of the State Military Forces and for direct staff functions with relation to the Army National Guard, through appropriate command channels.

PERSONNEL AND ADMINISTRATION

The mission of this office includes the supervisory and administrative responsibility for all personnel actions applicable to the several components of the New York State Military Forces; the preparation and publication of all documents of instructional, informational and directive nature; the issuance, control and stocking processes for all state and federal forms and publications; and the maintenance of personnel records and records system for all officers, warrant officers and enlisted personnel of the State Military Forces.

Statistical information reflecting the activities of this office are outlined in the appropriate inclosures of this report.

OPERATIONS, TRAINING AND INTELLIGENCE

The mission of this office is to coordinate all operations, training and intelligence activities as they relate to the State Military Forces. It is responsible for staff supervision of units of the New York Army National Guard with regard to organization, operations, training, intelligence, alert and mobilization, Army aviation, air defense, communications and chemical, biological and radiological activities.

ORGANIZATION

A major reorganization of the New York Army National Guard under the G/H series of Tables of Organization and Equipment occurred on 1 December 1971. This had the overall effect of modernization of units and authorization for modern equipment with minor changes in strength. Coincident with the re-

organization, the 2d Battalion 106th Infantry in Brooklyn, NY, was redesignated the 2d Battalion 108th Infantry and relocated to upstate New York, with the headquarters in Syracuse and units in Malone, Saranac Lake, Ogdensburg and Ticonderoga. The following units were disbanded and their personnel absorbed into existing units:

- 1469th Transportation Company
- 669th Transportation Detachment
- 27th Signal Company
- 188th Engineer Company
- Headquarters and Company A, 209th Supply and Service Battalion
- 106th Chemical Detachment

The Emergency Operation Headquarters (EOH) was redesignated as the 27th Support Center, Rear Area Operations, and continues as a major organization under the Division of Military and Naval Affairs. As a result of reorganization, the New York Army National Guard will be better equipped and prepared to perform state missions as well as federal mobilization assignments.

Details of the reorganization are contained in General Order Number 90, Division of Military and Naval Affairs, 16 November 1971.

TRAINING

Units attended Annual Training at various camps and stations. There is an increasing trend for units and elements to perform Annual Training with active Army elements at a site where equipment and facilities lend more meaningful training. For examples, the 587th Transportation Company trained at Fort Eustis, Virginia, where ship loading facilities are available; the 825th Medical Laboratory trained at Fort Meade, Maryland, where the most modern medical facilities are available; the 824th Dental Detachment operated the dental clinic at Fort Dix, New Jersey; the 206th Military Police Company operated the Confinement facility at Fort Devens, Massachusetts. These are only a few of the examples of meaningful training being conducted at federal expense, which greatly enhances the capability of units to perform state emergency missions as well as their federal missions.

INTELLIGENCE

In New York State the constant threat of campus unrest, racial disorder, and industrial disputes requiring military aid to civil authorities compels the National Guard to be increasingly cognizant of domestic intelligence.

In coordination with local, state and federal agencies the Intelligence Section collects, processes and disseminates information for the Chief of Staff to the Governor and his staff in all routine and emergency intelligence matters concerning the military

forces of the State of New York. Federal regulations pertinent to the safeguarding and handling of classified defense information is also an intelligence responsibility. This duty is accomplished through periodic security inspections and spot checks.

The Intelligence Section processes all requests for security clearances from the units of the New York Army National Guard, as well as civilians employed by the division. In response to the Department of the Army's policy to minimize the number of individuals with TOP SECRET access, 450 TOP SECRET clearances were reduced to SECRET in 1971. During Calendar Year 1971, 3600 security clearances were processed by the Intelligence Section.

Training includes the conduct of Security Briefing for military personnel, civilian personnel of the division and classes at the Army Area Intelligence Schools.

RADIOLOGICAL PROTECTION

On 1 April 1971, the Legislature, under Section 4, Chapter 73 of the laws of 1971, transferred the civil defense radiological protection function to the Division of Military and Naval Affairs. This function is performed by the Plans and Training Branch and the Technical Support Branch.

The mission of the Technical Support Branch is to maintain, calibrate and repair all radiological instruments issued to civil defense jurisdictions in New York State. Approximately 110,000 radiological instruments are serviced annually under a 100% funded federal OCD contract (DAHC-20-72-C-0100).

The Plans and Training Branch function has been performed by the Division of Military and Naval Affairs. A federal contract was negotiated with the Department of Environmental Conservation, Office of Civil Defense, Office of Natural Disaster and Civil Defense, and the Division of Military and Naval Affairs (DAHC-20-71-C-0353) to develop a combined peacetime/wartime environmental radiation control program on a pilot basis. Office of Civil Defense funded the first six months and the Environmental Protection Agency planned to support the final six months but financial aid was not available. The pilot program ended on 31 December 1971. The radiological protection function is now being conducted by the Division of Military and Naval Affairs.

MILITARY SUPPORT TO CIVIL AUTHORITIES

The Mission of this section is to: "Provide a permanent planning staff for the development and issuance of plans relating to the supplemental support provided by all components of the military services within the state (active and reserve). Responsible for planning, coordinating and controlling all resources made available by all services for the Military Support to Civil Authorities responsible in

domestic emergencies."

The section provides the planning effort for military support to civil authorities during civil disturbances, natural disasters and nuclear attack. In addition, all aid to civil authorities operations are coordinated through this section, by the Division of Military and Naval Affairs Emergency Operations Center established in May 1971.

As the Emergency Operations Center, this section becomes the focal point for control of operations, decisions and briefings for the Chief of Staff to the Governor under actual or simulated emergency conditions. The Emergency Operations Center is the Chief of Staff to the Governor's Command Post for conducting operations related to emergencies. The Emergency Operations Center normally operates eight (8) hours a day, and when activated by the Chief of Staff to the Governor, 24 hours a day.

PLANS

Plans have been published and distributed as follows:

Operation Plan #1, New York Area Command Plan (OPLAN #1 - NYACOM) is a plan designed for Military Support to Civil Defense during nuclear emergency operations.

OPERATION PLAN SKYHAWK is a plan which provides for military support to civil authorities during civil disturbance operations.

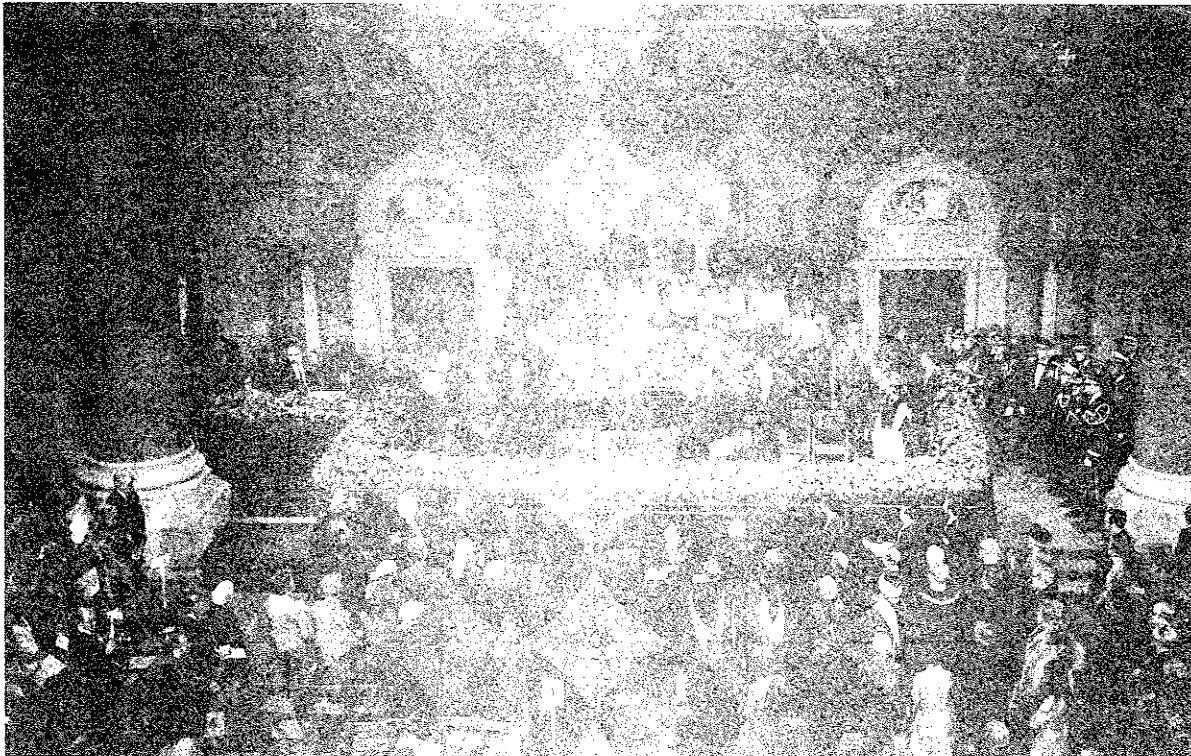

OPERATION PLAN NATURAL DISASTER RELIEF (OPLAN NADREL) is a plan designed for military support to civil authorities during natural disaster relief operations.

Division of Military and Naval Affairs Pamphlet Number 500-1 17 August 1971, is a directive outlining procedures for use of troops, equipment and facilities during emergencies.

The Division of Military and Naval Affairs Standing Operating Procedures, Emergency Operations (DMNA-SOP) prescribes the operational procedure of this division in other than routine operations and formulates planning for any types of emergency; such as acts of nature (i.e., floods, storms), acts of man (i.e., riots, insurrections), or acts of war (imminent, actual).

A Draft Memorandum of Understanding between the State of New York and New York City outlines the conditions under which the State's Military Forces will render military support to civil authority during emergencies in that city.

All emergency plans are monitored on a continuing basis and updated as required by changing troop structure and operational capabilities.

FOR THE FOURTH TIME - - Nelson A. Rockefeller raises his right hand and takes the oath of office as Governor of New York State, as the 100th honor guard from the Old Guard of the City of New York and the Veterans Corps of Artillery march a colorful background. The Governor was escorted through the Assembly Chamber by ranking officers of the State Military Forces, who are observing the ceremony from the right of this photo.

A FAREWELL ADDRESS - - is not easy for Major General A. C. O'Hara as he reflects on many memorable experiences and his long years of service to State and Nation. The occasion was a dinner in his honor attended by hundreds of his friends who gathered to pay him tribute when he resigned as Chief of Staff to the Governor to accept appointment as Commissioner of the office of General Services, at the direct request of the Governor. At left is his successor, Major General John C. Baker.

EMERGENCY ACTIVITIES

Requests from various civil agencies for emergency use of troops, equipment and armories were coordinated throughout the year. Planning was accomplished for the following events;

14-20 Jan 71 - OPLAN Green Giant was an operation plan developed to assist civil authorities in New York City during the policemen's job action. The situation was resolved without any necessity for mobilization of State Military Forces.

7-8 Jun 71 - The DMNA Emergency Operations Center was activated and emergency plans were developed to assist civil authorities during the New York City Drawbridge Operators' job action. Again, there was no mobilization of personnel.

16 Jun 71 - Emergency Plans were drafted to assist civil authorities if the threatened Civil Service Employees Association membership walkout was effected.

10 Sep 71 - The Division of Military and Naval Affairs Emergency Operations Center was activated on a 24 hour basis to support New York Army National Guard Units assisting civil authorities at the Attica Correctional Facility Riot.

Units mobilized by Governor Rockefeller, in response to the emergency, were;

HHC, 221st Engr Gp
 HHC, 152d Engr Bn
 Co B, 152d Engr Bn
 HHC, 1st Bn 127th Armor
 Co C, 50th Med Bn
 1st Op Det B, Co E, 19th SF Gp

National Guard units were used primarily in humanitarian roles such as first aid, litter bearing, and evacuation of casualties to hospitals.

Except for 2 CH34 helicopters, which were used to drop CS gas, no Guardsmen participated in the assault or fired any weapons. In fact, National Guard units, with medical units in the first echelon, did not arrive at Attica Prison until after the assault was in progress. All rifle and pistol ammunition issued to Guardsmen prior to the incident was accounted for and unexpended.

24 Sep 71 - The DMNA Emergency Operations Center was activated due to a forced entry at a New York Army National Guard Armory in Bedford-Stuyvesant, Brooklyn to dramatize the death of Attica Correctional Facility inmates for that Community.

30 Sep - 4 Oct 71 - The Military Support to Civil Authorities Section participated in a Regional Civil Defense Exercise involving the New York Area Command Headquarters capabilities in a nuclear environment, i.e., pre-attack, trans-attack, and post-attack operations. Liaison Officers, MSCA,

representing Army, Navy, Air Force participated.

6 Oct 71 - The Military Support to Civil Authorities Section prepared to control and implement a Headquarters First U.S. Army Mobilization Command Post Exercise for selected New York Army National Guard Units of New York State.

4 Nov 71 - The Military Support to Civil Authorities Section responded to a request for aid to civil authorities at the Eastern New York Correctional Facility, Napanoch, NY. A 35 man force of volunteer New York Army National Guardsmen conducted a mine-sweeping operation in the exercise yard to locate buried weapons.

4-5 Nov 71 - Selected officers of the Military Support to Civil Authorities Section attended a two day planning conference at Boston, Mass. with other selected officers from Headquarters, First U.S. Army. All 15 states in the First U.S. Army Area were represented.

11 Nov 71 - The Military Support to Civil Authorities Section provided and supported New York Army National Guard Units assisting civil authorities in the Seneca, NY Area during a Search and Rescue Operation for a lost hunter.

17 Dec 71 - The Military Support to Civil Authorities Section provided and supported New York Army National Guard Units assisting civil authorities in the Saranac Lake, NY Area, during a Search and Rescue Operation for a lost hunter.

30 Dec 71 - The Military Support to Civil Authorities Section closely monitored the threatened New York City Transit Workers Strike in preparation for developing emergency plans if necessary.

SPECIAL PROJECTS

During the year, the following special projects have been the responsibility of the Military Support to Civil Authorities Section.

Evaluation of all Army National Guard Riot Battalions, Civil Disturbance Training, and Capabilities. The evaluation was made in conjunction with an evaluation team from Headquarters First United States Army.

A feasibility study was conducted to determine the capability of the Division of Military and Naval Affairs to assume certain of the responsibilities of the reorganized New York State Civil Defense Commission.

A Joint Command Post Training Exercise was conducted between the New York City Police and Riot Task Forces of New York Army National Guard Units located in New York City.

Tests were conducted to evaluate the use of plastic ammunition, 7.62mm for M14 Rifles and 5.56mm for M-16 Rifles.

A Division of Military and Naval Affairs Train-

ing Circular has been developed to exercise the capabilities of the DMNA Forward Command Group supported by the DMNA Emergency Operations Center.

A Headquarters New York Army National Guard Training Circular has been published to provide training in the exercise of command and control procedures and to insure a coordinated effort between Task Force Staffs and law enforcement counterparts.

ARMY AVIATION

A major change in the Army aviation program will result in distribution of standard Army helicopters UH-1 and OH-6A as replacements for obsolete equipment.

Reorganization under the G/H series of Tables

of Organization and Equipment for aviation units will change Army aviation in New York State from primarily fixed wing to all rotary wing aircraft and will increase the authorized Army aviator strength from 158 to 219.

Receipt of new, modern helicopters has increased our full-time maintenance technician authorization from 50 to 92. Additional increases will be forthcoming as additional aircraft are received.

