# ANNUAL REPORT

## NEW YORK STATE DIVISION OF MILITARY AND NAVAL AFFAIRS

Nelson A. Rockefeller  
GOVERNOR

Major General A.C. O'Hara  
CHIEF OF STAFF TO THE GOVERNOR

STATE OF NEW YORK  
DIVISION OF MILITARY AND NAVAL AFFAIRS  
PUBLIC SECURITY BUILDING  
STATE CAMPUS  
ALBANY, NEW YORK 12226

NELSON A. ROCKEFELLER  
GOVERNOR  
COMMANDER-IN-CHIEF

MAJOR GENERAL A. C. O'HARA  
CHIEF OF STAFF TO THE GOVERNOR

Honorable Nelson A. Rockefeller  
Governor of the State of New York  
Executive Chamber  
State Capitol  
Albany, New York

Dear Governor Rockefeller:

It is with considerable pride that I forward this Annual Report on the activities of the Division of Military and Naval Affairs for calendar year 1966.

It reflects the esprit, efficiency and dedication of the soldiers, sailors, marines and airmen in the New York State Military Forces.

They have established a reputation as highly qualified professionals, on a par with their active service counterparts. Their performance at training centers, service schools, military exercises and on airlift missions in direct support of United States military operations, has been exemplary.

As Commander in Chief, you may be assured that the military forces of this State are ready for any state or federal mission that might be assigned.

Respectfully

A handwritten signature in cursive script, reading "A. C. O'Hara".

A. C. O'HARA  
Major General, NYARNG

**GOVERNOR NELSON A. ROCKEFELLER**

COMMANDER-IN-CHIEF OF THE STATE MILITARY FORCES OF NEW YORK

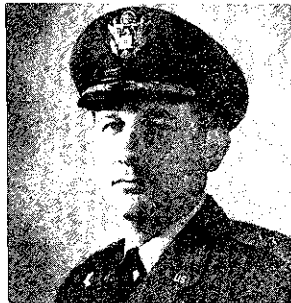

MAJOR GENERAL A.C. O'HARA  
Chief of Staff to the Governor  
and  
Commanding General  
New York Army National Guard

BRIGADIER GENERAL J.C. BAKER  
Vice Chief of Staff to the Governor  
and  
Deputy Commanding General  
New York Army National Guard

BRIGADIER GENERAL J.T. WILLEY  
The Adjutant General  
of the State of New York  
and  
Executive Officer  
Division of Military and Naval Affairs

MAJOR GENERAL L.A. CURTIS  
Commander  
New York Air National Guard

REAR ADMIRAL R.C. BURKE  
Commander  
New York Naval Militia

MAJOR GENERAL W.R. CARR  
Commanding General  
New York Guard

## Division of Military and Naval Affairs

### I ORGANIZATION

#### GENERAL

The New York State Division of Military and Naval Affairs is responsible for the administration and supervision of the Organized Militia, the State Reserve List and the State Retired List, as well as all armories, arsenals, bases, camps, ranges and other Military Facilities of the State.

#### COMMAND

Governor Nelson A. Rockefeller was the Commander-in-Chief of the State Military Forces in 1966. Major General A. C. O'Hara, Chief of Staff to the Governor, exercised control and directed the activities of the Division of Military and Naval Affairs and its components. He also served as Commanding General of the New York Army National Guard.

Brigadier General John C. Baker was Vice Chief of Staff to the Governor and Deputy Commanding General of the New York Army National Guard. On 1 July 1966, he was attached to Headquarters 42d Infantry Division for duty as Assistant Division Commander and on 13 October

1966, he was appointed The Adjutant General of New York, both in addition to other duties.

Brigadier General Joseph T. Willey was The Adjutant General of New York and Chief of Staff, New York Army National Guard, until his retirement on 12 October 1966.

Colonel Joseph E. Middlebrooks was appointed Acting Chief of Staff New York Army National Guard effective 13 October 1966.

Major General W. Reynolds Carr commanded the New York (State) Guard, until his retirement on 30 October 1966.

Brigadier General Andrew J. Malatesta assumed command of the New York Guard on 30 October 1966 and was promoted to Major General on 6 December 1966.

#### ORGANIZED MILITIA

The Organized Militia is composed of the New York Army and Air National Guard; Inactive National Guard; Naval Militia, including Marine Corps Branch; and the New York Guard.

Details concerning the organization, activities and programs of these components are outlined in subsequent sections and in the inclosures of this report.

### II MISSIONS

#### STATE

The Military Forces of the State of New York are available, on order of the Governor, for employment in local communities in the event of a disorder, disaster, or other emergency. Their state mission includes:

1. Defending the State of New York in the event of an attack.
2. Providing necessary personnel and equipment to support relief operations in the event of natural disasters and civil defense emergencies.
3. Assisting Civil Authority in maintaining law and order, controlling civil distur-

bances, and protecting life and property.

#### FEDERAL

In a national emergency, the federally recognized units of the State Military Forces are subject to mobilization by the president or the Congress of the United States, for active federal duty.

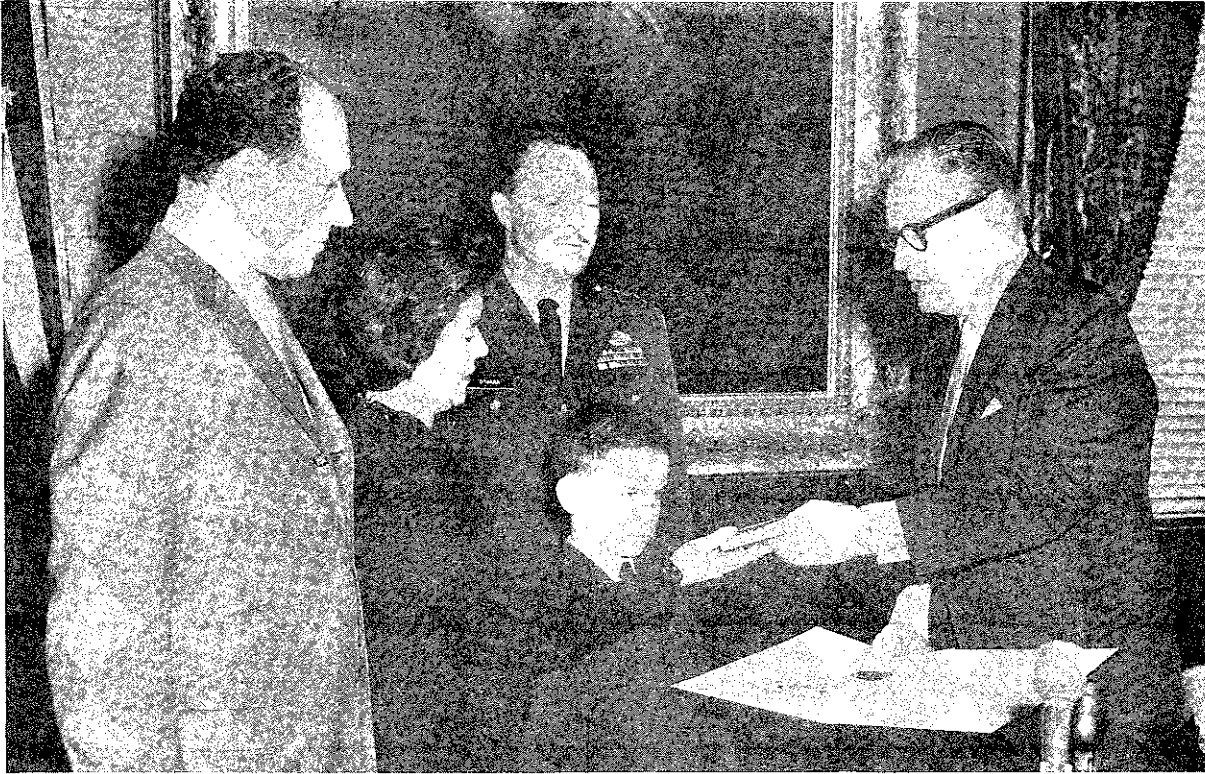

Their primary federal mission is to provide a trained reserve force, organized and equipped as designated by the Department of Defense and capable of participating effectively in combined military operations with the regular forces of the United States.

### III THE STATE MILITARY MUSEUM

The State Military Museum, under the jurisdiction of the Chief of Staff to the Governor, is located on the first and second floor of the

State Capitol.

The Flag Room on the first floor displays a collection of regimental colors from the Civil

**THE NEW YORK STATE CONSPICUOUS SERVICE CROSS - - -** one of the highest official honors of the state, is presented by Governor Nelson A. Rockefeller to Mary Kolenberg, widow of Associated Press photographer Bernard Kolenberg, who was killed while covering combat action in Viet Nam. Their son Kevin eyes the medal as Frank Votto, State Director of Veterans Affairs (left) and Major General A. C. O'Hara, Chief of Staff to the Governor observe. Bernie covered many activities of the state military forces over the years and did much to promote activities of the citizen - servicemen and their vital role in State and National defense.

War and other engagements in which troops from New York State have participated. On the second floor, are displays of uniforms, weapons and military equipment.

The Museum was started over one hundred years ago by men from New York State who fought in the Civil War. Many brought back relics from Southern battlefields; others contributed their own uniforms and equipment. Gradually, the collection has grown until it is one of the largest of its kind in the country. Only a portion of it can be placed on display at any one time.

(37) Civil War Colors were restored in 1966 under our Civil War Flag Restoration Program.

On January 2, 1967 six (6) Colors from the Museum were displayed in the Assembly Chamber during the Inauguration of Governor Nelson A. Rockefeller.

Approximately 70,000 visitors were conducted on tours of the State Capitol, which includes a tour of the State Military Museum. Individual groups of school children, as well as boy and girl scout troops, visited the Museum as part of their school and achievement program.

The Military Museum is a place for learning and for contemplation, as evidenced by the increased number of visitors from year to year.

#### IV CAMP SMITH

##### ACTIVITIES

From March through November, the Camp was used to full extent by elements of the New York Army National Guard, New York Air National

Guard, New York Naval Militia, and New York Guard in the performance of weekend and annual active duty training in the furtherance of their appropriate basic and advanced training missions. For the most part, weekend training was devoted

to weapons marksmanship, vehicle-driving training and squad exercises. Annual active duty training concentrated on programs to increase unit efficiency in the areas of fundamental and basic techniques of modern warfare. Also included in the 1966 annual active duty training schedule at Camp Smith, were units of the Ohio Air National Guard and Massachusetts Air National Guard - which units' training concentrated on proficiency in communications - electronics and weather equipment.

Additionally, for the first time in its history, Camp Smith provided facilities for a tri-force training operation. This innovation was an interim basic combat training program for recruits of the NYARNG whose active duty training was delayed because of a lack of quotas at army training centers. The program was planned and conducted by personnel of the National Guard, Army Reserve, and Active Army.

As an approved National Guard field training station, the Camp's superior facilities are very much in demand by small non-divisional units of the Army National Guard, ground and radar tactical elements of the Air National Guard, and divisional engineering battalions in the performance of their respective annual field training. In anticipation that the entire West Camp would not be available for troop use until late in July due to the rehabilitation and modernization program, early summer active duty training periods were curtailed.

More than three hundred members of the New York Army National Guard, New York Air National Guard, the New York Naval Militia and New York Guard competed for twenty-one (21) team trophies and two hundred thirteen (213) individual prizes and medals in the annual New York State Rifle and Pistol Championship Matches held at Camp Smith from 29 May to 3 June, inclusive. Highly competitive, the Matches again proved to be the outstanding marksmanship event of the year and aided in the selection of individuals for the State Team which competes annually in the National Matches held at Camp Perry, Ohio.

## MODERNIZATION

The second phase of the three-part program for the modernization and rehabilitation of the Camp is now 90% complete. Included in this phase was the construction of two (2) 600-man barracks buildings with kitchen and mess hall facilities, together with combination air raid shelters and classrooms. Said buildings were

completed in July for a total cost of \$1,615,248.64. Also completed in 1966 were the following projects; rehabilitation of the Camp's water system, which included two (2) new wells and pumps at a cost of \$50,590.30; rehabilitation of the electrical distribution system which cost \$22,704.97; and the modernization of close to 30% of the Camp's water service lines at a cost of \$64,074.00. The new sewage disposal system which was also a part of the second phase of the modernization, is now 75% complete and expected to be in operation by June 1967 with the expense therefor estimated to be \$250,461.00. Also included in the second phase of modernization, was a major part of the grounds improvement program scheduled for the third phase of rehabilitation. The latter project included paving of new roads in the West Camp; installation of 4,385 linear feet of sewer pipe; 29 manholes; 15 catch basins; 4 drop inlets; 1,130 linear feet of concrete curbing and the erection of two flag poles; the total cost of which was \$159,923.32.

Scheduled for 1967 construction are an additional 300-man barracks building and a post dispensary, the bids for the foundation of which are to be opened on 1 March with a scheduled completion date of 15 June. It is anticipated the buildings themselves will be completed by September 1967. Also included in the 1967 construction program is the planned widening and improving of the Camp's main entrance road.

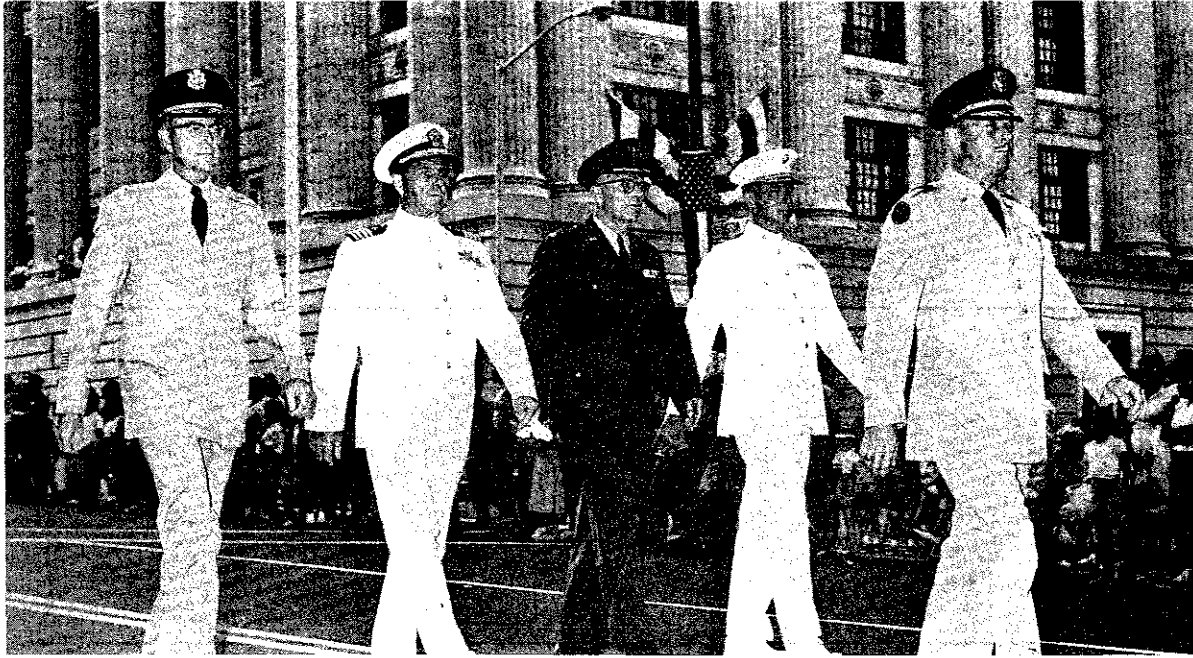

In anticipation that the 1967 State Legislature will authorize funds for the final phase, plans are under engineering design for the construction of a 130-man officers' barracks and mess hall; enlisted men's service building; public rest room facilities; and improved grounds lighting.

## FACILITIES

In addition to the new construction, Camp Smith has many other buildings for billeting and serving troops, as well as some of the finest firing ranges in the state and extensive vehicle maintenance shops.

