MUSTER-IN-ROLL

OF

Company G Sixth Regiment New York Guard

I HEREBY CERTIFY that pursuant to S.O. No. 5, 3rd Brigade, N.Y.G., Dec.13,1940, I have this day mustered into the New York Guard the within named men, and that all requirements of the military law and regulations relating thereto have been complied with.

Mathias F. Neubauer

Major, Infantry, New York Guard
Mustering Officer

58 Inclosures

Muster rolls in duplicate will be prepared for all organizations, in advance based upon the roll of the last muster, and handed to the mustering officer when the muster is to begin.

Separate muster rolls are made for each unit of a regiment, battalion or squadron, and for detachments by the immediate commanding officer thereof.

The officer who signs the certificate is responsible for the preparation and correctness of the muster rolls.

The mustering officer is not responsible for the correctness of a muster roll; his responsibility covers only the matter placed by him on the roll; one of the rolls he will return to the officer who signs the certificate for his retained copy, the original he will forward to the Adjutant General of the State.

Muster rolls must account for every man who was a member of the organization at the last muster or who has since joined, and all changes in the status of the members since the last muster.

(List on sheets 1, 2 and 3) all of the present members under captions to indicate grade in proper order of rank, the names below each caption to be numbered consecutively in the column left for that purpose. Sergeants and corporals are entered according to rank in the grade; and privates, 1st class and privates alphabetically in each list. Specialists ratings will be shown in column of remarks. Surnames should be preceded by given names, except in the cases of privates, 1st class and privates, where the given name follows the surname. The date of entry into service of officers is the date on which they took the oath of office and thereby qualified for the office they now hold; for enlisted men, the date of the enlistment in which they are now serving.

All those who became separated from the command since preceding muster and who have not rejoined should be listed (commissioned officers and enlisted men separately) on loss sheets (No. 4) under proper headings showing how they were lost (by promotion, honorable discharge, discharge, dishonorable discharge, transfer, death or dropped for desertion) the cause being stated (in column of remarks) opposite the name in all cases of dis-

[illegible] (if necessary) in column of remarks opposite [illegible] as any change of status (such as promotions or reductions in grade, etc.) that occurred since that time. The losses under each heading should be numbered consecutively in column left for that purpose to assist in the execution of Sheet 5 which is self explanatory.

Gains since last muster, or any changes in status since that date will be indicated in column of remarks directly opposite the name. The letter J, in red ink when practicable, will indicate all gains since last muster.

Commissioned officers promoted since last muster and enlisted men discharged to accept a commission and who have been assigned to the same unit are accounted for both as gains and losses.

The authority (S. O.) under which all changes of status were directed should be indicated in column of remarks opposite the name of the members concerned.

In preparing muster rolls it should be observed which side of the sheet is the binding edge and entries made accordingly.

The recapitulation of Gains and Losses must be filled out carefully and totals must agree; for instance, the aggregate strength of the command at the last muster was 76; the total gain since that date is 20, and the total loss 30, the strength of the command at this muster must therefore be 66; count the actual members of the command and if their total agrees with this number, the result proves the recapitulation. Never permit a balance to be forced: a discrepancy at once shows an error which a careful checking of the roll will reveal.

Finally, over the certificate of the commanding officer is placed the record of the command since the last muster; camp duty, marches, duty in aid of the civil authorities, field small arms practice, etc. This record is confined to a brief statement of the facts.

The rolls having been completed, the entries will be verified by the commanding officer, with the assistance of subordinates, using for such purpose the roll of the last muster, morning report, roll call book and attendance book. It is the duty of superior officers to see that this is done without fail and preceding the muster.

INSTRUCTIONS

This roll will be prepared on typewriter, with black record ribbon. Carbon paper may be employed for extra copies.

Muster rolls in duplicate will be prepared for all organizations, in advance based upon the roll of the last muster, and handed to the mustering officer when the muster is to begin.

Separate muster rolls are made for each unit of a regiment, battalion or squadron, and for detachments by the immediate commanding officer thereof.