The New York Army National Guard was presented an award by the National Guard Bureau on 1 September 1971 in recognition for attainment of an accident free year during FY 1971. A letter from Chief of the National Guard Bureau is indicative of the significance of this unusual achievement.

DEPARTMENTS OF THE ARMY AND THE AIR FORCE
NATIONAL GUARD BUREAU
WASHINGTON, D.C. 20310

NGB-APO-A

8 OCT 1971

Major General John C. Baker
Chief of Staff for New York
Public Security Building
State Campus
Albany, New York 12226

Dear General Baker:

It gives me great pleasure to forward this National Guard Bureau Award presented to your State for sustaining an accident free Army Aviation Program in Fiscal Year 1971.

The aircraft accident rate for the Army National Guard in FY 71 was 11.3 accidents per 100,000 flying hours. For your State to reach the goal of zero accident rate required diligent prevention efforts by commanders, units and individual aviators.

I congratulate you and the Guardsmen of your State for this significant contribution to the Army National Guard aircraft accident prevention program.

Sincerely,

FRANCIS S. GREENLIEF
Major General
Chief, National Guard Bureau

AIR DEFENSE

During calendar year 1971 the 1st Battalion (Nike-Hercules) 244th Artillery, as an integral member of the Army Air Defense Command was entrusted with the crucial mission of providing round the clock protection of the aerial sovereignty of the New York Philadelphia Defense Area. This organization accomplished this mission in a highly competent and effective manner during the year 1971.

All firing units of the 1st Bn (N-H) 244th Arty NYARNG again successfully conducted Annual Service Practice at McGregor Missile Range, New Mexico with Btry C, 1st Bn (N-H) 244th Arty, Orangeburg, New York achieving a score of 99.1%.

This is the highest Annual Service Practice score ever achieved by a New York Air Defense Battery.

Battery B, 1st Bn (N-H) 244th Arty, Rocky Point, NY was awarded the United States Army Air Defense Command "E" award this year for excellence in combat proficiency by direction of the Commanding General, USARADCOM.

A significant change in the on-site missile unit operations occurred this year with the advent of announcing in advance, major higher headquarters inspections and evaluations, heretofore unannounced. This new policy has contributed greatly to improved morale of the personnel, better utilization and scheduling of Annual Leave for full time technicians and most important an overall improvement in mission-type operations. Technician strength also stabilized considerably over previous years. Attrition rate of full-time technicians dropped from 18% in 1970 to 10.7% in 1971. On-site units were able to recruit and hire new technicians and enjoyed, for the first time, a 98% manning strength at the end of the year.

Tentative installation schedules have been published for the second significant modification to the Nike Hercules system since the improved modification. This development will serve to make the National Guard Air Defense program, more attractive as a career to National Guardsmen and full-time employees.

EMPIRE STATE MILITARY ACADEMY

The Academy has produced a total of 2,417 commissioned officers and is the primary source of officers for the units of the New York Army National Guard. Of the 1,376 officers now assigned, 65%, or approximately 895, are graduates of the Academy. On 9 December 1971, 667 of these graduates were serving in the junior officer grades as second and first Lieutenants. Many officers who were commissioned by the Academy have volunteered for active duty with the US Army and have served in Vietnam and at various posts throughout the United States.

During 1971, Colonel Joseph D. Fiato, Jr., (Class of 1953) became the first graduate of a State-operated OCS to achieve the rank of Colonel.

The officer candidate course requires approximately one year to complete and is conducted in three phases.

After his initial screening and selection, the candidate attends Phase I for two weeks of Annual Training at Camp Smith, NY. During this phase, he receives 130 hours of intensive military training under the guidance of experienced National Guard officers and senior cadets of the United States Military Academy.

Phase II, consisting of 192 hours of instruction, is conducted at Branch Schools in New York City, Troy, Syracuse and Buffalo. Commencing in October and ending in early May, the candidate attends 48 training assemblies on 12 weekends. During Phase II, he is trained in instructor and leadership techniques, organization, military law, signal communications, military administration, logistics and managerial skills.

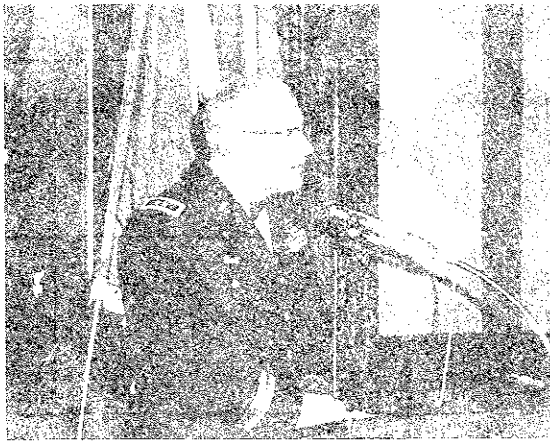

To complete his preparation for duty as a second lieutenant, the candidate reports for a second Annual Training period at Camp Smith which is referred to as "Phase III". As a senior candidate, he spends most of his time in the field, returning to his barracks only to sleep and prepare for the following day. The candidate must apply all of his previous training in a series of problems in tactics and troop leading procedures.

Successful graduates of the course (approximately 60% of each class) are commissioned as second lieutenants and are awarded federal recognition in their commissioned status by the Department of the Army.

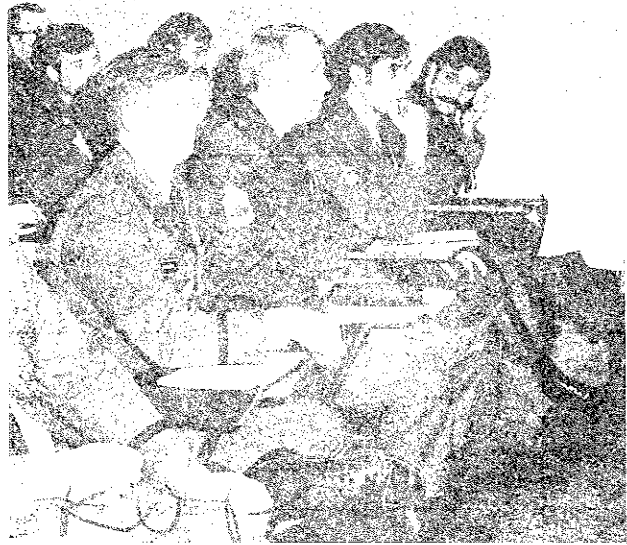

The OCS program of instruction is provided by the United States Army Infantry School, Fort Benning, Georgia, and is augmented by additional requirements for NYARNG candidates. The Infantry School provides instructor and student lesson guides, special texts and examinations. All examinations are graded by the Infantry School to insure that academic requirements and standards are maintained.

The current OCS training program consists of 296 hours of mandatory instruction and examinations. 156 hours of additional subjects, review periods and practical exercises are prescribed for the candidates of the Empire State Military Academy to better prepare them for duty as commissioned officers.

OCS Class 1970-71 was graduated at Camp Smith on 27 August 1971. Of the original enrollment of 299 candidates, 163 successfully completed all phases of training. Commissions, in the New York Army National Guard, were presented to 141 of these graduates. Certificates of Eligibility were

HIS FIRST REPORT - - - to the Militia Association of New York, since his appointment as Chief of Staff to the Governor, is rendered by Major General John C. Baker at the Association's Spring Dinner in New York City.

LISTENING INTENTLY - - - are these men attending a Recruiting and Retention workshop. Two men were selected from every NY ARNG unit to complete a 14 hour course leading to assignment as recruiters.

OVER 210 YEARS - - - of dedicated service to the Empire State is represented by these Army Superintendants attending a conference at the Division of Military and Naval Affairs in Albany. (Left to right, front) Donald Bensley, Tenawanda; LTC Howard Ostrander, Facilities Operations Officer, DMNA; MAJ Richard Frederick, State Fiscal and Personnel Officer, DMNA; Joseph Radcliffe, New York City; (center) Thomas Derwish, Elmira; Charles Morano, Leeds; George Morse, Hoosic Falls; Roy Seabrook, Brooklyn; Lynn Taylor, Ossida; (rear) Salvatore Scania, Dunkirk; Phillip Capraro, Utica; Ernest Johnson, Brooklyn; John Lock, Guilderland; and Raymond Daly, New York City.

awarded to 2 candidates and 20 were commissioned in the United States Army Reserve. Class attrition rate was 46.6%.

OCS Class 1971-72 attended Phase I at Camp Smith, 14-28 August 1971. Initial enrollment was 328 candidates. 279 completed Phase I successfully and entered Phase II at Branch Schools in October. 253 of these candidates remain enrolled in Phase II on 31 December 1971. It is estimated that 225 candidates will graduate on 14 July 1972 with a class attrition rate of approximately 31.4%.

The conduct of the Officer Candidate School is the primary mission of the Empire State Military Academy. As a secondary mission, the Academy has graduated 3,798 enlisted men for duty as noncommissioned officers. This is accomplished simultaneously with OCS Phase I and III at Camp Smith.

During Annual Training at Camp Smith, 360 enlisted men were added to the rolls of graduates of the ESMA NCO Course and were certified for accelerated promotion to the next higher enlisted grade.

LOGISTICS

Major activities of the Logistic's Directorate and its agencies during 1971 included the following listed programs and projects. Other additional programs are covered under the agency heading.

Closing of 5 State Armories.

Completion and occupation of replacement armories at 14th Street, NYC and Troy.

Extensive planning for replacement Army Aviation Facilities on Long Island and in the Capital District.

Logistics support of the 1 December 1971 ARNG Troop Reorganization including changes in the supply system under G/H Series TOE's.

Relocation of the State Maintenance Office to the Public Security Building, Albany, New York, 1 October 1971.

Initiation of Community Work Program by units of the State Military Forces.

UNITED STATES PROPERTY & FISCAL OFFICE

GENERAL

During 1971 the USP&FO--NY was authorized one hundred and forty eight (148) federally paid technicians. Funding authorization permitted an average employment of 142 technicians.

The Annual General Inspection rating for the USP&FO--NY for FY 1971 was Satisfactory.

LOGISTICS

Generally normal supply activities in support of all units was accomplished during 1971. Significant

achievements during this time were the complete issue of the Rifle, 5.56MM M16A1 to all units and corresponding turn-in of the Rifle, Cal 30 M1, the establishment of two Service Stock facilities to expedite issue of individual clothing, the receipt, storage and issue of 451 Trucks, Cargo 2½ Ton M35A2 and the logistical support provided by this Division in support of civil disturbances.

The statistical data reflects the tremendous workload generated by units in the field and the accomplishment of this workload by this Division's personnel.

The establishment of Department of the Army Phase II requisitioning for certain units expedited the receipt of many new items of PEMA equipment and also will continue to generate a replacement program giving the State new equipment for old.

Annual Training 1971 was supported as in past years. The establishment of a central repair parts facility at the training site, Camp Drum, New York proved to be a success. Training received by unit personnel in supply procedures was outstanding and this procedure will continue.

AUTOMATIC DATA PROCESSING CENTER

Programs for Standard Technician Payroll System due in the Fall 1971 from NGB have been delayed until the first quarter of 1972. Initial steps for conversion to a new payroll system have begun.

Technician Time Attendance for personnel in the field and in the USP&FO have been successfully transferred from a manual to a computer program operation.

Automatic Data Processing now has the capability to provide computer printed Readiness Reports for all units of the New York Army National Guard.

All ADP operating personnel became proficient in the operation of the IBM 360/20 computer system during its initial year of use.

During the year a monthly utilization average of 1,087 hours was maintained. Three ADP technicians are currently enrolled in the Army School Program for Advance Computer Training.

EXAMINER'S OFFICE

In the Calendar Year 1971, a total of 20 Battalion Property Accounts and 73 unit/activity property accounts received an inventory/examination. During the calendar year the responsibility of updating the Equipment Status Reports pertinent to the NYARNG organizations and activities, was assigned to the Examiner's Office. To date a total of 21 Reports have been purified and submitted to the Logistics Division and ADP Office for processing.

In addition to that noted above, a special audit/inventory of the assigned NYARNG Ammunition ac-

counts was undertaken. The audit/inventory covers the requirements of the State Security Plan in respect to the required allotments of small and chemical ammunition per ammunition account. A total of 15 accounts have received an audit/inventory and reports have been rendered to higher command levels.

The Examiner's Office was assigned to coordinate the actions required under the Reorganization Plan of the New York Army National Guard. Main area of coordination is to insure proper accounting of property as pertains to deactivated units, relocation of units and change of Property Book Officers. This coordination was undertaken with the various Area Project Control Officers and internal operations of Office of the USP&FO-NY.

Continuous study was maintained in respect to expediting Reports of Survey. Close liaison with the State Quartermaster has been established in this respect, also Internal Audits of USP&FP-NY functions, i.e., Toll Script, Imprest Funds, Post Award Review of Small Purchases, Functional Files System and Time and Attendance records was conducted.

COMPTROLLER

Budgetary funding for the NYARNG in FY 1970 was \$26,610,492. The FY 1971 funding was \$24,966,016. In addition, the Army National Guard drill payroll for FY 1971 was \$11,686,894.

During FY 1971 there was an average of 1307 Federally paid technicians in the ARNG.

A total of 2279 actions for supplies and services were prepared by this section for the total value of \$873,848.00.

Service contracts as follows and in the amounts indicated plus changes were prepared in part and issued:

| | |
|-----------------------|----------------|
| Air Service contracts | \$1,096,000.00 |
| Army NG Svc Contracts | 591,333.00 |
| Army NG AT Contracts | 163,300.00 |

Eleven construction contracts for various locations were prepared amounting to \$32,159.00

Ten contracts for other than construction, such as Engine & Transmission Overhaul, fabrication of gun racks, etc., were prepared and issued amounting to \$53,513.00.

Utilities contracts for Hercules Sites covering electric and water for which this office has administrative responsibility are as follows:

| | |
|---------------|-------------|
| 4 Electricity | \$94,617.00 |
| 4 Water | 1,807.00 |

Four refuse contracts for Hercules Sites were consummated by this office, to include Administrative responsibility amounting to \$4,536.00.

Communications for 39 Federal telephones, 2 TWX machines and 1 Switchboard 608A1 amounted to \$39,779.00.

STATE MAINTENANCE OFFICE

The State Maintenance Office was relocated to the Public Security Building, State Campus, Albany, New York, from the New York State Arsenal, Brooklyn, New York, on 1 October 1971. It is now located with the Logistics Office, which is responsible for policy direction and program coordination among the various logistics agencies in the DMNA.

The State Maintenance Officer is responsible to the Chief of Staff to the Governor for establishing and operating a State-Wide maintenance program for Army equipment issued to the NYARNG.

The State Maintenance Officer has operational responsibility for the following maintenance facilities:

COMBINED SUPPORT MAINTENANCE SHOPS (CSMS's) located at Brooklyn, Peekskill (Camp Smith) and Rochester.

ANNUAL TRAINING EQUIPMENT POOL (ATEP) located at Camp Drum, New York.