## FEDERAL BUREAU OF INVESTIGATION

From March through the middle of December the New York City office of the Federal Bureau of Investigation conducted a school and weapons course at Camp Smith for the training of its agents and other law enforcement officers. Police officers from law enforcement agencies

**GRAND MARSHAL** - - - of the American Legion State Convention Parade in Albany in July was Major General A. C. O'Hara, Chief of Staff to the Governor and Commanding General of the New York Army National Guard. His staff in one of the largest parades in the Capital's history, included (left to right) Col. Arthur Sulger, Capt. Joseph Farley, Lt. Col. Alexander Allan and Maj. Lawrence Flynn.

throughout the entire northeastern United States attended the courses. In 1966 the Bureau's New York City office conducted a total of approximately 6,200 man-training school days at Camp Smith - the largest in its history.

In connection with this training, the FBI utilized its own special police course ranges which - without expense to the State - it constructed and maintains and services along with other facilities made available to it.

#### **NEW YORK STATE POLICE**

From March through November the Division of State Police utilized the facilities made available to it for the training of its members in weapon proficiency. In this connection, the State Police conducted daily classes in the use of firearms for approximately 500 officers from Dutchess, Orange, Rockland, Westchester, Putnam New York and Suffolk Counties, Troop T (Thruway Police) and the Bureau of Criminal Investigation.

#### **CIVIL DEFENSE**

In past years when the use thereof did not interfere with the military, the Camp's facilities were made available to County and local directors of Civil Defense for the purpose of conducting its training exercises. However, during 1966, the rehabilitation and modernization program precluded such coordination.

Nevertheless, assigned to Camp Smith at the request of the Westchester County Civil Defense office, are two (2) radiological monitors which are operated by two (2) of the Camp's personnel who were trained in the operation of same at the County's civil defense school located in White Plains.

#### **YOUTH ORGANIZATIONS**

The Camp's facilities were also made available to the Boy Scouts of America and other approved youth organizations on occasions when the use thereof did not interfere with the military; but also due to the modernization program, said use was curtailed considerably during 1966.

# CHAPTER II

## Headquarters

### Division of Military and Naval Affairs

### New York Army National Guard

#### I GENERAL

Staff sections in the Division of Military and Naval Affairs office serve in a dual capacity commensurate with the dual role of the Chief of Staff to the Governor and Commanding General, New York Army National Guard. Staff

officers are responsible for coordinating activities of all components of the state military forces and for direct staff functions with relation to the Army National Guard, through the appropriate channels.

#### II PERSONNEL AND ADMINISTRATION

The mission of this office includes the the supervisory and administrative responsibility for all personnel actions applicable to the several components of the New York State Military Forces; the preparation and publication of all documents, both instructional, informational and directive in nature; the issuance, control and stocking processes for all state

and federal forms and publications; and the maintenance of personnel records and records systems for all officers, warrant officers and enlisted personnel of the State Military Forces.

Statistical information reflecting the activities of this office are outlined in the appropriate inclosures of this report.

#### III OPERATIONS, TRAINING AND INTELLIGENCE

The mission of this office is to coordinate all operations, training activities and intelligence matters as they relate to the state military forces. It is responsible for staff supervision of units of the New York Army National Guard with regard to organization, operations, training, alert and mobilization, intelligence army aviation, communications and chemical, biological and radiological activities.

##### ORGANIZATION AND ACTIVITY

Relatively minor changes were made in organization of Army National Guard units during 1966.

Effective 1 February 1966, units of the 1 Bn, 186 Artillery were reorganized from 8" gun to 155mm self propelled and units of the 2 How Bn, 244 Artillery were reorganized from 155mm to 8" gun.

Effective 1 February 1966, Btry C, 1 Bn, 104 Artillery was organized from the 1st Plat, Co A, 2 Bn, 108 Infantry at Binghamton, New York. This was accomplished by withdrawing Federal recognition of Btry C, 1 Bn, 104 Artillery at Cortland, New York.

Effective 1 February 1966, the Headquarters

of Co E, 19 Special Forces Group was relocated from Riverhead New York to White Plains, New York.

Effective 23 September 1966, Co D, 134 Medical Battalion was moved from 1015 W. Delavan Ave., Buffalo, to 184 Connecticut St, Buffalo, New York.

During the transit strike in New York City 1 to 14 January 1966 a grave situation was alleviated by providing armory facilities for billeting stranded civilians. Units of the 42 Inf Division were placed on duty during the fourteen day period and rendered an invaluable service in conjunction with other social and welfare agencies. Vehicles were also made available for emergency transportation.

##### ANNUAL FIELD TRAINING

Army National Guard units conducted Annual Field Training at various camps and stations during 1966. Schedules showing dates and locations are included in the inclosures to this report.

A most unique and very successful experiment was conducted by combining the military skills and professionalism of the active Army, the United States Army Reserve and Army Na-

**THE SPIRIT OF TRIFORCE** - - - is clearly indicated as one of the recruit training companies, comprised mostly of New York National Guardsmen, steps out smartly during a review, under command of US Army Reserve NCOs. Emphasizing the One-Army concept, it marked the first time that the three components - Active Army, National Guard and Army Reserve - had joined to train troops in a reserve status.

tional Guard in the conduct of TRI-FORCE at Camp Smith during the period 20 August - 3 September. With a back-log of approximately 3,000 personnel of the New York Army National Guard awaiting entry on active duty on the Reserve Enlisted Program, because of the inability of the active Army to train this personnel due to a draft increase, the requirement for a program of basic training was imposed on the State in order to prepare for possible State missions.

In coordination with the active Army, Army Reserve and The Division of Military and Naval Affairs, a two week training period was organized, utilizing the capabilities of 390th Regiment, United States Army Reserve, the 2 Bn, 244 Artillery, New York Army National Guard and selected staff officers. Approximately 900 National Guard and Army Reserve recruits thereby received two weeks of intensive and comprehensive training during the two-week period.

### **ARMY SCHOOLS**

The Army school system consists of all Army schools authorized by Headquarters, Department of the Army and provide the principal means for individual education and training for personnel. The Army school system is second in importance only to the troop units which are

the fighting strength of the United States Army. It is the keystone of the Army's preparation for wartime duties and it assumes an increasingly important role in meeting the challenges posed by new concepts, missions and weapons.

National Guardsmen may attend courses at these schools under the same criteria as, and on equal status with, active Army personnel.

Army area schools and Air, Defense Region schools. Individuals may be authorized to participate in any course of instruction conducted and made available by the Army or Air Defense Region Commander provided such instruction will qualify the individuals for their present or planned military assignment or will increase the military proficiency of an individual's unit. Authorization for attendance will be subject to implementing instructions issued by this headquarters. Priority of use of funds will be given to attendance at NCO academies and the active duty phase of USAR schools.

Attendance at Command and General Staff College Associate Course is exempted from priority assignment and is based upon a combination of need and quota availability.

During Calendar Year 1966, in addition to service schools attended by personnel participating in the Reserve Enlisted program's active duty training, 557 officers, and enlisted men

attended schools conducted by the active Army, To support this activity, Federal funds in the amount of \$504,000 were expended for pay, allowances and travel for Army National Guard personnel.

### EMPIRE STATE MILITARY ACADEMY

The Empire State Military Academy is charged with the responsibility of training officer and noncommissioned officer candidates. It is the greatest single medium of leadership training available to New York Army National Guard. Graduates of the academy provide the National Guard with replacement officer and noncommissioned officer personnel necessary to carry out its mission. Since 1952 to date, The Empire State Military Academy has graduated 1709 lieutenants and over 2400 noncommissioned officer candidates.

The Program of Instruction for the officer candidate school is provided by the United States Army Infantry School, Fort Benning, Georgia, and is augmented by our own additional requirements explained below. Material provided includes instructor and student lesson guides, special text and examinations. Examinations are graded by the Infantry School.

The current program has 230 hours of mandatory instruction and examination. To this, we have added 220 hours of subjects and activities for a total of 450 hours of intensive study and practical application. During Phase III, the candidate is provided the opportunity to apply fundamentals learned by practical application.

It is here that he receives specialist training as well as practical experience through the medium of day and night field problems.

The graduating class of 1966 numbered 233, the largest in the history of the Academy. This accomplishment served to materially reduce the number of vacancies existing for Second Lieutenants.

Of 400 noncommissioned officer candidates reporting to Camp Smith to attend the course, 378 were awarded Certificates of Successful Completion. Of this group, 129 were selected as outstanding candidates based on their leadership abilities and favorable academic results attained in examinations.

The Program of Instruction for the Non-commissioned Officer Candidate School constitutes a total of 129 hours of instruction and practical exercises in tactics, weapons, map reading, methods of instruction, leadership, drill and command, general subjects and organized athletics. The course for noncommissioned officer candidates has a two-fold purpose, namely to provide leadership training for noncommissioned officers and as a preparatory course for officer candidate school.

The United States Military Academy furnished cadets who act as tactical officers for officer and noncommissioned officer candidates. These upper classmen of the United States Military Academy contribute greatly to the rounding out of the Empire State Military Academy students military education. In addition to tactical officers duties, they instruct in certain

YIPEEEE - - shout 233 new Second Lieutenants as they release all the pent up emotion of a hard year's study and pressure. The largest graduating class in the history of the Empire State Military Academy, they had just been administered the oath of office by their Commander-in-Chief, Governor Nelson A. Rockefeller.

**PLOTTING AN OVERTHROW** - - are these artillerymen of the 1st Bn, 258th Arty, 42d Inf. Div as they answer requests for artillery support from front line units during Exercise "Bear Trap". MAJ Alfred Rothwell (left) supervises SP5 Adrian Caraceni and CPT Alfred Dux. A tactical, free-play map exercise, it was conducted by First US Army at Indiantown Gap, Pa. for the 42d Div and at Syracuse for the 27th Armored Div. Commanders, staff and key personnel at every level, from Division to Company, tested their knowledge and techniques against the manipulations and strategy of some 300 controllers.

Section insure that existing policies concerning funds, property accounting, and administrative procedures are being followed and that armory personnel are maintaining the building adequately. By scheduled and unscheduled visits to the installations, the Armory Management Supervisor discusses with the Building Superintendent all phases of maintenance, installation staffing, building management procedures and adequacy of the installation for troop use.

During the past year increased emphasis was placed on implementing better maintenance procedures and formulating a realistic projection of future major requirements at each installation including mechanical systems, rehabilitation projects and building security. In 1967, in addition to continuing the emphasis on preventive maintenance and better management techniques, improvement of troop-use areas - classrooms, storage areas and administrative offices - will have priority.

The type of facility inspected annually and a general inspection check list are listed in the inclosures to this report.

#### **LOGISTICS ADMINISTRATIVE SECTION**

This section is responsible for administration of armory rentals, purchasing for armory requirements, requisit for state flags, state

vehicles, blanket liability insurance for armories, issuance of credit cards, and preparation of certain budget requests.

#### **ARMORY RENTALS**

Information concerning rentals of armories for non military use is outlined in the inclosures to this report

#### **PURCHASING**

This section is responsible for the purchasing of supplies and or services required for proper maintenance and operation of all State Armories. Approximately 7000 Purchase Orders were processed during the year. Up to date Awards, Requirements and Specifications issued by the Office of General Services are maintained on file within this section, with responsibility for proper distribution to all State Armories.

#### **STATE FLAG ISSUE**

The issue of various sized state flags, in response to requests, is detailed in the inclosures to this report.

#### **STATE VEHICLES**

This section administers State trucks, sedans, vehicle insurance, pertinent correspondence, registration, gasoline credit cards,

thruway plates and coordination with the Division of the Budget on procurement. In addition, State Pool Car use is arranged for members of this division when required.

### STATE QUARTERMASTER

State accountable records of all personal property assets of the Division of Military and Naval Affairs continue to function almost on a current basis. A backlog still exists in most areas by reason of the limited number of personnel available who are depth trained and utilized in all phases of State Quartermaster Activities.

The backlog is not considered critical enough at this time to warrant compensatory time authorization. It exists in Record Retirement, SQM Accounting and in the warehouse inspection and re-packing programs.

Included among major projects to be accomplished next year, time and workload permitting are: up-dating of all accounting activities activities; review and revision of state directives relative to federal property responsibilities; review stock levels of New York Guard Emergency Stocks; revise Excess Availability Listings; review and up-date a proposed State Armory Equipment Table of Allowance; inspect each of 200,000 inactive records in the Records Retirement Center to remove from the files all non-essential permanent record material. Continued stress will be placed on purging excess and unserviceable property from armories until such time as assets on hand are approximately in consonance with proposed Armory Equipment Table of Allowance.

Of particular interest in the report of the Survey Section, is 21% increase in Reports of Survey processed during the year. With the continuing decrease in available Army Advisor Survey officers, it is anticipated that in the near future it may be necessary to appoint National Guard officers to this duty. This will undoubtedly result in an increased workload by reason of the additional administrative details that will develop, due to the unfamiliarity of these officers in handling complex investigations, culminating in recommendations that this office can accept prior to transmission to Headquarters First for final action. The handling of the investigation, claims, statements, records, etc., is a technical, and may become, a legal matter, if final action is not acceptable to either the responsible officer, the insurance carrier for the

State or Headquarters First Army. The State is jointly held, with the responsible officer, in the event of the assessment of pecuniary liability, thus the review, processing, depreciation, negotiation, etc., will require more detailed study and scrutiny than heretofore.

New York Guard unit property accounting continues to be maintained at satisfactory levels. Procedures for an annual calibration of Civil Defense radiological items issued to the New York Guard were developed and successfully accomplished during the year. This office coordinated equipment loans from several state and federal sources to insure availability for the weekend training conference held at Camp Smith.

At the suggestion of the Budget Director's Office arrangements were made to have the State Vocational Institution at West Coxsackie repair armory furniture, previously accomplished commercially. In view of the location of the armories this was only considered feasible for armories south of Albany. The cost of repair is limited to materials only. Pick-up and delivery is accomplished by State Quartermaster vehicle. This method reduces commercial charges, increases the number of pieces that can be repaired and assists the institution in its training program. Initial job lots are under way and results of the utilization of the institution cannot be assessed as yet. However, it does increase the administrative workload of this office by reason of scheduling, material procurement and transport arrangements.

During the reportable year 283 Inventory Adjustment Reports affecting the federal accounts of the USP&FO were approved. 202 of these IAR's pertained to the adjustment of accounts of various gasoline issue points throughout the state. Copies of the IAR's reflecting the differences resultant from annual or cyclic inventories are, in accordance with regulations, transmitted to the National Guard Bureau for information and file.

### PROPERTY ACCOUNTING BRANCH

The Property Accounting Branch consists of two sections: a Survey Section and a State Quartermaster Accounts Section.

The function of the Survey Section is to execute the Chief of Staff To The Governor's responsibility as the Appointing Authority in the Report of Survey system. The State Quartermaster Accounts Section has the responsibility

of maintaining the State Quartermaster's accountable records and also the responsibility of accomplishing certain warehouse activities incident thereto.

The impetus of stepped up training within the National Guard attendant on the establishment of SRF Units, was reflected in the activities of the Survey Section by a slight increase in the number of Relief Vouchers received for processing. There was also increased activity in the State Quartermaster Section due to an accelerated N.Y. State flag issue program, and to the initiation of a new project in connection with the State Armory Fallout Shelter Program.

However, because of an adequate depth within the Branch, the additional workload was assimilated, and the mission of this Branch successfully accomplished this period.

The reports of the sections follow:

#### SURVEY SECTION

A statistical chart, illustrating, by means of numerical quantities and monetary values, Relief Voucher activity within the New York National Guard for the current reportable period is an inclosure to this report.