If any of those lost joined the command since previous muster, same should be indicated (showing how and when they joined, using abbreviations if necessary) in column of remarks opposite their names, as well as any change of status (such as promotions or reductions in grade, etc.) that occurred since that time. The losses under each heading should be numbered consecutively in column left for that purpose to assist in the execution of Sheet 5 which is self explanatory.

Gains since last muster, or any changes in status since that date will be indicated in column of remarks directly opposite the name. The letter J, in red ink when practicable, will indicate all gains since last muster.

NEW YORK ~~NATIONAL~~ GUARD

INSPECTED AND MUSTERED BY

Ignatius J. Neubauer

1 Incl Major Ignatius J. Neubauer. 6th. Reg. N.Y.G.

INSTRUCTIONS

This roll will be prepared on typewriter, with black record ribbon. Carbon paper may be employed for extra copies.

Muster rolls in duplicate will be prepared for all organizations, in advance based upon the roll of the last muster, and handed to the mustering officer when the muster is to begin.

Separate muster rolls are made for each unit of a regiment, battalion or squadron, and for detachments by the immediate commanding officer thereof.

The officer who signs the certificate is responsible for the preparation and correctness of the muster rolls.

The mustering officer is not responsible for the correctness of a muster roll; his responsibility covers only the matter placed by him on the roll; one of the rolls he will return to the officer who signs the certificate for his retained copy, the original he will forward to the Adjutant General of the State.

Muster rolls must account for every man who was a member of the organization at the last muster or who has since joined, and all changes in the status of the members since the last muster.

(List on sheets 1, 2 and 3) all of the present members under captions to indicate grade in proper order of rank, the names below each caption to be numbered consecutively in the column left for that purpose. Sergeants and corporals are entered according to rank in the grade; and privates, 1st class and privates alphabetically in each list. Specialists ratings will be shown in column of remarks. Surnames should be preceded by given names, except in the cases of privates, 1st class and privates, where the given name follows the surname. The date of entry into service of officers is the date on which they took the oath of office and thereby qualified for the office they now hold; for enlisted men, the date of the enlistment in which they are now serving.

All those who became separated from the command since preceding muster and who have not rejoined should be listed (commissioned officers and enlisted men separately) on loss sheets (No. 4) under proper headings showing how they were lost (by promotion, honorable discharge, discharge, dishonorable discharge, transfer, death or dropped for desertion) the cause being stated (in column of remarks) opposite the name in all cases of discharge. If any of those lost joined the command since previous muster, same should be indicated (showing how and when they joined, using abbreviations if necessary) in column of remarks opposite their names, as well as any change of status (such as promotions or reductions in grade, etc.) that occurred since that time. The losses under each heading should be numbered consecutively in column left for that purpose to assist in the execution of Sheet 5 which is self explanatory.

Gains since last muster, or any changes in status since that date will be indicated in column of remarks directly opposite the name. The letter J, in red ink when practicable, will indicate all gains since last muster.

Commissioned officers promoted since last muster and enlisted men discharged to accept a commission and who have been assigned to the same unit are accounted for both as gains and losses.

The authority (S. O.) under which all changes of status were directed should be indicated in column of remarks opposite the name of the members concerned.

In preparing muster rolls it should be observed which side of the sheet is the binding edge and entries made accordingly.

The recapitulation of Gains and Losses must be filled out carefully and totals must agree; for instance, the aggregate strength of the command at the last muster was 76; the total gain since that date is 20, and the total loss 30, the strength of the command at this muster must therefore be 66; count the actual members of the command and if their total agrees with this number, the result proves the recapitulation. Never permit a balance to be forced; a discrepancy at once shows an error which a careful checking of the roll will reveal.

Finally, over the certificate of the commanding officer is placed the record of the command since the last muster; camp duty, marches, duty in aid of the civil authorities, field small arms practice, etc. This record is confined to a brief statement of the facts.

The rolls having been completed, the entries will be verified by the commanding officer, with the assistance of subordinates, using for such purpose the roll of the last muster, morning report, roll call book and attendance book. It is the duty of superior officers to see that this is done without fail and preceding the muster.