The State Maintenance Officer provides technical guidance to the 44 Organizational Maintenance Shops (OMS's) located throughout the State. OMS Parent Unit Commanders exercise operational control over OMS's. The three CSMS's provide support level maintenance to the 44 OMS's and all units of the NYARNG for all types of Army equipment (less aircraft) in their possession. CSMS's provide technical assistance to OMS's/Units/USP&FO-NY. The Command Maintenance Management Inspection (CMMI) program has been replaced by the Maintenance Assistance and Instruction Team (MAIT) program. This new program insures that commanders and supervisors at all levels are provided an organic means of identifying and resolving maintenance, maintenance management and associated repair parts problems in their units/activities. MAIT(s) are constituted of personnel from the various CSMS(s) to service the units in their geographic area of responsibility.

The ATEP at Camp Drum is responsible for the receipt, issue, storage and maintenance (organizational and support level) of heavy construction equipment and combat vehicles (e.g. tanks, armored carriers, self propelled guns and howitzers) per authorization by the Chief, National Guard Bureau.

Approximately 850 items of heavy equipment were issued to Reserve Component Commands during the CY 1971 Annual Training periods at Camp Drum. During balance of the year all equipment is inspected, repaired to serviceability standards and processed for storage. The equipment is also utilized by Reserve Component Units during Weekend Training (WET) assemblies.

Influx of new type equipment into the NYARNG inventory has dictated the need for an accelerated maintenance training program. Technicians are attending courses at various service and factory schools

MANPOWER AND BRAINPOWER - - - combine in an effort to resolve one of the 12 challenging situations on the Leaders Reaction Course of the Empire State Military Academy.

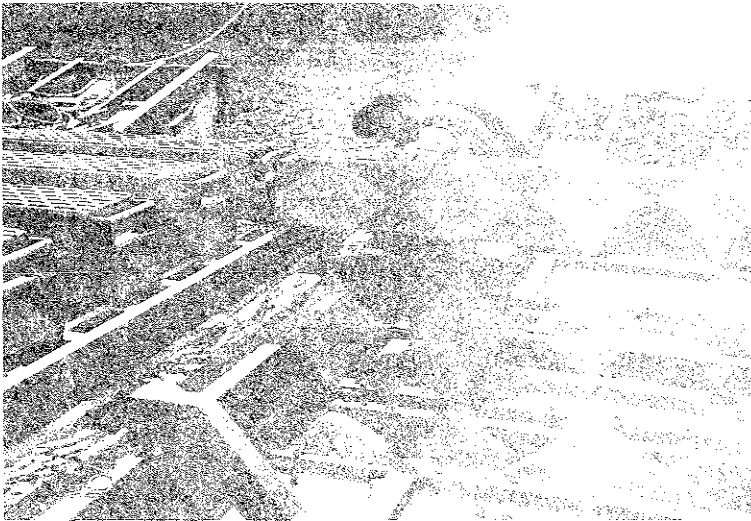

BIG BANG - - - coming up as this 8 inch SP Howitzer crew of the 1 Bn 209 Arty, Rochester loads ammunition prior to firing during training at Camp Drum.

CAREFUL SCRUTINY - - - is the policy of this spot check team from 127 Heavy Equip. Maint. Co. as they run down the check list on a Jeep. They are SP6 Raymond Akins (left) and SP4 Donald Small.

MUCK AND MIRE . . . fail to deter these Guardsmen of the 204 Engr Bn (constr) as they join sections of a culvert pipe at Camp Smith, Peekskill. The unit worked on training facilities, ammunition storage, drainage, parking and other Camp improvements, during its Annual Training tour.

BRIDGE BUILDER . . . PFC John Ellis 152 Engr. Bn. carefully lines up parts of a floating bridge during training on the Black River at Camp Drum.

A LITTLE MORE HELP . . . and a little less moral support, would be appreciated by this trooper from Albany's 1 Bn 210 Armor, as he struggles to tighten drive sprocket on an M48 Tank.

covering applicable equipment, i.e., vehicular, armament and electronic. The State has also undertaken the calibration mission to include electronic and mechanical measuring equipment and devices, plus Radiac detection and measuring equipment. This service was provided by U.S. Army Depots prior to this year.

The State Maintenance Officer and staff provide maintenance guidance to the Major Commands thru MAIT feedback information and data compiled by the Organizational Maintenance Officers (OMO's). The objective is to assist the Commanders and Logistical Readiness Officers in achieving and maintaining a high degree of Materiel Readiness in their Commands.

LOGISTICS SERVICES BRANCH

GENERAL

Logistics Services functioned throughout the year in its primary program, State Property Control and Accounting, and Relief of Commanders, Custodians and Property Book Officers from Pecuniary Responsibilities. Special missions were accomplished by the agency as operational requirements.

PROPERTY CONTROL AND ACCOUNTING SECTION

Accounting for State property located at armories and facilities was maintained on stock record cards for 1585 line items. Inventories of custodians and responsible officers reconciled annually totaled 239-117 armories and facility accounts (SA), 89 New York Guard accounts (SG), 2 Critical Items Pool accounts at Brooklyn and Rochester and 31 Riot Battalion Accounts. 1254 vouchers on these accounts were processed covering purchases, transfers and disposition of salvage.

In coordination with Office of General Services, Bureau of Surplus Personal Property Disposition, over 120,000 unserviceable and obsolete uniform and equipment items were disposed of from Camp Smith and armory locations. The United States Army Ordnance Detachment at Scotia assisted in disposal of quantities of obsolete and unserviceable ammunition.

Radiological kits issued to armories and New York Guard units for which the State Quartermaster is accountable were exchanged for recalibrated sets in a program arranged by Division of Military and Naval Affairs Radiological Instrument Calibration and Maintenance Facility.

The State Quartermaster Warehouse, Building 86 Camp Smith was cleared generally of all but serviceable State property and equipment essential for emergency and mobilization use.

RELIEF FROM PECUNIARY RESPONSIBILITIES

Documentation pertaining to the relief of the State and members of the State's Military forces from financial responsibility for Federal property involved

388 Reports of Survey and Quarterly Reports of Operational Losses processed during the year. Breakdown of items is shown on statistical data separately.

In addition 6 State Reports of Survey and 74 Certificates of Droppage executed by custodians for State Property adjustments were processed.

Position Bonds were scheduled with the State Department of Insurance against liabilities for property issued to 132 Commanders, Property Book Officers and Custodians.

Insurance coverage was processed for 7251 Federally owned and 25 State owned vehicles operated by units of the State's military forces.

SPECIAL

The Section under the State Quartermaster was given the responsibility to plan and coordinate the military aspects of the Governor's Inauguration 1 January 1971.

Distribution of New York State Flags to servicemen overseas totaled 695 for the year; this was a decrease of 835 from 1970. Loans of flags to civilian organizations and requests for miniature flags by school children increased over last year.

Logistical support consisting of supplies, equipment and transportation was arranged for the following organizations using facilities at Camp Smith for training and marksmanship; New York Guard, Marine Construction Battalions (NYNM), Veteran Corps of Artillery and Old Guard of the City of New York. Support of the Veteran Corps of Artillery was extended for procurement of surplus equipment and inspection of inventory and property records.

During 1971 166 requests for use of State sedans required for Division of Military and Naval Affairs staff travel were processed with Office of General Services Fleet Management.

Actions involving State property disposal and relocation of units at the following facilities were completed by the State Quartermaster as Project Officer:

Removal from 101 E 33rd Street, New York City to 125 West 14th Street, New York City. This included procurement of furniture and equipment, disposition of excess unserviceable items, and moving State property. The old armory was released to the City of New York 2 August 1971.

Moving State property from the 15th Street Armory, Troy and Cohoes armory to the new location on Glenmore Road, Troy; this was completed 28 July 1971.

Clearance of serviceable, unserviceable and excess State property from the armory at 357 Sumner Avenue, Brooklyn; action completed 15 December 1971.

The State Quartermaster functioned as Officer in Charge and Control of Division of Military and Naval Affairs quarters, Public Security Building, State Campus, Albany, New York.

In addition, the Manual standardizes procedures for permitting non-military use of armories, and defines responsibilities of the military personnel and the armory staff in the building,

FACILITY OPERATIONS BRANCH

The revised manual for the management and operation of State Military Installations was published in February 1971 by the Facility Operations Branch. This manual attempts to provide armory superintendents with updated guidance in such areas as security, security procedures, and the custodial standards expected by the Division at each armory.

To assist in implementing the requirements outlined in the revised manual, conferences were held in six geographical areas for the armory superintendents. New procedures were discussed, and instructions were given on initiating some of the changes in the manual. Comments by the superintendent on individual problem areas were encouraged and, in most cases, were beneficial to all in attendance.

During 1971, State Armories at Elmira, Mohawk, Middletown and Cohoes were closed. This action, mandated by the State Legislature, involved relocation of Army National Guard units and Federal equipment, transfer and disposal of State equipment, relocation of armory staffs, and in some cases, dismissal of those employees with low seniority. When vacated, the armories were turned over to the Office of General Services.

In addition to the four armories listed above, plans were made to discontinue use of the State Armory at 357 Sumner Avenue, Brooklyn for troop housing. Because of the critical shortage of military vehicle maintenance and storage space in the metropolitan New York area, the drill shed portion of the armory will continue in use as an Organizational Maintenance Shop and a military vehicle storage compound.

The administrative portion of the armory will be used by the Addiction Research and Treatment Corporation, which, in a Memorandum of Understanding, dated 8 December 1971, agreed to assume the costs of security, utilities, and maintenance of the armory, including that portion retained for military use. A Formal Agreement will be signed early in 1972.

During 1971, progress was made in acquiring real estate for outdoor training of the National Guard. A 485 acre site located in South Dayton, New York was licensed by the Corps of Engineers in July 1971. This site will support National Guard units located in the western section of the State. Federal funds for the improvement of this training area will be requested early in 1972.

Negotiations for the acquisition of an additional training site at Newark, New York have been com-

pleted. This 100 acre area, formerly used by the Newark Training School, will be transferred to the jurisdiction of this Division by the Office of General Services. Again, Federal support for development will be requested.

Adequate real estate and facilities for Army aviation continue to have a high priority. During the year, the Facility Operations Branch participated in several meetings with other State and County agencies in an effort to obtain required acreage in the Long Island and Capital District areas.

To fulfill the mission of providing adequate facilities for use by the New York National Guard, the Facility Operations Branch surveyed all armories to determine essential items of equipment to be replaced or to be furnished new.

The concept of week-end training by the National Guard has generated additional requirements for types of equipment not formerly needed by the Guard. Refrigeration units, mess tables and chairs, and commercial type ranges should be standard equipment in each armory. A phased program for acquisition of the necessary major items of equipment has been initiated.

During the latter months of 1971, the reorganization and conversion of the New York Army National Guard required an evaluation of each armory's troop capacity. Primary areas of concern were arms vaults, supply rooms, and locker rooms. The requirements developed by this evaluation were submitted to the National Guard Bureau and, when approved, will be supported by 100% Federal funds.

The age of the majority of our armories mandates a continuing and thorough inspection program to insure an awareness of structural, troop housing, and custodial/maintenance deficiencies at each armory and logistical facility. Although other high priority work prevented obtaining this overall information in 1971, it is expected that during the coming year the Facility Operations Branch will be able to devote the necessary time to this important area.

FACILITIES ENGINEERING BRANCH

This Branch is responsible for the execution of all contract construction programs at facilities of the Division of Military and Naval Affairs and for providing engineering assistance to all staff and field elements of the Division of Military and Naval Affairs. Technical and administrative functions are performed by Branch personnel in close coordination with other State and Federal Agencies.

During the year, construction of two major new armories was completed and the facilities occupied. These were the 5.5 million dollar armory at 125 West 14th Street in Manhattan and the 2 million dollar Troy Armory, located on Glenmore Road in North Greenbush. Other major project completions included

the Roslyn Air National Guard Ground Support Equipment Building, Widening of the Camp Smith Entrance Road and the Auburn Organizational Maintenance Shop.

Construction started on USP&FO Igloos at Camp Smith, New Electric Service at Camp Smith and a long delayed project to provide basement ventilation and exterior grounds improvements at State Armory, 2366 5th Avenue, New York City.

Design was started on Federally supported projects expected to be constructed in 1972. These included Expansion of CSMS "A" at Camp Smith, Expansion of the Dunkirk Armory, Schenectady Airport Runway Resurfacing for the New York Air National Guard and Intrusion Detection Systems and Vault Modifications at various armories, to provide additional security for small arms and ammunition. The latter included Intrusion Detection Systems at 42 locations and Vault Modifications at 65 locations and was, therefore, a major engineering effort.

Design started on the proposed FY 73 Federally funded project for a new USP&FO Warehouse at Camp Smith.

Engineering support for the New York Air National Guard continued at a high level.

The major problem area that developed early in the year was a zero appropriation for State funded Capital Construction projects, including the Continuation of Camp Smith Modernization. In the latter case, design for the proposed new Troop Recreation and Service Building continued, but no funds were available. Rehabilitation projects were also adversely affected and at the end of the year only 1/4 of the original \$600,000 appropriation had been released by Division of the Budget. Submission of Rehabilitation projects in the FY 72-73 Budget was further complicated by a new requirement imposed by Budget to consider some of these as Repair projects to be included in the Operating Budget. The tighter fiscal policy showed no signs of improvement at the end of the year. This resulted in stricter administrative controls established by State Budget and Comptroller and re-evaluation of priorities by Division of Military and Naval Affairs to continue essential maintenance and repairs of our facilities.

COMPTROLLER

GENERAL

The Fiscal Office is responsible for the budgeting, allocation, control, expenditure and accountability of the State and Federal appropriated funds.

Effective with the January 1971 status of allotments and allied reports, the Fiscal Accounting Section converted to the IBM System 360/20. Eight states received this IBM equipment, and the National Guard Computer Center, in conjunction with the

states of Pennsylvania, New York and Massachusetts, designed the standard comptroller package to be used by each state.

This package consists of ADP programs for the preparation of all fiscal reports and other output products used in internal accounting operations.

The National Guard Bureau is presently field-testing a standard payroll package for the 360/20 computer which will, when finalized, integrate leave accounting with payroll preparation and produce all required statistical data relative to technician man day utilization and cost.

LEGAL OFFICE

The Legal Section is responsible for all legal matters concerning the Division and the Organized Militia. These include the following:

- a. Legislation
- b. Real property transactions
- c. Contracts, leases and agreements
- d. Third party claims against the Militia and the Division
- e. Line of duty injuries affecting the militia
- f. Administration of Military Justice
- g. Coordination with other state and federal agencies.

STATE LEGISLATION

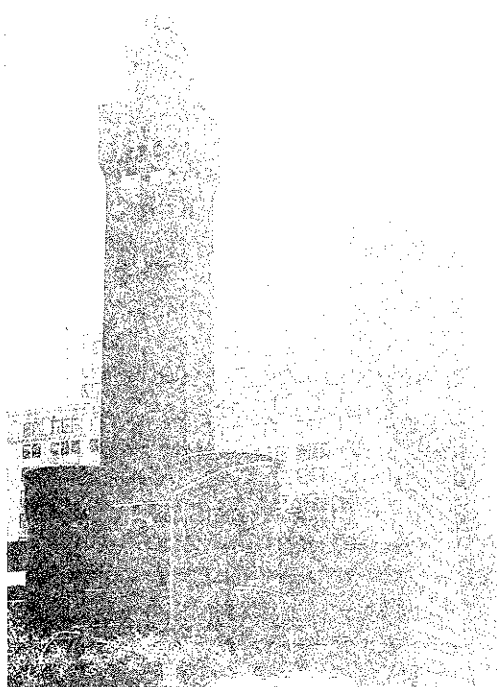

There were two new laws affecting the Organized Militia enacted in 1971.