As has been noted in previous reports, one of the safeguards employed by the State in connection with its pecuniary responsibility to the federal government for the proper care and control of federal property issued to the State in support of the National Guard, is the bonding of Responsible (Property Book) Officers. Bond procedure, as written into State Military Regulations, obligates this Branch to claim reimbursement against the Position Bond of any Responsible Officer who fails to effect settlement of his pecuniary liability within 90 days from the date of the initial request for payment. There were 2 such claims filed during the period. This represents a slight increase over the previous period when no claims were filed. While it is hoped that there will be no need to invoke the Position Bond penalty against an Officer, 2 claims during a period is not excessive, and does not indicate an unfavorable trend. However, the bright side to this picture is that the Bond Carrier effected settlement within the period, leaving no claims outstanding as of this report.

Appeals from pecuniary liability imposed by Report of Survey procedure, again, as in the previous report, showed a slight decrease with only 2 appeals being in process during the period as compared with 4 the previous period. No new

appeals were initiated, the 2 processed having been carryovers from the last report. Final Action on these appeals resulted in one denial and one allowance. In the case of the appeal allowed, the total amount of the pecuniary charge, (\$290.56), had been previously paid by the Aetna Casualty and Surety Company in settlement of a Position Bond claim. This necessitated the initiation of Public Voucher (SF 1034) by this Branch to effect a reimbursement to the Bond Carrier. At the close of the period the slate, as pertained to appeals, was clean.

Further, in the normal accomplishment of its mission, the Survey Section initiated 1,685 pieces of correspondence to units of the New York Army and Air National Guard, and to other state, federal, and civilian agencies.

Finally, as was anticipated in the last report, Headquarters First Army changed station from Governors Island, New York to Fort George G. Meade, Maryland. Up to the present, no serious complications have been encountered in our dealings with that Headquarters. However, one result of the move has been the separation of certain Staff Sections as pertains to our Report of Survey activity. That is to say, whereas before the move all of our business with First Army Headquarters involved one location, Governors Island, New York, we must now deal with 3 locations: The Headquarters at Fort George G. Meade, Maryland for review and final action on reports of survey, the processing of appeals and requests for reconsideration, etc.; The Finance and Accounting Officer, Fort Hamilton, New York, for the processing of collections in connection with pecuniary charges imposed by Reports of Survey; and finally the Staff Judge Advocate, Fort Wadsworth, Staten Island, New York, for the execution of General Releases incident to civilian settlement of damages to government vehicles and/or other property appearing on Reports of Survey.

#### STATE QUARTERMASTER ACCOUNTS SECTION

Disposition of unserviceable and overage property during the period continued at an accelerated rate. 7050 individual items were disposed of under this program as against 4868 items disposed of in 1965. A number of items having salvable value found buyers, thereby returning the State the sum of \$201.00. Property having no salvable value was destroyed or otherwise disposed of at no expense to the State.

There was moderate activity in chemical

corps ammunition during the period. A total of 350 projectiles, tear gas 1.5 were procured, 286 of which were issued to various armories throughout the State. Meanwhile, 302 projectiles which had become unserviceable by reason of the expiration of the manufacturer's period of serviceability were removed from the State inventory. Disposition was effected in the following manner: 221 projectiles were turned over to the New York City and other Police Departments for training purposes, and 81 projectiles were expended in the training of armory personnel.

A new activity inaugurated during the period, involved the establishment of accountability for subsistence type fallout shelter supplies. A résumé of this is included in the inclosures to this report.

Radiological Monitoring and Training Kits in the hands of the State Guard, received their annual maintenance and calibration during the State Guard Annual Conference at Camp Smith. While this activity has been an annual event, there has heretofore been no Division of Military and Naval Affairs State wide regulation covering this and other procedures involving Civil Defense Property. This branch prepared a change to the regulations, entitled Civil Defense Property which covers accountability and responsibility, storage and safekeeping, repair and maintenance, shipment and battery replacement. With respect to battery replacement: those in the RDM Kits will be replaced during the annual maintenance and calibration; those in the Dosimeter Chargers will be replaced every two years on an automatic basis by the State Quartermaster.

Regular and Special settlements with Armory Custodians and State Guard Responsible Officers amounted to 170, during the reportable period.

8 Reports of Survey having a total depreciated value of \$2,298.81 were received during the period to cover State Quartermaster property which had become lost, damaged, destroyed, or otherwise unaccounted for. These totals compare very favorably with the previous period when 18 reports with a total depreciated value of \$7,449.14 were received.

77 Certificates of Droppage having a total value of \$1,389.37 were received during the period. Review of these certificates disclosed the following deficiencies: some exceeded the \$25.00 allowance; some did not list unit prices or the total value of the document; some did not indicate the period covered; some were overlapping. Realizing that these deficiencies might

stem in part from the ambiguity of the governing regulation, this branch promulgated a change in the regulation, in which the period of the Annual Droppage is definitely established as the calendar year, and the requirement for listing the period and the total value on the face of the certificate is indicated.

The issue of state flags increased more than 340% this period when a total of 315 requests were filled as compared to just 26 last period. The authorization for the issue of these flags comes from the Governor's office. While the bulk of the shipments went to servicemen in the country and overseas as a gift from their home State, a small percentage (approximately 2%), were issued on a loan basis to agencies desiring State representation at particular functions.

The redistribution and/or disposition of excess-serviceable state property, as the requirement for such action was generated through the publication of Excess-Serviceable Availability Listing No. 6, continued at a rapid pace, 218 line items consisting of 1,432 individual items were reported this period against 185 line items and 1,045 individual items reported last period. 74 line items consisting of 286 individual articles were laterally transferred to Division of Military and Naval Affairs installations having a requirement for same, while the balance of the excess items have been or are in the process of being disposed of through the State Office of General Services.

In addition to the above program, this section continues to physically issue janitorial supplies upon emergency request. 12 metropolitan armories were serviced from the State Quartermaster Arsenal Warehouse during the period.

In addition to the normal State Quartermaster Arsenal warehouse duties performed by this section, 2 extra curricular activities worthy of note, were accomplished during the period. In compliance with the request of the Commanding General, 1st Area Command, New York Guard, an emergency issue of 200 blankets was made from that Area's emergency stock stored at the Arsenal, for use during the recent New York City subway and bus strike. After utilization, these blankets had to be moth proofed and repackaged prior to return to the emergency stock pile. In the other instance 480 pairs of russet boots were issued, (loaned) from the same source, to a National Guard unit participating in a movie making sequence.

Finally, in the accomplishment of its mission, the State Quartermaster Accounts Section initiated a total of 2700 pieces of correspondence to state, federal, and civilian agencies.

#### ADMINISTRATIVE BRANCH

Activities of the Personnel and Records Retirement Sections are included in inclosures to this report.

#### BUILDING MAINTENANCE SECTION

Major plant projects commercially completed during the year included the expansion of the Automatic Data Processing Room to accommodate additional machines; the pointing and exterior waterproofing of Shop B building; the installation in the Arsenal of a small emergency gasoline driven generator which had been declared excess at the Troy Naval Militia Armory; boiler retubing and the overhaul of the 3rd Avenue vehicle (mechanical) door.

Some of the minor projects accomplished by personnel of this section included 48,000 sq. ft. of painting (basement, garage, various offices, 20% of Shipping and Receiving area and all exterior metalwork at Shop B); replacement of 90 cu ft. of sidewalk flagging and 30 feet of curbing; installation of 12 fluorescent ceiling fixtures in the administrative area and the removal of 12 fluorescent fixtures to warehouse areas; replacement of 150 ft. of galvanized water pipe with brass; installation of 5 new wash basins and 1 wash stand replacing obsolete cracked basins previously in use; caulking of all windows and framing on the 6th floor; repair of approximately 100 ft. of flashing and roofing and 300 sq. ft. of black top repair on the parking area.

In addition to the preceding, daily routine includes all security and janitorial services, maintenance of lawns and grounds, snow removal, operation of the heating plant, freight (2) and passenger (2) elevator maintenance and semi-annual conduct of security and maintenance classes for building personnel.

#### MAIL AND REPRODUCTION

Reproduction and mail service is conducted as a joint activity with using agencies in the Arsenal.

Approximately 58,000 pieces of mail were received and more than 80,000 pieces of outgoing mail were processed, as compared to total number of 122,000 pieces processed dur-

ing the preceding year. This was an increase of approximately 14% over last year's volume.

Approximately 2350 photostats and over 27,300 pieces of mimeographed material were processed for the State sections alone.

### UNITED STATES PROPERTY AND FISCAL OFFICE

#### GENERAL

On 31 March 1966, Colonel Kenneth L. Buscher, retired from the position of United States Property and Fiscal Officer and was succeeded in that position by Colonel Donald V. Holsclaw.

During 1966, the USP&FO - NY was staffed by one hundred thirty six federally paid technicians.

Equipping of Selected Reserve Forces was completed so far as was possible from available resources. These units are still lacking the new family of radios and some Fire Direction and Control Equipment.

The Annual General Inspection of Fiscal Year 1966 was conducted by the Office of the Inspector General, Headquarters, First United States Army in November 1966, the rating was "Superior".

Statistical information of the activities of the United States Property and Fiscal Office are listed in the inclosures to this report.

#### LOGISTICS DIVISION

The Logistics Division of the United States Property and Fiscal Office-New York is responsible for the procurement, storage accounting and distribution of all federal property allocated to the New York Army National Guard.

#### AUDIT OFFICE

The Audit Office of the United States Property and Fiscal Office-New York is responsible for Annual and Change of Command Inventory Audits and other inspections of other federal property and fiscal inspections directed by the United States Property and Fiscal Office-New York.

#### AUTOMATIC DATA PROCESSING CENTER

The ADPC of the United States Property and Fiscal Office is responsible for the automated processing of records and reports pertaining to fiscal, property and personnel admin-

istration. The authorization/acquisition of a computer would expand present capabilities considerably.

#### COMPTROLLER DIVISION

The Budget and Fiscal responsibilities of this Division are reflected by statistics in inclosures to this report.

#### STATE MAINTENANCE OFFICE

The State Maintenance Office provides maintenance and material service support to 254 company size units of the New York Army National Guard through its maintenance facilities. Priorities are given to those units which comprise the Selected Reserve Forces.

The annual funding support for Fiscal Year 1967 is substantially below that for Fiscal Year 1966 to include base and SRF allotments for the purchase of repair parts and services. Total Annual Funding Program in this area for Fiscal Year 1967 is approximately \$475,400 compared with \$716,700 for Fiscal Year 1966, a reduction of approximately 34%. At this writing there is an indication of a further cut back. Needless to say the decrease in the Annual Funding Program has already resulted in a serious deferment of the maintenance program.

Command Maintenance Management Inspections were completed for all units during the past year.

Maintenance facilities and major equipment densities are listed in the inclosures to this report.

**KIBITZERS** - - - to spare, give plenty of advice as a member of New York's 587th Transportation Co lowers a load of cargo into the hold of a training ship during the unit's annual field training at the US Merchant Marine Academy. It is a Terminal Service unit, one of only two in the entire National Guard, which specializes in loading and unloading ship's cargo.

### V FISCAL

#### GENERAL

The Fiscal Office is responsible for the budgeting, allocation, control, expenditure and accountability of State and Federal appropriated funds.

#### STATE FISCAL SECTION

State appropriations for the Fiscal Year 1965-1966, exclusive of Capital Construction

appropriations which are reported in the Logistics section, amounted to \$7,612,422.00. Of this sum, \$7,564,201.00 was expended as outlined in the inclosures to this report.

#### FEDERAL FISCAL SECTION

Allotment of Federal funds, totaling \$18,127,070.00 was received by the State of New

York from the National Guard Bureau during the Federal Fiscal Year 1966, of which \$17,871, 196.00 was expended as itemized in the inclosures to this report.

### **TECHNICIAN PROGRAM**

The Technician Personnel Office is responsible for the administration of the New York Army National Guard technician program to include funding, manpower allocation and all phases of personnel management.

On 1 January 1966, the New York Army National Guard employed a total of 1440 technicians with a total allotted funding for federal Fiscal Year 1966 of \$10,095,850.00. By 31 December 1966, total employment had risen to 1491 technicians mainly because of increased support received from the National Guard Bureau to assist in the successful operation of the Selected Reserve Force (SRF) program. Funding for federal Fiscal Year 1967 increased to \$11,053,650.

The New York Army National Guard technician program operates within-five (5) major budget projects, utilizing two (2) major pay systems; i.e., National Guard Classified (NGC) and National Guard Wage Board (NGW), and, approximately, 125 separate job titles. A brief description of the personnel assigned in each project and their responsibilities follows:

**Training Operations** - Includes the administrative and clerical personnel for the administration, supply and training of New York Army National Guard units.

**Air Defense** - Includes the administrative and operational personnel responsible for maintaining NIKE sites in a continuous state of readiness.

**Logistics Support** - Includes mechanics required to accomplish maintenance on assigned automotive, powered, artillery, signal and small arms equipment; personnel qualified to perform higher echelon maintenance and repair of organizational equipment in the combined support maintenance shops; personnel assigned to assist the United States Property and Fiscal Officer in the issue of, and accountability for,

all federal property and funds assigned to the National Guard in the state; and the personnel responsible for the repair and maintenance of the aircraft assigned to the New York Army National Guard.

**State Headquarters** - Personnel assigned to Headquarters New York Army National Guard to assist the Commanding General in the conduct of the several programs required of the Army National Guard by the Department of the Army.

**Civil Defense** - Provides the personnel necessary to coordinate the utilization of the available military resources of the state in support of the state civil defense mission.

In March of 1966, new personnel procedures, closely resembling those of the federal civil service system, were established for the processing of technician personnel actions. New York Army National Guard Pamphlet 690-1 was published to assist in the implementation of the new system.

In April and in July, Army-Air Force Wage Board salary increases were provided the Wage Board employees; classified employees received increased salary rates effective 31 July 1966.

In May, many of the Air Defense positions were upgraded as the result of a study conducted by the National Guard Bureau.

In August, Change 7 to NGR 51 established severance pay for National Guard technicians.

In September, New York National Guard technicians entered the Group Life and Income Replacement Insurance programs available through the National Guard Association of the United States.

Throughout the entire year of 1966, much progress was made toward a technician retirement bill. As the year closed, provisions for recognition of technicians as federal employees, with inherent benefits, were contained in Title II of HR 17195 which passed the House Committee on Armed Services by the overwhelming vote of 322-6. Unfortunately, Congress adjourned before it was able to take final action on the bill; however, it voiced its intent to reintroduce identical legislation early in 1967.

### **LEGAL VI**

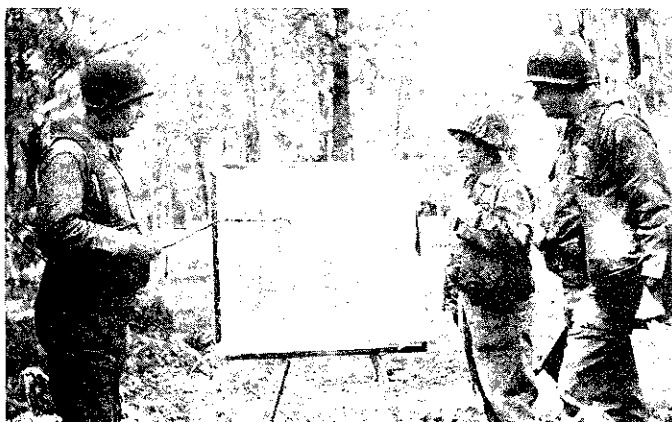

The Legal Section is responsible for all legislation, legal activities and claims affecting the New York State Military Forces.