Chapter 156 of the Laws of 1971 amended the Court of Claims Act to provide protection to the members of the Organized Militia by requiring that any claim against a member would be considered as a claim against the State and not the individual, provided the individual was acting within the scope of his employment as a member of the Militia.

Chapter 238 of the Laws of 1971 amended Section 235 of the Military Law to authorize the Attorney General, at his option, to appear on behalf of a member of the organized militia for any claim arising while the member was performing ordered military duty. It would also provide for the individual member to be indemnified for attorney's fees and costs for any claim arising from the performance of such duty, if the Attorney General did not appear.

FEDERAL LEGISLATION

An important item of federal legislation in 1971 was Public Law 92-129, amending the military Selective Service Act of 1967, increasing military pay, authorizing military active duty strengths for fiscal year 1972 and for other purposes. This law became effective on 28 September 1971. Congress limited inductions in fiscal year 1972 to 130,000 and in 1973 to 140,000; the authority to induct persons into the the armed forces was extended to 1973; it provided

END OF AN ERA - - - the Woolly tower of a famous New York City landmark, the 71st Regiment Armory, has become empty building for the first time in 50 years. With transfer of the 41st and "Rainbow" Div. and 1 Bn 71st Inf. to the new 14th St. Armory, the well-known 34th St. and Park Ave. facility was turned over to New York City under terms of a 1964 agreement that resulted in the sale of 6 armories to the City.

WEAT SO PROUDLY WE HAIL - - - our National and State flags, were presented to SGM Thomas J. Lumley (left) and MSG William H. Curley, National Guard veterans totalling 74 years service, during ceremonies dedicating the new Troy Armory in November. They then marched to flag poles in front of the building and raised the flags officially, for the first time at this facility, which was built by Rensselaer Polytechnic Institute in exchange for the former Armory.

TENDERLY, BUT DEPOSITIVELY - - - men of Co C 50 Maint. Bn. fold the U.S. flag for the last time in front of their former home, the Mohawk Armory. Following a brief and solemn ceremony with the unit in formation and including remarks by the Mayor, the men mounted in trucks and left for their new station, the Prior Armory. Among those present were 5 men who left with the Mohawk unit for active duty in World War II, including one man who now lives in Guam.

for identification and treatment of drug and alcohol dependent persons in the armed forces; appointments of regular, temporary and reserve officers to field grades and above were made subject to the advice and consent of the Senate; and the Secretary of Defense annual statutory fiscal reports to Congress must now contain additional details justifying and explaining manpower requirements for support and overhead functions.

CLAIMS

During 1971, under the provisions of Titles 32 and 38, United States Code, a total of 251 line of duty investigations were processed for injury and disease to National Guardsmen while engaged in training.

| | |
|--------------------|-----|
| Approved LOD | 134 |
| Disapproved LOD | 2 |
| Pending NGB | 24 |
| Pending from units | 61 |
| | 251 |

There were 84 motor vehicle accidents involving National Guard vehicles and third parties during 1971. Five of these claims are now in litigation.

On 17 April 1971 two members of the 4th Battalion 258th Artillery were killed by a civilian vehicle while enroute to a training assembly.

On 18 February 1971 a member of the 1st Battalion, 105th Artillery, NYARNG, died as a result of an approved line of duty sustained during 1970.

On 13 September 1971 a member of the 1st Battalion, 107th Infantry, NYARNG, died as a result of a coronary condition. This matter is still pending. Every effort is being made to obtain approval of this incident to enable the deceased widow to obtain benefits under the federal law.

TECHNICIAN PERSONNEL OFFICE

The Technician Personnel Office is responsible for the administration of, and the personnel services for, approximately 2,400 New York Army and Air National Guard Technicians.

In accordance with the provisions of Executive Order Number 11491, technicians, as federal employees, are permitted to be represented by a labor organization. Contract discussions with the union of their choice, the Association of Civilian Technicians, Inc., began on 19 March 1971. After seven negotiating sessions, four unresolved issues remained. These were referred to the United States Department of Labor Impasse Panel who directed that negotiations be resumed. Two more sessions were held without further agreement being reached.

The number of funded positions for Army National Guard Technicians was increased on 27 Sep-

tember 1971 by 87, to bring the authorized employment level up to 1,453. The majority of new positions were in the aircraft and automotive maintenance areas.

Many changes were necessitated as a result of the reorganization of the Army National Guard on 1 December 1971. They were accomplished with a minimum of turbulence. Downgradings were necessary in only four cases, all of whom were placed in a saved rate or in equivalent positions.

At the close of the year there were 2,329 technicians employed in 73 communities within the state.

SENIOR ARMY ADVISOR

The mission of the Senior Army Advisor and his subordinates is to represent and act as a spokesman for the Active Army in all reserve component matters under the purview of the respective Army Commander, act for, advise and assist the Army Commander in the supervision and inspection of training and readiness of NYARNG units, render professional military advice and assistance to NYARNG Commanders in military matters concerning the organization, operation, training and readiness of the units, monitor the use of, and assist in, the management of Federal Resources in support of the New York Army National Guard. The Senior Army Advisor serves as Military Advisor to the Chief of Staff to the Governor and acts as Liaison Officer between the Army Commander and the Chief of Staff to the Governor when so designated.

In order to improve the effectiveness of the Army Advisors and to improve the training and readiness of the NYARNG, a program in which advisors are required to review and evaluate each National Guard Unit semiannually and forward reports through advisor channels was initiated in June 1971. The new program, not only provides the Senior Army Advisor and Army Commander current information on the status of National Guard Units, but also provides the unit commander and his higher headquarters an additional means of determining the progress and status of their units. Advisors discuss all problem areas revealed as a result of the review and evaluations with the appropriate unit commanders and provide them a copy of the completed review and evaluation report.

In December the Advisor Group was realigned to correspond to the reorganization of the New York Army National Guard. The Advisor Headquarters and the office of the Senior Army Advisor are located in Albany. The Senior Advisors to the three Major Commands, 42d Infantry Division, 27th Support Center Rear Area Operations and the 27th Brigade, 50th Armored Division are located in New York City, Albany and Syracuse respectively. In order to effectively provide advisor coverage to all units of the

New York Army Guard, Army Advisors are stationed in 31 Armories throughout the state and additionally provide advisor coverage to units located in 52 other facilities from their primary locations. As a result of the increased emphasis now placed on the reserve components, the Senior Army Advisor's authorization for unit advisors has been increased by approximately 20 percent, raising the strength authorization level to 87 Advisors and 5 Administrative Personnel for the Headquarters. The New York Advisor Group remains the largest in the First United States Army Area. As of the end of 1971 the Advisor Group's strength was at approximately 70 percent for officers and 80 percent for enlisted personnel. It is anticipated that the increased authorization and emphasis on the role of the reserve component will result in a significant increase in these percentages in 1972.

CAMP SMITH

UTILIZATION

MILITARY

1971 Weekend Training ranged from 9-10 January with Mobile Construction Battalion 19, New York Naval Militia, using the Camp's facilities, to 4-5 December when 1st Bn, 71st Inf; 101st Sig Bn (Opns) and 133d Maint Co (DS) - all NYARNG - performed their ordered duty training.

The following New York Army National Guard units conducted their Annual Training from 15 through 29 May: 204 Engr Bn (-); 133d Maint Co (DS) (Div); HHD, 569 Trans Bn (Trk); 719 Trans Co (Mdm Trk - Cgo); 1469 Trans Co (Mdm Trk Cgo); 1569 Trans Co (Lt Trk) (Ty B) and 669 Trans Det (HRP).

The Empire State Military Academy conducted its school for officer candidates and noncommissioned officers from 14 through 28 August. Supporting NYARNG units included HHD, NYARNG (-); Clr Plat, 243 Med Co; 138 Pub Info Det (Fid Svc) (Opn); and 199th Army Band.

PARA - AND QUASI - MILITARY

In addition to the annual New York Guard encampments, the Camp's facilities were also opened to various organizations and groups such as the Old Guard of the City of New York, Veteran Corps of Artillery, and Logan-Duffy Rifle Match personnel.

LAW ENFORCEMENT AGENCIES

Agents of the New York City office of the Federal Bureau of Investigation conducted weekday classes for recruits and advanced members of various municipal law enforcement agencies from 3 March through 20 December. Attendees were from various municipalities of the northeastern United States, Canada, and the Virgin Islands. The Bureau's agents con-

ducted periodic qualification firing.

YOUTH GROUPS

Included among the youth organizations which were accommodated were several Boy and Cub Scout troops, a military corps associated with the 102d Engineer Battalion, and the Football Club of Westchester Community College.

CONSTRUCTION

The reconstruction of the Camp Smith entrance road - its first major rehabilitation in over 50 years - commenced in September 1970; and while essentially completed in June, had its final inspection on 17 September 1971.

The completion of the installation of the new electric distribution system which was originally scheduled for July 71 is now scheduled for early February 1972, due to delay in the delivery of equipment.

SIGNIFICANT EVENTS

The 1971 Empire State Military Academy Review in honor of Major General A. C. O'Hara, former Chief of Staff to the Governor, and now, Commissioner, Office of General Services, was modified to an indoor ceremony because of an unusually heavy rainfall. During the graduation exercises, General O'Hara was presented with the US Army Distinguished Service Medal by Major General John C. Baker, Chief of Staff to the Governor.

Included in the Empire State Military Academy graduation ceremonies was the first promotion, nationwide, to the grade of Colonel of a National Guard Officer Candidate School graduate.

An area on the southeast perimeter of the East Parade Ground was designated "Memorial Walk" where it is planned to display monuments, plaques and other suitable military memorabilia.

At the present time, the only memorial on display is the 27th Division Association's monument which was emplaced by the 221st Engineer Battalion in early June. Dedication ceremonies were conducted by the Association on the occasion of its annual picnic held on 20 June.

In response to an order of the Federal Court, Southern District of New York, fill was removed from approximately one acre of land adjacent to the main camp entrance at Route 6. The Boyce-Thompson Institute for Plant Research, Inc., has undertaken the task of restoring that area to an active marsh condition. Tests are concurrently being conducted by that organization to determine the ecological effect of this area on the waters of the Hudson River.

STATE MILITARY MUSEUM

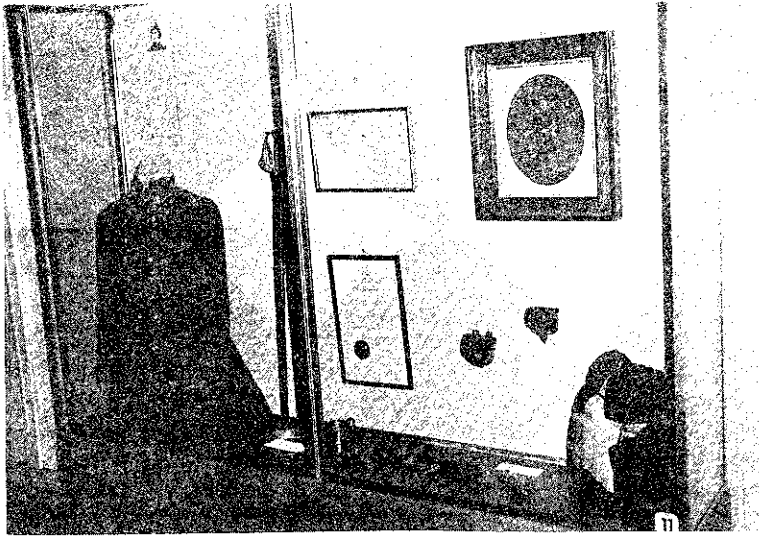

In 1971, 52 Civil War Colors were restored under our Civil War Flag Restoration Program. Since the inception of this program in 1962, approximately 392 Civil War Colors have been restored and many are on display on the first and second floor of the State Capitol.

More than 72,350 visitors signed our "guest

book" when they visited the Museum during the past year.

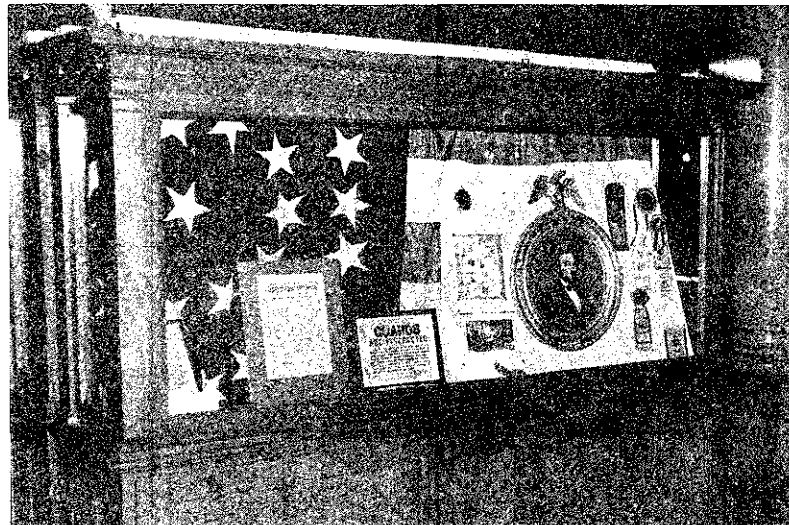

Our collection continues to grow with donations of precious memorabilia. These gifts are symbols of our proud heritage and serve to remind us of those men and women who participated so faithfully in every conflict in which New York troops have engaged.

The Museum is under the jurisdiction of the Chief of Staff to the Governor.

THE FIRST OFFICER KILLED -
- - in the Civil War was Colonel Elmer E. Ellsworth 24 of Mechanicsville after he went to the roof of a hotel in Alexandria, Virginia and tore down a confederate flag. The uniform he wore at the time, with the bullet hole in the chest, is displayed along with the flag and other mementos in a showcase at the Military Museum in the State Capitol.

A LINCOLN LETTER - - - written by the Civil War President pardoning a deserter, a piece of a dress stained by Lincoln's blood and worn by an actress at Ford's Theatre the night he was shot and the flag that draped his bier as he lay in state in the Capitol at Albany are some of the items in this Military Museum showcase.

GETTING A MOUTHFUL - - - at an open house conducted by NY Naval Militia units for residents of several children's homes.

SEEING IS BELIEVING - - - at a display set up in a public park during a civilian Band Concert.

CROSSING STATE LINES - - - NY National Guardsmen erect a fence line at a boys camp in New Jersey.

CLEARING THE WAY - - - so children can play at a public park in Manhattan.

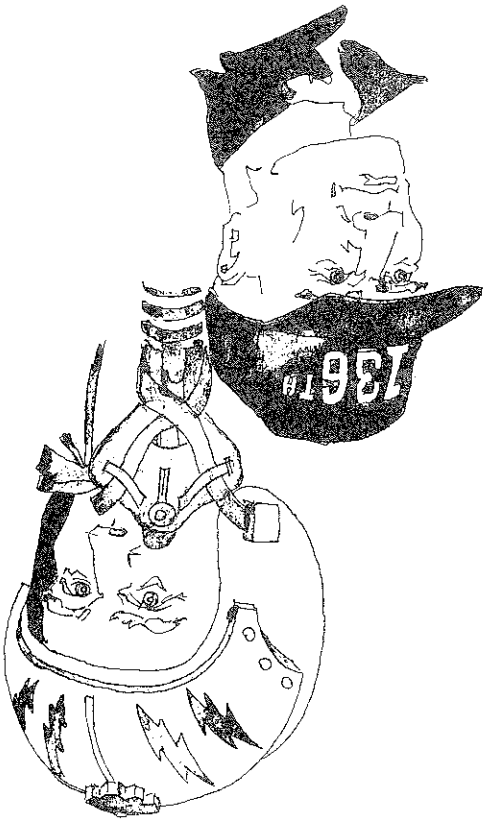

COMMUNITY ACTION --- was emphasized during 1971 as units of the State Military Forces became more and more involved in programs to benefit children, youth groups, charitable organizations and civic projects. Procedures for such programs were established and all units encouraged to participate.