### **STATE LEGISLATION**

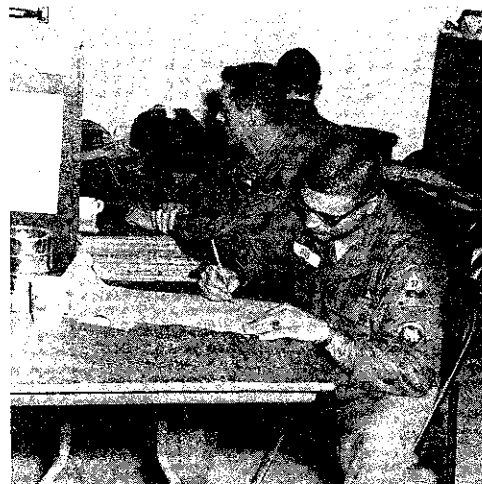

Legislative activities of this section are

**A DIFFICULT MISSION** - - - involving a forced march at night is given careful attention by members of Co E, 19th Special Forces Gp, New York's own 'green berets'. Participating in a field exercise of ten continuous days, covering 600 miles of West Virginia terrain, are CPL Raymond McGibney, LT James Farrell, LT Bernard Reynolds, SFC Don Bushnell and CPT Edward Kalbelka, who is dressed for his role as civilian leader of guerrilla band.

**EVACUATION OF CASUALTIES** - - - Is the concern of these 'medics' during the annual field training of the 42d Infantry Division at Camp Drum. Selecting clearing station locations and ambulance routes for a tactical training exercise are LTC Russell Gee (left) Cmdg. Officer 102d Med Bn. MAJ Robert Bennett and MAJ Gerard McCarthy.

**AN ARMY TRAVELS** - - - on its stomach, and many other things today. Providing the tons of food, clothing, gasoline, etc, is a monumental task requiring burdensome paperwork to assure that a soldier will shoot, a tank will move and a unit will function when necessary. Computing some of the statistics are SP4 Robert Kane (left) and SP5 Thomas Rizzo of the 27th Supply and Transport Bn.

**FIRE** - - - yells the crew chief and a 200-pound projectile is on the way to a target up to 16,800 meters away, as artillerymen from Btry A, 1st Bn, 209th Arty of Rochester participate in annual field training at Camp Drum, with other units of the XVII Corps Arty, NYArmyNG. The M110-8inch self propelled howitzer they are firing is new to the Bn, which is a unit of the Selected Reserve Force.

outlined in the inclosures to this report.

In addition, the Chief of Staff to the Governor was requested by the Governor to comment on numerous other bills not necessarily related to State military operations.

The Chief of Staff to the Governor also rendered advice on military matters to the Military Affairs Committee of the Assembly and the National Defense Committee of the Senate.

### FEDERAL LEGISLATION

The technician retirement bill, which was introduced in the House during the first session of the 89th Congress became Title II of the Reserve Forces Bill of Rights and Vitalization Act of 1966. The bill passed the House of Representatives by a substantial margin. The Senate had not acted on the bill at the close of the session. It is anticipated that due to the substantial support of this bill by the House, a new retirement bill will be introduced in the first session of the 90th Congress.

Title 10 of the United States Code was amended to authorize the President to order to active duty for 24 months, individual members of the ready reserve not in paid drill units and units of the ready reserve without the necessity of declaring a national emergency.

### LEGAL ASSISTANCE

Group life and income replacement insurance for National Guard technicians was made available in 1966. At the close of the year, approximately 1,465 New York Army and Air Guard technicians had joined the plan. The Policyholder is the National Guard Insurance Trust.

The Legal Section assisted numerous members of the Army National Guard in connection with problems arising out of training activities and third parties. This required appearances, consultations and conferences with other State and Federal agencies, city and county attorneys and attorneys representing private individuals.

This Section also assists the active Army Advisor personnel assigned to units of the New York Army National Guard with relation to personal legal problems. This is given without cost to such individuals as no active Army Staff Judge Advocate is available in this area to provide this assistance.

### CLAIMS

During 1966, under the provisions of Titles 32 and 38, United States Code, a total of 426 line of duty investigations were processed for injury and disease to National Guardsmen while engaged in training.

	ARNG	ANG
Approved Formal LOD	201	22
Approved Administrative Determination	116	0
Pending NGB	28	0
Pending from Units	22	0
Disapproved LOD	33	1
Death Cases	2	1
Total	402	24

On 16 July a member of Headquarters Headquarters Troop, 1st Squadron, 101st Cavalry died as the result of injuries sustained in an automobile accident enroute to Camp Drum for annual field training.

On 13 September 1966 a member of Battery A, 2nd Battalion, 209th Artillery died as a result of injuries sustained in an automobile accident while performing annual field training.

On 8 April 1966 a member of the 109th CAM Squadron died as the result of a heart attack. Chief, National Guard Bureau held that it was not sustained in line of duty and disapproved the investigation.

Assistance was provided to their families in accordance with all pertinent regulations and directives.

There were 59 motor vehicle accidents involving National Guard vehicles and third parties during 1966. Two of these claims are now in litigation before the Court of Claims.

There were 35 claims for personal injury reported as the result of incidents while third party claimants were utilizing the premises of State armories. Three of these claims are in litigation.

There are 2 claims for property damage as the result of a forest fire at Camp Smith by third parties. Both of these claims are now in suit before the Court of Claims.

There was no change from the 1965 Annual Report in the status of disability pensioners under the provisions of Section 217 of the Military Law.

## VII MILITARY SUPPORT PLANS SECTION

### GENERAL

The development and training of this section continues to progress in all activities relative to Military Support of Civil Defense.

a. All personnel assigned the Military Support Plans Section have received at least one week's training at the Department of Defense/Office of Civil Defense Staff College, Battle Creek, Michigan.

b. The Military Support Plans Officer and Military Support Plans Assistant have also successfully completed the Disaster Recovery Course at the United States Army Engineer School at Fort Belvoir, Virginia.

c. This section has participated in the emergency operations of the New York State Civil Defense Commission and the Division of Military and Naval Affairs.

### EMERGENCIES

Several emergency situations required function by members of the section.

a. Transit Strike, New York City, 3-13 January 1966: The Military Support Plans Section coordinated use of New York City armories for shelter of transients and kept the Commanding General, New York Army National Guard and Staff informed as to actions of the Mayor's Emergency Committee in New York City.

b. Snow Emergency, 31 January - 5 February 1966: The Military Support Plans Officer operated in ONONDAGA County Emergency Operating Center coordinating requests for Federal and State resources. He developed plans for recording, plotting, and delivery of emergency supplies through the Red Cross to isolated areas in Syracuse and Onondaga County.

### ACTIVITIES

During 1966, work was initiated on the New York Area Command Plan (NYACOM). Preparation of this plan involved contacts at Headquarters, First United States Army, II United States Army Corps, First Air Force Reserve Region, and United States Naval Eastern Sea Frontier by the Military Support Plans Officer and Assistants. It also involved coordinating conferences with Military Support Plans Officers of adjacent States New Jersey, Pennsylvania, Massachusetts, Connecticut, New Hampshire and Vermont.

The Section jointly planned and conducted, with Civil Defense Commission personnel, Exercise SPRINGOFF, 1 April 1966 for Civil Defense involving all levels, District and local. Military Support Representatives and New York Guard personnel participated as simulators/controllers.

In the interest of New York Guard operations, the Division of Military and Naval Affairs Civil Defense Liaison Officer coordinated action relative to supply and maintenance of radiological monitoring equipment and Civil Defense Federal supplies for armory shelters. He developed studies and analyses on budgetary requirements of the Division of Military and Naval Affairs in Civil Defense operations, particularly for New York Guard Civil Defense Training.

Military Support Plans Officers, and Civil Defense Liaison Officer attended Civil Defense Staff College for Civil Defense Directors at West Point, New York, 24-27 April 1966 and at Saratoga Springs 16-20 October 1966.

Effective 24 June 1966, Lieutenant Colonel Lief Halvorsen, Headquarters First Air Force Reserve Region was assigned for duty with New York Adjutant General as Air Force Military Support Planning and Liaison Officer. Lieutenant Colonel Halvorsen contacts major Regular and Reserve Air Force Headquarters and installations in the State to plan their support capabilities in the New York Area Command Plan.

Plans for Military Support of Civil Defense, were presented to Lieutenant General Mundy and representatives of the Office of Civil Defense, Continental Army Command, First United States Army, National Guard Bureau and New York State Civil Defense Commission on 8 September 1966.

The Military Support Plans Officer presented Military Support of Civil Defense mission to members of the New York Militia Association, Kiamasha Lake, New York, on 10 September 1966.

New York Guard conducted a conference at Camp Smith, New York, during the period 16-18, September 1966. Radiological FMS Kits, calibrated by Civil Defense, were exchanged on a one for one basis for kits previously assigned to the New York Guard and in need of calibration. This exchange was coordinated by the Division of Military and Naval Affairs Liaison Officer and will be on an annual basis.

Military Support Representatives participated in Civil Defense Exercise 920, 20 September 1966 and continued participation in Exercise Lima 920 on 31 October 1966.

Division of Military and Naval Affairs Military Support Representatives and New York Guard personnel, at State and local level, participated in National Civil Defense Exercise CDEX - 66, 27 November - 1 December 1966.

Projected activities of the Military Support

Plans Section are concentrated on expansion of the New York Area Command Plan. Orientation for headquarters of all services, regular and reserve, in the State of New York are required to insure complete understanding of the Plan. Subordinate Headquarters will require assistance to develop plans for implementation at local level. This coordination and orientation will occupy the section during most of the coming year. Briefings include local Civil Defense Directors and Staffs.

**HARMONY** - - of the State Military forces is literally and figuratively symbolized as three Army and Air National Guard Bands combined their talents for a concert of semi-classical and popular music in New York City in May. The 199th Army Band, commanded by CWO John Price, 42nd Infantry Division Band led by CWO Raoul Camus; and the 552nd Air Force Band under direction of CWO Joseph Losh (above) participated.

## VII INFORMATION OFFICE

The Information Office of the Division of Military and Naval Affairs is responsible for coordinating all activities of the State Military Forces relating to troop information, community relations, public affairs and news coverage media coverage.

### TROOP INFORMATION

Due to the heavy demands of training requirements and the pressures of preparation for inspections and for field training, most units schedule very little in the way of troop orientation. However, this is not critical, since personnel have ready access to current events and related information through normal news channels, in their civilian pursuits.

The latest command information topics, with instructor material, is forwarded regularly to

major commands for utilization as required by Military Directive HIGHLIGHTS.

Components and personnel of the State Military Forces are constantly involved in activities which confirm their status as an integral part of community life. Units sponsor and/or support many events which have a very favorable effect on the image and value of the citizen-serviceman. Some of these during 1966, are as follows:

#### 1 - 12 January -

With literally millions of commuting workers finding it difficult to get to their homes, due to a 12 - day crippling transit strike in New York City, 12 armories were opened as havens for the stranded in Manhattan, Bronx, Brooklyn and Queens. Hundreds of stranded commuters availed themselves of the facilities provided for both

**FOUR MEN? - IN THERE? - - -** is the skeptical reaction of four nuns as they peer into the turret of an M-48 Tank at the New York State Exposition in September. Explaining how it works in SSG Ignazio Reale, 105th MP Co of Utica. Hundreds of thousands of visitors toured a large exhibit of military equipment and watched a continuous demonstration of selected combat hardware at the New York State Military Forces display.

men and women in separate sections of the installations.

11 January -

In ceremonies at the State Capitol, Governor Nelson A. Rockefeller awarded the New York State Conspicuous Service Cross, posthumously, to Associated Press Photographer Bernard Kolenberg, who was killed while covering the war in Viet Nam. The medal was presented to his wife, Mary, and son, Kevin, as Major General A. C. O'Hara observed. For many years, Kolenberg had covered activities of the New York State Military Forces and did much to promote their interests.

19 February -

New York Air National Guard's 107th Tactical Fighter Group participated in the Niagara Falls Winter Festival Miss America Pageant. Deborah Bryant (Miss America) addressed a Wives Appreciation Luncheon and Fashion Show, sponsored by the airmen for their wives and was guest of honor at a dinner-dance, which featured selection of the Festival Beauty Queen.

5 March -

Almost 500 kegglers, representing all components of the State Military Forces participated in the Second Annual Division of Military and Naval Affairs Bowling Tournament in Albany. The 109th Military Airlift Group, Schenectady,

took top honors, with Headquarters Detachment, New York Army National Guard a close second, The 213th GEEIA, Roslyn, was third.

27 April -

Major General A. C. O'Hara, Chief of Staff to the Governor, addressed 250 delegates of the New York State Civil Defense Staff College at West Point. He outlined the development of the fallout shelter program in the State armories and remarked, "It has been said that the mandate to develop systems of civil defense is Federal, but the implementation remains basically in the hands of the State and localities. This has been recognized by the State of New York for many years and has been responsible for projecting this State into the forefront of leadership in the field of Civil Defense."

11 May -

Major General A. C. O'Hara, Chief of Staff to the Governor, addressed the participants in COMTHREE MOBEX, a US Navy Reserve mobilization exercise involving personnel from units throughout the entire Third Naval District.

21 May -

On Armed Forces Day, soldiers, sailors, marines and airmen from all components of the State Military Forces displayed their equipment and demonstrated their abilities to thousands of spectators. Open houses, parades, equipment displays and demonstrations were commonplace

at armories, airfields and naval bases throughout the State.

29 May -

Three New York Army and Air National Guard bands combined to present a joint concert of semi-classical and popular music at Queens College Auditorium. Participating were the 199th Army, 42d Infantry Division and 552d Air Force Bands.

15 June -

Major General A. C. O'Hara, Chief of Staff to the Governor, addressed the graduating class of the New York State Police Academy.

11 - 29 July -

New York's 106th Military Airlift Wing participated in a nationwide Air Guard effort, called "Operation Combat Leave." Caused by a commercial airlines strike, it was requested by President Johnson, to transport servicemen on leave from coast-to-coast. The 106th Wing's three Groups each flew one flight daily.

17 - 19 July -

Members of the Military Affairs Committees of the New York State Senate and Assembly were invited, as guests of the New York Air National Guard, to observe the launching of US Gemini X space flight at Cape Kennedy. Some 30 legislators and staff personnel were escorted by Major General Lewis A. Curtis, Commanding General of the New York Air National Guard.

22 July -

Major General A. C. O'Hara, Chief of Staff

to the Governor, was Grand Marshal of the New York State American Legion Convention Parade in Albany.

19 August -

Governor Nelson A. Rockefeller was reviewing officer and guest of honor at graduation exercises for the Empire State Military Academy at Camp Smith, Peekskill. He also dedicated the new barracks, administration, and supply buildings just completed.

30 August - 5 September -

A combined exhibit of equipment from all New York State Military Forces was a feature attraction of the New York State Exposition at Syracuse. On Governor's Day, a composite honor guard of New York soldiers, sailors, marines and airmen saluted proudly as artillerymen from Battery A, 1st Battalion, 104th Artillery boomed out a 19-gun salute. The Governor was accompanied by Brigadier General John C. Baker, his Vice Chief of Staff.

9 - 11 September -

The Militia Association of New York held its 82d Annual Conference at Kiamesha Lake, New York.

6 - 7 October -

The National Guard Bureau - First US Army Area Conference was held in New York City. Representatives from every state in the Army Area met, in separate, subjective groups, to discuss problems of the National Guard in specific fields.

**VALUE OF THE GUARD** - - - to a community is demonstrated sometimes in rather unusual and unexpected ways. SGT Robert Carlton, Trp B 1st Bn, 121st Cav. of Corning smiles proudly as Mrs. Harry Leeman gratefully hugs her grandson Tod. The youngster had fallen into a 30 foot deep well with 10 feet of water. Both he and his grandmother, who jumped in and held him, were rescued by the SGT who was hailed as his National Guard unit passed by, returning from weekend training.

# CHAPTER III

## New York Air National Guard

### I GENERAL

The airlift of materiel and personnel throughout the World in huge four-engine C-97 Stratocruiser aircraft—primarily to and from South Vietnam and the Far East to support United States military operations—continued to highlight the productive operations of the New York Air National Guard during 1966.