FUN AND GAMES - - - for underprivileged children at an amusement park, sponsored by NY Air National Guard and the Community Mayors.

AIR NATIONAL GUARD

new york

AIR NATIONAL GUARD

GENERAL

Change continues to be the only constant known to the New York Air National Guard, and 1971 can be reviewed as a year of great, and significant change for NYANG's 5,000 officers and airmen. It was the year of transition to new aircraft, changes in mission, and reorganization of units.

It was a year of promotions and new assignments, the most significant being the appointment of Brigadier General Raymond L. George as Commander, NYANG, in September, General George succeeded Major General Lewis A. Curtis, commander for 18 years, who resigned.

The 51 units of the New York Air National Guard are commanded by Brigadier General Raymond L. George. They are based at stations in White Plains, Westhampton Beach, Roslyn, Schenectady, Amityville, Syracuse and Niagara Falls.

NYANG's component units include a nearly ideal variety of missions to qualify for an informal designation as New York's "Tactical Air Force", as during 1971 most NYANG unit missions continued as "TAC Gained" (Tactical Air Command) units. While the mission of one major component was changed to the Aerospace Defense Command, NYANG's lone remaining MAC (Military Airlift Command) gained unit, the 109th, at Schenectady, was redesignated the 109th Tactical Airlift Group, and exchanged its C-97's for camouflaged C-130's.

Other TAC Gained NYANG units include the 174th Tactical Fighter Group, Syracuse; the 105th Tactical Air Support Group, White Plains; The 106th Air Refueling Group together with 106th AR Wing Headquarters Westhampton Beach; the 199th Tactical Forces Planning Group, Roslyn; the 152nd Tactical Control Group, and components, Roslyn, One Tac Gained unit, Niagara Falls' 107th TAC Fighter Group, left TAC, joining ADC (Aerospace Defense Command) as the 107th Fighter Group, ADC. They also transitioned from the F100 Supersabre fighters to the F-101 Voodoo fighter interceptors.

Personnel

Brigadier General Raymond L. George assumed command of NYANG in September. General George had served as Wing Commander, 106th Wing, and formerly, Commander, 106th Group, NYANG. General George had retired from NYANG in 1968 for business reasons, but was called from retired reserve status to assume his new command.

Brigadier General Raymond C. Meyer, former Wing Commander of the 106th received his General's star in July, and was appointed Deputy Commander, NYANG.

Notable personnel actions during 1971 included the following: Lt Col. LaVerne Donner, Commander, 107th Fighter Group, promoted to Colonel.

Colonel John Campbell, former commander, 109th Tactical Airlift Group was appointed Wing Commander, 106th Air Refueling Wing, based at Westhampton Beach. Lt Col. Stanley Hemstreet was appointed Commander, 109th Tactical Airlift Group at Schenectady.

Lt. Colonel Herbert Bagshaw, formerly of the Connecticut Air National Guard was appointed Commander, 199th Tactical Forces Planning Group.

Operations

In keeping with its tradition of change as its main characteristic, several units of the New York Air National Guard changed missions and aircraft as part of the overall Air National Guard reorganization to meet Defense Secretary Laird's call for greater reliance on the Guard and reserve forces as part of the Nation's military posture.

The 107th Fighter Group, Niagara Falls, commanded by Colonel LaVerne J. Donner, experienced a change in aircraft as well as mission when it was assigned to the Nation's Aerospace Defense Command. The combat veteran F-100 Supersabre jet fighters were exchanged for the nuclear warhead capable F-101 Voodoo fighter-interceptors during 1971, and the 107th joined other ANG groups across the United States' northern tier of states in taking over all ADC instant-response interceptor operations from the USAF.

The 109th, last of NYANG's once large contingent of Military Airlift Command gained units, traded its venerable C-97 four reciprocating engine aircraft for a new mission, and new aircraft, also. Going from MAC to Tactical Air Command, the 109th now known as the 109th Tactical Airlift Group, was assigned 8 C-130 Hercules turboprop tactical transports.

The 109th acquired a new commander during the year, also, with the appointment of Lt Col. Stanley Hemstreet, vice Colonel John Campbell, who became 106th Air Refueling Wing Commander.

The 174th Tactical Fighter Group, Syracuse, achieved combat readiness status in its new aircraft, the A-37B Dragonfly, less than one year after transition from the old F-86H Sabrejets.

Commanders of NYANG Major components as of 31 December, 1971 include the following: 105th Tactical Air Support Group, Lt Col. Robert C. Chambers; 106th Air Refueling Group, Colonel Herbert Beers; 106th Air Refueling Wing, Colonel John C. Campbell; 152nd Tactical Control Squadron, (TACC) Major Arthur Farrell; 107th Fighter Group, Colonel Laverne J. Donner; 108th Tactical Control Squadron,

Lt Col. Robert A. Gaughan; 109th Tactical Airlift Group, Lt Col. Stanley W. Hemstreet; 152nd Tactical Control Group, Colonel Bernard Saul; 174th Tactical Fighter Group, Colonel Curtis J. Irwin; 201st Weather Flight, Major Alvin J. Brody; 213th Electronics Installation Squadron, Lt Colonel James Bianco; 274th Mobile Communications Squadron (Cont), Lt Col. Frank A. Cilento; 552nd USAF Band, (TACO), CWO Joseph Losh; 199 Tactical Forces Planning Group, Lt. Col. Herbert Bagshaw.

COMPONENT UNITS OF THE NEW YORK AIR NATIONAL GUARD

107th Tactical Fighter Group

The famed "Rocky's Raiders" of Vietnam war action traded their combat tested F-100's for the more sophisticated twin jet F-101 Voodoo during 1971, and began training in a dynamic new role as a crucial link in our Nation's fighter-interceptor screen against possible missile or manned bomber attack. The twin engine Voodoo flies at supersonic speed with ultrasophisticated, radar directed attack missiles, and is capable of carrying nuclear armed weapons. It carries a crew of two - a pilot, and weapon systems officer.

174TH TACTICAL FIGHTER GROUP

Men of the 174th scored a great training achievement by being designated C-2 combat readiness status in March. The 174th received its first A-37B aircraft on October 1, 1970, and accomplished C-2 status in less than six months.

SSgt Fred S. Richards of the 174th became the first airman in the unit to reenlist while airborne. Sgt. Richards, a Fire Fighting Crew Chief with the 174th re-enlisted for another three years while on an orientation ride in an A-37B. The pilot, Captain D. T. Noonan, read the oath of enlistment to Sgt. Richards.

The year 1971 was the year of the "Flyover" for the 174th. The unit's diminutive twin-jet A-37's were seen flying over in formation by more New Yorkers than any other Air Guard, Reserve of USAF units during the year.

TSgt Robert Bostley of the 174th became the second of the "Boys from Syracuse" in a row to win the coveted NYANG "Airman of the Year." Sgt Bostley, chief of the 174th's periodic maintenance section, was cited for his "dedication and concern for the good of the unit."

By May, 174th fliers had surpassed the 5,000 flying hours mark for the first time in its history. By July 1, more than 5400 hours had been flown, surpassing by 500 hours the minimum number mandated by the Guard Bureau.

A-37's of the 174th were most evident among all other flying units during exercise GUARD THUNDER, the 199th Tactical Forces Planning Group's second annual system training exercise.

105TH TACTICAL AIR SUPPORT GROUP

The year 1971 was the 105th's first full year with its O-2 Forward Air Controller Aircraft, but if this was a blessing, it was mixed. The 105th had a new aircraft, but the transition from C-97 and U-3 to O-2 required more than getting used to a new airplane. In fact, men of the 105th not only had to readjust to new equipment but had to actually rebuild most of the planes, which had been through the most rigorous of combat operations in Vietnam.

Once with capable aircraft, men of the 105th made national news through their program of assisting local governmental health agencies in the detection of violations of water and stream pollution laws. 105th pilots, on the kind of observation missions they would be doing in combat, initiated a program of photography and reporting to local civic officials. The local health agency would then send its own aircraft up to take similar photographs for evidence and possible action.

The 105th also has become a popular "flyover" unit, providing inspirational events to occasions in its general locale, Mayor Richard S. Hendey of White Plains praised the unit for its participation in Memorial Day observances in that city in a letter to 105th Commander, Lt Col. Robert Chambers;

"On behalf of the City (White Plains) please accept for your men our appreciation for the inspirational fly-over by the aircraft of your organization. The entire audience thrilled at your demonstration of civic pride and participation in the solemn ceremonies."

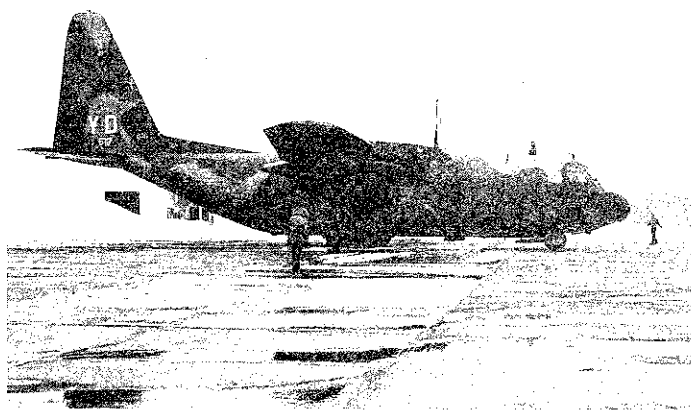

152ND TACTICAL CONTROL GROUP

The 152nd once again, as in 1970 at SENTRY LONGHOUSE, provided the crucial control activities that made the 1971 system training exercise so successful. The 152nd underwent a reorganization in 1971. The 106th Tac Con Sq was inactivated, and in its place, the 152nd Tac Con Sq (TACC) activated. The 108th Tac Con Sq at Hancock Field, Syracuse, was redesignated the 108th Tac Con Sq (CRC), and two flights were activated, the 113th Tac Con Flt (FACP), and the 128th Tac Con Flt (FACP).

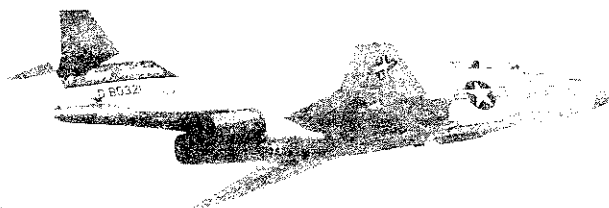

In addition to its involvement in GUARD THUNDER, the 152nd participated as part of a Tactical Force Planning Group team in a joint regular Army, USAF and ANG exercise, EMBER DAWN.

Colonel Thomas Sheldon, Deputy Commander, received his promotion to full Colonel in June, 1971.

Civic affairs of the 152nd during the year in-

THE C-130 "HERCULES" - - - has replaced the C-97 in the 109th Tactical Air Support Group, Schenectady. Conversion to the four engine, high wing, heavy assault transport also meant a change from Military Airlift to Tactical Air Command. Capable of making deliveries by extraction, while flying only 5 feet above ground, it can carry 92 ground troops, 64 paratroops or 74 litter patients.

THE F-101 B "VOODOO" - - - is the new aircraft assigned to the 107th Tactical Fighter Group in Niagara Falls. The combat tested unit, which compiled an outstanding record in Vietnam, converted from the F-100, Super Sabre and switched from an attack to a defense mission. It will assume a portion of the perimeter defense of the U.S. with the 2 man "Voodoo" which flies at up to 1200 MPH and has a ceiling of over 50,000 feet.

cluded active participation of the United Fund of Long Island, for which they received Merit Award; participation in the annual crippled and handicapped children's outing in June; and assistance in the annual fund raising project of the North Shore Community Hospital.

109TH TACTICAL AIRLIFT GROUP

Men of the 109th, in Schenectady bid farewell to the last of NYANG's C-97 reciprocating engine transports in 1971 for a new mission and a new aircraft. Joining the TAC team, but remaining in the airlift group, the unit acquired eight combat tested C-130 Hercules turboprop transports.

A major personnel change occurred when Colonel John C. Campbell, Group Commander, was appointed Wing Commander, 106th Air Refueling Wing, located at Suffolk County Airport. Succeeding Colonel Campbell is Lt Col. Stanley W. Hemstreet, former Deputy Group Commander for Operations.

Being close to Albany, the 109th received frequent visits from distinguished governmental leaders. One of those who toured the base, and spoke to the technician detachment during 1971 was Congressman Samuel Stratton.

An interesting historical incident: The last C-97 aircraft of the 109th was delivered to the Spanish Government in May. It was delivered by Lt. Col. Charles E. Argenta - - the man who first flew the same aircraft from the Boeing Company into the USAF inventory in 1953.

CHRONOLOGY OF HIGHLIGHTS

January

Three non-commissioned officers 213 EISq NYANG volunteered for active duty for period 30-60 days in Korea assisting the USAF in a special communications project.

February

Lt. General J. T. Robbins, Vice Commander Tactical Air Command visited 174th TAC Ftr Gp.

174th TAC Ftr Gp deployed 45 pilots and 115 selected airmen to MacDill AFB, Florida for the A-37 Aircraft gunnery and proficiency training.

March

109th Military Airlift Group reorganized as 109th Tactical Airlift Group and assigned to Tactical Air Command with change in Aircraft from C-97 to C-130.

552nd Air Force Band commanded by CWO Joseph Losh participated in the 3rd Annual Kennedy International Memorial Winter Games at Olympic Arena Lake Placid, N.Y.

April

Captain Alvin H. Brody assumed command of

201st WEA Flt (SA) vice Lt. Col. Ferdinand Lurken reassigned to Hq NYANG as Staff Weather Officer.

Lt. Co. William J. Sullivan former Commander of 274th Mobile Com Sq at Roslyn and Staff Communication Officer Hq NYANG retired after twenty-eight years of service. An appropriate ceremony was held at Roslyn ANG Station.

MSgt W. R. Hutchinson, Air Technician 152 TCGp and several airmen assisted in a special project to transport canned food by military vehicle from Long Island to McGuire AFB, N.J. Food and clothing were shipped by military air to the Cocopah Tribe in Arizona.

105th Air Support Gp and Hq NYANG received the Annual no-notice federal inspection. Rating was satisfactory.

May

Tech Sgt Robert Bostley, 174th Tac Ftr Gp was selected as the "NYANG Airman of the year." An appropriate plaque has been presented by the Commander NYANG at a ceremony at Hancock Field Syracuse.

As a result of the reorganization of the 109th Military Airlift Group to Tactical Airlift Group, the last C-97 aircraft was delivered to the Spanish Government. Aircraft was delivered by Lt. Col. Charles E. Argenta, the same individual who delivered the same aircraft from the Boeing Aircraft Corporation into the USAF inventory in 1953.

All NYANG units participated in local community Memorial Day Parades. The 105th TASGp and 174th Tac Ftr Gp furnished "Fly-overs" over many communities.

199th TFGP conducted a quarterly systems training exercise "BRIGHT SHIELD I" during Unit Training Assembly 15-16 May. All NYANG communications and Fighter units in addition to units from five other states also participated.

174th TAC Ftr Gp pistol team participated in the Mid-Winter Pistol Championship and Pan American International tryouts in Tampa, Florida, 13-14 Mar. Seventeen first place awards were won by MSgt. James Monroe and five events by the team.

For the first time in history, 174th Tac Ftr Gp exceeded 5,000 hours of flying time in one year.

174th Tac Ftr Gp awarded the National Guard Bureau Flying Safety Award for calendar year 1970.

June

Major General Lewis A. Curtis resigns as Commander New York Air National Guard,

Colonel Raymond C. Meyer is appointed acting Commander New York Air National Guard.

107th Tactical Fighter Group, Niagara Falls, N.Y. reorganized as 107th Fighter Group and assigned

to Aerospace Defense Command with change in Aircraft, from F-100c to F-101's.

Some 350 members of the NYANG devoted a day in escorting and assisting some 4100 Mentally and Physically handicapped children at the annual outing at Astroland, Coney Island. This event is sponsored by the "Community Mayor's of New York State."

Lt. Col. Thomas Sheldon, Deputy Commander 152nd Tac Con Gp promoted to Colonel.

As a result of annual no-notice general inspection of 201st WEA Flt, Hq. Air Weather Service rated this unit as "Highly Effective" - the highest possible rating. It was the only Army Support flight in the United States so rated.

Base Detachment Commander, NGAB Niagara Falls hosted the NYANG Annual Pistol Match.

July

Colonel Raymond C. Meyer Commander 106th Air Refueling Wing promoted to Brigadier General and appointed Deputy Commander, New York Air National Guard.

201st Weather Flight attended annual training at Camp Drum, N.Y. in support of the 42d Infantry Division Aviation Battalion.

552d Air Force Band participated in ceremonies for the Annual N.Y. State American Legion Convention in Rochester, N.Y.

Annual training exercise "GUARD THUNDER" was held at Otis AFB, Mass. during period 17-31 July. Exercise was conducted by the 199th TFPG of N.Y. All NYANG communications, fighter units in addition to ANG units east of the Mississippi River participated in this exercise.

On 18 July 174th Tac Ftr Gp provided a Missing Man Formation over Yankee Stadium, New York City in observance of Flag Day. In addition unit provided fly-over during 3-5 July over fifteen communities in conjunction with celebration of Independence Day.

August

Personnel from the 152d Tac Con Gp, 106th and

108th Tac Con Sq participated as a part of the 199 TFPG team in a joint Army, USAF and ANG exercise "EMBER DAWN" in Anchorage Alaska. The 199th TFPG assisted the Commander, Alaskan Joint Command in preparing the exercise.

September

Brigadier General Raymond L. George assumes command of the New York Air National Guard.

152d Tactical Control Group reorganized. 106th Tactical Control Sq inactivated and 152d Tactical Control Squadron (TACC) organized at Roslyn. 108th Tactical Control Squadron reorganized.

152d Tac Con Gp, 106th Tac Con Sq and 552d Air Force Band received annual no-notice inspection. Rating was satisfactory.

October

552d Air Force Band participated in the Annual Columbus Day Parade in Yonkers.

The 174th Tac Ftr Gp was awarded the Governor's Air Trophy for FY 71 and the 109th Civil Engineers Flight was awarded the NYANG Commanders Trophy for same period.

November

Major General John C. Baker, Chief of Staff to the Governor together with all NYANG commanders attended the Annual ANG Commanders conference sponsored by the Director ANG, National Guard Bureau at Denver, Colorado.

ANG communications units participated in a quarterly training exercise "BRIGHT SHIELD II" 6-7 Nov., conducted by the 199th TFPG.

NYANG furnished aircraft to transport wives and next of kin of Vietnam POW/MIA's to Washington, D. C. to attend the National League of Families Convention.

December

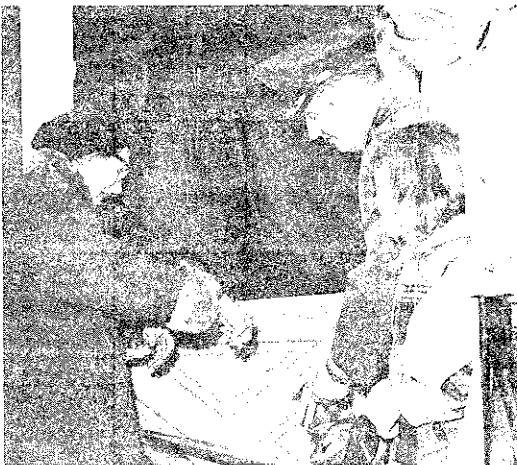

274th Mobile Communication Sq received its no-notice General Inspection. Rating was satisfactory.

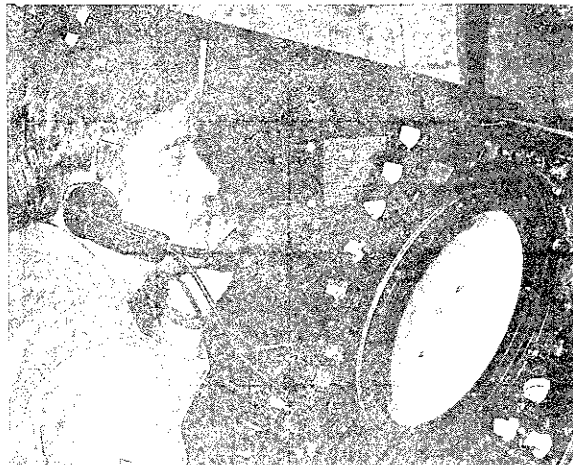

FIRST AND LAST MAN - - - to fly this C-97 transport for the U.S. Air Force was LTC Charles E. Argenta, 109th Tactical Air Support Group, Schenectady. As a 2nd Lt. on active duty in 1955, he picked up 0241 at the Boeing plant. In 1971 as a NY National Guardsman, he flew it to Spain where it was turned over to the Spanish Air Force.

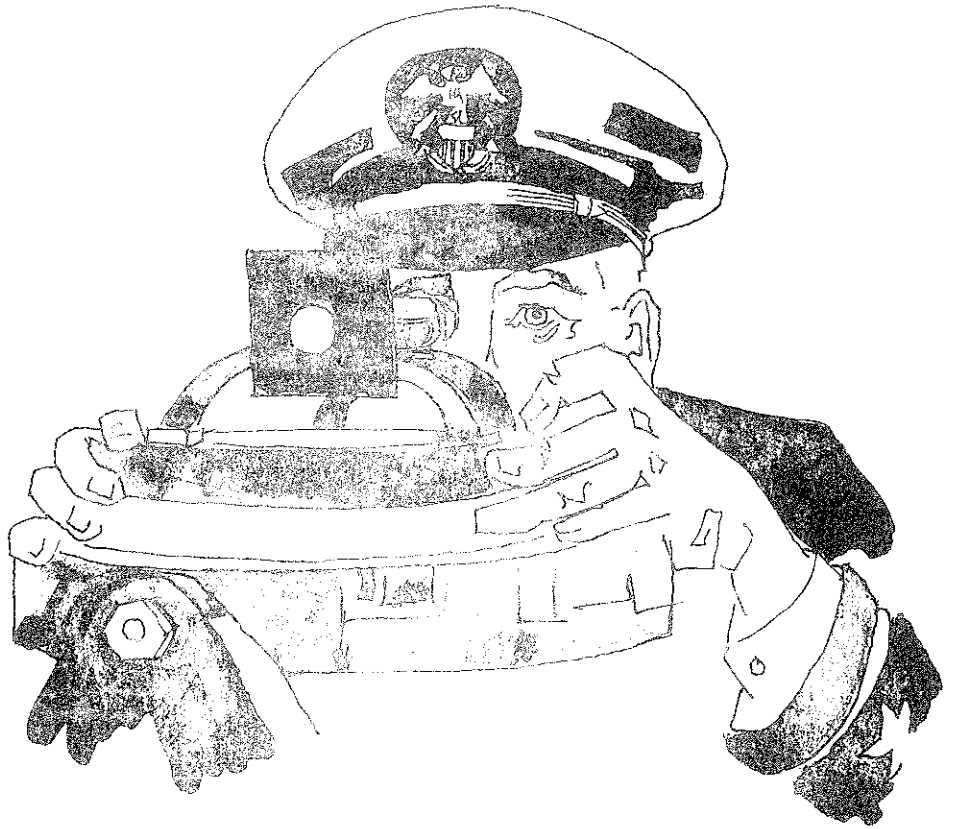

AIR AND WATER - - - pollution is the topic, as LTC Robert Chambers, Commander, 105th Tactical Air Support Group, White Plains, briefs newsmen on the unit's plans to detect major pollution sources for civic officials in Long Island and Westchester. Guard pilots will continue to serve as spotters while flying training missions in their Cessna 0-2 aircraft.

A MERRY CHRISTMAS - - - and happy remaining years were assured for Miss Margaret Mahl by Col Curtis J. Irwin and the 174th Tactical Fighter Group, Syracuse. With the assistance of local merchants, they completely renovated her condemned house that had been without heat, water or electricity for years.

RADAR CONTROL - - - of aircraft is the concern of ATC Richard Rosati, 152nd Tactical Control Group, Roslyn, during the GUARD THUNDER exercise that involved some 15 Air National Guard units from 9 States.

new york

NAVAL MILITIA

NAVAL MILITIA

MISSION

The Naval Militia as the Naval component of the State Military Forces has a two fold mission. The State mission is to provide a disciplined body of naval troops available to the Governor, to defend the State in the event of attack, assist competent local authority in the preservation of local process, and support recovery operations in the event of natural disaster or civil defense emergency. The Federal mission is to provide trained units and qualified personnel to be available for active duty in the US Navy and US Marine Corps in time of war or national emergency, and at such other times as the national security may require.

The New York Naval Militia, is composed of individuals and units of the United States Naval and United States Marine Corps Reserve. These Reservists, in addition to their Federal mission and responsibilities, have taken a second oath to be available to the call of the Governor and the people in the event of local emergencies.

AWARDS

The performance of the Naval Militia during the year 1971 was measured by nationwide Navy competition among Reserve units. Naval Militia divisions won first place District awards in each of the Surface Division categories of large, medium and small; and second place awards in the large and small categories in the Third Naval District which comprises the states of New York, Connecticut and Northern New Jersey.

In addition, Surface Division 3-20 (S) of Dunkirk has won the National First Place award for small divisions (the RADM S. C. Hooper Trophy).

The score card for this clean sweep is as follows:

| DISTRICT-SURFACE DIV'S (SMALL) - NATIONAL | | |
|---|-----------------|-------|
| First | 3-20 Dunkirk | First |
| Second | 3-18 Ogdensburg | |
| SURFACE DIV'S (MEDIUM) | | |
| First | 3-102 Watertown | |
| SURFACE DIV'S (LARGE) | | |
| First | 3-60 Buffalo | |
| Second | 3-53 Brooklyn | |

ORGANIZATION

Since the organization of the Naval Militia, in accordance with State and Federal law, conforms with that of the Department of the Navy several organizational changes were mandated during 1971. In April, following a reorganization in the Naval Reserve, the

Reserve Crews attached to the DESTROYERS and SHIP ACTIVATION MAINTENANCE AND REPAIR Divisions of the Naval Militia were structured into a new organization called the Reserve Destroyer Support Group. This group, which includes a Reserve Underway Training Unit, four destroyer crews and three SAMAR divisions is commanded by Captain Bryan McCrave and reports, for its Federal mission, through the normal chain of command to the Commander-in-Chief, Atlantic Fleet under the gaining command concept.

To better utilize the facilities and the personnel assets at the Armory in New Rochelle, the Militia battalion at that location was disestablished in April and the personnel within the subordinate units were merged into Division 3-70 (M). This reorganization provides for more efficient utilization of personnel. The new Division 3-70 has risen from twenty-seventh to eleventh place in the competitive standings with its counterparts in the District.

As a result of a phased restructuring of the Marine Corps Reserve, which was designed to delete augmentation and filler units from the force structure, one rifle company, and three communications companies were disestablished while two communications companies were redesignated; one remained in the communications field and one became a headquarters company for a tank battalion.

The current strength picture of the Militia is relatively stable, but future forecasts for all Guard and Reserve forces are grim. Retention and first term enlistments in the "zero-draft" environment are going to require a mobilized effort by all hands, and some significant help from the Congress and the Defense Department if we (the Guard and Reserve forces) are to remain responsive to our State and Federal missions.

OPERATIONS & TRAINING

Annual training duty this year, has seen the NY State Flag flown by NY Naval Militia units in California, Mississippi, Virginia, North Carolina and the Atlantic Ocean. The various Commands conducted amphibious landing exercises, desert warfare exercises, fleet operations and readiness exercises, and combat engineering and construction training.

Mobile Construction Battalion-19 (Seabees) conducted four weekend training periods at Camp Smith where post construction projects, and Army National Guard vehicle maintenance projects, were integrated with MOS and Small Arms Training to the mutual benefit of the Post, the National Guard and the Seabees.

In May, Bn 3-17 (Buffalo) conducted a "War-Gaming" operation nicknamed "Big Jump", which simulated a deep water Naval engagement from target acquisition through the battle completion. The exercise was monitored by the staff of the US Naval War

College and termed an outstanding success.

The 2nd Bn 25th Marines and 11th Communications Bn supported by Marine Reserve helicopter and fixed-wing aircraft participated in a two day Air Ground exercise at West Point in October of 1971 as part of "Operation Minuteman '71" a 25th Marine Regimental exercise conducted simultaneously in New York, Massachusetts and Ohio.

COMMUNITY RELATIONS

Our Navy units from Whitestone and Brooklyn turned-to on a cleanup operation at Coney Island and Staten Island to help remove oil slicks from those beaches, caused by an accidental spill from a Navy oil tanker in New York Harbor.

In mid July, the officers and men of Co H, 2nd Bn 25th Marines (Albany) assisted the NYS Police in the search for a missing 8 year old youngster in the Adirondack Mountains.

During the past year, our Naval Militia Armories have been utilized a total of 93,000 man days by 32 youth groups in the communities they serve. Among these groups are:

- Sea Cadets
- American Legion Youth Program
- High School Athletic Teams
- High School Bands
- Boy Scouts of America
- Civil Air Patrols
- Soul Brothers Basketball League
- Police Athletic League Teams
- Swimming Program
- Catholic Youth Organization Programs

FISCAL & LOGISTICS

The fiscal and logistic support of the Naval Militia is on a one to twenty-six ratio, with the State providing about \$300,000 and the Department of the Navy about \$7,800,000. The breakdown of these State and Federal expenditures are shown as enclosures to this report.

CHRONOLOGY OF HIGHLIGHTS

January

The Commander and Staff participated in the inauguration ceremonies for Governor Nelson A. Rockefeller.

Headquarters Staff secured, and coordinated the details for the participation of the U.S. Marine Corps Band from the Marine Corps Air Station, Cherry Point North Carolina for the opening ceremonies of the Kennedy International Games at Lake Placid, New York.

Chief of Staff, New York Naval Militia presented the Navy-Marine Corps Medal and the New York State Conspicuous Service Cross to Navy Fireman Arthur

J. Yost of Gloversville, for his heroic action in rescuing a woman from a submerged auto which had been driven into a pond as a result of an automobile accident.