New York's 4720 airmen, comprising the largest Air National Guard force of any of the States or Territories played a key role in handling vital assignments of the United States Air Force and Army that previously had to be undertaken by active Air Force units. The missions were performed largely on a volunteer basis without having the Air Guardsmen mobilized.

Noting the Air Guard's operations, Brigadier General J. G. Brown, Assistant Chief of the National Bureau for Air, said that the "exigencies of our nation's commitment to the Republic of South Vietnam during the past year grossly revolutionized the role of the Air National Guard

in a non-mobilized status."

And Air Force Secretary Harold Brown, commenting on the Air Guard's new high-priority role, said that "No longer do we regard the Guard as simply a stand-by force. For some time we have been conceiving of it as an actual 'in-being' supplement to the Regular Forces, even while it holds its reserve status."

The Empire State's 48 Air National Guard units, commanded by Major General Lewis A. Curtis, are based in Brooklyn, Roslyn, White Plains, Syracuse, Schenectady and Niagara Falls. In addition to the Stratocruiser equipped airlift units, the Air organization includes two jet fighter groups, highly skilled tactical control, electronics and communications personnel, and professionally staffed aeromedical evacuation units. Virtually all of these organizations carried out missions during 1966 in direct support of active duty Air Force and Army operations.

### II PERSONNEL

The commander of all New York Air National Guard units throughout the year was Major General Lewis A. Curtis. In July he was appointed, by the Secretary of the Air Force as Chairman of the Air Reserve Forces Policy committee in Washington for a three-year term. General Curtis also was appointed in February as Chairman of the Air Affairs Committee of the National Guard Association of the United States, and continued to serve as Chairman of the Tactical Air Command Reserve Forces Policy Council.

Several NYANG units were authorized increases in strength levels during the year in line with Air Force and National Guard Bureau efforts to maintain and improve their operational efficiency and readiness. In addition, all flying

units intensified their efforts to recruit pilots and other air crew personnel, particularly from among prior service men who already had been trained in the active forces.

The Governor's Trophy was awarded to the 105th Military Airlift Group, as the best flying unit in the New York Air National Guard. The unit comprising 760 airmen and equipped with the C-97 Stratocruisers, is commanded by Colonel Paul F. Seifert. The unit also won the trophy in 1957, 1958, 1959 and 1964.

The Commander's Trophy was awarded to the 106th Supply Squadron of Brooklyn, as the best all-around unit in the New York Air National Guard. The unit is commanded by Lieutenant Colonel Andrew A. DiBernardo.

### III ORGANIZATION

The National Guard Bureau in Washington sent the following telegram on 22 September to the Commander of the New York Air National Guard:

". . . THE 105TH MILITARY AIRLIFT GROUP (HAS) BEEN INSTRUCTED TO MAINTAIN (ITS) CURRENT FULLY OPERATIONAL STATUS . . . IT IS THE INTENTION

**GLOBAL MISSIONS** - - were a regular routine again in 1966 for New York's 106th Military Airlift Wing, with Groups in White Plains, Brooklyn and Schenectady. As this C-97 Stratocruiser wings over New York City, it could be on the way to almost any USAF Base in the world with vital military cargo or personnel. New York Guardsmen fly monthly missions to many parts of Europe, Africa, Asia, South America and Australia - in addition to three flights every month to Vietnam, with volunteer crews.

OF THE DEPARTMENT OF DEFENSE THAT THIS UNIT WILL BE MAINTAINED IN ITS PRESENT AIR NATIONAL GUARD STATUS . . . "

Secretary of Defense Robert MacNamara had announced on 8 December 1965 that the 105th Group, based at the Westchester County Airport at White Plains, and similar units in Pennsylvania and California, would be deactivated on 1 October as an economy measure.

The unexpected announcement triggered protests from many sources, military and civilian, on the ground that the United States military operations in Vietnam and elsewhere in the World required every available airlift unit and the fact that the 105th Group was at the time providing volunteer air crews to move urgently

needed military supplies to the Far East.

Less than a month after the deactivation order, the Department of Defense had requested all Air Guard airlift units, including the 105th Group to handle regular cargo flights to Vietnam, and the personnel of the New York unit had been among the first to volunteer.

Subsequently, an intensive study of the Nation's airlift requirements and capabilities was conducted by a Special Subcommittee of the Armed Services Committee of the House of Representatives. On 16 May, the Congressional group recommended that the Air Guard airlift units be retained.

A mandate to the Department of Defense to postpone any deactivation of the 105th Group and the other airlift units was contained in the Defense Appropriation Bill for Fiscal Year 67, which was signed by the President.

#### IV OPERATIONS

##### GLOBAL AIRLIFT

The New York Air National Guard's major contribution to the Nation's military and defense program during 1966 was the use of its four-engine C-97 Stratocruiser transport aircraft to airlift priority cargo and personnel throughout the World, particularly to and from Vietnam and other Southeast Asia bases.

Beginning in January, the Air Force's Military Airlift Command requested the Air National Guard to begin flying 75 cargo flights monthly to support the United States' military efforts in South Vietnam. New York's Air Guardsmen were among the first to accept the challenge, and have been flying an average of nine of the mis-

**TOP TEAM** - - in competition at the New York State Matches in 1966 was the 107th Tactical Fighter Group from Niagara Falls. The team members are (kneeling from left) A1C Robert Novak, A1C Elmer Goldpenny and MSGT James Barty, (standing from left) SSGT David Pann, TSGT Robert Chiasera, Maj. Harold Schoultz, Col. Robert Kirsch, MSGT Allan Reese and MSGT Duane Carll, team coach.

sions each month since.

During 1966, New York air crews completed 111 of the 22,000-mile round trips to Southeast Asia hauling 7,840,412 ton miles of cargo and 7,163 personnel without, a single accident.

The operations are supervised by New York's 106th Military Airlift Wing of Brooklyn, commanded by Brigadier General Raymond L. George, and the Wing's three operational Groups; The 106th Military Airlift Group of Brooklyn, commanded by Colonel William Longa; the 105th Group of White Plains, commanded by Colonel Paul F. Seifert, and the 109th Group of Schenectady, commanded by Colonel John C. Campbell Jr.

In addition to the Southeast Asia flights, the Air National Guard also has maintained its previous Air Force commitments of handling 100 cargo flights each month to other overseas destinations, including Europe, the Near East, Africa, South America and - starting in 1966 - to Australia and bases throughout the South Pacific.

During 1966, New York's airlift units flew 230 of these missions, carrying 8,001,019 ton miles of cargo and 5,637 military personnel over 850,000 miles with mishap.

The overseas flights also are in addition to a variety of airlift missions flown within the continental United States, carrying personnel of the active military services and reserve and National Guard units to and from training sites and a continuing series of joint exercises.

Overall, New York's MAC units carried approximately 17,000,000 ton miles of cargo and 12,000 passengers over some 3,400,000 miles during 1966, without being mobilized by the Air Force. The Empire State crews served far in excess of their required duty time on a voluntary basis to get the job done.

#### **OPERATION COMBAT LEAVE**

Typical of the special demands made upon the Air National Guard in 1966 was Operation Combat Leave, established by the Department of Defense on orders from the President to transport servicemen to and from the West Coast en route to military assignments in South Vietnam. The Operation stemmed from a strike of personnel of five major commercial airlines.

Here, too, New York's airlift groups were among the first to volunteer for the priority assignment, and handled a total of 5,312 passengers during 23 missions. In all, the Air Guard flew 25,923 servicemen during the two-month operation.

#### **AEROMEDICAL EVACUATION**

Each of the New York military airlift groups includes an aeromedical evacuation unit, comprising flight nurses and medical technicians trained in aerial transportation of military ill and wounded and their dependents on global missions.

During 1966, New York's medical teams,

utilizing C-97 aircraft of the military airlift groups, transported 250 patients and other passengers.

At year's end, plans were being completed for the assignment of New York's medical personnel and aircraft to regularly scheduled missions, to relieve the active Air Force units of part of their workload.

### PROJECT FAST RACE

In October, the Air Force Logistics Command requested assistance from the Air National Guard's Ground Electronics and Engineering Installation Agency units (GEEIA) in 13 states to volunteer for special duty in Europe to remove communications and electronics equipment from NATO sites in France, and reinstall them elsewhere on the Continent.

In keeping with New York's tradition, the Empire State's 213th GEEIA Squadron of Roslyn was among the first to volunteer for the mission, which involved from 31 to 89 day tours of active duty. In all, the 213th Squadron provided four officers and 22 airmen with the first team departing for Europe on 14 November.

## V TRAINING

All NYANG personnel performed routine training during the year at 48 weekend Unit Training Assemblies (UTAs), and during 15 days of annual field training. Air Crew members such as pilots, navigators, flight engineers, and loadmasters were authorized an additional 36 periods for flying training.

Many of the units, particularly the military airlift groups, conducted their field training during 15 consecutive days. This made personnel available as required to support the airlift missions. This so-called "Texas Plan" of year-around training also was extended in 1966 to the tactical fighter units.

A schedule of annual field training for other units of the New York Air National Guard is outlined in the inclosures to this report.

The 107th Tactical Fighter Group of Niagara Falls was included among several Tactical Air Command units that were given additional training authorizations in an effort to bring all squadrons to operational combat readiness in the shortest possible time. The readiness program was labeled Operation Beef Broth.

The Group won the distinction of being the first "Beef Broth" unit in the country to pass a

### OPERATION CLOVE HITCH

Fourteen officers and 28 airmen of the 174th Tactical Fighter Group of Syracuse and its 138th Tactical Fighter Squadron participated from 27 March through 1 April in an all-service military exercise in the Carolinas that was designated Operation Clove Hitch I.

The joint Air Force, Army, Navy and Marine Corps maneuvers were designed to increase proficiency in joint airborne and amphibious operations.

The Syracuse detachment, flying eight of the Group's camouflaged F-86 Sabrejet fighters, was led by Lieutenant Colonel John A. Theisen, Commander of the 138th Squadron. They deployed to Myrtle Beach Air Force Base, S. C., and provided close air support to regular Army units engaged in a mock attack on beaches near New River, N. C.

Upon completion of the exercise, Major General Don O. Darrow, Air Force Task Force Commander, reported that the "174th's professionalism and their accomplishments during this exercise were exceptional."

no-notice Operational Readiness Inspection (ORI) and General Inspection the first time it was given by inspectors from the Tactical Air Command and the Ninth Air Force.

In August, the NYANG Headquarters Staff sponsored a special orientation mission to the National Aeronautics and Space Administration (NASA) Missile Test Center and the Air Force Eastern Test Range at Cape Kennedy, Florida, for members of the New York State Legislature. During the visit, the New York Legislators witnessed first-hand the launching of Gemini X.

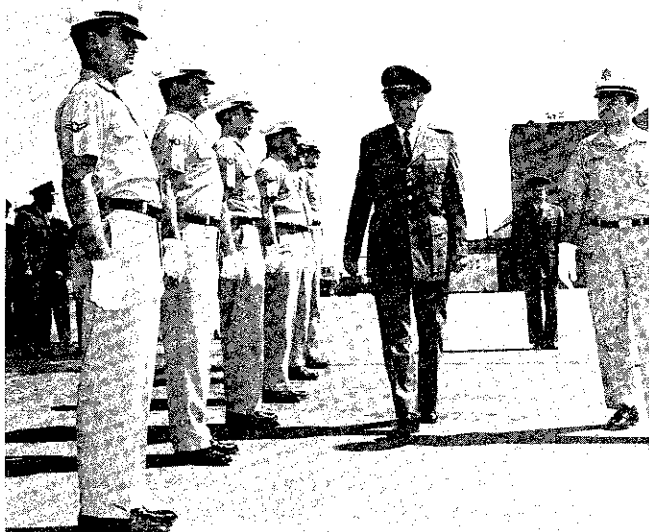

Among the Air Guard guests were State Senator James F. Hastings, Chairman of the Senate Committee on National Defense and Military Affairs, and Assemblyman Louis F. DeSalvio, Chairman of the Assembly Military Affairs Committee. Air transportation for the mission was provided by the 106th Military Airlift Group of Brooklyn and the 109th Military Airlift Group of Schenectady.

In addition to the unit training, special missions and exercises, and the annual field training, NYANG personnel attend regular Air Force basic training, technical training and flying training schools throughout the year.

**EYE TESTING** - - - equipment in the dispensary of the 105th Military Airlift Group at White Plains is demonstrated by Lt. Marilyn Gunnell to some of a large group of businessmen who were briefed on activities of the NYAirNG and toured the base facilities. They were also treated to an orientation flight in one of the units C-97 Transport aircraft.

**THE COMMANDING GENERAL** - - - of the NYAirNG, Major General Lewis A. Curtis inspects honor guard prior to one of his inspection visits to the 109th Military Airlift Group in Schenectady. General Curtis, a command pilot himself, spends considerable time each year visiting Guard bases at Brooklyn, Schenectady, Syracuse and Niagara Falls.

**ANOTHER MIRACLE** - - - would be a big help as an airman of the 109th Military Airlift Group, Schenectady holds up a lone fish for his many hungry friends to admire. The men were participating in a "wet ditch" training exercise required of all transport crews that fly overseas.

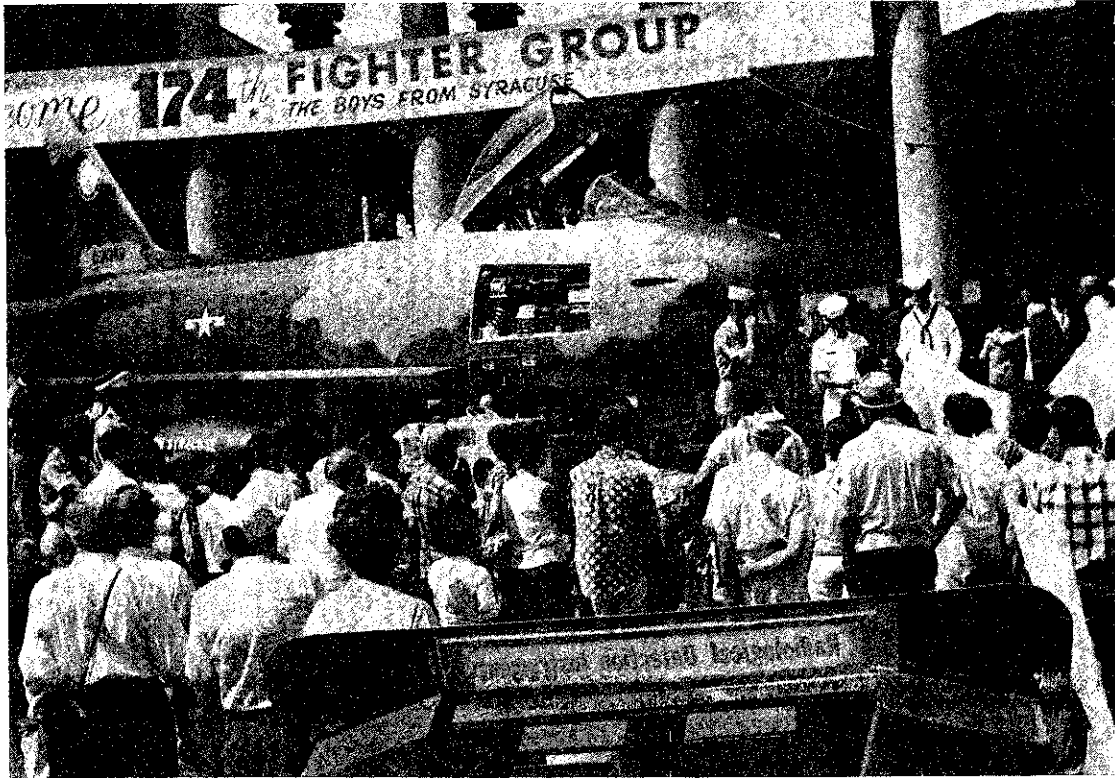

**MISS AMERICA** - - - Deborah Bryant, was guest of honor at Wives Appreciation Day festivities conducted by the 107th Tactical Fighter Group Niagara Falls. Greeted by the unit commander Col. Robert Kirsch, she attended a fashion show luncheon with wives of the airmen and other functions intended to recognize the importance of an understanding wife to a citizen soldier.