February

Deputy Chief of Staff, New York Naval Militia and Commanding Officer, Co H, 2nd Battalion 25th Marines served on First Marine Corps District Policy Board in Garden City, New York.

Deputy Chief of Staff and Commanding Officers of all Marine Corps Branch units attended annual training conferences at Camp Lejuene, North Carolina, and the Landing Force Training Command at Little Creek, Virginia.

March

The Commander, New York Naval Militia inspected Mobile Construction Battalion-19 when it performed its annual training duty at the Construction Battalion Center, Gulf Port, Mississippi.

April

A reorganization of the Naval Militia was affected which realigned the Reserve Crews assigned to Anti-Submarine Warfare and Ship Activation, Maintenance and Repair elements, within the Southern Area, into a single command structure designated as the Reserve Destroyer Support Group.

Vessels of the Reserve Destroyer Support Group conducted their two weeks annual training duty in the Second Fleet operating areas off the coast of Virginia.

Mobile Construction Battalion-19 conducted its quarterly program of repair and construction work at the State facilities of Camp Smith.

May

Battalion 3-17, Buffalo, conducted a war gaming exercise nicknamed "Operation Big Jump", which was monitored by the staff of the Naval War College.

The Commander and Chief of Staff conferred in Washington, D. C. with the Assistant Chief of Naval Operations and the Assistant Chief, Bureau of Naval Personnel concerning implementation of the Naval Reserve reorganization and its affects on the Naval Militia.

All units participated in Community observances of Memorial Day.

June

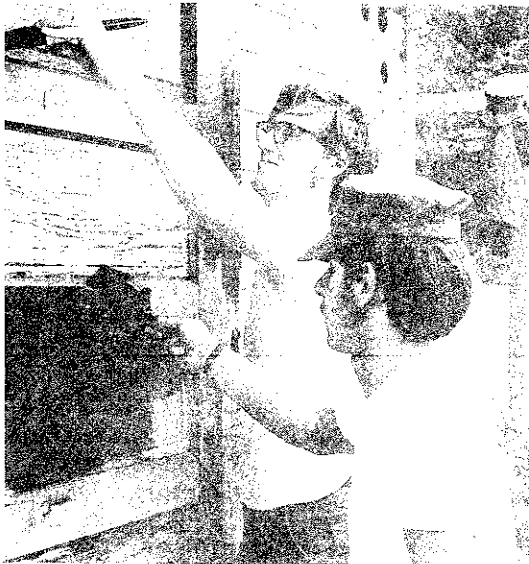

Awards of the Rear Admiral Louis N. Josephthal Trophy for military excellence were made in separate ceremonies to Division 3-60 (L) at Buffalo; Division 3-18 (S) at Dunkirk; and Co H, 2nd Battalion 25th Marines at Albany.

The 11th Communications Battalion (-) and

VERY PLEASED - - - about the training accomplishments of Mobile Construction Bn 19 (Seabees), NY Naval Militia, are (left to right) Capt Joseph L. Fabian; Capt Robert T. Connor, Commander, NYNM; and Cmdr. Alan Cruikshank, Commander of Bn 19. They are standing in front of Command Post Constructed by the unit during 2 weeks training in Mississippi.

PROUD SAILORS - - - are these men of Div. 3-20 NY Naval Militia, Dunkirk, as they receive the Josephthal Trophy for military excellence. The unit also won first place nationally as the best among 125 Small Surface Divisions.

A NEW COAT - - - of paint is applied by Seabees of MCB-19, NY Naval Militia to a storage building at Camp Smith.

ON THE FIRING LINE - - - at Camp Smith, sailors of the Southern Area, NY Naval Militia kick up the dust as they fire qualification courses with the M-14 rifle.

Radio, Relay and Construction Company, 12th Communications Battalion performed their two weeks annual training duty at the Landing Force Training Command, Little Creek, Virginia.

The Submarine USS TIGRONE (SS-419) visited the port of Albany.

On the 23rd of June the New York Naval Militia observed its 80th anniversary of service to the people of the State and the Nation.

July

2nd Battalion 25th Marines performed its two weeks annual training duty at Camp Lejuene, North Carolina.

Communications Support Company, 11th Communications Battalion performed its two weeks annual training duty at the Marine Corps Depot, San Diego, California.

Mobile Construction Battalion-19 conducted its quarterly program of repair and construction work at the State facilities of Camp Smith.

Division 3-77 of Whitestone and Division 3-53 of Brooklyn, assisted in the cleanup of oil spills at the beaches in Coney Island and Staten Island, which resulted from accidental discharge from oil tankers operating off-shore.

Co H, 2nd Battalion 25th Marines assisted in the search for a missing youngster in the wooded area of Newcomb, New York.

August

Colonel Harold L. Coffman, USMC; assumed command of the First Marine Corps District from Colonel Robert O. Carlock, USMC.

Rear Admiral John N. Shaffer, USN, assumed command of the Third Naval District from Vice Admiral Arnold Schade, USN.

Chief of Staff, New York Naval Militia, participated in the Reserve Forces Facility Board meeting in New York City.

Naval Militia recruiting personnel from Northern Area took part in the New York State Exposition at Syracuse.

September

Officers from all units participated in the annual Naval Militia Conference held in conjunction with the Militia Association Conference in Kiamesha, New York.

Chief of Staff attended the annual meeting of the National Guard and Naval Militia Relief Society in New York City.

October

Reorganization of the Marine Corps Branch was effected which disestablished two Communications Companies at Brooklyn, redesignated the Infantry Companies at Buffalo and the Communications Companies at Rochester and Huntington.

All Commanding Officers of Marine Corps Branch units attended the First Marine Corps District Conference at Garden City, New York.

Mobile Construction Battalion-19 conducted its quarterly program of repair and construction work at the State facilities of Camp Smith.

All units of the Southern Area conducted annual Small Arms Practice at Camp Smith.

2nd Battalion 25th Marines conducted a combined air-ground training exercise at West Point, supported by elements of the 4th Marine Aircraft Wing and 14th Marine Artillery Regiment.

The Chief of Staff and Officers from the Northern and Southern Areas attended the National Conference of the Naval Reserve Association in Dallas, Texas.

Units of the Northern Area conducted annual Small Arms Practice at Camp Drum.

November

On 9 November Captain Frank A. Kraft, Commander, Northern Area, died while serving on active duty as Chairman of the Third Naval District Policy Board.

Ground-breaking ceremonies were held at Fort Wadsworth, Staten Island for the construction of the Armed Forces Reserve Training Center which will serve as a replacement facility for the Naval Militia Armory at Thompkinsville.

On 10 November Marine Corps Branch units observed the 196th anniversary of the founding of the U.S. Marine Corps.

At the annual awards ceremony of Division 3-99 (L) of Troy the Commander, New York Naval Militia honored Assemblyman Neil W. Kelleher for his continuing support of the Armed Forces of the State and Nation.

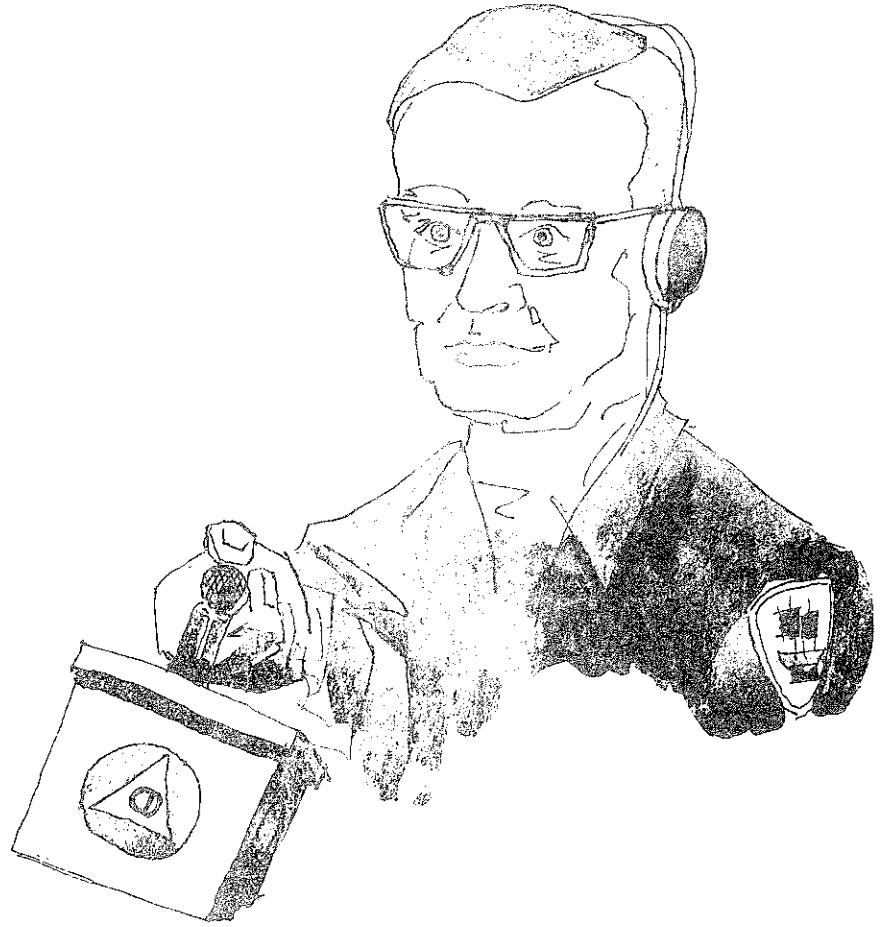

The Gillies Trophy, awarded to the Naval Militia unit demonstrating the greatest improvement in performance during the preceding year, was presented to Division 3-18 of Ogdensburg by Admiral John N. Shaffer, USN Commandant, Third Naval District.

Brigadier General Robert F. Murphy, The Adjutant General, briefed Rear Admiral Edwin Rosenberg, USN, Commander, Naval Reserve Training, on the operations of the Division of Military and Naval Affairs at the Public Security Building. Admiral Rosenberg had just completed an inspection tour of Naval Militia units in the Northern Area.

Major General Leo Dulacki, USMC, Commanding General, 4th Marine Division, visited all units of the Marine Corps Branch.

December

The Rear Admiral Hooper Trophy, signifying first place National honors, among one hundred twenty-five Small Surface Divisions, was presented by Rear Admiral John N. Shaffer, USN, to Division 3-20 of Dunkirk.

new york
GUARD

NEW YORK GUARD

REORGANIZATION

Reorganization of the New York Guard was begun in early 1971 and completed on 1 July 1971, following the publication of General Orders No. 46, DMNA, dated 25 June 1971. The primary effects of the reorganization was the deactivation of five battalion headquarters and nine line companies. Full strength was reduced to 10,977 officers and enlisted men with a cadre strength designated as 846 individuals.

The new troop structure will still provide for at least one New York Guard cadred unit in each of the 76 State Armories, prepared to expand to full strength and to assume its assigned missions.

TRAINING

One hundred and twenty-one officers attended a training and administrative conference at Albany, New York on 27-28 February 1971.

Subjects covered included:

Administrative procedures.

Training accomplished; future planning and execution.

Fiscal procedures and funding for FY 1971-72. Inspections and evaluations.

ANNUAL ACTIVE TRAINING

Due to budgetary limitations, active training was planned and conducted by each regiment at a training site of their selection. An inspection Team from Headquarters, New York Guard was present at each Regimental Training Exercise for the purpose of determining the proficiency of the planning and conduct of the operation.

The weekend training was conducted at locations and dates as follows:

| Regiment | Location | Date |
|--------------|--|--------------|
| 1st Regiment | Camp Smith, N.Y. | 9-10 Oct 71 |
| 2nd Regiment | Camp Smith, N.Y. | 25-26 Sep 71 |
| 3rd Regiment | Guilderland Range | 7- 8 Aug 71 |
| 4th Regiment | Washington Street Armory, Syracuse, N.Y. | 25-26 Sep 71 |
| 5th Regiment | Camp O'Ryan, N.Y. | 9-10 Oct 71 |
| 6th Regiment | Camp Smith, N.Y. | 25-26 Sep 71 |

A total of four hundred and ten officers and enlisted men attended the Annual Training.

The training conducted included:

Security instruction, both classroom and practical for all regiments.

Each regiment planned and conducted special training as indicated below, with the purpose of developing lesson plans and procedures of training for distribution to the other regiments as field training subjects for 1972.

1st Regiment: Land Navigation
 2nd Regiment: Survival - Nuclear Radiation
 3rd Regiment: Night training - basic principles
 4th Regiment: Nuclear Weapons - effect on ecology and other damage
 5th Regiment: Radiological Monitoring - area monitoring for safe passage.
 6th Regiment: Nuclear Radiation: factors in radiation physics vital for survival.

COMMUNITY RELATIONS ACTIVITIES

1st Regiment - Project, Odyssey '71, New York City during December 1971. A drive for new and used clothing for drug addicts resulted in the collection of a truck load of these items.

CBR Training was held on Saturday during the month of November. Also attending the classes were Explorer Scouts sponsored by the New York City Police Department.

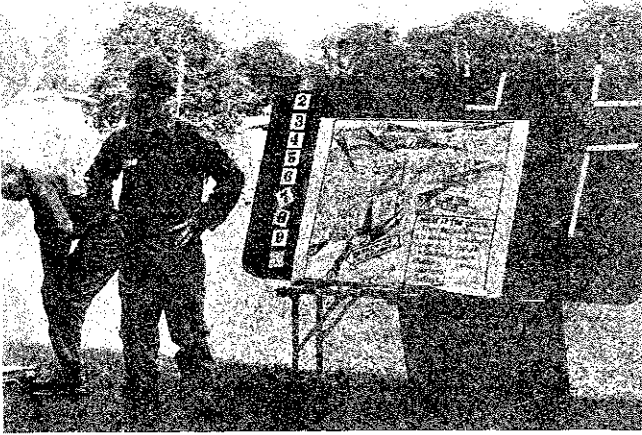

2nd Regiment - The Third Annual Childrens Christmas Party was conducted at the Hempstead Armory on 18 December, 1971. This year the party was a joint enterprise with the 242 Signal Battalion, NYARNG. Refreshments and gifts were furnished for approximately 175 needy children from the Bedford-Stuyvesant Area and Nassau County.

Flag Day, 14 June 1971: Bay Shore, Long Island, participated with the National Guard, Veterans Groups, Police and Fire Departments contingents, church groups and junior patriotic organizations.

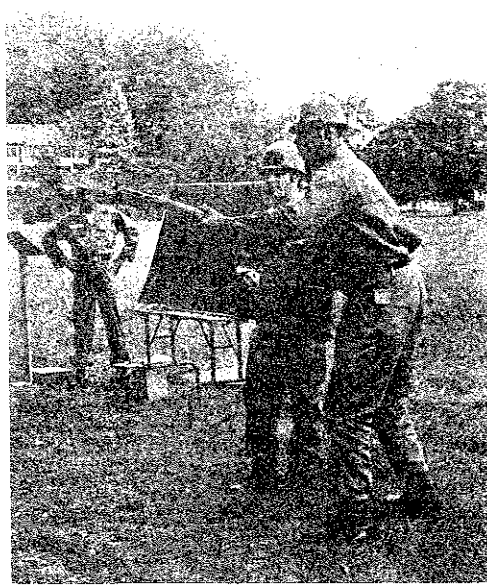

3rd Regiment - Albany Tulip Festival, 8 May 1971, Co B, 31st IS Bn furnished the Color Bearers and Guards who were in authentic Colonial Uniforms and carried weapons of that period.

5th Regiment - The 52nd IS Bn participated in the Memorial Day Parade, Henrietta, NY on 23 May 71, Memorial Day Parade, Rochester, NY on 31 May 1971 and the American Legion Parade, Rochester, NY on 16 July 1971.

6th Regiment - Participated with the 2nd Regt in the Armd Forces Parade in New York City on 15 May 71. Approximately 100 individuals were marchers.

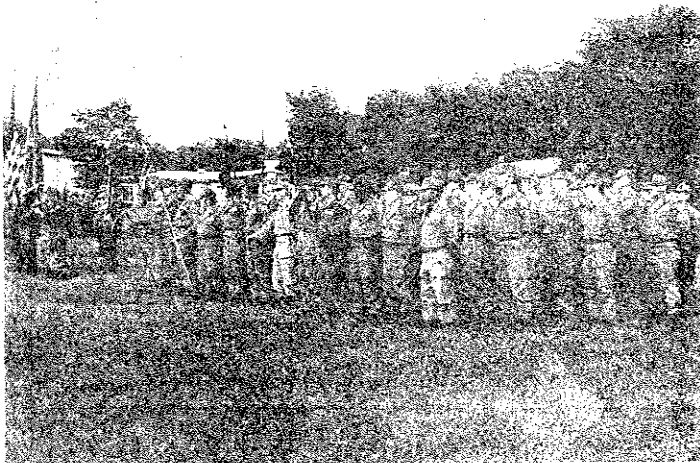

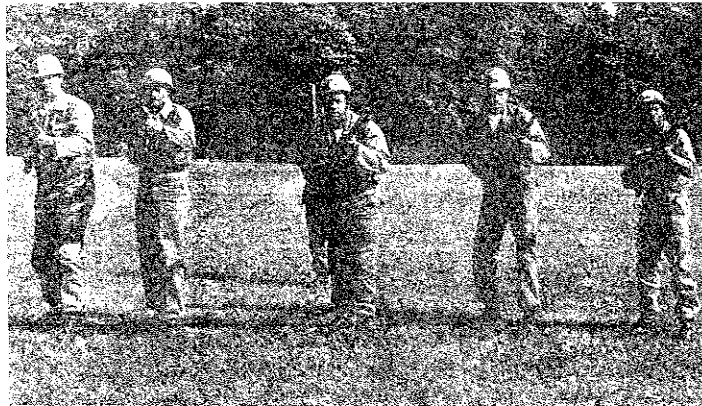

WHERE TO LOOK - - for snipers is the concern of this New York Guard officer as he teaches a class during annual active training of the State Guard at Camp Smith.

THE RIGHT WAY - - to advance in a civil disturbance situation is explained to members of the New York Guard by an instructor and his demonstrator.

ON GUARD - - is a demonstration team of New York (State) Guardsmen during training exercises at Camp Smith.

ON PARADE - - at Camp Smith, the New York Guard proudly participated in a Review conducted by the 42nd Division Artillery, which was training there on the same weekend.

ARMY NATIONAL GUARD

STATE MAINTENANCE OFFICE - STATISTICAL DATA

The total funds expended in support of the maintenance program for repair parts and contractual repair was \$ 692,300.

Densities of equipment having a high degree of maintenance significance and which require the major effort of the maintenance facilities are:

| | |
|--|-------|
| Truck and Truck Tractors | 4360 |
| Combat Vehicles | 516 |
| Electronic equipment, radios, radar, etc., | 14470 |
| Engineer Construction Equipment | 175 |
| Artillery Weapons | 610 |

In addition to the above, the Shops support over 40,000 small arms weapons, 7400 pieces of sighting and fire control equipment, 2650 vehicular trailers, 1300 pieces of ancillary equipment, e.g., generators, pumps, etc., 10500 canvas items, e.g., tents, vehicular tarpaulins.

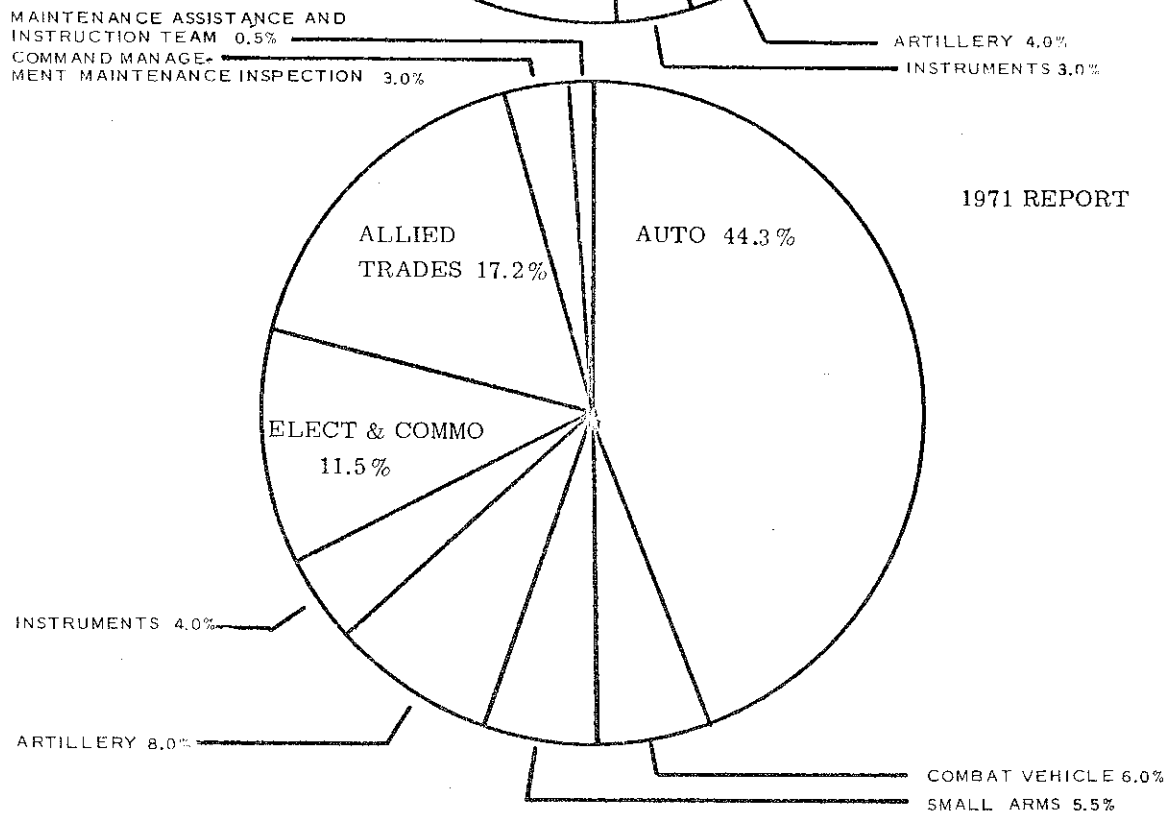

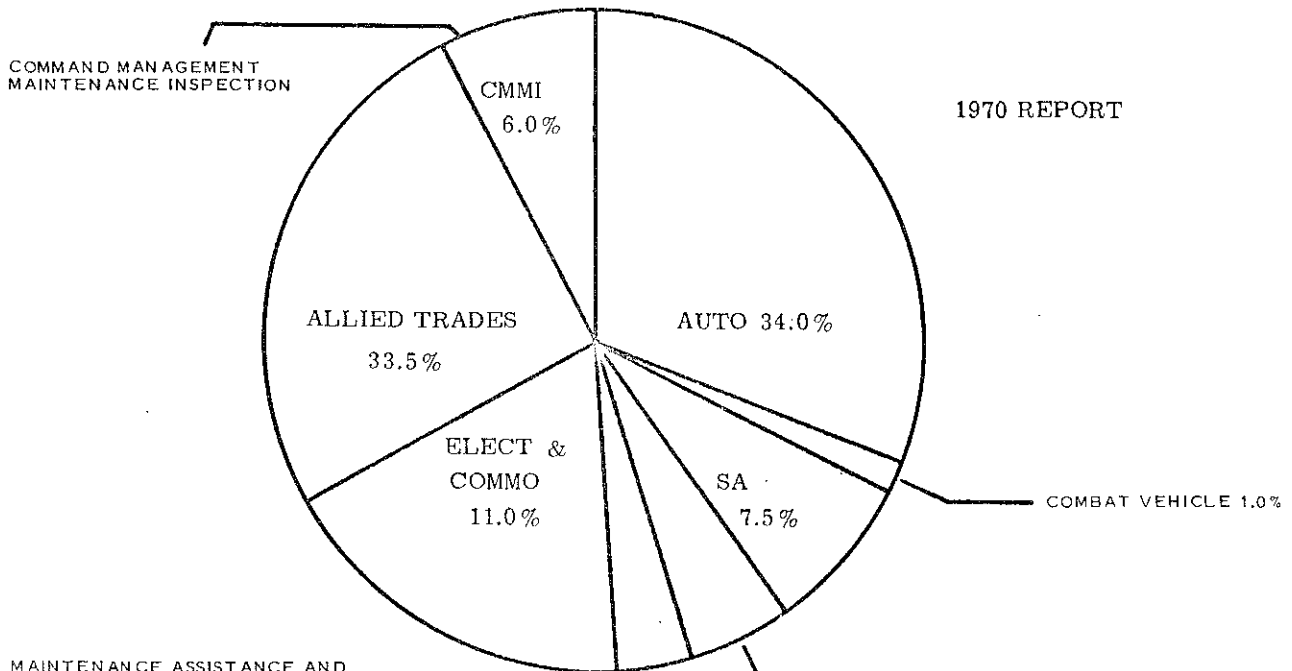

During the period (1st half CY - 71) 60 Command Maintenance Management Inspections (CMMI's) were performed on units and maintenance facilities in the State.

A total of 72 Maintenance Assistance Instruction Team (MAIT) Visits were made during the 2d half CY 71. NOTE: This program replaced the CMMI Program.

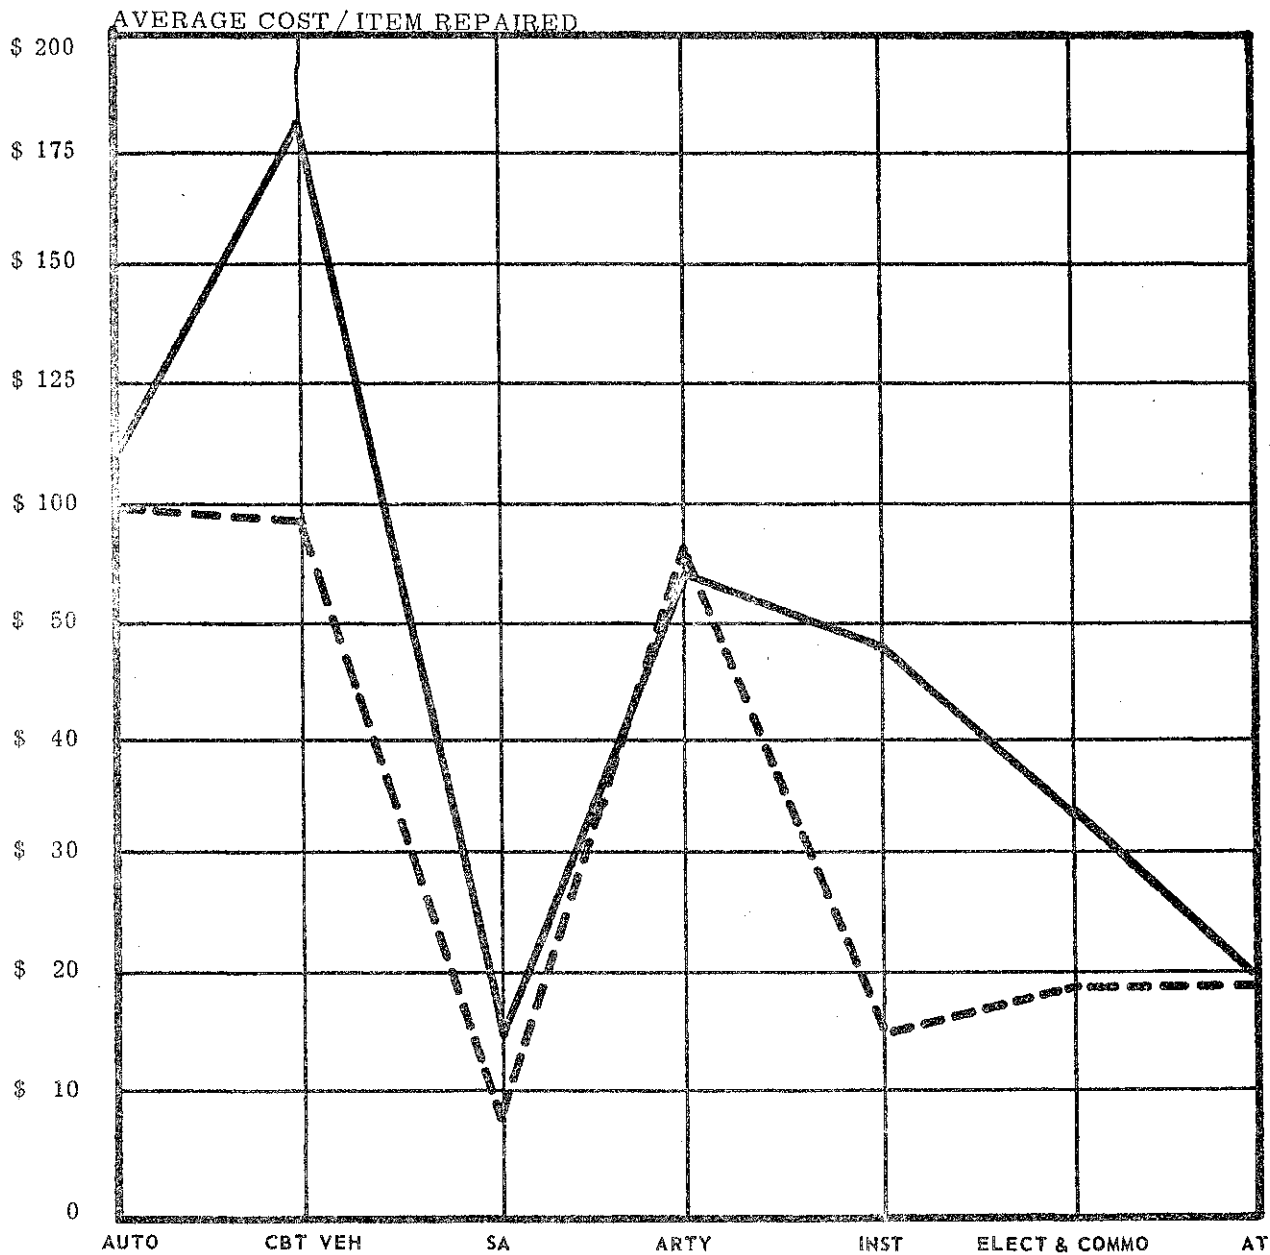

The following indicates the work performed by the three CSMS's during CY 71.

| CATEGORY | ITEMS COMPLETED | AVERAGE HRS/JOB | AVG NAT STAND |
|-------------------|-----------------|-----------------|---------------|