During 1966, a total of 556 airmen received their basic training at Lackland Air Force Base, Tex., and 339 others attended various Air Force technical schools. A total of 3 airmen received the regular USAF pilot training and won com-

missions, and another 6 were commissioned after completing navigator training.

New York's Air Guard pilots flew a total of 29,360 hours during the year, compared to 21,292 in 1965.

**A FULLY OPERATIONAL JET FIGHTER** - - - from the New York Air National Guard's 174th Tactical Fighter Group, was a feature attraction at the State Exposition in September, as New York's Army and Air National Guard, Naval Militia, Marines and State Guard displayed some of their heavy equipment. Large crowds gathered frequently each day as soldiers, sailors, marines and airmen of the state military forces demonstrated certain military techniques. Typical of the unity of these forces is this incongruous setting - - with Naval Militiamen explaining scuba diving gear in front of an F-86 sabrejet.

## CHAPTER IV

### New York Naval Militia

**ANCHORS AWEIGH** - - - as New York Naval Militiamen get underway on a 2 week training cruise. Leaving the big city skyline behind, they traveled over 4000 miles with U. S. Navy Destroyer Squadron 30, while engaged in anti-submarine techniques and in gunnery practice against both air and surface targets.

#### I MISSION

The Naval Militia as the Naval component of the State Military Forces has a two fold mission. The State mission is to provide a disciplined body of naval troops available to the Governor, to defend the State in the event of attack, assist competent local authority in the preservation of local process, and support re-

covery operations in the event of natural disaster or civil defense emergency. The Federal mission is to provide trained units and qualified personnel to be available for active duty in the US Navy and US Marine Corps in time of war or national emergency, and at such other times as the national security may require.

#### II ORGANIZATION

The Naval Militia is composed of Naval and Marine Corps units, numbering approximately 5600 officers and men, located throughout the State, on or near all major waterways.

The Naval component trains as ships crews, in the Destroyer Escort and Fleet Division programs, and as individuals in the Surface program. The basic objective of each of these programs is to train and qualify men to augment fleet or

shore installations of the Navy.

The acquired skills necessary to operate a vessel of the Navy, which is a self-supporting entity, are those which are most suited to the restoration of vital utilities and services, which might be disrupted as the result of natural disasters.

The Marine Corps branch conducts unit training, exclusively. All Marine Corps units are

**SURROUNDED** - - - by an inspection team is Seaman Joseph Kelly Jr, (right) of Division 3-98 as he stands in ranks during the unit's annual inspection. Looking him over are (left to right) Lt. Cmdr. Zimmerman; Lt. Cmdr. W. J. Scarbrough, Cmdg. Officer of Div. 3-98; Lt. W. P. Braumbach, Exec. Officer; and, Cmdr. W. D. Flynn, Batt. 3-29.

**BELOW DECKS** - - - is the heart of any warship, Men on watch in the fireroom change speed as directed from the bridge during the 2 week training operation of New York Naval Militia units in the Atlantic Ocean. Participating ships were the USS BRISTOL, USS JOHN R. PIERCE, USS DE LONG and USS ALBERT T. HARRIS.

**SEE NO EVIL, HEAR NO EVIL** - - - seems to be the attitude of PFC Michael P. McGarvey (left) and PFC. Dennis Masterson of the 2nd Bn, 25th Marines as they duck from the back blast of an 81mm Mortar round during training at Camp Lejeune, N.C. The New York Marines spent most of their time in intensive combat training, including a tactical exercise against a guerilla force composed of Viet Nam veterans.

part of the 4th Marine Division or its supporting elements. One half of the Marine Corps personnel

are schooled and qualified as communicators, while the balance are trained in the infantry skills.

### III PERSONNEL AND ADMINISTRATION

#### PERSONNEL

All officers of the Naval Militia serve a minimum of three years on active duty with the US Navy or the Marine Corps prior to assignment to Militia units. Navy enlisted men each serve two years active duty, while the Marine enlisted men serve from six months to one year.

In order to provide more officers with the opportunity for command, tours of duty for commanding officers are limited to two years in the Navy units. However, the performance of Naval commanders is reviewed annually for continuance. As a result of this policy there are a significant number of command changes each year.

#### ADMINISTRATION

The personnel record keeping for the Naval

Militia is maintained by an electronic data processing system, developed by the Naval Militia in conjunction with a private concern. In January of 1966 the system was transferred from the private concern to the Office of General Services. During 1966 additional applications have been added which have increased the amount of readily available information and reduced the clerical and administrative workload of units in the field.

Policy Boards were convened in Rochester and New York City during 1966. These panels, consisting of senior Naval and Marine officers, considered existing and proposed operating procedures, evaluated suggestions from the field and made recommendations to the Commander for the improvement of certain existing programs and the initiation of others.

WORSHIP IN THE FIELD - - - provides a solemn interlude for men preparing for combat. Father Philip P. Shannon, Chaplain of the 2nd Bn, 25th Marines celebrates the holy sacrifice of the mass, using stacked ammunition cases for an altar.

## IV OPERATIONS AND TRAINING

### SURFACE PROGRAM

With the aim of more accurately meeting the mobilization requirements of the Navy, a new training concept was introduced during 1966. Each surface division was assigned a "Type Command" designation (i.e., Amphibious Forces, Military Sea Transportation Service, Cruiser Destroyer Forces, Mine Forces, etc.).

The rates trained in the division will be those most required in the particular type command; active duty for training will be taken with ships or installations of the type command; and the type commander will monitor the yearly training cycle of his designated units.

### ~~ANTI-SUBMARINE WARFARE PROGRAM~~

 The ships of the Destroyer Division continue to be the hard core of the Naval Reserve. These ships, which go to sea one weekend each month, are ready for immediate deployment with the active forces. They maintain stocks of food, fuel,

and ammunition, and the assigned Reserve/Militia crews are fully capable of performing their assigned missions.

### MARINE CORPS BRANCH

As integral parts of the 4th Marine Division or its supporting elements, units have had great emphasis placed on readiness for mobilization during 1966. Daily drill schedules have been increased from 8 to 10 hours, increased time is being devoted to combined Air-Ground training, and newer lightweight weapons and communications equipment are being fed into the supply system. Additionally, all administrative actions, both personnel and logistic, concerned with mobilization, have been completed by units and reviewed by Headquarters, Marine Corps to permit rapid mount-out with the least possible confusion.

## V LOGISTICS

The weapons, vessels and training equipment utilized by the Naval Militia, are supplied and maintained at 100% Federal cost. The cost of

maintaining and operating the Naval Militia Armories is shared equally by the State and Navy under existing lease arrangements.

## VI FISCAL

The Department of the Navy annually appropriates in excess of 5 million dollars to support the training activities of the New York Naval Militia. These funds are exclusive of the annual

rentals paid to the New York State Treasury, or the repairs and rehabilitations performed on State owned buildings which are outlined under the logistic portion of this report.

## CHAPTER V

### New York Guard

**A NEW ORGANIZATIONAL COLOR** - - is added to the proud collection of the New York State Military Forces, as the New York State Guard receives its first official Headquarters flag. It is displayed by (from left) MG W. Reynolds Carr; Mrs. Gladys Mulligan, the NY Guard's "Betsy Ross" who made the flag; COL Robert Mulligan; and BG Andrew J. Malatesta, who succeeded GEN Carr as Commanding General of the State Guard in October of this year.

#### I MISSION

**MISSIONS:** Subject to orders of the Governor, thru his Chief of Staff, the New York Guard will be prepared to:

1. Provide logistical coordination between the New York Army National Guard and the New York Civil Defense Commission, during Post Attack Phase.

2. Replace the New York Army National Guard when it is called into Federal service and

is no longer available for State service.

3. Provide military assistance to the New York State Civil Defense Commission.

4. Furnish aid to Civil authorities in the event of disaster, emergency or domestic disturbance.

5. Render support to Sister States who are signatories to the Interstate Compact for Mutual Military Aid and Assistance.

#### II ORGANIZATION

A New York Guard unit is located within each New York Army National Guard Armory in New York State. In event of activation and removal of National Guard units from the State of New York, the commanding officer of a New York Guard unit or units affected will then assume the responsibilities of the former National Guard Commander as pertinent to the Armory involved.

The New York Guard currently organized in cadre form, is composed of: Headquarters New

York Guard; Six (6) Area Commands; Nineteen (19) Internal Security Battalion; Seventy-one Internal Security Companies; for a total of ninety seven (97) units.

Each Internal Security Company has the basic responsibility of successfully accomplishing the assigned missions of the New York Guard, through appropriate military channels. Each company prepares to accomplish these missions by:

- a. Assignment of two(2) qualified Radiological Monitors.
- b. Liaison with the Army National Guard unit, within their particular armory and direct liaison with their local Civil Defense director.

### III ADMINISTRATION

With constant emphasis on maintaining modern personnel action procedures and policy guidelines for the New York Guard, Headquarters New York Guard revised and forwarded to Division of Military and Naval Affairs, for approval and publication, a proposed new edition of the New York Guard Manual. This revised manual was approved and published, effective 1 August 1966, after minor amendments were completed.

Also, by issuance of Administrative Memorandum Number 5, dated 2 May 1966, the New York Guard revised its annual unit inspection procedures, to effect a more modern and controlled operation, similar to Annual State Armory Inspections, and Annual General Inspections performed by federally recognized officer personnel.

### IV TRAINING

In compliance with decisions made by DMNA, the publication and distribution of the advance and final phase of the New York Guard sub-courses series was suspended, in favor of formulating, publishing and distributing O Plan No 2 (Build-Up). This plan basically covers accelerated refresher training for the New York Guard when it is ordered to a partial or complete mobilization.

Eighty-seven (87) New York Guard officers stationed throughout New York State participated in a weekend Administrative-Training Conference. This conference was conducted in Albany on 26-27 March 1966, and was primarily designed to insure present and future uniformity in the implementation of published policy and directives by New York Guard personnel.

Twenty-five (25) New York Guard officers and enlisted men participated in the annual New York State Pistol and Rifle Matches, conducted 29 May - 3 June, at Camp Smith, Peekskill, New York. Completed results of the competition by representatives of all elements of the State Military forces, indicated the New York Guard is maintaining its readiness in this important facet

**CONFLICTING EMOTIONS** - - - and nostalgic memories occupy the sentiments of MG W. Reynolds Carr and his wife Ruth, at a testimonial dinner on the occasion of his retirement as Commanding General of the New York Guard. In organizing and developing in the State Guard in the post World War II era, he contributed greatly to its status as the most provicient force of its kind in the country.

of military training.

Four-hundred-eighty-nine (489) officers and enlisted men of the New York Guard participated in their Annual Tour of Active Duty for Training at Camp Smith, Peekskill, New York, 17-18 September 1966. A county fair type training program was conducted, consisting of six (6) training stations. In addition, individual staff conferences were programed again to insure uniformity and precision of the various facets of cadre planning for mobilization requirements if ordered.

Qualified New York Guard officer personnel, participated in two (2) separate Civil Defense training exercises indicated below, during 1966, performing duties as requested by the Civil Defense Commission:

EXERCISE "SPRINGOFF" 1-2 April - 99 Officers

EXERCISE "CDEX-66" 29-30 November - 21 Officers

Nine (9) New York Guard officers attended week long training instruction at the DOD-OCD Training Center, Battle Creek, Michigan. Purpose of their participation was to qualify in the Radiological Monitoring Course, Radiological Defense officers course and Radiological Mon-

iting Course for Instructors.  
Security clearance checks continued through

1966 on cadre personnel of the New York Guard with a total of 194 completed.

### V FISCAL

In order to accomplish assigned missions, a budget request of \$23,481.00 was submitted

for fiscal year 1966-1967. Funds in the amount of \$19,100.00 were appropriated.

### VI PROGRAMS

It is planned that the advance Phase III of the New York Guard Sub-Course Series will be formulated and published during 1967. The accomplishment of this Phase will complete the ninety credit hours of New York Guard sub-courses as scheduled.

Headquarters, New York Guard will conduct a conference in March of April 1967 at Albany, New York. It is anticipated that this conference will be attended by over two-hundred (200) officers

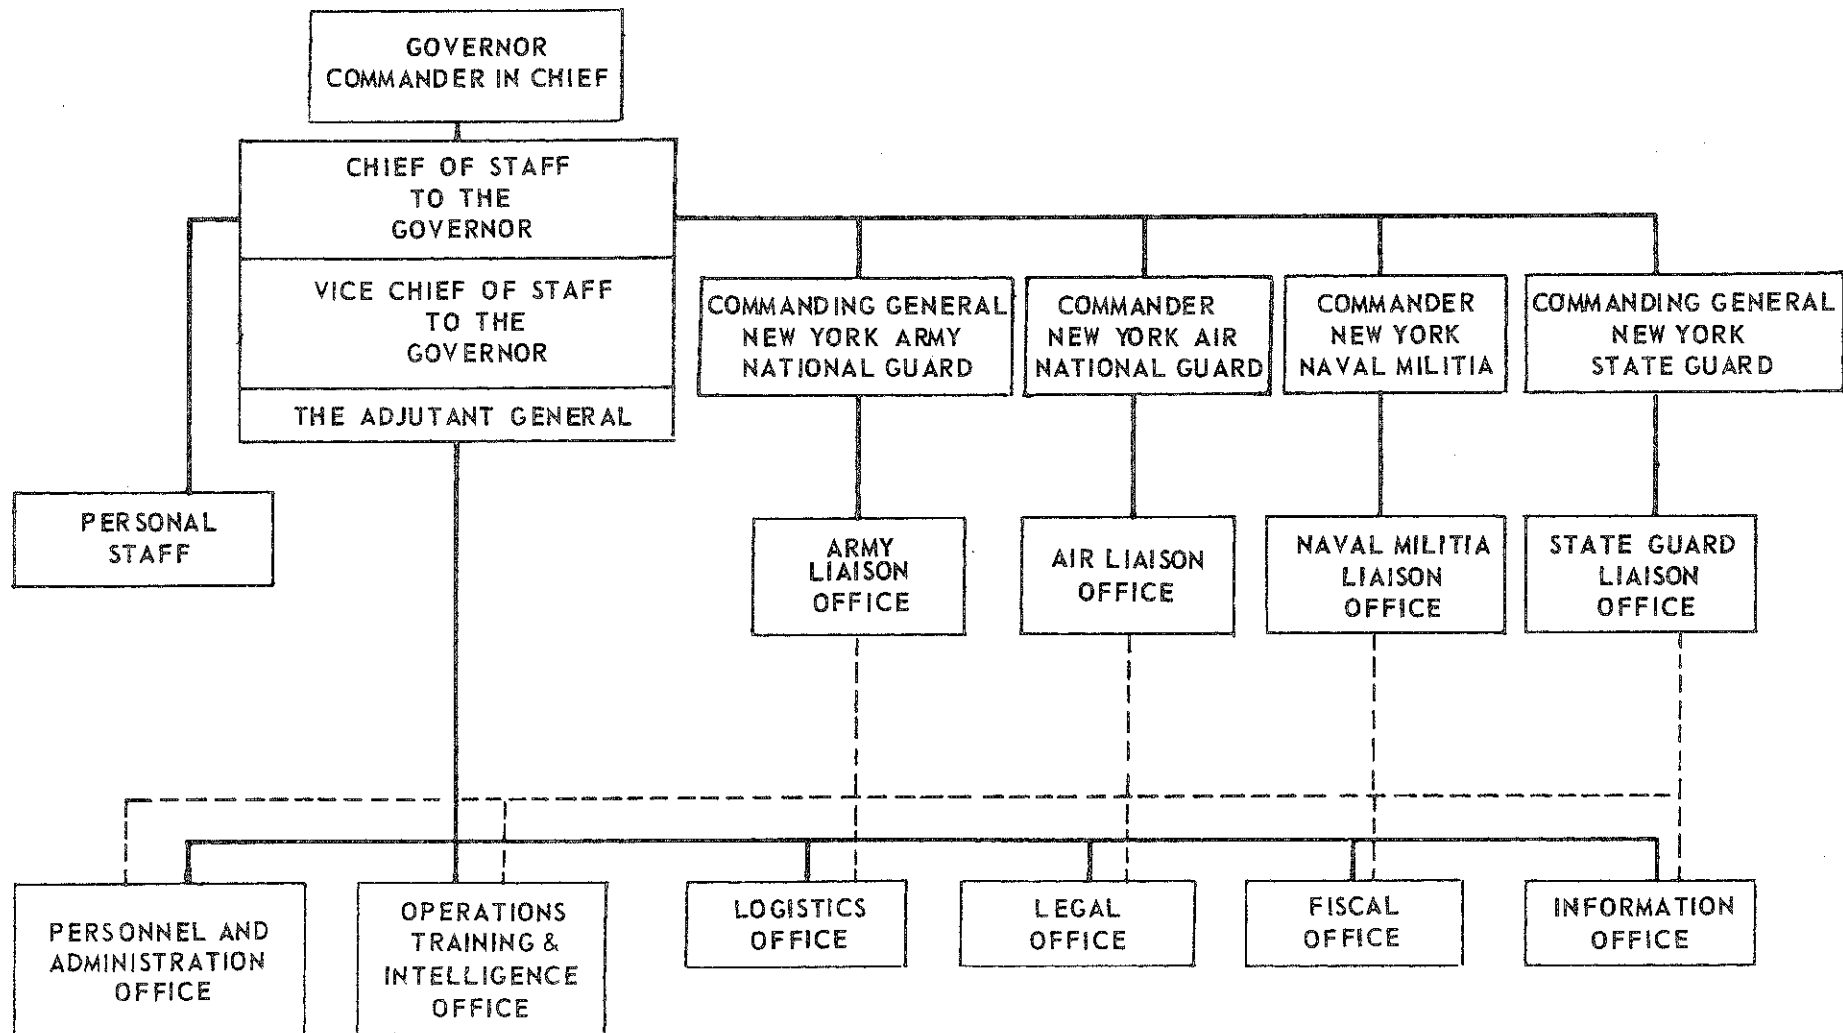

**HOOT MON** - - - what a glorious sight as men of the 3d Area Command, NYG, step out smartly and proudly to the stirring strains of their own volunteer bagpipe band during a training weekend at Camp Smith. More than 500 men from all sections of the State participated in activities which included basic military subjects and specialties designed to better prepare them for potential missions.

## CAMP SMITH FACILITIES

### RANGES

- a. Three known distance rifle and carbine ranges with firing points at 100, 200, 300, 500 and 600 yards.
- b. One twenty-eight point pistol range with capabilities to increase capacity to fifty-six firing points.
- c. One five hundred inch machine gun range.
- d. One moving target range.
- e. Range for firing 60mm mortar and 50 cal machine guns up to a distance of 600 yards.
- f. Improvised areas for firing recoilless weapons, rocket and grenade launchers, demolition and land mines.

### BUILDINGS

Constructed under the Camp Smith modernization and rehabilitation program, and completed in July at which time they were made available to troops, were two 600-man barracks buildings, heated and with latrine and showers, each building contains a fully equipped kitchen with mess hall facilities and combination air raid shelters and class-

Among the various other buildings which were available to troops the past year were:

- a. A combined mess hall and kitchen capable of serving six hundred at a sitting.
- b. Twenty-nine company-size combined kitchen and mess halls.
- c. A combination chapel and theatre seating 1,000.
- d. An additional chapel (provided and completed by Post personnel) which is heated, completely furnished and seats approximately 350.
- e. A post exchange housing a canteen, restaurant, general store, tailor and barber shops.
- f. United States Property and Fiscal Office Combined Support Maintenance Shop servicing vehicles, mechanized equipment and weapons belonging to organizations of the New York Army National Guard located in the metropolitan area.
- g. Eight oversized garage-type buildings for standby storage of federal vehicles and motorized equipment excess to armory training requirements.
- h. Warehouses for storing state and federal property.

- i. Buildings for safeguarding ammunition, chemical warfare items and high explosives.
- j. Hutmments for billeting up to eight hundred troops.

## **GROUNDS**

The Camp provides almost endless opportunities for outdoor exercises. Diversified recreational facilities include: baseball and softball diamonds, handball and tennis courts, and two swimming pools, one of which measures 100' x 500'. In addition, a large parade ground is available for reviews and military ceremonies.

## **BIVOUAC**

Twenty areas are available for bivouacing battalion and company-size units.

## **AIRSTRIP**

The Camp's 3,000 foot airstrip is presently closed.

## **COMBINED SUPPORT MAINTENANCE SHOP**

The Combined Support Maintenance Shop "A" is responsible for third and fourth echelon repair of all automotive and power equipment, artillery pieces, and small arms and signal components within its zone of responsibility, which runs northward from Manhattan to Ogdensburg and westerly to Utica. The Shop is also responsible for 106 company-size units and issues needed repair parts to twenty-four organizational maintenance shops. Presently, the Shop employs fifty-eight skilled technicians and mechanics, all of whom are paid from federal funds.

## **UNITED STATES PROPERTY AND FISCAL OFFICE**

Besides operating Combined Field Maintenance Shop "A" at Camp Smith, the United States Property and Fiscal Office is furnished:

- a. Storage and warehouse facilities for the storing and safeguarding of federal equipment, ammunition and chemical warfare items.
- b. Buildings and areas for storing vehicles and equipment required by units for field training but excess to armory requirements.
- c. Buildings for Organizational Maintenance Shops Number 27, 28, 29 and 52.

operated by the 102d Engineer Battalion, 101st Signal Battalion, and 1st and 2d Howitzer Battalions, 258th Artillery - all of New York Army National Guard.

d. Transportation motor pool.

e. Buildings for storage of Empire State Military Academy equipment necessary for the operation of the school, and for which the Camp Smith United States Property and Fiscal Office representative is supply officer.

### **AMPHIBIOUS RESCUE UNIT**

Based at Camp Smith is the 1st Amphibious Rescue Unit (Prov), New York Army National Guard, whose members are employed at Shop "A". These individuals have been carefully selected and given special training in rescue operations. The unit maintains three 2 1/2 ton amphibious trucks which are kept in a constant state of preparedness ready to move into action in flood or other emergencies on an hour's notice.

## CAMP SMITH MAINTENANCE CONTRACTS

Maintenance employees accomplished eleven major repair and rehabilitation projects which included interior and exterior painting, electric line repairs, building rehabilitation, roof, ceiling, water line and water pump repairs.

In addition, they serviced weapon ranges, federal and state vehicles, power tools, agricultural equipment, pumping plant, and 21,384 odd carpentry, plumbing, electrical, painting and masonry tasks. Supplementing all this, the maintenance crew was responsible for such seasonal tasks as snow and ice removal; grass cutting; leaf raking and burning; hedge, tree and shrubbery trimming; and garbage pickup and disposal, the latter of which involved 1,510 manhours for the period 1 April through 1 August.

The Post also rendered logistical support to the troops and other users of the Camp's facilities in the amount of 145 line items for a grand total of 17,568 items.

During the year 1966, contracts for the following projects which were beyond the capability of the Post maintenance staff were let:

Building # 124 - Installation of mercury vapor lights	\$	4,100.00
Building # 124 - Retubing boiler	\$	1,640.00
Building # 86 - Installation of new 1,000 gallon gas tank	\$	2,490.00
Building # 90 - Rehabilitation of roof	\$	1,800.00
Building # 76 - Rehabilitation of roof	\$	2,435.00
Building # 501/6 - Installation of grand master key system	\$	1,162.52

## ANNUAL FIELD TRAINING

**CAMP SMITH**  
**FISCAL SUMMARY**

The total expenditure of State and Federal funds for the fiscal year 1965 - 66 is as follows:

<u>PROGRAM</u>	<u>EXPENDITURE</u>
State Purposes (100%), FY 1965 - 66	\$
Personal Service	105,522.00
Maintenance and Operation	34,045.00
Capital Construction Fund (100% State)	
Construction, Reconstruction and Improvements	1,165,000.00
Army National Guard Service Contract (25% State - 75% Federal) FY 1966	
Personal Service	40,581.00
Fringe Benefits	7,305.00
Maintenance and Operation	13,890.00
Army National Guard Annual Field Training Site Contract (100% Federal)	37,703.00
Total Expenditures	1,400,046.00

In addition, in excess of \$400,000 was expended by the Federal government for the employment of personnel in the Combined Support Maintenance Shop "A", United States Property and Fiscal Office warehouses and the Organizational Maintenance Shops.

These appropriations enabled more than 50,000 personnel of the Armed Forces, law enforcement groups, civilian agencies, etc., to train and/or benefit from the wide variety of facilities provided at Camp Smith.

## HONORS

### **THE EISENHOWER TROPHY**

The Eisenhower Trophy, named for ex-General of the Armies Dwight D. Eisenhower, was awarded in 1965 to Headquarters and Headquarters Detachment, 106th Ordnance Battalion, commanded by Captain William S. Mikutel. The Eisenhower Trophy is awarded annually to the New York Army National Guard unit demonstrating the most outstanding merit on the basis of strength, percentage of attendance at drills, armory training, field training and qualifications of members with individual and crew-service weapons.

**GENERAL INSPECTION CHECK LIST**

Housekeeping practices and conditions.

Repair, renovation and maintenance conditions and allied records.

Security procedures.

Fire prevention regulations.

Safety programs and procedures.

Compliance with policies concerning use of facilities, to include rentals, correctness of personnel procedures and records.

Safekeeping and maintenance of State property, both expendable and non-expendable to include accuracy of property records.

Utilization of space.

Fallout shelters, supplies and equipment.

Supervisor -- employee relationship.

Audits of Headquarters Allowance and Military Funds and non-controlled funds as are authorized by the Chief of Staff to the Governor.

## ARMORY RENTALS

A total of 797 non-military use of armory Rental Agreements was received, processed and approved during the year involving 89 installations. This represents an increase of 16 over calendar year 1965.

The Standard Rental Rate Schedule has proven there will be no conflict with commercial enterprise.

Reports of Armory Rentals submitted by Officers in Charge and Control are screened quarterly.

The comprehensive general liability policy to protect the State of New York, in the amounts of \$100,000,000 for Public Liability and \$50,000 for Property Damage and Products Liability, purchased from the Traveler's Insurance Company for all non-military use of armories and other facilities under the jurisdiction of this Division, was renewed and placed on a State Fiscal Year basis (1 April - 31 March).

The premium amounted to \$16,426.00 a reduction in cost of \$2,116.27, compared to last year's premium.

This cost is recovered by charging the individual lessees a pro-rata share. Coverage does not relieve lessees from the responsibility of providing insurance for other protection, nor does it relieve them of the requirement to furnish a Surety Bond.

## STATE FLAG ISSUE

A total of 656 requests for various sized flags was received in 1966, from Federal agencies, other states, municipalities, organizations and individual sources.

189 -- Miniature New York Flags

427 -- New York State and United States Flags  
( 3' x 5' variety ).

22 -- New York State and/ or United States  
Flags were issued on a loan basis.

18 -- Requests were referred to the Office of  
General Services for appropriate action.

An increase of 396 requests for New York State Flags ( 3' x 5' ) was brought about due to the fact that Division of Military and Naval Affairs policy is to supply gratis upon receipt of request from members serving in the Military Forces of the United States.

## STATE QUARTERMASTER FUNDING

Funds appropriated by the State for the maintenance and operation of the New York State Arsenal, exclusive of personal services for the State fiscal year 1966, totaled \$9,725.00. There has been no change in the appropriation. The level of economy measures and strict rigid management as reported in the previous year continues to be maintained.

Service contract funds (75% Federal - 25% State) for the maintenance and operation of facilities listed below, administered by the Officer in Charge and Control, New York State Arsenal, were allotted and obligated for the Federal Fiscal year 1966-67 as indicated:

	* <u>ALLOTTED</u>
New York State Arsenal, Brooklyn, New York	\$ 85,373.00
CFM Shop B, New York State Arsenal, Brooklyn, New York	\$ 10,697.00
USP&FO Sub-Warehouse, Rochester, New York	\$ 51,085.00

\*Federal share only.

( ) This information extracted from USP&FO - NY records for evaluation purpose only.

As customary, this tabulation includes similar data brought forward from the previous report, making possible through a comparative analysis of Relief Voucher activity, an evaluation of the effectiveness of programs to achieve supply economy within the New York National Guard through the proper care, control, security and utilization of supplies and equipment.

Analysis of the data reveals the following facts concerning the 1966 activity: There was a 21% increase in the total number of Reports of Survey received, but a 31% decrease in the total monetary value: There was 1% decrease in the total number of Statements of Charges and Cash Collection Vouchers received, but a 25% decrease in the total value: There was a 35% increase in the total number of Quarterly Reports of Operational losses received, yet only a 14% increase in the total monetary value. A consolidation of relief voucher activity shows a small increase in the total number of vouchers submitted, as compared to the previous period, but this is offset by the sizeable decrease in the corresponding total dollar value. However, the general indication is that supply control throughout the State Military Forces continues in an excellent manner, notwithstanding the increased use of supplies and equipment incident to SRF activity. A further check on the care and control of government property over the past year, is reflected in the justification of the Reports of Survey submitted. Of a total of 117 Reports processed to Final Action during the period, only 21, or approximately 18%, resulted in pecuniary charges.

The following additional statistics, although not delineated on the chart, are of notable interest, and may be of constructive value to commanders. Of the 155 Reports of Survey received during the reportable period, 56 with a total value of \$23,217.87, were concerned with damage to government vehicles. The total value mentioned is comprised of repair costs for vehicles retained in service, and depreciated values, as authorized in Army Regulations, for vehicles declared uneconomically reparable and accordingly transferred to Army Property Disposal Officers. Of these 56 Surveys, 28 cases, (total value \$11,805.39),— were attributable to damage by accident, (collision with other vehicles and/or objects), and

28 cases, (total value \$11,412.48), were attributable to materiel failure (cracked engine blocks, broken winches, etc.). It is interesting to note further that only 8 of the damaged vehicles were declared uneconomically reparable and accordingly transferred to an Army Property Disposal Officer. The total depreciated value of the 8 vehicles was \$2,541.35.

Another aspect to the reporting of vehicular damage by accident, concerns involvement with civilians. 6 Reports of Survey, received and processed this period, covered damage to government vehicles in accidents involving civilian vehicles. The resultant civilian and military investigations determined the civilian drivers to have been at fault in all cases. Accordingly, the Final Action Authority (Headquarters First Army), held the civilian drivers pecuniarily liable for the damage to the government vehicles. Formerly, this type Report of Survey would have been immediately referred to an Army Staff Judge Advocate by the Final Action Authority, for assertion of a claim against the civilian driver. Now, however, although the State and the involved military personnel have no part in the assessed pecuniary liability, current regulations hold the State initially responsible for collection of the pecuniary charge from the civilian driver or his insurance carrier. If, after a reasonable attempt collection cannot be effected, the State may then request the Army Commander to terminate the State's responsibility for collection and assume collection responsibility himself.

While this procedure adds an additional workload on the individual State, (correspondence to civilians and insurance companies, processing of checks and drafts, preparation of General Releases etc.), the total benefits which may accrue to an Army Headquarters through savings in the time and expense of claims litigation, may well justify the new procedure.

**INCLOSURE 26 (3)**

---

## STATE QUARTERMASTER

### ACCOUNTS

As of 31 December 1966, the following records were being maintained:

2,679 Active Stock Record Accountability Cards

( These cards represent an inventory of 633,987 items ).

237 Memorandum Receipt Accounts

( This total comprises 134 State Armory ( SA ) accounts and 103 State Guard ( SG ) accounts ).

1,497 Cards in the Weapons Serial Number File.

563 Cards in the Typewriter Serial Number File.

1,870 Vouchers containing 31,790 line items were processed during the period.

These vouchers are posted to the Stock Record Cards, the Memorandum Receipt Accounts, and in the case of the movement of weapons and typewriters to the Serial Number Cards, represent more than 64,000 line item entries.

## DISPOSAL OF AMMUNITION

302 1.5 tear gas projectiles with a manufacturer's serviceability expiration date of 1960 and earlier were disposed of during the period.

Armories having a quantity of unserviceable ammunition on hand, (as indicated by review of its Annual Inventory and Inspection Report) were directed to effect turn-in to the State Quartermaster warehouse.

Periodically, accumulated out-dated projectiles were turned over to the New York City Police Department for training purposes. 221 rounds were disposed of by this method.

Armories having small quantities of unserviceable chemical ammunition on-hand and at locations where it was impractical or uneconomical to ship to the State Quartermaster warehouse, were authorized local disposition, i.e. training of armory personnel or turn-over to local police. 81 rounds were disposed of under this authority.

## FALLOUT SHELTER SUPPLIES

A new activity was inaugurated during the period, establishing the accountability for subsistence type fallout shelter supplies. Early in the period, it came to the attention of the Accountable Officer, (SQM), through the examination of Annual Armory Inspection Reports emanating from the Armory Management office, that the State Civil Defense Commission was making direct shipments of supplies to various designated Fallout Shelter Armories, by-passing the Accountable Office in the matter of shipping, intelligence or documentation. To facilitate the reporting of this equipment by the Armory Superintendents involved, and the debiting to stock Record and Memorandum Receipt Account, this branch standardized the nomenclature of the line items and prepared item check list for the 4 kits involved.

Kit, Medical, Type "A"  
Kit, Medical, Type "C"  
Sanitation, Type III  
Sanitation, Type IV

The medical kits received special consideration since one of their components was Phenobarbital Tablets, a narcotic. This item was designated a "controlled" item thereby requiring separate accounting on an individual Division of Military and Naval Affairs Form 8 in the Property Book. Assumption of accountability for these shelter supplies will be a gradual process predicated on their appearance on the Annual Armory Inspection Reports.

At the end of the period, 19 of the 75 designated Fallout Shelter Armories had reported the following total of supplies:

16,160 lbs. Biscuits, Survival  
11,192 lbs. Carbohydrate Supplement  
15,061 lbs. Crackers, Survival  
1,853 ea. Drums, Water, 17½ Gal. Capacity  
1,890 ea. Liner, Water Drum  
44 ea. Kits, Medical, Type "A"  
17 ea. Kits, Medical, Type "C"  
9 ea. Kits, Sanitation, Type III  
163 ea. Kits, Sanitation, Type IV  
8 ea. Kits, Radiological, Shelter CDV-777.

## STATE QUARTERMASTER

### WAREHOUSE OPERATIONS

The State Quartermaster warehouse at Camp Smith comprises four buildings approximating 26,300 square feet. All documentation, receiving, shipping, packing, sorting, inspecting and actual delivery throughout the State is accomplished by one storekeeper.

A re-packing program initiated three years ago is still in progress. All clothing and individual items originally packed in cardboard cartons, some over fifteen-twenty years ago, are being re-packed in standard-size wood boxes with fresh moth and insect-repellent chemicals.

The storekeeper made 39 motor deliveries totaling in excess of 10,030 miles during the year to deliver or pick-up 72,000 pounds of property at State installations.

Common carriers delivered 82,000 pounds to the warehouse and picked up 20,000. Organization vehicles delivered 8,600 pounds and picked up 18,700.

There were 22 separate issues and returns of Post, Camp and Station State property for the use of organizations such as the New York Guard, the State Rifle Team, the Old Guard of the City of New York, etc, using Camp Smith facilities on weekends.

## STATE QUARTERMASTER

### PERSONNEL ACTIONS

During the reporting year, 67 personnel orders were prepared and distributed to units of the New York Army National Guard, State Maintenance and United States Property and Fiscal Office activities covering appointments, changes in status, increases and separations of 916 federally-paid employees. The function was transferred to the Technician Personnel Office effective 1 March 1966.

1,525 travel orders were prepared and issued for federally - paid Administrative Specialists, Staff Assistants, Organizational Maintenance Technicians, State Maintenance personnel and field auditors, as compared to 1,168 travel orders issued in 1965. Federal travel funds in the amount of \$74,086.51 were obligated during the calendar year to cover individual per diem at the rate of \$16.00 per day and transportation costs authorized in connection with travel of federally-paid personnel. This compares to \$53,033.00 obligated during 1965 for similar purposes.

Other administrative duties included, but were not limited to maintenance of leave records, time and attendance reports, compensation reports for 33 state-paid and service-contract employees, typing of form letters, correspondence and reports for the Commanding Officer, State Quartermaster and Assistant Adjutant General, processing and publication of a switchboard schedule, weekend duty roster, office memoranda, issuing of local parking permits, answering credit inquiries and preparation of drill reports for Headquarters Detachment ( Arsenal Section ).

In addition, this section, consisting of two clerks, furnishes 12 man hours per week in the support of Records Retirement Section activities.

**STATE QUARTERMASTER**  
**RECORDS RETIREMENT SECTION ACTIVITY**

13,670 enlisted records and allied documents were received during the year, of which 70% have been integrated into the master files which now total approximately 200,000 records.

In addition to the above continuous activity, 877 call slips from the Military Personnel Section, Division of Military and Naval Affairs, Albany, were processed on a one-day basis. Also, 26 additional call slips were personally submitted by investigators from various Federal and State Intelligence agencies.

1,498 Army National Guard Pay Voucher Summary Sheets (NGB Form 67) were received from the Finance Officer, First United States Army, for integration into the three-year active file. Concurrent action is taken to withdraw and destroy outdated summary sheets.

24 New York Army National Guard units and 26 Air National Guard units transmitted organization historical records for permanent filing in accordance with the provisions of New York Army National Guard Memorandum 345-1, August 1964.

To further expedite the processing of call slips and personal inquiries, a Locator Master Index has been set up for Army and Air records showing by cabinet and drawer the exact location of each units historical records.

All operations of this section are accomplished by one file supervisor with assistance from one clerk from Personnel Section, on a part-time basis.

# UNITED STATES PROPERTY AND FISCAL OFFICE

## STATISTICS

### LOGISTICS DIVISION

#### WAREHOUSE BRANCH:

The Warehouse Branch of the Logistics Division handled 81,639 pieces of freight with an overall total weight of 7,064,273 pounds. The redistribution of newly acquired property and recovery of excess property required 2,365 trips involving 112,535 miles and 8,955 man hours of travel.

Recovery and return of excess property of Federal depots and other government agencies required 1,090 documents for property valued at \$5,075,713.67.

#### TRANSPORTATION BRANCH:

Activity in the Transportation Branch during this reporting period involved 418 transportation requests for military and civilian travel. There were an additional 539 requests for transportation of newly enlisted trainees enroute to Active Army stations for six months training. There were 262 meal tickets furnished for military personnel to subsist while in travel status. A total of 215 government bills of lading were issued for the transportation of freight via commercial carriers.

### AUDIT OFFICE

During the year a total of 277 audit inventories were accomplished. Included in this number were 36 units receiving more than one inventory due to change of command, subsequent to the annual inventory and 96 change of command settlements. Due to the receipt of 22 Forms 76 (Officers: "Separation from Active Service") the provisions of OCS Circular Number 20 were invoked to conduct special settlements for the accounts involved,

## PURCHASING AND CONTRACTING

A total of 2,537 actions for supplies, services and construction repairs and utilities projects for Army units of the New York Army National Guard were processed through this branch during the year (1 Nov 65 - 31 Oct 66) amounting to the money value of \$687,445.00.

Service contracts as follows and in the amounts indicated plus changes were prepared in part and issued:

Army National Guard Service Contracts, Camp Smith	\$ 33,703
Army National Guard Service Contracts, Various	312,620
Air Service Contracts, Six Bases	561,000
Service Contracts (Nike-Herc Sites)	4,200

Approximately 1,420,481 gallons of gasoline, fuel and diesel oil were procured for National Guard units throughout the State via Military Petroleum Supply Agency contracts, credit cards and open market purchases.

Communications billing for 35 federal telephones and three TWX machines were processed by this section for a total money value of \$ 27,798.

Medical care and physical examination documentation in money amounts as follows were processed through this section.

Medical care	-	\$ 7,835.00
Physical Examinations	-	\$ 2,459.00

**TECHNICIAN PROGRAM**  
**MAJOR BUDGET PROJECTS**

The New York Army National Guard technician program operates within five major budget projects, utilizing two major pay systems, i.e., National Guard Classified (NGC) and National Guard Wage Board (NGW), and approximately 125 separate job titles. A brief description of the personnel assigned in each project and their responsibilities follows:

1. Training Operations - Includes the administrative and clerical personnel necessary for the administration, supply and training of New York Army National Guard units.

2. Air Defense - Includes the administrative and operational personnel responsible for maintaining NIKE sites in a continuous state of readiness.

3. Logistics Support Includes -

a. Mechanics required to accomplish first and second echelon maintenance on assigned automotive, powered, artillery, signal and small arms equipment.

b. Personnel qualified to perform higher echelon maintenance and repair of organizational equipment in the combined support maintenance shops.

c. Personnel assigned to assist the United States Property and Fiscal Officer in the issue of, and accountability for, all federal property and funds assigned to the National Guard in the State.

d. The personnel responsible for the repair and maintenance of the aircraft assigned to the New York Army National Guard.

4. State Headquarters - Personnel assigned to Headquarters New York Army National Guard to assist the Commanding General in the conduct of the several programs required of the Army National Guard by the Department of the Army.

5. Civil Defense - Provides the personnel necessary to coordinate the possible military resources available in the State for supporting the Civil Defense mission.

## STATE LEGISLATION

Chapter 77, Laws of 1966, added Section 240-A to the Military Law by designating those organizations to be known as historic military commands.

Chapter 79, Laws of 1966, amended Section 1 of the Military Law with relation to definitions, and expanded the definition of commissioned officer, warrant officer and enlisted person to include female personnel, when so authorized by Federal statute.

Chapter 226, Laws of 1966, amended Section 243 of the Military Law concerning eligibility for Civil Service positions and authorized the deduction of a maximum of six (6) years military service from the age requirements.

Chapter 860, Laws of 1966, amended Section 177 of the Military Law concerning acquisition of real property for armories and other military facilities to permit an increase from 60 to 75% of the tender offer of the amount determined by the Chief of Staff to the Governor to be the value of the claim when the amount of the claim cannot be agreed upon.

Chapter 167, Laws of 1966, amended Sections 1480, 1481 and 1484 of the Penal Law to conform language in the Penal Law with that of the Military Law by use of the words "organized militia."

In addition to the above bills the Chief of Staff to the Governor was requested by the Governor to comment on numerous other bills not necessarily related to State military operations.

The Chief of Staff to the Governor also rendered advise on Military matters to the Military Affairs Committee of the Assembly and the National Defense Committee of the Senate.

## NEW YORK AIR NATIONAL GUARD

### HONORS AND ACHIEVEMENTS

In January 1966, Colonel John E. Blewett, Commander of the 107th Tactical Fighter Group of Niagara Falls, was awarded the Air Force Commendation Medal for his leadership during the Group's participation in Operation Tropic Lightning in 1965. This involved use of F-100 Super Sabre jet fighters in Hawaii in providing close tactical support to the Army's 25th Infantry Division during its training for Vietnam operations. The F-100s were flown across the Pacific Ocean and refueled in flight, marking the first time that an Air Guard Unit had handled such a mission.

Colonel Blewett and the following members of the Niagara Falls unit also received the Air Force Combat Readiness Medal; Lt. Col. Laverne Donner, Majors Joseph Fell, Romolo J. Cochi, Harold T. Schoultz, James C. Cook and Michael Svisco, and Captain Ralph C. Kuehnel.

The 174th Tactical Fighter Group of Syracuse, commanded by Colonel Curtis J. Irwin, won the National Guard Bureau's On-The-Job Training Unit Achievement Award in September for the second time in three years.

In September, Staff Sergeant Donald B. Scott of the 274th Communications Squadron of Roslyn, was selected as the Outstanding Noncommissioned Officer of Fiscal Year 1966 by his unit's parent group, the 253rd Communications Group of the Massachusetts Air National Guard.

In August, Lieutenant Colonel John A. Theisen, Commander of Syracuse's 138th Tactical Fighter Squadron, was awarded the Combat Readiness Medal, the first member of his unit to receive it.

First Lieutenant Vernon D. Nutter of the 138th Tactical Fighter Squadron was given the Daedalian Foundation Orville Wright Achievement Award in August for being the outstanding graduate of his pilot training class at Laughlin Air Force Base. He also received the Flying Training Wing Commander's Outstanding Officer Award.

In October, Technical Sergeant Mathew Kawczynski of the 107th Tactical Fighter Group of Niagara Falls won a first-place award for a black and white photograph in the 2nd Annual National Guard Bureau - National Guard Association Photographic Contest, a nationwide competition.

Technical Sergeant Logan L. Pomella of Schenectady's 109th Military Airlift Group and Staff Sergeant Cornelius G. Moynihan of Syracuse's 174th Combat Support Squadron were nominated as New York State candidates for the Air Force Association's Outstanding Airmen's Award.

The following NYANG personnel were presented New York State Medals during the year for 25 years of "long and faithful service" to the Empire State:

Major Joseph H. Johnson	--	174th Combat Support Squadron
Lieutenant Colonel John J. Carlos		152nd Tactical Control Group
Sergeant Joseph Fiermonte		174th CAMERON Squadron

The 552d Air Force Band of Roslyn combined its musical talents with the 199th Army Band and the 42d Infantry Division Band of the Army National Guard on 29 May to sponsor a public concert at Queens College, Flushing.

Air Guardsmen continued again in 1966 to excel during the New York State Matches at Camp Smith in competition with marksmen from the Army National Guard and the Naval Militia.

Riflemen from the 107th Tactical Fighter Group of Niagara Falls won The Adjutant General's Team Match, The Governor's Cup Rifle Match, the New York State Championship Match, and the New York Air National Guard Championship Match.

The pistol team from Schenectady's 109th Military Airlift Group won the McNab Pistol Team Match and the Sayre Pistol Match.

**ANNUAL FIELD TRAINING  
NEW YORK AIR NATIONAL GUARD**

**27 January - 27 February**

The 174th Tactical Fighter Group of Syracuse conducted flying and gunnery operations at Mac Dill Air Force Base Florida to take advantage of the better flying weather in the southern state.

**9 - 23 July**

The 152nd Tactical Control Group of Roslyn and its 106th Direct Air Support Squadron trained at Otis Air Force Base, Massachusetts.

The 552nd Air Force Band trained at its home station at Roslyn.

**16 - 30 July**

The 107th Tactical Fighter Group of Niagara Falls deployed to Travis Field, Georgia for its field training with the 113th Tactical Fighter Wing of the District of Columbia utilizing its F-100 Super Sabre jet fighters. The 107th Group also sent F-100s and support personnel to Homestead Air Force Base, Florida in February for flying and gunnery training during a period when weather conditions, in upstate New York did not permit such exercises.

The 108th Tactical Control Squadron of Syracuse served at Otis Air Force Base. The newly activated 201st Weather Flight from Amityville trained with the Army National Guard's 42nd Infantry Division at Camp Drum.

**13 - 27 August**

Personnel of Roslyn's 274th Communications Squadron performed their field training at Otis Air Force Base; Fort Devens Massachusetts; Stewart Air Force Base; and at the Suffolk County Air Force Base.
